PART I - BUSINESS AND GENERAL INFORMATION

Item 1. Business

Rizal Commercial Banking Corporation (RCBC or the Bank) is a universal bank in the Philippines that provides a wide range of banking and financial products and services. It has total resources of P645 billion and total networth of P81.17 billion, including minority interest, as of end-December 2018. The Bank ranked eighth (8th) in terms of assets among private local banks. In terms of business centers, the Bank, excluding government-owned and foreign banks, ranked sixth (6th) with a consolidated network of 509 business centers inclusive of 12 extension offices and supplemented by 1,593 ATMs as of December 31, 2018.

The Bank offers commercial, corporate and consumer lending products, cash management products, treasury products, and remittance services. RCBC also enters into forward currency contracts as an accommodation to its clients and as a means of managing its foreign exchange exposures. The Bank and its subsidiaries (hereinafter referred to as the Group) are engaged in all aspects of traditional banking, investment banking, retail financing (auto, mortgage/housing loans, credit cards and microfinance loans), remittance, leasing, foreign exchange and stock brokering.

The Bank, incorporated under the name Rizal Development Bank, began operations as a private development bank in the province of Rizal in 1960. In 1963, the Bank received approval from the Central Bank of the Philippines to operate as a commercial bank and began operations under its present name, Rizal Commercial Banking Corporation. RCBC obtained its universal banking license in 1989 and has been listed on the Philippine Stock Exchange Inc. (PSE) since 1986.

RCBC's common shares are 41.56% directly and indirectly owned by Pan Malayan Management and Investment Corporation (PMMIC), a company incorporated and domiciled in the Philippines. PMMIC is the holding company of the flagship institutions comprising the Yuchengco Group of Companies (YGC) and other investments. Other significant investors include the World Bank's International Finance Corporation and Cathay Life Insurance Co. Ltd., a wholly-owned subsidiary of Cathay Financial which is the largest publicly listed financial holding company in Taiwan.

The registered address of RCBC is Yuchengco Tower, RCBC Plaza, 6819 Ayala Avenue, Makati City.

Through its universal banking license, the Bank is allowed to perform a number of expanded commercial and investment bank functions and to invest in the equity of a variety of allied and non-allied financial and non-financial undertakings.

The Bank's subsidiaries are as follows:

RCBC Capital Corporation (RCBC Capital), a 99.96% owned subsidiary, was established in 1974 as the Bank's investment banking subsidiary. It offers a complete range of investment banking and financial consultancy services which include (i) the underwriting of equity, quasi-equity and debt securities on a firm or best efforts basis for private placement or public distribution; (ii) the syndication of foreign currency or peso loans; and (iii) financial advisory services.

RCBC Securities, Inc. (RCBC Securities), a wholly-owned subsidiary of RCBC Capital, is engaged in the electronic and traditional trading of listed securities and in providing corporate and market research. ***RCBC Bankard Services Corporation (RCBC Bankard)***, a wholly-owned subsidiary of RCBC Capital is engaged in providing services to the credit card business of the Bank.

RCBC Savings Bank, Inc. (RSB), a wholly-owned subsidiary of the Bank, was established in 1996 as the Bank's consumer banking arm. RSB provides deposit products, real estate loans, auto loans and personal loans. As of end-December 2018, RSB had 154 business centers and 457 ATMs nationwide. Subject to Regulatory approval, RSB will be merging with RCBC on July 1, 2019 as approved by the RCBC Board on November 26, 2018, by the RSB Board on November 27, 2018 and by the Stockholders in February 26, 2019.

RCBC Forex Brokers Corporation (RCBC Forex), a wholly-owned subsidiary of the Bank, was incorporated in 1998. RCBC Forex is primarily engaged in dealing and brokering currencies in foreign exchange contracts with local and international clients. In 2016, the foreign exchange business of RCBC Forex was consolidated into RCBC Treasury Group such that RCBC Forex will only continue dealing with money changers, foreign exchange dealers and remittance agents. This will provide synergies such as elimination of redundancy, generation of higher income and meaningful cost savings, and maintenance of client service/relationship. The integration will also enhance Treasury group's presence in the provinces while Forex operations will contribute extensive experience in documentary review.

RCBC International Finance Limited (RCBC IFL), a wholly-owned subsidiary of the Bank, was established in July 31, 1962 and is the Bank's overseas branch in Hong Kong. **RCBC Investment Ltd. (RCBC IL)** is a 100% owned subsidiary of RCBC IFL established on August 1, 1980 to engage in the business of remittance, money exchange, retail lending and investment. RCBC IL was placed under dormant status in May 2009 and RCBC IFL took over its businesses using the Money Service Operator's (MSO) and Money Lender's (ML) Licenses.

RCBC North America, Inc. (formerly RCBC California International, Inc.), a wholly-owned subsidiary of the Bank (83.97% owned by RCBC; 16.03% indirectly owned through RCBC IFL), was a foreign exchange remittance office in California. The company ceased its operations in March 2014 and was officially dissolved in May 2018.

RCBC TeleMoney Europe S.p.a., a wholly-owned subsidiary of the Bank, was established in 1995 in Rome, Italy to engage in the remittance business. The company ceased its operations in March 2016.

Merchants Savings and Loan Association, Inc. (now operating under the name & style - Rizal Microbank, a thrift bank), a 98.03% owned subsidiary, was acquired on May 15, 2008 to engage in microfinancing and development of small businesses. Rizal Microbank has 18 branches and 5 microbanking offices with operations in Southern Luzon and Mindanao. Rizal Microbank moved its Head Office (HO) and branch from Makati City to Davao City in April 2011.

RCBC Leasing and Finance Corporation (formerly First Malayan Leasing and Finance Corporation) (RCBC LFC), a 99.31% owned subsidiary of the Bank acquired in March 2012, is a pioneer in the leasing and financing industry in the Philippines as the company started its operations in 1957. RCBC LFC is a non-bank financial institution with a quasi-banking license granted by the Bangko Sentral ng Pilipinas. It serves the requirements of corporate, commercial and consumer markets through its innovative loans, leases and investment products. **RCBC Rental Corporation** is a wholly-owned subsidiary of RCBC LFC engaged in renting and leasing business machines, transport vehicles and heavy equipment under an operating lease arrangement.

Niyog Property Holdings, Inc. (NPHI), a wholly-owned subsidiary of the Bank, was incorporated on September 13, 2005 to purchase, subscribe for or otherwise dispose of real and personal property

of every kind and description but not as an investment company. It is 48.11% owned by the Bank and 51.89% indirectly owned through RSB.

RCBC-JPL Holding Company, Inc. (formerly Pres. Jose P. Laurel Rural Bank, Inc.) (RCBC-JPL), 99.41% owned, was renamed with a corresponding change in primary business to handle the disposition of the remaining assets of the former JPL Rural Bank. On April 1, 2012, RMB acquired selected assets and liabilities of JPL Rural Bank.

Products and Services. Through the years, RCBC has developed a wide range of financial products and services covering deposit taking, international banking services, remittance, lending, project financing and merchant banking.

In 2018, the following additional products and electronic services were introduced:

Savings Account

Flexi Savings account – a customizable savings account that allows client to choose between ADB based and Fee based account.

Basic Deposit Account – a savings account that was launched in support of BSP’s Financial Inclusion initiative (BSP Circular 992) - No Frill Savings Account. This provides the bank to widen the reach specifically to the mass market.

TOTAL	36,939	100.0%	31,864	100.0%	30,251	100.0%

*Restated

The three (3) foreign subsidiaries - RCBC International Finance Limited (Hong Kong), RCBC North America, Inc. (USA) and RCBC Telemoney Europe (Italy) - accounted for 0.02%, 0.04% and 0.12% of gross revenues for the years 2018, 2017 and 2016, respectively.

Competition. The Bank faces competition from both domestic and foreign banks as a result of the liberalization of the banking industry by the Government. Since 1994, a number of foreign banks have been granted licenses to operate in the Philippines. These foreign banks have focused their

operations on large corporations and selected consumer finance products, such as credit cards. They have increased competition in the corporate market and caused more domestic banks to focus on the commercial middle-market, placing pressure on margins in both markets. Mergers, acquisitions, and closures reduced the number of players in the industry from a high of 50 upon the liberalization of rules on the entry of foreign banks to twenty (20) universal and commercial banks. With the inclusion of 25 foreign banks, this brings the total to 45 in 2018.

Competition in corporate banking is intense especially with the larger banks. Pricing of loans and yield of deposit and investment products are factors limiting the expansion in this area. As such, the focus has been diverted to SMEs, cash management services, and micro-financing for the expansion of the Bank's client-base, loan portfolio and revenues. The Bank has also continued its emphasis on product and service improvement through investment in technology and systems.

Customers. The Bank's key market segments are consumer, top corporate and middle market to whom it offers consumer, commercial and corporate loans and asset and cash management services. These services are provided through its branch network, ATMs and electronic delivery channels (internet and mobile banking).

To better serve the needs of its clients, the Bank has segmented its market to the following:

a) Corporate/Institutional Market

The National Corporate Banking Group (NCBG) manages the banking requirements of top-tier corporations. Under the Group are specialized segments that implement marketing and account management strategies to the specific business sectors it serves.

- The Local Corporate Banking Segment manages relationships with large domestic corporations covering industries such as power, real estate, telecommunications, mining, and transportation, among others. The group actively participates in various infrastructure developments involving project finance and loan syndication.
- The Chinese Banking Segments cater to the banking needs of all traditional Filipino-Chinese mainly located in the Downtown / Uptown Chinatown Area. Clients would include small, mid-sized and large accounts. Our 2 Chinese Segments operate out of the traditional Chinese hubs in Binondo and Kalookan.
- The Emerging Corporates Segment focuses on large middle market accounts within Metro Manila often referred as the "Next 500 Corporations". These are mostly family corporations that have grown over the years and are ready to move into the next stage of their business cycle.

The Conglomerates & Global Corporate Banking Group (C&GCBG) manages the unique and complex requirements of Conglomerates, Multinationals and Ecozone-based companies.

- The Conglomerates & Strategic Corporates Segment manages Conglomerates and corporations that are deemed to result in a mutually strategic relationship.
- The Global Ecozone Segment manages all Japanese and Korean accounts within and outside the Ecozones as well as other multinationals operating within the Economic Zone Areas.

- In 2012, a partnership with Resona Bank of Japan, the fourth largest bank in Japan, was forged to provide assistance and support to Resona's clients planning to invest as well as those already operating in the Philippines.
- A Memorandum of Understanding with Philippine Economic Zone Authority was entered to further promote foreign direct investments and foster business partnerships between Filipino and Japanese companies in 2013.
- The business tie-up between The Shoko Chukin Bank and RCBC were sealed last August 2018. This will enable RCBC to service clients and new investors from the provincial area in Japan, aside from Tokyo, Metropolitan area and Osaka, Kansai Region.
- Business Cooperation Agreement with Korea's number one (1) Bank (in terms of Assets), Kookmin Bank, were concluded in September 2018 in Seoul, South Korea.

b) SMEs/Commercial Middle Market

The Commercial and SME Banking Segment (CSME) caters to the financial needs of the country's small businesses or the SMEs and the Commercial Middle Market segments. CSME's SME Banking provide a holistic approach serving both the financial (e.g. loans, deposits, investments, insurance, etc.) and non-financial needs (e.g. networking, financial literacy trainings, etc.) of client to help them grow their business. Clients are the entrepreneurs located in different parts of the country and spread in various industry sectors such as manufacturing, wholesale & retail trade, construction, hotels, agriculture, and healthcare, among others.

As part of its initiative to broaden market coverage, CSME focused on the provincial sector where growth opportunities abound but remained relatively untapped. It embarked on initiatives that provide financial inclusion and stability to Filipino entrepreneurs especially those with limited access to capital. With CSME's 14 Lending centers and 14 satellite offices, these entrepreneurs were given access points in strategic locations throughout the various regions in the country.

c) Consumer/Retail Market

RCBC offers a suite of products and services to the Consumer / Retail Market across its distribution network. Aside from a range of deposit variants that best suit the client's profile and needs, products from Treasury, UITF, Bancassurance (both life and non-life), credit card and consumer loans are made available and easily accessible. Retail lending facilities geared towards sole proprietors and small businesses are available as well for additional business capital requirement. The Bank continues to broaden its reach by increasing its branch & ATM networks in strategic growth areas plus the strong thrust to promote its digital channels like online pre-staging of account application and financial transaction in RCBC Touch Q (RCBC's Smart Queuing System), Website, Facebook and Retail Online Banking (Internet and Mobile).

RCBC Savings Bank

RSB, a wholly-owned subsidiary, was established as the consumer banking arm of RCBC to cater to retail clients. RSB offers its customers a wide range of deposit, loan, treasury and trust products, and auxiliary services (deposit pick-up, bills payment and others). RSB's primary mandate is the generation of consumer loans such as auto, housing, personal and salary loans for the Group.

RCBC Bankard

Credit card industry key player RCBC Bankard had another successful year in 2018. Spurred by strong acquisition, aggressive top-of-wallet usage offers, and well-executed targeted campaigns, RCBC Bankard surpassed the growth in its key target areas vis-à-vis 2017 performance resulting to the following: (a) 19.92% increase in card base from 579,469 to 694,896, (b) 25.43% Increase in Issuing Billings from P39.13 Billion to P49.08 Billion (c) 10.64% increase in volume acquired, from P20.58 Billion to P22.77 Billion and (d) 31.32% increase in Credit Card Receivable Outstanding from P16.41 Billion to P21.55 Billion.

RCBC Bankard also persisted in its effort to enhance the value proposition of the cards to a wider base of customers. It launched several innovative cards products including the RCBC Bankard JCB, a premium card that provides distinct privileges including receiving more rewards points for card purchases in Japan. It also introduced its first fuel co-brand, the Phoenix RCBC Bankard Mastercard which provides 5% rebate for fuel purchases in participating Phoenix stations and rewards points for all other purchases. Further, RCBC Bankard also launched its first airline co-brand with the world's best low-cost carrier, AirAsia. RCBC Bankard ended the year with the launch of the Millennial-focused Flex and Flex Gold Visa. Said cards provide double rewards points to up to three categories relevant to the millennials.

To align with its mission of fulfilling its role as a responsible corporate citizen through active involvement in nation-building and humanitarian causes, it committed to building 20 houses in Cavite, in partnership with Gawad Kalinga.

As a testament to its outstanding achievements, RCBC Bankard was a recipient of coveted international awards including Best Card Offering-Philippines at the 5th International Finance Magazine Asia Awards, Highly Commended, Best Card Offering, South East Asia at the 2018 Retail Banker International Asia Trailblazer Awards, and Best Customer Loyalty Program at the Global Retail Banking Innovation Summit & Awards 2018.

Rizal Microbank

Rizal MicroBank is the thrift banking arm of RCBC that is focused on providing a suite of financial products and services to the "bottom of the pyramid", specifically the highly entrepreneurial segment of the microenterprise sector. Over 90% of households still remain unbanked and under-served, thus, providing Rizal MicroBank with a huge potential market for its microfinance services. In addition to its focus on the microenterprise segment, Rizal Microbank has been providing since 2013 business loan products intended for the sub-small enterprise segment or the so-called "missing middle"—comprising of small entrepreneurs whose loan requirements put them above microfinance and yet whose financing requirements are still below the lending floor of small & medium enterprise loans. In 2015, Rizal Microbank introduced an agricultural loan using the value chain

finance framework/approach in cooperation with the International Finance Corp. (IFC). The agricultural loan product seeks to provide financing to agricultural value chain players such as traders, consolidators, aggregators, processors who are responsible in making something out of the produce of farmers and bringing them into their final market here in the Philippines and abroad. In addition, the foray into agricultural lending through the value chain framework/approach aims to provide the bank deeper insights into the agriculture sector and allow it to design and offer financial products and services specifically tailored fit to farmers engaged in production. The last initiative is something that RCBC and Rizal MicroBank are seriously studying in the light of the fact that most of those unbanked and underserved are found in the rural and farming areas of the country.

d) Overseas Filipino Workers

The steady number of Filipinos working and/or living abroad is a huge market. Given that, the Bank reaches out and offers a range of automated remittance services that are convenient and reliable to this wide network of Global Filipinos, both land-based and sea-based. The remittance arm of the bank caters not just to retail but to corporate clients as well. These include shipping and manning companies that provide payroll services to their employees, consequently utilizing the remittance service every payday. The bank also caters to their beneficiaries in the Philippines who receive these remittance funds.

RCBC Telemoney, the Bank's remittance brand, has been one of the stronger players in the business, spanning more than 25 years of service. With presence overseas through its own subsidiary in Hong Kong and other international tie-up partners like banks and money exchange/transfer business, it strives to capture significant market share of the remittance business by continuously providing excellent customer service. Through the years, the brand has established a strong foothold in OFW-saturated countries like Saudi Arabia, United Arab Emirates, Kuwait, Bahrain, Japan, and USA as well as those with growing OFW markets like Malaysia, Europe, and Canada. RCBC Telemoney is present in 26 countries and remains relentless in its pursuit to expand the network of traditional and digital tie-up partners worldwide in order to offer the best service to fellow Filipinos abroad.

e) High Net Worth Individuals Market

RCBC Wealth Management was formally set-up in 2007 to cater to the financial and investment requirements of the high net worth individuals. A dedicated Relationship Manager coordinates all the services needed to manage the financial matters of the high net worth client, and guides the client in making informed investment decisions, while ensuring privacy and confidentiality at all times. With a thorough understanding of the client's investment needs, performance objectives and risk tolerance, the Relationship Manager provides investment opportunities from different asset classes through an open architecture platform.

RCBC Wealth Management has offices in Makati, Binondo, Caloocan, Greenhills, Quezon Avenue, Cebu and Davao.

Digital Banking. Digital Banking Group recognizes that with innovation and technology, RCBC will be able to orchestrate relevant every day financial services to help sustain various ecosystems that focus on supporting customers' and communities' varied goals. The Group's goal is to be an intrinsic enabler of our customers' everyday lives by providing secure, seamless and convenient digital banking experience for all.

For individuals, the Group focuses on empowering and enabling them to participate in the growing e-commerce market – starting from educating them via social media about online threats and security to providing them with safe and convenient tools and platforms for payments. This includes the Group's efforts in expanding and improving its Card Payment Solutions, Automated Teller Machines (ATMs) and Retail Internet and Mobile Banking Channels. Additionally, using virtual cards, the Digital Banking Group is able to attract new customer segments to RCBC.

For small and medium enterprises (SMEs), the Digital Banking Group aims to help them fast track their acquisition of new customers and/or expedite the expansion of their network of potential partners and suppliers through a digital ecosystem that will integrate their non-financial services. These relationships can then be strengthened and deepened by enabling their payments and collections via RCBC Cash Express and RCBC ePiso.

For large corporates, the Group supports their objective to take care of their employees and partners, and opens up other avenues to help them with their financial needs. ATM is one enabler to help employers take care of their employees. The use of various types of cards to enable payments and disbursements is another area Digital Banking Group currently helps with via creation of cards that can have RFID and/or tracking functions on top of these being used as employees' wallets.

For the unbanked and the underserved, the Group takes advantage of its partners' channels by building digital ecosystems that will make the Bank's products and services accessible and available even in far-flung areas. The Group's efforts to expand the Bank's footprint through a wider network of neighborhood merchants through its Mobile Point-of-Sale (mPOS) will help service any and all banked client in remote areas without them having to travel to the nearest city to find the closest ATM or bank branch. Furthermore, by ushering the Bank's introduction of the pioneering digital cash in the country and in Southeast Asia, the Group aims to revolutionize day-to-day commerce by providing a secure, affordable, fast and efficient mode of payment for consumers and businesses which are heavy cash users, bringing the country closer to a cashless economy. The underserved and the unbanked or pure cash users comprise a big part of the Philippine population that can be brought into the RCBC fold so that we can help them go higher up in the rung of financial stability.

Transactions and/or Dependence on Related Parties. The information required is contained in item 12 on page 98.

Principal Terms and Expiration Dates of All Patents, Trademarks, Copyrights, Licenses, Franchises, Concessions, and Royalty Agreements Held. The Bank has obtained the registration of the marks "RCBC" (one word mark and two composite marks of the same name), "RCBC a YGC Member and Logo", "RCBC Capital Corporation a YGC Member and Logo", and "Rizal Microbank a Thrift Bank of RCBC and Design," "RCBC Land, Inc. a YGC Member and Logo," "RCBC Realty Corporation & Logo," and "RCBC Plaza & Device," and "We Believe In You" with the Intellectual Property Office (IPO) at the Department of Trade and Industry of the Philippines. The Bank also has pending applications for the registration of the marks "eWMN," "iSave," and "GoSavers." The Bank believes that this is a common practice in the banking industry in the Philippines. The Bank has not been the subject of any disputes relating to its intellectual property rights.

Effect of Existing or Probable Governmental Regulations on the Business. The normal operations of the Bank is not adversely affected by any existing governmental regulation nor is it expected that any probable governmental regulation would have a material adverse effect on the operations of the Bank.

Amount Spent on Research and Development Activities. The Group's total investment in IT Software is P179 million in 2018, P304 million in 2017 and P294 million in 2016. Percent (%) to total revenue is 0.68% in 2018, 1.21% in 2017 and 1.29% in 2016. This is also disclosed in Note 15 of the AFS as part of the movement of the Group's software.

Employees. The Bank, excluding subsidiaries, has 1,757 non-officers from 1,778 in 2017 and 2,759 officers from 2,676 in 2017 or a total manpower of 4,516 as of December 31, 2018 compared to 4,239 last year. The increase in the number of employees was mostly a result of the expansion in the Bank's branch network. Although not all non-officer employees are members of the RCBC Employees Association, all are covered by the Collective Bargaining Agreement (CBA). CBA covered period is from 2016 – 2021. Projected full year 2019 headcount is approximately 5% of the December 2018 total manpower or 4,742. All of the Bank's non-managerial employees, other than those expressly excluded under the collective bargaining agreement, are represented by an independent union, the RCBC Employees Association. In December 2016, the Bank (not including its subsidiaries) and the RCBC Employees Association agreed on the 3-year economic provisions and the 5-year non-economic terms of the collective bargaining agreement for the period 01 October 2016 to 30 September 2021.

The parent bank has not suffered any strikes nor was there any threat of a strike as a result of a dispute in the past five years, and the management believes that its relationship with its employees and the union is good.

The supplemental benefits that the Bank has for its associates include hospitalization, medical and dental benefits, group insurance and bereavement assistance. Associates are also entitled to vacation and sick leaves.

The Bank continues to invest in its employees through various training programs strategically focused on customer service, sales planning and management, product knowledge, leadership, risk management, and technical skills.

Risk Management. The Bank is exposed to risks that are inherent to its lending and trading businesses and the environment in which it operates. The Bank's goal in risk management is to ensure that it understands, measures and monitors the various risks that arise from its business activities, and that it adheres strictly to the policies and procedures which are established to address these risks.

The Bank's Board of Directors (BOD) ultimately takes accountability for all the risks taken, the tolerance for these risks, and the manner by which these same risks are managed. In the interest of promoting efficient corporate governance, however, the BOD has created committees to perform oversight responsibilities. Five committees of the BOD are relevant in this context:

- The **Executive Committee (EXCOM)**, which meets weekly, decides, among others, on large counter-party credit facilities and limits. Next to the BOD, it is the highest approving body in the Bank and has authority to pass judgment upon such matters as the BOD may entrust to it for action in between meetings.

- The **Risk Oversight Committee (ROC)**, which meets monthly, carries out the BOD's specific oversight responsibility for risk management on a consolidated level, covering credit, market and operational risks under Pillar 1 of the Basel II framework; as well as the management of other material risks determined under Pillar II and the Internal Capital Adequacy Assessment Process (ICAAP). Risk limits and credit policies are reviewed and approved by the ROC.
- **Anti-Money Laundering Board Committee** – The Anti-Money Laundering Board Committee (AML Board Com) is constituted by the Board of Directors for the purpose of carrying out its mandate to fully comply with the Anti-Money Laundering Act, as amended, its Revised Implementing Rules and Regulations (ML/TF) and all related Anti-Money Laundering and Counter Terrorist Financing Regulations; and to ensure that oversight on the Bank's compliance management is adequate.
- The **Audit and Compliance Committee**, which meets monthly, reviews the results of Internal Audit examinations, recommends remedial actions to the BOD as appropriate and oversees the Bank's Compliance Function.
- The **Related Party Transactions (RPT) Committee**, which meets monthly and as necessary, reviews RPT's to determine whether or not the transaction is on terms no less favorable to the Parent Company than terms available to any unconnected third party under the same or similar circumstances. On favorable review, the RPT Committee endorses transactions to the Board for approval.

Four senior management committees also provide a regular forum, at a lower-level, to take up risk issues:

- The **Credit and Collection Committee (CRECOL)**, chaired by the Chief Executive Officer (CEO) and Deputy CEO as its Vice-Chairman and composed of the heads of credit risk-taking business units and the head of credit management segment, meets weekly to review and approve credit exposures within its authority. It also reviews plans and progress on the resolution of problem loan accounts.
- The **Asset/Liability Committee (ALCO)**, chaired by the Treasurer of the Parent Bank and with the participation of the CEO and key business and support unit heads including the President of RSB, meets weekly to appraise market trends and economic and political developments. It provides direction in the management of interest rate risk, liquidity risk, foreign currency risk and trading and investment portfolio decisions. It sets prices/rates for various asset and liability and trading products in light of funding costs and competitive and other market conditions. It receives confirmation that market risk limits (as described in the succeeding pages) are not breached; or if breached, provides guidance on the handling of the relevant risk exposure in between ROC meetings.
- The **Related Party Transactions Management Committee (RPT ManCom)**, composed of select Group Heads of the business units as specified in the charter or their respective designates. It meets monthly to review and approve proposed RPT below the materiality threshold or those that do not require Board approval for the purpose of determining whether or not the transaction is on terms no less favorable to the Bank than terms available to any unconnected third party under the same or similar

circumstances. On favorable review, the RPT ManCom approves the transaction and submits the same to the BOD for confirmation.

- The **Anti-Money Laundering Management Committee (AMLManCom)**, chaired by the Chief Compliance Officer, meets weekly for the evaluation of the suspicious transaction reports (STRs) reported by different units before submission to the Anti-Money Laundering Council. The AMLManCom exercises authority over all accounts considered suspicious under the Anti-Money Laundering Act (AMLA), with the principal purpose of assisting the Board in fulfilling the following oversight responsibilities.

Capital Adequacy Management. In addition to the risk management systems and controls, the Group holds capital commensurate with the level of risks it undertakes in accordance with minimum regulatory capital requirements. This interaction of risk and capital management is best expressed in the Bank's framework for its ICAAP, which is a continuous evaluation of capital adequacy versus the current and prospective risk profile of the Group.

Major Risks Involved

- a) **Credit Risk** – Risk of loss arising from a counterparty's failure to meet the terms of any contract with the Bank or otherwise perform as agreed. The Bank is exposed to credit risk as trading counterparty to dealers and customers, as direct lender and as a holder of securities. Categories of credit risk include contingent credit risk (risk that potential counterparty or customer obligations become actual and will not be repaid on time), country risk (risk that actions of sovereign governments or other uncontrollable events will adversely affect the ability of counterparties or customers to fulfill obligations to the Bank), underwriting risk (risk that an issue will lose value after launching but before trading in the secondary markets), and custody risk (risk that arises when the Bank has assets in the form of securities entrusted to a third party as a custodian).

The Bank's overall goal of credit risk management is to maximize its rate of return by maintaining credit risk exposure within approved parameters. The Bank's credit policies are established by the Risk Oversight Committee and are set out in the Bank's Credit Policy Manual.

- b) **Market Risk** – Risk of loss arising from movements in market prices. The primary determinant of market risk is the volatility of the relevant market for a business line. The market risks of the Bank are: (a) foreign exchange rates, (b) interest rates, (c) equity prices and (d) commodity prices.

To manage market risks inherent in the Bank's portfolio, three related measures of risk values are estimated or established:

- The sensitivity of the position or portfolio to a movement in the market risk factor to which it is exposed;
- The volatility of the position (the maximum expected movement in the market risk factor for a given time horizon at a specified level of confidence); and
- The value-at-risk (the likely impact on earnings for a given time horizon due to expected movements in the market factors).

- c) **Foreign Currency Risk** – The BSP has numerous regulations related to foreign currency management. The Bank complies with all of these, including limits on foreign currency exposures, liquidity reserves and types of currencies allowed for trading.

The Bank's risk measurement system incorporates risk factors for each different foreign currency. Foreign exchange positions are generally classified as trading positions and are marked-to-market at least daily. Foreign exchange forwards are classified at inception as either "trading" (outright open positions without an offsetting foreign exchange contract) or "hedging" (positions with an offsetting foreign exchange contract, generally part of a foreign exchange swap transaction).

- d) **Interest Rate Risk** – The Bank follows a policy on managing its assets and liabilities so as to ensure that exposure to fluctuations in interest rates is kept within acceptable limits. The Bank's risk measurement system addresses different risk factors of different categories of instruments within each currency where the Bank holds interest rate sensitive positions.

ALCO meets at least weekly to set rates for various asset and liability and trading products. In pricing interest rates, foreign exchange and fee-based products, ALCO considers funding costs, market conditions, transaction volumes, and competitors' rates, among others.

The interest rate sensitive instruments of the Bank's trading and investment portfolio are covered by a system of loss limit and Management Action Trigger ("MAT") controls which quantify management's tolerance for losses on year to date and month to date cumulative loss. In addition, value-at-risk ("VaR") is computed per product group to determine potential loss.

The Bank employs "gap analysis" to measure the interest rate sensitivity of its assets and liabilities. The asset/liability gap analysis measures, for any given period, any mismatch between the amounts of interest-earning assets and interest-bearing liabilities which would mature, or would be subject to re-pricing, during that period.

- e) **Liquidity Risk** – Risk of loss arising from the Bank's inability to meet its obligations when they come due without incurring unacceptable losses, due to: (a) the inability to liquidate assets or obtain adequate funding and (b) the inability to easily unwind or offset specific exposures without significantly lowering market prices because of inadequate market depth or market disruptions.

The Bank's liquidity policy is to manage its operations to ensure that funds available are more than adequate to meet demands of its customers and to enable deposits to be repaid on demand or upon maturity. The main sources of the Bank's funding are capital, core deposits from retail and commercial clients and wholesale deposits. The Bank also maintains a portfolio of high quality liquid assets to further strengthen its liquidity position. The Bank ensures compliance to the Liquidity Coverage Ratio and Net Stable Funding Ratio. At least once annually, the Bank presents a request for liquidity limits to the Risk Oversight Committee for final approval and ratification by the Board of Directors. The Bank's Treasury formulates a funding plan that effectively serves as a projected funding requirement based on assumptions from the forecasted balance sheet.

To ensure that the Bank has sufficient liquidity at all times, the Bank formulates a contingency plan using extreme scenarios of adverse liquidity and evaluates the Bank's ability to withstand these prolonged scenarios. The contingency plan focuses on the Bank's strategy for

coordinating managerial action during a crisis and includes procedures for making up cash-flow shortfalls in adverse situations. The plan details the estimated amounts of funds available and the scenarios under which it could use them.

- f) **Operational Risk** – Risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. Operational risk includes the risk of loss arising from various types of human or technical error, settlement or payments failures, business interruption, administrative and legal risk issues and systems not performing adequately.

The Bank maintains departmental operations manuals that are periodically updated. The Bank has also developed a Business Continuity Plan, based on several crisis severity levels, which is tested at least annually and updated for any major changes in systems procedures. A complaints log, which is reviewed by management, exists for each business area for logging, monitoring and follow-up on customer complaints.

To ensure that critical transactions are properly handled, the work of one person is verified by another. Items of value are under joint custody.

The Bank places emphasis on the security of its computer system and has a comprehensive IT security policy. The Bank designates a security administrator independent of the front office who is responsible for maintaining strict control over user access privileges to the Bank's information systems. The Bank's IT Shared Services Group has a Disaster Recovery Plan to ensure business continuity, recovery of critical data and uninterrupted processing of transactions in the event of a disaster.

- g) **Regulatory Risk and Compliance Risk** – Regulatory risk is the risk of loss arising from probable mid-stream changes in the regulatory regime affecting current position and/or strategy. Compliance risk is the risk of loss resulting from failure to comply with laws, regulations, rules, related self-regulatory organization standards, and codes of conduct applicable to its banking activities. The Bank's Compliance Program, the implementation of which is overseen and coordinated by the Compliance Office, is the primary control process for regulatory risk issues, including money laundering and terrorist financing risks. The Compliance Office is responsible for communicating and disseminating new rules and regulations to all units, analyzing and addressing compliance issues, performing periodic compliance testing on business centers and Head Office units and reporting compliance findings to the Audit and Compliance Committee and the Board of Directors. On a case-to-case basis, when the Audit and Compliance Committee is not immediately available, the Compliance Officer may initially report urgent matters to the President and Chief Executive Officer, and thereafter to the Audit and Compliance Committee.

- h) **Reputation Risk** – Risk of loss arising from negative public opinion. While the Bank holds that everyone plays a part in the management of its good name, it has nevertheless tasked a specific body – the Marketing Committee (MarComm) – to execute strategies towards the management of its reputation. The MarComm has the following objectives:

- To serve as venue for surfacing and managing issues that affect, or tend to affect the public's perception principally of the Bank, and by extension, the members of the Yuchengco Group of Companies (YGC);
- To design, recommend and, once approved, implement public relation strategies and/or campaigns that are designed to enhance the Bank's positive public image, avert any

potential negative perception arising from looming reputation issues, and contain or minimize any incurred or continuing damage to the Bank's image arising from subsisting negative public information.

(See accompanying Notes to FS for a detailed discussion of Risk Management.)

Item 2. Properties

RCBC's headquarters is located on an island site at the corner of Ayala Avenue and Sen. Gil Puyat Avenue Ext. called the RCBC Plaza Building. The RCBC Plaza Building is one of the largest sites in the Makati Central Business District. The Bank and some of its subsidiaries lease and occupy about eleven and a half (11.5) floors of the twin tower complex. The Bank's lease, covering an area of 19,649.04 will expire on December 31, 2020. Annual rent of Bank's principal offices, exclusive of VAT, amounts to P279 million.

RSB Corporate Center, a property owned by the Bank, serves as the main headquarters of RSB which is the largest subsidiary of the Bank. It is located at the 25th and 26th Streets, Bonifacio Global City, Taguig City. The Bank and RSB occupy about thirteen and a half (13.5) floors or 18,743.12 square meters of the 33-storey building.

The Group's rental expense based on the lease contracts amounted to P1,187 million in 2018. The lease periods are from 1 to 25 years. Most of the lease contracts contain renewal options, which give the Parent Company and its subsidiaries the right to extend the lease on terms mutually agreed upon by both parties.

The Bank owns and/or leases sites as listed below and on the following pages:

All the facilities and properties of the Bank are in good condition. Likewise, there are no liens and encumbrances on said properties of the Bank.

Item 3. Legal Proceedings

In the normal course of operations of the Bank, there are various outstanding commitments and contingent liabilities such as guarantees, commitments to extend credit, tax assessments, etc., which are not reflected in the accompanying financial statements. Management does not anticipate losses from these transactions that will adversely affect results of operations.

In the opinion of Management, the suits and claims arising from the normal course of operations of the Bank that remain unsettled, if decided adversely, will not involve sums that would have a material effect on Bank's financial position or operating results.

Global Steel Philippines (SPV-AMC), Inc. (GSPI) and Global Ispat Holdings (SPV-AMC), Inc. (GIHI)

In October 2008, Global Steel Philippines (SPV-AMC), Inc. and Global Ispat Holdings (SPV-AMC), Inc. (collectively, "Global Steel"), which purchased the Iligan Plant assets of the National Steel Corporation ("NSC Plant Assets") from the Liquidator (as defined in the Asset Purchase Agreement ("APA") dated September 1, 2004) in 2004, initiated arbitration proceedings with the Singapore International Arbitration Center ("SIAC") seeking damages on account of the failure of the

Liquidator and the Secured Creditors (as also defined in the APA), including the Bank and RCBC Capital, to deliver the NSC Plant Assets free and clear from liens and encumbrance, purportedly depriving Global Steel of the opportunity to use the NSC Plant Assets to secure additional loans to fund the operations of the NSC Steel Mill Plant and upgrade the same.

On May 9, 2012, the SIAC Arbitral Tribunal rendered a partial award in favor of Global Steel in the amounts of (a) US\$80.00 million, as and by way of lost opportunity to make profits and (b) ₱1,403.00 million, representing the value of the undelivered billet shop land measuring 3.41 hectares (the "Lost Land Claim"). On appeal, and on July 31, 2014, the Singapore High Court set aside the partial award. On March 31, 2015, the Singapore Court of Appeals rendered a decision which affirmed the earlier decision of the Singapore High Court but held that the Liquidator and Secured Creditors are still required to deliver to Global Steel clean title to the NSC Plant Assets.

The Bank's total exposure in connection with the obligation to transfer clean title to the NSC Plant Assets to Global Steel is approximately ₱217 million in terms of estimated property taxes and transfer costs due on the NSC Plant Assets, as a result of the Philippine Supreme Court's affirmation of the ruling that all pre-closing taxes on the NSC Plant Assets are deemed paid. On the other hand, the Bank has a receivable from Global Steel in the amount of ₱485.50 million. The Bank has fully provisioned the receivable, which is classified in the books of the Bank as Unquoted Debt Securities Classified as Loans ("UDSCL") with zero net book value. The Bank's exposure, however, may be varied depending on whether the Iligan City's assessment of the post-closing taxes will be sustained as valid (including those imposed on non-operational machineries).

Notwithstanding the finality of the Philippine Supreme Court's ruling on the pre-closing taxes, on October 19, 2016, the City of Iligan foreclosed on National Steel Corporation properties after issuing a Notice of Delinquency against National Steel Corporation, seeking to collect the taxes covering the period 1999 to 2016. In an Order dated April 4, 2017, the Makati City Regional Trial Court (a) nullified the public auction of the NSC Plant Assets, among others, (b) enjoined any and all real property tax collection actions against the National Steel Corporation until the decision dated October 7, 2011, which held that the National Steel Corporation pre-closing taxes have been paid, is fully executed and National Steel Corporation's remaining tax liabilities are correctly computed. The Local Government Unit ("LGU") and the Iligan City Treasurer, among others, moved for reconsideration of this order. In an Omnibus Order dated May 21, 2018, the Makati City Regional Trial Court denied the aforementioned Motion for Reconsideration, as well as the Iligan City LGU and Iligan City Treasurer's Urgent Motion to recall the Orders dated October 18, 2016 and April 4, 2017, among others.

The City of Iligan, represented by its purported Acting City Mayor Jemar L. Vera Cruz, filed with the Court of Appeals a Petition for Certiorari dated July 6, 2018, contumaciously alleging that the said LGU had the right to sell at public auction the NSC Plant and other assets due to non-payment both pre-closing and post-closing taxes. The Petition likewise alleged that (a) the writ of execution issued by the Makati City Regional Trial Court was null and void, and (b) the case before the Makati City Regional Trial Court was an action to assail the tax delinquency auction sale which should not have been given due course for non-payment of docket fees and non-deposit of the contested tax amount of P4,610 million.

Verotel Merchant Services B.V. ("VMS")

In 2011, Verotel Merchant Services B.V. ("VMS"), a Dutch corporation, and Verotel International Industries, Inc. ("VII"), a Philippine corporation civilly sued the Bank, Bankard, Grupo Mercarse Corp., CNP. Worldwide, Inc. and several individuals before the Los Angeles Superior Court for

various causes of action including fraud, breach of contract and accounting, claiming that VII and its alleged parent company, VMS, failed to receive the total amount of US\$1.50 million, which the defendants allegedly misappropriated. VMS is an internet merchant providing online adult entertainment and online gambling, in addition to the sale of pharmaceuticals over the internet. Following an initial jury verdict in favor of VMS, and a series of subsequent motions and a reduction of monetary damages awarded to VMS, the Bank/Bankard filed their Notice of Appeal with the California Court of Appeals on July 11, 2016. On October 2, 2017, the Bank/Bankard filed their Revised Opening Brief on their appeal of the verdict with the California Court of Appeals. On March 28, 2018, the Bank/Bankard was advised of the filing of VMS's Combined Respondents' Brief and Cross-Appellants' Opening Brief. On August 14, 2018, the Bank/Bankard filed their combined Reply and Cross-Respondent's Brief. In accordance with prior stipulations, VMS timely filed its Final Reply Brief dated October 31, 2018. The parties are now awaiting the advice of the Court of Appeals on the schedule date of the oral arguments.

RCBC Securities Case

In December 2011, RCBC Securities ("RSEC") initiated the filing of a criminal case for falsification against its former agent, Mary Grace V. Valbuena ("Valbuena"), who carried out certain questionable transactions with her own personal clients. Since then, RSEC has filed additional criminal and civil cases, including charges of violations of Batas Pambansa Blg. 22 ("BP 22"), against the aforesaid former agent. On November 17, 2016, the Metropolitan Trial Court of Makati City, Branch 66, convicted Valbuena of the crime of BP 22. Valbuena proposed to pay RSEC ₱30.00 million, payable in five years, in settlement of all the claims against her, which RSEC refused. Valbuena's appeal is now submitted for resolution, without prejudice to any settlement between the parties. On November 5, 2018, Valbuena was acquitted in one of the cases filed by RSEC because of the client's refusal to testify in favor of RSEC. The P8 million being claimed by RSEC from Valbuena was already expensed in the previous years.

In May 2012, the Capital Markets Integrity Corporation ("CMIC") conducted an investigation on the complaint filed by Francisco Ken Cortes against RSEC. On July 3, 2015, the CMIC issued a Resolution of even date dismissing the complaint filed by Mr. Cortes. In October 2015, the CMIC affirmed the dismissal of Mr. Cortes' complaint with the denial of his Motion for Reconsideration dated 21 July 2015. Mr. Cortes did not file any appeal before the SEC en banc, so that the dismissal of his complaint is now final and executory.

In September 2014, Carlos S. Palanca IV ("Palanca") and Cognatio Holdings, Inc. ("Cognatio") likewise filed a complaint against RSEC with the CMIC, even as Cognatio's earlier complaint dated December 30, 2013 against RSEC, its former Vice President for Operations/Chief Finance Officer, its former Compliance Officer and Valbuena, is pending with the Enforcement and Investor Protection Department of the Securities and Exchange Commission ("EIPD-SEC") ("SEC Cognatio Case"). In its decision letter dated December 4, 2014, the CMIC dismissed the complaint on the ground of prescription and res judicata. Consequently, Palanca/Cognatio respectively appealed the case to the SEC en banc, which granted the appeals of Palanca/Cognatio and reversed the CMIC's decision. In turn, RSEC appealed the SEC en banc's reversal of the CMIC decision to the Court of Appeals. On October 27, 2017, the Court of Appeals granted RSEC's Petition for Review and reinstated the CMIC decision, ruling that Palanca/Cognatio committed willful and deliberate forum shopping. In a Motion for Reconsideration dated November 21, 2017, Palanca/Cognatio sought the reversal of the decision of the Court of Appeals dated October 27, 2017, which RSEC opposed via its Comment/Opposition dated February 22, 2018. Palanca/Cognatio then filed a Reply thereto dated March 9, 2018. In a Resolution dated September 5, 2018, the Court of Appeals denied Palanca/Cognatio's Motion for Reconsideration. On September 26, 2018, Palanca/ Cognation

signified their intention to challenge the decision and resolution of the Court of Appeals before the Supreme Court via a Petition for Review to be filed on or before October 11, 2018. On the other hand, the SEC Cognatio Case, where RSEC and its former Vice President for Operations/Chief Finance Officer filed a Manifestation with Motion to Dismiss, in light of the above-cited decision of the Court of Appeals finding Palanca/Cognatio guilty of willful and deliberate forum-shopping, which was followed by the filing of other pleadings, the last of which was Cognatio's Rejoinder, remains pending with the EIPD-SEC.

On February 22, 2013, Stephen Y. Ku ("Ku") filed a complaint against RSEC with the Regional Trial Court of Makati, Branch 149 (the "Makati Trial Court"), praying, among others, for the return of his shares of stock and cash payments which he claims to have turned over to Valbuena. On May 20, 2013, RSEC sought the dismissal of the complaint on the ground of non-payment of the correct filing fees and failure to state a case of action, which was, however, denied by the Makati Trial Court. Aggrieved, RSEC filed a Petition for Certiorari with the Court of Appeals on November 22, 2013, which was given due course. In the Decision dated October 9, 2014, the Court of Appeals sustained RSEC's position and ordered the dismissal of the complaint pending before the Makati Trial Court on the ground of lack of jurisdiction. In a Petition for Review dated September 15, 2015, Ku sought the reversal of the ruling of the Court of Appeals, and as an alternative, prayed to be allowed to re-file his Complaint sans docket fees.

In a Decision dated October 17, 2018, the Supreme Court granted Ku's Petition holding that the Court of Appeals erred in dismissing the case given that (a) commercial courts retain its general jurisdiction to try ordinary civil cases such as the complaint initiated by Ku, and (b) Ku's immediate payment of the deficiency docket fees shows that he did not intentionally sought to evade the payment of the correct filing fees, so as to merit the dismissal of his complaint. On November 28, 2018, RSEC filed its Motion for Reconsideration of the same date. Having been apprised of the issuance of the October 17, 2018 Decision of the Supreme Court, the Makati Trial Court issued an Order dated November 26, 2018, setting a status conference case on December 14, 2018.

Poverty Eradication and Alliviation Certificates (PEACe) Bonds

In October 2011, the Bank before the Court of Tax Appeals questioning the 20.00% final withholding tax on PEACe Bonds by the Bureau of Internal Revenue ("BIR"). The Bank subsequently withdrew its petition and joined various banks in their petition before the Philippine Supreme Court on the same matter. Notwithstanding the pendency of the case and the issuance of a Temporary Restraining Order by the Philippine Supreme Court, the Bureau of Treasury withheld ₱199.00 million in October 2011 from the Bank on the interest on its PEACe bonds holdings. The amount was recognized as part of Loans and Receivables account in the statements of financial position. On January 13, 2015, the Philippine Supreme Court nullified the 2011 BIR Rulings classifying all bonds as deposit substitutes and ordered the Bureau of Treasury to return the 20.00% final withholding tax it withheld on the PEACe Bonds on October 18, 2011. On March 16, 2015, the Bank and RCBC Capital filed a Motion for Clarification and/or Partial Reconsideration, seeking clarification to exclude from the definition "deposit substitutes" the PEACe Bonds since there was only one lender at the primary market, and subsequent sales in the secondary market pertaining to a sale or assignment of credit, which is not subject to withholding tax. The Bank and RCBC Capital also sought partial reconsideration to the ruling that should the PEACe Bonds be considered as deposit substitutes, the BIR should collect the unpaid final withholding tax directly from RCBC Capital/Code Non-Governmental Organization ("NGO"), or any lender or investor, as withholding agents, since there was no interest earned and collection of the withholding tax, if at all, has already prescribed.

In a Resolution dated October 5, 2016, the Supreme Court of the Philippines partially granted the Bank and RCBC Capital's Motion for Clarification and/or Partial Reconsideration, stating that (a) to determine whether the securities newly issued and sold by the Bureau of Treasury should be treated as "deposit substitutes", the phrase "at any one time" in relation to "20 or more lenders" should be reckoned at the time of their original issuance, (b) this interpretation, at any rate, cannot be applied retroactively since this would prejudice the Bank and RCBC Capital which relied in good faith on the rulings/opinions of the BIR that the transaction in issue is exempted from any final withholding tax, and (c) such being the case, the PEACe Bonds cannot be treated as deposit substitutes.

On April 11, 2017, the Bank received a copy of the Entry of Judgment stating, among others, that the Decision date January 13, 2015 and the Resolution dated August 16, 2016, which partially granted the Motion for Clarification and/or Partial Reconsideration filed by the Bank and RCBC Capital, became final and executory on October 20, 2016. After paying the initial amount of P197 million to the Bank, the Bureau of Treasury finally paid the balance of P2 million (which is the subject of a deed of assignment in favor of the Bank by a rural bank which has since been placed under liquidation), on October 18, 2018.

Applicability of RR 4-2011

On March 15, 2011, the Bureau of Internal Revenue ("BIR") issued Revenue Regulations No. 4-2011 ("RR 4-2011") which prescribed that for income tax reporting purposes, banks and other financial institutions must (a) report costs and expenses either under Regular Banking Unit ("RBU") or FCDU/Expanded FCDU ("EFCDU") or Offshore Banking Unit ("OBU") if specifically identified as such; or (b) allocate such cost and expenses, which cannot be specifically identified, based on percentage share of gross income earnings of a unit. The BIR, however, issued assessment notices to banks and other financial institutions for deficiency income tax for alleged non-intra-unit allocation of costs and expenses to exempt income and income subjected to final tax within RBU and within FCDU.

On April 6, 2015, the Bank and other member-banks of the Bankers Association of the Philippines ("BAP") ("Petitioners"), filed a Petition for Declaratory Relief with Application for Temporary Restraining Order ("TRO") and/or Writ of Preliminary Injunction with the Regional Trial Court of Makati ("Makati Trial Court"), wherein the Petitioners assailed the validity of RR 4-2011 on the ground, among others, that (a) RR 4-2011 violates the Petitioners' substantive due process rights; (b) it is not only illegal but also unfair; (c) that it serves as a deterrent to banks to invest in capital market transactions to the prejudice of the economy; and (d) it sets a dangerous precedent for the disallowance of full deductions due to the prescribed method of allocation.

On April 8, 2015, the Makati Trial Court issued a TRO enjoining the BIR from enforcing RR 4-2011. Also, on April 27, 2015, Makati Trial Court issued a Writ of Preliminary Injunction enjoining the BIR from enforcing, carrying out, or implementing in any way or manner RR 04-2011 against the Bank and other BAP member banks, including the issuing Preliminary Assessment Notice or Final Assessment Notice against them during the pendency of the litigation, unless sooner dissolved.

On June 10, 2015, Makati Trial Court issued a Confirmatory Order stating that the TRO and Writ of Preliminary Injunction also prohibits the BIR from ruling or deciding on any administrative matter pending before it in relation to the subject revenue regulations and insofar as the Bank and other BAP member banks are concerned. The pre-trial conference of the case began on August 2, 2016, and continued to August 3, 2017. During the hearing on August 3, 2017, in lieu of trial for the resolution of the case, the Makati Trial Court directed the parties to file their respective Memorandum on September 15, 2017, which has been complied with. In an Order dated May 25,

2018, the Makati Trial Court granted the Petition for Declaratory Relief and declared RR 4-2011 null and void for being issued beyond the authority of the Secretary of Finance and Commissioner of Internal Revenue. The Makati Trial Court likewise made permanent the Writ of Preliminary Injunction it issued earlier.

The Department of Finance ("DOF") and the BIR elevated the matter to the Supreme Court via its Petition for Review on Certiorari dated August 1, 2018, alleging that (a) the petitions assailing the validity of RR 4-2011 should have been brought before the Court of Tax Appeal and not the Makati Trial Court, (b) upon the issuance of RR 4-2011, the banks should have already adjusted their accounting and book keeping methods, (c) the declaratory relief action was no longer proper in view of the issuance of Preliminary Assessment Notices, and (d) RR 4-2011 is a valid regulatory issuance of the DOR and BIR.

Alleged Unauthorized Transfer of funds – Bank of Bangladesh

In February 2016, there was an alleged unauthorized transfer of funds from the Bank of Bangladesh to four accounts in the Bank, which were eventually transferred to various accounts outside of the Bank. In August 2016, the Monetary Board approved the imposition of supervisory action on the Bank to pay the amount of ₱1.00 billion in relation to the completed special examination. There may be other cases arising from these events. The Bank has fully recognised the BSP's ₱1.00 billion fine as part of miscellaneous expenses in its 2016 Consolidated Statements of Profit or Loss, and it has paid this penalty in full ahead of the August 2017 deadline set by the BSP. The Bank's payment of the penalty did not affect its ability to perform its existing obligations or unduly hamper its operations.

On November 18, 2016, the AMLC filed a criminal complaint against current and former employees of the Bank in relation to the BOB Incident with the Department of Justice (DOJ). The AMLC alleged that respondents Raul Victor B. Tan, Ismael S. Reyes, Brigitte R. Capiña, Nestor O. Pineda, Romualdo S. Agarrado and Angela Ruth S. Torres violated Section 4(f) of R.A. No. 9160, as amended ("AMLA"), in connection with the BOB Incident. The AMLC alleged that each of the named persons performed or failed to perform an act, which facilitated the crime of money laundering, particularly the remittance and eventual withdrawal of US\$81.00 million from certain accounts maintained at the Bank.

On March 27, 2017, respondents Tan, Reyes, Capiña and Agarrado, as well as respondent Pineda filed their affidavits contesting, among other things, their culpability and the existence of several required elements to the charges alleged by the AMLC. Between May and July 2017, the AMLC and the aforementioned individuals filed various affidavits and manifestations in connection with the charges. In a Resolution dated February 5, 2018, the newly assigned DOJ investigating prosecutor found probable cause against respondents Tan, et al., and recommended the filing of the corresponding Information against them. On March 22, 2018, respondents Tan, Reyes, Capiña, and Agarrado timely filed their Motion for Reconsideration on the aforementioned Resolution.

