

TELEFONICA DEL PERU S.A.A. AND SUBSIDIARIES

CONSOLIDATED FINANCIAL STATEMENTS
AS OF JUNE 30, 2021 AND AS OF DECEMBER 31, 2020

Consolidated balance sheet

This section includes the sub-items that make up the balance of codes 1D0103, 1D0201, 1D0317, 1D0403, 1D0205, 1D0309 and 1D0401 of the consolidated statement of financial position and their respective reference to the notes on the consolidated financial statements.

- Code 1D0103 short-term "Trade accounts receivable" includes:

	As of 30 June 2021	As of 31 December 2020
	S/000	S/000
Trade accounts receivable, net (note 7)	1,032,135	1,168,348
Contractual assets (note 9)	27,777	39,016
	<u>1,059,912</u>	<u>1,207,364</u>

- Code 1D0201 long-term "Trade accounts receivable" includes:

	As of 30 June 2021	As of 31 December 2020
	S/000	S/000
Trade accounts receivable, net (note 7)	1,728	503
Contractual assets (note 9)	2,103	4,461
	<u>3,831</u>	<u>4,964</u>

- Code 1D0317 short-term "Deferred income" includes:

	As of 30 June 2021	As of 31 December 2020
	S/000	S/000
Deferred income (note 22)	39,488	29,277
Contractual liabilities (note 9)	151,044	149,664
	<u>190,532</u>	<u>178,941</u>

- Code 1D0403 long-term "Deferred income" includes:

	As of 30 June 2021	As of 31 December 2020
	S/000	S/000
Deferred income (note 22)	76,274	81,359
Contractual liabilities (note 9)	77,241	59,669
	<u>153,515</u>	<u>141,028</u>

- Code 1D0205, "Properties, plant, and equipment", includes:

	As of 30 June 2021	As of 31 December 2020
	S/000	S/000
Property, plant, and equipment (note 13)	5,274,933	5,567,517
Right-of-use assets (note 15)	918,976	953,798
	<u>6,193,909</u>	<u>6,521,315</u>

- Code 1D0309 short-term "Other financial liabilities" includes:

	As of 30 June 2021	As of 31 December 2020
	S/000	S/000
Financial obligations (note 17)	113,644	153,762
Financial lease liabilities (note 18)	312,464	336,268
	<u>426,108</u>	<u>490,030</u>

- Code 1D0401 long-term "Other financial liabilities" includes:

	As of 30 June 2021	As of 31 December 2020
	S/000	S/000
Financial obligations (note 17)	2,950,091	2,943,715
Financial leasing liabilities (note 18)	830,419	790,481
	<u>3,780,510</u>	<u>3,734,196</u>

Consolidated income statement

This section includes the sub-items that make up the balance of codes 2D01ST, 2D0301 and 2D0302 of the consolidated income statement and their respective reference to the notes to the consolidated financial statements.

- Code 2D01ST "Income from ordinary activities" includes:

	As of 30 June 2021	As of 30 June 2020
	S/000	S/000
Fixed business income (note 26)	1,700,225	1,862,879
Mobile business income (note 27)	<u>1,669,187</u>	<u>1,399,805</u>
Total	<u><u>3,369,412</u></u>	<u><u>3,262,684</u></u>

- Codes 2D0301 and 2D0302 "Administration expenses" and "Sales and distribution expenses" include:

	As of 30 June 2021	As of 30 June 2020

	As of 30 June 2021	As of 30 June 2020
	S/000	S/000
Administrative expenses (2D0301)	3,647,156	3,413,540
Selling and distribution expenses (2D0302)	<u>43,075</u>	<u>37,410</u>
Total	<u><u>3,690,231</u></u>	<u><u>3,450,950</u></u>

TELEFONICA DEL PERU S.A.A. AND SUBSIDIARIES

NOTES ON CONSOLIDATED FINANCIAL STATEMENTS
AS OF JUNE 30, 2021 AND AS OF DECEMBER 31, 2020

1 OVERVIEW

1.1 Constitution and economic activity -

Telefónica del Perú S.A.A. (hereinafter "the Company"), incorporated in Peru, is a telecommunications subsidiary of Telefónica Hispanoamérica S.A. (a company incorporated in Spain and formerly known as Latin America Cellular Holding B.V.) and belongs to the Telefónica de España Group (Telefónica S.A. is an entity registered with the Security and Exchange Commission of the United States of America), which provides, among others, mobile telephony services throughout Peru. It also offers internet, fixed telephony, data transmission and information technology, national and international long distance carrier services, mobile satellite services and paid television services. The Company is one of the main telecommunications operators in Peru and its activities are supervised by the Supervisory Agency of Private Investment in Telecommunications - OSIPTEL and by the Ministry of Transport and Communications - MTC. The registered fiscal address of the Company is Calle Dean Valdivia No. 148, San Isidro, Lima, Peru.

The subsidiary included in the consolidated financial statements as of June 30, 2021 is as follows:

- Servicios Globales de Telecomunicaciones S.A.C. that is dedicated to the commercialization of public telephony services to stores, convenience stores and similar establishments and, of which, the Company maintains a 99.90 percent market share.

As of December 31, 2020, it merged with Servicios Globales de Telecomunicaciones S.A.C., PangeaCo S.A.C. and Telefónica Cloud Tech Perú S.A.C. See note 1.3(a).

The consolidated financial statements of Telefónica del Perú S.A.A. and its subsidiaries (hereinafter "the Group") include the following balances:

	As of 30 June <u>2021</u> S/000	As of 31 December <u>2020</u> S/000
Servicios Globales de Telecomunicaciones S.A.C.		
Assets	17,788	17,159
Liabilities	15,155	14,856
Net equity	2,633	2,303
Net Profit / (Loss)	330	(3,353)

	As of 30 June <u>2021</u> S/000	As of 31 December <u>2020</u> S/000
PangeaCo S.A.C.		
Assets	-	45
Net equity	-	45
Telefónica Cloud Tech Perú S.A.C., note 1.3(a)		
Assets	-	50
Net equity	-	50

1.2 Approval of consolidated financial statements -

The consolidated financial statements as of December 31, 2020 were approved by the General Shareholders Meeting held on March 26, 2021. The consolidated financial statements as of June 30, 2021 were approved by the Board of Directors on July 19, 2021.

1.3 Corporate reorganization -

a) Assignment of equity block in favor of Telefónica Cloud Tech Perú S.A.C. (TCTP) and sale -

In 2020, the Company incorporated Telefónica Cloud Tech Perú S.A.C. (TCTP) with a cash contribution of S/ 50,000 for 99.99% of the shares.

Subsequently, on December 23, 2020, the Company's General Shareholders Meeting approved the simple reorganization in favor of TCTP of an equity block made up of assets and liabilities related to the cloud technology services business. The equity block was transferred on January 1, 2021 and was composed as follows:

	January 1 <u>2021</u> S/000
Assets	
Accounts receivable from staff	20
Other non-financial assets	221
Property, plant and equipment, net	25,350
Intangible assets other than capital gains, net	3,646
Deferred tax asset	935
Total assets	<u>30,172</u>
Liabilities	
Accounts payable to staff	234
Total liabilities	<u>234</u>
Equity block contributed	<u><u>29,938</u></u>

On January 1, 2021, the Company sold its total stake in TCTP to Telefónica Cybersecurity & Cloud Tech Perú S.A.C. for S/ 41,941,000, thereby obtaining a profit of S/ 11,953,000. See Note 30(e).

- b) Assignment of equity block in favor of Telefónica Cybersecurity & Cloud Tech Perú S.A.C. (TCCTP) and sale -

On July 3, 2020, the Company completed the TCCTP constitution process with a cash contribution of S / 50,000 for 99.99% of the shares.

Subsequently, on September 30, 2020, the General Shareholders Meeting of the Company approved the simple reorganization in favor of TCCTP of an equity block of S/ 30,292,000 made up of assets and liabilities related to the cybersecurity business. The equity block was contributed on October 1, 2020 and was composed as follows:

	October 1 2020 S/000
Assets	
Accounts receivable from staff	10
Other non-financial assets	203
Property, plant and, equipment, net	25,324
Intangible assets other than capital gain, net	5,424
Rights-of-use assets	15,360
Deferred tax asset	943
Total assets	47,264
Liabilities	
Accounts payable to staff	360
Financial lease liabilities	16,612
Total liabilities	16,972
Equity block contributed	30,292

On October 1, 2020, Telefónica Ingeniería de Seguridad S.A.C. contributed an equity block to TCCTP equivalent to S/ 4,483,000. After these contributions, the Company's share in TCCTP was diluted to 75%.

On that date, the Company sold its total stake in TCCTP to Telefónica Cybersecurity Tech, S.L. (a non-domiciled company) for S/ 47,565,000, obtaining a profit of S/ 17,223,000. See note 30(e)

1.4 Concession contracts and fees -

- a) Concession contracts

The Group, together with the Peruvian Government represented by the Ministry of Transportation and Communications (MTC), has entered into Concession Contracts for the provision of the following services: (i) Local carrier and telephone services in the department of Lima and the Constitutional Province of Callao and (ii) national and international local and long-distance carrier and telephone services in the Republic of Peru. These contracts, whose nature is that of Contract Law, were approved by Supreme Decree No. 11-94-TCC on May 13, 1994, subsequently amended by Supreme Decree No. 21-98-MTC on August 4, 1998, and by Ministerial Resolutions No. 272-99-MTC/15.03, No. 157-2001-MTC/15.03, No.140-2009-MTC/03, and No.527-2009-MTC/03. The latter was modified by Ministerial Resolution No. 724-2009-MTC/03.

As of June 30, 2021 and December 31, 2020, the main concession contracts that were maintained are as follows:

<u>Services</u>	<u>Location</u>	<u>Resolution Ministerial</u>	<u>Term</u>	<u>Start</u>	<u>Expiration</u>
Fixed and LD	Lima, Callao and Provinces	272-99-MTC /15.03	20 years + renewed term	1994	2027
Mobiles	Lima and Callao	373-91-TC/15.17	20 years + renewed term	1991	2030
Mobiles	Provinces	055-92-TC/15.17	20 years + renewed term	1992	2030
Mobiles	Lima and Callao	440-91-TC/15.17	20 years + renewed term	1991	2030
Mobiles	Provinces	250-98-MTC/15.03	20 years	1998	2018 (*)
4G LTE	Lima and Provinces	616-2013-MTC/03	20 years	2013	2033
700 Band	Lima and Provinces	529-2016-MTC/01.03	20 years	2016	2036

(*) In the process of renewal with the MTC.

As a guarantee of faithful compliance with the obligations established for some of the concession agreements, the Company has extended guarantees for US \$ 65,470,000 up to a term of approximately 10 years by means of current guarantee letters with various banking entities.

As of the date of the consolidated financial statements, the Group Management estimates that the investment projects undertaken to meet the commitments assumed are being executed as scheduled.

b) Rates -

The rates for the local and long distance fixed telephony service are adjusted quarterly on the basis of service baskets according to a formula of price caps, established on the basis of the combination of inflation and a factor of productivity.

According to the Concession Contracts, the value of the productivity factor should be reviewed every three years.

OSIPTEL sets the productivity factor to be applied in three-year periods, specifying that it would be implemented in four rate adjustment procedures each year. For three of these procedures it was determined that the Productivity Factor will be inflation (no rate adjustments will be made). For the remaining procedure, it is being determined that a verification procedure should be carried out, taking as reference an annual Productivity Factor. For the period September 2019 to August 2022, the annual Productivity Factor was set at -2.43 percent. If inflation is in the range of between -1.43 percent to -3.43 percent, the Group will not make tariff adjustments.

The implementation of the Virtual Mobile Area (a single national cell area) in 2010 has eliminated all domestic long-distance calls to cell phones, including those originating from public telephones, for which only local rates are applied.

Furthermore, Resolution No. 021-2015-CD/OSIPTEL approved the value of the cap rate applicable to calls from public telephones of the Group to personal communications and trunked mobile telephony networks. It was established that said rate is to be reviewed after four years; thereby annulling periodic (annual adjustment mechanism) and non-periodic (when there are changes in the values of any of the interconnection charges that comprise said rate) adjustments which until now are applicable to this rate.

The rate in force since March 2015 is S/ 0.20 for 29 seconds, including the General Sales Tax in accordance with the provisions of Resolution 021-2015-CD/OSIPTEL, issued on March 12, 2015.

Moreover, by means of Resolution No. 044-2011-CD/OSIPTEL, OSIPTEL approved a new tariff system: the establishment of the rates for local landline-mobile calls corresponding to the concessionary companies of the Landline Telephony Service. By means of Resolution No. 160-2011-CD/OSIPTEL, an adjustment to the fixed-mobile rate is made each time adjustments are made to any of the charges that make up said rate. The rate excluding the general sales tax is S/ 0.0006 per second, as of February 9, 2019.

2 SUMMARY OF MAIN ACCOUNTING POLICIES

The main accounting principles and practices that have been applied in the recording of operations and the preparation of the accompanying consolidated financial statements are the following:

2.1 Basis for preparation -

The accompanying consolidated financial statements have been prepared in accordance with the International Financial Reporting Standards (IFRS), issued by the International Accounting Standards Board (hereinafter "IASB") and effective as at June 30, 2021, and as at December 31, 2020, respectively.

The information contained in these consolidated financial statements is the responsibility of the Group Management, which expressly states that the principles and criteria included in the International Financial Reporting Standards (IFRS) issued by the IASB have been fully applied and that the same were in force on the dates of the consolidated financial statements.

These consolidated financial statements have been prepared on the basis of historical cost, based on the accounting records maintained by the Group, except for derivative financial instruments measured at fair value. The accompanying consolidated financial statements are presented in Soles [PEN] (functional and presentation currency) and all values have been rounded up to thousands, except when otherwise indicated.

The preparation of the consolidated financial statements, in accordance with IFRS, requires the use of certain critical accounting estimates. It also requires that Management exercises its critical judgment in the process of applying Group accounting policies. The areas that involve a greater degree of critical judgment or complexity, or those in which the assumptions and estimates are significant for the separate financial statements, are described in note 4.

2.2 Consolidation -

The consolidated financial statements comprise the Group's financial statements as of June 30, 2021 and December 31, 2020.

a) Subsidiaries

Subsidiaries are the entities over which the Group has control. Control is achieved when the Group is exposed, or has the rights, to the variable returns from its involvement in the investee company and has the ability to influence those returns through its power over it. The subsidiaries are consolidated from the date on which their control is transferred to the Group, and they cease to consolidate from the date on which the control ceases.

Unrealized transactions, balances and earnings with subsidiaries are eliminated. Profits or losses resulting from transactions between related parties that are recognized in any asset item are also eliminated. The accounting policies of the subsidiaries, if required, have been modified to ensure uniformity with the policies adopted by the Group.

As of June 30, **2021**, the Company maintains a subsidiary, Servicios Globales de Telecomunicaciones SAC, as of December 31, 2020, it maintains three subsidiaries, Servicios Globales de Telecomunicaciones SAC, PangeaCo SAC and Telefónica Cloud Tech Perú SAC

2.3 New standards, amendments and interpretations -

a) New standards and amendments to standards and interpretations adopted by the Group in 2021 -

The following accounting standards (IFRS), amendments to standards and interpretations are effective as of January 1, 2020, and have not had an impact on the consolidated financial statements of the Group, for the period 2020 or for the period 2021:

- **Amendments to IAS 1 and IAS 8 - Definition of materiality -**

The amendments provide a new definition of "materiality", as information whose omission due to error or obstruction is reasonably expected to influence the decision-making of the primary users of the financial statements. The amendments clarify that materiality will depend on the nature or magnitude of the information, individually or aggregated with other information, in the context of the financial statements.

- **Modifications to IFRS 3 - Definition of Business -**

The amendments provide a new definition of business that requires an acquisition to include at least one input and one substantive process that together significantly contribute to the ability to create products. The definition of the term "products" has been modified to focus on goods and services provided to customers, generating investment income and other income, and excludes returns in the form of lower costs, savings and other economic benefits.

- **Amendments to IFRS 7, IFRS 9 and IAS 39 - Reform of the benchmark interest rate -**

The amendments made to IFRS 7 Financial Instruments: Disclosures, IFRS 9 Financial Instruments and IAS 39 Financial Instruments: Recognition and Measurement provide certain exemptions in relation to the benchmark interest rate reforms. The exemptions relate to hedge accounting and imply that the amendments should not generally cause the termination of hedge accounting. However, any ineffectiveness of the hedge will continue to be recorded in the income statement.

- **Amendments to the Financial Reporting Conceptual Framework -**

The revised conceptual framework includes some new concepts and definitions, as well as criteria for the recognition of assets and liabilities, and clarifies some concepts. In particular, the IASB has issued a revised Conceptual Framework to be used for standard-setting decisions with immediate effect. The key changes include:

- (i) Increasing the importance of administration in the objective of financial information.
- (ii) Restoring prudence as a component of neutrality.
- (iii) Defining a reporting entity, which may be a legal entity, or a part of an entity.
- (iv) Reviewing the definitions of an asset and a liability.
- (v) Eliminating the probability threshold for recognition and add guidance on derecognition.
- (vi) Adding guides on different measurement bases, and
- (vii) establishing that profit or loss is the main indicator of performance and that, in principle, income and expenses in other comprehensive income should be recycled when this improves the relevance or faithful representation of the financial statements.

These amendments had no impact on the consolidated financial statements and are not expected to have future impacts on the Group.

- Amendment to IFRS 16 “Leases” - Covid-19 related to rentals -

This amendment was issued on May 28, 2020, is applicable for annual periods beginning on June 1, 2020 and provides an exemption in relation to the accounting process of modification of lease contracts under IFRS 16, to lessees who obtain modifications of lease contracts in the context of Covid-19 (grace periods (“payment holidays”) and the extension of lease payments).

The application of this amendment did not have a significant impact on the Group's consolidated financial statements as of June 30, 2021.

- b) New rules and interpretations that have not been adopted in advance -

The following standards, amendments to standards and interpretations have been published and apply to periods beginning after the presentation date of these financial statements, and have not been adopted in advance:

- Amendment to IAS 1: Classification of Liabilities as current or non-current -

The amendments to IAS 1, Presentation of Financial Statements, clarify that liabilities are classified as current or non-current, depending on the rights that exist at the end of the reporting period. The classification is not affected by the entity's expectations or events subsequent to the reporting date (for example, the receipt of a waiver or the breach of an agreement).

The amendments also clarify what IAS 1 means when it refers to the 'settlement' of a liability.

The amendments could affect the classification of liabilities, particularly for entities that previously considered management's intentions to determine the classification and for some liabilities that may be converted to equity.

The amendments should be applied retrospectively in accordance with the normal requirements of IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors.

In May 2020, the IASB issued a Standard Proposal proposing to postpone the effective date of the amendments to January 1, 2023. The modifications are effective for the annual periods reported on or after January 1, 2023 and must be applied retrospectively.

- Amendment to IAS 16 - Property, Plant, and Equipment: Product before use -

In May 2020, the International Accounting Standards Board issued the amendment Property, Plant and Equipment: Product before intended use, which prohibited entities from deducting from the cost of an item of Property, Plant and Equipment, any product proceeding from the sale of articles produced while taking such assets to the location, and the conditions required for the item to operate in the manner intended by management. Instead, an entity shall recognize the proceeds from the sale of those items, and the costs of production associated with those items, in profit or loss.

The amendments are effective for the annual periods reported on or after January 1, 2023 and must be applied retrospectively to items of property, plant and equipment made available for use on or after the beginning of the first period presented when the entity applied the amendment for the first time.

- Amendments to IFRS 3 - reference to the Conceptual Framework -

Minor amendments were made to IFRS 3, Business Combinations, in order to update the references

to the Conceptual Framework for Financial Reporting and add an exception for the recognition of liabilities and contingent liabilities within the scope of IAS 37 Provisions, Contingent Liabilities and Contingent Assets and of the interpretation of IFRIC 21 Levies.

The amendments also confirm that contingent assets should not be recognized on the acquisition date.

The amendment will be effective for the annual periods reported on or after January 1, 2022.

- Onerous Contracts - Cost of fulfilling a contract - Amendments to IAS 37 -

In May 2020, the International Accounting Standards Board issued amendments to IAS 37 to specify what cost an entity needs to include when evaluating whether a contract is onerous or loss-making.

The amendment to IAS 37 clarifies that the direct costs of fulfilling a contract include both the incremental costs of fulfilling the contract and an allocation of other costs directly related to the fulfillment of the contracts. Before recognizing a separate provision for an onerous contract, the entity recognizes any impairment loss that has occurred on the assets used to fulfill the contract.

The amendment is applicable to the annual periods reported on or after January 1, 2022.

- Annual improvements to IFRS 2018-2020 Cycle -

As part of its 2018-2020 annual enhancements to the IFRS standard process, in May 2020 the International Accounting Standards Board issued the following amendments:

- (i) IFRS 9 Financial Instruments - clarifies which fees should be included in the 10% test for derecognition of financial liabilities.
- (ii) IFRS 16 Leases - amendment of illustrative example 13 to remove the illustration of lessor payments related to leasing improvements, to eliminate any confusion about the accounting of lease incentives.
- (iii) IFRS 1 First-time adoption of international financial reporting standards allows entities, which have measured their assets and liabilities at the carrying amounts recorded in the books of their recording matrix, to also measure any accumulated translation differences using the amounts reported by their main recording matrix. This amendment will also apply to associates and joint ventures that are subject to the same exception from IFRS 1.

The amendments will be effective for the annual periods reported beginning on or after January 1, 2022 with early adoption permitted.

- Amendments to IFRS 10 and IAS 28 - Sale or contribution of assets between an investor and its associate or joint venture -

The IASB has made amendments of limited scope to IFRS 10 "Consolidated Financial Statements" and IAS 28 "Investments in associates and joint ventures."

The amendments clarify the accounting treatment of asset sales or contributions of assets between an investor and its associates or joint ventures. They further confirm that the accounting treatment will depend on whether the non-monetary assets sold or contributed to an associate or joint venture constitute a "business" (as defined in IFRS 3 "Business Combinations").

When non-monetary assets constitute a business, the investor shall recognize the total profit or loss from the sale or contribution of the assets. If the assets do not meet the definition of a business, the profit or loss is recognized by the investor only in proportion to the investment of the other investors of the associated joint venture. These amendments will be applied prospectively.

In December 2015 the IASB decided to postpone the application date of this amendment until its

research project on the equity method has been completed.

The amendments are effective for the annual periods reported on or after January 1, 2023 and should be applied retrospectively to items of property, plant and, equipment made available for use on or after the beginning of the first period presented when the entity first applied the amendment.

