30 SEPTEMBER 2026 CIMIC'S LEIGHTON ASIA SECURES DATA CENTRE PROJECT IN HONG KONG

CIMIC Group company Leighton Asia has been awarded a new data centre project in Hong Kong by an existing multinational technology client.

The scope of work covers the fit-out, testing and commissioning of a large-scale, mission-critical digital facility. The project builds on Leighton Asia's successful delivery of an earlier data centre development for the client and represents a continuation of a trusted relationship.

CIMIC Group President and Executive Director Roberto Gallardo said:

"Securing repeat work from an existing client is a powerful endorsement of Leighton Asia's expertise and commitment to excellence. As demand for digital infrastructure continues to grow across the region, we are well positioned to support clients with the specialised capabilities required to deliver complex data centre projects."

Leighton Asia Managing Director Brad Davey said:

"This award demonstrates the trust our client places in Leighton Asia and our people. It reflects the quality of our ongoing delivery and our ability to provide specialised solutions for mission-critical facilities. We are proud to build on this valued relationship and support the infrastructure underpinning Asia's digital future."