In a belatedly filed Consolidated Opposition dated June 21, 2018, the AMLC insisted that the Philippine courts have adopted the US "Willful Blindness" doctrine, and that the contents of the MT103 message should have made respondents Tan, Reyes and Capiña suspicious of the remittances in issue. In their Reply dated August 7, 2018, respondents Tan, Reyes, and Capiña pointed out, among others, that (a) the AMLC's position is a departure from its earlier claim that respondents Tan, Reyes and Capiña ought to be charged for failing to read the same MT103 message, and (b) only final decisions of the Supreme Court become judicial precedents, and that the cited tax evasion decision of the Court of Tax Appeals cannot be accorded the same status.

Respondent Agarrado, for his part, reiterated that it was respondent Torres and Deguito who approved the large transaction withdrawals on February 9, 2016.

On March 8, 2016, William S. Go, an existing client of the Bank in another Business Center, and the Bank, filed criminal charges against (a) Maia Santos-Deguito, the former Branch Manager of the Makati Jupiter Business Center, and (b) Angela Ruth S. Torres, the former Senior Customer Service Officer of the Makati Jupiter Business Center, with the Office of the City Prosecutor of the Makati City ("OCP-Makati"). The criminal complaints alleged that the two former employees: (a) falsified bank documents in order to open fictitious U.S. Dollar and Peso denominated accounts in the name of William S. Go DBA Centurytex Trading, which were used in the transfer/conversion of US\$81.00 million subject of the BOB Incident, and (b) Angela Ruth S. Torres committed perjury when she executed the affidavit identifying William S. Go as the person who allegedly received the ₱20.00 million withdrawn from his fictitious Peso account on February 5, 2016.

The OCP-Makati found probable cause to charge Maia Santos-Deguito with several counts of falsification, now docketed as Criminal Case Nos. 16-5175 CR to 16-5177 CR, "People of the Philippines vs. Maia Santos Deguito", which are currently being heard by the Metropolitan Trial Court of Makati City, Branch 63. On 22 October 2018, and as a result of the untimely death of Mr. William Go, the Prosecution and external counsel for the Bank filed an Ex-Parte Request for Issuance of Subpoena Ad Testificandum Et Duces Tecum of the same date, praying that Ms. Antonia Barros, Director III, Legislative Records and Archives Section, Philippine Senate, be directed to appear on 27 November 2018, at 8:30 am, and bring with her the video recordings and the Transcript of Stenographic Notes of Mr. William Go's testimony before the Senate Blue Ribbon Committee, showing Mr. Go's denial that he had anything to do with the transactions relating to the Bangladesh incident.

On the other hand, while the OCP-Makati dismissed the charges of falsification against Angela Ruth S. Torres, it found probable cause to charge her for perjury. The aforementioned case, Criminal Case No. M-MKT-16-06765-CR, "People of the Philippines v. Angela Ruth Torres", is also being heard by the Metropolitan Trial Court of Makati City, Branch 63. The Bank has several other ongoing criminal cases or petitions for review currently pending in relation to actions that it has initiated against former Bank employees in relation to the BOB Incident.

There are no known trends, demands, and commitments, events, or uncertainties that will have a material impact on the Bank's operational performance and ability to service obligations.

Except for the above-mentioned proceedings, the Bank is not aware of any suits and claims by or against it or its subsidiaries, which if decided adversely would have a material effect on its financial position or operating results.

Item 4. Submission of Matters to a Vote of Security Holders

In the Bank's special meeting of stockholders held on January 29, 2018, the stockholders present or representing 85.19% of the outstanding capital stock unanimously approved the following:

1. Increase in Authorized Capital Stock

In accordance with the approval, the authorized capital stock of the Bank will be increased by Twelve Billion Pesos (₱12,000,000,000.00), or from Sixteen Billion Pesos (₱16,000,000,000.00) divided into One Billion Four Hundred Million (1,400,000,000) Common shares of stock with a par value of Ten Pesos (₱10.00) per share and Two Hundred Million (200,000,000) Preferred shares of stock with a par value of Ten Pesos (₱10.00) per share to Twenty Eight Billion Pesos

(₱28,000,000,000.00) divided into Two Billion Six Hundred Million (2,600,000,000) Common shares of stock with a par value of Ten Pesos (₱10.00) per share and Two Hundred Million (200,000,000) Preferred shares of stock with a par value of Ten Pesos (₱10.00) per share.

2. Amendment of Article Seventh of the Articles of Incorporation

With the approval of the increase in authorized capital stock, the stockholders approved the corresponding amendment to Article SEVENTH of the Articles of Incorporation of the Bank as follows:

'SEVENTH - That the authorized capital of said Corporation is TWENTY EIGHT BILLION PESOS (₱28,000,000,000.00) Philippine Currency, divided into the following classes of shares:

1. Two Billion Six Hundred Million (2,600,000,000) Common Shares of stock with a par value of Ten Pesos (₱10.00) per share.
2. Two Hundred Million (200,000,000) Preferred Shares of stock with a par value of Ten Pesos (₱10.00) per share.

x x x."

In the Bank's annual meeting of stockholders held last June 25, 2018, the stockholders present or representing 85.26% of the outstanding capital stock unanimously elected the following directors to serve as such for a term of one year:

As Regular Directors:

1. Ms. Helen Y. Dee
2. Mr. Cesar E. A. Virata
3. Mr. Gil A. Buenaventura
4. Mr. Tze Ching Chan
5. Mr. Richard G.A. Westlake
6. Mr. John Law
7. Mr. Yuh-Shing (Francis) Peng
8. Atty. Florentino M. Herrera

As Independent Directors:

1. Mr. Armando M. Medina
2. Mr. Juan B. Santos
3. Mr. Melito S. Salazar, Jr.
4. Atty. Adelita A. Vergel De Dios
5. Mr. Gabriel S. Claudio
6. Mr. Vaughn F. Montes
7. Ms. Lilia R. Bautista

At the said annual meeting, the stockholders also approved the following:

1. Annual Report and Audited Financial Statements for 2017
2. Ratification of actions of the Board of Directors, different Committees and Management
3. Confirmation of Significant Transactions with DOSRI and Related Parties
4. Appointment of External Auditor

PART II - OPERATIONAL AND FINANCIAL INFORMATION

Item 5. Market for Issuer's Common Equity and Related Stockholder Matters

The common shares of the Bank are listed in the Philippine Stock Exchange. As of April 10, 2019 the market price of RCBC's common shares closed at 26.00 per share. The trading prices of said shares for the different quarters of the years 2018, 2017 and 2016 are as follows:

		Q1		Q2		Q3		Q4	
		Last Practicable Trading Date		Last Practicable Trading Date		Last Practicable Trading Date		Last Practicable Trading Date	
2019	High	29.50	1.09.19

Dividends are declared and paid out of the surplus profits of the Bank as often and at such times as the Board of Directors may determine after making provisions for the necessary reserves in accordance with law and the regulations of the Bangko Sentral ng Pilipinas.

Item 6. Management's Discussion and Analysis or Plan of Operation

2016

Philippine GDP growth in 2016 was at 6.8%, faster vs. 5.9% in 2015, the fastest in 3 years (since 2013) and still among the fastest growing economies, not only in ASEAN, but in the whole of Asia, amid election-related spending with the May 2016 presidential elections, improved economic and credit fundamentals such as favorable demographics (i.e. demographic sweet spot or majority of the population reached working age since 2015), still relatively low interest rates compared to recent years that continued to spur more investments and overall economic growth, as fundamentally supported by benign inflation amid relatively lower prices of crude oil and other global commodities vs. in recent years. Continued growth in OFW remittances, BPO revenues, and foreign tourist revenues continued to support consumer spending, which accounted for about 69.4% of the Philippine economy in 2016. The ASEAN Economic Integration has already started in end-2015 and is expected to lead to greater economic growth, going forward.

Philippine GNP growth (2016) was at 6.6%, faster compared to 5.8% in 2015.

In terms of industrial origin, Services (57.5% of GDP) grew by 7.5%, faster than 6.8% in 2015, among the major contributors to economic growth. Industry (33.8% of GDP) grew by 8%, faster vs. 6% in 2015, despite slower growth in exports relative to imports due to the global economic slowdown. Agriculture (8.8% of GDP) contracted, by -1.3%, vs. 0.1% in 2015 after El Nino drought reduced agricultural production in the early part of 2016 and after the typhoons in the latter part of the year.

In terms of expenditure shares, the major contributors to the country's economic growth in 2016 were: Consumer Spending (69.4% of GDP) at 6.9%, faster vs. 6.3% in 2015, Investments (26.9% of GDP) at 20.8%, faster vs. 15.1% in 2015, and Government Spending (10.5% of GDP) at 8.3%, faster vs. 7.8% in 2015.

Philippine economic growth remained resilient by growing for 72nd straight quarter, despite the slower global economic growth brought about by the slowdown in China, risk of recession and

deflation in Japan and in the Euro zone, and increased global market volatility. Softer global economic growth also supported the still relatively lower world oil prices in 2016, compared to recent years, but already corrected higher from the lows after OPEC decided to cut oil production output. The Philippines, which imports almost all its oil, benefited from this in terms of lower inflation and reduced import bill.

The US economy, the world's biggest, continued to recover in 2016, fundamentally supporting the decision of the US Federal Reserve to increase key monetary interest rates by another 0.25 basis points on December 14, 2016 (after 0.25 Fed rate hike on Dec. 16, 2015). This resulted partly to some volatility in the global financial markets. Other sources of global market volatility in 2016 include Brexit (UK voted to exit from the European Union) in June 2016 and after the victory of Donald Trump in the US president elections in November 2016 (Trump signaled possible protectionist policies to save/create US jobs).

China, the world's second largest economy and among the biggest importers of commodities, again experienced slower economic growth (among the slowest in more than 25 years). This partly led to the continued devaluation of yuan since August 2015. The resulting relatively lower prices of crude oil and other global commodities (but already corrected higher from lows in 2016) may have benefited the Philippines, which imports almost all of its oil, but partly led to increased global market volatility.

The local economy was partly supported by the continued growth in OFW remittances, sustained strong growth in the BPO industry, still relatively low interest rates compared to recent years that spurred greater economic activity, pick up in manufacturing, continued growth in tourism, and rollout of more infrastructure/PPP projects.

Inflation averaged 1.8% in 2016, higher compared to 1.4% in 2015, again below the 2%-4% target range of the Bangko Sentral ng Pilipinas (BSP), largely due to the continued relatively lower global crude oil/commodity prices compared to recent years.

The 91-day Treasury bill yield ended 2016 at 1.555%, lower vs. 1.836% in end-2015, though significantly up from a record low of 0.001% in end-2013, but still considered relatively low compared to recent years.

Key Philippine interest rates in the secondary market, as measured by the PDST yields, were mostly higher in 2016, especially long-term tenors. However, the 3-month PDST-R2 yield was at 2.07% as of end-2016, lower by 0.59 percentage points for the year.

The BSP already implemented the interest rate corridor (IRC) system in June 2016, effectively lowered its overnight policy rate by 1 percentage point to 3%. The 7-day and 28-day Term Deposit Facility (TDF) rates went up to 3% levels (up from a low of 2.50%).

Interest rates are still considered relatively low compared to recent years, despite the uptick in 2016 for most long-term tenors, and still translated to relatively lower borrowing costs that encouraged greater economic activities in terms of creating new businesses and the expansion of existing businesses. This could also have spurred greater demand for loans/borrowings, amid improved economic and credit fundamentals for the country recently and the corresponding need to service the financing requirements of the local economy, which was among the fastest growing in Asia.

The upward correction in most long-term interest rates was partly due to wider budget deficit, which already widened to –PHP235.2 billion, more than five times wider vs. –PHP46.5 billion same period last year amid the faster growth in government spending compared to government revenues, but still consistently below the government’s target ceiling of 2% of GDP since 2013 (but the target was raised to 3% of GDP starting 2017 in able to further increase the government’s infrastructure spending).

National government debt as of end-2016 was up 2.3% to PHP6.090 trillion, reflecting the country’s improved fiscal performance and credit ratings. The country’s debt-to-GDP ratio eased to 44.2% as of end-3Q 2016, vs. 44.7% in end-2015. This supported by the sustained accelerated pace of economic growth in tandem with disciplined fiscal spending that moderated borrowing requirements for the year.

The peso exchange rate depreciated vs. the US dollar in 2016, by 2.66 pesos or 5.7% to close at 49.72 in end-2016, among the weakest in about a decade, compared to 47.06 in end-2015. This benefited exporters, OFWs and their dependents, and others that earn in foreign currencies, in terms of greater peso proceeds of their foreign currency earnings.

Gross international reserves (GIR) as of end-2016: Slightly higher, by +US\$24mn or +0.03% to US\$80.691 billion or equivalent to 9.2 months’ worth of imports and more than two times the international standard of 4 months.

Overseas Filipino workers (OFW) remittances was up, by 5.0% year-on-year to US\$26.9 billion from January to December 2016, faster vs. 4.0% growth a year ago. Revenues from the Business Process Outsourcing (BPO) industry were up by 14% to US\$25 billion (8.2% of GDP), vs. 16% growth in 2015 at US\$22 billion (7.5% of GDP).

Net foreign portfolio investments inflows in 2016: +US\$0.353 billion, vs. –US\$0.599 billion in 2015. Balance of payments (BOP) deficit was at -US\$0.420 billion (-0.1% of GDP), after a BOP surplus of +US\$2.616 billion (+0.9% of GDP) in 2015. OFW remittances, BPO revenues, foreign tourist revenues continued to support structural US dollar inflows into the country, as well as consumer spending, which accounted for about 69.4% of the local economy. Additional OFW, BPO, and tourism jobs and improved local employment conditions partly caused unemployment rate to improve to 5.5% in 2016, vs. 6.3% in 2015.

Total exports of the country for 2016 were down by -4.4% to US\$56.232 billion amid slower global economic growth. Total imports for 2016 grew by 14.2% to US\$81.159 billion, reflecting the requirements of a growing economy. Consequently, trade deficit or net imports for 2016 widened to -US\$24.927 billion, more than twice vs. the -US\$12.240 billion in 2015 amid the decline in exports and the faster growth in imports.

Net foreign direct investments from January to December 2016: Grew by 145.7% year-on-year to US\$6.973 billion, already at a new record high for 2016 amid the improved economic and credit fundamentals of the Philippines, as attested by the further upgrade of the country’s credit ratings by most of the biggest credit rating agencies, to a notch above the minimum investment grade (which was reached for the first time since 2013), which increased international investor confidence on the country.

On the Philippine banking industry, the total loans of banks, as of end-2016 was up by 16.6% to PHP7.612 trillion, faster than the 11.9% growth as of end-2015, which was partly spurred by still relatively low interest rates and sustained economic growth. Gross non-performing loan (NPL) ratio

of all banks (including interbank loans) as of end-2016 improved to 1.90%, from 2.10% as of end-2015.

Domestic liquidity/M3 growth (as of end-2016): +12.4% to PHP9.473 trillion, faster vs. +9.4% as of end-2015, reflecting the faster growth in loans/credit.

The Philippine Stock Exchange Composite Index (PSEi): -1.6% in 2016, to close at 6,840.64, after -3.9% in 2015. It reached a record high of 8,136.97 on Apr. 7, 2015 and a low of 6,084.28 on January 21, 2016.

Financial and Operating Highlights

Balance Sheet

RCBC's Total Assets stood at P521.2 billion.

BALANCE SHEET			
In Million Pesos	2016	2015	2014
Total Assets	521,193	516,061	457,905
Investment Securities	75,622	111,201	100,790
Loans and Receivables (Net)	306,167	299,119	261,574
Total Deposits	353,077	342,362	315,761
Capital Funds	62,133	58,129	53,131

Cash and other cash items increased by 7.86% or Php1.106 billion from Php14.070 billion to Php15.176 billion. Due from Bangko Sentral ng Pilipinas, representing 12.76% of total resources, increased by 31.42% or Php15.903 billion from Php50.617 billion to Php66.520 billion. Due from other banks increased by 28.38% or Php5.592 billion from Php19.701 billion to Php25.293 billion. Total trading investment securities decreased by 32.00% or Php35.579 billion from Php111.201 billion to Php75.622 billion and represented 14.51% of total resources.

As permitted by PFRS 9 and BSP Circular 708, the Group sold certain loans and receivables, peso and dollar-denominated bonds classified as investment securities at amortized cost with an aggregate carrying amount of Php73.464 billion. The disposals resulted in a gain of Php1.352 billion, which is included under Trading and securities gains-net in the statement of profit or loss. In addition, the Group concluded that the sales did not result to changes in its business models for managing financial assets to collect contractual cash flows.

Loans and Receivables-net reached Php306.167 billion and represented 58.74% of total resources.

Bank Premises, furniture, Fixtures and Equipment, net grew by 16.76% or Php1.274 billion from Php7.602 billion to Php8.876 billion mainly due opening of additional 25 branches and acquisition of equipment for lease during the year by a wholly owned subsidiary. Other Resources, net increased by 12.11% or Php1.065 billion from Php8.796 billion to Php9.861 billion.

Deferred Tax Assets increased by Php 955 million or 78.15% from Php 1.222 billion in 2015 to Php 2.177 billion in 2016 as a result of recognition of tax effects of additional temporary differences arising mainly from allowance for impairment, MCIT and provision for credit card reward payments. This is partially offset by the reversal of deferred tax assets arising from NOLCO.

Deposit liabilities settled at Php353.077 billion and accounted for 67.74% of total resources. Demand deposits were recorded at Php42.053 billion. Savings deposits reached Php162.926 billion and accounted 31.24% of total resources. Time deposits grew by 23.56% or Php28.243 billion from Php119.854 billion to Php148.097 billion and accounted for 28.42% of total resources.

Bills payable decreased by 23.81% or down by Php11.761 billion from Php49.404 billion to Php37.643 billion mainly attributable to the net payment on foreign borrowings, it represented 7.22% of total resources. Bonds payable, was recorded at Php41.595 billion and accounted for 7.98% of total resources.

Total liabilities stood at Php459.060 billion and represented 88.08% of Total Resources.

Total Equity went up by 6.89% or Php4.004 billion from Php58.129 billion to Php62.133 billion mainly due to Net Income for the period, net of cash dividends declared and paid.

Income Statement

INCOME STATEMENT			
In Million Pesos	2016	2015	2014
Interest Income	23,137	21,520	20,200
Interest Expense	7,430	5,943	5,233
Net Interest Income	15,707	15,577	14,967
Other Operating Income	7,114	6,655	7,102
Impairment Losses	1,770	2,350	2,509
Operating Expenses	17,355	15,061	14,236
Tax Expense (Income)	(174)	(307)	914
Net Income attributable to Parent Company Shareholders	3,868	5,129	4,411

Total interest income reached Php23.137 billion and accounted for 101.38% of total operating income. Interest income from loans and receivables went up by 11.34% or Php1.980 billion from Php17.462 billion to Php19.442 billion and accounted for 85.19% of total operating income. The increase is mainly due to increase in average volume of Loans and Receivables and higher average yield. Other interest income stood at Php426 million and interest income from investment securities reached Php3.269 billion and accounted for 14.32% of total operating income.

Total interest expense went up by 25.02% or Php1.487 billion from Php5.943 billion to Php7.430 billion and accounted for 32.56% of total operating income. Interest expense from deposit liabilities, which grew by 9.26% from Php2.992 billion, reached Php3.269 billion, representing 14.32% of total operating income. Interest expense from bills payable and other borrowings reached Php4.161 billion, 41% up or Php1.210 billion higher from last year's Php2.951 billion, it represented 18.23% of total operating income. As a result, net interest income reached Php15.707 and accounted for 68.83% of total operating income.

The Group booked lower impairment losses at Php1.77 billion, down by 24.68% or Php580 million from Php2.350 billion and represented 7.76% of total operating income.

Other operating income of Php7.114 billion accounted for 31.17% of total operating income and is broken down as follows:

- Service fees and commissions stood at Php3.164 billion and accounted for 13.86% of total operating income
- Trading and securities gain-net settled at Php1.619 billion and accounted for 7.09% of total operating income
- Foreign exchange gains increased by 6.15% or Php16 million from Php260 million to Php276 million attributable to higher commission from commercial transactions
- Trust fees settled at P294 million
- Share in net earnings of subsidiaries and associates settled at Php131 million.
- Miscellaneous income went up by 34.05% or Php414 million from Php1.216 billion to P1.630 billion brought about by higher dividend and rental income.

Operating expenses grew by 15.23% or Php2.294 billion from Php15.061 billion to Php17.355 billion and consumed 76.05% of total operating income.

- Manpower costs reached Php5.408 billion and consumed 23.70% of total operating income due to additional headcount for the 25 newly opened business centers.
- Occupancy and equipment-related stood at Php2.871 billion and consumed 12.58% of total operating income
- Taxes and licenses stood at Php1.766 billion
- Depreciation and amortization reached Php1.840 billion
- Miscellaneous expenses went up by 17.01% or Php795 million to settle at Php5.470 billion from Php4.675 billion, increase was mainly due to the Php1 billion BSP fine, and it consumed 23.97% of total operating income

Excluding the Php1 billion BSP fine, OPEX grew by Php8.59% or Php1.294 billion.

Negative Tax expense was at P 174 million in 2016 from P307 million in 2015 due to lower amount of Deferred Tax Income relating to MCIT, allowance for impairment losses and other temporary differences and reversal of DTA or utilized and expired NOLCO.

Income from non-controlling interest went up to settle at Php2 million.

Overall, net income was down by 24.53% or Php1.258 billion from Php5.128 billion in 2015 to Php3.870 billion in 2016.

Notes to the Computations:

1. Consolidated and Parent Company ROA and ROE ratios were taken from the corresponding audited financial statements. ROA ratio of the subsidiaries was determined based on the average of the quarterly ending balances of total assets, audited and/or unaudited. ROE ratio of the subsidiaries was likewise computed based on the average of the quarterly ending balances of total equity, audited and/or unaudited.
2. CAR covers combined credit, market and operational risks. Where the BIS CAR was not computed, the simple Capital to Total Assets ratio formula was used.
3. NPL ratio is determined by using the following formula: $(\text{Total NPLs net of total specific provision for losses}) / (\text{Total gross loan portfolio})$
4. NPA ratio is determined by using the following formula: $(\text{Net NPLs} + \text{Gross ROPA} + \text{Non performing SCR}) / \text{Gross Total Assets}$.

5. *For some subsidiaries, the NPL/NPA ratios were not computed since these ratios were not applicable.*

2017

Philippine GDP growth in 2017 was at 6.7%, slower vs. 6.9% in 2016, still among the fastest growing economies, not only in ASEAN, but in the whole of Asia, as the faster GDP growth in 2016 may be attributed to election-related spending during the May 2016 presidential elections (i.e. higher base/denominator effects a year ago). Philippine GDP growth remained relatively high compared to recent years due to improved economic and credit fundamentals such as favorable demographics (i.e. demographic sweet spot or majority of the population reached working age since 2015), still relatively low interest rates compared to recent years/decades that continued to spur more investments and overall economic growth, as fundamentally supported by benign inflation amid relatively lower prices of crude oil and other global commodities vs. in recent years. Continued growth in OFW remittances, BPO revenues, and foreign tourist revenues continued to support consumer spending, which accounted for about 68.7% of the Philippine economy in 2017. The ASEAN Economic Integration has already started in end-2015 and is expected to lead to greater economic growth, going forward.

Fitch Ratings upgraded Philippine credit rating on December 11, 2017, by 1 notch to BBB (1 notch above the minimum investment grade; already the same as the credit ratings by S&P and Moody's), from BBB-; with stable outlook. Investor sentiment on the Philippines improved further after the passage of the first package of the tax reform measures (TRAIN) in December 2017.

Philippine GNP growth (2017) was at 6.5%, slower compared to 6.7% in 2016.

In terms of industrial origin, Services (57.4% of GDP) grew by 6.7%, slower than 7.4% in 2016, still among the major contributors to economic growth. Industry (34.1% of GDP) grew by 7.2%, slower vs. 8.4% in 2016, amid slower growth in exports relative to imports due to the global economic slowdown. Agriculture (8.5% of GDP) grew, by 3.9%, vs. -1.3% in 2016 when there was El Nino drought that reduced agricultural production in the early part of 2016.

In terms of expenditure shares, the major contributors to the country's economic growth in 2017 were: Consumer Spending (68.7% of GDP) at 5.8%, slower vs. 7.0% in 2016, Investments (28.6% of GDP) at 9.0%, slower vs. 23.7% in 2016, and Government Spending (10.5% of GDP) at 7.3%, slower vs. 8.4% in 2016.

Philippine economic growth remained resilient by growing for 76th straight quarter, despite the relatively slower global economic growth brought about by the slowdown in China, risk of recession and deflation in Japan and in the Euro zone, and increased global market volatility. Softer global economic growth also supported the still relatively lower world oil prices in 2017, compared to recent years, but already corrected higher from the lows after OPEC and other major oil-producing countries cut oil production output in an effort reduce the glut/oversupply in global oil supplies.

The US economy, the world's biggest, continued to recover in 2017, fundamentally supporting the decision of the US Federal Reserve to further increase key monetary interest rates by a total of +0.75 basis points in 2017 (+0.25 each on March 15, 2017; June 14, 2017; and December 17, 2017), after +0.25 each on December 14, 2016 and on Dec. 16, 2015. These Fed rate hikes in 2017 resulted partly to some volatility in the global financial markets. Other sources of global market

volatility in 2017 include the tapering of Fed's balance sheet in 4Q 2017 (US\$10 billion) and increased tensions on North Korea amid ICBM/missile tests. Positive external developments in 2017 highlighted by US President Trump's signing of Republican-backed US\$1.5 trillion tax cut/overhaul of US tax code on December 22, 2017, in first major legislative win, delivering a major tax cut to US corporations along with a package of temporary tax cuts for other businesses and most individuals.

China, the world's second largest economy and among the biggest importers of commodities, still experienced relatively slower economic growth (still among the slowest in about 25 years).

The local economy was partly supported by the continued growth in OFW remittances, sustained strong growth in the BPO industry, still relatively lower interest rates compared to recent years/decades that spurred greater economic activity, pick up in manufacturing, continued growth in tourism, and rollout of more infrastructure/PPP projects.

Inflation averaged 3.2% in 2017, higher compared to 1.8% in 2016, but still below the 2%-4% target range of the Bangko Sentral ng Pilipinas (BSP), largely due to the continued relatively lower global crude oil/commodity prices compared to recent years.

The 91-day Treasury bill yield ended 2017 at 2.15%, higher vs. 1.55% in end-2016, also significantly up from a record low of 0.001% in end-2013, but still considered relatively lower compared to recent years/decades.

Key Philippine interest rates in the secondary market, as measured by the PDST yields, were mostly higher in 2017, especially long-term tenors. The benchmark 3-month PDST-R2 yield was at 2.43% as of end-2017, higher by 0.35 percentage points for the year.

Interest rates are still considered relatively lower compared to recent years/decades, despite the uptick in 2017, and still translated to relatively lower borrowing costs that encouraged greater economic activities in terms of creating new businesses and the expansion of existing businesses. This could also have spurred greater demand for loans/borrowings, amid improved economic and credit fundamentals for the country recently and the corresponding need to service the financing requirements of the local economy, which was among the fastest growing in Asia.

The upward correction in most long-term interest rates was partly due higher inflation, rising trend in US/global interest rates amid normalization of monetary policy in the US and in some developed countries, as well as wider budget deficits in 2016 and 2017, at -PHP350.6 billion in 2017 (or -2.2% of GDP), slightly narrower vs. -PHP353.4 billion (or -2.4% of GDP) in 2016 as government spending increased especially on infrastructure, but still consistently below the government's upwardly revised target ceiling of 3% of GDP for 2017 (from 2%).

National government debt as of end-2017 was up by 9.2% to PHP6.652 trillion. However, the country's debt-to-GDP ratio remained relatively low at 42.1% as of end-2017, same as in end-2016. This is supported by the sustained accelerated pace of economic growth in tandem with disciplined fiscal spending that moderated borrowing requirements in recent years.

The peso exchange rate depreciated vs. the US dollar in 2017, by 0.21 pesos or 0.4% to close at 49.93 in end-2017, among the weakest in about a decade, compared to 49.72 in end-2016. This benefited exporters, OFWs and their dependents, and others that earn in foreign currencies, in terms of greater peso proceeds of their foreign currency earnings.

Gross international reserves (GIR) as of end-2017 increased by US\$878 million or 1.1% to US\$80.691 billion or equivalent to 8.3 months' worth of imports and more than two times the international standard of 4 months.

OFW remittances were up, by 4.3% year-on-year to US\$28.1 billion (9% of GDP) in 2017, slower vs. 5.0% growth in 2016. Revenues from the Business Process Outsourcing (BPO) industry were up by 16% to US\$28.9 billion (9.2% of GDP), slower vs. 18% growth in 2016 at US\$25 billion (8.2% of GDP).

Net foreign portfolio investments outflows in 2017: -US\$0.205 billion, vs. +US\$0.404 billion in 2016. Balance of payments (BOP) deficit was at -US\$0.863 billion (-0.3% of GDP), after -US\$0.420 billion (-0.1% of GDP) in 2016. OFW remittances, BPO revenues, foreign tourist revenues continued to support structural US dollar inflows into the country, as well as consumer spending, which accounted for about 68.7% of the local economy. Additional OFW, BPO, and tourism jobs and improved local employment conditions partly caused unemployment rate to remain relatively low at 5.7% in 2017, vs. 5.4% in 2016.

Total exports of the country for 2017 grew by 10.2% to US\$63.2 billion amid the pickup in global economic growth. Total imports for 2017 went by, 10.4% to US\$92.8 billion, reflecting the increased requirements of a fast-growing economy. Consequently, trade deficit or net imports for 2017 widened to a record of -US\$29.6 billion, wider vs. the -US\$26.7 billion in 2016.

Net foreign direct investments in 2017: Grew by +21.4% year-on-year to US\$10 billion, a new record high vs. previous record high of US\$8.2 billion in 2016 amid the improved economic and credit fundamentals of the Philippines, as attested by the further upgrade of the country's credit ratings by most of the biggest credit rating agencies, to a notch above the minimum investment grade (which was reached for the first time since 2013), which boosted international investor confidence on the country.

On the Philippine banking industry, the total loans of banks, as of end-2017 was up by 16.4% year-on-year to PHP8.862 trillion, slower vs. 16.6% growth as of end-2016, which was partly spurred by still relatively lower interest rates compared to recent years/decades and sustained economic growth. Gross non-performing loan (NPL) ratio of all banks (including interbank loans) as of end-2017 improved to 1.72%, from 1.89% as of end-2016.

Domestic liquidity/M3 growth (as of end-2017): 11.9% year-on-year to PHP10.637 trillion, slower vs. 12.8% as of end-2016, partly reflecting the slower growth in loans/credit.

The Philippine Stock Exchange Composite Index (PSEi) gained by 25.1% in 2017, to close at 8,558.42, after -1.6% in 2016. It reached a record high of 8,640.04 on December 29, 2017 and a low of 6,746.80 on January 3, 2017.

Financial and Operating Highlights

Balance Sheet

RCBC's Total Assets stood at ₱554.0 billion.

BALANCE SHEET			
In Million Pesos	2017	2016	2015
Total Assets	553,988	521,193	516,061
Investment Securities	72,932	75,622	111,201
Loans and Receivables (Net)	354,243	306,167	299,119
Total Deposits	388,412	353,077	342,362
Capital Funds	67,027	62,133	58,129

RCBC's Total Assets grew by 6.29% or ₱32.795 billion from ₱521.193 bio to ₱553.988 billion mainly due to the increase in Loans and Receivables, Net.

Due from Bangko Sentral ng Pilipinas, representing 10.61% of total resources, decreased by 11.60% or ₱7.719 billion from ₱66.520 billion to ₱58.801 billion as a result of a decrease in overnight deposit and term deposit placements. Due from other banks decreased by 21.65% or ₱5.475 billion from ₱25.293 billion to ₱19.818 billion, mainly due to decrease in foreign bank placements. Total trading investment securities, representing 13.16% of Total Resources stood at ₱72.932 billion.

As permitted by PFRS 9 and BSP Circular 708, the Group sold in 2017 certain peso and dollar-denominated bonds classified as investment securities at amortized cost with an aggregate carrying amount of ₱22.729 billion. The disposals resulted in a gain of ₱683 mio, which is included under Trading and securities gains-net in the statement of profit or loss. In addition, the Group concluded that the sales did not result in changes in its business models for managing financial assets to collect contractual cash flows.

Loans under reverse repurchase agreement grew by 24.62% or ₱1.942 billion from ₱7.889 billion to ₱9.831 billion mainly due to higher placements with the BSP.

Loans and Receivables-net increased by 15.70% or ₱48.076 billion from ₱306.167 billion to ₱354.243 billion and represented 63.94% of total resources. This was primarily as a result of increase in the volume of loan releases across all product types. In terms of ADB, SME Loans grew by 18% or ₱6.0 billion, Consumer Loans by 15% or ₱10.7 billion, and Corporate Loans by 12% or ₱20.5 billion. Growth in consumer loans was led by the Credit Card Portfolio, which grew by 28% or ₱2.9 billion, Auto Loans by 21% or ₱5.5 billion, and Mortgage Loans by 9% or ₱3.2 billion. For the Loan Mix, Corporate Loans was 55%, SME was 16% and Consumer Loans was 29% of the Total Loans.

Investments in Associates, net grew by 8.88% or ₱34 million from ₱383 million to ₱417 million as a result of additional equity income from associates.

Investment Properties, net increased by 5.26% or ₱170 million from ₱3.229 billion to ₱3.399 billion attributable to additional foreclosed properties made by subsidiaries. Deferred Tax Assets declined by 12.91% or ₱291 million due to higher taxable income during the year resulting to utilization of tax benefits of minimum corporate income tax incurred in prior years. Other Resources, net

decreased by 8.61% or P849 million from P9.861 billion to P9.012 billion mainly due to disposal of assets held for sale by a subsidiary.

Deposit liabilities grew by 10.01% or P35.335 billion from P353.077 billion to P388.412 billion and represented 70.11% of Total Resources. Demand deposits increased by 23.64% or P9.943 billion from P42.053 to P51.996 billion, Savings Deposits were recorded at P165.187 billion and accounted for 29.82% of Total Resources. Time deposits grew by 15.62% or P23.131 billion from P148.098 bio to P171.229 billion and accounted for 30.91% of total resources. Increase in deposit liabilities was as a result of newly opened business centers.

Bills payable increased by 16.80% or P6.324 billion from P37.643 billion to P43.967 billion mainly attributable to higher foreign borrowings; it represented 7.94% of total resources. Bonds payable decreased by 32.54% or P13.535 billion from P41.595 billion to P28.060 billion primarily as a result of the maturity of the U.S.\$275 million senior notes in January 2017. Accrued taxes, interest and other expenses payable decreased by 13.23% or P638 million from P4.823 bio to P4.185 mainly due to decrease in accruals for other expenses as a result of the settlement of prior year's accrual of the BSP's regulatory action relating to the alleged heist involving the Bank of Bangladesh.

Total liabilities stood at P486.961 billion and represented 87.90% of Total Resources.

Net Unrealized Gains/(Losses) on Financial Assets At Fair Value Through Other Comprehensive Income decreased by 7.51% or P160 million due to revaluation of investment securities. Actuarial losses on Defined Benefit Plan decreased by P1.514 billion from P1.593 billion to P79 million as a result of the revaluation of plan assets held by the retirement fund. Retained Earnings grew by 14.34% or P3.518 billion from P24.531 billion to P28.049 billion due to higher income for the period and accounted 41.85% of Total Capital Funds.

Total Capital Funds grew by 7.88% or P4.894 bio from P62.133 bio to P67.027 bio.

Income Statement

INCOME STATEMENT			
In Million Pesos	2017	2016	2015
Interest Income	25,118	23,137	21,520
Interest Expense	7,097	7,430	5,943
Net Interest Income	18,021	15,707	15,577
Other Operating Income	7,100	7,114	6,655
Impairment Losses	2,155	1,770	2,350
Operating Expenses	17,815	17,355	15,061
Tax Expense (Income)	841	(174)	(307)
Net Income attributable to non-controlling interest	2	2	(1)
Net income	4,308	3,868	5,129

Total interest income increased by 8.56% or P1.981 billion from P23.137 billion to P25.118 billion and accounted for 99.99% of total operating income. Interest income from loans and receivables went up by 12.93% or P2.514 billion from P19.442 billion to P21.956 billion and accounted for 87.40% of total operating income. The increase is mainly due to increase in average volume of Loans and Receivables. Interest income from investment securities went down by 14.84% or P485 million mainly due to decrease in volume of total investment securities. It accounted for 11.08% of

total operating income. Other interest income decreased by 11.27% or P48 million from P426 million to P378 million primarily as a result of decrease in BSP term deposit placements.

Total interest expense stood at P7.097 billion and accounted 28.25% of total operating income. Interest expense from deposit liabilities grew by 21.11% from P3.269 billion to P3.959 billion, representing 15.76% of total operating income. The increase was a result of higher volume and cost of time deposits. Interest expense from bills payable and other borrowings declined by 24.59% or P1.023 billion mainly due to the maturity of the U.S.\$275 million senior notes in January 2017. As a result, net interest income increased by 14.73% or P2.314 billion from P15.707 billion to P18.021 billion.

The Group booked higher impairment losses at P2.155 billion, up by 21.75% or P385 million from P1.77 billion and represented 8.58% of total operating income. Increase in impairments losses net was mainly due to higher general loan loss provisions relative to increase in loan volume as previously discussed.

Other operating income of P7.100 billion accounted for 28.26% of total operating income and is broken down as follows:

- Service fees and commissions stood at P3.138 billion and accounted for 12.49% of total operating income.
- Trading and securities gain-net declined by 44.41% or P719 million from P1.619 billion to P900 million attributable to decrease in realized trading gains from securities sold.
- Foreign exchange gains increased by 189.13% or Php522 million from P276 million to P798 million attributable to higher volatility in the market resulting to increase in volume of transactions.
- Trust fees settled at P279 million.
- Share in net earnings of subsidiaries and associates settled at Php92 million.
- Miscellaneous income went up by 18.46% or Php295 million from Php1.598 billion to P1.893 billion brought about by higher dividend and gains on assets sold.

Operating expenses stood at P17.815 billion and accounted 70.92% of Total Operating Income.

- Manpower costs increased by 11.63% or P629 million from P5.408 billion to P6.037 billion, as a result of hiring for the newly opened branches. It consumed 24.03% of the total operating income.
- Occupancy and equipment-related grew by 10.24% or P294 million from P2.871 billion to P3.165 billion mainly due to the 27 branches opened in 2017. It accounted 12.60% of the total operating income.
- Taxes and licenses stood at P1.821 billion.
- Depreciation and amortization increased by 8.38% or P148 million from P1.766 billion to P1.914 billion.
- Miscellaneous expenses declined by 10.82% or P592 million to settle at P4.878 billion from P5.470 billion, primarily as a result of the P1.0 billion fine imposed by the BSP in 2016, and it consumed 19.42% of total operating income

Tax expense increased by P1.015 billion from a tax income of P174 million to a tax expense of P841 million, primarily as a result of higher taxable income as well as the origination and reversal of temporary differences relating to MCIT.

Net profit attributable to non-controlling interest settled at P2 million.

Overall, net income increased by 11.37% or P440 million from P3.870 billion in 2016 to P4.310 billion in 2017.

Notes to the Computations:

1. Consolidated and Parent Company ROA and ROE ratios were taken from the corresponding audited financial statements. ROA ratio of the subsidiaries was determined based on the average of the quarterly ending balances of total assets, audited and/or unaudited. ROE ratio of the subsidiaries was likewise computed based on the average of the quarterly ending balances of total equity, audited and/or unaudited.
2. CAR covers combined credit, market and operational risks. Where the BIS CAR was not computed, the simple Capital to Total Assets ratio formula was used.
3. NPL ratio is determined by using the following formula: $(\text{Total NPLs net of total specific provision for losses}) / (\text{Total gross loan portfolio})$
4. NPA ratio is determined by using the following formula: $(\text{Net NPLs} + \text{Gross ROPA} + \text{Non performing SCR}) / \text{Gross Total Assets}$.
5. For some subsidiaries, the NPL/NPA ratios were not computed since these ratios were not applicable.

2018

Philippine economy continued to sustain its resilience amid global economic slowdown in 2018. Philippine economic growth is still at its sharp upward trajectory as it grew for the 19th straight year (since 1999) and growth still remains at 6% levels for the past 6 years (since 2012) at +6.2% in 2018. This is slower vs. 6.7% in 2017, and the slowest in 3 years partly due to higher inflation, higher interest rates, and decline in exports, yet growth is still among the fastest in Asia. Philippine economic growth remained relatively higher compared to recent years due to improved macroeconomic and credit fundamentals with manageable inflation environment, peso exchange rate trend consistent with macroeconomic fundamentals, manageable fiscal performance, and still relatively strong external position. Growth momentum is sustained by increased infrastructure spending (Build, Build, Build program of the government) to expand the economy's absorptive capacity, and Philippines has been benefiting from its demographic advantage since 2015 where majority of the population already reached the working age.

Fitch Ratings affirmed Philippines credit ratings (at BBB; stable outlook), largely driven by the government's tax reform initiative. This is still one notch above minimum investment grade and the same with Moody's (at Baa2; stable outlook) and S&P (at BBB; stable outlook). Positive investor sentiment is partly reflected by foreign direct investments among record highs.

Strong macroeconomic fundamentals have fortified the Philippine economy against disruptions caused by natural calamities, as well as external challenges such as slowing global economic growth aggravated by the US-China trade war and partial US government shutdown, volatility in world crude oil prices as US imposed sanctions on Iranian and Venezuelan oil exports, uncertainties over Brexit, gradual Fed rate hikes (total of 1 percentage point in 2018), and emergence of some protectionist policies.

Output and employment

Consumer spending, which accounted for about 70% of the Philippine economy in 2018, remains to be among the major drivers of the demand side of the economy, alongside the strong growth in government spending (+12.8% year-on-year vs. +5.9% last year; fastest since 2012 due to the Build, Build Build program of the government), and the continued growth in investments (+13.9% year-on-year vs. +9.4% in 2017)

In terms of industrial origin, economic growth in 2018 was largely driven by industry (+6.8% year-on-year; mainly driven by construction that posted a 15.9% growth), and services (still relatively high with +6.6% year-on-year growth and remained to be the largest contributor as it comprised 57.7% of GDP).

Philippine unemployment rate is at 5.3%, which is among the lowest in more than a decade (vs. 7%-8% levels in 2005), partly due to additional BPO and tourism jobs, as well as improved local employment conditions.

Agriculture sector is still lagging behind as it posted +0.8% year-on-year growth in 2018. This is slower than +4% growth recorded in 2017 partly due to Typhoon Ompong, which had the second biggest damage to agriculture after Supertyphoon Yolanda in 2013.

Prices

Inflation in 2018 averaged at 5.2% (among decade highs), after 2.9% in 2017 amid higher prices of food/rice, oil, and imports due to weaker peso. Inflation already eased to 5.1% in Dec. 2018 after reaching a peak of 6.7% in Oct. 2018. For instance, the 91-day Treasury bill yield went up by +3.18 percentage points in 2018, closing the year at 5.32% while the 5-year benchmark local interest rate (PHP BVAL yield) went up by +2.26 percentage points, closing the year at 7.04%.

Money and Interest Rates

The Philippine central bank (BSP) raised its local policy rates by a total of 1.75 percentage points in 2018 due to higher inflation. This has led to higher local interest rates that reached decade highs last Oct. 22, 2018, but already started to ease thereafter alongside the declining trend in inflation. Peso exchange rate (vs. US dollar) closed at 52.58 in end-2018 vs. 49.93 in end-2017 amid record trade deficit that required increased purchase of foreign exchange needed for the sharp increase in net imports. Peso was also weaker due to external factors including stronger dollar vs. major global currencies after the Federal Reserve increased key US interest rates and the increased volatility in Emerging Markets, among others.

Philippine banks continue to be resilient in 2018 as quality of assets and loan portfolio sustained improvement. Banks' non-performing loans (as percent of total loans) went down to 1.3% from double-digit ratio in 2004. Total loans of banks in 2018 slowed down to +15.6% year-on-year to PHP8.3tn (slowest since April 2016) as local interest rates increased borrowing costs that reduced loan demand by businesses and consumers, thereby reducing economic activities/ GDP growth.

Similarly, domestic liquidity/M3 growth in 2018 slowed down to +9.2% year-on-year vs. 11.9% in 2017.

The Philippine Stock Exchange Composite Index (PSEi) declined by 12.8% in 2018 to close at 7,466.02, after +25.1% gain in 2017. It reached a record high of 9,058.62 last Jan. 29, 2018 and a low of 6,843.83 last Nov. 13, 2018.

External Sector

Total exports of the country for 2018 slightly declined by -1.8% (vs. 19.7% in 2017) year-on-year to US\$67.5bn amid global economic slowdown aggravated by lingering US-China trade war which reduced demand for Philippine exports that are part of the global supply chain. Slower growth in exports may also reflect slowdown in manufacturing where there are some uncertainties over the proposed rationalization of fiscal incentives that kept some new foreign investments, especially export-oriented, on a wait-and-see attitude.

Growth of total imports for 2018 grew by +13.4% (after posting a +14.2% growth in 2017) to US\$108.9bn amid increased importation of capital goods and raw materials required by the local economy which remains to be one of the fastest-growing in the region. Consequently, trade deficit or net imports for 2018 widened sharply to a new record high of -US\$41.4bn vs. -US\$27.4bn in 2017.

Philippine economy remains to be supported against global headwinds with gross international reserves at US\$79.2bn (as of end-2018) that covers 7 months of imports, structural US dollar flows from OFW remittances (growing at 3% to US\$32.21bn, highest annual level to date) and BPO revenues, and continued inflows of foreign direct investments at US\$9.1bn for the first 11 months of 2018 (although declined by -3.2% vs. US\$9.4bn in the same period last year due to uncertainties on the proposed rationalization of fiscal incentives). Net foreign portfolio investments inflows in 2018: US\$1.2bn vs. outflows of -US\$1.95bn in 2017.

Public Finance

Wider budget deficit at -PHP477.2bn in the first 11 months of 2018 (vs. -PHP243.5bn in the same period last year) as reflected by the increase in government spending especially on infrastructure which grew by an average of at least 50%, thereby making it a major contributor to economic growth.

Total outstanding debt of national government as of 2018 is more favorable at 41.9% of GDP (vs. 42.1% in 2017) which still reflects the country's improved fiscal management.

Financial and Operating Highlights

Balance Sheet

RCBC's Total Assets stood at P645.0 billion.

BALANCE SHEET			
In Million Pesos	2018	2017	2016
Total Assets	644,595	553,988	521,193
Investment Securities	118,449	72,932	75,622
Loans and Receivables (Net)	398,300	354,243	306,167
Total Deposits	423,399	388,412	353,077
Capital Funds	81,170	67,027	62,133

RCBC's Total Assets grew by 16.36% or P90.607 billion from P553.988 billion to P644.595 billion mainly due to the increase in Investment Securities and Loans and Receivables.

Cash and Other Cash Items, grew by 18.37% or P2.699 billion, attributable to the additional cash requirements for the 23 extension offices converted to regular branches, and additional cash to service ATM withdrawals during the holidays.

Total Investment Securities, representing 18.38% of Total Resources, increased by 62.41% or P45.517 billion from P72.932 billion to P118.469 billion attributable to 309.98% or P16.624 billion increase in Financial Assets at Fair Value through other Comprehensive Income (FVOCI) from P5.363 billion to P21.987 billion and 48.21% or P28.914 billion increase in Investment Securities at Amortized Cost from P59.978 billion to P88.892 billion.

Loans and Receivables-net went up by 12.44% or P44.057 billion from P354.243 billion to P398.300 billion and represented 61.79% of Total Resources. This was primarily as a result of increase in the volume of loan releases.

Bank Premises, Furniture, Fixtures & Equipment, net decreased by 5.94% or P531 million from P8.946 billion to P8.415 billion primarily as a result of depreciation and amortization. Investment Properties, net increased by 6.83% or P232 million mainly due to additional foreclosed properties made by subsidiaries.

Deferred Tax Assets-net increased by 10.44% from or P198 million from P1.896 billion to P2.094 billion as a result of origination of additional deductible temporary differences.

Deposit liabilities grew by 9.01% or P34.987 billion from P388.412 billion to P423.399 billion and represented 65.68% of Total Resources. Demand deposits increased by 8.49% or P4.417 billion from P51.996 billion to P56.413 billion and accounted for 8.75% of Total Resources; Savings Deposits grew by 5.40% or P8.920 billion from P165.187 billion to P174.107 billion and accounted for 27.01% of Total Resources. Time deposits grew by 12.64% or P21.650 billion from P171.229 billion to P192.879 billion and accounted for 29.92% of Total Resources.

Bills payable increased by 27.37% or P12.034 billion from P43.967 billion to P56.001 billion mainly attributable to increase in foreign borrowings. Bonds payable also increased by 89.20% or P25.030 billion from P28.060 billion to P53.090 billion primarily as a result of issuance of U.S.\$300 million senior notes in March 2018 and U.S.\$150 million senior notes in April 2018.

Accrued taxes, interest and other expenses payable increased by 26.09% or P1.092 billion from P4.185 billion to P5.277 billion mainly due to increase in accruals for interest. Other Liabilities also grew by 26.70% or P3.303 billion from P12.369 billion to P15.672 billion due to increase in post-employment defined benefit obligation.

Total liabilities grew by 15.70% or P76.464 billion from P486.961 billion to P563.425 billion and represented 87.41% of Total Resources.

Common Stock grew by 38.27% or P5.357 billion from P13.999 billion to P19.356 billion and capital Paid in Excess of Par also increased by 41.64% or P9.426 billion attributable to the Stock Rights Offering in July 2018.

Net Unrealized Gains on Financial Assets at Fair Value through Other Comprehensive Income declined by 21.04% or P414 million from P1.968 billion to P1.554 billion as a result of revaluation of investment securities. Cumulative Translation Adjustment also declined by 36.47% or P31 million from P85 million to P54 million as a result of the liquidation of a foreign subsidiary. Actuarial loss on defined benefit plan, on the other hand, was recorded at negative P1.344 billion from a negative balance of P79 million.

Reserve for Trust Business went up by 4.13% or P18 million from P436 million to P454 million.

Total Capital Funds increased by 21.10% or P14.391 billion from P67.027 billion to P81.170 billion and accounted for 12.59% of Total Resources.

Finally, there are no known trends, demands, and commitments, events, or uncertainties that will have a material impact on the Bank's operational performance and ability to service obligations.

Income Statement

INCOME STATEMENT			
In Million Pesos	2018	2017	2016
Interest Income	30,933	24,764	23,137
Interest Expense	10,444	6,743	7,430
Net Interest Income	20,489	18,021	15,707
Other Operating Income	6,006	7,100	7,114
Impairment Losses	1,899	2,155	1,770
Operating Expenses	19,403	17,815	17,355
Tax Expense (Income)	872	841	(174)
Net Income attributable to non-controlling interest	1	2	2
Net income	4,320	4,308	3,868

Total interest income increased by 24.91% or P6.169 billion from P24.764 billion to P30.933 billion and accounted for 125.76% of total operating income. Interest income from loans and receivables went up by 23.14% or P5.081 billion from P21.956 billion to P27.037 billion and accounted for 109.92% of total operating income. The increase is mainly due to increase in average volume of Loans and Receivables and increase in average yield of loans and receivables. Interest income from investment securities also went up by 40.04% or P973 from P2.430 billion to P3.403 billion mainly due to decrease in volume of total investment securities. It accounted for 13.84% of total operating income. Other interest income increased by 30.42% or P115 million from P378 million to P493 million primarily as a result of increase in BSP term deposit placements.

Total interest expense stood at P10.444 billion and accounted 42.46% of total operating income. Interest expense on deposit liabilities grew by 59.00% from P3.959 billion to P6.295 billion, representing 25.59% of total operating income. The increase was a result of higher volume and cost of time deposits. Interest expense on bills payable and other borrowings increase by 49.03% or P1.365 billion from P2.784 billion to P4.149 billion mainly due to issuance of Senior Notes in 2018.

As a result, Net Interest Income increased by 13.70% or P2.468 billion from P18.021 billion to P20.489 billion.

The Group booked lower impairment losses at P1.899 billion, down by 11.88% or P256 million from P2.155 billion and represented 75.58% of total operating income. Decrease in impairments losses net was mainly due to lower general and specific loan loss provisions.

Other operating income of P6.006 billion accounted for 24.42% of total operating income and is broken down as follows:

- Service fees and commissions grew by 5.690% or P185 million from P3.138 billion to P3.323 billion and accounted for 13.51% of total operating income. Increase is primarily due to increase in Bancassurance fee income, Bancnet fee income, loan and trade related fees
- Trading and securities gain-net declined from P900 million to nil attributable to decrease in realized trading gains from securities sold
- Foreign exchange gains was recorded at P843 million.
- Trust fees settled at P278 million.
- Share in net earnings of subsidiaries and associates settled at P14 million.
- Miscellaneous income declined by 18.23% or P345 million from P1.893 billion to P1.548 billion brought about by lower income from assets acquired.