The Group is currently evaluating the impact that these modifications or amendments may have on current practice.

2.4 Operating Segments -

An operating segment is a group of assets and operations that provide goods or services, and that is subject to significant risks and returns other than the risks and returns of other business segments. A geographical segment is characterized by providing goods or services within a particular economic environment that is subject to risks and returns different to those segments that operate in other economic environments. The Group is organized into a single operational segment for the provision of telecommunications services located in a single geographic segment (Peru), as the Group makes strategic commercial, financial, purchasing, and investment decisions oriented towards the customer, and that are furthermore focused on a convergent offering (several aggregated telecommunications services). Thus, it is not applicable to present information on a segment basis.

2.5 Translation of foreign currency -

The Group has determined that its functional and presentation currency is the Sol. Transactions in foreign currency are those carried out in a currency other than the functional currency. Transactions in foreign currency are initially recorded in the functional currency using the exchange rates in effect on the transaction dates. Monetary assets and liabilities denominated in foreign currency are subsequently adjusted to the functional currency using the exchange rate in effect on the date of the consolidated statement of financial position.

Profit or losses from exchange differences resulting from the settlement of said transactions and from the conversion of monetary assets and liabilities in foreign currency at the exchange rates on the date of the consolidated statement of financial position are recognized in "Net profit/ (loss) due to exchange difference", in the consolidated statement of income, with the exception of exchange differences of operations in foreign currency with cash flow hedges,

which are directly recorded in equity until their disposal, at which time they are recognized in the consolidated income statement. Non-monetary assets and liabilities determined in foreign currency are converted to the functional currency at the prevailing exchange rate on the date of the transaction.

2.6 Business combinations between entities under common control -

Business combinations between entities under common control are recorded by the interest unification method.

In accordance with the interest unification method, the items in the financial statements of the merging companies, both for the period in which the merger occurs and for the other periods presented in comparative form, are included in the Group's consolidated financial statements as if they had been merged since the beginning of the oldest period that is presented.

As a unification of interests produces a single merged entity, it must adopt uniform accounting policies. Therefore, the merged entity recognizes the assets, liabilities and equity of the merging companies at their carrying values, adjusted to the concepts required to standardize the accounting policies, and apply them to all the periods presented. No capital gain value is recognized in this process. Likewise, the effects of all transactions between merging companies are eliminated when preparing the consolidated financial statements of the merged entity.

2.7 Cash and cash equivalents -

For purposes of the consolidated statement of cash flows, cash and cash equivalents correspond to cash, current accounts, and deposits with less than three months from the date of opening, all of which are recorded in the consolidated statement of financial position. These accounts are not subject to a significant risk of changes in their value.

For purposes of the consolidated statement of cash flows, cash and cash equivalents include the items described in the previous paragraph, net of bank overdrafts.

2.8 Financial assets -

(i) Classification -

The Group classifies its financial assets in the following categories:

- Measured at fair value (whether through results or other comprehensive income), and
- Measured at amortized cost.

The classification depends on the business model that the entity uses to manage its financial assets and the contractual terms that impact the cash flows. For assets measured at fair value, gains and losses will be recorded in the consolidated statement of income or in the consolidated statement of comprehensive income. For investments in equity instruments that are not held for trading, their measurement will depend on whether the Group irrevocably chooses, at the time of initial recognition, to recognize these equity instruments at fair value through other comprehensive income. The Group makes re-classifications of its debt instruments if its business model for the management of these assets changes.

(ii) Recognition and derecognition -

Acquisitions and sales of financial assets are recognized on the trade date, the date on which the Group commits to purchase or sell the asset. Financial assets are derecognized when the rights to receive cash flows from the investments expire or are transferred and the Group has materially transferred all the risks and benefits derived from their ownership.

(iii) Measurement -

Upon initial recognition, the Group measures a financial asset at its fair value plus, in the case of financial assets that are not carried at fair value through profit or loss, the transaction costs that are directly attributable to the acquisition of the financial asset. The transaction costs of financial assets carried at fair value through results are recognized in results.

Financial assets that incorporate embedded derivatives are evaluated comprehensively for purposes of determining if their cash flows only represent payment of principal and interest.

Debt instruments -

The subsequent measurement of debt instruments depends on the business model that the Group has established for asset management, as well as the characteristics of asset flows derived from the asset. There are three possible categories in which to classify debt instruments. These are:

- Amortized cost: Applicable to assets whose business model is to collect contractual cash flows, provided that these cash flows only represent capital and interest payments. The interest generated by these financial assets is recognized as financial income using the effective interest method. Any profit or loss arising from the derecognition of this type of financial asset is recognized in profit or loss. Impairment losses are presented in a separate line item in the consolidated income statement.
- Fair value through other comprehensive income (FVOCI): Applicable to assets whose business model is mixed, i.e., they are maintained both to collect their contractual flows and to obtain cash flows from their sale, provided that the asset cash flows only represent capital and interest payments. Changes in the carrying value of these financial assets are recognized in other comprehensive income (OCI), except for losses (or reversal of losses) due to impairment, interest and profits or losses due to exchange differences, which are recognized in profit or loss. When the financial asset is derecognized, the accumulated profit or loss recognized in the consolidated comprehensive result statement is reclassified from equity to income and presented under the item "other income (expenses)". The interest generated by these financial assets is recognized as financial income using the effective interest method. Profits or losses on exchange differences are recognized in the consolidated income statement under the heading "Net profit / (loss) due to exchange differences", while the impairment losses are also recognized in the consolidated income statement and presented as a separate line item.
- Fair value through Profit and Loss (FVTPL): Assets that do not meet the conditions to use amortized cost or FVOCI are measured at fair value through profit or loss. Changes in the fair value of debt instruments in this category are recognized as profit or loss in the consolidated income statement and presented net in the item "Other expenses (income)" in the period in which the change occurs.

Equity instruments -

Subsequent to initial recognition, the Group measures the equity instruments at their fair value. Changes (profits or losses) in the fair value of equity instruments held for the purpose of trading are recognized in the consolidated income statement (FVTPL). For other equity instruments, the Group has an irrevocable option to designate them on initial recognition in the FVTPL category or present changes in fair value as part of the OCI.

If the Group opts for the designation of FVOCI, when the asset is derecognised, it is not possible to reclassify to profit or loss any profits or losses accumulated in OCI. Dividends generated by these investments are recognized in the consolidated income statement since the Group has the contractual right to receive them, and they are presented under "Other income (expenses)". Losses (or reversals of losses) due to impairment of equity instruments measured at FVOCI are not presented separately from the other changes at fair value.

(iv) Impairment -

Looking ahead, the Group evaluates the expected credit losses associated with debt instruments measured at amortized cost and at FVOCI. The methodology applied to determine the impairment depends on whether the credit risk of an asset has experienced a significant increase.

For commercial accounts receivable, the Group applies the simplified approach permitted by IFRS 9, which requires estimating the credit loss of the account for the total duration of the instrument and recognizing it from its initial recording.

2.9 Derivative financial instruments and hedge accounting -

Derivatives are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at their fair value at the end of each period of the consolidated financial statements. The accounting for subsequent changes at fair value depends on whether the derivative is designated as a hedging instrument and, if so, the nature of the item being hedged. The Group designates certain derivatives such as:

- hedges of the fair value of recognized assets or liabilities, or a firm commitment (fair value hedges),
- hedges of a particular risk associated with the cash flows of recognized assets and liabilities, and highly probable forecasted transactions (cash flow hedges).

At the beginning of the hedge relationship, the Group documents the economic relationship between the hedging instruments and the hedged items, even if it is expected that the changes in the cash flows of the hedging instruments will offset the changes in the cash flows of the hedged items. The Group documents its objective and risk management strategy to carry out its hedging operations.

The total fair value of a hedging derivative is classified as non-current assets or liabilities if the time remaining to maturity of the hedged item is more than 12 months, and as current assets or liabilities if the time remaining to maturity of the hedged item is less than 12 months. Trading derivatives are classified as a current asset or liability.

The Group uses derivative financial instruments (exchange rate forwards and currency swaps) to manage its exposure to the risk associated with fluctuations in the foreign currency. In order to manage the aforementioned particular risk, the Group applies hedge accounting for transactions that meet the requirements for this. Derivative financial instruments are recognized at fair market value on the date on which they are signed and subsequently adjusted, and are recorded as assets when their value is positive, and as a liability when the value is negative.

(i) Cash flow hedges that qualify for hedge accounting:

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges are recognized in the other equity reserve account. The profit or loss relating to the ineffective portion is recognized immediately in the consolidated income statement.

In the event that forward contracts are used to hedge expected future transactions, the Group only generally designates the changes in the fair value of the contract related to the spot component as the hedging instrument. Profits and losses related to the effective portion of changes in the spot component of forward contracts are recognized in the other equity reserve account. The changes in the element of the forward contract that relates to the hedged item ("aligned forward element") is recognized as part of the comprehensive income statement as reserve costs for hedges in equity. In certain cases, the Group may designate the entire change in the fair value of the forward contract (including forward points) as a hedging instrument. In such cases, the profits or losses related to the effective portion of the change in the fair value of the entire forward contract are recognized in the other equity reserve account.

The amounts accumulated in the equity are reclassified to results in the periods in which the hedged items affect results, as follows:

- If the hedged item subsequently results in the recognition of a non-financial asset (for example, inventories), both the deferred hedged profits and losses and the deferred time value of option contracts or forward contracts, if any, are included as part of the initial asset cost. Deferred amounts are finally recognized in income, as the hedged item also affects the results (for example, on the sale of inventories).
- Profits or losses related to the effective portion of interest rate swap contracts that cover variable rate loans are recognized in income under "Financial expenses" at the same time as the interest on hedged loan is recognized.

However, if a projected hedged transaction results in the recognition of a non-financial asset (for example, inventories, or property, plant and equipment), any previously deferred equity profits or losses are transferred from equity and included in the initial measurement of the cost of the non-financial asset. Deferred amounts are finally recognized in profit or loss through the cost of sale in the case of inventories, or depreciation, in the case of property, plant and equipment.

When a hedging instrument expires, is sold, terminated or when a hedge fails to meet the criteria for applying hedge accounting, any accumulated equity profit or loss or any deferred hedge cost on equity until that time shall remain in equity until the expected transaction occurs, which will result in the recognition of a non-financial asset, such as inventories. When a forecasted transaction is not expected to occur, the accumulated profit or loss and any deferred hedging costs that were reported in equity are immediately transferred to the consolidated income statement.

(ii) Derivatives that do not qualify for hedge accounting:

Certain derivative instruments do not qualify for hedge accounting. Changes in the fair value of any derivative instrument that does not qualify for hedge accounting are recognized immediately in the consolidated income statement.

As of June 31, 2021 and December 31, 2020, the Group had forwards operations contracted to cover the exchange rate risk in the purchase of assets associated with the disbursement of projects.

2.10 Inventories -

Inventories are presented at cost or net realizable value, whichever is less, and are presented net of the impairment estimated.

Inventories correspond mainly to terminal equipment and are valued at average cost. The cost includes the reclassification from the equity of any profit or loss on qualifying cash flow hedges related to the purchases of raw material, but excludes the costs of loans. In case there is a subsidy on the sale price of the terminals, it will not be included in the cost of the inventories given that it pertains to cost of commercialization, because it is always associated with the customer registration or with the renewal of the client contract period. As such, terminal equipment is recorded in the profit or loss when they are delivered for sale to the final customers (signal activation). See note 2.24. Inventories in transit are presented at the specific cost of acquisition.

The estimate for impairment is determined based on an analysis of the conditions and turnover of terminal equipment, materials and supplies. In the case of damaged equipment and those which have had no movement in the last year, the estimate is equivalent to balance in books and recorded in the fiscal year results, and in which its requirement is determined.

2.11 Properties, plant and equipment -

Property, plant and equipment are presented at cost, net of accumulated depreciation and accumulated loss due to impairment of the value of these assets. See note 2.14. The initial cost of the property, plant and equipment includes their acquisition price, including non-refundable import duties and taxes, and any directly attributable cost to locate and leave the asset in working condition.

The cost of the asset also includes the present value of the disbursements that are expected to be required to pay any cost of decommissioning and removal of equipment, or rehabilitation of the physical site where it is established, when they constitute obligations incurred under certain conditions. (see note 2.20). The cost may also include equity transfers of any profit or loss on qualifying cash flow hedges for purchases of property, plant and equipment in foreign currency. Note 2.20 includes additional information on the recorded decommissioning provision. For significant components of property, plant and equipment that must be periodically replaced, the Group recognizes such components as separate individual assets, with their specific useful lives and respective depreciations.

Similarly, when a large inspection or repair is carried out, its cost is recognized as a replacement in the carrying amount for property, plant, and equipment, if the criteria for recognition are met.

Depreciation is calculated using the straight line method, using the following estimated useful lives:

Description	Years
Buildings and other constructions	13, 15, 33, and 40
Plant (Platform and telecommunications networks)	3 to 20
Equipment and others	3 to 10
Furniture and belongings	5 and 10

Land does not depreciate. The residual values, the useful life and the depreciation method are reviewed every year to ensure that they are consistent with the expected pattern of economic benefits of the items of property, plant and equipment. The telecommunications sector in which the Group operates is very dynamic. Likewise, the constant overall progress of the same for the development of new technology forces the Group to continually update and renovate its plant in order to be competitive in the market.

Based on the historical information and considering the technological advances, it has been determined that the value of the properties, plant and equipment at the end of its useful life is not significant and therefore the Group estimates that they do not have residual values, depreciating the total cost in the useful life of the same.

A component of property, plant and equipment or any significant part of it initially recognized is written off at the time of its sale or when it is not expected to obtain future economic benefits by means of its use or sale. Any profit or loss at the time of asset derecognition (calculated as the difference between the net income from the sale of the asset and its carrying amount) is included in the consolidated income statement when the asset is derecognized.

Disbursements incurred after property, plant and equipment have been put into use are capitalized as an additional cost of this asset when it is probable that such disbursements will result in future economic benefits higher than the normal yield originally evaluated for said asset. Disbursements for maintenance and repairs are recognized as an expense for the year in which they are incurred.

Employee benefit costs that are directly related to the construction of the plant are capitalized as part of the cost of the assets, through the recording of a lower expense in the consolidated statement of income, in the item "Personnel expenses".

Works in progress are recorded at cost, which include the cost of construction, plant, and equipment and other direct costs; as well as, the cost of important materials directly identifiable with specific assets. Works in progress do not depreciate until the respective assets are finished and are ready for use.

2.12 Intangible assets and administrative concessions -

Intangible assets are initially recorded at cost. An asset is recognized as intangible if the attributable future economic benefits that it generates are likely to flow to the Group, and its cost can be measured reliably. After initial recognition, intangible assets are measured at cost less accumulated amortization and any accumulated impairment loss. See note 2.14.

Intangible assets generated internally, which are directly attributable to the design and testing of identifiable and unique software that the Group controls, are recognized as intangible assets when they meet the following criteria:

- It is technically possible to complete the software so that it can be used,
- Management intends to finish the software and use or sell it,
- There is the opportunity to use or sell the software,
- It can be shown that the program will generate future economic benefits,
- The required technical, financial and other resources are available to complete the development of the software, thus permitting its use or sale.

During the initial recognition the Group evaluates whether the useful life of the intangible assets is defined or undefined.

Intangible assets are amortized per the straight-line method, based on the following estimated useful lives, when they are ready for use:

Description	Years
Administrative concessions	Per term of the concessions. See note 1.4(a)
Software	3 to 5

The period and the amortization method are reviewed periodically. Depreciation begins when the asset is available for use. Changes in the expected useful life or in the expected consumption pattern of the future economic benefits materializing in the asset are taken into consideration in order to change the amortization period or method, if applicable, and are treated as a change in accounting estimation.

The loss or derecognition of an intangible asset is determined as the difference between the net amount obtained from its disposal and the carrying value of the asset, and is recognized in the consolidated income statement when the asset is derecognized.

2.13 Capital gain -

Represents the excess of the cost of acquisition of companies over the Group's share in the fair value of the respective net assets acquired. Capital gain is presented at cost less accumulated permanent impairment losses on its value. See note 2.14. The losses are determined on the basis of impairment tests carried out by the Group during the last quarter of each year in order to determine whether the carrying value is fully recoverable.

2.14 Impairment of long-lived assets -

The net book value of the property, plant, and equipment and finite life intangible assets are reviewed to determine if there is no impairment. Each year, the Group assesses if there may be the impairment of non-current asset indicators. If so, the Group estimates the recoverable value of the asset, which is the higher of fair value, less costs to sell, and the value in use. Said value in use is determined by discounting the estimated future cash flows. When the recoverable value of an asset is below its net book value, it is considered that there is a deterioration in value.

The assessment on capital gain impairment is made during the last quarter of the year. The Cash Generating Unit (CGU) is aligned with the definition of the business segment. See note 2.4. Impairment is determined by the estimated recoverable value; considering that when said value is less than its book value, an impairment loss is recognized. Impairment losses related to capital gain can not be reversed in future periods.

The recoverable value of an asset is defined as the highest amount between the net sale price and its value in use. The net sale price is the amount that can be obtained selling an asset in a free market, while the value in use is the present value of net future cash flows. Value in use is estimated from the continuous use of an asset and its disposal at the end of its useful life. In determining the value in use, future net cash flows are discounted to their present value using a pre-tax discount rate that reflects the assessment of current market conditions, the value of money over time, and the specific risks of the asset. The discount rates are adjusted for the country risk and corresponding business risk.

As of June 30, 2021 and December 31, 2020, the pre-tax discount rate used was 12.64% (equivalent to an after-tax rate of 8.91%).

When new events or changes in existing circumstances take place and that demonstrate an impairment loss recorded in an earlier period may have disappeared or been reduced, the Group undertakes a new estimate of the profitability of the corresponding asset. This evaluation is performed each financial year. Previously recognized impairment losses are reversed only if there has been a change in the estimates used to determine the recoverable amount of the asset from the date on which the impairment loss was last recognized. If this is the case, the carrying value of the asset is increased to its recoverable amount. This increased amount can not exceed the carrying value amount that would have been determined, net of depreciation, if an impairment loss had not been recognized for the asset in previous years.

This reversal is recognized in the consolidated income statement for the year. After the reversal, the depreciation charge is adjusted in future periods by distributing the carrying value of the asset over its remaining useful life. See note 16 for further information.

2.15 Investments in associates -

An associate is an entity over which the Group has significant influence. An entity is presumed to exercise significant influence if it directly or indirectly owns 20 percent or more of the voting power of the investee, unless it can be clearly demonstrated that such influence does not exist. Conversely, it is presumed that the entity does not exercise significant influence if it directly or indirectly holds less than 20 percent of the voting power of the investee, unless it can be clearly demonstrated that such influence exists. Substantial or majority ownership by another investor does not necessarily preclude an entity from having significant influence.

Such significant influence is manifested through one or more of the following manners:

- i) Representation on the board of directors or equivalent governing body of the investee;
- ii) participation in policy-setting processes, including participation in decisions on dividends and other distributions;
- iii) relatively significant transactions between the entity and its investee;
- iv) exchange of managerial personnel; or
- v) provision of essential technical information.

The investment in associates is presented using the equity method (equity share). According to this method, the investment is initially recognized at cost.

The carrying amount of the investment is adjusted to recognize changes in the Group's share in the net assets of its associates from the date of acquisition.

2.16 Trade accounts payable and other accounts payable -

These amounts represent liabilities for unpaid goods and services provided to the Group at the close of the consolidated statement of financial position. The amounts are not guaranteed and are generally paid within 60 days after recognition. Commercial accounts and other accounts payable are presented as current and non-current liabilities. They are initially recognized at fair value and subsequently measured at amortized cost using the effective interest method.

2.17 Financial obligations -

Financial obligations are initially recognized at their fair value, net of transaction costs incurred. Financial obligations are subsequently measured at amortized cost. Any difference between income (net of transaction costs) and the reimbursement amount is recognized in the consolidated income statement during the period of financial obligations using the effective interest method. Paid fees are recognized as transaction costs of financial obligations insofar as it is probable that part or all of the facility will be withdrawn. In this case, the rate is postponed until the withdrawal occurs. To the extent that there is no evidence that part or all of the facility is likely to be withdrawn, the rate is capitalized as a prepayment for liquidity services and amortized over the period of the facility to which it relates.

Financial obligations are eliminated from the consolidated statement of financial position when the obligation specified in the contract is derecognised, canceled or expires. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including the non-transferred assets or assumed liabilities, is recognized in the consolidated income statement as other financial income or expenses.

Financial obligations are classified as current and non-current liabilities.

2.18 Financing costs -

The financing costs directly attributable to the acquisition, construction or production of an eligible asset that necessarily presents a considerable period of preparation to be available for use or sale are capitalized as part of the cost of the respective asset.

All additional financing costs are recognized as an expense in the period in which they occur. The financing costs are constituted by interest and other costs that the entity incurs in connection with the financed funds.

According to the Group's policy, the qualified assets considered for the purpose of capitalizing financing costs are those whose preparation period exceeds eighteen months.

As on June 30, 2021 and December 31, 2020, the Group did not have assets in progress qualified for the purpose of capitalizing financing costs.

2.19 Employee benefits -

The Group has short-term obligations for employee benefits that include salaries, social contributions, gratuities, performance bonuses and profit sharing (corresponding to 10 percent of taxable income). These obligations are recorded monthly, and charged to the consolidated income statement as they accrue.

Gratuities

The Group recognizes a liability and an expense for gratuities paid to workers as per the legal provisions in force in Peru. The gratuities correspond to two (2) annual remunerations paid in July and December of each year.

Compensation for length of service

The compensation for time of service of the Group's personnel corresponds to their compensation rights calculated in accordance with the legislation in force, which must be deposited in the bank accounts designated by the workers in the months of May and November of each year.

The compensation for staff service time is equivalent to half the monthly remuneration in force on the date of deposit. The Group has no additional payment obligations once it makes the annual deposits of the funds to which the worker is entitled.

Vacations

Staff annual leave and other paid absences are recognized on an accrual basis. The provision for the estimated obligation for annual leave of the personnel, which is calculated on the basis of a monthly salary for every twelve (12) months of services rendered by the employees, is recognized on the date of the consolidated statement of financial position.

The Group does not provide benefits after the employment relationship.

