

The company informs that on 1 March 2021, the board of directors decided to name Samuel Dyer Coriat as new CEO of Camposol, replacing Jorge Luis Ramirez Rubio in such position. Samuel has previous experience as CEO of Camposol (October 2011 to October 2015) and has been deeply involved in the strategic decisions of the company as Chairman of the Board (position that he will keep). He will be fully committed to his new role in the company.

We are very grateful to Jorge, who helped build Camposol in the great company that it is now, and rest assured that he is leaving in the best possible terms.