Operating expenses stood at P19.403 billion and accounted 78.89% of Total Operating Income.

- Manpower costs increased by 9.53% or P571 million from P5.991 billion to P6.562 billion, as a result of hiring of sales personnel for the branches and annual merit increase. It consumed 26.68% of the total operating income
- Occupancy and equipment-related grew by 8.54% or P272 million from P3.185 billion to P3.457 billion. It accounted 14.06% of the total operating income
- Taxes and licenses stood at P1.821 billion.
- Depreciation and amortization decreased by P93 million from P1.914 billion to P1.821 billion.
- Miscellaneous expenses went up by 8.58% or P421 million to settle at P5.325 billion from P4.904 billion, primarily as a result of higher service fees, communication and information expenses, and ROPA-related costs, and it consumed 21.65% of total operating income

Tax expense was at P872 million.

Net profit attributable to non-controlling interest settled at P1 million.

Overall, net income was recorded at P4.321 billion.

Notes to the Computations:

6. Consolidated and Parent Company ROA and ROE ratios were taken from the corresponding audited financial statements. ROA ratio of the subsidiaries was determined based on the average of the quarterly ending balances of total assets, audited and/or unaudited. ROE ratio of the subsidiaries was likewise computed based on the average of the quarterly ending balances of total equity, audited and/or unaudited.
7. CAR covers combined credit, market and operational risks. Where the BIS CAR was not computed, the simple Capital to Total Assets ratio formula was used.
8. NPL ratio is determined by using the following formula: $(\text{Total NPLs net of total specific provision for losses}) / (\text{Total gross loan portfolio})$

9. *NPA ratio is determined by using the following formula: (Net NPLs + Gross ROPA + Non performing SCR) / Gross Total Assets.*

For some subsidiaries, the NPL/NPA ratios were not computed since these ratios were not applicable.

Key Variable and Other Qualitative and Quantitative Factors

Plans for 2019

We aim to continue to diversify the loan portfolio by focusing on the fast-growing and higher-yielding SME & Consumer segments so that these segments will comprise more than 50% of the Bank's total loan portfolio and in the process, improve average return on risk assets. Microfinance lending will continue to grow especially in the Mindanao and Visayas regions.

We aim to increase the number of RCBC customers across all segments. Consequently, there will be a strong focus on growing low cost CASA (or Current and Savings Accounts) by targeting the retail and corporate deposits through branch and digital channels expansion.

The Bank also aims to grow fee-based income and improve the percentage of Fee Income-to-Gross Income. This will be carried out by growing the client and cardholder base in order to increase the transaction volume of fee-based products and bolster investment banking services and corporate banking transactions.

Lastly, we also aim to focus on Digital Banking given the rapid advancement and sophistication in the technology and financial landscape. This will be done by enhancing our electronic business solutions and platforms to support the customers' requirements by adding more features to facilitate more financial transactions.

Item 7. Financial Statements

The consolidated financial statements and schedules listed in the accompanying Index to Financial Statements and Supplementary Schedules are filed as part of this Form 17-A.

Item 8. Information on Independent Accountant and other Related Matters

External Audit Fees and Services. The Audit Committee is empowered to appoint the external auditor of the Bank and pre-approve all auditing and non-audit services. It recommends to the Board the selection of external auditor considering independence and effectiveness and recommends the fees to be paid.

For the audit of the Bank's annual financial statements and services provided in connection with statutory and regulatory filings or engagements, the aggregate amount to be billed/billed, excluding out-of pocket expenses, by its independent accountant amounts/amounted to P12.32 million and P11.24 million for 2018 and 2017, respectively. Additionally, approximately P8.98 million was paid for other services rendered by the independent accountant in 2018.

Changes in and Disagreements With Accountants on Accounting and Financial Disclosure. In connection with the audits of the Bank's financial statements for the two (2) most recent years ended December 31, 2018 and 2017, there were no disagreements with Punongbayan and Araullo on any matter of accounting principles or practices, financial statement disclosures, audit scope or procedures.

PART III - CONTROL AND COMPENSATION INFORMATION

Item 9. Directors and Executive Officers of the Issuer

The names, age, citizenship and present positions of all directors are as follows:

*There are no additional shares which the listed beneficial or record owners have the right to acquire within thirty (30) days, from options, warrants, rights, conversion privilege or similar obligations, or otherwise.

The aggregate number of shares owned of record by all directors and executive officers as a Group named herein as of December 31, 2018 is 1,544,835 common shares equivalent to 15,448,350 at P10.00 per share or approximately 0.08% of the Bank's outstanding common shares.

Other than the above-named persons or groups holding more than 5% of the Bank's outstanding Common stock, there are no other persons that hold more than 5% of any class of stock under a voting trust or similar agreement.

There are also no arrangements, existing or otherwise, which may result in a change in control of the Bank.

Item 12. Certain Relationships and Related Transactions

RCBC is a 41.56%-owned subsidiary of Pan Malayan Management and Investment Corporation (PMMIC), the holding company of the flagship institutions of the Yuchengco Group of Companies (YGC). As of December 31, 2018, Cathay Life Insurance Corporation (Cathay) also owns 23.35% interest in RCBC.

The Bank and its subsidiaries, in the ordinary course of business, engage in transactions with entities within the YGC. The Bank adheres to the policy that transactions with related parties are conducted at arm's length or above board, with any transaction, whether or not a price is charged, in connection with any such transaction being on terms no less favorable to the Bank than terms available to any unconnected third party under the same or similar circumstances. The same has been institutionalized in the Bank's Policy on Related Party Transactions (the "Policy").

The Policy adopts an expanded definition of "related parties." Related parties include directors, officers, stockholders and related interests ("DOSRI") as defined under the General Banking Law, BSP Circular 895, and other related issuances, as well as members of the Advisory Board of the Bank, consultants of the Bank, entities within the conglomerate of which the Bank is a member, and subsidiaries of related parties. The Bank maintains a database of related parties which is regularly updated to capture organizational and structural changes within the YGC.

Transactions with related parties involving an amount of at least Pesos: Ten Million (Php10,000,000.00), or significant transactions with related parties requiring Board approval regardless of amount, are reportable to the RPT Board Committee as related party transactions ("RPTs"). Related party transactions involving amounts below the materiality threshold of Pesos: Ten Million (Php10,000,000.00) are reportable to the RPT Management Committee.

Related parties, through their respective account officers, are enjoined to notify the appropriate Related Party Transactions Committee of any potential RPT as soon as they become aware of it. The RPT Board Committee is composed of at least three members of the Board of Directors, entirely consisting of independent and non-executive directors, with independent directors comprising the majority. The Chairman is an independent director. The RPT Management

Committee is composed of heads of the Controllershship Group, Operations Group, Corporate Risk Management Services Group, Retail Banking Group, and Corporate Planning Group, or their selected designates.

If a transaction is determined to be an RPT, the said transaction and all its relevant details are required to be submitted to the appropriate RPT Committee for evaluation. Once determined to be on arm's length terms, RPTs evaluated by the RPT Board Committee are thereafter presented to the Board of Directors for approval while transactions reviewed and approved by the RPT Management Committee are presented to the Board of Directors for confirmation. In the event that a member of the Board has an interest in the transaction under evaluation, the said member shall not participate in the discussion and shall abstain from voting on the approval of the RPT. Pursuant to BSP Circular No. 895, as amended, and the Bank's Corporate Governance Manual, the Bank's significant transactions with its DOSRI and related parties were confirmed by majority vote of the Bank's stockholders during the last annual stockholders' meeting on 25 June 2018.

The review of related party transactions is part of the compliance testing of the Compliance Office as well as audit work program of the Internal Audit Group.

The Group's significant transactions with its related parties as of end December 2018 include loans and receivables and deposit liabilities. The total amount of loans outstanding was at P3.785 Billion [Note 28.1, Notes to Financial Statements] while total deposit liabilities was at P5.055 Billion [Note 28.2, Note to Financial Statements] as of December 31, 2017.

The Bank complies with existing BSP regulations on loans, credit accommodations and guarantees to its DOSRI.

In the ordinary course of business, the Group has loan transactions with each other, their other affiliates, and with certain DOSRIs. Under existing policies of the Group, these loans are made substantially on the same terms as loans to other non-related individuals and business of comparable risks.

Under current BSP regulations, the amount of loans to each DOSRI, 70% of which must be secured, should not exceed the amount of his deposit and book value of his investment in the Bank. In the aggregate, loans to DOSRIs, generally, should not exceed the total capital funds or 15% of the total loan portfolio of the Bank and/or any of its lending and non-banking financial subsidiaries, whichever is lower. However, non-risk loans are excluded in both individual and aggregate ceiling computations. As of December 31, 2018 and 2017, the Group and the Parent Company are in compliance with these requirements.

The total amount of Parent Company DOSRI loans was at P500 million as of end December 2017 and was at P469 million by end of December 2018. [Note 28.1, Notes to Financial Statements]

Certain of the Bank's major related party transactions are described below

- *Sale and Purchase of Securities* - The Parent Company and certain subsidiaries engage in the trading of investment securities as counterparties to the transaction. These transactions are priced similar to transactions with other counterparties outside the Group and there are no unsettled transactions as of the end of each reporting period. [Note 28.3, Notes to Financial Statements]

- *Retirement Fund* - The Parent Company and certain subsidiaries' retirement funds covered under their defined benefit post-employment plan maintained for qualified employees are administered and managed by the Parent Company's and RSB's Trust Departments in accordance with the respective trust agreements covering the plan. [Note 28.4, Notes to Financial Statements]

Transactions with subsidiaries which are eliminated in the consolidated financial statements are as follows:

- *Lease contract with RRC and Sublease Agreements with Subsidiaries* - The Parent Company and certain subsidiaries occupy several floors of RCBC Plaza as leaseholders of RRC. The occupancy of some of subsidiaries in RCBC Plaza is covered by sublease agreements with RCBC. RCBC's lease contract with RRC is effective until December 31, 2020 [Note 28.5(a), Notes to Financial Statements]
- *Lease Contract on RSB Corporate Center* - In October 2013, the Parent Company and RSB entered into a lease agreement covering certain office and parking spaces of RSB Corporate Center at a monthly rental fee of P7. The monthly rental payments are subject to an escalation rate of 5% annually effective in 2014 up to the 5th year of the lease term. The initial lease is for a period of five years which ended in October 2018 and was renewed in September 2018 for an extended period. [Note 28.5(b), Notes to Financial Statements]
- *Service Agreement with RBSC* - The Parent Company has Service Agreement with RBSC, wherein RBSC shall provide the Parent Company with marketing, distribution, technical, collection and selling assistance and processing services in connection with the operation of the Parent Company's credit card business. [Note 28.5(c), Notes to Financial Statements]
- *Capital Infusion to RCBC LFC* - In August 2018, the Board of Directors of RCBC approved the additional capital infusion to RCBC LFC amounting to P800 million, which was paid to the latter in November 2018 after RCBC LFC's BOD approved the increase in its authorized capital stock in its meeting held in October 2018. As the application for the increase in authorized capital stock is not yet filed by RCBC LFC to the SEC as of December 31, 2018, the P800 deposit for future stock subscription is recognized and presented as part of Other Resources Account in the 2018 statement of financial position of RCBC. [Note 12.1, par. 2, Notes to Financial Statements]
- The Bank has service agreements with RSB and RBSC for the in-sourced internal audit services. The Bank provides full-scope audit services to RSB and limited audit services to RBSC, specifically IT audit, operations audit and financial statements review. Also, the Bank has formalized the service agreements for the internal audit services being provided to subsidiaries namely: RCBC Capital Corp., RCBC Securities, Inc., RCBC Forex Brokers Corp., Merchant Savings and Loan Association, Inc. (Rizal Microbank), RCBC Leasing and Finance Corporation and Niyog Property Holdings, Inc.
- The Bank has a service agreement with RCBC Forex Brokers Corporation (RCBC Forex) for in-sourced services, rendered by the following business units: 1) business and operational risk, 2) compliance, 3) internal audit, 4) information technology, and 5) human resources. The services shall be limited to: compliance with relevant laws, rules and regulations, market, liquidity, and operational risk management, internal audit, information technology, review of salary and processing of payroll on a bi-monthly basis, and

implementation of exclusive succession planning, human resources information system and database administration and organization of training programs.

- The Bank has a service agreement with RCBC Forex and RSB for the referral of money service business customers to RCBC Forex, to facilitate the purchase and/or sale of foreign currencies. The services to be rendered are relative to account opening and compliance with customer identification regulatory requirements.

The Bank's other transactions with affiliates include service agreements, leasing office premises to subsidiaries which is eliminated during consolidation, accreditation of RCBC Trust agent and of insurance companies, and regular banking transactions (including purchases and sales of trading account securities, securing insurance coverage on loans and property risks and intercompany advances), all of which are at arms' length and conducted in the ordinary course of business.

The Bank does not have any transactions with promoters within the past five (5) years. The Bank does not have transactions with parties that fall outside the definition of related parties under regulations, but with whom the registrants or its related parties have a relationship that enables the parties to negotiate terms of material transactions that may not be available from other, more clearly independent parties on an arm's length basis.

PART IV - EXHIBITS AND SCHEDULES

Item 13. Exhibits and Reports on SEC Form 17-C

Report of Independent Auditors

The Board of Directors and the Stockholders
Rizal Commercial Banking Corporation
Yuchengco Tower, RCBC Plaza
6819 Ayala Avenue cor. Sen. Gil Puyat Avenue
Makati City

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Rizal Commercial Banking Corporation and subsidiaries (together hereinafter referred to as the Group) and of Rizal Commercial Banking Corporation (the Parent Company), which comprise the statements of financial position as at December 31, 2018 and 2017, and the statements of profit or loss, statements of comprehensive income, statements of changes in equity and statements of cash flows for each of the three years in the period ended December 31, 2018, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Group and of the Parent Company as at December 31, 2018 and 2017, and their financial performance and their cash flows for each of the three years in the period ended December 31, 2018 in accordance with Philippine Financial Reporting Standards (PFRS).

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSA). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Group in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audits of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters identified in our audit of the financial statements of the Group and of the Parent Company:

(a) Adoption of Expected Credit Loss Model for Loans and Receivables under PFRS 9, Financial Instruments

Description of the Matter

As described in Note 2 to the financial statements, the Group and the Parent Company have adopted on January 1, 2018, the new impairment requirements under PFRS 9, *Financial Instruments*, which fundamentally changed the Group's and the Parent Company's assessment and accounting for impairment losses of its loans and receivables portfolio from an incurred loss model to a forward-looking expected credit loss (ECL) model. As of December 31, 2018, the Group's and the Parent Company's loans and receivables comprise 62% and 58% of the total resources, respectively, while as at January 1, 2018, these comprise 64% and 60% of the Group's and the Parent Company's total resources, respectively. We have identified this area a key audit matter as PFRS 9 is a new and complex accounting standard that:

- requires significant management judgment on the interpretation and implementation of the requirements of the standard in assessing impairment losses based on an ECL model that involves defining when does default occur and what constitute a significant increase in the credit risk of different loans and receivables portfolio;
- involves high degree of estimation uncertainty related to management's use of various inputs and assumptions applied in the ECL model such as credit risk rating of the borrower, expected amount and timing of cash flows, including recovery of collaterals for defaulted accounts, and forward-looking macroeconomic information which may be affected by management estimation bias; and,
- requires complex estimation process that entails implementation of internal controls and use of information system in ensuring the completeness and accuracy of data used in the ECL calculation and in the preparation of required disclosures in the financial statements.

In addition, the application of the ECL model requires comprehensive and complex disclosures on the Group's and the Parent Company's financial statements as at January 1, 2018, and for each reporting period. The impact of the adoption of the ECL model at transition date and as at December 31, 2018 are disclosed in Notes 2 and 11, respectively, while the summary of significant accounting policies, the significant judgment, including estimation applied by management, as those relate to the credit risk assessment process of the Group and the Parent Company are disclosed in Notes 2, 3 and 4 to the financial statements, respectively.

How the Matter was Addressed in the Audit

We obtained an understanding of the Group's and the Parent Company's accounting policies and methodologies applied and we evaluated whether those: (a) are established and implemented consistent with the underlying principles of PFRS 9; (b) are appropriate in the context of the Group's lending activities and asset portfolio that takes into consideration the different segments of credit exposures and the relevant regulatory framework; and, (c) are supported by pertinent processes and controls, including documentations of the accounting policies that capture in sufficient detail the judgment, including estimation applied in the development of the ECL model.

With respect to the use of significant judgment, including those involving estimation of inputs and assumptions used in the ECL model, we performed the following:

- assessed the Group's and the Parent Company's segmentation of its credit risk exposures based on homogeneity of credit risk characteristics and evaluated the appropriateness of the specific model applied for each segment of loan portfolio;
- evaluated both the quantitative and qualitative criteria applied in the definition of default against historical analysis for each segment of loan portfolio and in accordance with credit risk management practices, and tested the criteria in the determination of the significant increase in credit risk, including assignment of a loan or group of loans into different stages of impairment;
- tested the Group's and the Parent Company's application of internal credit risk rating system for selected items of loans, and verified the mapping of the ratings to the ECL calculation;
- tested loss given default information across various types of loan by inspecting records of historical recoveries, including valuation and cash flows from collateral, and write-offs;
- reconciled and tested exposure at default for all outstanding loans against the relevant loan databases, including review of the potential exposures from undrawn commitments against historical drawdown; and,
- assessed the appropriateness of the identification of forward-looking information (overlays) used in the ECL model and validated their reasonableness against publicly available information.

As part of our audit of the ECL methodology, we tested the completeness and accuracy of the data used in the ECL model through reconciliation of loan data subjected to the ECL calculations, which were prepared by management outside its general ledger system, against the relevant financial reporting applications and other accounting records. Moreover, we tested the stratification of loan data that were disaggregated into various portfolio segments for purposes of ECL calculations. Furthermore, we tested the mathematical formula and the computation logics applied in the calculation of the different inputs in the ECL model and the estimation of the credit losses for all loans and receivables subjected to impairment assessment.

We assessed the appropriateness of the transition adjustments as at January 1, 2018 and evaluated the completeness of the disclosures in the financial statements against the requirements of the relevant standards.

(b) Fair Value Measurement of Unquoted Securities Classified at Fair Value Through Other Comprehensive Income

Description of the Matter

The Group and the Parent Company have significant investments in unquoted equity securities measured at fair value through other comprehensive income amounting to P3,989 million and P1,946 million, respectively, as of December 31, 2018. These include equity securities with total fair value of P2,358 million and P339 million for the Group and Parent Company, respectively, on which net fair value loss of P185 million for the Group and fair value loss of P204 million for the Parent Company were recognized in other comprehensive income in 2018, which formed part of the Revaluation Reserves account in the statement of changes in equity. The valuation of these financial instruments involve complex valuation techniques (i.e., price-to-book value method and discounted cash flow method) and significant estimation which are highly dependent on underlying assumptions and inputs such as price-to-book ratios of selected comparable listed entities, application of a certain haircut rate, and appropriate discount rate in computing the present value of future cash flows expected from dividend or redemption payments. These inputs are considered Level 3 unobservable inputs in the fair value hierarchy under PFRS 13, *Fair Value Measurement*, as discussed in Notes 3 and 7 to the financial statements. Accordingly, we have assessed the valuation of the unquoted equity securities as a key audit matter.

How the Matter was Addressed in the Audit

We evaluated the appropriateness of management's valuation methodology in accordance with PFRS 13. For equity security valued using the price-to-book value method, we used our own internal valuation expert to assess and challenge the valuation assumptions used, including the identification and selection of comparable listed entities and the related financial information such as net book value per share and quoted prices of those listed entities. In testing the reasonableness of the haircut rate used, we reviewed available non-financial information relevant to the assessment of the potential marketability of the subject security, and the consistency of the application of the haircut rate used in prior period in light of the current industry and economic circumstances. With respect to the equity security measured using the discounted cash flow method, we evaluated the reasonableness of the amount of future cash flows from the dividend or redemption expected to be received from the instrument based on the contractual arrangement with the counterparty, and the appropriate discount rate used. We also tested the mathematical accuracy of the calculation for both valuation techniques used by management.

(c) Appropriateness of Disposals of Investment Securities at Amortized Cost

Description of the Matter

As of December 31, 2018, the Parent Company carries in its financial statements investment securities held under its hold-to-collect (HTC) business model, which are measured at amortized cost amounting to P78,595 million. In 2018, it disposed of a portion of its US dollar-denominated HTC securities with face value of US\$57 million (P3,021 million) and carrying amount of P3,205 million. The disposal was made to maintain adequate liquidity buffer for the expected cash outflows for loan drawdowns.

Management assessed that such disposal remains to be consistent with the Parent Company's HTC business model with the objective of collecting contractual cash flows. The assessment to determine whether the disposal of the HTC securities is consistent with the Parent Company's HTC business model is considered a key audit matter because the assessment involves significant judgment such as on the evaluation of the frequency and significance of the disposal that may impact the appropriateness of the Parent Company's business model in managing financial instruments. The disclosures in relation to this matter are included in Note 10 while the disclosures regarding the Parent Company's assessment of the business model applied in managing financial instruments are presented in Note 3 to the financial statements.

How the Matter was Addressed in the Audit

We checked the appropriateness of the Parent Company's disposal of the US dollar-denominated HTC securities by reviewing the documentation of the approval of the Parent Company's Executive Committee on December 20, 2018 as required by the BSP. We assessed whether the disposal was made consistent with the permitted sale events documented in the Parent Company's business model in managing financial assets manual and with the relevant requirements of both the financial reporting standard and the BSP. We also assessed the appropriateness and reasonableness of the underlying data used and the rationale documented by the Parent Company in the determination of the amount of HTC securities disposed of relative to the current and forecasted level of liquidity and to ensure continuing compliance with the regulatory requirements of the BSP.

(d) Recoverability of Deferred Tax Assets

Description of the Matter

The Group's and the Parent Company's deferred tax assets amounted to P2,094 million and P964 million, respectively, as of December 31, 2018. The recognition of deferred tax assets is reviewed at the end of each reporting period and adjusted to the extent of the changes in probability that sufficient taxable profits will be available to allow all or part of such deferred tax assets to be utilized. Determining the probabilities of sufficiency of future taxable profits involves significant management judgment and high estimation uncertainty as it requires preparation of financial forecast and profitability projections which may result in different outcome scenarios, hence, may significantly affect the estimates and decisions made by management whether or not to recognize the deferred tax assets. Accordingly, we identified the recoverability of deferred tax assets as significant area of focus in our audit.

How the Matter was Addressed in the Audit

Our work included, among others, obtaining management's income projections based on its Internal Capital Adequacy Assessment Process document. Relative to this, we reviewed the appropriateness of management's assumptions underlying the recoverability of the deferred tax assets by comparing the forecast to our expectations developed based on historical performance and our understanding of the Group's and the Parent Company's existing growth strategy. We also considered the fact that the Group and the Parent Company have been utilizing the benefits of deferred tax assets since prior periods.

The relevant information about the accounting policies on deferred tax assets and the details of recognized and unrecognized deferred tax assets as of December 31, 2018 are disclosed in Notes 3 and 26 to the financial statements, respectively.

Key audit matter we identified in our audit of the consolidated financial statements of the Group:

Assessment of Goodwill Impairment

Description of the Matter

As of December 31, 2018, the balance of goodwill, net of allowance for impairment, amounted to P268 million, which is included as part of the Other Resources account in the Group's statement of financial position. Under PFRS, goodwill, having indefinite useful life, is not subject to amortization but is required to be tested for impairment annually, or more frequently if events or changes in circumstances indicate that the carrying value of goodwill may be impaired. We identified this area as a key audit matter because the annual impairment test requires significant judgment and is based on assumptions which are internally developed or projected by management. This includes the identification of cash generating units (CGUs) where the goodwill is allocated and the future cash flows of the identified CGUs, which are affected by expected future market or economic conditions. The Group engaged a third party valuation specialist to assist in assessing any impairment on the recognized goodwill. Management's significant assumptions include:

- RCBC Savings Bank, Inc. (RSB)'s business, the identified CGU on which the goodwill is allocated, will continue as a going concern or if merged with the Parent Company under the Plan of Merger as disclosed in Note 1 to the financial statements, will continue to be a CGU for the Group;
- The CGU will have sufficient financial resources to finance its working capital requirements to achieve its projected forecast and to support the business needs; and,
- The CGU's performance forecasts for the next five years.

The Group's accounting policy on impairment of and disclosures about goodwill are included in Notes 2 and 15, respectively, to the financial statements.

How the Matter was Addressed in the Audit

We assessed the competence, capabilities and qualifications of the third party valuation specialist by considering their qualifications, experience and reporting responsibilities. We evaluated the methodology applied and the assumptions used by management and its valuation specialist, particularly those relating to the forecasted revenue growth and profit margins of RSB by considering its historical financial performance and its specific growth strategy. We compared the long-term growth rate against the industry and market outlook and other relevant external data. In addition, we did not identify event or conditions that may cast significant doubt on the identified CGU's ability to continue as a going concern.

Other Information

Management is responsible for the other information. The other information comprises the information included in the Group's and the Parent Company's Securities and Exchange Commission (SEC) Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2018, but does not include the financial statements and our auditors' report thereon. The SEC Form 20-IS, SEC Form 17-A and Annual Report for the year ended December 31, 2018 are expected to be made available to us after the date of this auditors' report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audits, or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with PFRS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's and the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group and the Parent Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's and the Parent Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with PSA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Parent Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Parent Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group and the Parent Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. As discussed in Note 26 to the financial statements, the Parent Company presented the supplementary information required by the Bureau of Internal Revenue under Revenue Regulations (RR) 15-2010 in a supplementary schedule filed separately from the basic financial statements. RR 15-2010 requires the supplementary information to be presented in the notes to financial statements. Such supplementary information is the responsibility of management. The supplementary information is not a required part of the basic financial statements prepared in accordance with PFRS; it is neither a required disclosure under the Securities Regulation Code Rule 68, as amended, of the SEC.

The engagement partner on the audits resulting in this independent auditors' report is Anthony L. Ng.

RIZAL COMMERCIAL BANKING CORPORATION AND SUBSIDIARIES
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018, 2017 AND 2016

(Amounts in Millions of Philippine Pesos, Except Share and Per Share Data or As Indicated)

1. CORPORATE MATTERS

1.1 Incorporation and Operations

Rizal Commercial Banking Corporation (the Parent Company, the Bank or RCBC), a universal bank engaged in all aspects of banking, was originally incorporated on September 23, 1960. The Bank renewed its corporate existence on December 10, 2009. It provides products and services related to traditional loans and deposits, trade finance, domestic and foreign fund transfers or remittance, cash management, treasury, and trust and custodianship services. Under relevant authority granted by the Bangko Sentral ng Pilipinas (BSP), the Bank is also licensed to deal in different types of derivatives products such as, but not limited, to foreign currency forwards, interest rate swaps and cross currency swaps. The Parent Company and its subsidiaries (together hereinafter referred to as the Group) are engaged in all aspects of traditional banking, investment banking, retail financing (credit cards, auto loans, mortgage/housing and microfinance loans), remittance, leasing and stock brokering.

As a banking institution, the Group's operations are regulated and supervised by the BSP. As such, the Group is required to comply with banking rules and regulations such as those relating to maintenance of reserve requirements on deposit liabilities and deposit substitutes and those relating to the adoption and use of safe and sound banking practices, among others, as promulgated by the BSP. The Group's activities are subject to the provisions of Republic Act (RA) No. 8791, the *General Banking Law of 2000*, and other related banking laws.

The Parent Company's common shares are listed in the Philippine Stock Exchange (PSE).

The Group's and the Parent Company's banking network within and outside the Philippines as of December 31 follows:

	Group		Parent Company	
	2018	2017	2018	2017
Automated teller machines (ATMs)	1,593	1,562	1,136	1,103
Branches	497	473	330	306
Extension offices	12	35	2	25

RCBC is a 41.56%-owned subsidiary of Pan Malayan Management and Investment Corporation (PMMIC), a company incorporated and domiciled in the Philippines. PMMIC is the holding company of the flagship institutions of the Yuchengco Group of Companies (YGC), with registered business address at 48th Floor, Yuchengco Tower, RCBC Plaza, 6819 Ayala Avenue cor. Sen. Gil Puyat Avenue, Makati City. As of December 31, 2018, Cathay Life Insurance Corporation (Cathay) also owns 23.35% interest in RCBC.

The Parent Company's registered address, which is also its principal office, is at Yuchengco Tower, RCBC Plaza, 6819 Ayala Avenue cor. Sen. Gil Puyat Avenue, Makati City.

1.2 Subsidiaries and Associates

The Parent Company holds ownership interests in the following subsidiaries and associates at the end of 2018 and 2017:

Subsidiaries/Associates	Line of Business	Explanatory Notes	Effective Percentage of Ownership	
			2018	2017

<u>Associates</u>	<u>Line of Business</u>	<u>Effective Percentage of Ownership</u>
Associates:		
YGC Corporate Services, Inc. (YCS)	Support services for YGC	40.00
Luisita Industrial Park Co. (LIPC)	Real estate buying, developing, selling and rental	35.00
Honda Cars Phils., Inc. (HCPI)	Sale of motor vehicles	12.88

Except for RCBC Telemoney (Italy), RCBC North America (USA), RCBC IFL (Hongkong) and RCBC Investment Ltd. (Hongkong), all other subsidiaries and associates are incorporated and conducting their businesses in the Philippines. RCBC Telemoney was operational only until March 1, 2016.

Explanatory Notes:

- (a) A wholly-owned subsidiary of RCBC IFL.
- (b) RCBC North America was dissolved in May 2018 after it has ceased its operations in March 2014 (see Note 12.1).
- (c) Wholly-owned subsidiaries of RCBC Capital.
- (d) The increase in ownership interest in RCBC LFC resulted from the issuance of shares of stock to the Parent Company after the former has secured in 2018 the Securities and Exchange Commission (SEC) approval of its application for increase in authorized capital stock from which the subscriptions were made (see Note 12.1).
- (e) A wholly-owned subsidiary of RCBC LFC.
- (f) Except for NPHI, the SPCs are wholly-owned subsidiaries of RSB; the SPCs, except for NPHI and Cajel, will be liquidated in pursuant to BSP recommendation and upon receipt of necessary regulatory clearance (see Note 15.3).
- (g) The Parent Company has 48.11% direct ownership interest and 51.89% indirect ownership interest through RSB.

1.3 Plan of Merger

Pursuant to the Plan of Merger dated November 27, 2018 and as approved by the Board of Directors (BOD) of the Parent Company and RSB, RSB shall merge with the Parent Company, with the latter as the surviving entity. Subject to the issuance by the SEC of a Certificate of Merger with its prior approval, and the approval of the BSP and the Philippine Deposit Insurance Corporation, the merger shall become effective on July 1, 2019. The merger will involve the Parent Company acquiring the net assets of RSB in exchange for a number of shares of common stock to be determined based on a certain share exchange ratio to be agreed by both parties. The Plan of Merger was approved by the Parent Company's stockholders in their special meeting held on February 26, 2019.

1.4 Approval of Financial Statements

The consolidated financial statements of RCBC and subsidiaries and the separate financial statements of RCBC as of and for the year ended December 31, 2018 (including the comparative financial statements as of December 31, 2017 and for the years ended December 31, 2017 and 2016) were approved and authorized for issue by the BOD of the Parent Company on February 26, 2019.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies that have been used in the preparation of these financial statements are summarized below. The accounting policies have been consistently applied to all the years presented, except when otherwise indicated.

2.1 *Basis of Preparation of Financial Statements*

(a) *Statement of Compliance with Philippine Financial Reporting Standards*

The consolidated financial statements of the Group and the separate financial statements of the Parent Company have been prepared in accordance with Philippine Financial Reporting Standards (PFRS). PFRS are adopted by the Financial Reporting Standards Council (FRSC) from the pronouncements issued by the International Accounting Standards Board (IASB), and approved by Philippine Board of Accountancy.

These financial statements have been prepared using the measurement bases specified by PFRS for each type of resource, liability, income and expense. The measurement bases are more fully described in the accounting policies that follow.

(b) *Presentation of Financial Statements*

The financial statements are presented in accordance with Philippine Accounting Standards (PAS) 1, *Presentation of Financial Statements*. The Group presents all items of income and expenses in two statements: a “statement of profit or loss” and a “statement of comprehensive income.”

The Group presents a third statement of financial position as of the beginning of the preceding period when it applies an accounting policy retrospectively, or makes a retrospective restatement or reclassification of items that have a material effect on the information in the statement of financial position at the beginning of the preceding period. The related notes to the third statement of financial position are not required to be disclosed.

The Parent Company made retrospective changes in the statement of profit or loss for the year ended December 31, 2017 by presenting at net the interest income and interest expense related to the receiving and paying legs of derivative instruments resulting in P354 reclassification in the amount of Interest Income on Trading and Investment Securities account and Interest Expense on Bills Payable and Other Borrowings account, to conform with the current presentation. Other reclassifications in certain accounts under the Other Operating Expenses section were also made for comparative purposes.

(c) *Functional and Presentation Currency*

These financial statements are presented in Philippine pesos, the Group’s functional and presentation currency (see Note 2.16). All amounts are in millions, except share and per share data or when otherwise indicated.

Items included in the financial statements of the Group are measured using its functional currency. Functional currency is the currency of the primary economic environment in which the Group operates.

2.2 Adoption of New and Amended PFRS

(a) Effective in 2018 that are Relevant to the Group

Except for the versions of PFRS 9, *Financial Instruments*, issued in 2009, 2010 and 2013 with date of initial application on January 1, 2014, which were early adopted by the Group on its 2014 financial statements, the Group adopted for the first time the following new PFRS, interpretation, amendments and improvements to PFRS, which are mandatorily effective for annual periods beginning on or after January 1, 2018:

PAS 40 (Amendments)	:	Investment Property – Transfers of Investment Property
PFRS 9	:	Financial Instruments*
PFRS 15	:	Revenue from Contracts with Customers; Clarifications to PFRS 15
Philippine Interpretation International Financial Reporting Interpretations Committee (IFRIC) 22	:	Foreign Currency Transactions and Advance Consideration
Annual Improvements to PFRS (2014 - 2016 Cycle)		
PAS 28	:	Investments in Associates and Joint Ventures – Measuring an Associate or Joint Venture at Fair Value

**Adopted by the Group for the first time in 2018 with respect to fair value measurement of eligible debt securities through other comprehensive income and application of expected credit loss (ECL) model in assessing impairment of financial instruments.*

Discussed below are the relevant information about these new PFRS, interpretations, amendments and improvements.

- (i) PAS 40 (Amendments), *Investment Property – Transfers of Investment Property*. The amendments state that an entity shall transfer a property to, or from, investment property when, and only when, there is evidence of a change in use. A change of use occurs if property meets, or ceases to meet, the definition of investment property. A change in management's intentions for the use of a property by itself does not constitute evidence of a change in use. The amendments also provided a non-exhaustive list of examples constituting change in use. The application of these amendments has no impact on the Group's financial statements as there were no reclassifications made to and from investment property during the year.
- (ii) PFRS 9, *Financial Instruments*. This new standard on financial instruments replaced PAS 39, *Financial Instruments: Recognition and Measurement*, and PFRS 9 issued in 2009, 2010 and 2013. In addition to the principal classification categories for financial assets and financial liabilities and the new general hedge accounting model, which were early adopted by the Group on January 1, 2014, PFRS 9 includes the following major provisions:
 - limited amendments to the classification and measurement requirements for financial assets introducing a fair value measurement through other comprehensive income for eligible debt securities; and,

- an ECL model in determining impairment of all debt financial assets that are not measured at fair value through profit or loss (FVPL), including loan commitments and financial guarantee contracts which generally depends on whether there has been a significant increase in credit risk since initial recognition of a financial asset.

In relation to the adoption of PFRS 9, the Group adopted the financial asset at fair value through other comprehensive income (FVOCI) business model at January 1, 2018, which resulted in certain debt securities reclassified from financial assets at FVPL and at amortized cost to FVOCI category. As also allowed under PFRS 9, certain equity securities were designated at FVOCI and other reclassifications between categories of financial assets were also made by the Group.

With respect to impairment of financial assets, PFRS 9 requires an ECL model replacing the incurred credit loss model under PAS 39. It is no longer required for a credit event to have occurred before credit losses are recognized. The ECL model requires the Group to account for ECL and changes in those ECL at the end of each reporting period to reflect changes in the credit risk of the financial assets since initial recognition. These resulted in the recognition of additional allowance for ECL as at January 1, 2018 on the Group's financial assets measured at amortized cost or at FVOCI, together with loan commitments.

As allowed and in accordance with the transitional provisions of this new standard, the Group applied the modified retrospective application in adopting PFRS 9. Accordingly, comparative figures have not been restated but the Group has provided the related transition disclosure requirements under PFRS 7, *Financial Instruments: Disclosures*.

The following tables show the effects of the adoption of PFRS 9 on the carrying amounts and presentation of certain affected accounts in the statement of financial position as of January 1, 2018:

		Group

The nature and details of the changes in the foregoing financial statements accounts arising from the adoption of PFRS 9 are fully discussed below.

(a) Investment securities reclassified from FVPL to FVOCI

The Group elected to present in other comprehensive income changes in the fair value of certain investment securities previously classified as at FVPL because these investments are held for long-term strategic investments that are not expected to be sold in the short-to-medium term. As a result, certain debt and equity securities with total fair value of P950 and P690 for the Group and Parent Company, respectively, were reclassified from FVPL to FVOCI and the accumulated fair value gains on those assets amounting to P461 and P429 for the Group and Parent Company, respectively, were reclassified from Surplus to Revaluation Reserves account.

(b) Debt security reclassified from FVPL to amortized cost

A certain foreign corporate bond of the Parent Company with fair value of P51 at January 1, 2018, which is no longer held for trading and which is held by the Parent Company for collection of contractual cash flows representing solely payments of principal and interest was reclassified from investment securities at FVPL to investment securities at amortized cost, with the fair value loss amounting to P3, previously recognized in profit or loss, adjusted as an addition to Surplus account.

(c) *Debt securities reclassified from amortized cost to FVOCI*

Debt securities with total carrying amount of P315 were reclassified to FVOCI as the assets are now held by the Group with the objective of collecting the contractual cash flows and selling in the future for liquidity purposes. The assets have fair value of P310 upon reclassification on January 1, 2018 with fair value losses of P5 adjusted to the opening balance of Revaluation Reserve account.

(d) *Expected credit losses on investment in debt securities*

All of the Group's investment in debt securities classified at amortized cost and FVOCI are considered to have low credit risk, and the loss allowance recognized was therefore limited to 12-month expected credit loss. Management considers 'low credit risk' for listed and government bonds to be an investment grade credit rating with at least one reputable rating agency. Other instruments are considered to have low credit risk when they have a low risk of default and the issuer has a strong capacity to meet its contractual cash flow obligations in the near term. Additional allowance for ECL recognized on these debt securities as at January 1, 2018 amounted to P21 and P10 for the Group and Parent Company, respectively, adjusted against the opening balance of Surplus account.

(e) *Expected credit losses on loans and receivables*

The Group has subjected its loans and receivables portfolio as at January 1, 2018 to ECL calculation, which resulted in the recognition of additional allowance for ECL for specific loan accounts amounting to P1,677 and P1,959 for the Group and Parent Company, respectively, with adjustment charged against the opening balance of Surplus. In addition, as required by the BSP, the Group and the Parent Company has appropriated from its Surplus an amount of P2,227 and P1,793, respectively, to General Loan Loss Reserves account reported as a separate component in the statements of changes in equity (see Note 23.5). This appropriation represents the excess of the one percent required allowance for credit losses of the BSP over the computed allowance for ECL. These adjustments also resulted in the derecognition of deferred tax asset amounting to P124 recognized by a certain subsidiary on certain loss allowance provided in prior years; hence, affected the carrying amount of the Parent Company's Investments in Subsidiaries and Associates account.

(f) *Exposures at default on loan commitments*

Based on the Parent Company's outstanding lending commitments, management determines the exposures at default related to the future amounts that may be drawn based on historical observations of actual drawdowns and forward-looking forecasts. Required provisions for ECL related to undrawn loan commitments at January 1, 2018 amounted to P107 and is recognized at transition date as part of Other Liabilities account.

- (iii) PFRS 15, *Revenue from Contracts with Customers*, together with the *Clarifications to PFRS 15* (herein referred to as PFRS 15). This standard replaced PAS 18, *Revenue*, and PAS 11, *Construction Contracts*, the related Interpretations on revenue recognition: IFRIC 13, *Customer Loyalty Programmes*, IFRIC 15, *Agreement for the Construction of Real Estate*, IFRIC 18, *Transfers of Assets from Customers* and Standing Interpretations Committee 31, *Revenue – Barter Transactions Involving Advertising Services*, effective January 1, 2018. This new standard establishes a comprehensive framework for determining when to recognize revenue and how much revenue to recognize. The core principle in this standard is for an entity to recognize revenue to depict the transfer of promised goods or services to the customer in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

In applying this new standard, the Group is required to account for revenue arising from contracts with customers following the five-step model as follows:

- (a) identify the contract with a customer;
- (b) identify the performance obligations;
- (c) determine the transaction price;
- (d) allocate the transaction price to the performance obligations; and,
- (e) recognize revenue when (or as) performance obligations are satisfied.

Management determined that except for gains arising from sale of non-financial assets, certain service charges, commissions and fees, substantial amount of the Group's revenues are generated from financial instruments, which are outside the scope of PFRS 15. For those revenues under the scope of PFRS 15, recognition and measurement did not vary significantly from PAS 18.

In addition, prior to January 1, 2018, the Parent Company accounted for its rewards program with cardholders related to its credit-card operations in accordance with IFRIC 13 which required the Parent Company to allocate a certain portion of the interchange fees it receives from the participating merchants to the loyalty credits awarded to the cardholders for credit card purchase transactions. The Parent Company had assessed that the award credits give rise to a separate deliverable or performance obligation. Consistent with the requirements under PFRS 15, the component of interchange fees allocated to the loyalty points is recognized as revenue upon fulfilment of the obligation (i.e., actual redemption of the award credits by the cardholders). Until the cardholders redeemed the loyalty points, the Parent Company recognizes a liability related to the estimated loyalty points earned by the cardholders but are not yet redeemed as of the end of the reporting period.

The adoption of PFRS 15 has resulted in changes in the Group's accounting policies (see Note 2.14). The Group has applied the new standard retrospectively without restatement, with the cumulative effect of initial application, if any, recognized as an adjustment to the opening balance of Surplus at January 1, 2018. The adoption of PFRS 15 did not result in material adjustments in the financial statements of the Group at the date of initial application.

- (iv) IFRIC 22, *Foreign Currency Transactions and Advance Consideration*. The Interpretation provides more detailed guidance on how to account for transactions that include the receipt or payment of advance consideration in a foreign currency. The Interpretation states that the date of the transaction, for the purpose of determining the exchange rate, is the date of initial recognition of the non-monetary asset (arising from advance payment) or liability (arising from advance receipt). If there are multiple payments or receipts in advance, a date of transaction is established for each payment or receipt. The adoption of this Interpretation did not have impact on the Group's financial statements as the Group has been accounting for its foreign currency-denominated transactions involving advance consideration consistent with this Interpretation.
- (v) Annual Improvements to PFRS 2014 - 2016 Cycle. Among the improvements, PAS 28 (Amendments), *Investments in Associates and Joint Ventures – Measuring an Associate or Joint Venture at Fair Value*, is relevant to the Group. The amendments clarify that the option for venture capital organization, mutual funds and other similar entities to elect the fair value through profit or loss classification in measuring investments in associates and joint ventures shall be made at initial recognition, separately for each associate or joint venture. The Group's accounting for its investments in associates is not affected by these amendments.

(b) *Effective in 2018 that are not Relevant to Group*

The following amendments to existing standards are mandatorily effective for annual periods beginning on or after January 1, 2018 but are not relevant to the Group's financial statements:

PFRS 2 (Amendments)	:	Share-based Payment – Classification and Measurement of Share-based Payment Transactions
PFRS 4 (Amendments)	:	Insurance Contracts – Applying PFRS 9 with PFRS 4, <i>Insurance Contracts</i>

(c) *Effective Subsequent to 2018 but not Adopted Early*

There are new PFRS, amendments and annual improvements, and interpretations to existing standards effective for annual periods subsequent to 2018, which are adopted by the FRSC. Management will adopt the following relevant pronouncements in accordance with their transitional provisions; and, unless otherwise stated, none of these are expected to have significant impact on the Group's financial statements:

- (i) PAS 19 (Amendments), *Employee Benefits – Plan Amendment, Curtailment or Settlement* (effective January 1, 2019). The amendments require the use of updated actuarial assumptions to determine current service cost and net interest for the remainder of the annual reporting period after the plan amendment, curtailment or settlement when the entity remeasures its net defined benefit liability or asset.

- (ii) PAS 28 (Amendments), *Investment in Associates – Long-term Interests in Associates and Joint Ventures* (effective from January 1, 2019). The amendments clarify that the scope exclusion in PFRS 9 applies only to ownership interests accounted for using the equity method. Thus, the amendments further clarify that long term interests in an associate or joint venture to which the equity method is not applied must be accounted for under PFRS 9, which shall also include long term interests that, in substance, form part of the entity's net investment in an associate or joint venture.
- (iii) PFRS 9 (Amendments), *Financial Instruments – Prepayment Features with Negative Compensation* (effective from January 1, 2019). The amendments clarify that prepayment features with negative compensation attached to financial instruments may still qualify under the solely payment of principal and interest (SPPI) test on the principal amount outstanding. As such, the financial assets containing prepayment features with negative compensation may still be classified at amortized cost or at FVOCI.
- (iv) PFRS 10 (Amendments), *Consolidated Financial Statements, and PAS 28 (Amendments), Investments in Associates and Joint Ventures – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture* (effective date deferred indefinitely). The amendments to PFRS 10 require full recognition in the investor's financial statements of gains or losses arising on the sale or contribution of assets that constitute a business as defined in PFRS 3, *Business Combinations*, between an investor and its associate or joint venture. Accordingly, the partial recognition of gains or losses (i.e., to the extent of the unrelated investor's interests in an associate or joint venture) only applies to those sale or contribution of assets that do not constitute a business. Corresponding amendments have been made to PAS 28 to reflect these changes. In addition, PAS 28 has been amended to clarify that when determining whether assets that are sold or contributed constitute a business, an entity shall consider whether the sale or contribution of those assets is part of multiple arrangements that should be accounted for as a single transaction.
- (v) PFRS 16, *Leases* (effective from January 1, 2019). This new standard will eventually replace PAS 17, *Leases*. For lessees, it requires to account for leases "on-balance sheet" by recognizing a "right of use" asset and a lease liability. The lease liability is initially measured as the present value of future lease payments. For this purpose, lease payments include fixed, non-cancellable payments for lease elements, amounts due under residual value guarantees, certain types of contingent payments and amounts due during optional periods to the extent that extension is reasonably certain.

In subsequent periods, the "right-of-use" asset is accounted for similarly to a purchased asset subject to depreciation or amortization. The lease liability is accounted for similarly to a financial liability using the effective interest method. However, the new standard provides important reliefs or exemptions for short-term leases and leases of low value assets. If these exemptions are used, the accounting is similar to operating lease accounting under PAS 17, where lease payments are recognized as expense on a straight-line basis over the lease term or another systematic basis (if more representative of the pattern of the lessee's benefit).

For lessors, lease accounting is similar to PAS 17's. In particular, the distinction between finance and operating leases is retained. The definitions of each type of lease, and the supporting indicators of a finance lease, are substantially the same with those applied in PAS 17. The basic accounting mechanics are also similar, but with some different or more explicit guidance in few areas. These include variable payments, sub-leases, lease modifications, treatment of initial direct costs and lessor disclosures.

Management is currently in the process of determining the impact of PFRS 16 and has initially assessed that the application of this new standard would likely result in significant adjustment to the reported resources and liabilities of the Group to account for its long-term leases.

- (vi) IFRIC 23, *Uncertainty over Income Tax Treatments* (effective from January 1, 2019). The interpretation provides clarification on the determination of taxable profit, tax bases, unused tax losses, unused tax credits, and tax rates when there is uncertainty over income tax treatments. The core principle of the interpretation requires the Group to consider the probability of the tax treatment being accepted by the tax authority. When it is probable that the tax treatment will be accepted, the determination of the taxable profit, tax bases, unused tax losses, unused tax credits, and tax rates shall be on the basis of the accepted tax treatment. Otherwise, the Group has to use the most likely amount or the expected value, depending on the surrounding circumstances, in determining the tax accounts identified immediately above.
- (vii) Annual Improvements to PFRS 2015 - 2017 Cycle. Among the improvements effective January 1, 2019, the following are relevant to the Group:
 - PAS 12 (Amendments), *Income Taxes – Tax Consequences of Dividends*. The amendments clarify that all income tax consequence of dividend payments should be recognized in profit or loss.
 - PAS 23 (Amendments), *Borrowing Costs – Eligibility for Capitalization*. The amendments clarify that when a specific borrowing remains outstanding after the related qualifying asset is ready for its intended purpose, such borrowing will then form part of an entity's general borrowings used in calculating the capitalization rate for capitalization purposes.
 - PFRS 3 (Amendments), *Business Combinations* and PFRS 11 (Amendments), *Joint Arrangements – Remeasurement of Previously Held Interests in a Joint Operation*. The amendments clarify that previously held interest in a joint operation shall be remeasured when the Group obtains control of the business. On the other hand, previously held interests in a joint operation shall not be remeasured when the Group obtains joint control of the business.
- (viii) Amendments to PFRS 3, *Business Combinations – Definition of Business* (effective January 1, 2020). The amendments clarify the definition of a business by providing a new framework for determining whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The amendments also clarify the minimum requirements to be a business, remove the assessment of a market participant's ability to replace missing elements, and narrow the definition of outputs.

- (ix) Amendments to PAS 1, *Presentation of Financial Statements*, and PAS 8, *Accounting Policies, Changes in Accounting Estimates and Errors – Definition of Material* (effective January 1, 2020). The amendments clarify the definition of ‘materiality’ in PAS 1 and how it should be applied. The amendments also improve the explanations of the definition and ensure consistency across all PFRSs and other pronouncements.

2.3 *Basis of Consolidation and Accounting for Investments in Subsidiaries and Associates in the Separate Financial Statements*

The Group’s consolidated financial statements comprise the accounts of the Parent Company and its subsidiaries as enumerated in Note 1.2, after the elimination of material intercompany transactions. All intercompany resources and liabilities, equity, income, expenses and cash flows relating to transactions with subsidiaries are eliminated in full. Unrealized profits and losses from intercompany transactions that are recognized in assets are also eliminated in full. Intercompany losses that indicate impairment are recognized in the consolidated financial statements.

The financial statements of the subsidiaries are prepared in the same reporting period as the Parent Company, using consistent accounting policies.

The Parent Company accounts for its investments in subsidiaries, associates, interests in jointly controlled operations and non-controlling interests as follows:

(a) Investments in Subsidiaries

Subsidiaries are entities (including structured entities) over which the Group has control. The Group controls an entity when it has the power over the entity; it is exposed, or has rights to, variable returns from its involvement with the entity; and, it has the ability to affect those returns through its power over the entity. Subsidiaries are consolidated from the date the Group obtains control.

The Parent Company’s investments in subsidiaries are initially recognized at cost and subsequently accounted for in its separate financial statements using the equity method. Under the equity method, all subsequent changes to the ownership interest in the equity of the subsidiaries are recognized in the Parent Company’s carrying amount of the investments. Changes resulting from the profit or loss generated by the subsidiaries are credited or charged against the Share in Net Earnings of Subsidiaries and Associates account in the statement of profit or loss.

These changes include subsequent depreciation, amortization, impairment and fair value adjustments of assets and liabilities. Dividends received are accounted for as reduction in the carrying value of the investment.

Changes resulting from items of other comprehensive income of the subsidiaries or items that have been directly recognized in the subsidiaries’ equity are recognized in other comprehensive income or equity, respectively, of the Parent Company. However, when the Parent Company’s share in losses of subsidiaries equals or exceeds its interest in the subsidiary, including any other unsecured receivables, the Parent Company does not recognize further losses, unless it has incurred obligations or made payments on behalf of the subsidiary. If the subsidiary subsequently reports profits, the investor resumes recognizing its share of those profits only after its share of the profits exceeds the accumulated share of losses that has not been recognized previously.

Unrealized gains on transactions between the Parent Company and its subsidiaries are eliminated to the extent of the Parent Company's interest in the subsidiaries.

Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the assets that were transferred. Where necessary, accounting policies of subsidiaries are changed to ensure consistency with the policies adopted by the Parent Company.

The Parent Company reassesses whether or not it controls an entity if facts and circumstances indicate that there are changes to one or more of the three elements of controls. Accordingly, entities are deconsolidated from the date that control ceases.