2.20 Provisions -

General -

A provision is recognized only when the Group has a current obligation (legal or implicit) as a result of a past event, it is probable that resources will be required to meet the obligation, and the amount can be reasonably estimated. Provisions are reviewed during each period and adjusted to reflect the best estimate on the date of the statement of financial position. When the effect of the money value over time is significant, the amount of the provision is discounted using a pre-tax interest rate that reflects, when appropriate, the specific risks of the liability. When discounted, the increase in the provision due to the passage of time is recorded in the consolidated income statement as a financial cost.

The amount recorded as a provision is the best estimate, at the closing date, of the disbursement necessary to meet the present obligation. This best estimate will be the amount, valued in a rational manner, that the Group would have to pay to meet the obligation on the date of the consolidated statement of financial position, or to transfer it to a third party on the same date.

The estimates for every single outcome and financial effect are determined by the Group's judgement, and supplemented by experience gained in similar transactions and, in some cases, reports from experts. The evidence to be considered includes any additional data provided by events after the closing of the consolidated statement of financial position.

When the Group expects a part of or the total provision to be recovered, said recoveries are recognized as assets, provided that the recovery is certain. The provisioned amount is presented in the consolidated income statement, net of the recoveries.

Decommissioning -

The Group records the present value of the estimated costs of the legal and implicit obligations required to pay decommissioning costs and equipment removal or the on-site rehabilitation where it is established in the period in which the obligation is incurred.

Decommissioning costs are presented at the present value of the expected costs to settle the obligation, using estimated cash flows, and are recognized as an integral part of asset costs (see note 2.11). Cash flows are discounted at the risk-free market rate reflecting the specific risks of the decommissioning liability.

The accrued discount is recorded as an expense as it is incurred and is recognized in the consolidated income statement as a financial cost. Estimated future decommissioning costs are reviewed annually and adjusted, as appropriate, on an annual basis. The changes in estimated future costs or in the applied discount rate are added to, or deducted from, the cost of the related asset, as appropriate.

Contingencies -

Potential contingencies are not recognized in the consolidated financial statements. These are disclosed in notes on the consolidated financial statements, unless the possibility that an economic flow will be disbursed is remote.

Restructuring -

A built-in obligation is recognized as a consequence of restructuring, only when a formal and detailed plan exists to proceed with the same. This plan must identify, at a minimum, the business activities, or the part thereof involved; the main locations affected; the location, function and approximate number of employees to be compensated; the disbursements to be made; and the dates on which the plan will be implemented.

In addition to what is detailed in the plan, there must be a valid prospect among those affected, either by having begun to implement the plan or by announcing its main features to them.

2.21 Income tax -

Current Income tax -

Current, short-term and long-term income tax assets and liabilities, for the period are measured using the amounts expected to be recovered from or paid to the tax authority, and includes the effect of tax reparations pending resolution of periods prior to the time of settling the current tax. The tax rates and tax regulations used to compute these amounts are those that are approved, at the closing date of the period in Peru, where the Group operates and generates taxable income.

The current income tax that is related to items that are directly recognized in net equity is also recognized in net equity and not in the consolidated income statement. Management periodically evaluates the positions taken in the tax returns regarding situations in which the applicable tax regulations are subject to interpretation, and constitutes provisions when deemed appropriate.

Deferred income tax -

Deferred income tax is recognized using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts at the closing date of the reporting period.

Deferred income tax liabilities are recognized for all taxable temporary differences, except:

- When the deferred tax liability stems from the initial recognition of capital gains or from an asset or liability in a transaction other than a business combination and, at the time of the transaction, it affects neither the accounting result nor the tax result.
- Regarding taxable temporary differences related to investments in subsidiaries, associates and joint ventures, when the time of reversal of the temporary difference can be controlled and it is likely that this difference will not be reversed in the foreseeable future.

The deferred tax asset is recognized for deductible temporary differences, unused tax losses, and unused tax credits, to the extent that it is probable that profit subject to taxation will be available against which deductible temporary differences can be used, with the following exceptions: (a) the deferred tax asset that emanates from the initial recognition of a different asset/liability in a business combination, which, at the time of the transaction, affects neither the accounting profit nor the taxable profit; and (b) deferred tax assets that emanate from temporary differences associated with investments in subsidiaries, branches and associates, and interests in joint ventures are recognized only to the extent that it is probable that the temporary difference will be reversed in the foreseeable future and taxable utility will be available against which the difference can be used.

The Group evaluates a deferred tax asset in combination with other deferred tax assets and liabilities. When tax legislation restricts the use of tax losses, the Group will value a deferred tax asset in combination with other deferred tax assets and liabilities of the same type.

The carrying amount of deferred income tax assets is reviewed on each closing date of the reporting period and reduced to the extent that the existence of future taxable profits is no longer probable to allow the deferred income tax assets

to be used either in whole or in part. Unrecognized deferred tax assets are revalued at each closing date of the reporting period and are recognized to the extent that the existence of future available taxable income that make it possible to recover the same deferred tax assets that were previously unrecognized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to be applicable in the year in which the asset is realized or the liability is paid, based on the tax rates and tax rules that were approved on the date of the reporting period.

Deferred income tax related to items outside the profit or loss is also recognized outside of this. These items are recognized in correlation with the underlying transactions with which they are related, either in other comprehensive income or directly in net equity.

Deferred income tax assets and liabilities are offset if there is a legally enforceable right to offset current income tax assets and liabilities, and if the deferred taxes relate to the same tax authority and the same tax jurisdiction.

2.22 Government Grants -

Government grants are non-reimbursable financing from the public sector in the form of transfers of resources, in exchange for future or past compliance with certain conditions related to operating activities with social impact.

Government grants are recognized when there is reasonable assurance that the Group will meet the conditions for their use and will receive the grants. These grants are recorded as income from the periods required to systematically relate them to the costs to which they are allocated. The amount to be charged to results is maintained as a liability in the item "Deferred income" until it is charged to income. In the case of assets acquired as part of the respective project, these are part of the Group's fixed assets and depreciated in a manner consistent with the policy established for other similar assets. The income related to the grant is recognized in the consolidated income statement, as per the depreciation of the assets.

2.23 Issued capital -

Common shares are classified in equity.

2.24 Recognition of income, costs and expenses -

The Group's revenues come mainly from the provision of the following telecommunication services: traffic, connection and installation fees, periodic fees for the use of the network, interconnection and rental of networks and equipment, as well as for the provision of internet and cable television services. The products and services can be sold separately or jointly in commercial packages.

Traffic -

Traffic revenues are based on the initial call set-up fee, plus per-call rates, which vary according to the time consumed by the user, the distance of the call and the type of service. Traffic is recorded as income as it is consumed. In the case of prepaid, the amount corresponding to the traffic paid pending consumption generates a contractual liability.

Prepaid traffic usually has expiration periods of up to twelve months. Based on historical consumption, the Group estimates the traffic that will not be consumed and is imputed to the consolidated income statement based on traffic consumed.

Connection and installation fees -

Revenue from connection and installation fees originated when customers connect to the Group's network is deferred and imputed to the income statement over the estimated average period of duration of the relationship with the customer or the term of the contract, whether or not a material right is granted, respectively, which varies depending on the type of service in question. The related costs, except those related to the network expansion, are recognized in the consolidated income statement in the estimated average life of the relationship with the customer.

Periodic fees for network use -

In the case of traffic sales, as well as other services, via a fixed rate for a certain period of time (flat rate), the income is recognized on a straight-line basis in the period of time covered by the rate paid by the customer.

Interconnection -

Interconnection revenues derived from customer calls from other operators, as well as, from other services used by customers, are recognized in the period in which they make such calls.

Sale of equipment -

Revenue from the sale of goods (mobile terminal equipment) is recognized when the signal from the sets is activated and transferred to the end customer.

Bundled services -

In the case of revenues from the sale of multi-elements, equipment plus telephony services, internet and paid television, the revenues are allocated based on the fair value of the components delivered. The offers of commercial packages that combine a number of elements are analyzed periodically to determine the necessity to separate the elements, applying in each case the criterion of appropriate income recognition.

Revenues from the sale of modems and decoders, as they are essential elements for service provision, are recognized as internet and television services, respectively, throughout the average life of the customer, accruing the cost of the equipment delivered in the same period. While revenues from the sale of landlines, being elements that can be used independently of contracting the service, are recognized when the set is transferred to the final customer and the signal is activated. Fixed telephony, internet and television services are recognized on a straight-line basis for the duration of the contract.

To the extent that bundles are sold at a discount on equipment (mainly in mobile telephony) and that there is a contract that generates explicit or implicit permanence, the criteria defined in IFRS 15 will apply. The application of the criteria defined in IFRS 15 represents an increase in revenue recognized for sales of equipment, which will generally be recognized coinciding with the moment of delivery to the customer, to the detriment of the periodic income for the provision of services in subsequent periods. The income is assigned proportionally to each element according to the independent sale prices of each individual component, always maintaining the total income value. The difference between the revenue from sales of sets and terminals and the amount received from the customer at the start of the contract is shown as a contractual asset in the consolidated statement of financial position, which will be recovered over the term of the contract with the customer.

The costs that can be finally activated, will be amortized in a systematic and consistent manner, with the transfer to the customer of the goods or services with which the associated asset is related. This asset may be amortized over the duration of the contract, or average life of the customer.

Other income, costs, and expenses -

Other income, costs and expenses are recognized as they accrue, regardless of when they are effected, and are recorded in the periods with which they are related.

2.25 Leases -

At the commencement of a contract, the Group will evaluate whether the contract is, or contains, a lease. A contract is, or contains, a lease if it conveys the right to control the use of an identified asset for a period of time in exchange for a consideration.

The determination of whether a contract is or contains a lease is based on the substance of the contract, i.e., whether the fulfillment of the contract depends on the use of a specific asset or whether the contract grants a right to use the asset, even if that right is not explicitly stated in the contract.

The Group maintains a significant volume of lease agreements as the lessee of various assets, mainly: towers, office and store buildings, and land where own towers are located. These leases accrue at an interest rate as described in Note 18 (c).

The Group as lessee -

The standard requires the leaseholder to recognize all leases in a separate statement of financial position, thus reflecting the right to use the asset for a period of time, as well as the liabilities associated with contractual payments.

At the commencement of a contract, the Group will evaluate whether the contract is, or contains, a lease. A contract is, or contains, a lease if it conveys the right to control the use of an identified asset for a period of time in exchange for a consideration.

The Group as lessor -

Leases in which the Group substantially retains all the risks and benefits inherent to the ownership of the leased assets are classified as operating leases. The initial direct costs incurred in negotiating and contracting the operating lease are added to the carrying value of the leased asset and are recorded throughout the lease period whilst applying the same criteria as for rental income. Contingent income is recorded as income in the period in which it was obtained in the consolidated income statement.

2.26 Share-based payment transactions -

Group employees receive part of their compensation as per share-based payment plans, and according to which said employees provide services and receive equity instruments as consideration. In situations in which equity instruments are issued and some or all of the goods or services received by the entity as consideration can not be specifically identified, the unidentified goods or services received (or that will be received) are measured as the difference between the fair value of the share-based payment transaction and the fair value of any identifiable good or service received on the concession date. This amount is then capitalized or charged to expenses, as appropriate.

2.27 Distribution of dividends -

The distribution of dividends to the Group's shareholders is recognized as a liability in the consolidated financial position statement in the period in which the dividends are approved by the Group's shareholders.

2.28 Fair value measurements -

The Group measures some of its financial instruments, such as accounts receivable from related entities, investments, and other financial liabilities, at fair value on each date of the consolidated financial position statement. Furthermore, the fair value of financial instruments measured at amortized cost is disclosed in Note 3.3.

Fair value is the price that would be received for selling an asset or that would be paid when transferring a liability in an orderly transaction between participants in a market at the measurement date. The measurement at fair value is based on the assumption that the transaction to sell the asset or transfer the liability takes place, either:

- In the main market for the asset or liability, or
- In the absence of a main market, in the most advantageous market for the asset or liability.

The Group must be able to access the main or the most advantageous market. Also, the fair value of a liability reflects its risk of default.

When available, the Group measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is considered active if the transactions for the asset or liability are carried out frequently and sufficient volume to provide price information on an ongoing basis.

All assets and liabilities for which fair values are determined or disclosed in the consolidated financial statements are classified within the fair value hierarchy described below, based on the lowest level of the data used that are significant for the measurement at fair value as a whole:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Valuation techniques via which the lowest level of information that is significant for fair value measurement is directly or indirectly observable.
- Level 3: Valuation techniques via which the lowest level of information that is significant for fair value measurement is not observable.

For assets and liabilities that are recognized at fair value in the consolidated financial statements on a recurring basis, the Group determines whether there have been transfers between the different levels within the hierarchy by reviewing the categorization at the end of each reporting period.

Group Management determines policies and procedures for recurring and non-recurring fair value measurements. At each reporting date, Management analyzes the movements in the values of the assets and liabilities that must be valued in accordance with the Group's accounting policies.

For purposes of fair value disclosures, the Group has determined the classes of assets and liabilities based on their nature, characteristics and risks, and the hierarchy level of fair value, as explained above.

3 FINANCIAL RISK MANAGEMENT

3.1 Financial risk factors -

The Group's main financial liabilities, other than derivatives, include commercial and miscellaneous accounts payable, lease liabilities, accounts payable to related parties and financial obligations. The main purpose of these financial obligations is to finance the Group's operations. The Group has cash and short-term deposits, commercial and miscellaneous receivables and accounts receivable from any related that arise directly from its operations. The Group also has cash flow hedging instruments.

Due to the nature of its activities, the Group is exposed to credit, exchange rate, interest rate and liquidity risks, which are managed through a process of identification, measurement and continuous monitoring, subject to risk limits and other controls.

This process of risk management is critical for the Group's ongoing profitability and each person within the Group is responsible for the risk exposures related to their responsibilities.

The independent process of risk control does not include business risks such as changes in the environment, technology, and industry. These are monitored through the Group's strategic planning process.

(a) Risk management structure -

The risk management structure is based on the Board of Directors and the Group Management, which are responsible for identifying and controlling risks in coordination with other areas as explained below:

i) Board of Directors -

The Board is responsible for the general approach to risk management. The Board of Directors provides the principles for risk management, as well as the policies prepared for specific areas, such as exchange rate risk, interest rate risk, credit risk, and the use of derivative financial instruments.

ii) Finance -

The Finance area is responsible for managing the flow of Group funds, taking into account the policies, procedures and limits established by both the Board of Directors and Group Management, including the follow-up of said procedures to improve the Group's risk management.

iii) Internal Audit -

The Group's Internal Audit area is responsible for supervising the operation and reliability of the internal control systems and the administrative and accounting information. Likewise, it is responsible for supervising the financial information and significant events presented by the Group.

The risk management processes in the Group are monitored by Internal Audit, which analyzes both the adequacy of the procedures and compliance with them. Internal Audit discusses the results of its evaluations with General Management, and reports its findings and recommendations to the Group's Board of Directors.

(b) Risk mitigation -

As part of the total risk management, the Group constantly evaluates the different scenarios and identifies different strategies to manage exposures resulting from changes in interest rates, foreign currency, capital risk, and credit risks.

The Group's risk management is controlled by Corporate Finance as per the policies approved by Management. The Group's Finance area identifies, evaluates and hedges financial risks in close cooperation with the Group's operating units. The Board of Directors provides the principles for general risk management, as well as, policies that hedge specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative and non-derivative financial instruments, financial instruments, and the investment of excess liquidity.

Credit risk -

Credit risk is the risk that a counterparty does not comply with its obligations stipulated in a financial instrument or contract, thus causing a loss. The Group is exposed to credit risk due to its operating activities, mainly in terms of its accounts receivable and financial activities, including its deposits in banks and transactions with derivatives, and other financial instruments.

Credit risk arises from cash and cash equivalents, contractual cash flows from equity investments accounted for at amortized cost, at fair value through other comprehensive income and at fair value through profit or loss, favorable derivative financial instruments and deposits in banks and financial institutions, as well as credit exposures to wholesale and retail customers, including any outstanding accounts receivable.

The Group maintains exposure limits of its placements in a number of banks and financial institutions, according to the institutions' individual risk category. Credit risk is managed as a group. For banks and financial institutions, we only accept entities independently qualified with a minimum grade of "A".

Credit risk is controlled through the evaluation and analysis of individual transactions, for which an evaluation is made based on the aging of accounts receivable. If the wholesale and household customers have an independent rating, these ratings are used. Otherwise, if there is no independent rating, the monitoring of the credit risk assesses the credit quality of the client, with its financial position, past experience and other factors being taken into account. Individual risk limits are established based on internal or external ratings in accordance with the limits established by Management. Compliance with credit limits by wholesale customers is regularly supervised by line management, which is used to determine the estimate required for uncollectibility. Additionally, partial and total service suspensions are imposed on users who have accounts receivable due in accordance with the policy described in Note 2.8 (iv); and Management defines the delinquency objectives.

According to the analysis made by the Group's Management, an account receivable is considered as impaired when it has been classified as an uncollectible account (See note 2.8). In addition, Management estimates a provision for expected losses on non-impaired accounts. As at the date of the consolidated financial position statement, the aging and qualification of the commercial accounts receivable balance is as follows:

	<u>Not impaired</u> <u>S/000</u>	<u>Impaired</u> <u>S/000</u>	<u>Total</u> <u>S/000</u>
As of June 30, 2021			
Not matured	644,569	27,914	672,483
Matured			
Up to 1 month	158,083	63,934	222,017
From 1 to 3 months	130,014	94,432	224,446
From 3 to 6 months	72,640	125,437	198,077
From 6 to 12 months	19,754	279,735	299,489
More than 12 months	8,803	4,663,572	4,672,375
Total	<u>1,033,863</u>	<u>5,255,024</u>	<u>6,288,887</u>
As of December 31, 2020			
Not matured	648,729	28,058	676,787
Matured			
Up to 1 month	169,700	49,841	219,541
From 1 to 3 months	167,963	88,003	255,966
From 3 to 6 months	109,784	165,396	275,180
From 6 to 12 months	72,675	313,353	386,028
More than 12 months	-	4,415,531	4,415,531
Total	<u>1,168,851</u>	<u>5,060,182</u>	<u>6,229,033</u>

Consequently, according to Management's opinion, there are no significant concentrations of credit risk as of June 30, 2021 and December 31, 2020.

As of June 30, 2021, the Group's Management estimated that the maximum net amount of credit risk to which the Group is exposed amounts to approximately S/ 1,409,446,000 (S/ 1,430,422,000 as at December 31, 2020), which represents the net book value of accounts receivable and other financial assets.

Market risk -

Market risk is the risk of losses in balance sheet positions, mainly derived from movements in exchange and interest rates.

The sensitivity analyzes in the following sections refer to positions for the six-month periods ending June 30, 2021 and 2020. Furthermore, they are based on the net amount of debt, the ratio of fixed interest rates, and the position of instruments in foreign currency remaining constant. The sensitivity in the consolidated profit or loss statement is the effect of the changes assumed in the respective market risk. This is based on financial assets and liabilities held as of June 30, 2021 and December 31, 2020, including the effect of hedge derivatives.

i) Exchange rate risk -

The exchange rate risk is the risk that the fair value of the future cash flows of a financial instrument fluctuates due to variations in the exchange rates. The Finance Management is responsible for identifying, measuring, controlling and reporting the exposure to the Group's global exchange risk. The exchange risk arises when the Group presents mismatches between its active and passive positions in the currencies in which it operates, which are mainly soles (functional currency) and US dollars. Management monitors this risk through the analysis of the country's macro-economic variables.

Transactions in foreign currency are carried out at the free-market exchange rates published by the Superintendency of Banking, Insurance and Private Pension Fund Administrators. As at June 30, 2021, the weighted average free market exchange rates for transactions in US dollars were S/ 3.849 per US \$1 purchasing and S/ 3.866 for US \$1 selling (S/ 3.618 per US \$1 purchasing and S/ 3.624 for US \$1 selling on December 31, 2020) and for transactions in Euros, the rates were S/ 4.651 for

€1 purchasing and S/ 4.848 for €1 selling (S/ 4.446 for €1 purchasing and S/ 4.906 for €1 selling as of December 31, 2020), respectively.

The result of maintaining balances in foreign currency for the Group for the three-month periods ended June 30, 2021 and 2020, was a net profit/(loss) of approximately S/ 10,196,000 and S/ 13,481,000, respectively, which they are presented in the item "Net exchange differences" of the consolidated income statement. See note 31.

As of June 30, 2021 and December 31, 2020, the Group had the following assets and liabilities in foreign currency:

	As at June 30, 2021		As at December 31, 2020	
	US\$000	Euros000	US\$000	Euros000
Assets -				
Cash and cash equivalents	-	-	2,996	-

Other accounts payable	<u>(29,844)</u>	<u>-</u>	<u>(36,938)</u>	<u>-</u>
	<u>(336,440)</u>	<u>(13,084)</u>	<u>(322,747)</u>	<u>(13,906)</u>
Purchase position of derivatives (baseline)	<u>249,139</u>	<u>7,999</u>	<u>212,845</u>	<u>8,503</u>
Monetary position, net	<u><u>1,307</u></u>	<u><u>572</u></u>	<u><u>1,669</u></u>	<u><u>9</u></u>

The Group hedges its exposure to the conversion to soles of financial obligations and OPEX operations (denominated in US dollars and euros), through the use of hedge cash flow swaps and forwards contracts.

The following table shows the sensitivity analysis of US dollars (the main currency other than the functional currency in which the Group has a significant exposure), in its monetary assets and liabilities, and its estimated cash flows and in euros. The analysis determines the effect of a reasonably possible change in the exchange rate of the US dollar and the euro, while keeping the other variables constant in the consolidated income statement, before income tax. A negative amount shows a potential net loss, while a positive amount reflects a potential net gain in the consolidated statement of income.

Sensitivity analysis	Change in exchange rates	Effect on results before consolidated taxes	
		As of 30 June 2021	As of 30 June 2020
Devaluation -			
Dollars	5	252	(6,693)
Dollars	10	503	(13,386)
Re-valuation -			
Dollars	5	(252)	6,693
Dollars	10	(503)	13,386

Sensitivity analysis	Change in exchange rates %	Effect on results before consolidated taxes	
		As of 30 June 2021	As of 30 June 2020
Devaluation -			
Euros	5	133	(712)
Euros	10	266	(1,424)
Re-valuation -			
Euros	5	(133)	712
Euros	10	(266)	1,424

The exchange rate sensitivities shown in the previous table are illustrative only and are based on simplified scenarios. However, this effect does not include the actions that would be taken by Management to mitigate the impact of this risk.

(b) Interest rate risk -

The interest rate risk is the risk that the fair value or future cash flows of a financial instrument could fluctuate due to changes in market interest rates. The Group manages its interest rate risk based on the experience of Management, balancing the asset and liability interest rates.

Management believes that future fluctuations in interest rates will not significantly affect the results of the Group's future operations.

The information related to financial instruments with fixed and variable interest rates are shown as follows:

	Rate variable (*) S/000	Fixed rate S/000	No interest S/000	Total S/000	Interest rate average %
As of June 30, 2021					
Financial assets					
Cash and cash equivalents	800,265	-	-	800,265	0.18
Trade accounts receivable, net	-	389,294	644,569	1,033,863	0.81

Financial liability for lease	312,464	830,419	-	1,142,883	3.74
Trade accounts payable	-	-	1,809,744	1,809,744	-
Other accounts payable to related entities	-	-	7,392	7,392	-
Other accounts payable	-	-	40,601	40,601	-
As of December 31, 2020					
Financial assets					
Cash and cash equivalents	876,784	-	-	876,784	0.03
Trade accounts receivable, net	-	520,122	648,729	1,168,851	0.98
Contractual assets	-	-	43,477	43,477	-
Other accounts receivable, net	-	-	237,909	237,909	-
Financial Liabilities					
Other financial liabilities	462,976	2,626,575	7,926	3,097,477	6.42
Financial lease liability	336,268	790,481	-	1,126,749	3.52
Trade accounts payable	-	-	1,706,080	1,706,080	-
Other accounts payable to related entities	-	-	7,873	7,873	-
Other accounts payable	-	-	55,456	55,456	-

(*) Variables are considered as assets and obligations at a variable-based rate, as well as fixed-rate assets and obligations for terms of less than 12 months.

Shown below is the consolidated profit or loss income statement's sensitivity, which is due to the possible effect of changes in the interest rate on financial expenses for the period, before income tax, assuming that the financial liabilities on June 30, 2021 and 2020 will be renewed at the end and will be maintained for the remainder of the following year:

Changes in basic points	Effect on the results	
	consolidated before tax	
	As of 30	As of 30
	June	June
	2021	2020
	S/000	S/000
+ (-) 50	+(-) 129	(-)+ 793
+ (-) 100	+(-)259	(-)+1,585
+(-) 200	+(-)517	(-)+3,170

The exchange rate sensitivities shown in the previous table are illustrative only and are based on simplified scenarios. The figures represent the effect of the pro forma movements in the net financial expense based on the projected scenarios of the yield curve and the interest rate risk profile that the Group currently has. However, this effect does not include the actions that Management may take to mitigate the impact of this risk.

iii) Liquidity risk -

Liquidity risk is the risk that the Group will not be able to meet its payment obligations related to financial liabilities upon maturity and replace the funds when they are withdrawn. The consequence would be the failure to pay the company's obligations to third parties.

Liquidity is controlled by matching the maturities of its assets and liabilities, obtaining credit lines and / or maintaining surplus liquidity as investments, which allows the Group to carry out its activities normally.

The liquidity risk management involves maintaining sufficient cash and finance availability, through an adequate amount of assigned credit sources and the ability to settle transactions, mainly of indebtedness. In this regard, the Group's Management focuses its efforts on maintaining sources of financing through available credit lines as well as corporate bond programs and commercial papers registration.

The Group maintains negative working capital generated mainly by provisions for contingencies classified as short term, whose execution depends on the resolution of various instances. See note 32(b). Additionally, as of June 31, 2021, the Group maintains available credit lines for US \$260,999,000. Furthermore, the Group recorded a net loss in 2020 and 2019 due to high sector competition. Nonetheless, the Group is considering reversing this position through the launch of new business models and strengthening services such as the convergent offer of fixed and mobile services. The foregoing takes into account that the Group has a solid share in fixed services.

The following table shows the maturity of the Group's obligations as at the date of the consolidated statement of financial position and the amounts to be disbursed upon maturity, based on non-discounted payments that will be made:

	<u>Less than 3 months</u> S/000	<u>3 to 12 months</u> S/000	<u>1 to 5 years</u> S/000	<u>More than 5 years</u> S/000	<u>Total</u> S/000
As of June 30, 2021					
Other financial liabilities

Financial liability for leases	49,935	286,333	557,201	233,280	1,126,749
Trade accounts payable	1,706,080	-	-	-	1,706,080
Other accounts payable to related entities	5,284	-	2,589	-	7,873
Other accounts payable	<u>55,456</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>
	<u>55,456</u>				
Total flows from liabilities	<u>1,825,331</u>	<u>576,029</u>	<u>2,634,735</u>	<u>1,963,732</u>	<u>6,999,827</u>

The table above does not include any contingency provisions as their execution is subject to the resolution of various instances per that described in note 32(b). Furthermore, the table does not include hedging of financial derivatives because Management considers that such contracts are effectively settled on a net basis. Consequently, the cash flow hedge and the reconciliation of the amounts equivalent to the accounting values of the discounted net flow generated by these instruments are presented below:

	<u>Less than 3 months</u> S/000	<u>3 to 12 months</u> S/000	<u>1 to 5 years</u> S/000	<u>More than 5 years</u> S/000	<u>Total</u> S/000
As of June 30, 2021					
Income	1,005,818	-	-	-	1,005,818
Expenses	(989,867)	-	-	-	(989,867)
Net cash flow	<u>15,951</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>15,951</u>
Discounted net cash flow	<u>14,365</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>14,365</u>
As of December 31, 2020					
Income	1,055,243	2,979	-	-	1,058,222
Expenses	(1,041,490)	(2,959)	-	-	(1,044,449)
Net cash flow	<u>13,753</u>	<u>20</u>	<u>-</u>	<u>-</u>	<u>13,773</u>
Discounted net cash flow	<u>13,970</u>	<u>25</u>	<u>-</u>	<u>-</u>	<u>13,995</u>

3.2 Capital risk management -

The Group actively manages a capital base to hedge the risks inherent in its activities. The capital adequacy of the Group is monitored using, among other measures, the indicators established by the Management.

The Group's objectives when managing its capital correspond to a broader concept than the "Equity" that is shown in the consolidated statement of financial position and is mainly constituted by: (i) safeguarding the Group's ability to continue operating in a manner that continues to provide returns to the shareholders and benefits to the other participants; and (ii) maintain a strong capital base to support the undertaking of its activities. The Group monitors its capital based on the leverage ratio, which is

calculated by dividing the net debt by total capital. Net debt corresponds to total indebtedness (including commercial accounts payable, accounts payable to related entities, lease liabilities, and other accounts payable) minus cash and cash equivalents. The total capital corresponds to the equity as it is shown in the consolidated statement of financial position plus the net debt.

As of June 30, 2021 and December 31, 2020, the consolidated leverage indicator was as follows:

	As of 30 June 2021 S/000	As of 31 December 2020 S/000
Total indebtedness	6,351,949	6,341,356
Less: Cash and cash equivalents	(961,476)	(876,784)
Net Debt (A)	5,551,684	5,464,572
Total equity (B)	3,210,371	4,061,063
Leverage ratio (A/B)	1.73	1.35

As of June 30, 2021 and December 31, 2020, there were no changes in the activities and policies of capital management in the Group.

3.3 Fair value estimation -

(a) Instruments recorded at fair value according to their hierarchy -

The following table shows an analysis of financial instruments that are carried at fair value according to level of the fair value hierarchy:

	Value of price in active markets <u>Level 1</u> S/000	Significant observable variables <u>Level 2</u> S/000	Significant unobservable variables <u>Level 3</u> S/000	<u>Total</u> S/000
As of June 30, 2021

Derivative financial instruments:				
Foreign currency forward	-	13,995	-	13,995
Total financial assets	-	13,995	-	13,995

Level 1 -

The financial assets included in the Level 1 category are those that are measured based on quotes obtained from an active market. A financial instrument is considered as being quoted in an active market if prices are easily and regularly available from a centralized trading mechanism, agent, broker, industry group, price providers or regulatory entities, and said prices come regularly from transactions in the market.

Level 2 -

The financial instruments included in the Level 2 category are measured based on market factors. This category includes instruments valued using market prices of similar instruments, whether active or not, and other valuation techniques (models) in which all significant data are directly or indirectly observable in the market. The following is a description of how the fair value of the Group's main financial instruments included in this category is determined:

- Derivative financial instruments -

Derivatives designated as hedging instruments reflect the variation in the fair value of foreign currency futures contracts, designated as cash flow hedges to cover highly probable future purchases.

The fair values of swaps and forwards are measured using valuation techniques based on market data. Applied valuation techniques include swap valuation models, using present value calculations. These models take into account various factors, including the credit quality of the counterparties, currencies, forward rates and interest rate curves.

The adjustment for credit valuation is applied to "over-the-counter" derivative exposures to take into account the counterparty risk when measuring the fair value of a derivative.

A credit valuation adjustment is the cost of protection at the market price required to hedge the credit risk of the counterparty in this type of derivatives portfolio. The credit valuation adjustment is calculated by multiplying the probability of default, the default value of loss and the exposure expected at the time of default.

- Debt instruments available for sale -

The valuation of corporate bonds, lease bonds and public treasury bonds are measured by calculating the Net Present Value ("NPV") through discounted cash flows, zero coupon curves, and considering current and observable market transactions. Other debt instruments are measured using valuation techniques based on assumptions supported by observable prices in current market transactions, obtained through price suppliers. However, when prices have not been determined in an active market, fair value is based on quotes from brokers and on assets that are valued using models where most of the assumptions are observable in the market.

Level 3 -

The financial assets included in level 3 are measured using a valuation technique (internal model), based on assumptions that are not supported by prices of observable transactions in the current market for the same instrument, or based on available market data. The Group did not have any level 3 instruments as on June 30, 2021 and December 31, 2020.

- Instruments recorded at amortized cost -

In addition to the instruments recorded at fair value, the following is the disclosure of the comparison between the book values and the fair values of the Group's financial instruments that are recorded at amortized cost in the consolidated statement of financial position. The table does not include the fair values of non-financial assets and liabilities:

	Value of price in active markets (Level 1) S/000	Observable significant variables (Level 2) S/000	Unobservable significant variables (Level 3) S/000	Fair value S/000	Book value S/000
As of June 30, 2021					
Financial assets -					
Asset as per derivative financial instruments	-	14,365	-	14,365	14,365
Total financial assets	-	14,365	-	14,365	14,365
Financial liabilities -					
Bonds issued and debts and loans that accrue interest	-	3,063,735	-	3,063,735	3,063,735
Financial lease liabilities	-	1,142,883	-	1,142,883	1,142,883
Other accounts payable to related entities	-	7,392	-	7,392	7,392
Total financial liabilities	-	4,214,010	-	4,214,010	4,214,010
As of December 31, 2020					
Financial assets -					
Asset as per derivative financial instruments	-	13,995	-	13,995	13,995
Total financial assets	-	13,995	-	13,995	13,995
Financial liabilities -					
Bonds issued and debts and loans that accrue interest	-	3,097,477	-	3,097,477	3,097,477
Financial lease liabilities	-	1,126,749	-	1,126,749	1,126,749
Other accounts payable to related entities	-	7,873	-	7,873	7,873
Total financial liabilities	-	4,232,099	-	4,232,099	4,232,099

The methodologies and assumptions used by the Group to determine the estimated market values depend on the terms and risk characteristics of the various financial instruments that are recorded at amortized cost and include the following:

- i) Assets whose fair value is similar to their carrying value -

For financial assets and liabilities that are liquid or have short-term maturities (less than three months), the carrying value is considered to be similar to its fair value. This assumption also applies to term deposits, savings accounts without a specific maturity and floating rate financial instruments.

- ii) Fixed-rate financial instruments -

The fair value of financial assets and liabilities that are at a fixed rate and amortized cost is determined by comparing the market interest rates at the time of initial recognition with the current market rates related to similar financial instruments.

The estimated fair value of accrued interest on deposits is determined by discounted cash flows, using market interest rates for financial instruments with similar maturities and credit risks. For the issued quoted debt, fair value is determined based on quoted market prices. When market prices are not available, the discounted cash flow model based on the yield curve of the interest rate is used for the remaining term.

4 ESTIMATES AND CRITICAL ACCOUNTING CRITERIA

The preparation of the consolidated financial statements in accordance with IFRS requires Management to make significant judgments, estimates and assumptions to determine the reported figures of assets and liabilities, the exposure of contingent assets and liabilities on the date of the consolidated financial statements, as well as the reported figures of income and expenses for the six-month periods ended June 30, 2021 and 2020.

In Management's opinion, these estimates were made on the basis of their best knowledge of the relevant facts and circumstances at the date of preparation of the consolidated financial statements. However, the final results may differ from the estimates included in the consolidated financial statements. The Group Management does not expect that the variations, if any, will have a significant effect on the consolidated financial statements.

The most significant estimates considered by Management in relation to the consolidated financial statements basically refer to:

- Allowance for doubtful accounts. See notes 2.8, 3.1(b), 7 and 8.
- Allowance for contractual assets and liabilities. See notes 2.24 and 9.
- Allowance for devaluation of inventories. See notes 2.10 and 10.
- Residual value, useful life and depreciation of property, plant and equipment. See Notes 2.11 and 13.
- Allowance for impairment of long-term assets. See notes 2.14, 13, 14, and 16.
- Assets and liabilities for deferred taxes. See notes 2.21 and 24.
- Estimated accrued income. See note 2.24.
- Provision for decommissioning. See notes 2.11, 2.20 and 21.
- Provision for contingencies. See notes 2.20, 21 and 32(b).
- Cash flow hedge. See note 2.9.
- Provision for restructuring. See notes 2.20, 20 and 29.
- Estimated uncertainties and judgments made in relation to lease accounting. See notes 2.25, 15 and 18.

Any difference in estimates on subsequent real results is recorded in the results of the year in which it occurs.

Estimate effects of the Covid-19 global pandemic on the consolidated financial statements

As a consequence of the Covid-19 virus spreading throughout the region and world, the Peruvian State declared a state of national emergency as of March 16, 2020, which has been extended until August 31, 2021, and which, among other measures, included mandatory social immobility (between March 16 and June 30, 2020), the restriction of production and commercial activities, except those considered as essential. The Group carries out its commercial activities in the telecommunications sector, which is considered a basic necessity. Even though at the beginning of the state of emergency the commercialization of the Group's offers was suspended, internet services, payment, mobile telephony, fixed telephony, interconnection and connectivity were consistently provided and did not experience significant interruptions.

Therefore, the main impact that the Group has had is on the collection of services provided, in addition, the Government prohibited the interruption of telecommunications services due to non-payment during the period of social immobilization, between March and June. The Group supporting the national recovery has granted since April 13, 2020, an interest-free payment plan of 6 or 12 installments for

overdue accounts that expired during this period. Furthermore, the Group has granted discounts. Although these benefits have been welcomed by customers, the expected loss due to bad debts has been readjusted based on the projections on the decline in GDP. The Group experienced an increase in credit risk during the second quarter of 2020, mainly associated with the installment plan for accounts that expired during said period. As of December 31, 2020, the estimate for doubtful collections includes possible variations in credit risk.

The Group's initial estimates of revenue growth were diminished. However, this has been partially offset by lower expenses, making better use of installed capacity, and by significant growth in the use of internet and TV. We have determined that the Group has no problems in the recovery of its investments and therefore there is no deterioration of assets. The Management has been constantly monitoring this situation.

5 FINANCIAL INSTRUMENTS

(a) Financial instruments by category

The classification of financial instruments by category is as follows:

	As of 30 June 2021 S/000	As of 31 December 2020 S/000
Assets according to consolidated balance sheet		
Financial assets at amortized cost:		
- Cash and cash equivalents	800,265	876,784
- Trade accounts receivable and other accounts receivable (*)	1,239,999	1,406,760
- Financial derivative instruments used for hedging	14,365	13,995
	<u>2,054,629</u>	<u>2,297,539</u>
Liabilities according to consolidated balance sheet		
Financial liabilities at amortized cost:		
- Financial obligations	3,063,735	3,097,477
- Financial liability for leasing	1,142,883	1,126,749
- Trade accounts payable and other accounts payable (*)	1,850,345	1,761,536
- Other accounts payable to related entities	7,392	7,873
	<u>6,064,355</u>	<u>5,993,635</u>

(*) Does not include advances or taxes.

The maximum exposure to credit risk as of June 30, 2021 and December 31, 2020, is the book value of each financial asset mentioned above.

6 CASH AND CASH EQUIVALENTS

(a) The breakdown of the item is presented below:

	As of 30 June 2021 <u>S/000</u>	As of 31 December 2020 <u>S/000</u>
Fixed funds	308	307
Checking and savings accounts (b)	89,120	118,945
Time deposits (c)	415,600	526,700
Trust fund (d)	<u>295,237</u>	<u>230,832</u>
	<u>800,265</u>	<u>876,784</u>

(b) Current and savings accounts are held in local and foreign banks and are denominated in soles, US dollars and euros. This balance includes current accounts held in the financial institution of Telfisa Global B.V. Group. See note 23(h). Savings accounts are remunerated at current rates in the respective market.

(c) Time deposits have original maturities of less than 90 days and may be renewed upon maturity. As of June 31, 2021 and December 31, 2020, these were composed of deposits in national currency in various national banks. These time deposits are remunerated at current market rates.

(d) Includes the funds of the trust fund administered by La Fiduciaria S.A. (with the involvement of the Banco de Credito del Peru and Banco Santander), which consolidate the collection rights and the cash flows in such a way that the Group can better manage and give greater attention to direct payments that are required for the normal operation of their businesses. As of June 30, 2021 and December 31, 2020, the trust includes only cash.

(e) There were no restrictions on the balances of cash and cash equivalents as of June 30, 2021 and December 31, 2020.

7 COMMERCIAL ACCOUNTS RECEIVABLE, NET

(a) The breakdown of the item is presented below:

	As of 30 June 2021 <u>S/000</u>	As of 31 December 2020 <u>S/000</u>
Fixed business subscribers	3,052,085	2,897,256
Mobile business subscribers	2,176,326	2,128,191
Data and information technology	566,028	645,230
Distributors, agencies, and department stores	104,975	144,548
Wholesale - Interconnection and Correspondents	195,269	190,327
Related, note 23(d)	106,708	123,075
Others	<u>87,496</u>	<u>100,406</u>
	6,288,887	6,229,033
Less - Allowance for doubtful accounts (c)	(5,255,024)	(5,060,182)
	1,033,863	1,168,851
Less - Non-current portion (d)	(1,728)	(503)
Current portion	<u>1,032,135</u>	<u>1,168,348</u>

(b) Commercial accounts receivable (net) generate interest after maturity. The items of internet, fixed and public telephony, cable television, mobile phone subscribers, distributors, agencies, and large

stores are mainly billed in soles, while accounts receivable for data and information technology, interconnection and foreign correspondents are mainly billed in US dollars. Likewise, as of June 30, 2021, as a result of the State of Emergency, the Group has financed its fixed and mobile business customers for the invoices expiring mainly between January and June 2020 for S/ 183,200,000. We granted customers interest-free payment terms of 6 or 12 months, and have thus far received S/ 115,074,000.

As of June 30, 2020, trade accounts receivable includes estimates for unbilled services rendered for approximately S/62,609,000 (S/56,073,000 as of December 31, 2020). The Group Management estimates that these items would be invoiced in full in 2020.

As of June 30, 2021, the Group had approximately 1,696,000 fixed and public telephony lines in service, 4,339,000 postpaid mobile telephony lines, 1,993,000 connections in broadband service, and approximately 1,378,000 paid television accesses (1,828,000, 4,169,000, 1,912,000 and 1,384,000, respectively as of December 31, 2020).

- (c) The movement of the allowance for doubtful accounts as of June 30, 2021 and December 31, 2020, is as follows:

	As of 30 June 2021 <u>S/000</u>	As of 31 December 2020 <u>S/000</u>
Opening balance	5,060,182	4,565,517
Endowment for the period, note 28(a)	192,456	504,411
Punishments	(32,132)	(55,934)
Net exchange differences	<u>34,518</u>	<u>46,188</u>
Ending balance	<u><u>5,255,024</u></u>	<u><u>5,060,182</u></u>

In Management's opinion, the allowance for doubtful accounts is sufficient to cover the credit risk of these accounts at the date of the consolidated statement of financial position, in accordance with the Group's accounting practice, described in note 3.1(b).

- (d) As of June 30, 2021 and December 31 2020, accounts receivable from financed sales of mobile terminals and equipment related to internet, central and paid television services which have maturities of up to 24 months are included,. Contractually, these accounts do not generate interest, but for accounting purposes an implicit interest is estimated, which is deferred at the time of the sale and is recognized as revenue depending on the duration of the contract.

The amount recognized for implicit interest for the three months ended June 30, 2021, ascends to S/644,000 (S/1,176,000 for the six-month period ended June 30, 2020) and is presented in the item of "Financial income" in the consolidated statement of income. See note 31.

- (e) In June and August 2020, the Group transferred the collection rights related to sales of financed mobile terminals to Inter-American Investment Corporation for S/ 34,166,000. This action produced a loss of S/ 542,000, and the Group was also entrusted with the collection of the assigned rights.

In 2020, the assignment of collection rights to customers of the Group with the Continental Bank Trust (BBVA) was made, for the amount of S/ 122,712,000, whilst retaining risks for S/ 7,926,000 as of December 31, 2020. This portion is presented as "Other financial liabilities" (see note 17.3). The foregoing produced a loss of sales (discount) of S/ 2,314,000. The latter also entrusted the Group with the collection of the assigned rights.

8 OTHER ACCOUNTS RECEIVABLE, NET

(a) The table below presents the breakdown of the item:

	As of 30 June 2021 S/000	As of 31 December 2020 S/000
Collection rights for enforcement actions (b)	141,468)	141,531)
Collection rights (c)	110,062	110,062
Grants receivable (d)	101,117	112,002
Sale of properties	526	45,746
Loans to personnel, note 23(f)	15,016	16,620
Loans to third parties	11,356	13,645
Derivative financial instruments (g)	14,365	13,995
Others	<u>78,772</u>	<u>52,521</u>
	472,682	506,122
Less allowance for doubtful accounts (f)	(<u>159,431</u>)	(<u>159,406</u>)
	313,251	346,716
Less non-current portion	(<u>59,916</u>)	(<u>65,158</u>)
Current portion	<u><u>253,335</u></u>	<u><u>281,558</u></u>
Financial assets classified as Other accounts receivable	206,136	237,909
Non-financial assets classified as Other accounts receivable	<u><u>107,115</u></u>	<u><u>108,807</u></u>
	<u><u>313,251</u></u>	<u><u>346,716</u></u>

(b) The collection rights for coercive executions mainly correspond to seizures of Group assets without a judicial sentence made by several municipalities nationwide. The Municipalities demand the payment of licenses and fines for the installation of an external plant without municipal authorization. Management continues with the filing of the legal actions and considers that the seizures undertaken will be declared illegal. Likewise, based on a collectability study carried out, the respective doubtful collection estimates have been established.