Acquired subsidiaries are subject to either of the following relevant policies:

(i) *Purchase method* – involves the revaluation at fair value of all identifiable assets and liabilities, including contingent liabilities of a subsidiary, at the acquisition date, regardless of whether or not they were recorded in the financial statements of a subsidiary prior to acquisition. On initial recognition, the assets and liabilities of a subsidiary are included in the consolidated statement of financial position at their revalued amounts, which are also used as the bases for subsequent measurement in accordance with the Group's accounting policies.

Goodwill represents the excess of acquisition cost over the fair value of the Group's share of the identifiable net assets of the acquired subsidiary at the date of acquisition. On the other hand, negative goodwill represents the excess of the Group's share in the fair value of identifiable net assets of the subsidiary at the date of acquisition over acquisition cost and is recognized directly in profit or loss.

(ii) *Pooling of interest method* – is applicable for business combinations involving entities under common control. On initial recognition, the assets and liabilities of a subsidiary are included in the consolidated statement of financial position at their book values. Adjustments, if any, are recorded to achieve uniform accounting policies. The combining entities' results and financial positions are presented in the consolidated financial statements as if they had always been combined.

No goodwill or negative goodwill is recognized. Any difference between the cost of the investment and the subsidiary's identifiable net assets is recognized on consolidation in a separate reserve account under equity.

(b) *Investments in Associates*

Associates are those entities over which the Group is able to exert significant influence but which are neither subsidiaries nor interests in joint venture. In the consolidated financial statements, investments in associates are initially recognized at cost and subsequently accounted for using the equity method. Under the equity method, the Group recognizes in profit or loss its share in the net earnings or losses of the associates. The cost of the investment is increased or decreased by the Group's equity in net earnings or losses of the associates since the date of acquisition. Dividends received are accounted for as reduction in the carrying value of the investment.

Acquired investments in associates are subject to purchase method of accounting as described in Note 2.3(a)(i). However, any goodwill that represents the excess of identifiable net assets of the acquiree at the date of acquisition or fair value adjustment attributable to the Group's share in the associate is included in the amount recognized as investments in associates. All subsequent changes to the ownership of interest in the equity of the associate are recognized in the Group's carrying amount of the investment. Changes resulting from the profit or loss generated by the associate are credited against Share in Net Earnings of Subsidiaries and Associates account in the Group's statement of profit or loss. These changes include subsequent depreciation, amortization, impairment, and fair value adjustments of assets and liabilities.

Changes resulting from items of other comprehensive income of the associate or items that have been directly recognized in the associate's equity are recognized in other comprehensive income or equity, respectively, of the Group. However, when the Group's share in losses of an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred obligations or made payments on behalf of the associate. If the associate subsequently reports profits, the investor resumes recognizing its share of those profits only after its share of the profits exceeds the accumulated share of losses that has not been recognized previously.

Unrealized gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the assets that were transferred. Where necessary, accounting policies of associates are changed to ensure consistency with the policies adopted by the Group.

The Group reassesses whether or not an entity qualifies as an associate in the occurrence of changes to facts and circumstances surrounding its ability to exert significant influence.

(c) *Interest in Jointly Controlled Operations*

For interests in jointly controlled operations, the Group recognizes in its financial statements the assets that it controls, the liabilities and the expenses that it incurs and its share in the income from the sale of goods or services by the joint venture. The amounts of these related accounts are presented as part of the regular asset and liability accounts and income and expense accounts of the Group.

No adjustment or other consolidation procedures are required for the assets, liabilities, income and expenses of the joint venture that are recognized in the separate financial statements of the venturers.

(d) *Transactions with Non-controlling Interests*

Non-controlling interests (NCI) represent the portion of the net assets and profit or loss not attributable to the Group. The Group applies a policy of treating transactions with NCI as transactions with parties external to the Group. Disposals to NCI result in gains and losses for the Group that are recorded in profit or loss. Purchases of equity shares from NCI may result in goodwill, being the difference between any consideration paid and the relevant share acquired in the carrying value of the net assets of a subsidiary.

In the consolidated financial statements, the NCI component is shown as part of the consolidated statement of changes in equity.

In the Parent Company's financial statements, impairment loss is provided when there is objective evidence that the investments in subsidiaries and associates will not be recovered (see Note 2.17).

2.4 Segment Reporting

A business segment is a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different from those of other business segments. A geographical segment is a segment engaged in providing products or services within a particular economic environment that is subject to risks and returns that are different from those of segments operating in other economic environments.

The Group's operations are structured according to the nature of the services provided (primary segment) and different geographical markets served (secondary segment). Financial information on business segments is presented in Note 8.

2.5 Financial Instruments

Financial assets and financial liabilities are recognized when the Group becomes a party to the contractual provisions of the financial instrument. For purposes of classifying financial instrument, an instrument is considered as an equity instrument if it is non-derivative and meets the definition of equity for the issuer in accordance with the criteria under PAS 32, *Financial Instruments: Presentation*. All other non-derivative financial instruments are treated as debt instruments.

Purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace are recognized on the settlement date. Deposits, amounts due to banks and customers, and loans are recognized when cash is received by the Group or advanced to the borrowers.

At initial recognition, the Group measures a financial asset or financial liability at its fair value plus or minus, in the case of a financial asset or financial liability not at FVPL, transaction costs such as fees and commissions that are incremental or directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs of financial assets and financial liabilities carried at FPVL are expensed in profit or loss.

(a) Classification and Measurement of Financial Assets

The classification and measurement of financial assets is driven by the Group's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets. The Group's classification and measurement of financial assets are described below.

(i) Financial Assets at Amortized Cost

Financial assets are measured at amortized cost if both of the following conditions are met:

- the financial asset is held within the Group's business model whose objective is to hold financial assets in order to collect contractual cash flows ("hold to collect or HTC"); and,

- the contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI on the principal amount outstanding.

Financial assets meeting these criteria are measured initially at fair value and are subsequently measured at amortized cost using the effective interest method, less any allowance for ECL.

Where the business model is to hold assets to collect contractual cash flows, the Group assesses whether the financial instruments' cash flows represent SPPI. In making this assessment, the Group considers whether the contractual cash flows are consistent with basic lending arrangement, i.e., interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at FVPL.

The Group's financial assets measured at amortized cost include those presented in the statement of financial position as Cash and Other Cash Items, Due from BSP, Due from Other Banks, Loans Arising from Reverse Repurchase Agreements, Investment securities at amortized cost under Trading and Investment Securities, Loans and Receivables and certain Other Resources accounts.

For purposes of cash flows reporting and presentation, cash equivalents comprise of accounts with original maturities of three months or less, including non-restricted balances of Due from BSP, Due from Other Banks, Loans Arising from Reverse Repurchase Agreements, and Interbank loans receivables (part of Loans and Receivables). Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value. Cash comprises cash and other cash items and demand deposits.

The Group may irrevocably elect at initial recognition to classify a financial asset that meets the amortized cost criteria as at FVPL if that designation eliminates or significantly reduces an accounting mismatch had the financial asset been measured at amortized cost. In 2018 and 2017, the Group has not made such designation.

(ii) Financial Assets at Fair Value Through Other Comprehensive Income

Beginning January 1, 2018, financial asset is classified and measured at FVOCI if both of the following conditions are met:

- the financial asset is held under a business model whose objective is achieved by both collecting contractual cash flows and selling ("hold to collect and sell"); and,
- the contractual terms of the financial asset give rise to cash flows that are SPPI on the principal amount outstanding.

At initial recognition, the Group can make an irrevocable election (on an instrument-by-instrument basis) to designate equity investments as at FVOCI; however, such designation is not permitted if the equity investment is held by the Group for trading or a contingent consideration recognized arising from a business combination. Upon adoption of PFRS 9 at January 1, 2018, the Parent Company has designated equity instruments not held for trading into this category.

After initial recognition, financial assets at FVOCI are subsequently measured at fair value, with no deduction for any disposal costs. Gains and losses arising from changes in fair value, including the foreign exchange component, are recognized in other comprehensive income, net of any effects arising from income taxes, and are reported as part of Revaluation Reserves account in equity. Upon disposal, the cumulative fair value gains or losses on equity investments previously recognized in the Revaluation Reserves account is not reclassified to profit or loss, but is reclassified directly to Surplus account, while the cumulative fair value gains or losses for debt securities are reclassified to profit or loss.

Any dividends earned on holding equity instruments are recognized in profit or loss as part of Miscellaneous under Other Operating Income account, when the Group's right to receive dividends is established, it is probable that the economic benefits associated with the dividend will flow to the Group, and the amount of the dividend can be reliably measured, unless the dividends clearly represent recovery of a part of the cost of the investment.

Prior to January 1, 2018, the Group's financial assets at FVOCI only include equity investments designated into this category with gains and losses arising from such instruments accounted for similarly with the equity instruments under PFRS 9. There is no FVOCI classification that is available for debt securities prior to January 1, 2018.

(iii) Financial Assets at Fair Value Through Profit or Loss

Debt instruments that do not meet the amortized cost criteria, or that meet the criteria but the Group has chosen to designate as at FVPL at initial recognition, or those that do not qualify under the FVOCI or "hold to collect and sell" business model, are measured at FVPL. Equity investments are classified as financial assets at FVPL, unless the Group designates an equity investment that is not held for trading as at FVOCI at initial recognition. The Group's financial assets at FVPL include government securities, corporate debt securities, equity securities, derivative instruments, which are held for trading purposes or designated as at FVPL.

A financial asset is considered as held for trading if:

- it has been acquired principally for the purpose of selling it in the near term;
- on initial recognition, it is part of a portfolio of identified financial instruments that the Group manages together and has evidence of a recent actual pattern of short-term profit-taking; or,
- it is a derivative that is not designated and effective as a hedging instrument or financial guarantee.

Financial assets at FVPL are measured at fair value. Unrealized gains and losses arising from changes (mark-to-market) in the fair value of the financial assets at FVPL category and realized gains or losses arising from disposals of these instruments are included in Trading and Securities Gains under Other Operating Income account in the statement of profit or loss.

Interest earned on these investments is reported in profit or loss under Interest Income account while dividend income is reported in profit or loss under Miscellaneous included in Other Operating Income account when the right of payment has been established.

(b) Recognition of Interest Income Using Effective Interest Rate Method

Interest income on financial assets measured at amortized cost and all interest-bearing debt financial assets classified as at FVPL, or at FVOCI (beginning January 1, 2018), is recognized using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument or, when appropriate, a shorter period, to the net carrying amount of the financial asset.

The effective interest rate is calculated by taking into account any discount or premium on acquisition, fees and costs that are an integral part of effective interest rate. The Group recognizes interest income using a rate of return that represents the best estimate of a constant rate of return over the expected life of the instrument; hence, it recognizes the effect of potentially different interest rates charged at various stages, and other characteristics of the product life cycle (including prepayments, penalty interest and charges).

If expectations regarding the cash flows on the financial asset are revised for reasons other than credit risk, the adjustment is booked as a positive or negative adjustment to the carrying amount of the asset with an increase or reduction in interest income.

The Group calculates interest income by applying the effective interest rate to the gross carrying amount of the financial assets, except for those that are subsequently identified as credit-impaired and or are purchased or originated credit-impaired assets.

For financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the net carrying amount of the financial assets (after deduction of the loss allowance). If the asset is no longer credit-impaired, the calculation of interest income reverts to gross basis. For financial assets that were credit-impaired on initial recognition, interest income is calculated by applying a credit-adjusted effective interest rate to the amortized cost of the asset. The calculation of interest income does not revert to a gross basis even if the credit risk of the asset subsequently improves.

(c) Reclassification of Financial Assets

The Group can only reclassify financial assets if the objective of its business model for managing those financial assets changes. Accordingly, the Group is required to reclassify financial assets: (i) from amortized cost to FVPL, if the objective of the business model changes so that the amortized cost criteria are no longer met; and, (ii) from FVPL to amortized cost, if the objective of the business model changes so that the amortized cost criteria start to be met and the characteristic of the instrument's contractual cash flows meet the amortized cost criteria.

A change in the objective of the Group's business model will be effected only at the beginning of the next reporting period following the change in the business model.

(d) *Impairment of Financial Assets under PFRS 9 Beginning January 1, 2018*

The Group recognizes a loss allowance for ECL on all financial assets that are measured at amortized cost and debt instruments classified as at FVOCI, as well as financial guarantee and loan commitments. Equity securities, either measured as at FVTPL or designated as at FVOCI, are not subject to impairment.

The Group measures the ECL of a financial asset in such manner that reflects: (i) the time value of money; and, (ii) reasonable and supportable information about past events, current conditions and forecasts of future economic conditions that affect the collectability of the future cash flows of the financial assets.

The amount of allowance for ECL is updated at the end of each reporting period to reflect the changes in credit risk of the financial asset since initial recognition. The Group recognizes lifetime ECL when there has been a significant increase in credit risk (SICR) since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month ECL. Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the end of the reporting period.

The Group's ECL model follows a three-stage impairment approach, which guide in the determination of the loss allowance to be recognized in the financial statements. The staging of financial assets and definition of default for purposes of determining ECL are further discussed in Note 4.4.

ECL is a function of the probability of default (PD), loss-given default (LGD), and exposure-at-default (EAD), with the timing of the loss also considered, and is estimated by incorporating forward-looking economic information and through the use of experienced credit judgement. These elements are discussed more fully in Note 4.4.

The Group calculates ECL either on an individual or a collective basis. For modelling ECL parameters which were carried out on a collective basis, the financial instruments are grouped on the basis of shared credit risk characteristics, such as but not limited to instrument type, credit risk rating, collateral type, product type, historical net charge-offs, industry type, and geographical locations of the borrowers or counterparties.

The Group applies a simplified ECL approach for its accounts receivables wherein the Group uses a provision matrix that considers historical changes in the behavior of the portfolio of credit exposures based on internally collected data to predict conditions over the span of a given observation period. These receivables includes claims from various counterparties, which are not originated through the Group's lending activities. For these instruments, the Group measures the loss allowance at an amount equal to lifetime ECL.

The Group recognizes an impairment loss in profit or loss for all financial instruments subjected to ECL impairment assessment with a corresponding adjustment to their carrying amount through a loss allowance account. With respect to investments in debt securities that are measured at FVOCI, the related loss allowance account is recognized in other comprehensive income and accumulated in the Revaluation Reserve account, and does not reduce the carrying amount of the financial asset in the statement of financial position. For loan commitments, the loss allowance is recognized as provisions (presented and included as part of Other Liabilities account in the statement of financial position). Where a financial instrument includes a drawn and undrawn component, and the Group cannot identify the ECL on the loan commitment component separately from those on the drawn commitment; the Group presents a combined allowance for ECL for both components. The combined amount is presented as a deduction from the gross carrying amount of the drawn component. Any excess of the loss allowance over the gross amount of the drawn component is presented as provisions.

(e) *Impairment of Financial Assets under PAS 39 Prior to January 1, 2018*

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred if, and only if, there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a loss event) and that loss event (or events) has an impact on the estimated future cash flows of the financial assets or group of financial assets that can be reliably estimated.

Objective evidence that a financial asset or group of assets is impaired includes observable data that comes to the attention of the Group about the following loss events:

- (i) significant financial difficulty of the issuer or obligor;
- (ii) a breach of contract, such as a default or delinquency in interest or principal payments;
- (iii) the Group granting the borrower, for economic or legal reasons relating to the borrower's financial difficulty, a concession that the lender would not otherwise consider;
- (iv) it becoming probable that the borrower will enter bankruptcy or other financial reorganization;
- (v) the disappearance of an active market for that financial asset because of financial difficulties; or,
- (vi) observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the group, including: adverse changes in the payment status of borrowers in the group, or national or local economic conditions that correlate with defaults on the assets in the group.

The Group recognizes impairment loss based on the category of financial assets as follows:

(i) *Financial Assets Carried at Amortized Cost*

For financial assets classified and measured at amortized cost, the Group first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant and individually or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognized are not included in a collective assessment of impairment.

If there is objective evidence that an impairment for individually assessed financial assets has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognized in profit or loss. If a financial asset has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract. As a practical expedient, the Group may measure impairment on the basis of an instrument's fair value using an observable market price.

The calculation of the present value of the estimated future cash flows of a collateralized financial asset reflects the cash flows that may result from foreclosure less costs for obtaining and selling the collateral, whether or not foreclosure is probable.

For the purpose of collective evaluation of impairment for loans and receivables, financial assets are grouped on the basis of similar credit risk characteristics (i.e., on the basis of the Group's grading process that considers asset type, industry, geographical location, collateral type, past-due status and other relevant factors). Those characteristics are relevant to the estimation of future cash flows for groups of such assets by being indicative of the debtors' ability to pay all amounts due according to the contractual terms of the assets being evaluated.

Future cash flows in a group of financial assets that are collectively evaluated for impairment are estimated on the basis of the contractual cash flows of the assets in the group and historical loss experience for assets with credit risk characteristics similar to those in the group. Historical loss experience is adjusted on the basis of current observable data to reflect the effects of current conditions that did not affect the period on which the historical loss experience is based and to remove the effects of conditions in the historical period that do not exist currently.

Estimates of changes in future cash flows for groups of assets should reflect and be directionally consistent with changes in related observable data from period to period (for example, changes in unemployment rates, property prices, payment status, or other factors indicative of changes in the probability of losses in the group and their magnitude). The methodology and assumptions used for estimating future cash flows are reviewed regularly by the Group to reduce any differences between loss estimates and actual loss experience.

When possible, the Group seeks to restructure loans rather than to take possession of the collateral. This may involve extending the payment arrangement and agreement for new loan conditions. Once the terms have been renegotiated, the loan is no longer considered past due. Management continuously reviews restructured loans to ensure that all criteria evidencing the good quality of the loan are met and that future payments are likely to occur. The loans continue to be subject to an individual or collective impairment assessment, calculated using the loan's original effective interest rate. The difference between the recorded sale of the original loan and the present value of the restructured cash flows, discounted at the original effective interest rate, is recognized as part of Impairment Losses account in profit or loss.

When a loan or receivable is determined to be uncollectible, it is written-off against the related allowance for impairment. Such loan or receivable is written-off after all the prescribed procedures have been completed and the amount of the loss has been determined. Subsequent recoveries of amounts previously written-off are charged against the amount of impairment losses in profit or loss.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized (such as an improvement in the debtor's credit rating), the previously recognized impairment loss is reversed by adjusting the allowance account. The amount of the reversal is recognized in the statement of profit or loss.

(ii) *Financial Assets Carried at Fair Value Through Other Comprehensive Income*

For securities classified as FVOCI, the Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired.

In the case of equity investments, a significant or prolonged decline in the fair value of the security below its cost is considered in determining whether the assets are impaired. If any such evidence exists for equity investments, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognized in profit or loss – is reclassified from Revaluation Reserves and recognized in profit or loss.

Impairment losses recognized in profit or loss on equity instruments are not reversed through profit or loss.

In the case of debt instruments, impairment is assessed based on the same criteria as financial assets carried at amortized cost. Future interest income is based on the reduced carrying amount and is accrued based on the rate of interest used to discount future cash flows for the purpose of measuring impairment loss. Such accrual is recorded as part of interest income in profit or loss. If, in a subsequent period, the fair value of such debt instruments increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in profit or loss, the impairment loss is reversed through profit or loss.

(f) *Financial Liabilities at Amortized Cost*

Financial liabilities including deposit liabilities, bills payable, bonds payable, subordinated debt, accrued interest and other expenses, and other liabilities (except derivatives with negative fair value, tax-related payables, post-employment defined benefit obligation and deferred income) are recognized initially at their fair value and subsequently measured at amortized cost using the effective interest method, for those with maturities beyond one year, less settlement payments. All interest-related charges incurred on financial liabilities are recognized as an expense in the statement of profit or loss under the caption Interest Expense.

Deposit liabilities are stated at amounts in which they are to be paid. Interest is accrued periodically and recognized in a separate liability account before recognizing as part of deposit liabilities.

Bills payable, bonds payable and subordinated debt are recognized initially at fair value, which is the issue proceeds (fair value of consideration received), net of direct issue costs. These are subsequently measured at amortized cost; any difference between the proceeds net of transaction costs and the redemption value is recognized in profit or loss over the period of the borrowings using the effective interest method.

Dividend distributions to shareholders are recognized as financial liabilities when the dividends are declared by the Group and subject to the requirements of BSP Circular No. 888, *Amendments to Regulations on Dividend Declaration and Interest Payments on Tier 1 Capital Instruments*.

(g) *Derecognition of Financial Assets*

(i) *Modification of Loans*

When the Group derecognizes a financial asset through renegotiation or modification of the contractual payment terms of the loans due to significant credit distress of the borrower, the Group assesses whether or not the new terms are substantially different to the original terms of the instrument. In making such assessment, the Group considers, among others:

- if the borrower is in financial difficulty, whether the modification merely reduces the contractual cash flows to amounts the borrower is expected to be able to pay;
- whether any substantial new terms are introduced that will affect the risk profile of the loan;
- significant extension of the loan term when the borrower is not in financial difficulty;
- significant change in the interest rate;

- change in the currency the loan is denominated in; and/or,
- insertion of collateral, other security or credit enhancements that will significantly affect the credit risk associated with the loan.

If the terms are substantially different, the Group derecognizes the original financial asset and recognizes a new asset at fair value, and recalculates a new effective interest rate for the asset. The date of renegotiation is considered to be the date of initial recognition for impairment calculation, including for the purpose of determining whether a significant increase in credit risk has occurred. However, the Group also assesses whether the new financial asset recognized is deemed to be credit-impaired at initial recognition, especially in circumstances where the renegotiation was driven by the debtor being unable to make the originally agreed payments. Differences in the carrying amount between the old financial asset derecognized and the fair value of the new financial asset are recognized as gain or loss in profit or loss upon derecognition. As to the impact on ECL measurement, the expected fair value of the new financial asset is treated as the final cash flow from the existing financial asset at the date of derecognition. Such amount is included in the calculation of cash shortfalls from the existing financial asset that are discounted from the expected date of derecognition to the reporting date using the original effective interest rate of the existing financial asset.

If the terms are not substantially different, the renegotiation or modification does not result in derecognition, and the Group recalculates the gross carrying amount based on the revised cash flows of the financial asset and recognizes the gain or loss arising from the modification in profit or loss. The new gross carrying amount is recalculated by discounting the modified cash flows of the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets).

As to the impact on ECL measurement, the derecognition of the existing financial asset will result in the expected cash flows arising from the modified financial asset to be included in the calculation of cash shortfalls from the existing financial asset.

(ii) Derecognition of Financial Assets Other than Modification

A financial asset (or where applicable, a part of a financial asset or part of a group of financial assets) is derecognized when the contractual rights to receive cash flows from the financial instruments expire, or when the financial assets and all substantial risks and rewards of ownership have been transferred to another party. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred financial asset, the Group recognizes its retained interest in the financial asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

(b) *Derecognition of Financial Liabilities*

Financial liabilities are derecognized from the statement of financial position only when the obligations are extinguished either through discharge, cancellation or expiration. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or if the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of the new liability, and the difference in the respective carrying amounts is recognized as gain or loss in profit or loss.

(i) *Financial Guarantees and Undrawn Loan Commitments*

The Group issues financial guarantees and loan commitments. Financial guarantees are those issued by the Group to creditors as allowed under existing rules and regulations whereby it guarantees third party obligations by signing as guarantor in the contract or agreement. Undrawn loan commitments and letters of credit are commitments under which, over the duration of the commitment, the Group is required to provide a loan with pre-specified terms to the customer. The nominal contractual value of financial guarantees and undrawn loan commitments, where the loan agreed to be provided is on market terms, are not reflected in the statement of financial position. Starting January 1, 2018, these contracts are in the scope of the ECL requirements where the Group estimates the expected portion of the irrevocable undrawn loan commitments that will be drawn over their expected life based on the Group's historical observations of actual drawdowns and forward-looking forecasts. The ECL related to financial guarantees and loan commitments without outstanding drawn amounts is recognized under Other Liabilities account in the statement of financial position.

2.6 *Derivative Financial Instruments and Hedge Accounting*

The Group is a party to various foreign currency forward contracts, cross currency swaps, futures, interest rate swaps, debt warrants, options and credit default swap. These contracts are entered into as a service to customers and as a means of reducing or managing the Group's foreign exchange and interest rate exposures as well as for trading purposes. Amounts contracted are recorded as contingent accounts and are not included in the statement of financial position.

Derivatives are categorized as Financial Assets at FVPL which are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently measured at their fair value. Fair values are obtained from active markets for listed or traded securities or determined using valuation techniques if quoted prices are not available, including discounted cash flow models and option pricing models, as appropriate. The change in fair value of derivative financial instruments is recognized in profit or loss, except when their effects qualify as a hedging instrument. Derivatives are carried as assets when fair value is positive and as liabilities when fair value is negative.

The best evidence of the fair value of a derivative at initial recognition is the transaction price (i.e., the fair value of the consideration given or received) unless the fair value of that instrument is evidenced by comparison with other observable current market transactions in the same instrument (i.e., without modification or repackaging) or based on a valuation technique whose variables include only data from observable markets. When such evidence exists, the Group recognizes a gain or loss at initial recognition.

2.7 Offsetting Financial Instruments

Financial assets and liabilities are offset and the resulting net amount, considered as a single financial asset or financial liability, is reported in the statement of financial position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously. The right of set-off must be available at the end of the reporting period, that is, it is not contingent on future event. It must also be enforceable in the normal course of business, in the event of default, and in the event of insolvency or bankruptcy; and, must be legally enforceable for both entity and all counterparties to the financial instruments.

2.8 Bank Premises, Furniture, Fixtures and Equipment

Land is stated at cost less impairment losses, if any. As no finite useful life for land can be determined, the related carrying amounts are not depreciated. All other bank premises, furniture, fixtures and equipment are carried at cost less accumulated depreciation, amortization and any impairment in value.

The cost of an asset comprises its purchase price and directly attributable costs of bringing the asset to working condition for its intended use. Expenditures for additions, major improvements and renewals are capitalized, while expenditures for repairs and maintenance are charged to expense as incurred.

Depreciation is computed using the straight-line method over the estimated useful lives of the depreciable assets as follows:

Buildings	20-50 years
Furniture, fixtures and equipment	3-15 years

Leasehold rights and improvements are amortized over the term of the lease or the estimated useful lives of the improvements, whichever is shorter.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (see Note 2.17).

The residual values, estimated useful lives, and method of depreciation and amortization of bank premises, furniture, fixtures and equipment (except land) are reviewed and adjusted if appropriate, at the end of each reporting period.

An item of bank premises, furniture, fixtures and equipment, including the related accumulated depreciation, amortization and any impairment losses, is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in profit or loss in the year the item is derecognized.

2.9 Investment Properties

Investment properties pertain to land, buildings or condominium units acquired by the Group, in settlement of loans from defaulting borrowers through foreclosure or dacion in payment which are neither held by the Group for sale in the next 12 months nor being used in the rendering of services or for administrative purposes. This also includes properties held for rental.

Investment properties are stated at cost, less accumulated depreciation and any impairment losses (see Note 2.17). The cost of an investment property comprises its purchase price and directly attributable costs incurred such as legal fees, transfer taxes and other transaction costs.

Transfers from other accounts (such as bank premises, furniture, fixtures and equipment) are made to investment properties when and only when, there is a change in use, evidenced by ending of owner-occupation or commencement of an operating lease to another party or holding the property for capital appreciation, while transfers from investment properties are made when, and only when, there is a change in use, evidenced by commencement of owner-occupation or commencement of development with a view to sell. In isolation, a change in management's intentions for the use of a property does not provide evidence of a change in use.

Depreciation and impairment loss are recognized in the same manner as in bank premises, furniture, fixtures and equipment.

Direct operating expenses related to investment properties, such as repairs and maintenance, and real estate taxes are normally charged against current operations in the period in which these costs are incurred.

Investment properties, including the related accumulated depreciation and any impairment losses, are derecognized upon disposal or when permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gain or loss on the retirement or disposal of investment properties is recognized in Miscellaneous Income or Miscellaneous Expense, respectively, under Other Operating Income or Other Operating Expenses, respectively, in the year of retirement or disposal.

2.10 Assets Held-for-Sale and Disposal Group

Assets held-for-sale and disposal group, which are presented as part of Other Resources account, include real and other properties acquired through repossession, foreclosure or purchase that the Group intends to sell within one year from the date of classification as held-for-sale and for which the Group is committed to immediately dispose through an active marketing plan. The Group classifies an asset (or disposal group) as held-for-sale if its carrying amount will be recovered principally through a sale transaction rather than through continuing use.

In the event that the sale of the asset is extended beyond one year, the extension of the period required to complete the sale does not preclude an asset from being classified as held-for-sale if the delay is caused by events or circumstances beyond the Group's control and there is sufficient evidence that the Group remains committed to its plan to sell the asset.

Assets classified as held-for-sale are measured at the lower of their carrying amounts, immediately prior to their classification as held-for-sale and their fair value less costs to sell. Assets classified as held-for-sale are not subject to depreciation or amortization. Asset that ceases to be classified as held-for-sale is measured at the lower of: (a) its carrying amount before the asset was classified as held-for-sale, adjusted for any depreciation, amortization or revaluations that would have been recognized had the asset not been classified as held-for-sale; and, (b) its recoverable amount at the date of the subsequent decision not to sell. Any adjustment to the carrying amount of an asset that ceases to be classified as held-for-sale resulting in either a gain or loss, is recognized in profit or loss. The Group recognizes an impairment loss for any initial or subsequent write-down of the assets held-for-sale to fair value less cost to sell, to the extent that it has not been previously recognized in profit or loss.

On the other hand, any gain from any subsequent increase in fair value less to costs to sell of an asset up to the extent of the cumulative impairment loss that has been previously recognized is recognized in profit or loss.

The gains or losses arising from the sale or remeasurement of assets held-for-sale is recognized in Miscellaneous Income (Expenses) under the Other Operating Income (Expenses) account in the statement of profit or loss.

2.11 Intangible Assets

Intangible assets include goodwill, branch licenses, trading right, and computer software licenses which are accounted for under cost model and are reported under Other Resources account in the statement of financial position. The cost of the asset is the amount of cash and cash equivalents paid or the fair value of the other considerations given to acquire an asset at the time of acquisition.

Goodwill represents the excess of the cost of acquisition over the fair value of the identifiable net assets acquired at the date of acquisition (see Note 2.3).

Branch licenses represent the rights given by the BSP to the Group to establish a certain number of branches in various areas in the country.

Goodwill and branch licenses are classified as intangible assets with indefinite useful life and, thus, not subject to amortization but are tested annually for impairment (see Note 2.17). After initial recognition, goodwill and branch licenses are subsequently carried at cost less accumulated impairment losses. Goodwill is allocated to cash-generating units for the purpose of impairment testing. Each of those generating units is represented by each primary reporting segment.

Trading right, included as part of Miscellaneous under Other Resources account, represents the right given to RSI, a subsidiary engaged in stock brokerage, to preserve its access to the trading facilities and to transact business at the PSE. Trading right is assessed as having an indefinite useful life. It is carried at the amount allocated from the original cost of the exchange membership seat (after a corresponding allocation was made to the value of the PSE shares) less allowance for impairment, if any. The trading right is tested annually for any impairment in value (see Note 2.17).

Acquired computer software licenses are capitalized on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortized on a straight line basis over the expected useful lives of the software of three to ten years.

Costs associated with developing or maintaining computer software programs are recognized as expense as incurred. Costs that are directly associated with the production of identifiable and unique software products controlled by the Group, and that will probably generate economic benefits exceeding costs beyond one year, are recognized as intangible assets. Direct costs include employee costs incurred on software development and an appropriate portion of relevant overhead costs.

Computer software development costs recognized as assets are amortized using the straight-line method over their useful lives (not exceeding ten years).

When an intangible asset is disposed of, the gain or loss on disposal is determined as the difference between the proceeds and the carrying amount of the asset and is recognized in profit or loss.

2.11 Other Resources

Other resources (excluding items classified as intangible assets) pertain to other assets controlled by the Group as a result of past events. These are recognized in the financial statements when it is probable that the future economic benefits will flow to the Group and the asset has a cost or value that can be measured reliably.

2.12 Provisions and Contingencies

Provisions are recognized when present obligations will probably lead to an outflow of economic resources and they can be estimated reliably even if the timing or amount of the outflow may still be uncertain. A present obligation arises from the presence of a legal or constructive obligation that has resulted from past events (e.g., legal dispute or onerous contracts).

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the end of the reporting period, including the risks and uncertainties associated with the present obligation. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole.

When time value of money is material, long-term provisions are discounted to their present values using a pretax rate that reflects market assessments and the risks specific to the obligation. The increase in provision due to passage of time is recognized as interest expense.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate.

In those cases, where the possible outflow of economic resource as a result of present obligations is considered improbable or remote, or the amount to be provided for cannot be measured reliably, no liability is recognized in the financial statements. Similarly, possible inflows of economic benefits to the Group that do not yet meet the recognition criteria of an asset are considered contingent assets; hence, are not recognized in the financial statements. On the other hand, any reimbursement that the Group can be virtually certain to collect from a third party with respect to the obligation is recognized as a separate asset not exceeding the amount of the related provision.

2.13 Equity

Preferred and common stock represent the nominal value of shares of stock that have been issued.

Capital paid in excess of par includes any premiums received on the issuance of capital stock. Any transaction costs associated with the issuance of shares of stock are deducted from capital paid in excess of par, net of any related income tax benefits.

Revaluation reserves consist of:

- (a) Net unrealized fair value gains or losses arising from remeasurements of financial assets at FVOCI;
- (b) Reserves on remeasurements of post-employment defined benefit plan comprising of net accumulated actuarial gains or losses arising from experience adjustments and other changes in actuarial assumptions, and actual return on plan assets (excluding account included in net interest);
- (c) Accumulated translation adjustments related to the cumulative gains from the translation of the financial statements of foreign subsidiaries whose functional currency is different from that of the Parent Company; and,
- (d) Share in other comprehensive income or loss of subsidiaries and associates.

Reserve for trust business representing the accumulated amount set aside by the Group under existing regulations requiring the Parent Company and a subsidiary to appropriate and transfer to surplus 10% of its net profits accruing from their trust business until the surplus shall amount to 20% of the regulatory capital. The reserve shall not be paid out in dividends, but losses accruing in the course of the trust business may be charged against this account.

Other reserves refer to the amount attributable to the Parent Company arising from the changes in the ownership of the NCI in the Group and the result of the redemption of the preferred stocks of RSB's subsidiaries. This also includes the excess of cost of investment over the net identifiable assets of an acquired subsidiary under the pooling of interest method.

Surplus represents all current and prior period results of operations as disclosed in the statement of profit or loss, reduced by the amount of dividends declared.

General loan loss reserves pertain to the accumulated amount of appropriation from Surplus made by the Group arising from the excess of the one-percent general loan loss provisions for outstanding loans as required by the BSP under Circular No. 1011, *Guidelines on the Adoption of PFRS 9* (Circular No. 1011) over the computed allowance for ECL.

NCI represents the portion of the net assets and profit or loss not attributable to the Group and are presented separately in the consolidated statement of profit or loss and comprehensive income and within equity in the consolidated statement of financial position and changes in equity.

2.14 Other Income and Expense Recognition

Prior to January 1, 2018, revenue is recognized to the extent that the revenue can be reliably measured; it is probable that future economic benefits will flow to the Group; and the expenses and costs incurred and to be incurred can be measured reliably. In 2018, revenue is recognized only when (or as) the Group satisfies a performance obligation by transferring control of the promised services to the customer. A contract with a customer that results in a recognized financial instrument in the Group's financial statements may partially be within the scope of PFRS 9 and partially within the scope of PFRS 15. In such case, the Group first applies PFRS 9 to separate and measure the part of the contract that is in-scope of PFRS 9, and then applies PFRS 15 to the residual part of the contract. Expenses and costs, if any, are recognized in profit or loss upon utilization of the assets or services or at the date these are incurred. All finance costs are reported in profit or loss on accrual basis.

The Group also earns service fees and commissions in various banking services, and gains on sale of properties, which are supported by contracts approved by the parties involved. These revenues are accounted for by the Group in accordance with PFRS 15.

For revenues arising from these various banking services which are to be accounted for under PFRS 15, the following provides information about the nature and timing of satisfaction of performance obligations in contracts with customers, including significant payment terms, and the related revenue recognition policies:

a) Charges, Fees and Commissions

The following charges, fees and commissions are recognized as follows:

- (i) Commissions and fees* – these income arising from loans, deposits, and other banking transactions are recognized as income based on agreed terms and conditions with customers which are generally when the services has been performed.
- (ii) Annual membership fees* – pertains to annual fees charged to credit cardholders. Revenues from membership fees are recognized over time from the date of renewal of the credit card until the validity date covered by the said renewal, usually termed as the expiry date of the issued cards. The credit card's validity period is deemed to be servicing period.
- (iii) Interchange fees, net of interchange costs* – are recognized as income upon presentation by member establishments of charges arising from RCBC Bankard and non-RCBC Bankard (associated with MasterCard, JCB, VISA and China UnionPay labels) credit card availments passing through the Point of Sale (POS) terminals of the Parent Company. These discounts are computed based on agreed rates and are deducted from the amounts remitted to member establishments. Interchange costs pertain to the other credit card companies' share in RCBC Bankard's merchant discounts whenever their issued credit cards transact in the Parent Company's POS terminal.

The Parent Company has a rewards program related to its credit card operations, which allows its cardholders to accumulate award credits or loyalty points that can be redeemed for free products. The loyalty points give rise to a separate performance obligation as they provide a material right to the cardholder.

Accordingly, the Parent Company allocates a portion of the interchange fee billed to participating merchants to the loyalty points granted to cardholders based on relative stand-alone selling price and recognizes liability equivalent to the estimated loyalty points until these are redeemed. Revenue is recognized upon actual redemption by the cardholder.

- (iv) *Loan syndication fees* - are recognized as revenue when the syndication has been completed and the Group retained no part of the loan package for itself or retained a part at the same effective interest rate for the other participants.
- (v) *Underwriting and arrangers fees* – these fees arising from negotiating, or participating in the negotiation of a transaction for a third party such as arrangement of the acquisition of shares or other securities or the purchase or sale of businesses are recognized at the completion of the underlying transaction and where there are no further obligations to perform under the agreement.

b) *Trust fees*

These are service fees calculated in reference to the net asset value of the funds managed and deducted from the customer's account balance on a monthly basis which are recognized over time as the asset management services are provided. These are also applicable for wealth management and asset custody services that are continuously provided over an extended period of time.

c) *Trading and Securities Gains (Losses)*

These are recognized when the ownership of the securities is transferred to the buyer and is computed as the difference between the selling price and the carrying amount of the securities disposed of. These also include trading gains as a result of the mark-to-market valuation of investment securities classified as FVPL.

d) *Gains on Assets Sold*

Gains on assets sold arise from the disposals of bank premises, furniture, fixtures and equipment, investment properties, real estate properties for sale, and assets held-for-sale. The Group recognizes the gain on sale at the time the control of the assets is transferred to the buyer, when the Group does not retain either continuing managerial involvement to the degree usually associated with ownership, or effective control over the assets sold, and when the collectability of the entire sales price is reasonably assured.

Gains on assets sold are included as part of Miscellaneous income under Other Operating Income account in the statement of profit or loss.

Collections from accounts, which did not qualify from revenue recognition are treated as customers' deposit included as part of Accounts payable under Other Liabilities account in the statement of financial position.

Costs and expenses are recognized in profit or loss upon utilization of the assets and/or services or at the date those are incurred. All finance costs are reported in profit or loss on accrual basis, except capitalized borrowing costs which are included as part of the cost of the related qualifying asset, if any (see Note 2.19).

2.15 Leases

The Group accounts for its leases as follows:

(a) Group as Lessee

Leases which do not transfer to the Group substantially all the risks and benefits of ownership of the asset are classified as operating leases. Operating lease payments (net of any incentive received from the lessor) are recognized as expense in profit or loss on a straight-line basis over the lease term. Associated costs, such as repairs and maintenance and insurance, are expensed as incurred.

(b) Group as Lessor

Leases which transfer to the lessee all risks and benefits incidental to ownership of the leased item are classified as finance leases and are presented at an amount equal to the Group's net investment in the lease. Finance income is recognized based on the pattern reflecting a constant periodic rate of return on the Group's net investment outstanding in respect of the finance lease, and is included as part of Interest Income on loans and receivables.

Leases which do not transfer to the lessee substantially all the risks and benefits of ownership of the asset are classified as operating leases. Lease income from operating leases is recognized in profit or loss on a straight-line basis over the lease term. These are recognized as part of Miscellaneous income under Other Operating Income account in the statement of profit or loss.

The Group determines whether an arrangement is, or contains, a lease based on the substance of the arrangement. It makes an assessment of whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset. A reassessment is made after inception of the lease, only if one of the following applies:

- (i)* there is a change in contractual terms, other than a renewal or extension of the arrangement;
- (ii)* a renewal option is exercised or extension granted, unless that term of the renewal or extension was initially included in the lease term;
- (iii)* there is a change in the determination of whether fulfillment is dependent on a specified asset; or,
- (iv)* there is a substantial change to the asset.

2.16 Foreign Currency Transactions and Translations

The Group's transactions in foreign currencies are accounted for as follows:

(a) Transactions and Balances

Except for the foreign subsidiaries and accounts of the Group's foreign currency deposit unit (FCDU), the accounting records of the Group are maintained in Philippine pesos. Foreign currency transactions during the period are translated into the functional currency at exchange rates which approximate those prevailing at transaction dates. Resources and liabilities denominated in foreign currencies are translated to Philippine pesos at the prevailing Philippine Dealing System closing rates (PDSCR) at the end of the reporting period.

Foreign exchange gains and losses resulting from the settlement of foreign currency transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in profit or loss, except when recognized in other comprehensive income and deferred in equity as qualifying cash flow hedges and qualifying net investment hedges. Translation differences on non-monetary items, such as equity securities classified as at FVPL, are reported as part of fair value gain or loss.

For financial reporting purposes, the accounts of the FCDU are translated into their equivalents in Philippine pesos based on the PDSCR prevailing at the end of each reporting period (for resources and liabilities) and at the average PDSCR for the period (for income and expenses). Any foreign exchange difference is recognized in profit or loss.

Changes in the fair value of monetary financial assets (debt securities) denominated in foreign currency classified as financial assets at FVPL and financial assets at FVOCI are analyzed between translation differences resulting from changes in the amortized cost of the security and other changes in the carrying amount of the security. Accordingly, translation differences related to changes in amortized cost of investment in debt securities are recognized in profit or loss, and other changes in the carrying amount are recognized as gains and losses in other comprehensive income.

(b) Translation of Financial Statements of Foreign Subsidiaries

The results of operations and financial position of all the Group's foreign subsidiaries (none of which has the currency dependency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (i)* Assets and liabilities at the end of each reporting period as presented in the statement of financial position are translated at the closing rate at the date of that statement of financial position;
- (ii)* Income and expenses are translated at average exchange rates during the period (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transactions' dates, in which case income and expenses are translated at the dates of the transactions); and,

(iii) All resulting exchange differences are recognized as a component of equity.

In consolidation, exchange differences arising from the translation of the net investment in foreign entities are recognized in other comprehensive income which form part of Revaluation Reserves account in equity. When a foreign operation is sold, the accumulated translation and exchange differences are recognized in profit or loss as part of the gain or loss on assets sold.

The translation of the financial statements into Philippine peso should not be construed as a representation that the amounts stated in currencies other than the Philippine peso could be converted in Philippine peso amounts at the translation rates or at any other rates of exchange.

2.17 Impairment of Non-financial Assets

Investments in subsidiaries and associates, bank premises, furniture, fixtures and equipment, investment properties, and other resources (including intangible assets) and other non-financial assets are subject to impairment testing. Intangible assets (including goodwill) with an indefinite useful life or those not yet available for use are tested for impairment at least annually.

For purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows [cash-generating units (CGU)]. As a result, some assets are tested for impairment either individually or at the CGU level. Except for intangible assets with an indefinite useful life (i.e., goodwill, branch licenses and trading rights) or those not yet available for use, individual assets or CGU are tested for impairment whenever events or changes in circumstances indicate that their carrying amount may not be recoverable.

Goodwill is reviewed for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. Impairment is determined for goodwill by assessing the recoverable amount of the CGU (or group of CGUs) to which the goodwill relates. Where the recoverable amount of the CGU (or group of CGUs) is less than the carrying amount of the CGU (or group of CGUs) to which goodwill has been allocated, an impairment loss is recognized immediately in profit or loss. Impairment losses relating to goodwill cannot be reversed for subsequent increases in its recoverable amount in future periods.

Impairment loss is recognized in profit or loss for the amount by which the asset's or CGU's carrying amount exceeds its recoverable amount which is the higher of its fair value less costs to sell and its value in use. The fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction, while in determining value in use management estimates the expected future cash flows to be generated from the continued use of the asset or CGU, and determines the suitable interest rate in order to calculate the present value of those cash flows. The data used for impairment testing procedures are directly linked to the Group's latest approved budget, adjusted as necessary to exclude the effects of asset enhancements. Discount factors are determined individually for each CGU and reflect management's assessment of respective risk profiles, such as market and asset-specific risk factors.

All assets, except for intangible assets with indefinite useful life and goodwill, are subsequently reassessed for indications that an impairment loss previously recognized may no longer exist. An impairment loss is reversed if the asset's or CGU's recoverable amount exceeds its carrying amount.

2.18 Employee Benefits

Entities under the Group provide respective post-employment benefits to employees through a defined benefit plan and defined contribution plan, as well as other benefits, which are recognized and measured as follows:

(a) Post-employment Defined Benefit Plan

A defined benefit plan is a post-employment plan that defines an amount of post-employment benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and salary. The legal obligation for any benefits from this kind of post-employment plan remains with the Group, even if plan assets for funding the defined benefit plan have been acquired. Plan assets may include assets specifically designated to a long-term benefit fund, as well as qualifying insurance policies. The Group's post-employment defined benefit plan covers all regular full-time employees. The pension plan is tax-qualified, non-contributory and administered by trustees.

The liability recognized in the statement of financial position for defined benefit post-employment plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows for expected benefit payments using a discount rate derived from the interpolated yields of government bonds as calculated by Bloomberg which used BVAL Evaluated Pricing Service to calculate the PHP BVAL Reference Rates in 2018 and as published by Philippine Dealing & Exchange Corp. (PDEx) in 2017. These yields are denominated in the currency in which the benefits will be paid and that have terms to maturity approximating to the terms of the related post-employment liability.

Remeasurements, comprising of actuarial gains and losses arising from experience adjustments and other changes in actuarial assumptions, effect of the changes to the asset ceiling, if any, and actual return on plan assets (excluding amount included in net interest), are reflected immediately in the statement of financial position with a charge or credit recognized in other comprehensive income in the period in which they arise. Remeasurements are not reclassified to profit or loss in the subsequent periods.

Net interest is calculated by applying the discount rate at the beginning of the period, taking account of any changes in the net defined benefit liability or asset during the period as a result of contributions and benefit payments. Net interest is reported as part of Other Interest Income or Expense account in the statement of profit or loss.

Past-service costs are recognized immediately in profit or loss in the period of a plan amendment or curtailment.

(b) Post-employment Defined Contribution Plan

A defined contribution plan is a post-employment plan under which the Group pays fixed contributions into an independent entity such as the Social Security System. The Group has no legal or constructive obligations to pay further contributions after payment of the fixed contribution. The contributions recognized in respect of defined contribution plans are expensed as they fall due. Liabilities or assets may be recognized if underpayment or prepayment has occurred.

(c) *Short-term Benefits*

Short-term employee benefits include wages, salaries, bonuses, and non-monetary benefits provided to current employees, which are expected to be settled before twelve months after the end of the reporting period during which an employee services are rendered, but does not include termination benefits. The undiscounted amount of the benefits expected to be paid in respect of services rendered by employees in an accounting period is recognized in profit or loss during that period and any unsettled amount at the end of the reporting period is included as part of Accrued Interest, Taxes and Other Expenses in the statement of financial position.

(d) *Termination Benefits*

Termination benefits are payable when employment is terminated by the Group before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Group recognizes termination benefits at the earlier of: (i) when it can no longer withdraw the offer of such benefits, and, (ii) when it recognizes costs for a restructuring that is within the scope of PAS 37, *Provisions, Contingent Liabilities and Contingent Assets*, and involves the payment of termination benefits. In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the end of the reporting period are discounted to their present value.

(e) *Bonus Plans*

The Group recognizes a liability and an expense for bonuses, based on a fixed formula. The Group recognizes a provision where it is contractually obliged to pay the benefits, or where there is a past practice that has created a constructive obligation.

(f) *Compensated Absences*

Compensated absences are recognized for the number of paid leave days (including holiday entitlement) remaining at the end of the reporting period. They are included in the Accrued Interest, Taxes and Other Expenses account in the statement of financial position at the undiscounted amount that the Group expects to pay as a result of the unused entitlement.

2.19 Borrowing Costs

Borrowing costs are recognized as expense in the period in which they are incurred, except to the extent that they are capitalized. Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset (i.e., an asset that takes a substantial period of time to get ready for its intended use or sale) are capitalized as part of the cost of such asset. The capitalization of borrowing costs commences when expenditures for the asset and borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalization ceases when substantially all such activities are completed.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

2.20 Income Taxes

Tax expense recognized in profit or loss comprises the sum of current tax and deferred tax not recognized in other comprehensive income or directly in equity, if any.

Current tax assets or liabilities comprise those claims from, or obligations to, tax authorities relating to the current or prior reporting period, that are unpaid at the end of the reporting period. They are calculated according to the tax rates and tax laws applicable to the periods to which they relate, based on the taxable profit for the year. All changes to current tax assets or liabilities are recognized as a component of tax expense in the statement of profit or loss.

Deferred tax is provided using the liability method, on temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Under the liability method, with certain exceptions, deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized for all deductible temporary differences and the carry-forward of unused tax losses and unused tax credits to the extent that it is probable that taxable profit will be available against which the deferred tax assets can be utilized. Deferred tax assets are reassessed at the end of each reporting period. Previously unrecognized deferred tax assets are recognized to the extent that it has become probable that future taxable profit will be available to allow such deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled provided such tax rates have been enacted or substantively enacted at the end of the reporting period.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of the assets and liabilities.

Most changes in deferred tax assets or liabilities are recognized as a component of tax expense in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

Deferred tax assets and deferred tax liabilities recognized by the entities under the Group are offset if they have a legally enforceable right to set off current tax assets against current tax liabilities and the deferred taxes relate to the same entity and the same taxation authority.

2.21 Related Party Relationships and Transactions

Related party transactions are transfers of resources, services or obligations between the Group and its related parties, regardless of whether a price is charged.

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. These parties include: (a) individuals owning, directly or indirectly through one or more intermediaries, control or are controlled by, or under common control with the Group; (b) associates; (c) individuals owning, directly or indirectly, an interest in the voting power of the Group that gives them significant influence over the Group and close members of the family of any such individual; and, (d) the funded retirement plan of each of the entities under the Group.

In considering each possible related party relationship, attention is directed to the substance of the relationship and not merely on the legal form.

2.22 Earnings and Dilutive Earning Per Share

Basic earnings per share (EPS) is determined by dividing the adjusted net profit for the year attributable to common shareholders by the weighted average number of common stocks outstanding during the period, after giving retroactive effect to any stock dividends declared in the current period.

Diluted EPS is also computed by dividing net profit by the weighted average number of common stocks subscribed and issued during the period. However, net profit attributable to common stocks and the weighted average number of common stocks outstanding are adjusted to reflect the effects of potentially dilutive convertible preferred stocks. Convertible preferred stocks are deemed to have been converted into common stocks at the issuance of preferred stocks.

In cases of redemption of preference shares, the net income used in the computation of basic and diluted EPS is decreased by the excess of the fair value of consideration paid to holders of the instruments over the carrying amount of such repurchased the instruments.

2.23 Trust and Fiduciary Activities

The Group commonly acts as trustee and in other fiduciary capacities that result in the holding or placing of assets on behalf of individuals, trusts, retirement benefit plans and other institutions. The resources, liabilities and income or loss arising thereon are excluded from these financial statements, as these are neither resources nor income of the Group.

2.24 Events After the End of the Reporting Period

Any post year-end event that provides additional information about the Group's financial position at the end of the reporting period (adjusting event) is reflected in the financial statements. Post year-end events that are not adjusting events, if any, are disclosed when material to the financial statements.

3. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The preparation of the Group's financial statements in accordance with PFRS requires management to make judgments and estimates that affect the amounts reported in the financial statements and related notes. Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may ultimately vary from these estimates.

3.1 Critical Management Judgments in Applying Accounting Policies

In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimation, which have the most significant effect on the amounts recognized in the financial statements:

(a) Evaluation of Business Model Applied in Managing Financial Instruments

The Group manages its financial assets based on business models that maintain adequate level of financial assets to match its expected cash outflows, largely its core deposit funding arising from customers' withdrawals and continuing loan disbursements to borrowers, while maintaining a strategic portfolio of financial assets for trading activities consistent with its risk appetite.

The Group's business models reflect how it manages its portfolio of financial instruments. The Group's business models need not be assessed at entity level or as a whole but applied at the level of a portfolio of financial instruments (i.e., group of financial instruments that are managed together by the Group) and not on an instrument-by-instrument basis (i.e., not based on intention or specific characteristics of individual financial instrument).

In determining the classification of a financial instrument under PFRS 9, the Group evaluates in which business model a financial instrument or a portfolio of financial instruments belongs to taking into consideration the objectives of each business model established by the Group (e.g., held-for-trading, generating accrual income, direct matching to a specific liability) as those relate to the Group's investment, trading and lending strategies.

In connection with the Group's adoption of PFRS 9 on January 1, 2018, the Parent Company's BOD ratified the Executive Committee's approval in October 2017 of the change in the Parent Company's business model to incorporate as part of its investment policy the FVOCI model which now include eligible investments in debt securities that the Parent Company holds to collect and sell. This changes in the investment policy aims to calibrate the Parent Company's strategy and management of liquidity. The introduction of the FVOCI business model allows the Parent Company to invest in high-rated issuers and bonds that qualify as high quality liquid assets while offering yield pick-up. This resulted in reclassification of certain investments in debt securities to FVOCI category [see Note 2.2(a)].

In addition, PFRS 9 emphasizes that if more than an infrequent sale is made out of a portfolio of financial assets carried at amortized cost, an entity should assess whether and how such sales are consistent with the objective of collecting contractual cash flows. In making this judgment, the Group considers certain circumstances documented in its business model manual to assess that an increase in the frequency or value of sales of financial instruments in a particular period is not necessarily inconsistent with the HTC business model if the Group can explain the reasons for those sales and why those sales do not reflect a change in the Group's objective for the business model.

In 2018 and 2017, the Parent Company disposed of certain debt securities from its HTC portfolio in accordance with its investment policy and has applied these evaluation process to ensure that the disposal is consistent with the Group's HTC business model (see Note 10.3).

(b) *Testing the Cash Flow Characteristics of Financial Assets and Continuing Evaluation of the Business Model*

In determining the classification of financial assets under PFRS 9, the Group assesses whether the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding, with interest representing time value of money and credit risk associated with the principal amount outstanding. The assessment as to whether the cash flows meet the test is made in the currency in which the financial asset is denominated. Any other contractual term that changes the timing or amount of cash flows (unless it is a variable interest rate that represents time value of money and credit risk) does not meet the amortized cost criteria. In cases where the relationship between the passage of time and the interest rate of the financial instrument may be imperfect, known as modified time value of money, the Group assesses the modified time value of money feature to determine whether the financial instrument still meets the SPPI criterion. The objective of the assessment is to determine how different the undiscounted contractual cash flows could be from the undiscounted cash flows that would arise if the time value of money element was not modified (the benchmark cash flows). If the resulting difference is significant, the SPPI criterion is not met. In view of this, the Group considers the effect of the modified time value of money element in each reporting period and cumulatively over the life of the financial instrument.

(c) *Evaluation of Impairment of Equity Securities at FVOCI (Applicable Prior to January 1, 2018)*

The determination when an investment in equity securities at FVOCI is other-than-temporarily impaired requires the Group to make judgment. In making this judgment with respect to the Group's outstanding financial assets at FVOCI as of December 31, 2017, the Group has evaluated, among other factors, the duration and extent to which the fair value of an investment is less than its cost, and the financial health of and near-term business outlook for the investee, including factors such as industry and sector performance, changes in technology, and operational and financing cash flow. For investments issued by counterparty under bankruptcy, the Group determines permanent impairment based on the price of the most recent transaction and on latest indications obtained from reputable counterparties (which regularly quotes prices for distressed securities) since current bid prices are no longer available.

The Group's investments in equity instruments are no longer subject to impairment assessment in 2018 under PFRS 9.

(d) *Distinction Between Investment Properties and Owner-occupied Properties*

The Group determines whether a property qualifies as an investment property. In making its judgment, the Group considers whether the property generates cash flows largely independent of the other assets held by the Group. Owner-occupied properties generate cash flows that are attributable not only to property but also to other assets used in the production, supply process, and in the Group's banking operation.

Some properties comprise a portion that is held to earn rental or for capital appreciation and another portion that is held for use for administrative purposes. If these portions can be sold separately (or leased out separately under finance lease) then these portions can be accounted for separately. If the portions cannot be sold separately, the property is accounted for as investment property only if an insignificant portion is held for use in operations or for administrative purposes. Judgment is applied in determining whether ancillary services are so significant that a property does not qualify as investment property.

As of the end of the reporting period, the Group has certain building which comprise a portion that is held for rental and other portion is used for operations which were classified by the Group as Investment Property or as part of Bank Premises, Furniture, Fixtures and Equipment according to its current use.

(e) Distinction Between Operating and Finance Leases

The Group has entered into various lease agreements either as a lessor or a lessee. Judgment was exercised by management to distinguish each lease agreement as either an operating or finance lease by looking at the transfer or retention of significant risk and rewards of ownership of the properties covered by the agreements. Failure to make the right judgment will result in either overstatement or understatement of assets or liabilities. Based on the provisions of existing relevant lease agreements, the Group has determined that all of its lease arrangements with the Group as the lessee, qualify as operating leases, while for the various lease agreements of RCBC LFC as a lessor, the arrangements are accounted for under finance lease.

In determining whether the lease arrangements of RCBC LFC qualify as a finance lease, the following factors have been considered:

- (i)* the lease provides the lessee an option to purchase the asset; or,
- (ii)* the lease transfers ownership of the property at the end of the lease and the related lease terms approximate the estimate useful life of the asset being leased.

(f) Classification and Determination of Fair Value of Acquired Properties

The Group classifies its acquired properties as Bank Premises, Furniture, Fixtures and Equipment if used in operations, as Assets Held-for-Sale and Disposal Group presented under Other Resources account if the Group expects that the properties will be recovered through sale rather than use, as Investment Properties if held for rental or for currently undetermined future use and is regarded as held for capital appreciation, or as financial assets in accordance with PFRS 9. At initial recognition, the Group determines the fair value of acquired properties through internal and external appraisal depending on the Group's threshold policy. The appraised value is determined based on the current economic and market conditions, as well as the physical condition of the property.

The Group's methodology in determining the fair value of acquired properties are further discussed in Note 7.4.

(g) Assessment of Significant Influence on HCPI in which the Group and Parent Company Holds Less than 20% Ownership

The management considers that the Group and the Parent Company has significant influence on HCPI even though it holds less than 20% of the ordinary shares in the latter. In making this judgment, management considered the Group's and the Parent Company's rights to commit and undertake to vote, and to regulate the conduct of voting and the relationship between them with respect to their exercise of their voting rights (see Note 12.2).

(b) *Recognition of Provisions and Contingencies*

Judgment is exercised by management to distinguish between provisions and contingencies. Policies on recognition of provisions and contingencies are discussed in Note 2.12 and relevant disclosures are presented in Note 29. In dealing with the Group's various legal proceedings, the Group's estimate of the probable costs that may arise from claims and contingencies has been developed in consultation and coordination with the Group's internal and outside counsels acting in defense for the Group's and the Parent Company's legal cases and are based upon the analysis of probable results.

Although the Group does not believe that its on-going proceedings as disclosed in Note 29 will have material adverse effect on the Group's financial position, it is possible that future results of operations could be materially affected by changes in the estimates or in the effectiveness of the strategies conducted relating to those proceedings.

3.2 Key Sources of Estimation Uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of each reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next reporting period:

(a) *Estimation of Expected Credit Loss on Financial Assets*

When measuring allowance for ECL for relevant categories of financial assets, management applies judgment in defining the criteria in assessing whether a financial asset has experienced SICR since initial recognition, and in the estimation of the contractual cash flows due from counterparty and those that the Group would expect to receive, taking into account the cash flows from the realization of collateral and integral credit enhancements. The Group's ECL calculations are outputs of complex models with a number of underlying assumptions about future economic conditions and credit behaviour of counterparties (e.g., the likelihood of counterparties defaulting and the resulting losses). The computation of the ECL also consider the use of reasonable and supportable forward-looking information, which is based on assumptions for the future movement of different economic drivers and how these drivers will affect each other that may result in different levels of loss allowance.

Significant factors affecting the estimates on the ECL model include:

- internal rating matrix which determines the PD to be assigned to a financial asset;
- criteria for assessing if there has been a significant increase in credit risk and when a financial asset will be transferred between the three stages;
- the Group's definition of default for different segments of credit exposures that considers the regulatory requirements;
- establishing groups of similar financial assets (i.e., segmentation) for the purposes of measuring ECL on a collective basis;
- establishment of LGD parameters based on historical recovery rates of claims against defaulted counterparties across different group of financial instruments; and,
- establishing the number and relative weightings of forward-looking scenarios for each type of product/market and the associated ECL.

The explanation of inputs, assumptions and estimation techniques used in measuring ECL and the analysis of the allowance for ECL on various groups of financial instruments is further discussed in Note 4.4.

(b) *Fair Value Measurement for Financial Assets at FVPL and at FVOCI*

The Group carries certain financial assets at fair value which requires judgment and extensive use of accounting estimates. In cases when active market quotes are not available, fair value is determined by reference to the current market value of another financial instrument which is substantially the same or is calculated based on the expected cash flows of the underlying net base of the instrument or other more appropriated valuation techniques (see Note 7.2).

The amount of changes in fair value would differ if the Group had utilized different valuation methods and assumptions. Any change in fair value of the financial assets and financial liabilities would affect profit or loss or other comprehensive income.

The fair value of derivative financial instruments that are not quoted in an active market is determined through valuation techniques using the net present value computation (see Note 7.2).

The carrying values of the Group's and the Parent Company's trading and investment securities and the amounts of fair value changes recognized on those financial assets are disclosed in Note 10.

(c) *Estimation of Useful Lives of Bank Premises, Furniture, Fixtures and Equipment, Investment Properties, Computer Software, Branch Licenses and Trading Rights*

The Group estimates the useful lives of bank premises, furniture, fixtures and equipment, investment properties and computer software based on the period over which the assets are expected to be available for use. The estimated useful lives of these assets are reviewed periodically and are updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the assets.

The Group's branch licenses and trading rights were regarded as having an indefinite useful lives considering there is no foreseeable limit to the period over which such assets are expected to generate net cash inflows for the Group. The assessment of having indefinite useful lives is reviewed periodically and is updated whether events and circumstances such as the period of control over these assets and legal or similar limits on the use of these assets continue to support such assessment.

The carrying amounts of bank premises, furniture, fixtures and equipment, investment properties and computer software are analyzed in Notes 13, 14 and 15, respectively, while the carrying amounts of goodwill and branch licenses are analyzed in Note 15. Based on management's assessment as of December 31, 2018 and 2017, there are no changes in the useful lives of these assets. Actual results, however, may vary due to changes in estimates brought about by changes in factors mentioned above.

(d) *Determination of Realizable Amount of Deferred Tax Assets*

The Group reviews its deferred tax assets at the end of each reporting period and reduces the carrying amount to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Significant judgment is applied by management to determine the amount of deferred tax assets that can be recognized based on the likely timing and level of the Group's future taxable income together with its future tax planning strategies. The Group assessed its projected performance in determining the sufficiency of the future taxable income to support the recognition of deferred tax assets.

The carrying values of recognized and unrecognized deferred tax assets as of December 31, 2018 and 2017 are disclosed in Note 26.1.

(e) *Estimation of Impairment Losses of Non-financial Assets*

Except for intangible assets with indefinite useful lives, PFRS requires that an impairment review be performed when certain impairment indications are present. The Group's policy on estimating the impairment of non-financial assets is discussed in detail in Note 2.17.

The Group assesses impairment on these non-financial assets and considers the following important indicators:

- significant changes in asset usage;
- significant decline in assets' market value;
- obsolescence or physical damage of an asset;
- significant underperformance relative to expected historical or projected future operating results;
- significant changes in the manner of usage of the acquired assets or the strategy for the Group's overall business; and,
- significant negative industry or economic trends.

If such indications are present and where the carrying amount of the asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Though management believes that the assumptions used in the estimation of fair values of non-financial assets are appropriate and reasonable, significant changes in these assumptions may materially affect the assessment of recoverable values and any resulting impairment loss could have a material adverse effect on the results of operations.

(f) *Determination of Fair Value of Investment Properties*

The Group's investment properties are composed of parcels of land, buildings and condominium units which are held for capital appreciation or held-for-lease, and are measured using cost model. The estimated fair value of investment properties disclosed in Note 7.4 is determined on the basis of the appraisals conducted by professional appraiser applying the relevant valuation methodologies as discussed therein.

For investment properties with appraisal conducted prior to the end of the current reporting period, management determines whether there are significant circumstances during the intervening period that may require adjustments or changes in the disclosure of fair value of those properties.

A significant change in key inputs and sources of information used in the determination of the fair value disclosed for those assets may result in adjustment in the carrying amount of the assets reported in the financial statements if their fair value will indicate evidence of impairment.

(g) *Valuation of Post-employment Defined Benefits*

The determination of the Group's obligation and cost of post-employment defined benefits is dependent on the selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions include, among others, discount rates, and salary increase rate. A significant change in any of these actuarial assumptions may generally affect the recognized expense, other comprehensive income or loss, and the carrying amount of the post-employment benefit obligation in the next reporting period.

The amounts of post-employment benefit obligation and related income or expense, and an analysis of the movements in the estimated present value of post-employment benefit obligation, as well as the significant assumptions used in estimating such obligation, are presented in Note 24.2.

4. **RISK MANAGEMENT POLICIES AND OBJECTIVES**

The Group is exposed to risks in relation to its operating, investing, and financing activities, and the business environment in which it operates. The Group's objectives in risk management are to ensure that it identifies, measures, monitors, and controls the various risks that arise from its business activities, and that it adheres strictly to the policies, procedures, and control systems which are established to address these risks.

A committee system is a fundamental part of the Group's process of managing risk. The following five committees of the Parent Company's BOD are relevant in this context:

- The Executive Committee, which meets weekly, has the power to act and pass upon such matters as the Board may entrust to it for action in between BOD meetings. It may also consider and approve loans and other credit related matters, investments, purchase of stocks, bonds, securities and other commercial papers for the Bank's portfolio. The Executive Committee also has the power to review an asset or loan to ensure timely resolution and recognition of losses of impaired assets.
- The Risk Oversight Committee (ROC), which meets monthly, carries out the BOD's oversight responsibility for Group's capital adequacy and risk management strategy and actions covering credit, market and operational risks under Pillar I of the Basel framework; as well as the management of other material risks determined under Pillar II and the Internal Capital Adequacy Assessment Process (ICAAP) (see Note 5.2). Risk limits are reviewed and approved by the ROC.
- The Audit and Compliance Committee, which meets monthly, reviews the results of the Internal Audit examinations and recommends remedial actions to the BOD as appropriate.
- The Related Party Transactions (RPT) Committee, which meets monthly and as necessary, reviews proposed RPT within the materiality threshold to determine whether or not the transaction is on terms no less favorable to the Group than terms available to any unconnected third party under the same or similar circumstances. On favorable review, the RPT Committee endorses transactions to the BOD for approval.

- The Anti-Money Laundering (AML) Board Committee, which meets monthly, oversees the implementation of the Bank's Money Laundering and Terrorist Financing Prevention Program (MLPP) and ensures compliance thereof. This Committee also ensures that infractions are immediately corrected, issues are addressed and AML training of officers and staff are conducted.

Four senior management committees also provide a regular forum to take up risk issues.

- The Credit and Collection Committee (CRECOL), chaired by the Chief Executive Officer (CEO) and composed of the heads of credit risk-taking business units and the head of credit management group, meets weekly to review and approve credit exposures within its authority. It also reviews plans and progress on the resolution of problem loan accounts.
- The Asset/Liability Committee (ALCO), chaired by the Treasurer of the Parent Company and with the participation of the CEO and key business and support unit heads including the President of the major subsidiary, RSB, meets weekly to appraise market trends, and economic and political developments. It provides direction in the management of interest rate risk, liquidity risk, foreign currency risk, and trading and investment portfolio decisions. It sets prices or rates for various asset and liability and trading products, in light of funding costs and competitive and other market conditions. It receives confirmation that market risk limits (as described in the succeeding pages) are not breached; or if breached, it provides guidance on the handling of the relevant risk exposure in between ROC meetings.
- The Related Party Transactions Management Committee (RPT ManCom), composed of the Group Heads of the business units as specified in the charter or their respective designates. It meets monthly to review and approve proposed RPT within the materiality threshold for the purpose of determining whether or not the transaction is on terms no less favorable to the Bank than terms available to any unconnected third party under the same or similar circumstances unless the transaction requires BOD approval. On favorable review, the RPT ManCom endorses the transaction for BOD confirmation.
- The Anti-Money Laundering Management Committee (AMLCom) was created through an order of the Senior Management Committee on June 24, 2002, for the evaluation of the suspicious transaction reports (STR) reported by different units before submission to the Anti-Money Laundering Council (AMLC). The AMLCom assists the BOD in implementing the Group's MLPP in order to ensure compliance with BSP rules and regulations relating to the prevention of money laundering and terrorist financing.

The AMLCom is composed of the Chief Compliance Officer as the Chairperson and Presiding Officer and the Heads of Operations Group, Retail Banking Group, Controllershship Group, Legal Affairs Group, Operational Risk Management Division, Legal Affairs Division as members, and AML Division as the Rapporteur. The AML Division, through the Chief Compliance Officer, reports to the Audit and Compliance Committee and to the AML Board Committee its monthly activities including the AMLCom meetings.

The Parent Company established a Corporate Risk Management Services (CRISMS) Group, headed by the Chief Risk Officer, to ensure that consistent implementation of the objectives of risk identification, measurement and/or assessment, mitigation, and monitoring are pursued via practices commensurate with the group-wide risk profile.

In addition to established risk management systems and controls, the Group holds capital commensurate with the levels of risk it undertakes (see Note 5), in accordance with regulatory capital standards and internal benchmarks set by the Parent Company's BOD.

4.1 Group's Strategy in Using Financial Instruments

It is the Group's intent to generate returns mainly from the traditional financial intermediation and service-provision activities, augmented by returns from positions based on views on the financial markets. The main source of risk, therefore, remains to be that arising from credit risk exposures. Nevertheless, within BSP regulatory constraints, and subject to limits and parameters established by the BOD and/or the ROC, the Group is exposed to liquidity risk and interest rate risk inherent in the Group's operations, and other market risks, which include foreign exchange risk.

In the course of performing financial intermediation function, the Group accepts deposits from customers at fixed and floating rates, and for various periods, and seeks to earn interest margins by investing these funds in high-quality assets. The conventional strategy to enhance net interest margin is the investment of short-term funds in longer-term assets, such as fixed-income securities. While, in doing so, the Group maintains liquidity at prudent levels to meet all claims that fall due, the Group fully recognizes the consequent interest rate risk exposure.

The Group's investment portfolio is composed mainly of marketable, sovereign and corporate debt instruments.

The Parent Company was granted by the BSP additional derivatives authorities effective January 2011. Products approved under the Limited Dealer Authority (Type 2) are foreign currency forwards, non-deliverable forwards, interest rate and cross currency swaps while credit-linked notes and bond options were approved under the Limited User Authority (Type 3). In February 2012, bond forwards, non-deliverable swaps and foreign exchange options have been included under the same Limited User Authority (Type 3). In June 2013, the Parent Company was granted a Type 2 license non-deliverable swaps, foreign currency options, bond and interest rate options, and asset swaps. During the same period, additional Type 3 licenses for foreign exchange-option and bond-option linked notes were likewise approved. The Parent Company's derivatives portfolio consists mostly of short-term currency forward contracts and swaps, and interest rate swaps and futures.

4.2 Liquidity Risk

Liquidity risk is the potential insufficiency of funds available to meet the demands of the Group's customers to repay maturing liabilities. The Group manages liquidity risk by limiting the maturity mismatch between assets and liabilities, and by holding sufficient liquid assets of appropriate quality and marketability.

The Group recognizes the liquidity risk inherent in its activities, and identifies, measures, monitors and controls the liquidity risk inherent to the members of the Group which are financial intermediaries.

The Group's liquidity policy is to manage its operations to ensure that funds available are more than adequate to meet demands of its customers and to enable deposits to be repaid on maturity. The Group's liquidity policies and procedures are set out in its funding and liquidity plan which contains certain funding requirements based on assumptions and uses resources and liability maturity gap analysis.

The gap analyses as of December 31, 2018 and 2017 are presented below.

Pursuant to applicable BSP regulations, the Group is required to maintain reserves against deposit liabilities which are based on certain percentages of deposits. The required reserves against deposit liabilities shall be kept in the form of deposits placed in the Group's demand deposit accounts with the BSP. The BSP also requires the Parent Company and RSB to maintain asset cover of 100% for foreign currency-denominated liabilities of their respective FCDUs.

4.2.1 Foreign Currency Liquidity Management

The liquidity risk management policies and objectives described also apply to the management of any foreign currency to which the Group maintains significant exposure. Specifically, the Group ensures that its measurement, monitoring, and control systems account for these exposures as well. The Group sets and regularly reviews limits on the size of the cash flow mismatches for each significant individual currency and in aggregate over appropriate time horizons. The Group also assesses its access to foreign exchange markets when setting up its risk limits.

Following BSP Circular No. 639 on ICAAP, the Group likewise calculates and maintains a level of capital needed to support unexpected losses attributable to liquidity risk (see Note 5.2).

4.2.2 Liquidity Risk Stress

To augment the effectiveness of the Group's gap analysis, the Group regularly assesses liquidity risk based on behavioral and hypothetical assumptions under stress conditions. The results of these liquidity stress simulations are reported monthly to the ROC.

4.3 Market Risk

The Group's exposure to market risk is the potential diminution of earnings arising from the movement of market interest rates as well as the potential loss of market value, primarily of its holdings of debt securities and derivatives, due to price fluctuation.

The market risks of the Group are: (a) foreign exchange risk, (b) interest rate risk and (c) equity price risk. The Group manages these risks via a process of identifying, analyzing, measuring and controlling relevant market risk factors, and establishing appropriate limits for the various exposures. The market risk metrics in use, each of which has a corresponding limit, include the following:

- Nominal Position – an open risk position that is held as of any point in time expressed in terms of the nominal amount of the exposure.
- Dollar Value of 01 (DV01) – an estimate of the price impact due to a one-basis point change in the yield of fixed income securities. It effectively captures both the nominal size of the portfolio as well as its duration. A given DV01 limit accommodates various combinations of portfolio nominal size and duration, thus providing a degree of flexibility to the trading/risk taking function, but at the same time represents a ceiling to the rate sensitivity of the exposure according to the Group's risk appetite.
- Value-at-Risk (VaR) – an estimate of the amount of loss that a given risk exposure is unlikely to exceed during a given time period, at a given level of statistical confidence. Analytically, VaR is the product of: (a) the sensitivity of the market value of the position to movements of the relevant market risk factors, and (b) the volatility of the market risk factor for the given time horizon at a specified level of statistical confidence. Typically, the Group uses a 99% confidence level for this measurement. VaR is used as a risk measure for trading positions, which are marked-to-market (as opposed to exposures resulting from banking, or accrual, book resources and liabilities). Foreign Exchange Position VaR uses a one-day holding period, while Fixed Income VaR uses a defeasance period assessed periodically as appropriate to allow an orderly unwinding of the position. VaR models are back-tested to ensure that results remain consistent with the expectations based on the chosen statistical confidence level. While the Parent Company and RSB use VaR as an important tool for measuring market risk, they are cognizant of its limitations, notably the following:
 - The use of historical data as a basis for determining the possible range of future outcomes may not always cover all possible scenarios, especially those of an exceptional nature.

- VaR is based on historical volatility. Future volatility may be different due to either random, one-time events or structural changes (including changes in correlation). VaR may be unable to capture volatility due to either of these.
 - The holding period assumption may not be valid in all cases, such as during periods of extremely stressed market liquidity.
 - VaR is, by definition, an estimate at a specified level of confidence. Losses may occur beyond VaR. A 99% VaR implies that losses can exceed VaR 1% of the time.
 - In cases where a parametric distribution is assumed to calculate VaR, the assumed distribution may not fit the actual distribution well.
 - VaR assumes a static position over the holding period. In reality, trading positions change, even during the trading day.
- Net Interest Income (NII)-at-Risk – more specifically, in its current implementation, refers to the impact on net interest income for a 12-month horizon of adverse movements in interest rates. For this purpose, the Group employs a gap analysis to measure the interest rate sensitivity of its financial position (local and foreign currencies). As of a given reporting date, the interest rate gap analysis (see Note 4.3.2) measures mismatches between the amounts of interest-earning assets and interest-bearing liabilities re-pricing within “time buckets” going forward from the end of the reporting period. A positive gap means net asset sensitivity, which implies that an increase in the interest rates would have a positive effect on the Group’s net profit. Conversely, a negative gap means net liability sensitivity, implying that an increase in the interest rates would have a negative effect on the Group’s net profit. The rate movements assumed for measuring NII-at-Risk are consistent with a 99% confidence level with respect to historical rate volatility, assuming a one-year holding period. The Group considers the sum of NII-at-risk and the VaR of the FVPL and HTC portfolios as the Earnings-at-Risk (EaR) estimate.
 - Capital-at-Risk (CaR) – BSP Circular No. 544 refers to the estimation of the effect of interest rate changes as not only with respect to earnings, but also on the Group’s economic value. The estimate, therefore, must consider the fair valuation effect of rate changes on non-trading positions. This includes both those positions with fair value changes against profit or loss, as well as those with fair value changes recognized directly in equity. Adding this to the EaR determined using the procedure described above provides a measure of capital subject to interest rate risk. The Group sets its CaR limit as a percentage of the equity in the statement of financial position.

In addition to the limits corresponding to the above measurements, the following are also in place:

- Loss Limit – represents a ceiling on accumulated month-to-date and year-to-date losses. For trading positions, a Management Action Trigger (MAT) is also usually defined to be at 50% of the Loss Limit. When MAT is breached, the risk-taking unit must consult with ALCO for approval of a course of action moving forward.
- Product Limit – the nominal position exposure for certain specific financial instruments is established.

Stress Testing, which uses more severe rate/price volatility and/or holding period assumptions, (relative to those used for VaR) is applied to marked-to-market positions to arrive at “worst case” loss estimates. This supplements the VaR measure, in recognition of its limitations mentioned above.

A summary of the VaR position of the trading portfolios at December 31 is as follows:

		Group

4.3.1 Foreign Exchange Risk

Foreign exchange risk is the risk to earnings or capital arising from changes in foreign exchange rates. The net foreign exchange exposure, or the difference between foreign currency denominated assets and foreign currency denominated liabilities, is capped by current BSP regulations. Compliance with this ceiling by the Group and the respective foreign currency positions of its subsidiaries are reported to the BSP on a daily basis as required. Beyond this constraint, the Group manages its foreign exchange exposure by limiting it within the conservative levels justifiable from a return/risk perspective. In addition, the Group regularly calculates VaR for each currency position, which is incorporated in the foregoing market risk management discussion.

The breakdown of the financial resources and financial liabilities as to foreign and Philippine peso-denominated balances, after elimination of intercompany accounts or transactions, as of December 31 follows:

4.3.2 Interest Rate Risk

The interest rate risk inherent in the Group's financial statements arises from re-pricing mismatches between financial assets and financial liabilities. The Group follows a policy on managing its assets and liabilities so as to ensure that exposure to fluctuations in interest rates are kept within acceptable limits. ALCO meets at least on a weekly basis to set rates for various assets and liabilities and trading products. ALCO employs interest rate gap analysis to measure the interest rate sensitivity of those financial instruments.

The interest rate gap analyses of financial assets and financial liabilities as of end of the reporting period based on re-pricing maturities are shown on the succeeding pages. It should be noted that such interest rate gap analyses are based on the following key assumptions:

- Loans and time deposits are subject to re-pricing on their contractual maturity dates. Non-performing loans, however, are not re-priced;
- Debt securities at amortized cost are bucketed based on their re-pricing profile;
- Held-for-trading securities and derivatives are considered as non-rate sensitive; and,
- For financial assets and financial liabilities with no definite re-pricing schedule or maturity, slotting is based on the Group's empirical assumptions.

4.3.3 Equity Price Risk

The Group's exposure to price risk on equity securities held and classified in the statement of financial position as financial assets at FVPL or financial assets at FVOCI as of December 31, 2018 and 2017 is managed through diversification of portfolio and monitoring of changes in market prices. Diversification of the portfolio is done in accordance with the limits set by the Group.

Moreover, RCBC Capital and RSI estimate the potential loss and determine the market and position risk requirement on equity securities at FVPL in the computation of the market and position risk requirement for all equity positions.

RCAP uses the delta-normal approach as its VaR model to estimate the daily potential loss that can be incurred from equity securities held for trading. VaR is a key measure in the management of market price risk. VaR is defined as a statistical estimate of the maximum possible loss on a given position during a time horizon within a given confidence interval. RCAP uses a 99% confidence level and a minimum 260-day observation period in VaR calculation. In addition, RSI computes its market and position risk for all equity positions, if any, in conjunction with the Risk Based Capital Adequacy ratio required to be maintained. Market and position risk requirement is calculated using position risk factor multiplied by mark-to-market value security.

4.4 Credit Risk

Credit risk is the risk that the counterparty in a transaction may default, and arises from lending, trade finance, treasury, derivatives and other activities undertaken by the Group. The Group manages credit risk through a system of policies and authorities that govern the processes and practices of all credit-originating and borrowing relationship management units.

The Enterprise Risk Division of CRISMS assists senior management: (a) in establishing risk concentration limits at the portfolio level; and (b) in the continuous monitoring of the actual credit risk portfolio from the perspective of those limits and other risk management objectives. The Credit Management Group (CMG), on the other hand, is responsible for: (a) the development of credit policies relating to account management; (b) the financial evaluation and credit risk rating of borrowers; and, (c) asset quality review.

At the individual borrower level, exposure to credit risk is managed via adherence to a set of policies, the most notable features of which, in this context are: (a) credit approving authority, except as noted below, is not exercised by a single individual but rather, through a hierarchy of limits that is effectively exercised collectively; (b) business center managers have limited approval authority only for credit exposure related to deposit-taking operations in the form of bills purchase, acceptance of second endorsed checks and 1:1 loan accommodations; (c) an independent credit risk assessment by the CMG of large corporate and middle-market borrowers, summarized into a borrower risk rating, is provided as input to the credit decision-making process; and, (d) borrower credit analysis is performed at origination and at least annually thereafter or co-terminus with the renewal of the credit line. In addition, adverse economic and market conditions that may impact a certain borrower or a group of borrowers may trigger the Group to conduct a special credit review prior to expiry of credit line.

In 2018, CMG also started identifying homogenous target market and design Credit Programs that will accelerate credit processing of accounts without sacrificing underwriting quality, and, set up enhanced data framework that would deepen the Bank's ability to identify potential problem accounts earlier.

4.4.1 Concentrations of Credit Risk

Credit risk concentration in the context of banking generally denotes the risk arising from an uneven distribution of counterparties in credit or in any other business relationships, or from a concentration in business sectors or geographic regions which is capable of generating losses large enough to jeopardize an institution's solvency. The Group monitors concentrations of credit risk by sector.

An analysis of concentrations of credit risk of the loan portfolio at the end of the reporting period is shown in Note 11.1.

In the course of the Group's implementation of ICAAP (see Note 5.2), it adopts a quantification of credit risk concentration following frameworks prescribed by some of the more advanced European central banks as well as established concentration metrics. Using sector distribution as a tool, the Group performs a straightforward application of the Herfindahl-Hirshman Index (HHI) to determine the existence of credit risk concentration. The Group supplements this methodology with the use of the Comprehensive Concentration Index (CCI) to monitor and analyze name concentration.

The Group, however, recognizes the inherent limitations of the use of HHI and CCI to assess credit concentration risk. To augment this measure and to appropriately manage said risk, the Group performs an in-depth analysis of its large borrowing groups. To ensure the independence of this process, the review and analysis are done in the context of ROC meetings.

4.4.2 Credit Risk Assessment

The Group's credit risk assessment is performed based on the different segments of financial asset portfolio such as (a) corporate, which generally include corporate banking group loans, commercial and small-medium size segment loans, lease contract and finance receivables, and unquoted debt securities classified as loan (UDSCL), (b) retail, which include housing, auto, credit cards, and microfinance lending; and, (c) treasury, which covers credit exposures on debt securities under the Group's HTC portfolio and FVOCI. The Group also established credit risk assessment procedures for sales contract receivables and other risk assets including accounts receivables.

(a) Corporate Loans

Loans, regardless if the accounts have been fully paid, extended or renewed in subsequent period, are subjected to evaluation for possible losses. The Group's estimation of credit exposure for risk management purposes is complex and requires the use of models, as the exposure varies with changes in market conditions (or industry performance), expected cash flows, and the passage of time. The assessment of credit risk of a portfolio of assets requires further estimations as to the PDs occurring, of the associated loss ratios, and of default correlations between counterparties; accordingly, such credit risk is measured using PD, LGD, and EAD, for purposes of measuring ECL.

The Group uses its internal credit risk rating system (ICRRS) to determine any evidence of potential deterioration in the quality of an instrument that take into consideration both quantitative and qualitative criteria. The rating system classifies performing accounts from a scale of AAA indicating an extremely strong capacity of the counterparty to meet financial commitments down to ratings lower than CCC demonstrating weakness in the counterparty's economic and financial condition that could lead to payment default on financial commitments. Past due accounts, accounts identified for phase-out and those that exhibit the characteristics of classified loans shall be risk-rated following the guidelines on credit classification per BSP Manual of Regulations for Banks and under the BSP Circular No. 1011, i.e., Especially Mentioned, Substandard, Doubtful or Loss. These guidelines are used by the Group to assign the individually assessed loan or a group of loans within a particular portfolio segment to a specific stage category under the PFRS 9 loan impairment standards (i.e. Stage 1, 2, 3).

In assessing accounts subject to individual assessment, the Parent Company has established a materiality threshold of P15 for all exposures classified under Stage 3. Such threshold shall be regularly reviewed at the end of reporting period to ensure that it appropriately captures what the Parent Company considers as material items of loan for individual assessment. The provision for ECL for individually assessed exposures shall reflect consideration of the facts and circumstances that affect the repayment of each individual loan as of evaluation date.

The ICRRS is established by the Group in congruence with and with reference to the credit risk rating methodology used by Standard & Poor's (S&P) in measuring the creditworthiness of an individual borrower, whether the related borrowing is still performing or current in status. The risk ratings determined by the Group for its portfolio of loans and receivables at a given review date is updated to consider the possible shift in the economy or business environment or circumstances affecting the industry and the entity or borrower, in particular. Accordingly, a periodic assessment of credit quality may improve the borrower's rating or it could lead to one or more rating downgrades over time; hence, could lead to the transfer of credit exposure in different stages of impairment. The credit risk ratings in ICRRS are calibrated such that the risk of default increases exponentially at each higher risk rating (e.g., a difference in the PD between a risk rating of A and A- is lower than the difference in the PD between a B and B- risk rating).

In the process of applying the Group's ICRRS in determining the credit quality of loans and receivables, the Group analyzes the credit quality of the borrowers and counterparties through a set of criteria and rating scale classified into the following:

<u>Rating Scale</u>	<u>Rating Description/Criteria</u>
AAA	Extremely strong capacity to meet financial commitments
AA*	Very strong capacity to meet financial commitments
A*	Strong capacity to meet financial commitments, but somewhat susceptible to adverse economic conditions and changes in circumstances
BBB*	Adequate capacity to meet financial commitments, but more subject to adverse economic conditions

Rating Scale	Rating Description/Criteria
BB*	Less vulnerable in the near-term but faces major ongoing uncertainties to adverse business, financial and economic conditions
B*	More vulnerable to adverse business, financial and economic conditions but currently has the capacity to meet financial commitments
CCC and below*	Not at risk of loss at the moment and the borrower has the financial capacity to meet its obligations but its exposure to adverse business, financial or economic conditions has weakened it and, unless present trends are reversed, could eventually lead to losses.
Especially Mentioned	Has potential weaknesses that deserve management's close attention and if left uncorrected, these weaknesses may affect the repayment of the loan.
Substandard	Have well-defined weakness(es), that may jeopardize repayment/liquidation in full, either in respect of the business, cash flow or financial position, which may include adverse trends or developments that affect willingness or repayment ability of the borrower.
Doubtful	Loans and credit accommodations that exhibit more severe weaknesses than those classified as "Substandard", whose characteristics on the basis of currently known facts, conditions and values make collection or liquidation highly improbable.
Loss	Loans considered absolutely uncollectible or worthless

** Ratings from AA to CCC are modified by a plus (+) or minus (-) sign to show relative standing within the rating categories.*

As part of credit risk assessment documentation and reporting, the Group includes financial instruments rated as AAA to B- under the "Pass" classification, while instruments rated CCC+ and below are grouped under the Watchlisted classification. Generally, "Pass" classification include loans and other credit accommodations that do not have a greater-than-normal credit risk and do not possess the characteristics of classified loans. These are credits that have the apparent ability and willingness to satisfy their obligations in full and therefore, no loss in ultimate collection is anticipated. On the other hand, watchlisted counterparties are characterized by the following:

- those that belong to an unfavorable industry or has company-specific risk factors which represent a concern;
- the operating performance and financial strength may be marginal and it is uncertain if borrower can attract alternative course of finance;
- borrower finds it hard to cope with any significant economic downturn and a default in such a case is more than a possibility;
- borrower incurs net losses and has salient financial weaknesses, reflected on their financial statements, specifically in profitability.

Split classification/rating may apply for non-performing secured loans and other credit accommodations, depending on the recoverability and liquidity of the collateral. The secured portion may be classified as “substandard” or “doubtful”, as appropriate, while the unsecured portion shall be classified “loss” if there is no other source of payment other than the collateral.

In the case of syndicated loans, the Group shall maintain credit information on the borrower, and grade and make provision for its portion of the syndicated loan in accordance with its policy. The lead financial institution or bank shall provide participating financial institutions with the credit information on the borrower upon request by the participating financial institutions and inform the latter if the loan will be classified so as to achieve uniform classification of the syndicated loan.

(b) Retail Products

Credit Risk Management Division (CRMD) of RSB is, in turn, tasked to measure, control and manage credit risk on the consumer loans business of RSB through the performance of regular monitoring, reporting and recommendation of risk mitigation measures of the actual credit risk portfolio to the Credit Committee and Risk Committee, as well as accomplishment of the corresponding review and development of credit policies and guidelines to sustain asset quality.

For consumer loans, risk assessment is performed on an individual borrower through the use of a credit application scorecard for Housing, Auto and Personal Loans while for Corporate Salary Loans, rule-based credit criteria on company accreditation and borrower evaluation has been established. The credit application scorecard makes use of customer, loan and collateral characteristics which have been assigned weights based on their predictive power in determining the propensity of an account to default or maintain a satisfactory credit performance. Credit decisions are based on recommended score cut-offs.

Asset quality of RSB is monitored through a regular portfolio performance review including customer segmentation and loan concentration risk assessment to identify sources of risk and to determine risk mitigation on segments that drive delinquency or manifests triggers for default. Likewise, close monitoring and review of industry performance, economic changes and market conditions that may affect the consumer loans business is also taken into consideration to establish a holistic risk assessment process.

For the credit card portfolio of the Parent Company, credit risk assessment is performed through segmentation process to diversify the portfolio risk into different homogeneous populations or segments. Over-all account distribution is analyzed for three different snapshots with respect to month-on-month days past due to see consistency in the portfolio.

The groupings of financial instruments into a pool of shared credit quality are subject to the regular review by the Group’s CMD in order to ensure that credit exposures within a particular group remain appropriately homogenous.

(c) Debt Securities at Amortized Cost and at FVOCI

For debt securities, the Group adopts similar credit risk ratings published by reputable external rating agency (such as S&P). These ratings are continuously monitored and updated. The PD associated with each rating is determined based on realized default rates over the previous 12 months, as published by the rating agency.

4.4.3 Assessment of Significant Increase in Credit Risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group assesses the change in the risk of a default occurring over the remaining life of the financial instrument. In making this assessment, the Group assesses on a periodic basis both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information as appropriate. These may include macroeconomic conditions, economic sector and geographical region relevant to the counterparty or borrower and other factors that are counterparty-specific. As the Group holds various arrays of financial instruments, the extent of assessment may depend on the materiality of the financial instrument or the complexity of the portfolio being assessed.

The Group ECL model follows a three-stage impairment approach in determining the loss allowance to be recognized in the financial statements:

- (i)* Stage 1 – comprises of all credit exposures that are considered ‘performing’ and with no observed SICR since initial recognition. These include those financial instruments with low credit risk. For these financial instruments, the loss allowance is determined based on a 12-month ECL.
- (ii)* Stage 2 – comprises of all financial instruments assessed to have SICR since initial recognition based on the Group’s quantitative and qualitative criteria, though not yet deemed to be credit-impaired. Using the Group’s ICRR, Stage 2 includes credit exposures that are considered ‘under-performing’ in which risk ratings were downgraded by at least three notches and/or downgraded to CCC+ to Especially Mentioned. Stage 2 financial instruments may also include those facilities where the credit risk has improved and have been reclassified from Stage 3 subject to the Group’s observation period on the creditworthiness of the counterparty. A lifetime ECL is recognized for these financial instruments.
- (iii)* Stage 3 – comprises credit exposures which are assessed as ‘credit-impaired’, thus considered by the Group as ‘non-performing’, which is assessed consistently with the Group’s definition of default. Generally, this includes accounts classified as Substandard, Doubtful and Loss. The Group recognizes a lifetime ECL for all credit-impaired financial assets.

The Group considers low credit risk for listed debt security when its credit risk rating is equivalent to a globally understood definition of ‘investment grade’ (which should be from at least one major rating agency); other debt securities are considered to be low credit risk when they have a low risk of default and the issuer has a strong capacity to meet its contractual cash flow obligations in the near term.

Financial assets that are credit-impaired on initial recognition are classified as purchased or originated credit-impaired assets. ECL is only recognized or released to the extent that there is a subsequent change in the ECLs.

The criteria for determining whether credit risk has increased significantly vary by portfolio and include quantitative changes in probabilities of default and qualitative factors, including a backstop based on delinquency. The credit risk of a particular exposure is deemed to have increased significantly since initial recognition if, based on the Group's internal credit assessment, the borrower or counterparty is determined to have well-defined credit weaknesses. Under the Group's ICRRS, these are exposures rated at least Substandard. For exposures with no internal credit risk rating performed, if contractual payments are more than a specified days past due threshold, the credit risk is deemed to have increased significantly since initial recognition. Depending on the number of days past due which differ across the various retail products of the Group, a credit exposure may be transferred to Stage 2 or Stage 3. Days past due are determined by counting the number of days since the earliest elapsed due date in respect of which full payment has not been received. In subsequent reporting periods, if the credit risk of the financial instrument improves such that there is no longer a SICR since initial recognition, the Group shall revert to recognizing a 12-month ECL. As a general rule, an upgrade or transfer of credit exposure from Stage 3 to Stage 1 is allowed when there is sufficient evidence to support that full collection of principal and interest is probable, consistent with the Group's definition of curing period.

For portfolios in respect of which the Group has limited historical data, external benchmark information (e.g. Basel LGD) is used to supplement the internally available data. The portfolios for which external benchmark information represents a significant input into measurement of ECL include exposures to foreign borrowers and low default borrower segments.

4.4.4 Definition of Default

(a) Loans and receivables

The Group defines a loan instrument as in default, which is aligned with the definition of credit-impaired, when the borrower is more than 90 days past due on its contractual payments, except for the 30 days past due threshold for retail loans of RSB and one day past due for micro-finance loan portfolio of Rizal Microbank. As part of a qualitative assessment of whether a customer is in default, the Group also considers a variety of instances and factors that may indicate unlikelihood to pay which may include (a) significant financial difficulty of the issuer or borrower; (b) the restructuring of a loan by the Group, for economic or legal reasons relating to the borrower's financial difficulty, on terms that the Group would not consider otherwise; or (c) it becoming probable that the borrower will enter bankruptcy or other financial reorganization. When such events occur, the Group carefully considers whether the event should result in treating the customer as defaulted.

A loan that has been renegotiated due to a deterioration in the borrower's condition is usually considered to be credit-impaired unless there is evidence that the risk of not receiving contractual cash flows has reduced significantly and there are no other indicators of impairment.

An instrument is considered to be no longer in default or have cured when the borrower is able to repay the installments in arrears and the account no longer meets any of the default criteria for a consecutive period of 180 days within which the borrower shall make consecutive payments.

These criteria are consistent with the definition of default used for internal credit risk management purposes that is aligned with the default criteria used for regulatory capital purposes. Such definition is consistently applied in determining PD, LGD, and EAD for each loan portfolio segment and throughout the ECL calculations of the Group.

(b) Investments in debt securities

Investments in debt securities is assessed as credit-impaired and impairment losses are incurred if, and only if, there is objective evidence of impairment as a result of an event that occurred after the initial recognition of the security (a “loss event”) and that loss event has impact on the estimated future cash flows of the securities. Losses expected as a result of future events, shall also be considered in estimating the ECL. Objective evidence that the security is impaired includes observable data that comes to the attention of the holder of the security about the following loss events:

- significant financial difficulty of the issuer or obligor;
- breach of contract, such as a default or delinquency in interest or principal payments;
- the financial institution, for economic or legal reasons relating to the issuer’s financial difficulty, granting to the issuer a concession that the financial institution would not otherwise consider;
- it becoming probable that the issuer will enter bankruptcy or other financial reorganization;
- the disappearance of an active market for that security because of financial difficulties; or,
- observable data indicating that there is a measurable decrease in the estimated future cash flows from a portfolio of securities since the initial recognition of those assets, although the decrease cannot yet be identified with the individual securities in the portfolio, including adverse change in the payment status of issuers in the portfolio; or national or local economic conditions that correlate with defaults on the securities in the portfolio.

The disappearance of an active market because a financial institution’s held securities are no longer publicly traded is not evidence of impairment. A downgrade of an issuer’s credit rating is not, by itself, evidence of impairment, although it may be evidence of impairment when considered with other available information. A decline in the fair value of a security below its cost or amortized cost is not necessarily evidence of impairment (for example, a decline in fair value of an investment in debt security that results from an increase in the risk-free interest rate).

In making an assessment of whether an investment in sovereign debt is credit-impaired, the Group considers the following factors:

- the market’s assessment of creditworthiness as reflected in the bond yields;
- the rating agencies’ assessment of creditworthiness;
- the country’s ability to access the capital markets for new debt issuance;
- the probability of debt being restructured, resulting in holders suffering losses through voluntary or mandatory debt forgiveness; or,

- the internal support mechanism in place to provide the necessary support as 'lender of last resort' to that country, as well as the intention, reflected in public statements, of governments and agencies to use those mechanisms. This includes an assessment of the depth of those mechanisms and, irrespective of the political intent, whether there is the capacity to fulfill the required criteria.

4.4.5 Modifications of Financial Assets

In certain cases, the Group modifies the terms of the loans provided to the borrowers due to commercial renegotiations, or for distressed loans, with a view of maximizing recovery of the contractual amount of obligation that the Group is owed to. Restructuring policies and practices are based on indicators or criteria which, in the management's judgment, indicate that payment will most likely continue. Such policies are continuously reviewed and updated as necessary. Restructuring is most commonly applied to term or corporate loans.

The risk of default of such assets after modification is assessed at the reporting date and compared with the risk under the original terms at initial recognition, when the modification is not substantial and so does not result in derecognition of the original asset. The Group monitors the performance of the financial asset subsequent to its modification.

The Group may determine that the credit risk has significantly improved after restructuring (in accordance with the new terms for six consecutive months or more), so that the assets are moved from Stage 3 or Stage 2.

The Group continues to monitor if there is a subsequent SICR in relation to such modified assets through the use of specific models for modified assets.

4.4.6 Expected Credit Loss Measurement Inputs

Integral in the Group's established policies in measuring and calculating ECL on financial instrument is the use of appropriate model for each segment of financial asset that applies relevant inputs and assumptions, including forward-looking information as appropriate.

(a) Key Inputs and Assumptions in the Expected Credit Loss Model

The ECL is determined by projecting the PD, LGD and EAD for each future month and for each individual exposure or collective segment.

- (i) Probability of default (PD) represents an estimate of likelihood of a borrower defaulting on its financial obligation over a given time horizon, either over the next 12 months (12-month PD) or over the remaining lifetime (lifetime PD) of the obligation. PD is calculated based on statistical rating models, and assessed using rating tools tailored to the various categories of counterparties and exposures which considers both quantitative and qualitative factors. In determining PD, the Group performed segmentation of its credit exposures based on homogenous characteristics [including corporate loan and retail loan (including credit-card and microfinance)] and developed a systematic PD methodology for each portfolio. Generally, if a counterparty or exposure migrates between rating classes, this will lead to a change in the estimate of the associated PD.

- (ii) Loss given default (LGD) pertains to estimate of loss related to the amount that may not be recovered after the borrower defaults. The Group estimates LGD parameters based on historical recovery rates of claims against defaulted counterparties, which takes into consideration the realization of any collateral that is integral to the financial asset. For secured credit exposure, the determination of LGD is dependent on the Group's collateral data which are available at the origination of the instrument which takes into account the amount and timing of the cash inflows (actual recovery) and outflows (actual expenses) and on the time value of money. Recoveries are calculated on a discounted cash flows basis using the effective interest rate as the discounting factor.
- (iii) Exposure at default (EAD) represents the gross carrying amount of the exposure in the event of default which include the amortized cost amount of an instrument and any accrued interest receivable. For lending commitments, the EAD includes the amount of drawn and undrawn irrevocable loan commitments under the contract, which are estimated based on historical observations and forward-looking forecast. For some financial assets (e.g., credit card lending), EAD is determined by modelling the range of possible exposure outcomes at various points in time using scenario and statistical technique which considers the ability of cardholders to increase its exposure from the time of ECL calculation to the time of default (i.e., credit conversion factor).

These three components are multiplied together and adjusted for the likelihood of survival (i.e., the exposure has not been prepaid or defaulted in an earlier month). This effectively calculates an ECL for each future month, which is then discounted back to and summed at the end of the reporting period. The discount rate used in the ECL calculation is the original effective interest rate or an approximation thereof.

The lifetime PD is developed by applying a maturity profile to the current 12-month PD. The maturity profile looks at how defaults develop on a portfolio from the point of initial recognition throughout the life of the instrument. The maturity profile is based on historical observed data and is assumed to be the same across all assets within a portfolio and credit grade band. Such profile is supported by a historical analysis (i.e., an observation period of five years) which uses, among others the number of rated accounts and ratings of bad accounts at the time of default. Bad accounts are defaulted accounts classified into three classes such as the non-performing loans, accounts classified as Substandard, Doubtful or Loss, and real past due accounts.

In a risk rating model applied by the Group, a better rating or score denotes less probability of default than those of a worse rating. Identifying the counterparty default is done through a computation of the portfolio's observed default frequency (ODF). In cases when ODF method and the data to be used is limited, the Group may also employ the implied probability of default frequency (IPD) and the application of overlay factors in the PD. Using the historical defaults under the Group's ICRR system based on S&P scale, ODF is calculated per rating class using the cumulative five-year data as the basis for grouping. This represents the actual numbers of bad borrower cases that have occurred during the five-year timeframe. On the other hand, unrated account are distributed to existing S&P rating classes using normal distribution assumption. In cases when there is zero-percent ODF in any of the rating class, these are grouped together with the next rating class with at least one bad borrower using cumulative five-year data. If there is no rating class after certain rating, grouping shall be decided by management.

The 12-month and lifetime EADs are determined based on the expected payment profile, which varies by product type.

For loans with periodic amortization and one-time full payment at end of the term, EAD is based on the contractual repayments owed by the borrower over a 12-month or lifetime basis. This will also be adjusted for any expected overpayments made by a borrower. Early repayment or refinancing assumptions are also incorporated into the calculation.

For revolving products (such as credit cards and credit line facilities), EAD is predicted by taking current drawn balance and adding a “credit conversion factor” which allows for the expected drawdown of the remaining limit by the time of default. These assumptions vary by product type and current limit utilization band, based on analysis of the Group’s recent default data.

The 12-month and lifetime LGDs are determined based on the factors which impact the recoveries made post default, and may vary by product type. For secured products, this is primarily based on collateral type and projected collateral values, historical discounts to market or book values due to forced sales, time to repossession and recovery costs observed. For unsecured products, LGD is typically set at product level due to the limited differentiation in recoveries achieved across different borrowers. The LGD is influenced by collection strategies.

The determination of the 12-month and lifetime PD, LGD, and EAD includes the overlay of forward-looking economic information discussed below.

(b) Overlay of Forward-looking Information

The Group incorporates forward-looking information (FLI) in its assessment of SICR and calculation of ECL. The Group has performed historical analysis and has identified the key macroeconomic variables (MEVs) impacting credit risk associated with its borrowers and/or counterparties and the ECL for relevant portfolio of debt instruments.