(c) As of June 30, 2021 and December 31, 2020, these correspond mainly to collection rights to the Tax Administration, for payment of tax assessments (See note 32(b)) which, in the opinion of Management and of the legal advisors, will be recovered when certain appeals filed in relation to the assessments received for income tax from previous years are resolved, as permitted by IAS 12 - "Income Tax".

The Group Management expects to recover this item in the short term.

(d) Corresponds mainly to the Lambayeque Project - a contract signed on May 27, 2015, between the Group and the Peruvian State (represented by the Investment Fund in Telecommunications - FITEL), for the non-reimbursable financing of the Project "Comprehensive broadband connectivity and the social development of the country's northern area", which has been collected according to the established schedule.

In accordance with the Group's accounting practice, described in note 2.22, both the disbursement received and pending payments are presented under "Deferred income" in the consolidated statement of financial position. See note 22.

(e) The other accounts receivable is denominated in national and foreign currency and do not generate interest.

- (f) The other accounts receivable was collectively evaluated to determine if there was an objective impairment evidence. However, the Group determined that the estimate of doubtful collections at the end of the period is sufficient, in accordance with the Group's accounting practice described in note 2.8(iv).
- (g) As of June 30, 2021, the Group had forwards cash flow hedging contracts to reduce the exchange rate risk for disbursements of certain Opex and Capex operations, for a nominal value of US \$1,000,000 that has maturity dates during 2021. As of December 31, 2020, the hedging contracts were for US \$33,422,000. The cash flow hedge of the future expected payments was evaluated as being highly effective. It is expected that the amounts retained in the separate statement of other comprehensive income will affect the separate profit or loss statement in each of the future periods until their maturity dates.

9 ASSETS AND LIABILITIES RELATED TO CUSTOMER CONTRACTS

The Group has recognized the following assets and liabilities related to customer contracts.

- (a) Contractual assets:

	As of 30 June 2021 S/000	As of 31 December 2020 S/000
Sale of handsets, note 2.24	29,880	43,477
Less non-current portion	(2,103)	(4,461)
Current portion	<u>27,777</u>	<u>39,016</u>

- (b) Contract liabilities:

	As of 30 June 2021 S/000	As of 31 December 2020 S/000
Fixed and mobile telephony services, note 2.24	87,973	73,454
Deferred installation fee, note 2.24	72,325	61,767
Access rights IRU (c)	41,602	47,168
Business project	24,128	23,938
Others	<u>2,257</u>	<u>3,006</u>
	228,285	209,333
Less non-current portion	(77,241)	(59,669)
Current portion	<u>151,044</u>	<u>149,664</u>

- (c) These correspond to the irrevocable rights of unrestricted use of certain Group assets granted to third parties for a period of up to 20 years.

10 INVENTORIES

- (a) The breakdown of the item is presented below:

	As of 30 of June 2021 S/000	As of 31 of December 2020 S/000
Merchandise and supplies	153,647	152,914
Inventories receivable	<u>65,618</u>	<u>41,432</u>
	219,265	194,346
Less Estimate for inventory devaluation (c)	(14,580)	(26,058)
	<u>204,685</u>	<u>168,288</u>

- (b) The cost of inventories sold during the six-month period ending June 30, 2021, was approximately S/582,744,000 (S/330,609,000 for the six-month period ending June 30, 2020) and is recorded in the item "Cost of equipment sales" in the consolidated income statement.
- (c) The movement of the inventory devaluation estimate as of June 30, 2021 and December 31, 2020, is as follows:

	As of 30 June 2021 <u>S/000</u>	As of 31 December 2020 <u>S/000</u>
Opening balance	26,058	18,548
Provision (recovery) for impairment of inventories, net, note 28	(11,478)	7,510
Final balance	<u>14,580</u>	<u>26,058</u>

In Management's opinion, the estimate for inventory devaluation adequately hedges the estimated loss risk on the dates of the consolidated statement of financial position.

11 OTHER NON-FINANCIAL ASSETS

- (a) The breakdown of the item is presented below:

	As of 30 June 2021 <u>S/000</u>	As of 31 December 2020 <u>S/000</u>
Deferred compliance costs (b)	412,455	413,066
Customer acquisition expense (c)	186,635	116,979
Maintenance of licenses and computer equipment	32,301	14,909
Annual fee (e)	31,151	-
Advances granted to suppliers	20,612	7,470
Prepaid insurance	16,133	4,769
Prepayments for access rights (d)	3,382	3,581
Advertising paid in advance	333	2,018
Others	<u>99,531</u>	<u>67,750</u>
	802,533	630,542
Less non-current portion	(300,037)	(263,207)
Current portion	<u>502,496</u>	<u>367,335</u>

- (b) Includes the costs of Pay TV modems and decoders, these equipments are provided to the customer as part of the service, and which are deferred as they are compliances to be fulfilled under customer contracts.
- (c) Corresponds to expenses directly related to obtaining commercial contracts (sales commissions, expenses with third parties, among others), which are amortized for indefinite-term contracts over their useful life, and for contracts with onerous permanence within that period.
- (d) As on June 30, 2021 and December 31, 2020, the foregoing includes access rights not classified as a lease under the application of IFRS 16.
- (e) Corresponds to the non-accrued balance due to radio electric spectrum use, which is accrued during the year. During 2021, the Group has accessed a benefit of S/ 21,176,000, granted by the mobile royalty law for infrastructure expansion and/or the technological improvement of the structure. The foregoing reduced the royalty for the period by committing to cover 39 new locations with 4G

technology in 12 months. This coverage will be carried out through a provider as legally permitted. Furthermore, the Company requested to pay monthly installments for the 2021 canon, which was approved by the Ministry of Transportation and Communications for 12 months. The payment plan will expire on February 28, 2022. See note 17.2(b).

12 INVESTMENTS IN ASSOCIATES

(a) The table below presents the breakdown of the item:

	As of 30 of June 2021 S/000	As of 31 of December 2020 S/000
Associates		
Red Digital del Perú S.A.C. (b)	-	8,431
Internet Para Todos S.A.C. (c)	<u>249,778</u>	<u>256,506</u>
	<u>249,778</u>	<u>264,937</u>
Other share investments		
Wayra Perú Aceleradora de Proyectos S.A.C.	<u>219</u>	<u>219</u>
	<u>219</u>	<u>219</u>
	<u><u>249,997</u></u>	<u><u>265,156</u></u>

(b) Company incorporated in November 2014, which is dedicated to developing, managing, and supporting a variety of products and services for small, medium, and large companies. The Group's stake in Red Digital Perú S.A.C. is 40%. In 2021, the shares were sold to Movilway Perú S.A.C.

(c) Internet para Todos S.A.C.

In 2019, the Company reached agreements with other investors, JML International Limited, which is a subsidiary of Facebook, Inc. (Facebook), Andean Development Corporation (CAF) and Inter-American Investment Corporation (IDB) to regulate their joint investment and common share in the equity of Internet Para Todos S.A.C. (IPT) in the following manner:

<u>Business</u>	<u>%</u>
Facebook	24.67
CAF	10.33
IDB	10.33

As a result of the agreement with the partners, Telefónica del Perú diluted its share to 54.67% of the IPT shares, and the Company also lost control of the subsidiary, thereby becoming an associate.

The following table shows the summary of the main items of the associate financial statements as of June 30, 2021 and at December 31, 2020.

	As of 30 June 2021	As of 31 December 2020
	<u>S/000</u>	<u>S/000</u>
Assets	505,449	521,952
Liabilities	43,445	55,224
Equity, net	462,004	466,728
Profit for the year	(15,362)	(10,993)

- (d) The associated companies do not have contingent liabilities or capital commitments as of June 30, 2021 and December 31, 2020.

13 PROPERTIES, PLANT AND EQUIPMENT, NET

As of June 30, 2021	6,217,004	2,328,413	-	8,545,417
Net value				
As of June 30, 2021	1,593,324	139,503	165,404	1,898,231
As of December 31, 2020	1,671,721	115,102	141,065	1,927,888

- (b) The concessions include:
- (i) The difference between the share acquisition cost and the fair value of the respective net assets of the Compañía Peruana de Teléfonos S.A. (CPT), acquired by the Group in 1994, was allocated to the cost of the concession, which amortizes over a period of 33 years, maturing in December 2027.
- (ii) Band A 1710-1730 Mhz and 2110-2130 Mhz (4G LTE) in Lima and Provinces, awarded by the MTC in July 2013 for US \$152,229,000, which is amortized over a period of 20 years until the year 2033. It also includes the use of the B band of provinces, the use of the band in Lima and Callao, and the use of the 25 Mhz band corresponding to the 1,900 Mhz band.

- (iii) Block C, of the 700 Mhz band, in Lima and Provinces, signed with the MTC in July 2016, for US \$315,007,700, which is amortized over a period of 20 years until the year 2036.
- (c) The software includes the financial and accounting applications based on the SAP system, as well as, the network licenses corresponding to software for platforms supporting the commercial systems. The software activated during 2021 and 2020, corresponds mainly to corporate systems for the commercial area, office applications, control equipment software, and network management, among others.
- (d) As of June 30, 2020, it includes the transfer of the equity block to Telefónica Cloud Tech Peru S.A.C., and the sale of the Group's stake in it for S/ 3,646,000. See note 1.3(a). As of December 31, 2020, it includes the transfer of the equity Block to Telefónica Cybersecurity & Cloud Tech Peru S.A.C., and the sale of the Group's stake in it for S/ 5,424,000. See note 1.3(b).
- (e) As of June 30, 2021 and December 31, 2020, Management has carried out an analysis of impairment indicators and determined that there is no impairment in the value of the assets. In Management's opinion, no estimate is required at the date of the consolidated statement of financial position.

15 RIGHTS-OF-USE ASSETS

As of June 30, 2021	170,837	200,793	51,496	29,224	452,350
Net value					
As of June 30, 2021	389,214	419,072	106,778	3,912	918,976
As of December 31, 2020	392,414	444,661	107,858	8,865	953,798

- (b) During 2020, site lease agreements owned by third parties were transferred to Telxius Torres Perú S.A.C., a related company, increasing the terms of the same based on the end dates of the tower space leases (located in these places). The foregoing thus recognized an increase in the rights of use for this increase of S/72,095,000 and a decrease of S/15,572,000 which corresponds to the initial period signed with the third party.
- (c) Corresponds to the transfer of site lease agreements for spaces used by Internet Para Todos S.A.C., which meant a reduction of rights of use of S/ 46,274,000.

Includes the transfer of the Equity block to Telefónica Cybersecurity & Cloud Tech Perú, S.A.C., and the sale of the Group's stake in the same for S/ 15,360,000. See note 1.3(a).

16 CAPITAL GAIN

- (a) Corresponds to the highest value paid for the acquisition of 17.44% of shares of Telefónica Móviles Perú Holding S.A.A. and of the entire share in Telefónica Empresas Perú S.A.A., as well as of the subsidiaries Star Global Com S.A.C. and Telefónica Multimedia S.A.C., over the share of the Group in the fair value of the respective net assets acquired. These companies were absorbed.
- (b) The movement for the item is as follows:

	As of 30 June 2021 S/000	As of 31 December 2020 S/000
Opening balance	1,215,145	1,215,145
Final balance	<u>1,215,145</u>	<u>1,215,145</u>

The recoverable amount has been determined using cash flows projections derived from the financial budgets approved by Senior Management. The aforementioned cover three years (3) and perpetuity. The corresponding discount rate has been determined and is applicable to cash flow projections. Cash flows that go beyond the period indicated in the projections are extrapolated using a specific growth rate that is similar to the long-term average growth rate for the industry in which the Group operates.

On June 31, 2021 and December 31, 2020, the amount of the capital gain was been compared with the recoverable value. Management has thus determined that it is not necessary to establish an impairment estimate for these assets at the date of the consolidated statement of financial position. See note 2.14.

Key assumptions used in calculations of value in use

The calculation of the value in use for the units evaluated is largely sensitive to the following assumptions:

- Gross margin
- Discount rate
- Market share during the budgeted period; and
- Long-term growth rate used to extrapolate cash flows that go beyond the budget period.

Gross margin -

It is based on the average values recorded in the three years prior to the commencement of the budget period and future projects of each company. It increases during the budget period with the expected efficiency improvements. In the long term, the Group's gross margin (OIBDA) remains constant at 32.3%.

Discount rate -

This rate represents the current market assessment of the Group's specific risks, considering the time value of money and the particular risks of the underlying assets that were not included in the cash flow estimates. The calculation of the discount rate is based on the specific circumstances of the Group, and represents the average cost of capital. This average considers both debt and equity. The cost of equity is based on the return on investment that the Group's shareholders expect to obtain. The cost of the debt is based on the loans that accrue interest that the Group must pay. The specific segment risk is incorporated through the application of individual beta factors. Beta factors are evaluated annually on the basis of market information available to the public.

The after-tax discount rate used as of June 30, 2021 and December 31, 2020 was 8.91%.

Market Share -

Using industry information to forecast growth rates is important because Management evaluates how the position of the unit could change in relation to its competitors during the budgeted period. Management expects the Group's market share to remain stable during the budgeted period.

Long-term growth rate -

This rate is based on published market research and trends in the telecommunications sector. The growth rate as of June 30, 2021 and December 31, 2020, which has been considered for the following years is 2.70%.

Sensitivity to changes in assumptions -

Management considers that the most sensitive assumptions for the model are the growth rate and the discount rate. Therefore, Management carried out a sensitivity analysis where it concluded that the recoverable value of the Group is above its book value, considering a simultaneous variation of 10% in both variables (an increase in the discount rate of 0.9% and a reduction in the rate of growth of 0.3%), and concluded that the Group would continue to be above the book value and would not have to recognize any impairment in capital gain as of June 30, 2021.

17 OTHER FINANCIAL LIABILITIES

(a) The breakdown of the item is presented below:

	<u>As of June 30, 2021</u>		<u>As of December 31, 2020</u>

Total	42,219	2,983,146	3,025,365	43,325	3,046,226	3,089,551

- (d) The resources raised in the bond issue were used to finance working capital, restructuring liabilities, making investments, among others. These bonds are guaranteed with the equity of Telefónica del Perú S.A.A.
- (e) The amount authorized for the issuance of bonds is up to US \$1,650,000,000, outstanding or its equivalent in national currency, as approved by the General Shareholders' Meeting on March 24, 2017, of Telefónica del Perú S.A.A., within a term that was extended until December 31, 2022.

Furthermore, within the same term, it may issue short-term instruments up to an amount of US \$550,000,000 outstanding with a maximum limit of US \$2,000,000,000 as a whole.

- (f) In June 2016, the issue of Corporate Bonds maturing in June 2023, and for an amount of S/ 260,000,000 at an issue price at par and a fixed nominal annual interest rate of 6.66 percent, was finalized. The foregoing was undertaken in order to assume the expenses associated with the Group's participation in the public tender for Block C of the 700 Band (see note 14(b)(iii)).
- (g) In April 2019, the issuance of an International Bond with maturity in April 2027 was finalized for an amount of S/ 1,700,000,000, at a nominal fixed annual interest rate of 7.38%. The funds raised in the placement will be used for the execution of investment projects in capital goods, the re-profiling of some debt operations and other corporate uses. Furthermore, this bond has a covenant not to carry out asset sales operations with subsequent leasing greater than 20% of the consolidated net assets, which are calculated as total consolidated assets excluding capital gain, trademarks, patents and rights, and licenses (without administrative concessions), net of current liabilities. The Group has been complying with this agreement.

17.2 Short-term debt -

(a) The breakdown of the item is presented below:

	Currency of origin	As of 30 June 2021 S/ 000	As of 31 December 2020 S/ 000
Ministry of Transport and Communications (b)	S/	38,370	-
BBVA Banco Continental trust (c)	S/	-	7,926
		<u>38,370</u>	<u>7,926</u>
Debt composition			
Principal		38,370	7,926
Interest		-	-
		<u>38,370</u>	<u>7,926</u>

(b) Installments for the mobile royalty for the 2021 period, matures in February 2022. See note 11(e).

(c) Risk not transferred in the assignment of collection rights with the BBVA Banco Continental Trust. See note 7(e).

18 FINANCIAL LEASES LIABILITIES

(a) The breakdown of the item is presented below:

	As of June 30, 2021		As of December 31, 2020	
	Foreign currency US \$000	Equivalent in local currency S/ 000	Foreign currency US \$000	Equivalent in local currency S/ 000
Financial lease liabilities	94,362	364,805	77,267	280,016
Financial lease liabilities	-	778,078	-	846,668
Finance lease	-	-	18	65
		<u>1,142,883</u>		<u>1,126,749</u>
Less non-current portion		(830,419)		(790,481)
Current portion		<u>312,464</u>		<u>336,268</u>

(b) Future payments under leases as at June 30, 2021 and December 31, 2020, are as follows:

	As of 30 June 2021 S/000	As of 31 December 2019 S/000
2021	156,232	336,268
2022	205,607	164,818
2023	179,486	145,147
2024	168,206	138,141
2025 onward	<u>433,352</u>	<u>342,375</u>
	<u>1,142,883</u>	<u>1,126,749</u>

- (c) The current average annual rate of lease liabilities in soles as of June 30, 2021 is 3.68% and in dollars it is 3.88% (3.56% in soles and 3.39% in dollars as of December 31, 2020).
- (d) As of December 31, 2020, it contains lease liabilities with Telxius Torres Perú S.A.C., a related company, for S/ 568,184,000.

19 TRADE ACCOUNTS PAYABLE

- (a) The table below presents the breakdown of the item:

	As of 30 June <u>2021</u> S/000	As of 31 December <u>2020</u> S/000
National suppliers (c)	792,026	773,483
Accrual of obligations to be invoiced	575,376	593,172
Related, note 23(d)	344,957	201,083
Foreign suppliers	94,881	135,901
Contractor security deposits	<u>2,504</u>	<u>2,441</u>
	<u>1,809,744</u>	<u>1,706,080</u>

- (b) Commercial accounts payable are denominated in soles, US dollars and euros, do not accrue interest, have current maturities, are normally paid in an average period of 60 days, and no guarantees have been granted.
- (c) Domestic suppliers, as of June 30, 2021 and December 31, 2020, respectively represent S/ 393,497,000 and S/ 414,163,000 in accounts payable that are under assignment of collection rights with Investment Funds, in which TFP S.A.C. (an affiliate of the Group) provides management services required for suppliers to access such transactions. The aforementioned collection rights transfer transactions have not involved a change in the commercial terms agreed with the suppliers and the Group. As such, their classification as commercial accounts payable has been maintained.
- (d) The book amounts of the trade accounts are considered equal to their fair values due to their short-term nature.

20 OTHER ACCOUNTS PAYABLE

(a) The breakdown of the item is presented below:

	As of 30 June 2021 S/000	As of 31 December 2020 S/000
Salaries and vacations (b)	242,410	303,528
Taxes payable, note 24 (h)	44,767	28,392
Security deposits	13,498	11,258
Dividends and returns payable to shareholders	4,504	16,683
Employee participation, note 24(e)	417	15,801
Collection commissioned to third parties (c)	-	8,695
Others	<u>22,599</u>	<u>18,820</u>
	328,195	403,177
Less non-current portion (b)	(62,821)	(135,412)
Current portion	<u>265,374</u>	<u>267,765</u>
Financial liabilities classified as other accounts payable	40,601	55,456
Non-financial liabilities classified as other accounts payable	<u>287,594</u>	<u>347,721</u>
	<u>328,195</u>	<u>403,177</u>

(b) In August 2020, Management began a retirement program identifying positions that did not fit the business model. This meant the termination of 130 employees at an amount of S/ 36,623,000. Likewise, in December 2020 the Group identified approximately 25 additional positions which will be released during the second quarter of 2021. Severance costs are estimated to be S/ 19,334,000. In April 2021, an incentivized voluntary retirement program began, which was in force until June 15. 280 employees received severance payments of S/ 75,760,000.

(c) As at June 30, 2021, this corresponds to collections made by the Company on behalf of Inter-American Investment Corporation, on rights assigned by the Company. See note 7(e).

21 OTHER PROVISIONS

(a) The breakdown of the item is presented below:

	As of 30 June 2021 S/000	As of 31 December 2020 S/000
Litigation and risks, (c) and note 32(b)	555,186	591,430
Dismantling of towers, note 2.20	48,975	45,980
Others (d)	<u>23,463</u>	<u>17,143</u>
	627,624	654,553
Less non-current portion	(233,429)	(259,231)
Current portion	<u>394,195</u>	<u>395,322</u>

(b) Item movement is detailed below:

	Litigation and risks	Decommissioning	Others	Total
	S/000	S/000	S/000	S/000
Balances as of January 1, 2020	579,029	49,906	10,989	639,924
Additions, see note 32(b)	63,041	5,715	17,081	85,837
Disposals	-	(9,641)	(10,927)	(20,568)
Payments	(50,640)	-	-	(50,640)
As of December 31, 2020	591,430	45,980	17,143	654,553
Additions, see note 32(b)	33,652	2,995	6,320	42,967
Payments	(69,896)	-	-	(69,896)
As of June 30, 2021	555,186	48,975	23,463	627,624

(c) Mainly includes various provisions made by the Group in accordance with the practice described in note 2.20, based on best estimates of the disbursement that would be required to settle obligations on the date of the consolidated statement of financial position.

Management and its internal and external legal advisors consider that the provisions recorded are sufficient to cover the risks that affect the Group's business as at June 30, 2021 and December 31, 2019, as described in note 32(b).

(d) As of June 30, 2021 and December 31, 2020, "Others" includes a provision for the strengthening of towers as a result of the 962 towers sold. See note 30(d).

22 DEFERRED INCOME

(a) The breakdown of the item is presented below:

	As of 30 June 2021	As of 31 December 2020
	S/000	S/000
Grants, (b) and notes 2.22 and 8(d)	90,433	95,317
Intégrame	1,860	2,533
Others	23,469	12,786
	115,762	110,636
Less non-current portion	(76,274)	(81,359)
Current portion	39,488	29,277

(b) Deferred revenue from grants mainly includes:

- Lambayeque Project: corresponds to the contract signed on May 27, 2015, between the Group and the Peruvian State (represented by the Investment Fund in Telecommunications - FITEL), for the non-reimbursable financing of the Project "Comprehensive Broadband Connectivity for development social activity in the northern part of the country".