The MEVs and their associated impact on the PD, LGD and EAD vary by financial instrument. To project the MEVs for the full remaining life of each financial instrument, a mean reversion approach has been used, which means that MEVs tend to either a long run average rate (e.g. for unemployment) or a long run average growth rate (e.g. GDP) over a period of two to five years. The impact of these economic variables on the PD, LGD and EAD has been determined by performing statistical regression analysis to understand the impact changes in these variables have had historically on default rates and on the components of LGD and EAD.

The MEVs considered by the Group includes economic data and forecasts published by government bodies (e.g., BSP and Philippine Statistics Authority), international organizations (e.g., International Monetary Fund), and certain reputable private and academic organizations involved in forecasting. Accordingly, the Group has identified key drivers for credit risk for its corporate loans portfolio, which include among others, Gross Domestic Product (GDP) growth rate, inflation rate, interest rate (i.e., based on 91-day T-bill Yield), and foreign currency exchange rates. On the other hand, the key drivers for the Group’s retail and consumer loans portfolio include unemployment rate, GDP growth rate, consumer spending growth rate, and inflation rate. Using an analysis of historical data, the Group has estimated relationships between MEVs and credit risk and credit losses.

As with any economic forecasts, the projections and likelihoods of occurrence are subject to a high degree of inherent uncertainty, and therefore, the actual outcomes may be significantly different to those projections. The Group considers these forecasts to represent its best estimate of the possible outcomes.

Management has also considered other FLI not incorporated within the above economic scenarios, such as any regulatory, legislative, or political changes, but are not deemed to have a significant impact on the calculation of ECL. Management reviews and monitors the appropriateness of FLIs on a regular basis and additional factors may be incorporated from time to time as deemed appropriate.

4.4.7 Credit Risk Exposures

The table below sets out the gross carrying amounts of the exposures to credit risk on financial assets measured at amortized cost and debt securities at FVOCI as of December 31, 2018. Loans and receivables portfolio was summarized based on financial assets segmentation for ECL assessment purposes.

	Group		Parent Company	
	2018	2017	2018	2017
Corporate loans	P 280,953	P 260,174	P 271,212	P 250,784
Retail products				
Housing loans	48,661	42,403	-	-
Credit cards	21,550	16,405	21,550	16,405
Other retail products:				
Auto loans	40,968	36,590	-	-
Microfinance	1,219	975	-	-
Other receivables from customers	5,718	5,651	3,501	3,506
Total receivables from customers	399,069	362,198	296,263	270,695
Cash equivalents	96,391	88,488	72,789	73,027
Debt securities				
At amortized cost	89,027	60,068	78,621	48,141
At FVOCI	15,526	-	12,021	-
	P 600,013	P 510,754	P 459,694	P 391,863

Other receivables from customers include sales contract receivables, accrued interest on debt securities, and other receivables.

Cash equivalents includes loans and advances to banks (i.e., Due from BSP, Due from Other Banks, Loans under Reverse Repurchase Agreements, and Interbank Loans Receivables), see Note 9. These are held with central bank and financial institutions counterparties that are reputable and with low credit risk.

The information about the credit exposures on the above financial assets as well as on loan commitments by stages of impairment as of December 31, 2018, shown at their gross carrying amounts with the corresponding allowance for ECL are shown in the succeeding pages. All instruments, which were not assessed by the Group for ECL based on individual credit risk rating were evaluated on a collective basis, applying applicable PD and LGD based on the segment of instrument.

The maximum exposure to credit risks for other financial assets including loan commitments is limited to their carrying values as of December 31, 2018 and 2017.

c) *Investments in debt securities at amortized cost and at FVOCI*

In 2018, the Group and Parent Company has recognized ECL amounting to P45 and P15, respectively, for investments in debt securities at amortized cost, which are all in Stage 1, resulting in allowance for ECL as of December 31, 2018 amounting to P135. No ECL was recognized for debt securities at FVOCI acquired during the year.

d) *Loan commitments*

Allowance for ECL recognized both by the Group and Parent Company related to undrawn loan commitments as of December 31, 2018 amounted to P94, presented as ECL provisions on loan commitments under Other Liabilities account (see Note 22). ECL recognized in profit or loss in 2018 amounted to recovery of P13.

The information on how the significant changes in the gross carrying amount of the financial instruments contributed to the changes in the amount of allowance for ECL are presented in Note 4.4.9.

4.4.9 Significant Changes in Gross Carrying Amount Affecting Allowance for ECL

The tables below provides information how the significant changes in the gross carrying amount of financial instruments in 2018 contributed to the changes in the allowance for ECL.

a) Loans and receivables - Group

Corporate Loans					
	Stage 1	Stage 2	Stage 3	Credit-impaired	Total

The Group's receivables arising from salary loans are generally fully recoverable as those are collected through salary deductions, except for those receivables from resigned employees which were provided with full ECL allowance.

Allowance for ECL for other receivables increased by P411 and P296 for the Group and the Parent Company, respectively, in 2018 from the allowance for ECL recognized at the beginning of the year amounting to P456 and P204, for the Group and the Parent Company, respectively. At the Group level, the significant transaction that mainly contributed to this change pertains to the P316 increase in accounts receivables recognized by a subsidiary which were classified as Stage 3 as of December 31, 2018. On the other hand, increase in the allowance for ECL of the Parent Company is mainly attributed to a certain defaulted other receivable amounting to P120 classified as Stage 3.

c) *Investment in debt securities at amortized cost and at FVOCI*

	Group		Parent Company

4.4.11 Collateral Held as Security and Other Credit Enhancements

The Group holds collateral against loans and advances to customers in the form of hold-out deposits, real estate mortgage, standby letters of credit or bank guaranty, government guaranty, chattel mortgage, assignment of receivables, pledge of equity securities, personal and corporate guaranty and other forms of security. Estimates of fair value are based on the value of collateral assessed at the time of borrowing and are generally updated annually.

Generally, collateral is not held over loans and advances to other banks, except when securities are held as part of reverse repurchase and securities borrowing arrangements. Collateral is not usually held against trading and investment securities, and no such collateral was held as of December 31, 2018 and 2017.

The estimated fair value of collateral and other security enhancements held against the loan portfolio as of December 31, 2018 are presented below.

		Group			
		Stage 1	Stage 2	Stage 3	Total
Real properties	P	128,714	P 19,441	P 5,656	P 153,811
Chattel		51,450	21,290	4,286	77,026
Hold-out deposits		9,175	21	620	9,816
Equity securities		6,437	-	-	6,437

Others		<u>28,017</u>		<u>25,105</u>
	P	<u>266,502</u>	P	<u>166,503</u>

The Group and Parent Company has recognized certain properties arising from foreclosures in settlement of loan account amounting to P672 and P202, respectively, in 2018 and P2,360 and P19, respectively, in 2017 (see Note 14.1).

The Group's and Parent Company's manner of disposing the collateral for impaired loans and receivables is normally through sale of these assets after foreclosure proceedings have taken place. The Group and Parent Company does not generally use the non-cash collateral for its own operations.

There were no changes in the Group and Parent Company's collateral policies in 2018 and 2017.

4.4.12 Write-offs

The Group writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded that there is no reasonable expectation of recovery of the financial asset. Indicators that there is no reasonable expectation of recovery include: cessation of enforcement activity; and, where the Group's recovery method is through foreclosure of collateral and the value of the collateral is less than the outstanding contractual amounts of the financial assets to be written-off.

4.4.13 Credit Risk Stress Test

To enhance the assessment of credit risk, the Group adopted a credit risk stress testing framework using break-even sales and cash flow debt service to determine a borrower's vulnerability and ultimately impact to the Group's capital adequacy. The Parent Company adopts a portfolio credit risk testing framework that takes into consideration the causal relationships among industry sectors.

4.5 Operational Risk

Operational risks are risks arising from the potential inadequate information systems and systems, operations or transactional problems (relating to service or product delivery), breaches in internal controls, fraud, or unforeseen catastrophes that may result in unexpected loss. Operational risks include the risk of loss arising from various types of human or technical error, settlement or payments failures, business interruption, administrative and legal risks, and the risk arising from systems not performing adequately.

The Operational Risk Management Division (ORMD) assists management in meeting its responsibility to understand and manage operational risk exposures and to ensure consistent application of operational risk management tools across the Group.

The ORMD applies a number of techniques to efficiently manage operational risks. Among these are as follows:

- Each major business line has an embedded designated operational risk officer who acts as a point person for the implementation of various operational risk tools. The operational risk officers attend annual risk briefings conducted by the ORMD to keep them up-to-date with different operational risk issues, challenges and initiatives;
- With ORMD's bottom up self-assessment process, which is conducted at least annually, areas with high risk potential are highlighted and reported, and control measures are identified. The result of said self-assessment exercise also serves as one of the inputs in identifying specific key risk indicators (KRIs);
- KRIs are used to monitor the operational risk profile of the Group and of each business unit, and alert management of impending problems in a timely fashion;
- Internal loss information is collected, reported, and utilized to model operational risk; and,
- The ORMD reviews product and operating manuals, policies, procedures and circulars, thus allowing the embedding of desired operational risk management practices in all business units.

Operational Risk Management, as it relates to capital adequacy, is currently under Basic Indicator Approach (see Note 5.2).

The Group has also developed a Business Continuity Plan (BCP) based on several crisis severity levels which is tested at least annually and updated for any major changes in systems and procedures. Central to the Group's BCP is a disaster recovery plan to address the continued functioning of systems, recovery of critical data, and contingency processing requirements in the event of a disaster.

4.5.1 Reputation Risk

Reputation risk is the risk to earnings or capital arising from negative public opinion. This affects the Group's ability to establish new relationships or services, or to continue servicing existing relationships. This risk can expose the Group to litigation, financial loss, or damage to its reputation. Reputation risk arises whenever technology-based banking products, services, delivery channels, or processes may generate adverse public opinion such that it seriously affects the Group's earnings or impairs its capital. This risk is present in activities such as asset management and regulatory compliance.

The Group adopted a reputation risk monitoring and reporting framework to manage public perception. Central to the said framework is the creation of the RCBC Marketing Council chaired by the head of the Parent Company's Chief Marketing Officer.

4.5.2 Legal Risk and Regulatory Risk Management

Changes in laws and regulations and fiscal policies could adversely affect the Group's operations and financial reporting. In addition, the Group faces legal risks in enforcing its rights under its loan agreements, such as foreclosing of collateral. Legal risk is higher in new areas of business where the law remains untested by the courts. The Group uses a legal review process as the primary control mechanism for legal risk. Such a legal review aims to verify and validate the existence, genuineness and due execution of legal documents, and verify the capacity and authority of counterparties and customers to enter into transactions. In addition, the Group seeks to minimize its legal risk by using stringent legal documentation, imposing certain requirements designed to ensure that transactions are properly authorized, and consulting internal and external legal advisors.

Regulatory risk refers to the potential for the Group to suffer financial loss due to changes in the laws or monetary, tax or other governmental regulations of the country. The Group's Compliance Program, the design and implementation of which is overseen and coordinated by the Compliance Officer, is the primary control process for regulatory risk issues. The Compliance Office is committed to safeguard the integrity of the Group by maintaining a high level of regulatory compliance. It is responsible for communicating and disseminating new rules and regulations to all units, assessing and addressing identified compliance issues, performing periodic compliance testing on branches and head office units, and reporting compliance findings to the Audit and Compliance Committee and the BOD.

4.6 Anti-Money Laundering Controls

The AMLA or RA No. 9160 was passed in September 2001. It was subsequently amended by RA No. 9194, RA No. 10167, and RA No. 10365 in March 2003, June 2012 and February 2013, respectively. Together with the Terrorism Financing Prevention and Suppression Act (CFT) which was passed in June 2012 by virtue of RA No. 10168, these laws provide the regulatory framework for the Philippine Anti-Money Laundering and Terrorist Financing Prevention regulations.

Under the AMLA, as amended, the Group is required to submit Covered Transaction Reports (CTRs). CTRs involve single transactions in cash or other equivalent monetary instruments in excess of P0.5 within one banking day. The Group is also required to submit STRs to the AMLC in the event that there are reasonable grounds to believe that any amounts processed are the proceeds of money laundering or terrorist financing activities.

The AMLA requires the Group to safe keep, as long as the account exists, all the Know Your Customer (KYC) documents involving its clients, including official documents that establish and record their true and full identity. In addition, transactional documents are required to be maintained and stored for five years from the date of the transaction. In cases involving closed accounts, the KYC documents must be retained for five years after their closure. Meanwhile, all records of accounts with court cases must be preserved until resolved with finality.

On January 27, 2011, BSP Circular No. 706 (the Circular) was implemented superseding prior rules and regulations on AMLA. The Circular requires the Group to adopt a comprehensive and risk-based Money Laundering and Terrorist Financing Prevention Program (MLPP) designed according to the covered institution's corporate structure and risk profile. In compliance with the risk-based approach mandated by the Circular, the Group profiles its clients based on their level of risk, specifically, Low, Normal, or High. These risk levels have their corresponding level of due diligence, specifically, Reduced, Average or Enhanced. BSP Circular No. 706 was later amended by BSP Circular No. 950.

The Group's MLPP is revised annually to ensure that its KYC policies and guidelines are updated. Under the guidelines, each business unit is required to validate the true identity of a customer based on official or other reliable identifying documents or records prior to account opening. Decisions to enter into a business relationship with a high risk customer requires senior management approval, and in some cases such as a politically exposed person or a private individual holding a prominent position, a Group Head's approval is necessary.

The Group's Chief Compliance Officer, through the Anti-Money Laundering Division, monitors AML/CFT compliance by conducting regular compliance testing of the head office and business units. Results of its AML/CFT activities and compliance monitoring are regularly reported to the AMLCom, Senior Management Committee and the BOD to ensure that all AML/CFT matters are appropriately escalated.

In 2016, the Group instituted reforms aimed to reinforce its AML/CFT controls. The Group significantly lowered the thresholds for remittances, required more posting reviews during the day, and strengthened the process for escalation, fraud and unusual transactions. In addition, the Group has embarked on a re-engineering of its settlements and business center operations, and the consolidation and strengthening of its fraud management framework.

An essential aspect in the prevention of money laundering and terrorist financing is the training of Group's personnel. In the latter part of 2016 to the first quarter of 2017, the Group conducted a one-time bank-wide AML Certification training for all its employees with the aid of an external AML expert. Annual AML trainings, classroom and e-learning, are key features of the Group's regular training program.

In addition to the Group's existing transaction monitoring system, the Group has also subscribed to an international watchlist database in 2017 to further strengthen its screening capabilities for client on-boarding and cross-border transactions.

The Group continuously improved controls over Money Laundering risks and had implemented the necessary enhancements of the on-boarding procedures, risk profiling model, transaction processing and monitoring. Corresponding trainings were provided to equip personnel with the necessary skills to perform the enhanced procedures. On July 31, 2017, the AML Board Committee was created to meet on a monthly basis and provide oversight of AML related activities of the Bank.

5. CAPITAL MANAGEMENT

5.1 Regulatory Capital

The Group's lead regulator, the BSP, sets and monitors the capital requirements of the Group.

In implementing the current capital requirements, the BSP requires the Group to maintain a prescribed ratio of qualifying regulatory capital to total risk-weighted assets including market risk and operational risk computed based on BSP-prescribed formula provided under its circulars.

On January 15, 2013, the BSP issued Circular No. 781, *Basel III Implementing Guidelines on Minimum Capital Requirements*, which provides the implementing guidelines on the revised risk-based capital adequacy framework particularly on the minimum capital and disclosure requirements for universal banks and commercial banks, as well as their subsidiary banks and quasi-banks, in accordance with the Basel III standards. Circular No. 781 is effective on January 1, 2014.

The BSP has adopted the Basel III risk-based capital adequacy framework effective January 1, 2014, which requires the Group to maintain at all times the following:

- (a) Common Equity Tier 1 (CET1) of at least 6.0% of risk weighted assets;
- (b) Tier 1 Capital of at least 7.5% of risk-weighted assets;
- (c) Qualifying Capital (Tier 1 plus Tier 2 Capital) of at least 10.0% of risk-weighted assets; and,
- (d) Capital Conservation Buffer of 2.5% of risk weighted assets, comprised of CET1 Capital.

Under the relevant provisions of the current BSP regulations, the required minimum capitalization for the Parent Company, RSB, Rizal Microbank, RCBC Capital and RCBC LFC is P20,000, P2,000, P400, P300 and P300, respectively.

In computing for the capital adequacy ratio (CAR), the regulatory qualifying capital is analyzed into two tiers which are: (i) Tier 1 Capital comprised of CET1 and Additional Tier 1 (AT1) capital, and, (ii) Tier 2 Capital, defined as follows and are subject to deductions as defined in relevant regulations:

- (a) Common Equity Tier 1 Capital includes the following:
 - (i) paid-up common stock;
 - (ii) common stock dividends distributable;
 - (iii) additional paid-in capital;
 - (iv) deposit for common stock subscription;
 - (v) retained earnings;
 - (vi) undivided profits;
 - (vii) other comprehensive income from net unrealized gains or losses on financial assets at FVOCI and cumulative foreign currency translation; and,
 - (viii) minority interest in subsidiary banks which are less than wholly-owned, subject to regulatory conditions.

(b) AT1 Capital includes:

- (i) instruments that do not qualify as CET1, but meet the criteria set out in Annex B of BSP Circular 781;
- (ii) financial liabilities meeting loss absorbency requirements set out in Annex E of BSP Circular 781;
- (iii) financial liabilities bearing loss absorbency features at point of non-viability as set out in Annex F of BSP Circular 781;
- (iv) additional paid-in capital resulting from issuance of AT1 capital;
- (v) deposit for subscription to AT1 instruments; and,
- (vi) minority interest in subsidiary banks which are less than wholly-owned, subject to regulatory conditions.

(c) Tier 2 Capital includes:

- (i) instruments issued that are not qualified as Tier 1 capital but meet the criteria set forth in Annex C of BSP Circular 781;
- (ii) financial liabilities bearing loss absorbency features at point of non-viability as set out in Annex F of BSP Circular 781;
- (iii) deposit for subscription of Tier 2 capital;
- (iv) appraisal increment reserve on bank premises, as authorized by the Monetary Board (MB);
- (v) general loan loss provisions; and,
- (vi) minority interest in subsidiary banks that are less than wholly-owned, subject to regulatory conditions.

In the calculation of Risk-based Capital Adequacy Ratio, the total Qualifying Capital is expressed as a percentage of Total Risk Weighted Assets based on book exposures, where Risk Weighted Assets is composed of Credit Risk, Market Risk and Operational Risk, net of specific provisions and exposures covered by credit risk mitigation (CRM).

Banking book exposures shall be risk-weighted based on third party credit assessment of the individual exposure given by eligible external credit institutions and the corresponding external credit assessment are mapped with the corresponding risk weights following the Standardized Credit Risk Weights table as provided under BSP Circular 538.

The Group's and Parent Company's regulatory capital position based on the Basel III risk-based capital adequacy framework as of December 31, 2018 and 2017 follows:

	<u>Group</u>	<u>Parent Company</u>
2018:		
Tier 1 Capital		
CET 1	P 67,539	P 53,512
AT1	<u>3</u>	<u>3</u>
	67,542	53,515
Tier 2 Capital	<u>13,871</u>	<u>13,173</u>
Total Qualifying Capital	<u>P 81,413</u>	<u>P 66,688</u>
Total Risk – Weighted Assets	<u>P 504,657</u>	<u>P 404,136</u>
Capital ratios:		
Total qualifying capital expressed as a percentage of total risk-weighted assets	16.13%	16.50%
Tier 1 Capital Ratio	13.38%	13.24%
Total CET 1 Ratio	13.38%	13.24%
2017:		
Tier 1 Capital		
CET 1	P 54,326	P 40,873
AT1	<u>3</u>	<u>3</u>
	54,329	40,876
Tier 2 Capital	<u>13,115</u>	<u>12,456</u>
Total Qualifying Capital	<u>P 67,444</u>	<u>P 53,332</u>
Total Risk – Weighted Assets	<u>P 436,269</u>	<u>P 347,932</u>
Capital ratios:		
Total qualifying capital expressed as a percentage of total risk weighted assets	15.46%	15.33%
Tier 1 Capital Ratio	12.45%	11.75%
Total CET 1 Ratio	12.45%	11.75%

The foregoing capital ratios comply with the related BSP prescribed ratios.

5.2 Internal Capital Adequacy Assessment and Pillar 2 Risk-Weighted Assets

In January 2009, the BSP issued Circular No. 639 on the ICAAP and Supervisory Review Process covering universal and commercial banks on a group-wide basis. As a supplement to BSP Circular No. 538 on the Risk-Based Capital Adequacy Framework, ICAAP sets out the following principles:

- (a) Banks must have a process for assessing capital adequacy relative to their risk profile, operating environment, and strategic/business plans;
- (b) The Bank's ICAAP is the responsibility of the BOD, must be properly documented and approved and with policies and methodologies integrated into banking operations;
- (c) The Bank's ICAAP should address other material risks – Pillar 2 risks – in addition to those covered by Pillar 1, with risk measurement methodologies linked to the assessment of corresponding capital requirement both on a business-as-usual (BAU) and stressed scenario;
- (d) The minimum CAR prescribed by the BSP after accounting for Pillar 1 and other risks is retained at 10%; and,
- (e) The Bank's ICAAP document must be submitted to the BSP every January 31 of each year, beginning 2011.

The Group submitted its first ICAAP trial document in January 2009. Subsequent revisions to the trial document were made, and likewise submitted in February 2010 and May 2010 following regulatory review and the Group's own process enhancements. Complementing the ICAAP document submissions were dialogues between the BSP and the Group's representatives, the second of which transpired last November 2010 between a BSP panel chaired by the Deputy Governor for Supervision and Examination, and the members of the Parent Company's EXCOM. The Group submitted its final ICAAP document within the deadline set by the BSP. Henceforth up to 2014, the annual submission of an ICAAP document is due every January 31st and every March 31st starting in 2015, as prescribed by the BSP.

The Group identified the following Pillar 2 risks as material to its operations, and consequently set out methodologies to quantify the level of capital that it must hold.

- (a) *Credit Risk Concentration* – The Group has so far limited its analysis to credit risk concentration arising from the uneven sector distribution of the Group's credit exposures. Aside from using a simplified application of the HHI, concentration is estimated using the Comprehensive Concentration Index (CCI). The capital charge is estimated by calculating the change in the Economic Capital (EC) requirement of the credit portfolio as an effect of credit deterioration in the largest industry exposure.
- (b) *Interest Rate Risk in the Banking Book (IRRBB)* – It is the current and prospective negative impact on earnings and capital arising from interest rate shifts. The Group estimates interest rate risk in the banking book as its NII-at-risk, and accordingly deducts the same from regulatory qualifying capital. Stressed IRRBB is calculated by applying the highest observed market volatilities over a determined timeframe.
- (c) *Liquidity Risk* – The Group estimates its liquidity risk under BAU scenario using standard gap analysis. Stressed liquidity risk on the other hand assumes a repeat of a historical liquidity stress, and estimates the impact if the Group were to partially defend its deposits and partially pay-off by drawing from its reserve of liquid assets.

- (d) *Information Technology Risk* – It is the current and prospective negative impact to earnings arising from failure of IT systems and realization of cyber security threats. The Group treats this risk as forming part of Operational Risk.
- (e) *Compliance Risk* – It is the current and prospective negative impact on earnings and capital arising from violation of laws, regulations, ethical standards, and the like. For Business-as-usual scenario, the Group estimates compliance risk charge from historical fines and penalties as the worst-case loss determined via a frequency-severity analysis of each penalty type. The resulting compliance risk charge calculation is likewise directly deducted from earnings.
- (f) *Strategic Business Risk* – It is the current and prospective negative impact on earnings and capital arising from adverse business decisions, improper implementation, and failure to respond to industry changes. The Group treats strategic business risk as a catch-all risk, and expresses its estimate as a cap on additional risk-weighted assets given other risks and the desired level of capital adequacy. The Group maintains that the assessment of strategic risk is embedded in the budget of the Group. Its capital impact therefore on a business-as-usual case is already expressed in the amount of risk projected to be taken on in the forecast years. However, the Group does recognize the need to set up processes that would enable to put a number to the risk incurred by going into specific strategies.
- (g) *Reputation Risk* – From the adoption of a theoretical measure, the Group amended its approach to reputation risk in 2011 by adopting instead a reputation risk monitoring and reporting process, run primarily by its Public Relations Committee. The measurement of reputation risk under stress is folded into the Group’s assessment of stressed liquidity risk.

6. CATEGORIES AND OFFSETTING OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES

6.1 Carrying Amounts and Fair Values by Category

The following table summarizes the carrying amounts and corresponding fair values of financial assets and financial liabilities presented in the statements of financial position.

	Group			
	2018		2017	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial Assets				
At amortized cost:

	<u>P 426,946</u>	<u>P 430,144</u>	<u>P 373,455</u>	<u>P 375,307</u>

Except for investment securities at amortized cost, bonds payable and subordinated debt with fair value disclosed different from their carrying amounts, management considers that the carrying amounts of other financial assets and financial liabilities presented above which are measured at amortized cost, approximate the fair values either because those instruments are short-term in nature or the effect of discounting for those with maturities of more than one year is not material. The fair value information disclosed for the Group's and Parent Company's investment securities at amortized cost and other financial assets and liabilities measured at fair value on a recurring basis are determined based on the procedures and methodologies discussed in Note 7.2.

6.2 Offsetting Financial Assets and Financial Liabilities

The following financial assets presented in the statements of financial position at gross amounts are covered by enforceable master netting arrangements and similar arrangements:

		Group							
	Notes		Gross amounts recognized in the statements of financial position		Related amounts not set off in the statements of financial position				Net amount
					Financial instruments		Collateral received

	Deposit liabilities	17	P	288,667	(P	14,380)	P -	P 274,287
	Bills payable	18		36,600	(	7,437)	-	29,163
	Other liabilities – Derivative financial liabilities	22		483	-	(	23)	460

For financial assets and financial liabilities subject to enforceable master netting agreements or similar arrangements above, each agreement between the Group and its counterparties allows for net settlement of the relevant financial assets and liabilities when both elect to settle on a net basis. In the absence of such an election, financial assets and liabilities will be settled on a gross basis. However, each party to the master netting agreement or similar agreement will have the option to settle all such amounts on a net basis in the event of default of the other party.

For purposes of presenting the above information, the related amounts not set off in the statements of financial position pertain to: (a) hold-out deposits and equity securities which serve as the Group's collateral enhancement for certain loans and receivables; (b) collateralized bills payable under sale and repurchase agreements; and, (c) margin deposits which serve as security for outstanding financial market transactions and other liabilities. The financial instruments that can be set off are only disclosed to the extent of the amounts of the Group's obligations to counterparties.

7. FAIR VALUE MEASUREMENT AND DISCLOSURES

7.1 *Fair Value Hierarchy*

In accordance with PFRS 13, *Fair Value Measurement*, the fair value of financial assets and financial liabilities and non-financial assets which are measured at fair value on a recurring or non-recurring basis and those assets and liabilities not measured at fair value but for which fair value is disclosed in accordance with other relevant PFRS, are categorized into three levels based on the significance of inputs used to measure the fair value.

The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that an entity can access at the measurement date;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and,
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level within which the asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

For purposes of determining the market value at Level 1, a market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

For investments which do not have quoted market price, the fair value is determined by using generally acceptable pricing models and valuation techniques or by reference to the current market value of another instrument which is substantially the same after taking into account the related credit risk of counterparties, or is calculated based on the expected cash flows of the underlying net asset base of the instrument.

When the Group uses valuation technique, it maximizes the use of observable market data where it is available and rely as little as possible on entity specific estimates. However, areas such as credit risk (both own and counterparty), volatilities and correlations require management to make estimates. If all significant inputs required to determine the fair value of an instrument are observable, the instrument is included in Level 2. Otherwise, it is included in Level 3. Changes in assumptions could also affect the reported fair value of the financial instruments. The Group uses judgment to select a variety of valuation techniques and to make assumptions that are mainly based on market conditions existing at the end of each reporting period.

7.2 Financial Instruments Measured at Fair Value

The table below shows the fair value hierarchy of the Group's classes of financial assets and financial liabilities measured at fair value in the statements of financial position on a recurring basis as of December 31, 2018 and 2017.

		Group			
		Level 1	Level 2	Level 3	Total

Derivative liabilities	P	-	483	-	483

Described below are the information about how the fair values of the Group's classes of financial assets and financial liabilities were determined.

(a) Government and Corporate Debt Securities

The fair value of the Group's government and corporate debt securities are categorized within Level 1 of the fair value hierarchy.

In 2018, fair values of peso-denominated government debt securities issued by the Philippine government, are determined based on the reference price per Bloomberg which used Bloomberg Valuation Service (BVAL). These BVAL reference rates are computed based on the weighted price derived using an approach based on a combined sequence of proprietary BVAL algorithms of direct observations or observed comparables. In 2017, fair value is determined to be the reference price per PDEx which had been based on price quoted or actually dealt in an active market. For other quoted debt securities, fair value is determined to be the current mid-price, which is computed as the average of ask and bid prices as appearing on Bloomberg.

(b) *Equity Securities*

The fair values of equity securities classified as financial assets at FVPL and FVOCI as of December 31, 2018 and 2017 were valued based on their market prices quoted in the PSE at the end of each reporting period; hence, categorized within Level 1.

Level 2 category includes the Group's investments in proprietary club shares as their prices are not derived from a market considered as active due to lack of trading activities among market participants at the end of each reporting period.

For equity securities which are not traded in an active market and with fair value categorized within Level 3, their fair value is determined through valuation techniques such as market-based approach (price-to-book value method) using current market values of comparable listed entities, discounted cash flow method, net asset value method, or dividend discounted model.

The price-to-book value method use to value a certain equity security of the Parent Company uses the price-to-book ratio of comparable listed entities as multiple in determining the fair value adjusted by a certain valuation discount. The price-to-book ratio used in the fair value measurement as of December 31, 2018 and 2017 ranges from 0.620:1 to 2.110:1 and from 0.578:1 to 2.290:1, respectively. Increase or decrease in the price-to-book ratio and net asset value would result in higher or lower fair values, all else equal.

For a certain preferred equity security, the Group has used the discounted cash flow method applying a discount rate of 6.28% to determine the present value of future cash flows from dividends or redemption expected to be received from the instrument.

A reconciliation of the carrying amounts of Level 3 equity securities at the beginning and end of 2018 and 2017 is shown below.

	Group		
	Financial Assets at FVOCI	Financial Assets at FVPL	Total
2018:			
Balance at beginning of year	P 1,710	P 543	P 2,253

2017:					
Balance at beginning of year	P	1,515	P	586	P 2,101
Fair value losses	(	34)	(	43)	(77)
Balance at end of year	P	1,481	P	543	P 2,024

As permitted by the transitional provisions under PFRS 9, the Parent Company has reclassified by designation at January 1, 2018 certain private equity securities with fair value of P543 from FVPL category as of December 31, 2017 to FVOCI [see Note 2.2(a)].

There were neither transfers between the levels of the fair value hierarchy nor gains or losses recognized in the statements of profit or loss for Level 3 financial assets in 2018 and 2017.

(c) *Derivative Assets and Liabilities*

The fair value of the Group's derivative assets categorized within Level 1 is determined directly based on published price quotation available in Bloomberg for an identical instrument in an active market at the end of each of the reporting period.

On the other hand, the fair values of certain derivative financial assets and liabilities categorized within Level 2 were determined through valuation techniques using net present value computation which makes use of the streams of cash flows related to the derivative financial instruments such as interest rate swaps and currency swaps.

7.3 Financial Instruments Measured at Amortized Cost for Which Fair Value is Disclosed

The table below summarizes the fair value hierarchy of the Group's and Parent Company's financial assets and financial liabilities which are not measured at fair value in the statements of financial position but for which fair value is disclosed.

		Group			
		Level 1	Level 2	Level 3	Total
2018:

The following are the methods used to determine the fair value of financial assets and financial liabilities not presented in the statements of financial position at their fair values:

(a) Due from BSP and Other Banks, and Loans and Receivables Arising from Reverse Repurchase Agreements

Due from BSP pertains to deposits made to the BSP for clearing and reserve requirements, overnight and term deposit facilities, while loans and receivables arising from reverse repurchase agreements pertain to loans and receivables from BSP arising from overnight lending from excess liquidity. Due from other banks includes items in the course of collection. The fair value of floating rate placements and overnight deposits is their carrying amount. The estimated fair value of fixed interest-bearing deposits is based on the discounted cash flows using prevailing money market interest rates for debt with similar credit risk and remaining maturity, which for short-term deposits approximate the nominal value.

(b) Investment Securities at Amortized Cost

The fair value of investment securities at amortized cost consisting of government securities and corporate debt securities is determined based on reference prices appearing in Bloomberg in 2018 and as published in PDEx in 2017 as discussed more fully in Note 7.2(a).

(c) Deposits Liabilities and Borrowings

The estimated fair value of demand deposits with no stated maturity, which includes non-interest-bearing deposits, is the amount repayable on demand. The estimated fair value of long-term fixed interest-bearing deposits and other borrowings without quoted market price is based on discounted cash flows using interest rates for new debts with similar remaining maturity. The Level 2 fair value of bonds payable and subordinated debt is determined based on the average of ask and bid prices as appearing on Bloomberg. For bills payable categorized within Level 3, fair value is determined based on their discounted amount of estimated future cash flows expected to be received or paid, or based on their cost which management estimates to approximate their fair values.

(d) Other Resources and Other Liabilities

Due to their short duration, the carrying amounts of other resources and liabilities in the statements of financial position are considered to be reasonable approximation of their fair values.

7.4 Fair Value Disclosures for Investment Properties Carried at Cost

The total estimated fair values of the investment properties amounted to P5,298 and P4,940 in the Group's financial statements and P6,267 and P6,161 in the Parent Company's financial statements as of December 31, 2018 and 2017, respectively (see Note 14.3). The fair value hierarchy of these properties as of December 31, 2018 and 2017 is categorized as Level 3.

The fair values of the Group's and Parent Company's investment properties were determined based on the following approaches:

(a) Fair Value Measurement for Land

The Level 2 fair value of land was derived using the market comparable approach that reflects the recent transaction prices for similar properties in nearby locations as determined by an independent appraiser. Under this approach, when sales prices and/or actual sales transaction of comparable land in close proximity are used in the valuation of the subject property with no adjustment on the price, fair value is included in Level 2.

On the other hand, if the observable and recent prices of the reference properties were adjusted for differences in key attributes such as property size, location and zoning, and accessibility, or any physical or legal restrictions on the use of the property, the fair value will be categorized as Level 3. The most significant input into this valuation approach is the price per square feet, hence, the higher the price per square feet, the higher the fair value.

(b) Fair Value Measurement for Buildings

The Level 3 fair value of the buildings was determined using the cost approach that reflects the cost to a market participant to construct an asset of comparable usage, construction standards, design and layout, adjusted for obsolescence. The more significant inputs used in the valuation include direct and indirect costs of construction such as but not limited to, labor and contractor's profit, materials and equipment, surveying and permit costs, electricity and utility costs, architectural and engineering fees, insurance and legal fees. These inputs were derived from various suppliers and contractor's quotes, price catalogues, and construction price indices. Under this approach, higher estimated costs used in the valuation will result in higher fair value of the properties.

There has been no change in the valuation techniques for investment properties in both years.

8. SEGMENT INFORMATION

8.1 Business Segments

The Group's operating businesses are managed separately according to the nature of services provided (primary segments) and the different geographical markets served (secondary segments) with a segment representing a strategic business unit. The Group's business segments follow:

- (a) Retail* – principally handles the business centers offering a wide range of consumer banking products and services. Products offered include individual customer's deposits, credit cards, home and mortgage loans, auto, personal and microfinance loans, overdraft facilities, payment remittances and foreign exchange transactions. It also upsells bank products [unit investment trust funds (UITFs), etc.] and cross-sells bancassurance products. This segment includes portfolios of RSB, Rizal Microbank, and RBSC.
- (b) Corporate* – principally handles loans and other credit facilities and deposit and current accounts for corporate, small and medium enterprises and institutional customers. This segment includes portfolio of RLFC.

- (c) *Treasury* – principally provides money market, trading and treasury services, as well as the management of the Group’s funding operations by use of treasury bills, government securities and placements and acceptances with other banks, through treasury and wholesale banking.
- (d) *Others* – consists of other subsidiaries except for RSB, Rizal Microbank, and RBSC which are presented as part of Retail, and RLFC which is presented under Corporate.

These segments are the basis on which the Group reports its primary segment information. Other operations of the Group comprise the operations and financial control groups. Transactions between segments are conducted at estimated market rates on an arm’s length basis.

Segment revenues and expenses that are directly attributable to primary business segment and the relevant portions of the Group’s revenues and expenses that can be allocated to that business segment are accordingly reflected as revenues and expenses of that business segment.

For secondary segments, revenues and expenses are attributed to geographic areas based on the location of the resources producing the revenues, and in which location the expenses are incurred.

There were no changes in the Group’s operating segments in 2018 and 2017.

8.2 Analysis of Primary Segment Information

Primary segment information (by business segment) on a consolidated basis as of and for the years ended December 31, 2018, 2017 and 2016 follow:

9. CASH AND CASH EQUIVALENTS

The components of Cash and Cash Equivalents follow:

	Group		Parent Company	
	2018	2017	2018	2017
Cash and other cash items	P 17,392	P 14,693	P 12,225	P 10,415
Due from BSP	56,495	58,801	39,847	47,186
Due from other banks	20,342	19,818	19,420	18,368
Loans arising from reverse repurchase agreement	10,032	9,831	4,000	7,435
Interbank loans receivables (see Note 11)	9,522	38	9,522	38
	<u>P 113,783</u>	<u>P 103,181</u>	<u>P 85,014</u>	<u>P 83,442</u>

Cash consists primarily of funds in the form of Philippine currency notes and coins, and includes foreign currencies acceptable to form part of the international reserves in the Group's vault and those in the possession of tellers, including ATMs. Other cash items include cash items other than currency and coins on hand, such as checks drawn on other banks or other branches after the clearing cut-off time until the close of the regular banking hours.

Due from BSP represents the aggregate balance of deposit accounts maintained with the BSP primarily to meet reserve requirements (see Note 17), to serve as clearing account for interbank claims and to comply with existing trust regulations. Due from BSP also includes Overnight Deposit and Term Deposit Accounts. The balance of Overnight Deposit amounted to P8 and P2,017 for the Group as of December 31, 2018 and 2017, respectively, while the Parent Company has no such deposits at the end of both years. In addition, Term Deposit Accounts amounted to P5,000 and P200 for the Group, and nil and P200 for the Parent Company as of December 31, 2018 and 2017, respectively.

Overnight deposit bears interest of 3.0% in 2018, and 2.5% in 2017 and 2016, while term deposit account earns interest of 4.2%, 3.4%, and 3.3% in 2018, 2017 and 2016, respectively.

The balance of Due from Other Banks account represents regular deposits with the following:

	Group		Parent Company	
	2018	2017	2018	2017
Foreign banks	P 18,843	P 17,724	P 18,708	P 17,284
Local banks	1,499	2,094	712	1,084
	<u>P 20,342</u>	<u>P 19,818</u>	<u>P 19,420</u>	<u>P 18,368</u>

The breakdown of Due from Other Banks account by currency is shown below.

	Group		Parent Company	
	2018	2017	2018	2017
Foreign currencies	P 19,470	P 17,922	P 19,009	P 17,839
Philippine peso	872	1,896	411	529
	<u>P 20,342</u>	<u>P 19,818</u>	<u>P 19,420</u>	<u>P 18,368</u>

Interest rates per annum on these deposits in other banks range from 0.00% to 2.50% in 2018, from 0.00% to 1.20% in 2017, and from 0.35% to 1.00% in 2016.

The Group has loans from BSP as of December 31, 2018 and 2017 arising from overnight lending from excess liquidity which earn effective interest of 3.00% to 4.50% in 2018 and 3.50% in 2017. These loans normally mature within 30 days. Interest income earned from these financial assets is presented under Interest Income account in the statements of profit or loss.

10. TRADING AND INVESTMENT SECURITIES

This account is comprised of:

	Group		Parent Company	
	2018	2017	2018	2017
Financial assets at FVPL	P 7,570	P 7,591	P 6,690	P 6,553
Financial assets at FVOCI	21,987	5,363	15,697	3,439
Investment securities at amortized cost	88,892	59,978	78,595	48,141
	P 118,449	P 72,932	P 100,982	P 58,133

10.1 Financial Assets at Fair Value Through Profit or Loss

Financial assets at FVPL is composed of the following:

	Group		Parent Company	
	2018	2017	2018	2017
Government securities	P 3,511	P 4,386	P 3,419	P 4,289
Corporate debt securities	1,660	462	1,547	455
Equity securities	675	1,624	-	690
Derivative financial assets	1,724	1,119	1,724	1,119
	P 7,570	P 7,591	P 6,690	P 6,553

The carrying amounts of financial assets at FVPL are classified as follows:

	Group		Parent Company	
	2018	2017	2018	2017
Held-for-trading	P 5,171	P 4,848	P 4,966	P 4,744
Designated as at FVPL	675	1,624	-	690
Derivative financial assets	1,724	1,119	1,724	1,119
	P 7,570	P 7,591	P 6,690	P 6,553

Equity securities are composed of listed shares of stock traded at the PSE and shares of stock designated as at FVPL. There were no dividend income earned on these equity securities in 2018, 2017 and 2016.

Upon adoption of PFRS 9 at January 1, 2018, certain equity securities with carrying amount of P845 and debt securities with carrying amount of P105 were reclassified by the Group from financial assets at FVPL to FVOCI category. These include equity securities amounting to P543 reclassified by the Parent Company [(see Note 2.2(a)] and Note 10.2. Also, certain debt securities of the Parent Company with carrying amount of P51 were reclassified from FVPL to amortized cost [(see Note 2.2(a)] and Note 10.3.

Treasury bills and other debt securities issued by the government and other private corporations earn annual interest as follows:

	<u>2018</u>	<u>2017</u>	<u>2016</u>
Peso denominated	3.25% - 8.13%	2.13% - 8.75%	1.63% - 12.13%
Foreign currency denominated	2.05% - 11.63%	2.95% - 10.63%	1.30% - 11.63%

Derivative instruments used by the Group include foreign currency short-term forwards, cross-currency swaps, debt warrants and options. Foreign currency forwards represent commitments to purchase/sell on a future date at a specific exchange rate. Foreign currency short-term swaps are simultaneous foreign currency spot and forward deals with tenor of one year.

Debt warrants attached to the bonds and other debt securities allows the Group to purchase additional debt securities from the same contracting issuer at the same price and yield as the initial purchased security. Option is a derivative financial instrument that specifies a contract between two parties for a future transaction on an asset at a reference price.

The aggregate contractual or notional amount of derivative financial instruments and the aggregative fair values of derivative financial assets and financial liabilities as of December 31 both in the Group's and Parent Company's financial statements are shown below.

	<u>Notional Amount</u>	<u>Fair Values</u>	
		<u>Assets</u>	<u>Liabilities</u>
2018:			
Currency swaps and forwards	P 67,420	P 1,376	P 567
Interest rate swaps and futures	35,378	309	305
Debt warrants	5,531	17	-
Options	1,240	3	22
Credit default swap	<u>946</u>	<u>19</u>	<u>-</u>
	<u>P 110,515</u>	<u>P 1,724</u>	<u>P 894</u>
2017:			
Currency swaps and forwards	P 51,060	P 911	P 402
Interest rate swaps and futures	26,999	174	80
Debt warrants	6,250	29	-
Options	3,718	5	1
Credit default swap	<u>25</u>	<u>-</u>	<u>-</u>
	<u>P 88,052</u>	<u>P 1,119</u>	<u>P 483</u>

Derivative liabilities amounting to P894 and P483 as of December 31, 2018 and 2017, respectively, are shown as Derivative financial liabilities as part of Other Liabilities account in the statements of financial position (see Note 22). The significant portion of such derivative liabilities have maturity periods of less than a year.

Other information about the fair value measurement of the Group's and Parent Company's financial assets at FVPL are presented in Note 7.2.

10.2 Financial Assets at Fair Value Through Other Comprehensive Income

Financial assets at FVOCI as of December 31, 2018 and 2017 consist of:

	Group		Parent Company	
	2018	2017	2018	2017
Quoted equity securities	P 2,472	P 3,653	P 1,730	P 1,958
Unquoted equity securities	3,989	1,710	1,946	1,481
Government debt securities	15,138	-	12,021	-
Corporate debt securities	388	-	-	-
	<u>P 21,987</u>	<u>P 5,363</u>	<u>P 15,697</u>	<u>P 3,439</u>

The Group has designated the above local equity securities as at FVOCI because they are held for long-term investments and are neither held-for-trading nor designated as at FVPL. Unquoted equity securities include golf club shares and investments in non-marketable equity securities of private companies.

The Group and the Parent Company made reclassifications of certain equity and debt securities from financial assets at FVPL to FVOCI category at January 1, 2018 [(see Note 2.2(a)) and Note 10.1. In addition, debt securities with fair value of P310 were reclassified from investment securities at amortized cost to FVOCI [(see Note 2.2(a)) and Note 10.3.

Included in the carrying amount of the Group's financial assets at FVOCI as of December 31, 2018 and 2017 are unquoted equity securities with fair value of P3,989 and P1,710, respectively, determined using the net asset value, dividend discounted model, discounted cash flow method, or a market-based approach (price-to-book value method), hence, categorized under Level 3 of the fair value hierarchy (see Note 7.2). These unquoted equity securities include investments of the Parent Company with fair value of P1,946 and P1,481 as of December 31, 2018 and 2017, respectively.

The fair value changes of equity securities classified as at FVOCI and held by the Group as of December 31, 2017 are recognized as an adjustment in other comprehensive income and presented in the statements of comprehensive income under items that will not be reclassified subsequently to profit or loss (see Note 10.5). Effective January 1, 2018, the Group acquires and holds corporate debt securities under its financial assets at FVOCI category. Similar with equity securities, fair value gains or losses arising from these securities are recognized in other comprehensive income. However, gains or losses are reclassified to profit or loss upon disposal.

As a result of the Group's disposal of certain equity securities classified as at FVOCI, the related fair value gain of P4 in 2017 and P3 in 2016 recognized in other comprehensive income prior to the year of disposal was transferred from Revaluation Reserves to Surplus account during those years. There were no disposal of equity securities classified as at FVOCI in 2018.

In 2018, 2017 and 2016, dividends on these equity securities were recognized amounting to P189, P234 and P449 by the Group and, P187, P196 and P307 by the Parent Company, respectively, which are included as part of Miscellaneous income under the Other Operating Income account in the statements of profit or loss (see Note 25.1).

10.3 Investment Securities at Amortized Cost

Investment securities at amortized cost as of December 31, 2018 and 2017 consist of:

	Group		Parent Company	
	2018	2017	2018	2017
Government securities	P 66,084	P 39,044	P 57,384	P 29,379
Corporate debt securities	22,943	21,024	21,237	18,762
	89,027	60,068	78,621	48,141
Allowance for impairment	(135)	(90)	(26)	-
	P 88,892	P 59,978	P 78,595	P 48,141

The breakdown of these investment securities at amortized cost by currency is shown below.

	Group		Parent Company	
	2018	2017	2018	2017
Philippine peso	P 15,668	P 9,934	P 9,634	P 2,634
Foreign currencies	73,224	50,044	68,961	45,507
	P 88,892	P 59,978	P 78,595	P 48,141

Interest rates per annum on government securities and corporate debt securities range from 3.63% to 8.00% in 2018, 2.13% to 8.60% in 2017 and 2.13% to 8.44% in 2016 for peso denominated securities, and 1.63% to 10.63% in 2018, 1.63% to 10.63% in 2017 and 1.40% to 10.63% in 2016 for foreign currency-denominated securities.

Upon adoption of PFRS 9 at January 1, 2018, certain debt securities of the Parent Company with carrying amount of P51 were reclassified from financial assets at FVPL to amortized cost [(see Note 2.2(a)) and Note 10.1. In addition, debt securities with fair value of P310 were reclassified from investment securities at amortized cost to FVOCI [(see Note 2.2(a)) and Note 10.2.

In December 2018, the Parent Company disposed of certain US dollar-denominated bonds under its HTC portfolio with aggregate carrying amount of P3,113, resulting in net gains amounting to P69. The disposal was made in order to maintain adequate liquidity buffer for the expected cash outflows for loan drawdowns. In 2017, the Parent Company also disposed from its HTC portfolio certain peso and US dollar-denominated bonds with aggregate carrying amount of P22,279 which resulted in net gains of P684. The disposal was made to ensure the Parent Company's continuing regulatory compliance with the required minimum CET 1 ratio.

Management had assessed that the disposals of the investment securities under the HTC portfolio during those periods are consistent with the Group's HTC business model with the objective of collecting contractual cash flows and have qualified under the permitted sale events set forth in the Group's business model in managing financial assets manual and the requirements of PFRS 9 and BSP Circular 708.

The above disposals of investment securities were approved by the Executive Committee of the Parent Company in compliance with the documentation requirements of the BSP.

The Group and the Parent Company recognized ECL on investment securities at amortized cost amounting to P24 and P15, respectively, in 2018 (see Note 16).

Certain government securities are deposited with the BSP as security for the Group's faithful compliance with its fiduciary obligations in connection with its trust operations (see Note 27).

As of December 31, 2018 and 2017, investment securities of both the Group and the Parent Company with an aggregate amortized cost of P25,438 and P7,437, respectively, were pledged as collaterals for bills payable under repurchase agreements (see Note 18).

10.4 Interest Income from Trading and Investment Securities

Interest income from trading and investment securities recognized by the Group and Parent Company in 2018, 2017 and 2016 are shown below.

	Group		
	2018	2017	2016
Debt securities at FVPL	P 441	P 293	P 938
Debt securities at FVOCI	136	-	-
Debt securities at amortized cost	<u>2,826</u>	<u>2,137</u>	<u>2,331</u>
	<u>P 3,403</u>	<u>P 2,430</u>	<u>P 3,269</u>
	Parent Company		
	2018	2017	2016
Debt securities at FVPL	P 338	P 203	P 931
Debt securities at FVOCI	113	-	-
Debt securities at amortized cost	<u>2,359</u>	<u>1,752</u>	<u>1,996</u>
	<u>P 2,810</u>	<u>P 1,955</u>	<u>P 2,927</u>

10.5 Trading and Securities Gains (Losses)

The Group and the Parent Company recognized trading and securities gains (losses) in its trading or disposals of investment securities, including their fair value changes, in 2018, 2017, and 2016 as follows:

	Group		
	2018	2017	2016
Profit or loss:			
Financial assets at FVPL	(P 117)	P 195	P 267
Debt securities at FVOCI	48	-	-
Investment securities at amortized cost	<u>69</u>	<u>705</u>	<u>1,352</u>
	<u>P -</u>	<u>P 900</u>	<u>P 1,619</u>
Other comprehensive income (loss):			
Equity securities at FVOCI	(P 1,018)	(P 156)	P 1,442
Debt securities at FVOCI	<u>149</u>	<u>-</u>	<u>-</u>
	<u>(P 869)</u>	<u>(P 156)</u>	<u>P 1,442</u>

	Parent Company		
	2018	2017	2016
Profit or loss:			
Financial assets at FVPL	(P 134)	(P 20)	P 136
Debt securities at FVOCI	48		
Investment securities at amortized cost	69	684	1,527
	<u>(P 17)</u>	<u>P 664</u>	<u>P 1,663</u>
Other comprehensive income (loss):			
Equity securities at FVOCI	(P 478)	(P 269)	P 1,395
Debt securities at FVOCI	149	-	-
	<u>(P 329)</u>	<u>(P 269)</u>	<u>P 1,395</u>

11. LOANS AND RECEIVABLES

This account consists of the following (see also Note 28.1):

	Group		Parent Company	
	2018	2017	2018	2017
Receivables from customers:				
Loans and discounts	P 340,011	P 319,099	P 244,420	P 233,549
Credit card receivables	21,550	16,405	21,550	16,405
Customers' liabilities on acceptances, import bills and trust receipts	21,075	12,404	21,075	12,404
Bills purchased	3,112	2,612	3,055	2,605
Lease contract receivables	3,403	2,893	-	-
Receivables financed	587	249	-	-
	<u>389,738</u>	<u>353,662</u>	<u>290,100</u>	<u>264,963</u>
Unearned discount	(665)	(817)	(160)	(332)
	<u>389,073</u>	<u>352,845</u>	<u>289,940</u>	<u>264,631</u>
Other receivables:				
Interbank loans receivables (see Note 9)	9,522	38	9,522	38
Accrued interest receivables	4,498	3,094	3,537	2,232
Accounts receivables [see Notes 15.3 and 28.5 (a) and (b)]	2,452	2,641	1,565	2,206
UDSCL	1,963	1,939	1,162	1,177
Sales contract receivables	1,083	1,679	59	449
	<u>19,518</u>	<u>9,391</u>	<u>15,845</u>	<u>6,102</u>
	408,591	362,236	305,785	270,733
Allowance for impairment (see Note 16)	(10,291)	(7,993)	(7,041)	(4,942)
	<u>P 398,300</u>	<u>P 354,243</u>	<u>P 298,744</u>	<u>P 265,791</u>

Receivables from customers' portfolio earn average annual interest or range of interest as follows:

	2018	2017	2016
Loans and discounts:			
Philippine peso	5.79%	5.00%	5.08%
Foreign currencies	4.53%	3.63%	3.50%
Credit card receivables	16.00% - 24.00%	17.00% - 27.00%	19.00% - 29.00%
Lease contract receivables	8.00% - 19.00%	8.00% - 20.00%	8.00% - 20.00%
Receivables financed	8.00% - 14.00%	11.00% - 12.50%	10.00% - 12.00%

Included in UDSCL as of December 31, 2018 and 2017 is a 10-year note from Philippine Asset Growth One, Inc. (PAGO) with a face amount of P731, which is part of the consideration received in relation to the Parent Company's disposal in February 2013 of its non-performing assets (NPAs), consisting of non-performing loans (NPLs) with a carrying amount of P507 and non-performing investment properties with a carrying amount of P1,236. This note receivable carries a variable interest rate of 1.0% per annum during the first five years, 7.0% per annum in the sixth to seventh year, and 7.5% per annum in the last three years. This note receivable was initially recognized in 2013 at fair value resulting in the recognition of day-one loss of P181 which is included as part of allowance for ECL. This note receivable with carrying amount of P342 as of December 31, 2017 has been provided with full allowance for ECL as part of the Parent Company's transition adjustment to increase its allowance for ECL on specific loans upon adoption of the ECL model at January 1, 2018.

Also included in UDSCL is RSB's 10-year note with carrying amount of P801 and P761 as of December 31, 2018 and 2017, respectively, and bears 6.44% interest per annum. This pertains to the agreement entered into in June 2017 with a third party for the sale of various foreclosed real properties with book value of P1,127, for a total consideration of P1,385; of which P396 and P989 (with present value of P742 on date of sale) were in the form of cash and note receivable, respectively. Accordingly, the Group recognized a gain on sale amounting to P11 and is presented as part of Gains on assets sold under Miscellaneous income in the 2017 statement of profit or loss (see Notes 15.3 and 25.1).

Also included in Parent Company's accounts receivables is the amount due from RCBC JPL which was acquired from Rizal Microbank in 2015 amounting to P222. As of December 31, 2018 and 2017, the outstanding balance amounted to P182 and P192, respectively. The receivable amount is unsecured, noninterest-bearing and payable in cash on demand (see Note 28). Management has assessed that this receivable is fully recoverable.

11.1 Credit Concentration, Security and Maturity Profile of Receivables from Customers

The concentration of credit of receivables from customers as to industry follows:

	Group		Parent Company	
	2018	2017	2018	2017
Real estate, renting and other related activities	P 85,759	P 81,927	P 53,100	P 52,669
Electricity, gas and water	74,686	64,794	74,379	64,453
Consumer	64,085	54,196	23,282	18,055
Wholesale and retail trade	45,153	40,500	39,669	35,692
Manufacturing (various industries)	44,600	35,034	43,355	33,504
Financial intermediaries	24,262	21,521	22,207	19,534
Transportation and communication	22,869	22,918	16,077	17,162
Other community, social and personal activities	10,545	14,799	5,956	10,755
Agriculture, fishing and forestry	4,559	4,928	4,003	4,479
Hotels and restaurants	3,981	4,133	3,937	4,133
Mining and quarrying	1,456	1,922	1,285	1,779
Others	7,118	6,173	2,690	2,416
	<u>P 389,073</u>	<u>P 352,845</u>	<u>P 289,940</u>	<u>P 264,631</u>

The BSP considers that loan concentration exists when the total loan exposure to a particular industry exceeds 30% of the total loan portfolio plus the outstanding interbank loans receivable. The Group and the Parent Company are in compliance with this loan concentration limit of the BSP as of the end of each reporting period.

The breakdown of the receivables from customers' portfolio as to secured and unsecured follows:

	Group		Parent Company	
	2018	2017	2018	2017
Secured:				
Real estate mortgage	P 113,299	P 86,193	P 63,582	P 42,326
Chattel mortgage	44,271	37,975	1,699	623
Hold-out deposits	9,814	15,799	9,470	14,380
Other securities	18,733	26,718	15,149	25,375
	186,117	166,685	89,900	82,704
Unsecured	202,956	186,160	200,040	181,927
	<u>P 389,073</u>	<u>P 352,845</u>	<u>P 289,940</u>	<u>P 264,631</u>

The maturity profile of the receivables from customers' portfolio follows:

	Group		Parent Company	
	2018	2017	2018	2017
Due within one year	P 79,185	P 92,550	P 75,279	P 71,992
Due beyond one year	309,888	260,295	214,661	192,639
	<u>P 389,073</u>	<u>P 352,845</u>	<u>P 289,940</u>	<u>P 264,631</u>

11.2 Non-performing Loans and Allowance for Credit Loss

NPLs included in the total loan portfolio of the Group and the Parent Company as of December 31, 2018 and 2017 are presented below, net of allowance for impairment in compliance with the BSP Circular No. 772, *Amendments to Regulations on Non-performing Loans*.

	<u>Group</u>		<u>Parent Company</u>	
	<u>2018</u>	<u>2017</u>	<u>2018</u>	<u>2017</u>
Gross NPLs	P 9,173	P 7,907	P 3,779	P 2,851
Allowance for impairment	(4,857)	(3,416)	(2,274)	(1,394)
	<u>P 4,316</u>	<u>P 4,491</u>	<u>P 1,505</u>	<u>P 1,457</u>

Based on BSP regulations, NPLs shall, as a general rule, refer to loan accounts whose principal and/or interest is unpaid for 30 days or more after due date or after they have become past due in accordance with existing rules and regulations. This shall apply to loans payable in lump sum and loans payable in quarterly, semi-annual or annual installments, in which case, the total outstanding balance thereof shall be considered non-performing. In the case of loans payable in monthly installments, the total outstanding balance thereof shall be considered non-performing when three or more installments are in arrears. In the case of loans payable in daily, weekly or semi-monthly installments, the entire outstanding balance of the loan receivable shall be considered as non-performing when the total amount of arrearages reaches 10% of the total loan receivable balance.

Restructured loans shall be considered non-performing except when as of restructuring date, it has an updated principal and interest payments and it is fully secured by real estate with loan value of up to 60% of the appraised value of real estate security and the insured improvements and such other first class collaterals.

A reconciliation of the allowance for impairment on loans and receivables at the beginning and end of 2018 and 2017 is shown below (see Note 16).

	<u>Group</u>		<u>Parent Company</u>	
	<u>2018</u>	<u>2017</u>	<u>2018</u>	<u>2017</u>
Balance at beginning of year	P 7,993	P 7,411	P 4,942	P 4,792
Effect of adoption of ECL model [see Note 2.2(a)]	1,680	-	1,959	-
Impairment losses during the year	1,879	2,076	1,294	1,086
Accounts written off and others	(1,261)	(1,494)	(1,154)	(936)
Balance at end of year	<u>P 10,291</u>	<u>P 7,993</u>	<u>P 7,041</u>	<u>P 4,942</u>

12. INVESTMENTS IN SUBSIDIARIES AND ASSOCIATES

The components of the carrying values of investments in and advances to subsidiaries and associates are as follows (refer to Note 1.2 for the effective percentage of ownership, line of business, and country of incorporation of subsidiaries and associates):

	Notes	Group

Accumulated equity in net earnings:			
Balance at beginning of year		277	182
Share in net earnings for the year		9	150
Share in actuarial gains on defined benefit plan	23.4	6	4
Cash dividends	28	(102)	(59)
Balance at end of year		190	277
		730	817
Carrying amount		P 19,928	P 19,018

At the end of each reporting period, the Group has no material interest in unconsolidated structured entities.

Also, the Parent Company and its subsidiaries did not enter in any contractual arrangements to provide financial support to any entities under the Group.

The Parent Company received dividends from its subsidiaries and associates amounting to nil and P102, respectively, in 2018, P315 and P59, respectively, in 2017, and P232 and P110, respectively, in 2016.

12.1 Information About Investments in Subsidiaries

In February 2018, RCBC North America was dissolved which resulted in the reclassification of the cumulative translation adjustment to profit or loss amounting to P32 (see Note 1.2).

In August 2018, the BOD of the Parent Company approved the additional capital infusion to RCBC LFC amounting to P800, which was paid to the latter in November 2018 after RCBC LFC's BOD approved the increase in its authorized capital stock in its meeting held in October 2018. As the application for the increase in authorized capital stock is not yet filed by RCBC LFC to the SEC as of December 31, 2018, the P800 deposit for future stock subscription is recognized and presented as part of Other Resources account in the 2018 statement of financial position of the Parent Company (see Note 15).

On February 23, 2015, the Parent Company's BOD approved the subscription to P500 worth of shares of stock of RCBC LFC. In 2016, RCBC LFC filed its application with the SEC for increase in authorized capital stock after it has secured the certificate of authority to amend the articles of incorporation from the BSP. This application was approved by the SEC on April 24, 2018 which resulted in the issuance of shares to the Parent Company, hence, increase in the latter's ownership interest (see Note 1.2).

12.2 Information About Investments in Associates

The Parent Company, under a shareholder's agreement, agreed with another stockholder of HCPI to commit and undertake to vote, as a unit, the shares of stock thereof, which they proportionately own and hold, and to regulate the conduct of the voting and the relationship between them with respect to their exercise of their voting rights. As a result of this agreement, the Parent Company is able to exercise significant influence over the operating and financial policies of HCPI. Thus, HCPI has been considered by the Parent Company as an associate despite holding only 12.88% ownership interest.

The table below presents the summary of the financial information of the Group's significant associates as of and for the years ended December 31:

		<u>Resources</u>		<u>Liabilities</u>		<u>Revenues</u>		<u>Net Profit (Loss)</u>
2018:								
HCPI	P	6,910	P	3,717	P	27,664	P	35
LIPCO		993		5,236		23	(	482)
2017:								
HCPI	P	6,110	P	2,965	P	25,215	P	589
LIPCO		982		4,743		27	(	341)

13. BANK PREMISES, FURNITURE, FIXTURES AND EQUIPMENT

The gross carrying amounts and accumulated depreciation and amortization of bank premises, furniture, fixtures and equipment at the beginning and end of 2018 and 2017 are shown below.

	Group				
	Land	Buildings	Furniture, Fixtures and Equipment	Leasehold Rights and Improvements	Total
December 31, 2018

Under BSP rules, investments in bank premises, furniture, fixtures and equipment should not exceed 50% of the respective unimpaired capital of the Parent Company and its bank subsidiaries. As of December 31, 2018 and 2017, the Parent Company and its bank subsidiaries have satisfactorily complied with this BSP requirement.

The cost of the Group's and the Parent Company's fully-depreciated bank premises, furniture, fixtures and equipment that are still in use in operations is P5,136 and P4,357, respectively, as of December 31, 2018 and P3,789 and P3,638, respectively, as of December 31, 2017.

14. INVESTMENT PROPERTIES

Investment properties pertain to land, buildings or condominium units acquired by the Group, in settlement of loans from defaulting borrowers through foreclosure or dacion in payment and properties which are held for rental.

The gross carrying amounts and accumulated depreciation and impairment losses of investment properties at the beginning and end of 2018 and 2017 are shown below.

	Group			Parent Company		
	Land	Buildings	Total	Land	Buildings	Total
December 31, 2018

Balance at December 31, net of accumulated depreciation and impairment	<u>P 3,631</u>	<u>P 3,399</u>	<u>P 2,922</u>	<u>P 2,785</u>

As of December 31, 2018 and 2017, there is no restriction on the realizability of investment properties or the remittance of income and proceeds of disposal therefrom.

14.1 Additions and Disposals of Investment Properties

The Group and the Parent Company foreclosed real and other properties totaling P672 and P202, respectively, in 2018, and P2,360 and P19, respectively, in 2017 in settlement of certain loan accounts.

In September 2014, the Parent Company sold to a third party buyer a certain non-performing investment properties consisting of land and building with a total carrying amount of P774 for a total consideration of P740, consisting of P35 cash as down payment, P40 accounts receivable and P665 sales contract receivable with no interest and payable in staggered amount for a period of four years (see Note 11). The sales contract receivable was initially recognized at its fair value resulting in the recognition of a day-one loss amounting to P5 which is included as part of allowance for impairment. These receivables with outstanding balance of P365 as of December 31, 2017 were fully collected in 2018.

The total gain recognized by the Group and the Parent Company from disposals of investment properties both amounted to P26 in 2018, P159 and P33, respectively, in 2017, and loss of P421 and P12, respectively, in 2016, which is presented as part of Gains on assets sold – net under Miscellaneous Income account in the statements of profit or loss (see Note 25.1).

14.2 Income and Expenses from Investment Properties Held for Rental

The Group and Parent Company earned rental income from investment properties amounting to P414 both in 2018, P416 and P400, respectively, in 2017, and P414 and P399, respectively, in 2016 and are presented as part of Rentals under Miscellaneous Income account in the statement of profit or loss [see Notes 25.1 and 28.5(a)]. Expenses incurred by the Group and Parent Company in relation to the investment properties include taxes and licenses amounting to P54 and P32, respectively, in 2018, P41 and P15, respectively, in 2017, P62 and P54, respectively, in 2016.

14.3 Valuation and Measurement of Investment Properties

The fair value of investment properties as of December 31, 2018 and 2017, based on the available appraisal reports, amounted to P5,298 and P4,940, respectively, for the Group; and, P6,267 and P6,161, respectively, for the Parent Company (see Note 7.4).

15. OTHER RESOURCES

Other resources consist of the following:

	Notes	Group		Parent Company	
		2018	2017	2018	2017
Creditable withholding taxes		P 2,362	P 2,110	P 2,197	P 1,976

		9,250	9,203	6,899	6,308
Allowance for impairment	15.5, 16	(228)	(191)	-	(2)
		P 9,022	P 9,012	P 6,899	P 6,306

The expected recovery of the other resources follows:

	Group		Parent Company	
	2018	2017	2018	2017
Within one year	P 6,404	P 6,334	P 4,731	P 4,070
More than one year	2,618	2,678	2,168	2,236
	<u>P 9,022</u>	<u>P 9,012</u>	<u>P 6,899</u>	<u>P 6,306</u>

15.1 Branch Licenses

Branch licenses represent the rights granted by the BSP to the Parent Company in 2015 to establish a certain number of branches in the restricted areas in the country.

15.2 Software

A reconciliation of the carrying amounts of software at the beginning and end of 2018 and 2017 is shown below.

	Group		Parent Company	
	2018	2017	2018	2017
Balance at beginning of year	P 1,035	P 960	P 874	P 850
Additions	179	304	163	267
Amortization	(269)	(287)	(251)	(243)
Balance at end of year	<u>P 945</u>	<u>P 977</u>	<u>P 786</u>	<u>P 874</u>

Amortization charges for software are included as part of Depreciation and Amortization account in the statements of profit or loss.

15.3 Assets Held-for-Sale and Disposal Group

Assets held-for-sale represents real and other properties that are approved by management to be immediately sold. These mainly include real properties, automobiles and equipment foreclosed by the Parent Company, RSB and RCBC LFC in settlement of loans.

In 2015, RSB classified a portion of investment properties amounting to P1,351 as assets held-for-sale since the carrying amount of those properties will be recovered principally through a sale transaction. The properties were readily available for immediate sale in its present condition and that management believes that the sale was highly probable at the time of reclassification. In June 2017, the properties were sold to a third party with total consideration of P1,385; of which P396 and P989 (present value is P742) were in the form of cash and note receivable, respectively (see Note 11).

In 2013, the Parent Company entered into a joint venture agreement with a third party developer to develop certain investment properties for the purpose of recovering the cost through eventual sale which led to the reclassification of the properties amounting to P337 as assets held-for-sale. This joint arrangement is accounted for as a jointly controlled operation as there was no separate entity created under this joint venture agreement. The joint venture agreement stipulates that the Parent Company shall contribute parcels of land and the co-venturer shall be responsible for the planning, conceptualization, design, construction, financing and marketing of units to be constructed on the properties.

In 2017, the joint venture agreement was terminated and both parties entered into a contract of sale, with the joint venturer property developer purchasing the properties contributed by the Parent Company at a consideration of P551 resulting in a gain from sale of P198, which is recognized as part of Gains on assets sold – net under Miscellaneous Income account in the 2017 statement of profit or loss (see Note 25.1). The outstanding receivables related to this transaction as of December 31, 2017 amounted to P463 and is presented as part of Accounts receivables under Loans and Receivables account in the 2017 statement of financial position (see Note 11).

In 2009, in accordance with the letter received by RSB from BSP dated March 26, 2009, RSB reclassified certain investment properties to equity investments as its investment in subsidiaries in its separate financial statements which resulted in the inclusion of the assets, liabilities, income and expenses of the SPCs of RSB in the Group's consolidated financial statements.

The approval of the BSP through the MB is subject to the following conditions: (i) RSB should immediately dissolve the SPCs once the underlying dacioned real property assets were sold or disposed of; and, (ii) the equity investments in the SPCs shall be disposed of within a reasonable period of time.

In partial compliance with the requirements of the BSP, the management of RSB resolved that certain SPCs be disposed of through the conversion of the SPCs' existing common shares into redeemable preferred shares which shall be subsequently redeemed. Accordingly, at their special meeting held on September 30, 2013, the respective BOD and the stockholders of the SPCs approved that a portion of the common shares of the SPCs owned by RSB shall be converted to redeemable preferred shares and that for such purpose, the Articles of Incorporation of the SPCs below have been amended. The amendment was approved by the SEC on November 28, 2013:

- | | |
|-------------------|----------------|
| (a) Goldpath | (g) Princeway |
| (b) Eight Hills | (h) Greatwings |
| (c) Crescent Park | (i) Top Place |
| (d) Niceview | (j) Crestview |
| (e) Lifeway | (k) Best Value |
| (f) Gold Place | |

On December 23, 2013, the BOD of RSB approved the foregoing SPCs' redemption of the SPCs' respective preferred shares for a total consideration of P1,555. This transaction resulted in the recognition of a redemption loss by RSB amounting to P185 which is reported in the 2013 consolidated financial statements of the Group as part of Other Reserves account pending the eventual retirement of these redeemable preferred shares. On May 30, 2014 and on October 16, 2014, the retirement of the preferred shares was approved by the BOD and SEC, respectively; hence, the retirement of shares was executed by RSB. Consequently, the amount of the redemption loss was transferred directly to Surplus account from Other Reserves account as the redemption of shares of these SPCs is considered transaction between owners within the Group (see Note 23.6).

In relation to the SPCs disposal plan and to fully comply with the requirements of the BSP, the BOD of RSB has approved in its meeting held on May 30, 2014 the shortening of the corporate life of these SPCs until December 31, 2015 which was approved by the SEC in various dates during the last quarter of 2014. As the Group is in the process of liquidating the operations of those SPCs, which is expected to be completed in the near future, the carrying amounts of the real properties of those SPCs subject for liquidation are accounted for under PFRS 5; hence, classified as assets held-for-sale.

15.4 Prepaid Expenses

Prepaid expenses include prepayments for insurance, taxes and licenses, and software maintenance.

15.5 Goodwill

The goodwill recognized by the Group as of December 31, 2018 and 2017 pertains to the following:

RSB	P	268
Rizal Microbank		<u>158</u>
		426
Allowance for impairment	(	<u>158)</u>
	P	<u>268</u>

RSB recognized goodwill arising from its acquisition of the net assets of another bank in 1998 from which it had expected future economic benefits and synergies that will result from combining the operations of the acquired bank with that of RSB.

Goodwill is subject to annual impairment testing and whenever there is an indication of impairment. In 2018 and 2017, RSB engaged a third party consultant to perform an independent impairment testing of goodwill. On the basis of the report of the third party consultant dated January 16, 2019 and January 28, 2018 with valuation date as of the end of 2018 and 2017, respectively, the Group has assessed that the recoverable amount of the goodwill is higher than its carrying value. Accordingly, no impairment loss is required to be recognized in the statements of profit or loss in both years.

In addition, the goodwill pertaining to the acquisition of Rizal Microbank was fully provided with impairment in 2011.

15.6 Margin Deposits

Margin deposits serve as security for outstanding financial market transactions and other liabilities. These are designed to provide additional credit risk protection for counterparty exposures.

15.7 Miscellaneous

Miscellaneous account includes various deposits, advance rentals, service provider fund and other assets.

16. ALLOWANCE FOR EXPECTED CREDIT LOSS AND IMPAIRMENT

Changes in the amounts of allowance for impairment are summarized below.

	Notes	Group		Parent Company	
		2018	2017	2018	2017
Balance at beginning of year					
Loans and receivables	11	P 7,903	P 7,321	P 4,942	P 4,792

17. DEPOSIT LIABILITIES

The following is the breakdown of deposit liabilities (see also Note 28.2):

	Group		Parent Company	
	2018	2017	2018	2017
Demand	P 56,413	P 51,996	P 43,650	P 40,857
Savings	174,107	165,187	147,771	141,160
Time	179,724	161,727	97,834	97,148
Long-term Negotiable Certificate of Deposits (LTNCD)	<u>13,155</u>	<u>9,502</u>	<u>13,155</u>	<u>9,502</u>
	<u>P 423,399</u>	<u>P 388,412</u>	<u>P 302,410</u>	<u>P 288,667</u>

The Parent Company's LTNCDs as of December 31, 2018 and 2017 are as follows:

Issuance Date	Maturity Date	Coupon Interest	Outstanding Balance	
			2018	2017
September 28, 2018	March 28, 2024	5.50%	P 3,580	P -
August 11, 2017	February 11, 2023	3.75%	2,502	2,502
December 19, 2014	June 19, 2020	4.13%	2,100	2,100
November 14, 2013	May 14, 2019	3.25%	2,860	2,860
November 14, 2013	May 14, 2019	0.00%	<u>2,113</u>	<u>2,040</u>
			<u>P 13,155</u>	<u>P 9,502</u>

The Parent Company's LTNCDs were used in the expansion of its term deposit base to support long-term asset growth and for other general funding purposes. As of December 31, 2018 and 2017, unamortized debt issue cost amounted to P27 and P20, respectively. Amortization of debt issue cost of P1 in 2018, P3 in 2017 and P2 in 2016, is recorded as part of Interest expenses in the statements of profit or loss.

The maturity profile of the deposit liabilities follows:

	Group		Parent Company	
	2018	2017	2018	2017
Within one year	P 62,340	P 71,895	P 48,771	P 53,549
One year to more than five years	16,039	13,739	14,253	12,546
Non-maturing	<u>345,020</u>	<u>302,778</u>	<u>239,386</u>	<u>222,572</u>
	<u>P 423,399</u>	<u>P 388,412</u>	<u>P 302,410</u>	<u>P 288,667</u>

Deposit liabilities, aside from LTNCDs, bear annual interest rates ranging from 0.11% to 3.28% in 2018, 0.10% to 1.84% in 2017, and 0.13% to 1.38% in 2016. The total interest expense incurred by the Group and the Parent Company on deposit liabilities amounted to P6,295 and P3,723, respectively, in 2018, P3,959 and P2,389, respectively, in 2017, and P3,269 and P2,021, respectively, in 2016.

Under existing BSP regulations, non-FCDU deposit liabilities, including tax exempt LTNCDs, of the Parent Company is subject to reserve requirement equivalent to 20% from May 30, 2014 to March 1, 2018, 19% from March 2, 2018 to May 31, 2018, and 18% from June 1, 2018 and thereafter, while RSB and Rizal Microbank are subject to reserve requirement equivalent to 8% both in 2018 and 2017. Peso-denominated LTNCDs of the Parent Company are subject to reserve requirement equivalent to 4% in 2018 and 6% in 2017. As of December 31, 2018 and 2017, the Group is in compliance with such regulatory reserve requirements.

Under BSP Circular No. 753, cash in vault and regular reserve deposit accounts with BSP are excluded as eligible forms of compliance for the reserve requirements. The required reserve shall only be kept in the form of demand deposit accounts with the BSP. Available reserves consist of Due from BSP amounting to P51,409 and P55,386 for the Group and P39,770 and P46,986 for the Parent Company as of December 31, 2018 and 2017, respectively (see Note 9).

18. **BILLS PAYABLE**

This account consists of borrowings from:

	Group		Parent Company	
	2018	2017	2018	2017
Foreign banks	P 40,613	P 33,102	P 40,613	P 33,102
Local banks	15,386	10,862	8,144	3,495
Others	2	3	2	3
	<u>P 56,001</u>	<u>P 43,967</u>	<u>P 48,759</u>	<u>P 36,600</u>

The maturity profile of bills payable follows:

	Group		Parent Company	
	2018	2017	2018	2017
Within one year	P 49,721	P 33,841	P 44,177	P 29,915
Beyond one year but within five years	5,095	6,379	3,397	5,185
More than five years	1,185	3,747	1,185	1,500
	<u>P 56,001</u>	<u>P 43,967</u>	<u>P 48,759</u>	<u>P 36,600</u>

Borrowings from foreign and local banks are subject to annual fixed interest rates as follows:

	2018	2017	2016
Group			
Peso denominated	1.05% - 8.25%	1.06% - 4.50%	0.88% - 2.98%
Foreign currency denominated	1.05% - 4.50%	1.06% - 3.46%	0.10% - 2.86%
Parent Company			
Foreign currency denominated	1.05% - 4.50%	1.06% - 3.46%	0.10% - 2.86%

The total interest expense incurred by the Group on the bills payable amounted to P1,541 in 2018, P891 in 2017, and P931 in 2016.

As of December 31, 2018 and 2017, certain bills payable availed under repurchase agreements are secured by the Group's and Parent Company's investment securities (see Note 10.3).

19. BONDS PAYABLE

The composition of this account for the Group and the Parent Company follows:

<u>Issuance Date</u>	<u>Maturity Date</u>	<u>Coupon Interest</u>	<u>Face Value (in millions)</u>	<u>Outstanding Balance</u>	
				<u>2018</u>	<u>2017</u>
March 15, 2018	March 16, 2023	4.13%	\$ 450	P 23,560	P -
November 2, 2015	February 2, 2021	3.45%	320	16,826	15,977
January 21, 2015	January 22, 2020	4.25%	243	12,704	12,083
				<u>\$ 1,013</u>	<u>P 28,060</u>

In March 2018, the Parent Company issued unsecured US\$ denominated Senior Notes with principal amount of US\$450 bearing an interest of 4.13% per annum, payable semi-annually in arrears every March 16 and September 16 of each year. The Senior Notes, unless redeemed, will mature on March 16, 2023. As of December 31, 2018, the peso equivalent of this outstanding bond issue amounted to P23,560.

In November 2015, the Parent Company issued unsecured US\$ denominated Senior Notes with principal amount of US\$320 bearing an interest of 3.45% per annum, payable semi-annually in arrears every May 2 and November 2 of each year. The Senior Notes, unless redeemed, will mature on February 2, 2021. As of December 31, 2018 and 2017, the peso equivalent of this outstanding bond issue amounted to P16,826 and P15,977, respectively.

In January 2015, the Parent Company issued unsecured US\$ denominated Senior Notes with principal amount of US\$243 bearing an interest of 4.25% per annum, payable semi-annually in arrears every January 21 and July 21 of each year, which commenced on July 21, 2015. The Senior Notes, unless redeemed, will mature on January 22, 2020. As of December 31, 2018 and 2017, the peso equivalent of this outstanding bond issue amounted to P12,704 and P12,083, respectively.

The interest expense incurred on these bonds payable amounted to P1,911 in 2018, P1,155 in 2017, and P1,715 in 2016. The Group and Parent Company recognized foreign currency exchange losses related to these bonds payable amounting to P1,489 in 2018, P118 in 2017, and P516 in 2016, which are netted against Foreign exchange gains presented under Other Operating Income account in the statements of profit or loss.

20. SUBORDINATED DEBT

On June 27, 2014, the Parent Company issued P7 billion Basel III-compliant Tier 2 Capital Notes (the "Tier 2 Notes") which shall be part of the Group's regulatory capital compliance in accordance with Basel III capital guidelines of the BSP. The Parent Company re-opened the Tier 2 Notes and issued an additional P3 billion of the Notes on September 5, 2014, which constituted a further issuance of, and formed a single series with the existing P7,000 Tier 2 Notes.

The significant terms and conditions of the Tier 2 Notes with an aggregate issue amount of P10,000, are as follows:

- (a) The Tier 2 Notes shall mature on September 27, 2024, provided that they are not redeemed at an earlier date.
- (b) Subject to satisfaction of certain regulatory approval requirements, the Parent Company may, on September 26, 2019, and on any Interest Payment Date thereafter, redeem all of the outstanding Tier 2 Notes at redemption price equal to 100% of its face value together with accrued and unpaid interest thereon. The terms and conditions of the Tier 2 Notes also allow for early redemption upon the occurrence of a Tax Redemption Event or a Regulatory Redemption Event.
- (c) The Tier 2 Notes shall initially bear interest at the rate of 5.375% per annum from and including June 27, 2014 to but excluding September 27, 2019 and shall be payable quarterly in arrears at the end of each interest period on March 27, June 27, September 27 and December 27 of each year.
- (d) Unless the Tier 2 Notes are previously redeemed, the initial interest rate will be reset on September 26, 2019 at the equivalent of the five-year PDST-R2 or the relevant five-year benchmark plus the initial spread of 1.93% per annum. Such reset interest shall be payable quarterly in arrears commencing on September 27, 2019 up to and including September 27, 2024, if not otherwise redeemed earlier.
- (e) The Tier 2 Notes have a loss absorption feature which means the notes are subject to a Non-Viability Write-Down in case of the occurrence of a Non-Viability Event, subject to certain conditions as set out in the terms and conditions of the notes, when the Issuer is considered non-viable as determined by the BSP. Non-Viability is defined as a deviation from a certain level of CET1 ratio or the inability of the Issuer to continue business (closure) or any other event as determined by the BSP, whichever comes earlier. Upon the occurrence of a Non-Viability Event, the Issuer shall write-down the principal amount of the notes to the extent required by the BSP, which could go as low as zero. A Non-Viability Write-Down shall have the following effects:
 - (i) it shall reduce the claim on the notes in liquidation;
 - (ii) reduce the amount re-paid when a call or redemption is properly exercised; and,
 - (iii) partially or fully reduce the interest payments on the notes.

The total interest expense incurred by the Group and Parent Company on the notes amounted to P555 in 2018, P554 in 2017, and P553 in 2016.

21. ACCRUED INTEREST, TAXES AND OTHER EXPENSES

The composition of this account follows:

	Group		Parent Company	
	2018	2017	2018	2017
Accrued expenses	P 2,916	P 2,809	P 2,329	P 2,171
Accrued interest	2,068	1,120	1,436	838
Taxes payable	293	256	201	209
	<u>P 5,277</u>	<u>P 4,185</u>	<u>P 3,966</u>	<u>P 3,218</u>

Accrued expenses represent mainly the accruals for utilities, employee benefits and other operating expenses. Accrued interest primarily includes unpaid interest on deposit liabilities, bills payable, bonds payable and subordinated debt at the end of each reporting period.

These obligations are expected to be settled within one year after the reporting period.

22. OTHER LIABILITIES

Other liabilities consist of the following:

	Notes	Group		Parent Company	
		2018	2017	2018	2017
Accounts payable	28.5(a), 28.5(c)	P 6,291	P 6,451	P 3,590	P 3,735
Bills purchased – contra		1,847	1,079	1,791	1,074
Manager's checks		1,545	1,575	919	835
Post-employment defined benefit obligation	24.2	1,481	111	1,420	33
Derivative financial liabilities	10.1	894	483	894	483
Outstanding acceptances payable		880	405	880	405
Deposit on lease contracts		471	342	122	105
Payment orders payable		432	193	418	181
Other credits		392	370	241	232
Unearned income		380	296	347	273
Withholding taxes payable		304	243	218	143
Sundry credits		125	121	117	96
Advance rentals		106	92	106	92
ECL provisions on loan commitments	4.4.8(d)	94	-	94	-
Guaranty deposits		57	62	57	62
Due to BSP		29	39	24	39
Miscellaneous		344	507	399	346
		P 15,672	P 12,369	P 11,637	P 8,134

Accounts payable is mainly composed of prepaid card balances of customers, settlement billing from credit card operations and the Group's expenditure purchases which are to be settled within the next reporting period.

Miscellaneous liabilities include unclaimed balances for deposits and other miscellaneous liabilities.

The maturity profile of other liabilities follows:

	Group		Parent Company	
	2018	2017	2018	2017
Within one year	P 13,271	P 11,484	P 9,797	P 7,702
More than one year	2,401	885	1,840	432
	P 15,672	P 12,369	P 11,637	P 8,134

23. EQUITY

23.1 Capital Stock

The movements in the outstanding capital stock of the Parent Company are as follows:

	Number of Shares		
	2018	2017	2016
Preferred stock – voting, non-cumulative non-redeemable, participating, convertible into common stock – P10 par value Authorized – 200,000,000 shares			
Issued and outstanding:			
Balance at beginning of year	276,845	293,987	310,145
Conversion of shares during the year	(8,958)	(17,142)	(16,158)
Balance at end of year	<u>267,887</u>	<u>276,845</u>	<u>293,987</u>
Common stock – P10 par value

Private placement	Cathay	April 2015	124,242,272
Stock rights offering	Various	July 2018	535,710,378

On May 29, 2006, the Parent Company's stockholders approved the issuance of up to 200,000,000 convertible preferred shares with a par value of P10 per share, subject to the approval, among others, by the PSE. The purpose of the issuance of the convertible preferred shares is to raise the Tier 1 capital pursuant to BSP regulations, thereby strengthening the capital base of the Parent Company and allowing it to expand its operations. On February 13, 2007, the PSE approved the listing application of the underlying common shares for the 105,000 convertible preferred shares, subject to the compliance of certain conditions of the PSE. Preferred shares have the following features:

- (a) Entitled to dividends at floating rate equivalent to the three-month London Interbank Offered Rate (LIBOR) plus a spread of 2.0% per annum, calculated quarterly;
- (b) Convertible to common shares at any time after the issue date at the option of the Parent Company at a conversion price using the adjusted net book value per share of the Parent Company based on the latest available financial statements prepared in accordance with PFRS, adjusted by local regulations;
- (c) Non-redeemable; and,
- (d) Participating as to dividends on a pro rata basis with the common stockholders in the surplus of the Parent Company after dividend payments had been made to the preferred shareholders.

On June 28, 2010, the Parent Company's stockholders owning or representing more than two-thirds of the outstanding capital stock confirmed and ratified the approval by the majority of the BOD on their Executive Session held on May 21, 2010, the proposed increase in Parent Company's authorized capital stock and removal of pre-emptive rights from holders of capital stock, whether common or preferred, to subscribe for or to purchase any shares of stock of any class, by amending the Parent Company's Articles of Incorporation.

The proposed P16,000 authorized capital stock is divided into the following classes of stocks:

- (a) 1,400,000,000 common shares with a par value of ten pesos (P10.00) per share.
- (b) 200,000,000 preferred shares with a par value of ten pesos (P10.00) per share.

The removal of pre-emptive rights was approved by the BSP and SEC on October 20, 2010 and November 4, 2010, respectively. On the other hand, the increase in authorized capital stock of the Parent Company was approved by the BSP and SEC on August 24, 2011 and September 16, 2011, respectively.

Common shares may be transferred to local and foreign nationals and shall, at all times, not be less than 60% and not more than 40% of the voting stock, be beneficially owned by local nationals and by foreign nationals, respectively.

23.2 Issuance of Common Shares, Purchase and Reissuance of Treasury Shares

On November 27, 2017, the BOD of the Parent Company approved the increase in the Parent Company's authorized capital through the increase in the authorized common stock from 1,400,000,000 shares to 2,600,000,000 shares at P10 par value per share or for a total capital stock of P14,000 to P26,000. The BOD also approved the amendment of the Parent Company's Articles of Incorporation for the principal purpose of reflecting the said increase in authorized capital. These resolutions were approved by the Parent Company's stockholders representing at least two-thirds of its outstanding capital stock in a special meeting held on January 29, 2018. In the same meeting, the Parent Company's BOD approved the stock rights offering (Rights Offer) to be subscribed out of the increase in the authorized capital. The increase in authorized capital stock and the Rights Offer were approved by the BSP and SEC on June 29, 2018 and July 4, 2018, respectively. The offering of the stock rights representing 535,710,378 common shares (with equivalent amount of P5,357) occurred from June 25 to June 29, 2018 and the shares were listed at the PSE on July 16, 2018 (see Note 28). The Rights Offer and issuance generated P15,000 proceeds, reduced by P217 issue costs; hence, resulting in P9,426 excess of consideration received over par value recognized in Capital Paid in Excess of Par account in the 2018 consolidated statement of changes in equity.

In 2015, the Parent Company issued common shares to Cathay at P64 per share for a total issue price of P7,951. This issuance resulted in the recognition of Capital Paid in Excess of Par amounting to P6,709 reduced by the total issuance cost of P222. The acquisition involves Cathay: (i) acquiring from Hexagon Investments B.V., an entity controlled by funds managed by CVC Asia Pacific Limited, 118,935,590 secondary shares at P64 per share, pursuant to a Sale and Purchase Agreement; (ii) acquiring 36,724,138 secondary common shares from IFC Capitalization Fund also at P64 per share, pursuant to a Sale and Purchase Agreement; and, (iv) entering into a shareholders agreement with PMMIC and the Parent Company.

In 2013, the Parent Company issued common shares to PMMIC and IFC Capitalization Fund at P64 and P58 per share for a total issue price of P4,074 and P4,127, respectively. These issuances resulted in the recognition of Capital Paid in Excess of Par amounting to P3,437 and P3,415, respectively, reduced by total issuance costs of P101.

Also, on September 23, 2011, the Parent Company issued 5,821,548 common shares (equivalent of 18,082,311 preferred shares and with total par value of P58) from the treasury account reissuance (with total cost of P182) and an additional 120,730,177 common stock (with total par value of P1,207) from unissued portion of the increase in authorized capital stock on September 23, 2011 to Hexagon Investments B.V. that is equivalent to approximately 15.00% of the outstanding common shares. The issuance resulted in the recognition of additional Capital Paid in Excess of Par amounting to P2,264.

On March 17, 2011, the Parent Company issued 73,448,275 common shares, comprising of 50,427,931 treasury shares reissuance (with total cost of P771) and 23,020,344 unissued stock (with total par value of P230), to IFC Capitalization Fund for a total consideration of P2,130 representing 7.20% ownership interest. The issuance resulted in the recognition of additional Capital Paid in Excess of Par amounting to P1,078.

23.3 Surplus and Dividend Declarations

The details of the cash dividend distributions follow:

Date Declared	Dividend		Record Date	Date Approved		Date Paid/Payable
	Per Share	Total Amount		by BOD	by BSP

** Not applicable, BSP approval not anymore required during these periods*

In 2015, the BSP, through the Monetary Board, approved the liberalized rules for banks and quasi-banks on dividend declaration. The policy requires that dividend declaration be immediately recognized as a liability upon the approval of the BOD and that it be disclosed in the statement of changes in equity.

A portion of the Parent Company's surplus corresponding to the equity in net earnings of certain subsidiaries and associates totalling P10,883 and P9,839 as of December 31, 2018 and 2017, respectively, is not currently available for distribution as dividends.

23.4 Revaluation Reserves

The components and reconciliation of items of other comprehensive income presented in the statements of changes in equity of the Group and Parent Company at their aggregate amount under Revaluation Reserves account are shown below.

	Revaluation of Financial Assets at FVOCI	Accumulated Translation Adjustments on Foreign Operations	Actuarial Gains (Losses) on Defined Benefit Plan	Total
Balance as of January 1, 2018				
As previously reported	P 1,968	P 85	(P 79)	P 1,974
Effect of adoption of PFRS 9 (see Note 2.2)	<u>456</u>	<u>-</u>	<u>-</u>	<u>456</u>

23.5 Appropriation for General Loan Loss Reserves

Pursuant to the requirements of the BSP under Circular No. 1011, the Group shall recognize general loan loss provisions equivalent to one percent of all outstanding loans as of the end of the reporting period, except for accounts considered as credit risk-free under the existing BSP regulations. In cases when the computed allowance for ECL on those exposures is less than one percent of the general loan loss provisions required, the deficiency is recognized through appropriation from the Group's available Surplus. Such appropriation is considered as Tier 2 capital subject to the limit provided under the CAR framework. The outstanding balance of appropriation for General Loan Loss Reserves as of December 31, 2018 include appropriation recognized at January 1, 2018 upon adoption of the ECL model under PFRS 9 amounting to P2,227 and P1,793 (see Note 2.2) for the Group and Parent Company, respectively, and the additional appropriation made in 2018 amounting to P367 and P319 for the Group and Parent Company, respectively.

23.6 Other Reserves

On December 23, 2013, the SPCs' BOD approved the redemption of the SPCs' respective preferred shares for a total consideration of P1,555. As a result thereof, the Group incurred a redemption loss amounting to P185 and is presented as part of Other Reserves account in the 2013 statement of financial position. On May 30, 2014 and on October 16, 2014, the BOD and SEC approved the execution of the retirement of the preferred shares resulting from the SPC's redemption on December 31, 2014. Consequently, the amount of the redemption loss of P185 previously recognized in the 2013 consolidated statement of changes in equity of the Group, as part Other Reserves account, was transferred directly to Surplus (see Note 15.3).

As of December 31, 2018, this account consists of reserves arising from the acquisition of RCBC LFC and Rizal Microbank for a total of P97.

24. EMPLOYEE BENEFITS

24.1 Salaries and Employee Benefits Expense

Expenses recognized for salaries and other employee benefits are shown below.

	Group		
	2018	2017	2016
Short-term employee benefits	P 6,034	P 5,617	P 5,039
Post-employment defined benefits	528	374	369
	P 6,562	P 5,991	P 5,408
	Parent Company		
	2018	2017	2016
Short-term employee benefits	P 4,138	P 3,857	P 3,386
Post-employment defined benefits	334	307	280
	P 4,472	P 4,164	P 3,666

24.2 Post-employment Defined Benefit Plan

(a) Characteristics of the Defined Benefit Plan

The Parent Company and certain subsidiaries maintain a funded, tax-qualified, non-contributory post-employment benefit plan that is being administered by the Parent Company's and RSB's Trust Departments, covering all regular full-time employees. The Parent Company's and RSB's Trust Departments manage the fund in coordination with the Parent Company's Retirement Committee, Trust Committee and the respective committees of the subsidiaries which act in the best interest of the plan assets and are responsible for setting the investment policies.

The normal retirement age of the Group's employees ranges between 55 to 60 but the plan also provides for an early retirement at age 50 to 55 with a minimum of 10 to 20 years of credited service. The maximum retirement benefit is the lump sum equivalent to 1.25 to 2 months pay per year of continuous employment based on the employees' salary at retirement. Any fraction of a year shall be computed proportionately.

(b) Explanation of Amounts Presented in the Financial Statements

Actuarial valuations are made annually to update the post-employment benefit costs and the amount of contributions. All amounts presented below are based on the actuarial valuation reports obtained from independent actuaries in 2018 and 2017.

The amounts of post-employment benefit obligation recognized in the financial statements are determined as follows:

	Group		Parent Company	
	2018	2017	2018	2017
Present value of the obligation	P 4,800	P 4,995	P 3,880	P 4,126
Fair value of plan assets	(3,321)	(4,891)	(2,460)	(4,100)
Effect of asset ceiling test	2	7	-	7
Deficiency of plan assets	P 1,481	P 111	P 1,420	P 33

The Group's and Parent Company's post-employment defined benefit obligation as of December 31, 2018 and 2017 are included as part of Other Liabilities account in the statements of financial position (see Note 22).

The movements in the present value of the defined benefit obligation follow:

	Group		Parent Company	
	2018	2017	2018	2017
Balance at beginning of year	P 4,995	P 4,953	P 4,126	P 4,156
Current service cost	528	374	334	307
Interest expense	303	274	248	230
Remeasurements – actuarial losses (gains) arising from changes in:				
– financial assumptions	(848)	(230)	(636)	(206)
– experience adjustments	216	(113)	155	(125)
– demographic assumptions	(9)	-	-	-
Benefits paid by the plan	(385)	(263)	(347)	(236)
Balance at end of year	P 4,800	P 4,995	P 3,880	P 4,126

The movements in the fair value of plan assets are presented below.

	Group		Parent Company	
	2018	2017	2018	2017
Balance at beginning of year	P 4,891	P 3,218	P 4,100	P 2,599
Interest income	292	186	245	149
Return (loss) on plan assets (excluding amounts included in net interest)	(1,908)	1,174	(1,865)	1,167
Contributions paid into the plan	431	576	327	421
Benefits paid by the plan	(385)	(263)	(347)	(236)
Balance at end of year	<u>P 3,321</u>	<u>P 4,891</u>	<u>P 2,460</u>	<u>P 4,100</u>

The composition of the fair value of plan assets at the end of each reporting period by category and risk characteristics is shown below.

	Group		Parent Company	
	2018	2017	2018	2017
Cash and cash equivalents	P 473	P 402	P 343	P 311
Debt securities:				
Corporate debt securities	86	299	-	-
Government bonds	407	127	4	4
Equity securities:				
Financial intermediaries	1,778	3,354	1,609	3,124
Transportation and communication	166	208	158	208
Electricity, gas and water	100	170	97	169
Diversified holding companies	46	26	20	22
Others	24	22	1	1
Unquoted long-term equity investments	140	169	140	169
UITF	93	107	80	85
Investment properties	6	6	6	6
Loans and receivables	<u>2</u>	<u>1</u>	<u>2</u>	<u>1</u>
	<u>P 3,321</u>	<u>P 4,891</u>	<u>P 2,460</u>	<u>P 4,100</u>

The fair values of the above debt securities and quoted equity securities are determined based on market prices in active markets. Long-term equity investments represent investment in corporations not listed in active and organized markets. Fair values are determined based on the book value per share based on latest audited financial statements of the investee company. The fair value of the UITF is determined based on the net asset value per unit of investment held in the fund.

The fair value of the plan assets is at Level 1 in the fair value hierarchy except for unquoted long-term equity investments, loans and receivables, investment properties and other investments which are at Level 3.

The returns on plan assets are as follows:

	Group		Parent Company	
	2018	2017	2018	2017
Fair value gains (losses)	(P 1,908)	P 1,174	(P 1,865)	P 1,167
Interest income	292	186	245	149
Actual returns	<u>(P 1,616)</u>	<u>P 1,360</u>	<u>(P 1,620)</u>	<u>P 1,316</u>

The amounts of post-employment benefit expense recognized in the statements of profit or loss and in other comprehensive income in respect of the defined benefit post-employment plan are determined as follows:

	Group		
	2018	2017	2016
<i>Reported in profit or loss:</i>			
Current service cost	P 528	P 374	P 369
Net interest expense	11	88	62
	<u>P 539</u>	<u>P 462</u>	<u>P 431</u>
<i>Reported in other comprehensive income:</i>			
Actuarial gains (losses) arising from changes in:			
– Financial assumptions	P 848	P 230	P 73
– Experience adjustments	(216)	113	(2)
– Demographic assumptions	9	-	6
Effect of asset ceiling test	(2)	(7)	-
Return (loss) on plan assets (excluding amounts included in net interest)	(1,908)	1,174	(402)
	<u>(P 1,269)</u>	<u>P 1,510</u>	<u>(P 325)</u>
	Parent Company		
	2018	2017	2016
<i>Reported in profit or loss:</i>			
Current service costs	P 334	P 307	P 280
Net interest expense	3	81	60
	<u>P 337</u>	<u>P 388</u>	<u>P 340</u>
<i>Reported in other comprehensive income:</i>			
Actuarial gains (losses) arising from changes in:			
– Financial assumptions	P 636	P 206	P 63
– Experience adjustments	(155)	125	(18)
Effect of asset ceiling	-	(7)	-
Return (loss) on plan assets (excluding amounts included in net interest)	(1,865)	1,167	(394)
	<u>(P 1,384)</u>	<u>P 1,491</u>	<u>(P 349)</u>

Current service costs, including the effect of curtailment and past service cost, form part of Employee Benefits under the Other Operating Expenses account, while net interest expense or income is presented as part of Interest Expense – Bills Payable and Other Borrowings or Interest Income Others in the statements of profit or loss.

Amounts recognized in other comprehensive income were included within items that will not be reclassified subsequently to profit or loss.

In determining the amounts of post-employment obligation, the following ranges of actuarial assumptions were used:

	2018	2017	2016
<u>Group</u>			
Discount rates	7.00% - 7.53%	5.48% - 6.00%	5.00% - 5.60%
Expected rate of salary increases	4.00% - 10.50%	4.00% - 8.00%	3.00% - 11.00%
<u>Parent Company</u>			
Discount rates	7.52%	6.00%	5.53%
Expected rate of salary increases	5.00%	5.00%	5.00%

Assumptions regarding future mortality are based on published statistics and mortality tables. The average life expectancy of an individual retiring at the Group's normal retiring age of 60 is based on the 1994 GAM table, set back six years for females. These assumptions were developed by management with the assistance of an independent actuary. Discount factors are determined close to the end of each reporting period by reference to the interest rates of zero coupon government bonds with terms to maturity approximating to the terms of the post-employment obligation. Other assumptions are based on current actuarial benchmarks and management's historical experience.

(c) *Risks Associated with the Retirement Plan*

The plan exposes the Group to actuarial risks such as investment risk, interest rate risk, longevity risk and salary risk.

(i) *Investment and Interest Rate Risks*

The present value of the defined benefit obligation is calculated using a discount rate determined by reference to market yields of government bonds. Generally, a decrease in the interest rate of a reference government bonds will increase the plan obligation. However, this will be partially offset by an increase in the return on the plan's investments in debt securities and if the return on plan asset falls below this rate, it will create a deficit in the plan.

Currently, the plan assets of the Group are significantly invested in equity and debt securities, while the Group also invests in cash and cash equivalents and other investments. Due to the long-term nature of the plan obligation, a level of continuing equity investments is an appropriate element of the Group's long-term strategy to manage the plan efficiently.

(ii) *Longevity and Salary Risks*

The present value of the defined benefit obligation is calculated by reference to the best estimate of the mortality of the plan participants during their employment, and to their future salaries. Consequently, increases in the life expectancy and salary of the plan participants will result in an increase in the plan obligation.

(d) Other Information

The information on the sensitivity analysis for certain significant actuarial assumptions, the Group's asset-liability matching strategy, and the timing and uncertainty of future cash flows related to the post-employment plan are described below.

(i) Sensitivity Analysis

The following table summarizes the effects of changes in the significant actuarial assumptions used in the determination of the defined benefit obligation as of December 31, 2018 and 2017:

Group					
Impact on Post-employment Defined Benefit Obligation					
	Change in Assumption		Increase in Assumption		Decrease in Assumption
2018:					
Discount rate	+/- 1 %	(P	97)	P	465
Salary growth rate	+/- 1 %		478	(	421)
2017:					
Discount rate	+/- 1%	(P	323)	P	403
Salary growth rate	+/- 1%		480	(	388)
Parent Company					
Impact on Post-employment Defined Benefit Obligation					
	Change in Assumption		Increase in Assumption		Decrease in Assumption
2018:					
Discount rate	+/- 1%	(P	34)	P	397
Salary growth rate	+/- 1%		404	(	355)
2017:					
Discount rate	+/- 1%	(P	391)	P	456
Salary growth rate	+/- 1%		413	(	363)

The sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. This analysis may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the sensitivity analysis, the present value of the defined benefit obligation at the end of each reporting period has been calculated using the projected unit credit method, which is the same as that applied in calculating the defined benefit obligation recognized in the statements of financial position.

(ii) *Asset-liability Matching Strategies*

To efficiently manage the retirement plan, the Group through its Retirement Plan Committee in coordination with the Group's Trust Departments, ensures that the investment positions are managed considering the computed retirement obligations under the retirement plan. This strategy aims to match the plan assets to the retirement obligations due by investing in assets that are easy to liquidate (i.e., government securities, corporate bonds, equities with high value turnover). As the Group's retirement obligations are in Philippine peso, all assets are invested in the same currency. The Group actively monitors how the duration and the expected yield of the investments are matching the expected cash outflows arising from the retirement obligations. In view of this, various investments are made in a portfolio that may be liquidated within a reasonable period of time.

A large portion of the plan assets as of December 31, 2018 and 2017 consists of equity securities with the balance invested in fixed income securities and cash and cash equivalents. The Group believes that equity securities offer the best returns over the long term with an acceptable level of risk.

(iii) *Funding Arrangements and Expected Contributions*

The plan is currently underfunded by P1,481 and P1,420 for the Group and Parent Company, respectively, based on the latest funding actuarial valuations in 2018.

The maturity profile of undiscounted expected benefit payments from the plan within 10 years from the end of each reporting period follows:

	<u>Group</u>		<u>Parent Company</u>	
	<u>2018</u>	<u>2017</u>	<u>2018</u>	<u>2017</u>
Less than one year	P 161	P 226	P 28	P 44
More than one year to five years	1,457	1,319	1,002	1,094
More than five years to ten years	<u>3,581</u>	<u>2,425</u>	<u>2,995</u>	<u>1,984</u>
	<u>P 5,199</u>	<u>P 3,970</u>	<u>P 4,025</u>	<u>P 3,122</u>

The Group and Parent Company expects to contribute P436 and P336, respectively, to the plan in 2019.