The balance for this project as of June 30, 2021 and December 31, 2020, amounted to approximately S/ 87,296,000 and S/ 91,320,000, respectively. The Lambayeque project includes the construction of a transportation network for US \$11,613,000. The investment term was extended until 2027.

- BAS Project: corresponds to the contract signed on February 27, 2009, between the Group and the Peruvian State (represented by FITEI), for the non-reimbursable financing of the Broadband Project for Isolated Locations (BAS). The balance for this project ended accruing in January 2020, and as at December 31, 2019 amounted to approximately S/ 579,000.
- Selva [Jungle] Project: corresponds to the contract signed on February 18, 2011, between the Group and the Peruvian State (represented by FITEI), for the non-reimbursable financing of the Project "Integration of rural areas and places of preferential social interest to the network of the mobile service - Selva." The balance for this project amounts to approximately S/ 3,137,000 and S/ 3,997,000 as of June 30, 2021 and December 31, 2020, respectively.

The Group has the obligation to use such financing at its own risk for the design, acquisition of equipment, installation, commissioning, operation, and maintenance of a system that will allow the provision of public telecommunications services in beneficiary localities, complying with the conditions foreseen in the technical specifications presented in the financing contract.

<u>Proyecto</u>	<u>Lambayeque</u>	<u>BAS</u>	<u>Selva</u>
Investment term	14 months	19 months	12 months
Period of operation	120 months	48 months	50 months
End of the contract	Continue with the obligations	stipulated in the respective concession contracts	
Amount	US\$47,626,000	US\$48,849,000	US\$14,718,000

For the six-month period ended June 30, 2021 and 2020, the Company accrued income of S/ 9,759,000 and S/ 12,826,000 respectively. These are presented in the caption "Other operating income and expenses" of the consolidated income statement. See note 30(a).

23 TRANSACTIONS WITH RELATED ENTITIES

- (a) During the six-month periods ended June 30, 2021 and 2020, the most significant transactions carried out by the Group with related entities were the following:

	<u>As of 30 June 2021 S/000</u>	<u>As of 30 June 2020 S/000</u>
Revenues with related companies for:		
Rural traffic services		
- Internet para Todos S.A.C.	18,693	13,085
Land leases		
- Telxius Torres Perú S.A.C.	267	319
Other non-recurring income related to:		
Sale of towers		
- Telxius Torres Perú S.A.C.	-	11,976

	As of 30 June <u>2021</u> S/000	As of 30 June <u>2020</u> S/000
Expenses with related companies for:		
Rural traffic services		
- Internet para Todos S.A.C.	(50,343)	(56,748)
Trademark use fee, note 28(a)		
- Telefónica, S.A. (b)	(53,990)	(57,001)
Internet and fiber optic linking services		
- Telxius Cable Perú S.A.C.	(44,640)	(50,488)
Systems Service		
- Telefónica Global Technology S.A.U.	(25,564)	(26,558)
Leasing of towers and sites		
- Telxius Torres Perú S.A.C.	(21,502)	(11,699)
Transfer of management capacity, note 28(a)		
- Telefónica Latinoamérica Holding S.L. (c)	(993)	(4,591)
Transfer of management capacity, note 28(a)		
- Telefónica Hispanoamérica S.A. (c)	(5,938)	-

- (b) The Group has a contract with Telefónica, S.A., whereby it pays a trademark fee equivalent to 1.6% of monthly income, excluding local operations with related companies, unless the previous year had a negative balance when deducting depreciation, amortization, and CAPEX for that year from the operating income.
- (c) As of June 30, 2021, the Group has management capacity transfer contracts with Telefónica Hispanoamérica S.A. As of December 31, 2020, they were held with Telefónica Latinoamérica Holding S.L.

(d) As at June 30, 2021 and December 31, 2020, the Group had the following commercial balances with related entities:

	<u>As of June 30, 2021</u>		<u>As of December 31, 2020</u>	
	<u>Accounts</u>	<u>Accounts</u>	<u>Accounts</u>	<u>Accounts</u>
	<u>receivable</u>	<u>payable</u>	<u>receivable</u>	<u>payable</u>

- (e) On September 30, 2020, the Group granted a loan to Telfisa Global B.V. for US \$ 135,000,000 equivalent to S/ 485,325,000 which was collected upon maturity on December 29, 2020. The loan accrued interest of S/ 682,000 at the annual rate fixed of 0.56%, and is presented in the note "Financial income and expenses" of the consolidated income statement. See note 31(a).

As of June 30, 2021 and December 31, 2020, the Group had an account payable to Telefónica S.A. for an amount of approximately S/7,392,000 and S/7,873,000, corresponding to the fair value of the share options granted by the Parent company in Spain to certain executives of the Group, who may exercise their rights within a maximum term of until 2021. See Note 2.25.

The Group obtained a loan payable from Telefónica Hispanoamérica, S.A. for US \$ 180,000,000 equivalent to S/ 647,820,000, which was paid upon maturity on December 30, 2020 and accrued an interest expense of S/ 10,015,000 at a fixed annual rate of 2.36%. The foregoing is presented in the note "Financial income and expenses" of the consolidated income statement. See note 31(a).

- (f) Loans to personnel -

The Group grants loans to its employees and officers for terms of up to 24 months. The interest rates applied are generally below existing market interest rates. However, the other terms of the loans are substantially the same as those of the market. The balance of the loans to employees was approximately S/ 15,016,000 and S/ 16,620,000 as of June 30, 2021 and December 31, 2020, respectively. The loans are reported in the item "Other accounts receivable, net" of the consolidated statement of financial position. See note 8(a).

- (g) Remuneration to the Board of Directors and members of the Key Management -

Remuneration received by directors and key management personnel amounted to approximately S/ 12,136,000 for the six-month period ended June 30, 2021 (approximately S/ 15,746,000 for the six-month period ended June 30, 2020), which include short-term benefits, compensation for time served and others.

- (h) As of June 30, 2021, the Group had current accounts in the Group's finance company, Telfisa Global, B.V., for an amount of US \$3,828,000 equivalent to S/ 14,734,000, which are presented under "Cash and cash equivalents." (As of December 31, 2020, the Company held current accounts in Telfisa Global, B.V., for an amount of US \$4,987,000, equivalent to S/ 18,043,000, respectively).

Terms and conditions of transactions with related parties -

Sales and purchases with related parties are made under market conditions equivalent to those applied to transactions between independent parties. As of June 30, 2021 and December 31, 2020, the Group had not recorded any estimate for doubtful accounts in relation to the balances owed by the related parties. This evaluation is performed annually by examining the commercial position of the related party, and the market in which it operates.

In Management's opinion, accounts receivable and payable classified as current as of June 30, 2021 and December 31, 2020, will be collected and paid in the short term.

24 TAX SITUATION

(a) Deferred taxes -

The movement of the item is as follows:

	As of 1 January 2020 S/000	Credit (Charge) to the income statement S/000	Credit (charge) to financial situation statement S/000	Credit (charge) another profit/loss result statement S/000	As of 31 December 2020 S/000	Credit (Charge) to income statement S/000	Credit (charge) to the financial situation statement S/000	Credit (charge) to another profit/loss statement S/000	As of 31 June 2021 S/000

- (e) The Group is subject to the tax regime of Peru. The income tax rate as of June 30 31, 2021 and December 31, 2020, is 29.50% on taxable income, after deducting the employee profit sharing that is calculated at a rate of 10% on the taxable profit.

Legal entities not domiciled in Peru and natural persons are subject to withholding of an additional tax on dividends received.

In accordance with Legislative Decree No. 1261, the withholding of an additional tax on dividends received as of 2017 is 5%, and whose distribution is made as of that date (until 2014, 4.1% and for the periods 2015 and 2016, 6.8%).

- (f) For purposes of determining income tax and general sales taxes, the transfer pricing for transactions with related entities and with companies' residents in territories with low or no taxation must be supported by documentation and information on the valuation methods used, and the criteria considered for their determination. Based on the analysis of the Group's operations, Management and its legal advisors believe that, as a consequence of the application of these standards, no material contingencies will arise for the Group as on June 30, 2021 and December 31, 2020.

As on June 30, 2021, the Group recorded a provision for income tax of S/ 88,959,000 that, net of the payments of tax installments and the other provisions recorded, resulted in a balance of S/ 136,320,000 (S/ 102,339,000 from income tax payable. The foregoing's net effect of tax installment payments and other recorded provisions resulted in a positive balance of S/ 136,886,000 as of December 31, 2020). The balance is thus presented as an asset. Likewise, the Group generated a tax loss in 2018, amounting to S/ 188,263,000; for which deferred income tax of S/ 55,538,000 was recorded. The Group substantially compensated for the 2018 tax loss by generating taxable income in 2019 by means of the management plans described in note 3.1(iii).

In accordance with the requirements of IFRIC 23 uncertainties in the treatment of income tax, the Group maintains provisions for S/ 2,700,256,000 in current Income Tax and S/ 81,656,000 in current long-term Income Tax as of June 30, 2021. These balances show a net increase in the provision as of December 31, 2020 of S/ 461,972,000, as a consequence of the (i) change in the contingency rating related to the carry-over of the balance in favor of fiscal year 1999 in the determination of the annual payment, and the monthly payments on account of income tax for fiscal year 2000, and the consequent adjustment of the provision of S/ 939,549,000; and (ii) rebate of the provision of S/ 477,577,000 registered in the first quarter as a result of the judgment issued by the Constitutional Court in the amparo action initiated by it, see note 32 (b), (S/ 2,217,840,000 Income Tax current, and S/ 78,380,000 in current long-term Income Tax as of December 31, 2020).

- (g) The sworn declarations on the income tax and the general sales tax for the years 2016 to 2020 are pending inspection by the Tax Authority in Peru. During the 2017 and 2016 periods, the 2009 and 2010 tax periods for income tax were audited.

The tax authorities have the power to review and, if applicable, correct the taxes calculated by the Company and its Subsidiary. The sworn declarations of the income tax and of the general sales tax of the Group for the years 2016 to 2020 are subject to inspection by the Tax Administration.

The sworn declarations of the income tax and the general sales tax of its Subsidiaries are subject to verification by the Tax Administration.

These subsidiaries are:

	<u>Period</u>
Servicios Globales de Telecomunicaciones S.A.C.	2017 to 2021
Telefónica Multimedia S.A.C.	2017 to January 2018 (*)
Star Global Com S.A.C.	2017 to January 2018 (*)

(*) Date on which these companies were absorbed by the Company.

Due to the possible interpretations that the tax authorities may hand down on the current legal norms, and per the application of IFRIC 23, the Group has determined that no additional liabilities will result. Any eventual higher tax or additional payment that could result from the fiscal reviews will be applied to the results of the fiscal year in which it is determined. However, in the opinion of the Group's Management and its legal advisors, any possible additional tax settlement will not be significant for the consolidated financial statements as of June 30, 2021 and December 31, 2020.

- (h) As of June 30, 2021 and December 31, 2020, the caption "Other accounts payable" includes other taxes for approximately S/ 44,767,000 and S/ 28,392,000 respectively.

In accordance with Supreme Decree No. 013-93-TCC, which approves the Single Ordered Text of the Telecommunications Law, and its Regulations, approved by Supreme Decree No. 020-2007-MTC, the Company and its Subsidiary, in their quality of telecommunications-service concessionaires, must pay the following rights and fees:

<u>Item</u>	<u>Beneficiary</u>	<u>%</u>	<u>Calculation basis</u>
Special right for the Program for National Telecommunications (PRONATEL)	MTC	1.0	Income invoiced and received for services carriers and final telephony.
Contributions for supervision services	OSIPTEL	0.5	Revenue invoiced and received by the different services of telecommunications.
Trade exploitation rate of Service	MTC	0.5	Servicios subject to concession and/or authorization.

The amount recorded as an expense for these items amounts to approximately S/ 47,612,000 and S/ 42,780,000 for the six-month period ending June 30, 2021 and 2020, respectively, and are included in the "General and administrative expenses" section of the consolidated profit or loss statement. See note 28(a).

Furthermore, the aforementioned instruments create an annual fee for the use of radio electric spectrum.

(i) Regulatory framework - Modifications to the Income Tax Law -

During 2018, Legislative Decrees Nos. 1422, 1423, 1424 and 1425 were issued, effective as of January 1, 2019, which include, among other modifications, the incorporation of concepts and/or definitions of "non-cooperating country or territory" and "preferential tax regime", "permanent establishment", "indirect disposal" of shares, as well as the following, which are most significant:

- *Transfer pricing:*

The scope of application of the Transfer Pricing regulations was extended to transactions carried out from, to, or through non-cooperating countries or territories or subjects whose income or earnings receive preferential tax treatment.

- *Accrual:*

A legal definition, accrual was established for the recognition of income and expenses for purposes of Income Tax, according to which third category income is understood to be accrued when substantial events producing the income have occurred and the right to it is not subject to a suspension.

- *Deductibility of financial expenses:*

New rules for the deductibility of interests were incorporated, and for the applicability of limits for loans granted by related parties, as well as to loans granted by parties not linked economically, indicating terms for debts constituted or renewed until September 13, 2018, from September 14, 2018, and as of January 1, 2019. For those constituted or renewed as of January 01, 2021, a

new limit for the deduction of net interest (interest expense less taxable interest) exceeds 30% of EBITDA (net income after compensating losses, plus net interest, depreciation and amortization) from the previous year. The foregoing may be carried forward to the next immediate 4 years.

- *Derivative financial instruments:*

It was established that Derivative Financial Instruments, considered as an exclusively underlying element, the exchange rate of a foreign currency, the profit and losses, are imputed at the close of each taxable year even when the expiration date of the contract corresponds to a subsequent year.

- *General Anti-elusive Clause (Regulation XVI):*

A special procedure has been established for the application of Rule XVI, according to which SUNAT may apply the provisions of the second to fifth paragraphs of Rule XVI within the framework of a final audit, provided that the favorable opinion is previously available from a Review Committee composed of three (3) SUNAT officials. Likewise, the Board's compliance to approve, ratify, or modify the acts, situations, and economic relations to be carried out (or already carried out) within the framework of a "fiscal planning" has been established.

Finally, a new assumption of joint and several liability is established for the legal representatives of the tax debtor when it is subject to the application of Standard XVI, provided that such representatives have collaborated with the design or approval or execution of acts or situations or economic relations foreseen in the mentioned norm.

Additionally, on August 2, 2018, Legislative Decree No. 1369 was issued, effective as of January 1, 2019, and which amended the Single Ordered Text of the Income Tax Law, approved by Supreme Decree No. 179- 2004-EF, regarding the following topics:

- *Transfer pricing:*

It states that the benefit test is applicable in determining the market value of the services to the taxpayer by its related parties.

- *Withholdings in operations with non-domiciled subjects:*

Compliance to pay the Tax Administration the amount equivalent to the withholding in the case of taxpayers who account royalties, remuneration for services, technical assistance, assignment in use or others of a similar nature as expenses or costs, in favor of non domiciled subjects.

- *Deduction of expenses for operations with non-domiciled subjects:*

It was established that royalties, remuneration for services, technical assistance, assignment in use, or others of a similar nature in favor of non-domiciled beneficiaries may be deducted as cost or expense in the taxable year to which they correspond when they have been paid or credited within the period established by the Regulation for the presentation of the affidavit corresponding to said fiscal year.

25 EQUITY

(a) Issued capital -

As of June 30, 2021 and December 31, 2020, the capital issued by Telefónica del Perú S.A.A. is represented by 3,344,363,158 common shares, fully subscribed, and paid at a nominal value of S/ 0.86 each.

The capital structure issued as of June 30, 2021 and December 31, 2020, is composed (as a percentage) by the following share classes:

	As of 30 June 2021	As of 31 December 2020
	%	%
Clase B		
Telefónica Hispanoamérica, S.A.	98.939	98.939
Other minor shareholders	1.055	1.055
Class C	0.006	0.006
	<u>100.000</u>	<u>100.000</u>

The class "B" shares, choose as many directors as required to complete the number of members set by the General Shareholders' Meeting for each term, considering the director that, where appropriate, has the task of designating the shareholders for class "C".

Furthermore, class "C" shares, which correspond to Telefónica del Perú S.A.A. employees, elect one (1) director, provided that they have reached an equity ratio of not less than 3 percent of the subscribed capital. If they do not reach this percentage by the time of the election, one more director of class "B" will be elected, thus completing the required number of members of the Board.

(b) Issue premiums -

It corresponds to the incorporation resulting from the merger by the absorption of Telefónica Móviles Perú Holding SAA undertaken on December 31, 2008, as well as, the higher value paid over the nominal value in the acquisition of the own shares.

(c) Other capital reserves -

It is composed of the legal reserve, as provided by the General Corporation Law, for which it is required that a minimum of 10 percent of the distributable annual profit, net of income tax, be transferred to a legal reserve until it is equal to 20 percent of the capital. The legal reserve can offset losses or can be capitalized; in both cases any funds used must be replenished. The reserve also includes the dividends declared by the Company prescribed. It also includes unrestricted reserves.

The legal reserve as of June 30, 2021 and December 31, 2020, amounts to S/ 575,230,000.

d) Other equity reserves -

It corresponds mainly to the net of the profits and losses due to changes in the estimated market value of the derivative financial instruments of cash flow hedges. The change in value is initially reflected in equity, and subsequently affects the profit and loss statement according to how it is influenced by the underlying hedge. During the six-month period ending June 30, 2021 and 2020, the unrealized loss generated by the valuation of hedging derivatives amounts to S/ 1,288,000 and S/ 54,000, respectively. The net loss of its tax effect amounts to S/ 828,000 (S/ 15,000 for the six-month period ending June 30, 2020). See note 17.2(d).

26 FIXED BUSINESS INCOME

The table below presents the breakdown of the item:

	As of 30 June 2021	As of 30 June 2020
	S/000	S/000
Services	1,382,614	1,420,731
Datos + IT	176,567	290,973
Wholesale	80,853	82,251
Equipment	33,802	38,950
Others	26,389	29,974
	<u>1,700,225</u>	<u>1,862,879</u>

27 MOBILE BUSINESS INCOME

The table below presents the breakdown of the item:

	As of 30 June 2021	As of 30 June 2020
	S/000	S/000
Postpaid	815,926	828,939
Handsets	474,360	222,751
Prepaid	290,513	263,794
Wholesale	71,558	70,852
Others	16,830	13,469
	<u>1,669,187</u>	<u>1,399,805</u>

28 GENERAL AND ADMINISTRATIVE EXPENSES

(a) The breakdown of the item is presented below:

	As of 30 June 2021 S/000	As of 30 June 2020 S/000
Services provided by third parties (c)	1,683,607	1,569,094
Taxes and royalties (b)	81,887	91,824
Provision for doubtful accounts and for impairment of inventories, notes 7(d), 8(f), and 10(c), net of recoveries	179,681	332,464
Fee for brand use and transfer of management capacity, note 23(a)	60,921	61,592
Miscellaneous management charges	14,096	12,144
	<u>2,020,192</u>	<u>2,067,118</u>

(b) The item "Taxes and royalties" corresponds mainly to payments to OSIPTEL and MTC, note 24(h).

(c) Third-party services include:

	As of 30 June 2021 S/000	As of 30 June 2020 S/000
Fees, commissions and services	710,835	682,394
Television signals and circuits	329,214	297,630
Maintenance and repair	182,780	171,878
Interconnection and correspondent expenses	120,423	130,003
Capacity Services	84,096	81,917
Basic services	65,862	64,660
Value added services	48,517	11,917
Advertising	43,075	37,410
Rentals	15,141	16,065
Transportation and storage	11,871	12,460
Roaming expenses	7,736	7,199
Others	64,057	55,561
	<u>1,683,607</u>	<u>1,569,094</u>

29 PERSONNEL EXPENSES

(a) The breakdown of the item is presented below:

	As of 30 June 2021 <u>S/000</u>	As of 30 June 2020 <u>S/000</u>
Remunerations	277,805	268,963
Restructuring expenses, note 20(b)	75,760	509
Social security and welfare	30,865	31,032
Compensation for time of service	19,405	19,053
Employee profit sharing	(3,494)	5,199
Other personnel expenses	12,140	7,297
Payroll capitalization for plant construction	(28,003)	(27,500)
	<u>384,478</u>	<u>304,553</u>

(b) The Group had 3,837 employees as of June 30, 2021 (4,165 as of December 31, 2020).

30 OTHER OPERATING INCOME AND EXPENSES

(a) The breakdown of the item is presented below:

	As of 30 June 2021 <u>S/000</u>	As of 30 June 2020 <u>S/000</u>
Other operating income		
Gain on disposal of assets (c) and (e)	19,971	4,918
Government grants, notes 8(d) y 22(b)	9,759	12,826
Others	5,265	6,912
	<u>34,995</u>	<u>24,656</u>
Other operating expenses		
Other provisions (b)	(15,996)	(20,713)
Others	(9,130)	(3,982)
	<u>(25,126)</u>	<u>(24,695)</u>

(b) The other provisions correspond to those made by the Group in accordance with the practice described in note 2.20, based on its best disbursement estimate that will be required to settle the compliances at the date of the consolidated statement of financial position.

(c) As of June 30, 2021 and 2020, asset sales produced a net profit, whose composition is detailed below:

	As of 30 June 2021 <u>S/000</u>	As of 30 June 2020 <u>S/000</u>
Net profit from disposal of assets (e)		
Income from sale of assets	56,907	13,418
Net cost of assets sold	(36,936)	(8,500)
	<u>19,971</u>	<u>4,918</u>

(d) In 2020, a cost is recognized from the sale of towers in 2019, which amounted to S/ 767,000.

(e) In January 2021, the sale of Telefónica Cloud Tech Peru S.A.C. (TCTP) was completed in Peru for S/ 41,941,000, which includes the assets related to this business line. The net profit from this operation was S/ 11,953,000.

31 INCOME AND FINANCIAL EXPENSES

(a) The breakdown of the item is presented below:

	As of 30 June 2021 S/000	As of 30 June 2020 S/000
Financial income		
Interest on accounts receivable	3,675	25,100
Interest on time deposits	196	2,951
Profit on disposal of financial investments	23,199	-
Others	40	56
	<u>27,110</u>	<u>28,107</u>
Financial expenses		
Bond interest and commercial papers	(104,056)	(106,119)
Lease interest	(21,372)	(21,630)
Interest on other debts	(1,382)	(4,677)
Loss from financial instruments from interest rate coverage	(12,605)	(12,101)
Others	(24,180)	(38,100)
	<u>(163,595)</u>	<u>(182,627)</u>
Net exchange differences		
Net loss on net exchange differences	(62,026)	(70,278)
Net income from exchange differences related to derivative financial instruments	72,222	56,797
	<u>10,196</u>	<u>(13,481)</u>

32 COMMITMENTS AND CONTINGENCIES

(a) Commitments -

Surety letters

The Group maintains surety letters obtained for its normal commercial activity and guarantees for the different processes of awarding tenders in concessions and spectra with third parties. As of June 30, 2021, these surety letters amount to approximately S/ 1,922,945,000 and US \$83,668,000 (S/ 1,866,211,000 and US \$90,558,000 as of December 31, 2020)

Commitments for operating leases - Group as lessee -

The Group, as a lessee, signed contracts with third parties. The contracts related mainly to leases of infrastructure, circuits, and spaces. There are lease commitments, for a duration of up to 10 years. See notes 2.25, 15, and 18.

The future minimum payments, as per non-cancelable operating leases, as of June 30, 2021 and December 31, 2020, are as follows (these correspond to leases of less than one year and low-value amounts that are not recognized as part of the implementation of IFRS 16):

	As of 30 June 2021 S/000	As of 31 December 2020 S/000
Less than one year	4,980	9,336
Between one year and less than 3 years	-	-
	<u>4,980</u>	<u>9,336</u>

(b) Contingencies -

In the normal course of its operations, the Group has been subject to various tax, civil, labor, administrative, regulatory and customs claims, which are recorded and disclosed in accordance with International Financial Reporting Standards. See note 2.19.

With regard to tax claims, the National Superintendency of Customs and Tax Administration (SUNAT), in the course of its audit activities for the years 1998 to 2010, has notified the Company of various resolutions concerning: (I) Income Tax, (II) General Sales Tax, and (III) Income Tax withholdings of non-residents.

In certain cases, the Company has decided to appeal particular decisions made by SUNAT and the Tax Court (TF). In other cases, the Company has proceeded to pay the amounts for those defined.

Insofar as:

I. Income taxes:

(a) Fiscal year 1998 -

On July 21, 2011, the TC [Tax Court], by means of Resolution No. 11450-5-2011, issued a pronouncement for the 1998 fiscal year.

SUNAT, for its part, in compliance with the aforementioned Resolution of the TC, dated October 3, 2011, notified the Company of Intendancy Resolution No. 0150150001023, which considered the amount of S/ 69,386,327 in favor of the Company.

The Company filed an appeal against the decision before the TC as it did not agree with the balance as determined by SUNAT. The Tax Court hearing of the aforementioned appeal and by means of Resolution No. 974-5-2012: (1) revoked the modification for S/ 252,989,493 for exchange differences, considering that this is an accounting result to which the principle of causality is not applicable; (2) ordered SUNAT, regarding the confirmed amounts, to evaluate the effect of the profits in exchange in order to obtain a net result; (3) ordered SUNAT to carry out a new determination for a doubtful collection provision (DCP), insofar as there are cases that have not been validated by SUNAT but they correspond to valid collection procedures; and (4) the TC endorsed that "under the door" notifications can be considered as collection efforts.

Per the aforementioned resolution, SUNAT, on June 20, 2012, notified the Company via Resolution No. 0150150001100. When said Resolution was not found to comply with the law, on July 11, 2012, the Company filed an appeal, which was resolved by Tax Court Resolution [TCR] No. 18121-5-2012 (notified on November 2, 2012). The Tax Court ruled that SUNAT could not ignore the credit for donations in the determination of the Tax.

On November 5, 2012, the Company was notified with Intendancy Resolution No. 0150150001152 through which SUNAT, in compliance with the TCR mentioned in the previous paragraph, determined a balance for the 1998 fiscal year of S/ 137,706,421. As such, the administrative proceedings for this file were terminated.

Notwithstanding the foregoing, on October 10, 2011, the Company filed a contentious-administrative claim against Tax Court Resolution No. 11450-5-2011, by means of which it requests the partial nullity of said Resolution in those cases in which it confirms the modifications for: (i) DCP; and (ii) billing for leases (TPI) [TPI =International Preferential Treatment]. On March 22, 2013, the Company was notified with the first instance judgment that declared in part the Company's claim regarding the objections of: (i) DCP and (ii) TPI, which was in part confirmed by the Superior Court. An appeal for cassation was filed against the judgment of the Superior Chamber, by virtue of which the Supreme Court declared the nullity of the aforementioned resolution at the end of the DCP and ordered that the Superior Court issue a new judgment, and confirmed the challenge to the TPI in a definitive and favorable manner for the Company.

On July 31, 2019, the Company was notified with the new judgment of the Superior Court that declared the DCP's appeal founded; however, only with respect to the telephone billing. Both parties filed a cassation appeal. The cassation appeals were declared admissible. Since December 1, 2020, the rescheduling of the oral hearing is still pending.

During the course of the aforementioned judicial process, the Company obtained a partial precautionary measure regarding the appeal by the TPI and the appeal by the DCP was unfounded. The Superior Court, through Resolution No. 16 of October 29, 2015, granted the extension of the precautionary measure regarding this appeal.

On March 29, 2021, the Surety Letter was renewed for the sum of S/ 359,065,459 corresponding to the 2021-2022 period.

In relation to the DCP, after the corresponding evaluation ratified by the external legal advisors, there are legal arguments to consider that it will be definitively resolved in terms favorable to the Company. Consequently, the contingency must be classified as remote.

On August 7, 2012, the Company was notified of a contentious administrative lawsuit filed by SUNAT requesting partial nullity of TC No. 11450-5-2011, as ruling in favor of the company, the Court permitted the revocation of deductions for the account for exceptional expenses. On April 24, 2019, the Supreme Court's resolution was notified, which found in favor of the lawsuit. As such, on November 11, 2019, Intendancy Resolution No. 0150160000145 was communicated, and by means of which SUNAT now proceeds to rectify the balance in favor of the 1998 Income Tax.

On May 14, 2013, we were notified with a contentious-administrative claim filed by SUNAT requesting the partial nullification of TCR No. 974-5-2012, to the extent that, ruling in our favor, it decided to revoke the objections due to exchange differences from different accounts. The main argument is that the TCR has determined that all exchange differences are computed for the determination of net income, in contravention of Article 61 of the Income Tax Law that establishes that it will only be computed in the manner indicated above when dealing with taxable activities. The claim was declared unfounded in the first instance and confirmed by the Superior Chamber on March 21, 2016, for which SUNAT filed a cassation appeal. On January 14, 2020, the votes were notified and reflected the following: three supreme members voted declaring SUNAT's cassation unfounded and, consequently, the claim unfounded; one member voted for the annulment of the resolution of the Superior Court; and one voted in favor of SUNAT's cassation, and thus consequently, its claim

was also founded. On October 23, 2020, final decision hearing was held. By means of resolution of March 31, 2021, the casting vote was notified, which sided with the majority vote and consequently, SUNAT's appeal was declared unfounded. On May 19, 2021, the conclusion and finalization of the proceedings was ordered.

(b) Fiscal Year 1999 -

The TC, by means of TCR No. 16603-4-2010, which was notified on December 23, 2010, finalized the administrative procedure corresponding to the aforementioned fiscal year by declaring the nullity of all the proceedings by SUNAT in relation to the same, and furthermore, it allowed the Company to invoke its statute of limitations. In this regard, on April 4, 2012, the Company requested the statute of limitations for the aforementioned fiscal year. On May 4, 2012, SUNAT, by virtue of Intendence Resolution No. 011-020-0000323/SUNAT, notified that the statute of limitations for the fiscal year in question should be declared.

In the opinion of the Management and its legal advisors, there are legal arguments holding that the statute of limitations for the aforementioned fiscal year impedes SUNAT from undertaking a new determination. As such, the balance determined by the Company in 1999 should be that which SUNAT assigns to the year 2000 fiscal year.

(c) Fiscal years 2000 and 2001 -

The TC, by means of TCR No. 17044-8-2010, which was notified on December 29, 2010 (and subsequently clarified by TCR No. 1853-8-2011, notified on February 11, 2011), finalized the administrative procedure corresponding to the aforementioned fiscal years.

As these resolutions were not in accordance with the law, the Company filed (on March 21, 2011) a contentious-administrative action against SUNAT and the Tax Court by requesting partial nullity of TCR No. 17044-8-2010, TCR No. 17133-8-2010, and TCR No. 01853-8-2011. insofar, as the challenges to: (1) financial charges - FC, (2) DCP, (3) TPI, (4) disposal of assets by means of the transfer of equity to Telefónica Móviles S.A.C. -Reorganization-, and (5) the costs of fixed assets deducted off the books as an expense (overhead) made against the Company. In addition, the Company requested the partial nullity of TCR No. 17133-8-2010, insofar as the compensation of interests corresponding to the payments on account for the year 2000 fiscal year.

On March 20, 2013, a judgment was issued in the first instance, through which the claim was partially founded, protecting the claim of full jurisdiction over the objections to (i) financial charges; (ii) provision for doubtful collections; and (iii) indoor public telephones. Conversely, our claims regarding the objections of (i) disposal of assets due to transfer of assets to Telefónica Móviles S.A.C. - Reorganization- and (ii) costs of fixed assets deducted off-the-books as overhead expenses were declared unfounded. The ruling was appealed by TdP, SUNAT, and the Tax Court.

However, the meaning of the ruling, as a consequence of the analysis carried out and ratified by the legal opinion of the external advisers in charge of the process, is that the initial provision provided by the Company should be maintained.

Subsequently, the higher body partially confirmed the ruling that declared the claim partially founded regarding to the objections to deductions for financial charges and provision for doubtful collection. Furthermore, the objection to the documents that do not support expenses were partially confirmed too. In the case of the objection referred to the provision of doubtful collection, the Court validated the collection management carried out by the Company only with regard to the telephone receipt as long as the pending debt indicator is recorded. The Court rejected the rest of the collection procedures carried out and it ordered that all receipts sent should be reviewed again. Moreover, it upheld the issues that did not protect our challenges for the assets disposal by transferring assets to Telefónica Móviles S.A.C. -Reorganization- and it fixed asset costs deducted off the books as expenses -Overhead. Both parties involved in the process presented appealed. They were admitted and declared admissible. Once the oral report was made on July 11, 2019, the votes of the supreme

members were notified. The Supreme Court ruled in favor of SUNAT in terms of the objections to Overhead, Simple Reorganization and Financial Charges, and in favor of the Company regarding the objection to the TPI, whilst no quorum was obtained regarding the objection to the DCP. Subsequently, after having made the two oral reports before the voting members, and with a majority result, the Superior Court ruling was declared null and void, and a new ruling was issued regarding such appeal. On July 29, 2020, the second instance judgment declared the DCP objection unfounded. On September 21, 2020, the file entered the Supreme Court, and the qualification of the appeal filed by the Company against such judgment is pending.

Regarding the appeals to the TC, Simple Reorganization and Overhead, the Company has reassessed its contingencies based on the ruling issued by the Supreme Court. Consequently, the qualification of the case has been adjusted to probable. Regarding the TPI appeal, the qualification of the appeal has been maintained as remote, as it was resolved in favorable terms for the Company. Regarding the DCP appeal, the qualification of the case remains remote.

During the aforementioned proceedings, the Company obtained a partial precautionary measure pursuant to which the suspension of the effects of the disputed resolutions was ordered with respect to the following appeals: (1) TC, (2) DCP, and (3) TPI.

On May 7, 2021, our Surety Letter was renewed for the amount of S/ 763,421,534 corresponding to the 2021-2022 period.

Per TCR No. 17044-8-2010 and TCR No. 1853-8-2011, SUNAT, on October 4, 2011, communicated Intendancy Resolution No. 0150150001030, according to which it determined an alleged tax debt amounting to S/ 2,379,451,375.

On October 24, 2011, the Company filed an appeal before Tax Court against the aforementioned Intendancy Resolution. SUNAT conditioned the admissibility of the same appeal on the previous payment by the Company for the amount of S/ 1,627,950,109. Subsequently, SUNAT, due to the precautionary measure obtained by the Company in the contentious administrative proceeding initiated against TCR No. 17044-8-2010, reduced the amount of the alleged debt to a total of S/ 619,814,185.

On November 30, 2011, the Company, filed a complaint before the Tax Court against the admissibility requirement that SUNAT had required to admit the appeal mentioned in the preceding paragraph. While the aforementioned appeal is in process, SUNAT notified the Company of a Coercive Execution Resolution for the amount of S/ 134,353,008, which the Company has also questioned.

The Company (without prejudicing the payment of S/ 134,353,008 under protest) appealed to the Tax Court regarding the aforementioned Coercive Execution Resolution because it understood that the request made by SUNAT lacked legal basis. On January 27, 2012, the Complaint Appeal filed by the Company was resolved (in favor of the Company) with the Tax Court stating that there was no coercively enforceable debt.

On February 22, 2012, adjudicating the appeal filed against Intendancy Resolution No. 0150150001030, the TC communicated Resolution No. 01973-8-2012 by means of which it ordered SUNAT to issue a new Intendancy Resolution.

On April 1, 2013, the Company was notified with Intendancy Resolution No. 0150150001203 (replaced by a Resolution of the same number notified on April 3, 2013, which in turn was modified by Intendancy Resolution No. 0150190000041 notified on April 4, 2013) by means of which SUNAT complies with the provisions of the Tax Court. Considering that the aforementioned Resolution does not comply with the provisions of the Tax Court, on April 19, 2013, the Company filed an appeal, which was adjudicated by means of TCR No. 13365-3-2013 and notified on September 23, 2013. In this adjudication, the Tax Court confirmed the declaration on the Intendancy issued. On October 7, 2013, the Company submitted a request for clarification, considering that it is not possible to

determine the Income Tax for the year 2000 while Chamber 11 of the Tax Court still has a case determination pending related to payments on account of the year 2000.

On November 6, 2013, the Company was notified with TCR No. 15989-3-2013, which confirms that it is not possible to determine Income Tax for the year 2000 until the process related to the payments on account finalizes. On July 1, 2015, the Company was notified with Intendancy Resolution No. 0150150001364 according to which SUNAT complied with the provisions of the Tax Court. Demonstrating discord with that stated in the aforementioned resolution, on July 22, 2015, SUNAT filed an appeal, which was adjudicated by means of Resolution No. 1323-3-2017, which provides that, in order to affect the settlement of this fiscal year, such payment can proceed after resolving the case regarding payments on account, and in payment return cases made by coercive collection.

Notwithstanding the aforementioned, it is important to specify that after the issuance of Intendancy Resolution No. 0150150001203, SUNAT communicated Coercive Execution Resolution No. 011-006-0044540, by means of which it requires the payment of S/ 150,842,142 related to the fine for the Income Tax of year 2000. The Company (without prejudicing the payment of S/ 150,842,142 under protest) appealed to the Tax Court regarding the aforementioned Coercive Execution Resolution as the SUNAT request lacked legal basis.

On January 6, 2014, the Company was notified of TCR 18209-Q-2013, which upheld the submitted Appeal. On May 12, 2014, SUNAT filed a contentious administrative action against the aforementioned TCR, which was declared inadmissible by the Superior Court, thus our appeal was upheld. However, the Supreme Court declared the appeal filed by SUNAT as having legal basis, and consequently, it ordered the judge of first instance to re-qualify the claim. As such, the court admitted the claim for processing. On December 14, 2020, the oral hearing was conducted in the first instance, pending the issuance of the decision.

From the analysis carried out, ratified by the legal opinion of the external consultants overseeing the case, we consider that the contingency rating of this case is reasonably remote.

On February 24, 2014, SUNAT communicated Coactive Resolution No. 0110070101757 by which the coercive collection procedure was revoked, although no ruling on the payment was made by the Company. On April 23, 2014, two briefs were submitted to the coercive executor requesting the return of S/ 134,353,008 (paid in January 2012) and S/ 150,842,142 (paid in November and December 2013). On May 8, 2014, the coercive executor notified Coercive Resolutions No. 0110070109273 and No. 0110070109274 whereby the same forwarded the files to the Supervision Department of SUNAT in order to evaluate and adjudicate on the request made by the Company. On June 17, 2014, the Company submitted two Complaint Appeals before the Tax Court with the aim of the Court ordering the coercive executor to return the amounts paid. On July 3, 2014, the Tax Court communicated TCR No. 03249-Q-2014, in which it declared the complaints filed to be baseless, stating that according to the law, SUNAT, by means of Coercive Resolutions No. 0110070109273 and No. 0110070109274, had granted them a reimbursement request process and had sent them to the competent area to issue the corresponding ruling.

On July 31, 2014, the Company was notified with Intendancy Resolutions No. 012-180-0007031, No. 012-180-0007032, and No. 012-180-0007038 (related to the request for the return of the S/ 134,353,008, paid in January 2012) and Intendancy Resolution No. 012-180-007033 (linked to the request for refund of the S/ 150,842,142, paid in November and December 2013), by means of which SUNAT declared the Company's requests as inadmissible.

On August 27, 2014, the Company filed the corresponding claim appeals. On January 30, 2015, the Tax Administration adjudicated on the aforementioned appeals, stating that the reimbursement of the amounts requested is inadmissible. As we did not agree with the adjudication, on February 19, 2015, appeals were filed. On May 9 and June 25, 2019, we were notified of Tax Court Resolutions that provide for the revocation of the appealed intendancy resolutions (as indicated in the previous paragraph), and order SUNAT to confirm, at the time of final settlement, if the return of the amounts paid is applicable.

As Tax Court Resolution No. 13365-3-2013 was not in accordance with the law, on November 19, 2013, the Company filed a contentious-administrative claim against SUNAT and the Tax Court, requesting the partial nullity of Tax Court Resolution No. 13365-3-2013 to uphold the modifications for: (1) the balance in favor of previous fiscal years and, (2) the sale of the Nortel analog network. On March 23, 2015, a first instance judgment that declared the claim unfounded was issued. This ruling was confirmed by the Superior Chamber (3 votes against, and 1 in favor). On July 24, 2018, the hearing took place in the Supreme Court. On May 25, 2021, we were notified with the supreme resolution by which the claim was declared unfounded. Given that the resolution issued by the Supreme Court contains insurmountable defects, on June 2, 2021, the Company filed an appeal for annulment.

Although the motion for annulment is still pending, the Company reassessed its contingencies, taking into account the resolution issued by the Supreme Court, so the rating has shifted from remote to probable.

(d) Amparo action derived from IR 2000-2001 -

On July 3, 2013, the Company filed a request for amparo, by means of which the Company requested, as a consequence of the violation of its constitutional rights to: (i) have procedures without delay; (ii) proscription of the abuse of right; and (iii) non-confiscation of taxes, a finding of inapplicability for the specific case of Article 33 of the Tax Code, which regulates the arrears interest of unpaid taxes.

Indeed, SUNAT by means of Intendancy Resolution No. 0150190000041 decided to continue the collection of Determination Resolutions Nos. 0120030008377, 0120030008382, 0120030008383, 0120030008378, 0120030008388, 0120030008380, 0120030008385, 0120030008312, 0120030008386, 0120030008379, 0120030008387, 0120030008384 and 0120030008381, and Fine Resolutions Nos. 0120020008152, 0120020008160, 0120020008157, 0120020008161, 0120020008150, 0120020008154, 0120020008158, 0120020008162, 0120020008151, 0120020008155 and 0120020008159, for the sum of S/ 2,163,333,920 (updated as at April 1, 2013). This amount includes 73 percent interest and capitalized interest (under the application of Article 33 of the Tax Code) of which a percentage corresponds to interest accrued within the legal term and other interest accrued in the time lapse in excess of the adjudication's legal term. By means of the amparo, the Company is questioning the interest accrued during the time in which the Tax Court has exceeded the deadline for resolving the abovementioned IR appeal, which continues to increase.

On December 26, 2013, the Court declared the submissions as baseless. Consequently, both the Tax Court and SUNAT appealed the decision. On April 7, 2014, the lawsuit was declared inadmissible because it considers that there is an equally satisfactory way to address the question, referring to the processes in which the Company questions the IR 2000-2001 appeals. On May 22, 2015, the Superior Court declared the ruling null and ordered the Court to issue a new ruling on the submission of failure to exhaust the administrative remedy. The same was declared unfounded. On December 14, 2015, the court declared the lawsuit as inadmissible. Such judgment was revoked by the Superior Court, declaring the exception founded and everything undertaken as null. In view of this, a constitutional appeal was filed on August 29, 2016. On January 23, 2017, the case was referred to the First Chamber of the Constitutional Court. On January 6, 2021, the hearing was held before the plenary session. On February 22, 2021, the judgment that declared the claim founded, and consequently ordered SUNAT to recalculate the interests outside the legal period that both the tax administration and the Tax Court had to resolve the challenges presented by the Company. On March 31, 2021, the nullity of the ruling and the request for disqualification presented by SUNAT were notified.

On March 31, 2021, the Constitutional Court declared the appeal for annulment inadmissible, as well as, the request for disqualification presented by SUNAT. As a result, the process concluded.

(e) Payments on Account for year 2000:

The TC, by means of Tax Court Resolution No. 17133-8-2010, notified on December 30, 2010 (and later clarified by TCR No. 16430-8-2011, notified on October 13, 2011) finalized the administrative procedure corresponding to Payments on account of the aforementioned fiscal year.

As per the aforementioned resolution, SUNAT, on November 17, 2011, communicated Intendancy Resolution No. 0150150001039 in which a presumed tax debt amounting to S/ 678,541,069 was quantified.

The Company, on November 28, 2011, filed an appeal before the TC against the aforementioned Intendancy Resolution. SUNAT, however, conditioned the admissibility of the aforementioned appeal to the prior payment (by the Company) of the amount of S/ 189,297,341.

The Company, on November 12, 2012, filed a complaint before the Tax Court against the admissibility requirement that SUNAT had required to admit the appeal mentioned in the preceding paragraph.

On June 15, 2012, the Tax Court communicated Resolution No. 06671-11-2012, expanded by Resolution No. 08037-11-2012, by means of which it adjudicated on the appeal filed by the Company, stating: (1) that it is appropriate that SUNAT re-settles the adjudications on the fines as long as they had not been revoked; (2) that SUNAT must make the determination of the debit balance in accordance with the powers and parameters established in the Tax Code, authorizing it, however, to modify the balance in favor as declared by the Company in 1999, ignoring the effects of the statutes of limitations.

On June 21, 2012, the Company requested a clarification of Resolution No. 06671-11-2012, which was resolved by the Tax Court by means of Resolution No. 10322-11-2012 which establishes: (1) that the TC did not annul the fines imposed by SUNAT; and (2) that the Company is entitled to invoke the statute of limitations for the 1999 fiscal year in case SUNAT modifies the determination of the tax debt corresponding to that year.