25. MISCELLANEOUS INCOME AND EXPENSES

These accounts consist of the following:

25.1 Miscellaneous Income

	Notes	Group		
		2018	2017	2016
Rentals	14.2	P 765	P 741	P 614
Dividend income	10.2	189	234	449
Recoveries from written off assets		206	187	161
Gains on assets sold – net	11,14.1, 15.3	96	441	120
Others		292	290	254
		P 1,548	P 1,893	P 1,598

	Notes	Parent Company		
		2018	2017	2016
Rentals	14.2, 28.5(a)	P 454	P 419	P 407
Dividend income	10.2	187	196	307
Recoveries from written off assets		143	146	127
Gains on assets sold – net	14.1, 15.3	28	232	12
Others		143	136	231
		P 955	P 1,129	P 1,084

Miscellaneous income classified as Others includes rebates, penalty charges and other income items that cannot be appropriately classified under any of the foregoing income accounts.

25.2 Miscellaneous Expenses

	Note	Group		
		2018	2017	2016
Insurance		P 946	P 759	P 738
Credit card-related expenses		894	907	663
Communication and information services		488	447	450
Management and other professional fees		454	368	408
Transportation and travel		294	217	206
Advertising and publicity		237	323	276
Litigation/assets acquired expenses		228	166	385
Banking fees		227	193	194
Service and processing fees		223	155	78
Stationery and office supplies		172	149	132
Other outside services		139	130	126
Donation and charitable contribution		53	51	38
Representation and entertainment		43	22	45

Other outside services		113	115	113
Stationery and office supplies		108	92	86
Litigation/assets acquired expense		100	50	181
Donations and charitable contributions		52	51	35
Representation and entertainment		32	22	13
Membership fees		22	19	18
Others	29.6	599	572	1,411
		P 4,510	P 4,083	P 4,556

The Group's other expenses are composed of freight, various processing fees, fines and penalties, and seasonal giveaways. The Group and Parent Company's other expenses also include fees for records, facilities and management services to a related party under common control amounting to P103 and P78, P101 and P67, and P77 and P52 in 2018, 2017 and 2016 respectively (see Note 28).

26. INCOME AND OTHER TAXES

Under Philippine tax laws, the Parent Company and its domestic subsidiaries are subject to percentage and other taxes (presented as Taxes and Licenses in the statements of profit or loss), as well as income taxes. Percentage and other taxes paid consist principally of the gross receipts tax (GRT) and documentary stamp tax (DST).

RA No. 9238, which was enacted on February 10, 2004, provides for the reimposition of GRT on banks and non-bank financial intermediaries performing quasi-banking functions and other non-bank financial intermediaries beginning January 1, 2004.

The recognition of liability of the Parent Company and certain subsidiaries for GRT is based on the related regulations issued by the tax authorities.

Income taxes include the regular corporate income tax (RCIT) of 30%, and final tax paid at the rate of 20%, which represents the final withholding tax on gross interest income from government securities and other deposit substitutes.

Interest allowed as a deductible expense is reduced by an amount equivalent to certain percentage of interest income subjected to final tax. Minimum corporate income tax (MCIT) of 2% on modified gross income is computed and compared with the RCIT. Any excess of the MCIT over the RCIT is deferred and can be used as a tax credit against regular income tax liability in the next three consecutive years. In addition, the Group's net operating loss carry over (NOLCO) is allowed as a deduction from taxable income in the next three consecutive years.

Effective May 2004, RA No. 9294 restored the tax exemption of FCDUs and offshore banking units (OBUs). Under such law, the income derived by the FCDU from foreign currency transactions with non-residents, OBUs, local commercial banks including branches of foreign banks is tax-exempt while interest income on foreign currency loans from residents other than OBUs or other depository banks under the expanded system is subject to 10% gross income tax.

Interest income on deposits with other FCDUs and offshore banking units is subject to 7.5% final tax.

In 2018, 2017 and 2016, the Group opted to continue claiming itemized deductions for income tax purposes.

The Parent Company's foreign subsidiaries are subject to income and other taxes based on the enacted tax laws of the countries and/or jurisdictions where they operate.

26.1 Current and Deferred Taxes

The tax expense (income) as reported in the statements of profit or loss consists of:

	Group		
	2018	2017	2016
Current tax expense:			
RCIT	P 664	P 711	P 414
Final tax	403	203	177
Excess MCIT over RCIT	<u>3</u>	<u>2</u>	<u>190</u>
	1,070	916	781
Application of MCIT	<u>-</u>	<u>(356)</u>	<u>-</u>
	1,070	560	781
Deferred tax expense (income) relating to origination and reversal of temporary differences	(198)	281	(955)
	<u>P 872</u>	<u>P 841</u>	<u>(P 174)</u>
Parent Company			
	2018	2017	2016
Current tax expense:			
RCIT	P 522	P 563	P 140
Final tax	313	147	173
Excess MCIT over RCIT	<u>-</u>	<u>-</u>	<u>190</u>
	835	710	503
Application of MCIT	<u>-</u>	<u>(356)</u>	<u>-</u>
	835	354	503
Deferred tax expense (income) relating to origination and reversal of temporary differences	(22)	343	(842)
	<u>P 813</u>	<u>P 697</u>	<u>(P 339)</u>

A reconciliation of tax on pretax profit computed at the applicable statutory rates to tax expense (income) reported in profit or loss is as follows:

	Group					
	2018		2017		2016	
Tax on pretax profit at 30%	P	1,558	P	1,545	P	1,109
Adjustments for income subjected to lower income tax rates	(	496)	(	434)	(	180)
Tax effects of:						
Non-taxable income	(	1,239)	(	786)	(	845)
Non-deductible expenses		1,059		595		520
Recognition of previously unrecognized deferred tax asset		123		-	(	865)
Utilization of MCIT		-		356		-
FCDU income	(	182)	(	306)	(	388)
Unrecognized temporary differences		46	(	130)		97
Utilization of NOLCO		-		1		374
Others		3		-		4
	P	872	P	841	(P	174)
	Parent Company					
	2018		2017		2016	
Tax on pretax profit at 30%	P	1,540	P	1,502	P	1,059
Adjustments for income subjected to lower income tax rates	(	431)	(	384)	(	118)
Tax effects of:						
Non-taxable income	(	1,113)	(	899)	(	889)
Non-deductible expenses		1,030		531		420
FCDU income	(	169)	(	275)	(	388)
Unrecognized temporary differences	(	44)	(	134)		-
Recognition of previously unrecognized deferred tax asset		-		-	(	797)
Utilization of MCIT		-		356		-
Utilization of NOLCO		-		-		374
	P	813	P	697	(P	339)

The deferred tax assets of the Group recognized in the consolidated statements of financial position as of December 31, 2018 and 2017 relate to the operations of the Parent Company and certain subsidiaries as shown below.

	Statements of Financial Position		Statements of Profit or Loss		
	2018	2017	2018	2017	2016
Allowance for impairment	P 1,646	P 1,610	P 36	(P 9)	P 867
Provision for credit card reward payments	156	127	29	22	105
Excess MCIT	59	60	(1)	(296)	356
Post-employment benefit obligation	136	52	84	(8)	39
Deferred rent – PAS 17	38	30	8	13	16
NOLCO	3	-	3	-	(443)
Others	56	17	39	(3)	15
Deferred tax assets	P 2,094	P 1,896			
Deferred tax income (expense) – net			P 198	(P 281)	P 955

In 2016, the Parent Company utilized a portion of its NOLCO available at that year amounting to P1,246.

The deferred tax assets of the Parent Company recognized in its statements of financial position as of December 31, 2018 and 2017 is shown below.

	Statements of Financial Position		Statements of Profit or Loss		
	2018	2017	2018	2017	2016
Allowance for impairment	P 713	P 720	(P 7)	(P 60)	P 780
Provision for credit card reward payments	156	127	29	22	105
Post-employment benefit obligation	43	52	(9)	34	18
Deferred rent – PAS 17	38	30	8	13	17
Excess MCIT	-	-	-	(356)	356
NOLCO	-	-	-	-	(443)
Others	14	13	1	4	9
Deferred tax assets	<u>P 964</u>	<u>P 942</u>			
Deferred tax income (expense) – net			<u>P 22</u>	<u>(P 343)</u>	<u>P 842</u>

The Parent Company and certain subsidiaries have not recognized deferred tax assets on certain temporary differences since management believes that the Parent Company and certain subsidiaries may not be able to generate sufficient taxable profit in the future against which the tax benefits arising from those deductible temporary differences, NOLCO and other tax credits can be utilized.

The unrecognized deferred tax assets relate to the following:

	Group		Parent Company	
	2018	2017	2018	2017
Allowance for impairment	P 1,441	P 925	P 1,399	P 763
Excess MCIT	4	60	-	-
NOLCO	4	51	-	-
Post-employment benefit obligation	-	24	-	-
Advance rental	-	1	-	-
	<u>P 1,449</u>	<u>P 1,061</u>	<u>P 1,399</u>	<u>P 763</u>

Consequently, deferred tax liabilities were also not recognized on certain taxable temporary differences as the settlement of those can be offset by the available deductible temporary differences in the future.

In addition, deferred tax liabilities on accumulated translation adjustments, relating to its foreign subsidiaries were not recognized since their reversal can be controlled, and it is probable that the temporary difference will not reverse in the foreseeable future.

The details of the Group's NOLCO, which can be claimed as deduction from future taxable income within three years from the year the taxable loss was incurred and within five years from the year SPC losses were incurred, is shown below.

<u>Inception Year</u>	<u>Amount</u>	<u>Utilized</u>	<u>Expired</u>	<u>Balance</u>	<u>Expiry Year</u>
2018	P 11	P -	P -	P 11	2021
2017	5	-	-	5	2020
2016	8	-	-	8	2019
2015	<u>159</u>	<u>37</u>	<u>122</u>	<u>-</u>	
	<u>P 183</u>	<u>P 37</u>	<u>P 122</u>	<u>P 24</u>	

The breakdown of the Group's excess MCIT over RCIT with the corresponding validity periods follows:

<u>Inception Year</u>	<u>Amount</u>	<u>Utilized</u>	<u>Expired</u>	<u>Balance</u>	<u>Expiry Year</u>
2018	P 59	P -	P -	P 59	2021
2017	52	50	-	2	2020
2016	2	-	-	2	2019
2015	<u>1</u>	<u>-</u>	<u>1</u>	<u>-</u>	
	<u>P 114</u>	<u>P 50</u>	<u>P 1</u>	<u>P 63</u>	

The MCIT applied by the Group in 2017 solely pertains to the MCIT of the Parent Company as it has generated net taxable income and is liable for RCIT for that year.

26.2 Supplementary Information Required Under RR 15-2010 and RR 19-2011

The BIR issued RR 15-2010 on November 25, 2010 which require certain tax information to be disclosed as part of the notes to financial statements. Such supplementary information is, however, not a required part of the basic financial statements prepared in accordance with PFRS; it is neither a required disclosure under the SEC rules and regulations covering form and content of financial statements under the Securities Regulation Code Rule 68, as amended.

The Parent Company presented this tax information required by the BIR as a supplemental schedule filed separately from the basic financial statements.

27. TRUST OPERATIONS

Securities and properties (other than deposits) held by the Parent Company and RSB in fiduciary or agency capacities for their respective customers are not included in the financial statements, since these are not resources of the Parent Company and RSB. The Group's total trust resources amounted to P87,619 and P91,585 as of December 31, 2018 and 2017, respectively. The Parent Company's total trust resources amounted to P58,041 and P64,395 as of December 31, 2018 and 2017, respectively (see Note 29.1).

Investment in government securities which are shown as part of Investment securities at amortized cost (see Note 10.3) with a total face value of P955 and P606 for the Group and the Parent Company, respectively, as of December 31, 2018, and P913 and P604 for the Group and the Parent Company, respectively, as of December 31, 2017 are deposited with the BSP as security for faithful compliance with fiduciary obligations.

28. RELATED PARTY TRANSACTIONS

The Group and Parent Company's related parties include its ultimate parent company, subsidiaries, entities under common ownership, key management personnel and others.

A summary of the Group's and Parent Company's transactions and outstanding balances of such transactions with related parties as of and for the years ended December 31, 2018, 2017 and 2016 is presented below.

		Group

In the ordinary course of business, the Group has loan transactions with each other, their other affiliates, and with certain Directors, Officers, Stockholders and Related Interests (DOSRIs). Under existing policies of the Group, these loans are made substantially on the same terms as loans to other individuals and businesses of comparable risks.

Under the current BSP regulations, the amount of individual loans to a DOSRI, 70% of which must be secured, should not exceed the amount of the encumbered deposit and book value of the investment in the Group and Parent Company and/or any of its lending and nonbank financial subsidiaries. In the aggregate, loans to DOSRIs, generally, should not exceed the total equity or 15% of the total loan portfolio of the Group and Parent Company. However, non-risk loans are excluded in both individual and aggregate ceiling computation.

The following table shows the other information relating to the loans, other credit accommodations and guarantees granted to DOSRI as of December 31 in accordance with BSP reporting guidelines:

	Group		Parent Company	
	2018	2017	2018*	2017
Total outstanding				
DOSRI loans	P 500	P 542	P 469	P 509
Unsecured DOSRI	94	71	83	61
Past due DOSRI	-	1	-	1
Non-accruing DOSRI	2	1	2	1
Percent of DOSRI loans to total loan portfolio	0.13%	0.15%	0.16%	0.19%
Percent of unsecured DOSRI loans to total DOSRI loans	18.80%	13.10%	17.70%	11.98%
Percent of past due DOSRI loans to total DOSRI	0.00%	0.13%	0.01%	0.14%
Percent of non-accruing DOSRI loans to total DOSRI loans	0.40%	0.13%	0.51%	0.14%

*excludes exposure from a subsidiary

On January 31, 2007, BSP issued Circular No. 560, *Ceiling on Loans, Other Credit Accommodations and Guarantees Granted to Subsidiaries and Affiliates*, which provides the rules and regulations that govern loans, other credit accommodations and guarantees granted to subsidiaries and affiliates of banks and quasi-banks. Under the said circular, the total outstanding exposures to each of the Parent Company's subsidiaries and affiliates shall not exceed 10% of bank's net worth, the unsecured portion of which shall not exceed 5% of such net worth. Further, the total outstanding exposures to subsidiaries and affiliates shall not exceed 20% of the net worth of the lending bank.

As of December 31, 2018 and 2017, the Group and Parent Company is in compliance with these regulatory requirements.

As of December 31, 2018 and 2017, the Group recognized impairment loss on certain loans and receivables from DOSRI amounting to P0.2 and P0.06, respectively, and is recognized as part of Impairment Losses account in the statements of profit or loss.

28.2 Deposit Liabilities

The summary of the Group's and Parent Company's significant transactions and the related outstanding balances for deposit liabilities with its related parties as of and for the years ended December 31, 2018, 2017 and 2016 are as follows (see Note 17):

Deposit liabilities transactions with related parties have similar terms with other counterparties.

28.3 Sale and Purchase of Securities

The Parent Company's and certain subsidiaries engage in the trading of investment securities as counterparties to the transaction. These transactions are priced similar to transactions with other counterparties outside the Group and there are no unsettled transactions as of the end of each reporting period.

28.4 Retirement Fund

The Parent Company and certain subsidiaries' retirement funds covered under their defined benefit post-employment plan maintained for qualified employees are administered and managed by the Parent Company's and RSB's Trust Departments in accordance with the respective trust agreements covering the plan.

The retirement funds have transactions with the Group and Parent Company as of December 31, 2018, 2017 and 2016 as follows:

<u>Nature of Transactions</u>	<u>Group</u>		<u>Parent Company</u>	
	<u>Net Amount of Transaction</u>	<u>Outstanding Balance</u>	<u>Net Amount of Transaction</u>	<u>Outstanding Balance</u>
2018:				
Investment in common shares of Parent Company	(P 855)	P 1,867	(P 853)	P 1,863
Investments in corporate debt securities	49	51	49	49
Deposits with the Parent Company	(312)	5	(311)	-
Fair value losses	(855)	-	(849)	-
Interest income	5	-	3	-
2017:				
Investment in common shares of Parent Company	(P 6)	P 3,123	(P 6)	P 3,123
Investments in corporate debt securities	(49)	2	(49)	-
Deposits with the Parent Company	245	317	239	311
Fair value gains	1,272	-	1,266	-
Interest income	5	-	4	-
2016:				
Investment in common shares of Parent Company	P -	P 1,866	P -	P 1,863
Investments in corporate debt securities	(5)	51	-	49
Deposits with the Parent Company	75	72	72	72
Fair value gains	29	-	31	-
Interest income	4	-	3	-

The carrying amount and the composition of the plan assets as of December 31, 2018 and 2017 are disclosed in Note 24.2. Investments in corporate debt securities include long-term negotiable certificates of deposit issued by the Parent Company.

The information on the Group's and Parent Company's contributions to the retirement fund and benefit payments through the fund are disclosed in Note 24.2.

The retirement fund neither provides any guarantee or surety for any obligation of the Group nor its investments in its own shares of stock covered by any restriction and liens.

28.5 Other Related Party Transactions

(a) Lease Contracts with RRC and Sublease Agreement with Subsidiaries

The Parent Company and certain subsidiaries occupy several floors of RCBC Plaza as leaseholders of RRC [see Note 29.8(b)]. Rental expense incurred by the Group related to this lease arrangement is included as part of Occupancy and Equipment-related expenses account in the statements of profit or loss. The Parent Company's lease contract with RRC is effective until December 31, 2020.

The Parent Company entered into sublease agreements with certain subsidiaries which occupy several floors of RCBC Plaza. Rental income by Parent Company related to these sublease arrangements is included as part of Rentals under the Miscellaneous income account in the statements of profit or loss (see Notes 14.2). The outstanding receivable on the lease contracts, if any, is presented as part of Accounts receivable under Loans and Receivables account in the statements of financial position (see Note 11). The related outstanding receivable is unsecured, noninterest-bearing and payable in cash on demand. Management believes that the receivables on the sublease agreements are fully recoverable.

(b) Lease Contract on RSB Corporate Center

In October 2013, the Parent Company and RSB entered into a lease agreement covering certain office and parking spaces of RSB Corporate Center at a monthly rental fee of P7. The monthly rental payments are subject to an escalation rate of 5% annually effective in 2014 up to the 5th year of the lease term. The initial lease is for a period of five years which ended in October 2018 and was renewed in September 2018 for an extended period. The outstanding receivable on the lease contract is presented as part of Accounts receivable under Loans and Receivables account in the statements of financial position (see Note 11). The related outstanding receivable is unsecured, noninterest-bearing and payable in cash on demand. Management believes that receivable from the lease contract is fully recoverable.

(c) Service Agreement with RBSC

The Parent Company has Service Agreement (the Agreement) with RBSC, wherein RBSC shall provide the Parent Company with marketing, distribution, technical, collection and selling assistance and processing services in connection with the operation of the Parent Company's credit card business. The total service processing fees incurred by the Parent Company is recognized as part of the Service and processing fees under the Miscellaneous Expenses account in the statements of profit or loss (see Note 25.2). The outstanding payable related to the service agreement is presented as part of Accounts payable under Other Liabilities account in the statements of financial position (see Note 22). The related outstanding payable is unsecured, noninterest-bearing and payable in cash on demand.

(d) Key Management Personnel Compensation

The breakdown of key management personnel compensation follows:

	Group		
	2018	2017	2016
Short-term employee benefits	P 619	P 442	P 361
Post-employment defined benefits	18	16	15
	P 637	P 458	P 376

	Parent Company		
	2018	2017	2016
Short-term employee benefits	P 298	P 328	P 271
Post-employment defined benefits	-	-	-
	P 298	P 328	P 271

29. COMMITMENTS AND CONTINGENCIES

In the normal course of operations of the Group, there are various outstanding commitments and contingent liabilities such as guarantees, commitments to extend credit, tax assessments, claims from customers and third parties, etc., with amounts not reflected in the financial statements. Management does not anticipate losses from these transactions that will adversely affect the Group's operations.

In the opinion of management, the suits and claims arising from the normal course of operations of the Group that remain unsettled, if decided adversely, will not involve sums that would have material effect on the Group's financial position or operating results.

29.1 Contingent Accounts, Guarantees and Other Commitments

The following is a summary of contingencies and commitments arising from transactions not given recognition in the statement of financial position, expressed at their equivalent peso contractual amounts as of December 31, 2018 and 2017:

	Group		Parent Company	
	2018	2017	2018	2017
Trust department accounts	P 87,639	P 91,585	P 58,061	P 64,395
Derivative assets	57,253	46,230	57,253	46,230
Derivative liabilities	53,261	41,822	53,261	41,822
Outstanding guarantees issued	49,553	41,858	49,553	41,858
Unused commercial letters of credit	19,231	17,055	19,194	17,055
Spot exchange sold	6,436	6,307	6,331	6,198
Spot exchange bought	6,330	6,204	6,330	6,204
Inward bills for collection	1,009	1,407	1,009	1,407
Outward bills for collection	614	133	614	133
Late deposits/payments received	607	566	569	434
Others	17	17	17	17

29.2 Sale of National Steel Corporation (NSC) Plant Asset

In October 2008, Global Steel Philippines (SPV-AMC), Inc. (GSPI) and Global Ispat Holdings (SPV-AMC), Inc. (GIHI) (collectively, "Global Steel"), which purchased the Iligan Plant assets of the NSC ("NSC Plant Assets") from the Liquidator in 2004, initiated arbitral proceedings against the Liquidator and the Secured Creditors, including the Parent Company and RCAP, with the Singapore International Arbitration Centre ("SIAC") for their failure to deliver the NSC Plant Assets free and clear from liens and encumbrances. This purportedly prevented Global Steel from using the same as collateral for additional loans for the operations and upgrade of the NSC Plant. On May 9, 2012, the SIAC Arbitral Tribunal rendered a Partial Award directing the Liquidator and Secured Creditors to pay Global Steel the total amount of (a) US\$80, as and by way of lost opportunity to make profit, and (b) P1,403, representing the value of the undelivered Billet Shop Land measuring 3.4071 hectares (the "Lost Land Claim").

On appeal, and on July 31, 2014, the Singapore High Court set aside the Partial Award, and (a) subsequently ordered the lifting of the 2008 injunctions issued against the Secured Creditors, thereby empowering the Secured Creditors to compel Global Steel to comply with their obligations under the Omnibus Agreement (OMNA)/Asset Purchase Agreement (APA) and take legal action upon Global Steel's failure to do so, and (b) directed the release of Global Steel's installment payment to the Secured Creditors, which enabled the Parent Company and RCAP to receive their respective share therein.

On March 31, 2015, the Singapore Court of Appeals affirmed the earlier decision of the Singapore High Court which set aside the monetary award of US\$80 and P1,403 in favor of Global Steel, and deemed improper the deferment of Global Steel's obligation to pay the purchase price of the NSC Plant Assets. The Singapore Court of Appeals further held that (a) the SIAC Arbitral Tribunal had no jurisdiction over the issue of lost opportunity to make profit, (b) there is no evidentiary support for such award, and (c) the ruling on the issue of the Lost Land Claim, as well as the dispute relating to Global Steel's payment obligation, both relate to the OMNA, which is not arbitrable. Accordingly, the SIAC Arbitral Tribunal cannot compel the Parent Company, RCAP and the other Secured Creditors to defer holding Global Steel in default. However, the Singapore Court of Appeals held that the NSC Liquidator and Secured Creditors are still required to deliver to Global Steel clean title to the NSC Plant Assets.

On November 27, 2015, the Singapore Court of Appeals clarified that the issue of Global Steel's lost opportunity to make profit cannot be remanded to the SIAC Arbitral Tribunal, or to a new arbitral tribunal, to be litigated anew after the setting aside of the Partial Award. The doctrines of res judicata and abuse of process also operated to preclude the reopening of this issue. However, the Singapore Court of Appeals held that the Lost Land Claim may be brought before a new arbitral tribunal. The Singapore Court of Appeals likewise awarded litigation costs to the Liquidator but none to the Secured Creditors.

The Parent Company's estimated exposure is approximately P216 in terms of estimated property taxes and transfer costs due on the NSC Plant Assets, while it has a receivable from Global Steel in the amount of P486, taking into consideration the P49 share it received from Global Steel's installment payment. The Parent Company has recognized full impairment loss on the receivable since then, with the gross amount of receivable classified as UDSC under Loans and Receivable account. The Parent Company's exposure, however, may be varied depending on whether the Iligan City's assessment of the post-closing taxes will be sustained as valid (including those imposed on non-operational machineries), now that all pre-closing taxes on the NSC assets sold to Global Steel, covering the period 1999 to October 14, 2004, are deemed paid, following the finality of the Supreme Court Decision against the City of Iligan and the issuance of an Entry of Judgment on March 16, 2016, in the case initiated solely by the NSC Liquidator.

In defiance, however, of the final and executory ruling against the City of Iligan, (a) issued a Notice of Delinquency against NSC for tax arrears covering the period 1999 to 2016, (b) levied the NSC properties, and (c) set the public auction thereof on October 19, 2016, even as the Local Government Unit (LGU) received the October 18, 2016 Writ of Execution issued by the Regional Trial Court of Makati City, Branch 57 ("Makati Trial Court"), directing it to (a) comply with the affirmed Tax Amnesty Agreement dated October 13, 2004, and (b) afford NSC relief from the payment of interests and penalties. On November 3, 2016, the Iligan City police took possession of the NSC Plant compound. On November 4, 2016, the NSC, through the Liquidator, filed an Omnibus Motion to (a) direct the City of Iligan, the Sangguniang Panglunsod and City Treasurer to show cause why they should not be held in contempt, and (b) nullify the October 19, 2016 Auction Sale of the NSC properties.

In an Order dated April 4, 2017, the Makati Trial Court (a) nullified the public auction of the NSC properties, and (b) enjoined the collection of any and all real property tax against the NSC until the Decision dated October 7, 2011 holding that the NSC pre-closing taxes have been paid, is fully executed and the NSC's remaining tax liabilities are correctly computed. The Makati Trial Court likewise (a) directed the Iligan City Treasurer to show cause why she should not be held in contempt of court for proceeding with the auction sale without clearing the NSC of the pre-closing taxes, and (b) directed the Iligan City Treasurer, among others, to inform the Makati Trial Court of the names of the persons who ordered, aided and abetted her assailed conduct. The LGU and the Iligan City Treasurer, among others, moved for the reconsideration of the April 4, 2017 Order, which was denied by the Makati Trial Court.

The City of Iligan filed a Petition for Certiorari dated July 6, 2018 with the Court of Appeals, reiterating the claim that the said LGU had the right to auction the NSC properties due to non-payment of both pre-closing and post-closing taxes. The Petition likewise alleged that (a) the writ of execution issued by the Makati Trial Court was null and void, and (b) the case before the Makati Trial Court was an action to assail the tax delinquency auction sale which should not have been given due course for non-payment of docket fees and non-deposit of the contested tax amount of P4,610.

29.3 Verotel Merchant Services B.V. Case

In 2011, Verotel Merchant Services B.V. ("VMS"), a Netherlands corporation and an Internet merchant providing on-line adult entertainment, on-line gambling, and on-line selling of pharmaceuticals, and Verotel International Industries, Inc. ("VII"), a Philippine corporation, civilly sued the Parent Company, Bankard, Inc. ("Bankard"), Grupo Mercarse Corp., CNP Worldwide, Inc. and several individuals before the Los Angeles Superior Court for various causes of action including fraud, breach of contract and accounting, claiming that VII and its alleged parent company, VMS, failed to receive the total amount of US\$1.5, which the defendants allegedly misappropriated.

The case went to trial in January 2016, where the issues on prescription, VII's lack of capacity to sue and VMS's lack of standing to sue were reserved for the Presiding Judge's disposition. On January 27, 2016, the jury rendered a verdict solely in favor of VMS. After manifesting their intention to file a motion for judgment notwithstanding verdict ("JNOV") and motion for new trial, the Parent Company/Bankard filed the same on April 11, 2016. On April 27, 2016, the Parent Company/Bankard likewise timely filed their Reply to the Oppositions filed by VII/VMS.

On May 12, 2016, the Parent Company/Bankard's Motion for JNOV was partially granted, wherein the award of US\$7.5 punitive damages to VMS was deleted due to insufficient proof that (a) a corporate officer of the Parent Company/Bankard knew of, authorized, or ratified fraudulent acts, and (b) Janet Conway was a managing agent of the Parent Company/Bankard within the meaning of the California Civil Code Section 3294(b). However, the Presiding Judge ruled that Conway was an agent for some purpose and awarded US\$1.5 to VMS. The Presiding Judge likewise denied the Parent Company/Bankard's Motion for New Trial, and awarded VMS pre-judgment interest in the amount of US\$0.5.

On July 11, 2016, the Parent Company/Bankard filed their Notice of Appeal on the partial denial of their Motion for JNOV with the California Court of Appeals. VMS filed its own Notice of Appeal. On July 21, 2016, the Parent Company/Bankard timely posted the amount of US\$3.1, as and by way of security to stay the enforcement of the Amended Judgment rendered by the Presiding Judge.

On September 8, 2016, VMS filed its unsealed Certificate of Interested Persons, after the California Court of Appeals sustained the Parent Company/Bankard's position that the identities of the persons behind VMS is central to the issue of whether VMS has legal standing to sue and is entitled to any damages. In an Order dated/ filed on November 16, 2016, the California Court of Appeals adopted the briefing sequence proposed by the Parent Company/ Bankard, thus, allowing the full ventilation of the case on appeal.

Subsequently, on March 7, 2017, the Presiding Judge directed the Parent Company/Bankard to pay VMS the additional amount of US\$0.08 covering cost of proof sanctions, ruling that the Parent Company/Bankard unjustifiably denied VMS's request for admission that they failed to comply with MasterCard and VISA association rules. The Parent Company/Bankard timely filed their Notice of Appeal but no longer posted any additional filing fees, following VMS's agreement not seek to enforce of the said award during the pendency of the appeal.

The Parent Company/Bankard filed their Revised Opening Brief on their Appeal on October 2, 2017, pointing out that: (a) VMS failed to prove that its losses was caused by the Parent Company/Bankard, as the evidence indicate that, in a side deal without Bankard's knowledge and consent, VMS was processing transactions under/using the Merchant ID of another merchant which did not remit all of the sales proceeds so generated; (b) there is no contract/ processing relationship between VMS and Bankard; (c) there is no substantial evidence proving that the Parent Company/Bankard caused VMS's loss under agency law, given that (i) Conway could not be Bankard's agent as a matter of law, because she was defrauding Bankard, (ii) plaintiffs did not establish that Conway was an agent of Bankard, (iii) plaintiff did not establish that Conway was a purported agent of Bankard, and (iv) plaintiffs did not establish that Conway's wrongful conduct was within the scope of her agency; and, (d) the Presiding Judge abused his discretion in awarding cost of proof sanctions.

On March 28, 2018, the Parent Company/Bankard was advised of the filing of VMS's Combined Respondents' Brief and Cross-Appellants' Opening Brief. On August 14, 2018, the Parent Company/Bankard filed their combined Reply and Cross-Respondent's Brief. In accordance with prior stipulations, VMS timely filed its Final Reply Brief dated October 31, 2018. The parties are now awaiting the advice of the California Court of Appeals on the schedule date of the oral arguments.

29.4 Applicability of RR 4-2011

On March 15, 2011, the Bureau of Internal Revenue issued RR 4-2011, which prescribed that for income tax reporting purposes, banks and other financial institutions must (a) report costs and expenses either under RBU or FCDU/EFCDU or OBU if specifically identified as such; or (b) allocate such cost and expenses, which cannot be specifically identified, based on percentage share of gross income earnings of a unit. The BIR, however, issued assessment notices to the Parent Company, other banks and financial institutions for deficiency income tax for alleged non-intra-unit allocation of costs and expenses to exempt income and income subjected to final tax within RBU.

On April 6, 2015, the Parent Company and other member-banks of the Bankers Association of the Philippines (“other BAP member banks”) filed a Petition for Declaratory Relief with Application for TRO and/or Writ of Preliminary Injunction with the Regional Trial Court of Makati (“Makati Trial Court”), wherein it was pointed out, among others, that (a) RR 4-2011 violates the Parent Company and other BAP member banks’ procedural and substantive due process rights; (b) it serves as a deterrent to banks to invest in capital market transactions to the prejudice of the economy; (c) it sets a dangerous precedent for the disallowance of full deductions due to the prescribed method of allocation; and, (d) it violated the equal protection clause of the Constitution for requiring the Parent Company and other BAP member banks to adopt a method of allocation when other institutions and taxpayers were not being required to do so by the Department of Finance (“DOF”) and BIR.

On April 8, 2015, the Makati Trial Court issued a TRO enjoining the BIR from enforcing RR 4-2011. Also, on April 27, 2015, the Makati Trial Court issued a Writ of Preliminary Injunction enjoining the BIR from enforcing, carrying out, or implementing in any way or manner RR 04-2011 against the Parent Company and other BAP member banks, including the issuance of Preliminary Assessment Notice or Final Assessment Notice against them during the pendency of the litigation, unless sooner dissolved.

On June 10, 2015, the Makati Trial Court issued a Confirmatory Order stating that the TRO and Writ of Preliminary Injunction also prohibits the BIR from ruling or deciding on any administrative matter pending before it in relation to the subject revenue regulations and insofar as the Parent Company and other BAP member banks are concerned. The pre-trial conference of the case began on August 2, 2016 and continued until August 3, 2017. During the hearing on August 3, 2017, in lieu of trial for the resolution of the case, the Makati Trial Court directed the parties to file their respective Memorandum on September 15, 2017, which has been complied with. In an Order dated May 25, 2018, the Makati Trial Court granted the Petition for Declaratory Relief and declared RR 4-2011 null and void for being issued beyond the authority of the Secretary of Finance and Commissioner of the BIR. The Makati Trial Court likewise made permanent the Writ of Preliminary Injunction it issued earlier.

The DOF and the BIR elevated the matter to the Supreme Court via a Petition for Review on Certiorari dated August 1, 2018, alleging that (a) the petitions assailing the validity of RR 4-2011 should have been brought before the Court of Tax Appeal and not the Makati Trial Court, (b) upon the issuance of RR 4-2011, the Parent Company and other BAP member banks should have already adjusted their accounting and book keeping methods, (c) the declaratory relief action was no longer proper in view of the issuance of Preliminary Assessment Notices, and (d) RR 4-2011 is a valid regulatory issuance of the DOF and BIR.

29.5 Poverty Eradication and Alleviation Certificates Bonds

In October 2011, after filing a case before the Court of Tax Appeals, the Parent Company withdrew the same and joined other banks in questioning the BIR’s act of withholding a 20% final tax on the PEACe Bonds before the Supreme Court. Notwithstanding the pendency of the case and the Supreme Court’s issuance of a Temporary Restraining Order (“TRO”), on October 18, 2011, the Bureau of Treasury still withheld P199 from its interest payment on the Parent Company’s PEACe bonds holdings. The amount was originally recognized as part of Accounts Receivables under Loans and Receivables account in the statements of financial position until it was settled in 2017.

On January 13, 2015, the Supreme Court nullified the 2011 BIR Rulings classifying all bonds as deposit substitutes and ordered the Bureau of Treasury to return the 20% final withholding tax it withheld on the PEACe Bonds in October 2011. On March 16, 2015, the Parent Company and RCAP filed a Motion for Clarification and/or Partial Reconsideration, (a) seeking the exclusion of the PEACe Bonds from the definition of “deposit substitutes” as there was only one lender at the primary market, and their subsequent sales in the secondary market is considered a sale or assignment of credit not subject to withholding tax; (b) praying that, in the event the PEACe Bonds is considered as a deposit substitute, that the final withholding tax be directly collected from RCAP/Code NGO, or any lender or investor, as withholding agents; and (c) reiterating that the tax constitutes double taxation, violates the non-impairment clause of the Constitution, and is a breach of the Bureau of Treasury’s obligation as issuer of the PEACe Bonds. The Office of the Solicitor General (“OSG”), as counsel for the Republic and other public respondents, also filed a Motion for Reconsideration and Clarification, arguing the correctness of the BIR’s position and asking for clarification on the effect of the ruling on other government securities.

In a Resolution dated October 5, 2016, the Supreme Court partially granted the Parent Company and RCAP’s Motion for Clarification and/or Partial Reconsideration, stating that (a) to determine whether the securities newly issued and sold by the Bureau of Treasury should be treated as “deposit substitutes”, the phrase “at any one time” in relation to “20 or more lenders” should be reckoned at the time of their original issuance, (b) this ruling, however, cannot be applied retroactively in the case of the Parent Company and RCAP, which relied in good faith on the previous rulings/opinions of the BIR on the matter, and (c) as such, the PEACe Bonds cannot be treated as a deposit substitute. The Supreme Court likewise denied the Motion for Reconsideration and Clarification filed by the OSG, holding that due to the Bureau of Treasury’s continued refusal to release the amount it withheld on October 18, 2011, in violation of the TRO, the Bureau of Treasury is liable to pay legal interest of six percent (6%) per annum on the said amount, counted from October 19, 2011 until fully paid.

On April 11, 2017, the Parent Company received a copy of the Entry of Judgment attesting to the finality of the Decision dated January 13, 2015, and the Resolution dated August 16, 2016 granting its Motion for Clarification and/or Partial Reconsideration, as of October 20, 2016. After initially paying the amount of P197 to the Parent Company, the Bureau of Treasury paid the balance of P1.8 on October 18, 2018.

29.6 Alleged Unauthorized Transfer of Funds – Bank of Bangladesh

In February 2016, an alleged unauthorized transfer of funds from the Bank of Bangladesh to four accounts in the Parent Company occurred, which were eventually transferred to various accounts outside of the Parent Company. In August 2016, the Monetary Board of the BSP imposed supervisory action on the Parent Company and directed it to pay the fine of P1,000. The Parent Company has fully recognized in the 2016 statement of profit or loss the P1,000 supervisory action as part of Miscellaneous Expenses under Other Operating Expenses account (see Note 25.2), and has fully paid the same. The Parent Company does not expect this imposition of supervisory action to affect its ability to perform its existing obligations or unduly hamper its operations.

On November 2018, the Anti-Money Laundering Council (“AMLC”) filed a criminal complaint against former and current officers and employees of the Parent Company with the Department of Justice (“DOJ”). The AMLC alleged that Raul Victor B. Tan (“Tan”), Ismael S. Reyes (“Reyes”), Brigitte R. Capiña (“Capiña”), Nestor O. Pineda (“Pineda”), Romualdo S. Agarrado (“Agarrado”) and Angela Ruth S. Torres (“Torres”) violated Section 4(f) of R.A. No. 9160, as amended (“AMLA”), when they performed or failed to perform an act, which facilitated the crime of money laundering particularly the remittance and eventual withdrawal of US\$81 from certain accounts maintain in the Parent Company.

On March 27, 2017, Tan, Reyes, Capiña, and Agarrado, filed their Joint Counter-Affidavit contesting, among others, their culpability and the existence of several required elements to the charges alleged by the AMLC. On May 18, 2017, the AMLC filed its Consolidated and Joint Reply Affidavit. On July 10, 2017, Tan, Reyes, Capiña and Agarrado filed their respective Individual Rejoinder Affidavits. In a Resolution dated February 5, 2018, the newly assigned DOJ investigating prosecutor found probable cause against Tan, et al., and recommended the filing of the corresponding Information against them. On March 22, 2018, Tan, Reyes, Capiña, and Agarrado timely filed their Motion for Reconsideration on the aforementioned DOJ Resolution.

In a belatedly filed Consolidated Opposition dated June 21, 2018, the AMLC insisted that the Philippine courts have adopted the US “Willful Blindness” doctrine, and that the contents of the MT103 message should have made Tan, Reyes and Capiña suspicious of the remittances in issue. In their Reply dated August 7, 2018, Tan, Reyes and Capiña pointed out, among others, that (a) the AMLC’s position is a departure from its earlier claim that they ought to be charged for failing to read the same MT103 message, and (b) only final decisions of the Supreme Court become judicial precedents, and that the cited tax evasion decision of the Court of Tax Appeals cannot be accorded the same status. Agarrado, for his part, reiterated that it was Torres and Maia S. Deguito (“Deguito”) who approved the large transaction withdrawals on February 9, 2016.

On March 8, 2016, William S. Go (“Go”), an existing client of the Parent Company in another Business Center, and the Parent Company, filed criminal charges against Deguito and Torres with the Office of the City Prosecutor of the Makati City (“OCP-Makati”). The criminal complaints alleged that the two former employees of the Parent Company (a) falsified bank documents in order to open fictitious US Dollar and Peso denominated accounts in the name of Go DBA Centurytex Trading, which were used in the transfer/ conversion of US\$81 allegedly unlawfully debited from the Bank of Bangladesh’s account with the New York Federal Bank, and (b) Torres committed perjury when she executed an affidavit identifying Go as the person who allegedly received the P20 withdrawn from his fictitious Peso account on February 5, 2016.

The OCP-Makati found probable cause to charge Deguito with several counts of falsification, now pending before the Metropolitan Trial Court of Makati City, Branch 63 (“Makati MTC”). On the other hand, the OCP-Makati dismissed the charges of falsification against Torres, but found probable cause to charge her for perjury, which is also pending in the Makati MTC. The Parent Company appealed the dismissal of the falsification charge against Torres, as with the dismissal of its criminal complaint against another former employee of the Parent Company who conspired with Deguito and Torres.

On October 22, 2018, as a result of the untimely death of Go, the Prosecution applied for a subpoena for the video recordings and the Transcript of Stenographic Notes of Go's testimony before the Senate Blue Ribbon Committee, showing Go's denial that he had anything to do with the February 5, 2016 transactions at the Jupiter Business Center of the Parent Company.

29.7 RCBC Securities Case

In December 2011, RSI initiated the filing of a criminal case for falsification against its former agent, Mary Grace V. Valbuena ("Valbuena"), who carried out certain questionable transactions with her own personal clients. Since then, RSI has filed additional criminal and civil cases against Valbuena, and on November 17, 2016, the Makati MTC, Branch 66, convicted Valbuena of the crime of BP 22. Valbuena proposed to pay RSEC P30, payable in five years, in settlement of all the claims against her, which RSI refused. Valbuena's appeal is now submitted for resolution, without prejudice to any settlement between the parties.

In May 2012, the Capital Markets Integrity Corporation ("CMIC") conducted an investigation on the complaint filed by Francisco Ken Cortes ("Cortes") against RSEC. On July 3, 2015, the CMIC issued a Resolution dismissing the said complaint. After the denial of his Motion for Reconsideration, Cortes no longer appealed the same to the SEC en banc. Thus, the dismissal of his complaint became final and executory.

In September 2014, Carlos S. Palanca IV ("Palanca") and Cognatio Holdings, Inc. ("Cognatio") likewise filed a complaint against RSI with the CMIC, even as Cognatio's earlier complaint dated December 30, 2013 against RSI, its former Vice President for Operations/Chief Finance Officer, its former Compliance Officer and Valbuena, remained pending with the Enforcement and Investor Protection Department of the SEC ("EIPD-SEC") ("SEC Cognatio Case").

In its decision letter dated December 4, 2014, the CMIC dismissed the complaint filed by Palanca and Cognatio on the ground of prescription and res judicata, which the latter appealed to the SEC en banc. The SEC en banc granted Palanca and Cognatio's appeal. In turn, RSI elevated the said decision to the Court of Appeals, which (a) ruled in its favor, holding that Palanca and Cognatio committed willful and deliberate forum shopping, and (b) denied Palanca and Cognatio's Motion Reconsideration in its Resolution dated September 5, 2018. On September 26, 2018, Palanca and Cognatio signified their intention to challenge the decision and resolution of the Court of Appeals before the Supreme Court via a Petition for Review to be filed on or before October 11, 2018.

Citing the decision of the Court of Appeals finding Palanca and Cognatio guilty of willful and deliberate forum-shopping, RSI and its former Vice President for Operations/Chief Finance Officer filed a Manifestation with Motion to Dismiss the SEC Cognatio Case, which remains pending with the EIPD-SEC.

On February 22, 2013, Stephen Y. Ku ("Ku") filed a complaint against RSEC with the Makati Trial Court, Branch 149, principally praying for the return of his shares of stock and cash payments which he supposedly turned over to Valbuena. RSI sought the dismissal of the complaint on the ground of lack of jurisdiction due to the non-payment of the correct filing fees and failure to state a case of action, which was denied by the Makati Trial Court. Aggrieved, RSI filed a Petition for Certiorari with the Court of Appeals, which ruled in favor of RSI in its Decision dated October 9, 2014.

Ku elevated the ruling of the Court of Appeals to the Supreme Court via a Petition for Review, which was granted in the Decision dated October 17, 2018. The Supreme Court held that the Court of Appeals erred in dismissing the case, as Ku's immediate payment of the deficiency docket fees indicate a lack of intention to evade the payment of the correct filing fees. RSI filed its Motion for Reconsideration on November 28, 2018. Having been apprised of the Decision of the Supreme Court, the Makati Trial Court issued an Order dated November 26, 2018, setting a status conference case on December 14, 2018.

Except for the above-mentioned proceedings, the Parent Company is not aware of any suits and claims by or against it or its subsidiaries, which if decided adversely would have a material effect on its financial position or operating results.

29.8 Lease Commitments

(a) Parent Company as a Lessor

The Parent Company has entered into various lease contracts related to RSB Corporate Center, an investment property held for rental, with lease terms ranging from one to five years and with monthly rent depending on market price with 5% escalation rate every year. Total rent income earned from these leases amounted to P328, P297, and P280 in 2018, 2017, and 2016, respectively, which are presented as part of Rental under the Miscellaneous Income account in the statements of profit or loss (see Note 25.1). A certain office and parking spaces in RSB Corporate Center are being lease out to RSB [see Note 28.5(b)].

The Parent Company's future minimum rental receivables under this non-cancellable operating lease arrangement are as follows:

	<u>2018</u>		<u>2017</u>
Within one year	P 573	P	375
After one year but not more than five years	<u>804</u>		<u>486</u>
	<u>P 1,377</u>	P	<u>861</u>

(b) Group as Lessee

The Parent Company and certain subsidiaries lease some of the premises occupied by their respective head offices [see Note 28.5(a)] and branches/business centers for lease periods from one to 25 years. The Group's rental expense related to these leases (included as part of Occupancy and Equipment-related expenses account in the statements of profit or loss) amounted to P1,187, P977, and P742 in 2018, 2017, and 2016, respectively. Most of the lease contracts contain renewal options, which give the Group the right to extend the lease on terms mutually agreed upon by the parties.

The future minimum rental payables under these non-cancellable operating leases are as follow:

	<u>Group</u>		<u>Parent Company</u>	
2018:				
Within one year	P	1,007	P	727
After one year but not more than five years		3,025		2,236
More than five years		<u>323</u>		<u>259</u>
	P	<u>4,355</u>	P	<u>3,222</u>
2017:				
Within one year	P	811	P	673
After one year but not more than five years		2,640		2,375
More than five years		<u>335</u>		<u>291</u>
	P	<u>3,786</u>	P	<u>3,339</u>

30. EARNINGS PER SHARE

The following shows the Group's profit and per share data used in the basic and diluted EPS computations for the three years presented:

	<u>2018</u>	<u>2017</u>	<u>2016</u>
Net profit	<u>P 4,320</u>	<u>P 4,308</u>	<u>P 3,868</u>
Weighted average number of outstanding common stocks	<u>1,646</u>	<u>1,400</u>	<u>1,400</u>
Basic and diluted EPS	<u>P 2.62</u>	<u>P 3.08</u>	<u>P 2.76</u>

The convertible preferred shares did not have a significant impact on the EPS for each of the periods presented. The Group and the Parent Company has no potential dilutive shares as of the end of each reporting period.

31. SELECTED FINANCIAL PERFORMANCE INDICATORS

The following basic indicators and ratios measure the financial performance of the Group and Parent Company:

	Group		
	2018	2017	2016
Return on average equity			
$\frac{\text{Net profit}}{\text{Average total equity}}$	5.78%	6.72%	6.42%
Return on average resources			
$\frac{\text{Net profit}}{\text{Average total resources}}$	0.73%	0.82%	0.77%
Net interest margin			
$\frac{\text{Net interest income}}{\text{Average interest earning resources}}$	4.00%	4.25%	4.06%
Profit margin			
$\frac{\text{Net profit}}{\text{Revenues}}$	16.31%	17.15%	16.95%
Debt-to-equity ratio			
$\frac{\text{Total liabilities}}{\text{Total equity}}$	6.94	7.27	7.39
Resources-to-equity ratio			
$\frac{\text{Total resources}}{\text{Total equity}}$	7.94	8.27	8.39
Interest rate coverage			
$\frac{\text{Earnings before interest and taxes}}{\text{Interest expense}}$	1.50	1.73	1.50
	Parent Company		
	2018	2017	2016
Return on average equity			
$\frac{\text{Net profit}}{\text{Average total equity}}$	5.79%	6.74%	6.43%
Return on average resources			
$\frac{\text{Net profit}}{\text{Average total resources}}$	0.90%	1.02%	0.93%
Net interest margin			
$\frac{\text{Net interest income}}{\text{Average interest earning resources}}$	3.80%	3.85%	3.47%
Profit margin			
$\frac{\text{Net profit}}{\text{Revenues}}$	20.88%	22.34%	22.67%

	Parent Company		
	2018	2017	2016
Debt-to-equity ratio			
<u>Total liabilities</u>	5.30	5.60	5.73
Total equity			
Resources-to-equity ratio			
<u>Total resources</u>	6.30	6.60	6.73
Total equity			
Interest rate coverage			
<u>Earnings before interest and taxes</u>	1.68	1.95	1.60
Interest expense			

32. RECONCILIATION OF LIABILITIES ARISING FROM FINANCING ACTIVITIES

Presented below is the reconciliation of the Group's and Parent Company's liabilities arising from financing activities, which includes both cash and non-cash changes.

	Bills Payable (see Note 18)		Bonds Payable (see Note 19)		Total Financing Activities	
	Group	Parent	Group	Parent	Group	Parent
Balance at January 1, 2018	P 43,967	P 36,600	P 28,060	P 28,060	P 72,027	P 64,660
Cash flow from financing activities:						
Availments	44,522	42,769	23,520	23,520	68,042	66,289
Payments/redemption	(32,790)	(30,912)	-	-	(32,790)	(30,912)
Non-cash financing activities:						
Foreign exchange losses	302	302	1,489	1,489	1,791	1,791
Amortization of premium	-	-	21	21	21	21
Balance at December 31, 2018	<u>P 56,001</u>	<u>P 48,759</u>	<u>P 53,090</u>	<u>P 53,090</u>	<u>P 109,091</u>	<u>P 101,849</u>
Balance at January 1, 2017	P 37,643	P 31,712	P 41,595	P 41,595	P 79,238	P 73,307
Cash flow from financing activities:

Payments/redemption	(14,472)	(10,788)	(13,687)	(13,687)	(28,159)	(24,475)
Non-cash financing activities:						
Foreign exchange losses	235	199	118	118	353	317
Amortization of premium	-	-	34	34	34	34
Balance at December 31, 2017	<u>P 43,967</u>	<u>P 36,600</u>	<u>P 28,060</u>	<u>P 28,060</u>	<u>P 72,027</u>	<u>P 64,660</u>

33. EVENT AFTER THE REPORTING PERIOD

In January 2019, a certain borrower of the Parent Bank has filed in court for a corporate rehabilitation involving a proposed restructuring of the borrower's outstanding loans as of December 31, 2018. The proposed loan restructuring stipulates a three-year grace period of both loan principal and interest with a commitment to pay the restructured loan on a monthly basis commencing on January 2022.

STATEMENT OF MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

The management of Rizal Commercial Banking and Subsidiaries (the Group), is responsible for the preparation and fair presentation of the financial statements, including the schedules attached therein, for the years ended December 31, 2018 and 2017, in accordance with the prescribed financial reporting framework indicated therein, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative to do so.

The Board of Directors is responsible for overseeing the Group's financial reporting process.

The Board of Directors reviews and approves the financial statements, including the schedules attached therein, and submits the same to the stockholders.

Punongbayan & Araullo, the independent auditors appointed by the stockholders, have audited the financial statements of the Group in accordance with Philippine Standards on Auditing, and in their report to the stockholders, have expressed their opinion on the fairness of presentation upon completion of such audit.

We believe in you.

We have audited, in accordance with Philippine Standards on Auditing, the consolidated financial statements of Rizal Commercial Banking Corporation and subsidiaries (the Group) for the year ended December 31, 2018, on which we have rendered our report dated February 26, 2019. Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The applicable supplementary information (see SEC Supplementary Schedules) is presented for purposes of additional analysis in compliance with the requirements of the Securities Regulation Code Rule 68, as amended, and is not a required part of the basic consolidated financial statements prepared in accordance with Philippine Financial Reporting Standards. Such supplementary information is the responsibility of the Group's management. The supplementary information has been subjected to the auditing procedures applied in the audit of the basic consolidated financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic consolidated financial statements taken as a whole.