On April 1, 2013, the Company received notice of Intendancy Resolution No. 0150150001202, by means of which, SUNAT complied with the Tax Court provisions.

When considering that the aforementioned Adjudication does not comply with the provisions of the Tax Court, on April 19, 2013, the Company lodged an appeal. On March 16, 2015, the Company was notified with TCR No. 02569-11-2015, by means of which it was adjudicated that SUNAT may modify the balance for the year 1999, despite being subject to the statute of limitations.

On June 26, 2015, the Company was notified with Intendancy Resolution No. 0150150001362, by means of which SUNAT complied with the Tax Court provisions.

Disagreeing with that stated in the aforementioned resolution, on July 20, 2015, an appeal was filed, which was adjudicated by means of Tax Court Resolution No. 3329-2-2017, which ordered the suspension of the administrative proceedings in response to the precautionary measure obtained, and to which we refer in the following paragraphs.

In view of the fact that TCR No. 02569-11-2015 was not in accordance with the law, on June 8, 2015, the Company filed a contentious-administrative action against SUNAT and the Tax Court, requesting the annulment of the aforementioned Tax Court Resolution with respect to the alleged compliance to the provisions of Tax Court Resolution No. 06671-11-2012 of May 3, 2012, regarding the income tax balance for 1999, which must be applied for payments on account of the income tax of year 2000. On October 20, 2015, the Court declared the lawsuit unfounded.

On January 17, 2017, the judgment revoked the judgment of first instance and declared it partially founded. On July 24, 2018, the hearing was held in the Supreme Court. On March 6, 2020, the votes

of the supreme justices were notified, with no definitive judgment being reached. Three justices deemed the Company's claim was unfounded, one justice voted for the nullity of the ruling issued by the Superior Court, and one justice voted for the nullity of the first instance ruling. To date, the appointment of a deciding justice and the corresponding oral hearing scheduling are still pending.

In addition, on July 16, 2015, the Company filed a precautionary measure, which was declared inadmissible by the first and second instances. As the judgment is favorable to the interests of the Company, on January 31, 2017, a new innovative precautionary measure was requested, which was granted temporarily, thus suspending the effects of TCR No. 2569-11-2015. On March 09, 2021, the Surety Letter was renewed for the sum of S/ 41,545,928, corresponding to the 2021-2022 period.

Despite the pending issuance of the final resolution by the Supreme Court, the Company reassessed its contingencies, following the resolution issued by the Supreme Court regarding TCR No. N13365-3-2013 of September 23, 2013, so the rating shifted from remote to probable.

(f) Amparo action derived from the IR 2000-2001 Account Payments

On July 3, 2013, the Company filed a request for amparo protection, by means of which the Company sought, as a consequence of the violation of its constitutional rights: (i) to undertake procedures without delay; (ii) the proscription of the abuse of right; and (iii) the non-confiscation of taxes, a finding of inapplicability to the specific case of Article 33 of the Tax Code, which regulates the arrears interest of unpaid taxes.

In effect, SUNAT, by means of Intendancy Resolution No. 015150001202, decided to continue with the collection of Resolutions of Determination Nos. 012-003-0006189, 012-003-0006190, 012-0030006191, 012-003-0006193, 012-003- 0006194, 012-003-0006195, 012-003-0006196, 012-003-0006197 and Fine Resolutions No. 012-002-0006014 and 012-002-0006022 for an amount of S/ 657,405,312 that includes 91 percent interest and capitalized interest (by virtue of the application of Article 33 of the Tax Code). This increase in debt is due to the undue delay in administrative procedures as, to date, the Tax Court has not adjudicated on the appeals against the Determination and Penalty Resolutions mentioned above. The administration has exceeded the legal deadlines for resolving this controversy.

The exception for that non-exhaustion of the administrative proceeding was protected and thus the proceedings were concluded. Such decision was appealed by means of TDP and on June 27, 2014, the nullity of Resolution No. 13 was declared and the decision was revoked, thus declaring the exception of non-exhaustion of the administrative proceedings without basis and ordering the proceedings to continue. On November 12, 2014, a first instance judgment was issued and partially declared the lawsuit founded, which was subsequently revoked by the Superior Court and who declared the Amparo Process inadmissible. An appeal for Constitutional Remedy was filed, and granted on November 9, 2015. On January 11, 2016, the file entered the Second Chamber of the Constitutional Court. On November 11, 2019, the Oral Report was carried out before the Plenary of the Constitutional Court. The issuance of ruling is still pending.

On February 19, 2015, we requested a precautionary measure ordering the suspension of the collection of late payment interest, recognized in the ruling of first instance. The same precautionary measure was rejected in the first and second instance, as it was considered that there is no danger in the delay. It should be noted that on October 15, 2018, the Constitutional Court declared the appeal filed by the Company against the second instance judgment as inadmissible.

As the Tax Administration has exceeded the legal deadlines for resolving our reconsideration and appeal remedies, thereby generating an excessive amount of interest, the qualification of the contingency is reasonably remote.

(g) 2002 Fiscal year -

The Tax Court, by means of Tax Court Resolution No. 04831-9-2012, notified on May 7, 2012, that it had finalized the administrative procedure corresponding to the aforementioned fiscal year.

By means of the aforementioned Resolution, the TC: (1) revoked the objection related to the exchange difference considering that this is an accounting result to which the principle of causality is not applied; (2) revoked the objection related to financial interests, and orders SUNAT to perform a new review of the documentation supporting the Cash Flow Statement, as well as third party reports submitted by the Company. In this regard, SUNAT, dated June 18, 2014, issued a request seeking information which the Company filed on September 17, 2014; (3) with respect to the DCP, confirmed a part of the modification, as it considers that the Company was obliged to present the information that supports the entire DCP even though SUNAT only required a sample; and (4) recognized as valid collection management only the termination notifications, ordering SUNAT to carry out a new review. It should be noted that, unlike that resolved in the file for the years 2000 and 2001, the TC does not recognize that the DCP that was modified in 2001, in 2002 can be deducted for being greater than 12 months. Likewise, the TC confirmed the objections related to non-business TPI expenses, unsecured credit notes, among others. SUNAT must proceed with the issuance of the corresponding Intendancy Resolution.

Notwithstanding the foregoing, on August 3, 2012 the Company filed a contentious-administrative claim against TCR No. 04831-9-2012 insofar as it confirms the objections for: (1) DCP; (2) undocumented expenses - submarine cable; (3) expenses unrelated to the business - judicial deposits; (4) deductions requested by the Company, and (5) TPI. On July 7, 2015, the court declared the claim baseless, which was declared null by the Superior Court. On November 12, 2018, the ruling that the lawsuit was justified on various grounds was communicated. On July 5, 2019, the Company was notified of the hearing verdict that upheld the judgment of first instance in an unfavorable manner for the Company regarding the deductions from the TPI, Submarine Cable and Deductions not accepted, and revoked the ruling declaring the deductions for the DCP (on telephone bills) and expenses outside the business to be baseless. Finally, it upheld the ruling of first instance regarding the non-validation of the procedure for calculating the interest used by SUNAT between December 25, 2016 and March 15, 2017. On May 11, 2020, the appeals filed by the parties were declared admissible. Since December 1, 2020, the oral report is still pending rescheduling.

In the opinion of Management and its legal advisors, there are legal arguments that indicate that the contingency must be classified as remote with respect to the objections to: (i) non-business expenses - judicial deposits, (ii) provision for doubtful collection, and (iii) indoor public telephones. Furthermore, we consider that the qualification of the contingency of the challenges referring to i) the requested deductions, and ii) the expenses without supporting documentation (Pan American underwater cable) is possible.

II. General sales tax -

The Company has been notified by means of the Intendancy Resolutions issued by SUNAT regarding the General Sales Tax for the years 1998, 1999, 2000, and 2001. In response to the foregoing, the Company made the payment corresponding to the determination made by SUNAT, except for the case related to the General Sales Tax of 2001 (in which the TC ruled in favor of the Company). Regarding the General Sales Tax for 2002, by means of TCR No. 04831-9-2012, the TC confirmed the appeals made for this matter.

From the analysis carried out, ratified by the legal opinion of the external consultants overseeing the case, we consider that the contingency rating of this case is probable.

III. Income Tax withholdings of non-residents -

SUNAT issued determinations and fines against the Company for withholding Income Tax, supposedly corresponding to revenues of non-resident companies operating a satellite. For the purposes of SUNAT, such income is revenue from Peruvian sources.

The Tax Court revoked the SUNAT resolutions that declared the claims presented by the Company to be unfounded and, therefore, it has annulled the determination and fine resolutions for these matters. SUNAT challenged these decisions in the courts by means of five proceedings for the years 1999-2000 (merged into in a single process), 2001, 2002, 2003, and 2004. To date, the five proceedings have concluded unfavorably to the interests of the Company. In response to the fact that the rulings issued by the Supreme Court have violated constitutional rights, the Company initiated five amparo processes to question these rulings.

Regarding the 2002 financial year, on October 6, 2020, the judgment of first instance was notified that the claim for protection filed by the Company was deemed unfounded, considering that the constitutional rights demanded have not been violated. On October 9, 2020, the appeal was submitted, and subsequently granted on December 10, 2020. To date, the cassation appeal is still pending.

It should be noted that a precautionary measure was requested to suspend the effects of the resolution of the contentious-administrative process. On January 22, 2019, the appeal presented by SUNAT was granted, pending resolution. On September 25, 2020, the Surety Letter was presented for the amount of S/ 9,500,000 corresponding to the 2020-2021 period. However, in January 2021, the court, whilst contravening the express norm of the Constitutional Procedural Code, erroneously declared the cessation of the precautionary measure. The Company filed an appeal against the aforementioned resolution.

In the opinion of management and its legal advisors, we believe that the probability of success of the amparo process is possible.

Regarding fiscal year 2004, on January 22, 2013, the Company received notice of the judgment issued in the first instance that declared the claim to be unfounded in all aspects. This sentence was confirmed by the second instance. On July 20, 2018, the Supreme Court ruled that the appeal filed by the tax administration is justified. In this process, the Supreme Court has adhered to the same criteria for the 2002 financial year, and consequently it qualified the provision of satellite capacity as a service provided in Peruvian territory, and therefore, it is on the onus of the provider to pay the tax and that Company withholds the same. On August 16, 2019, the compliance to the Tax Court Resolution was notified (as ordered by the Supreme Court).

Disputing the compliance of the Company to Tax Court Resolution for tax year 2004, on November 14, 2019, a new administrative contentious process was presented. The claim is based on the fact that the Tax Court failed to rule on the terms of the Supreme Court, and, therefore, failed to rule on two arguments put forward by the Company in the administrative headquarters, thus contravening the right to due administrative procedure. On December 31, 2019, the Court admitted the lawsuit filed by the Company. On April 22, 2020, SUNAT and the TF were notified of their claims, as well as the objection of non-exhaustion of administrative remedies filed by SUNAT. To date, the scheduling of the Oral Report is pending.

In view of the fact that the supreme resolution contained deficiencies that affect the constitutional rights of the Company, an amparo process was initiated. On October 12, 2018, the claim was admitted for processing. On February 8, 2019 and February 14, 2019, the Tax Court and SUNAT respectively responded to the lawsuit; these have been answered by the Company. On September 10, 2019, the oral hearing was heard in the first instance. The ruling is still pending.

On August 16, 2019, Tax Court Resolution No. 07066-2-2019 corresponding to IRND - 2004 was received. By means of this resolution, the TC complies with the provisions of the judicial

headquarters, by means of which fifteen (15) values between Determination Resolutions and Fine Resolutions are confirmed. Furthermore, the Tax Court revoked six (6) Fine Resolutions under the argument of reformatio in peius.

Subsequently, a payment of the amount of S/ 24,864,916 was made. Additionally, on October 29, 2019, we filed an appeal against Intendancy Resolution No. 0150600000143, notified on October 7, 2019, by means of which the provisions of the Tax Court are complied with.

As the appeal filed by the Company before the Tax Court was ruled on unfavorably, on July 6, 2021, a second lawsuit was filed against the Fulfillment TCR (2) regarding the point that provides that interest be suspended in application of article 33 of the Tax Code, and its clarification to the extent that it establishes that the application of interest is not suspended for the period of the judicial process to which SUNAT took us.

In the opinion of management and its legal advisors, we believe that the probability of success of both processes is possible.

Insofar as the 2003 Fiscal year, on February 4, 2019, notification of the ruling was received, via which the cassation appeal filed by the tax administration was declared justified. On June 3, 2019, the Company received notification via a Tax Court Resolution (as ordered by the Supreme Court).

On July 9, 2019, the Company paid the amount of S/ 11,212,971, considering the default interest as at that date as a fine.

The Company initiated a new administrative contentious process against the Tax Court compliance resolution on June 24, 2019. The claim is based on the fact that the Tax Court failed to rule on the terms of the Supreme Court, and therefore failed to rule on two arguments put forward by the Company in the administrative headquarters, thereby contravening the right to due administrative procedure. On August 1, 2019, the claim was declared inadmissible, and the Company appealed the resolution on August 15, 2019. On October 16, 2019, the hearing of the case was carried out in the second instance and the inadmissibility of the claim was declared void. The claim was admitted for processing. SUNAT answered the claim and filed a res judicata exception, which was declared unfounded. An oral hearing has been scheduled for November 11, 2021. On June 17, 2021, we were notified with the legal report presented by SUNAT which argues the alleged lack of interest to act by Telefónica.

It should be noted that, on June 26, 2019, we submitted a precautionary measure in the aforementioned process aimed at suspending the effects of the resolution of the administrative contentious process. On September 10, 2019, it was rejected as the claim was declared inadmissible.

In view of the fact that the supreme resolution contained deficiencies that affect the constitutional rights of the Company, an amparo proceeding was initiated. Unlike the other two processes initiated by the Company in the periods 2002 and 2004, said proceeding incorporates and furthered the arguments on the application of Legislative Decree No. 1120 and Supreme Decree No. 22-2017-MTC. On May 29, 2019, the claim was admitted for processing. On August 19, 2020, the Oral Hearing was carried out. On November 9, 2020, the Company filed an appeal against the judgment of first instance that declared the claim unfounded, which was upheld. Thus far, a date is yet to be set for the oral report.

In the opinion of management and its legal advisors, we believe that the probability of success of both processes is possible.

In regards to the 1999-2000 financial period, on August 28, 2019, the Company was notified with the supreme resolution that ruled against the interests of the Company. On November 14, 2019, the Tax Court issued the Tax Court compliance resolution, pursuant to which on November 26 the

Company paid the sum of S/ 187,614,698 corresponding to the 1999 financial year, while for the 2000 financial year, the sum of S/ 30,913,192 was paid.

Against the TCR of compliance for the 1999-2000 fiscal year, the Company on February 5, 2020, presented a new administrative contentious process. On April 28, 2020, the objection of res judicata filed by SUNAT and the response to the claim filed by SUNAT and the TC were notified. The objection presented by SUNAT was declared inadmissible. The oral report in the first instance was scheduled for November 9, 2021.

In parallel, as the supreme resolution ordering the issuance of the TCR on compliance contains deficiencies that affect the Company's constitutional rights, an amparo protection process has been initiated. On October 28, 2019, the application was admitted for processing, and is pending the scheduling of the oral report in the first instance.

In the opinion of management and its legal advisors, we believe that the probability of success of the amparo process is possible.

Regarding fiscal year 2001, the Company filed a new contentious claim, which was admitted on June 17, 2020; the same contentious-administrative claim was admitted for processing. On July 29, 2020, the objection of res judicata and SUNAT's answer were notified, as well as the TC's response to the claim. The oral report was scheduled for October 25, 2021.

On March 6, 2020, the amount of S/ 12,982,365 was paid, considering the default interest as at that date.

In response to the fact that the supreme resolution contained deficiencies that affect the constitutional rights of the Company, an amparo process was initiated. The same was admitted for processing on March 11, 2020. On October 9, 2020, SUNAT answered the lawsuit. On May 13, 2021, the oral hearing was heard in the first instance. The ruling is still pending.

In the opinion of management and its legal advisors, we believe that the probability of success of the amparo process is possible.

IV. General Sales Tax from 2003 to 2010 and Income Tax from 2003 to 2010 -

The Intendancy Resolutions ruling on the claims submitted for the years 2003 to 2010 by the Company were notified by SUNAT between 2008 and 2017. In disagreement with that adjudicated by SUNAT, appeals were filed that must be ruled on by the Tax Court. On January 9, 2018, the TC adjudicated on the file relating to the General Sales Tax for 2005, ordering SUNAT to make a new settlement. The same occurred with the General Sales Tax for the 2004 financial year (the Court ruling was notified on November 14, 2018), so we are thus waiting for a new settlement.

Regarding Income Tax and General Sales Tax for the 2003 financial year, on January 25, 2019, Tax Court Resolution No. 10820-4-2018 was communicated, ordering SUNAT to carry out a new settlement after revoking the following challenges: i) excess depreciation for difference in computable cost, ii) amortization of training and maintenance, iii) expenses without reliable supporting documentation, iv) IR and IGV of unsecured credit notes, v) documents that do not support expenses, vi) DCP, vii) collection of interest and fines. Regarding the foregoing, on July 2, 2019, the contentious administrative claim submitted by the Company was admitted for processing. On August 19, 2019, the Court considered the lawsuit filed by the Company and the Tax Court. The scheduling of the oral submission in the first instance is still pending.

In the opinion of Management and its legal advisors, we consider that the qualification of the contingency of this process is reasonably remote.

Furthermore, on April 14, 2019, we were notified of a contentious administrative claim filed by SUNAT against TCR No. 10820-4-2018, whereby the appeals adjudicated in favor of the company

at the administrative headquarters were challenged: i) expenses for compensation without supporting evidence, ii) DCP, iii) amortization of intangibles without supporting evidence, iv) modification of the coefficient. On November 12, 2019, the oral report was carried out in the first instance and, on June 11, 2020, we were notified of the ruling that partially upheld the claim insofar as the objections to compensation expenses without substantiation and amortization of intangibles. Furthermore, the ruling declared the claim to be unfounded in relation to the DCP objections and modification of the coefficient. On June 30, 2020, the appeals filed by the parties were admitted. On November 19, 2020, the hearing of the case in second instance was held. On December 31, 2020, the hearing judgment that declared SUNAT's claim founded, solely insofar as the reparation of compensation without reliable substantiation was notified. The judgment declared in favor of the Company, declaring the DCP (sampling) and amortization of intangibles as unfounded. On January 18, 2021, the Company filed a cassation appeal against the unfavorable objection. The cassation appeal is yet to be ruled on.

In the opinion of Management and its legal advisors, we consider that the qualification of the contingency of this process is reasonably remote.

The Company disputes the nullity of TCR No. 1858-1-2019 by means of which the IR No. 0150140013079 is confirmed, thus declaring the claim made against DR Nos. 012-003-0072541 to 012-003-0072552 and MR Nos. 012-002-0028443 to 012-002-0028454 as unfounded, and which were issued for the VAT from January to December 2010, and for the commission of the infraction typified by section 1 of art. 178 of the Tax Code. The nullity is based on the following arguments: i) violation of the principle of legality, ii) violation of the principle of non-retroactivity of the rules, iii) violation of the principle of legal certainty, iv) contravention of the provisions of article three of the Preliminary Title of the Tax Code and fifth article of the Preliminary Title of the Law of the General Administrative Procedure, v) violation of the principle of predictability and legitimate trust, vi) is inconsistent and contains a faulty motivation. On June 27, 2019, the claim was filed. On April 21, 2021, the oral report was held. To date, the ruling is still pending.

It should be noted that, on October 2, 2020, judgment No. 556/2020 of the Constitutional Court was downloaded, which declared as unfounded the claim of unconstitutionality of the First Transitory Complementary Provision of LD No. 1421 that modified the Tax Code, extending the scope of a rule that had come into effect in 2012, regulating new statutes of limitations to collect the debt. In view of this, this criterion will be applied to the processes and procedures in documentary procedure as initiated by the taxpayers.

In the opinion of Management and its legal advisors, we consider that the qualification of the contingency of this process is reasonably remote.

Furthermore, the Company disputes the nullity of the TCR No. 7453-4-2019, questioning the VAT of the year 2009, and is challenging the following appeals: (i) statute of limitations of the period of commencement of the faculty of collection, and (ii) the excess of recreational expenses. On January 16, 2020, the lawsuit was filed, and the same was admitted on March 9, 2020. On May 23, we were notified with SUNAT's response. The Oral Report is scheduled for August 25, 2021.

In the opinion of Management and its legal advisors, we consider that the qualification of the contingency of this process is reasonably remote.

It should be noted that we were notified with Coercive Execution Resolution No. 011-006- 0059149, by means of which we are requested to pay an amount of S/ 144,962, which was performed on November 6, 2019.

Finally, on December 27, 2019, we were notified with Intendancy Resolution No. 0150150002269 by means of which SUNAT complies with that indicated by the Tax Court. As we disagreed with that indicated by SUNAT, on January 20, 2020, we submitted the corresponding appeal.

Subsequently, on February 27, 2020, the file entered the Tax Court, assigned to chamber 4. Furthermore, the oral hearing occurred on March 13, 2020.

On September 7, 2020 we were notified with the TCR No. 04088-4-2020, which confirms Intendancy Resolution No. 0150150002269.

Furthermore, on August 6, 2020, we were notified with Determination Resolutions and Fine Resolution for the months of March, July, August, September, November, and December. It should be noted that the values for such periods were declared null by the TCR No. 07453-4-2019.

In view of this, on September 3, 2020, we filed a claim against the values mentioned in the preceding paragraph, regarding the challenge to the tax credit for imports from tax havens.

Then, on November 17, 2020, we were notified with Intendancy Resolution No. 0150150002575 by means of which the provisions of the TCR No. 04088-4-2020 are complied with.

In view of this, on December 4, 2020, we made the payment of the amount amounting to S/ 1,932,798 corresponding to the Determination Resolutions and Fine Resolutions for the periods of the months of March, July to September, November, and December.

Subsequently, we were notified with the Intendancy Resolution No. 0150140015914 declaring the appeal filed on September 3, 2020 unfounded. Consequently, the corresponding appeal was filed.

As a result of the audits of the years 2000 to 2009 on Móviles, this has been notified by SUNAT with various resolutions for alleged omissions regarding income tax, income tax withholdings of non-residents, withholding of income tax from fifth category, and general sales tax, in the latter case, up to 2012.

In some cases, Móviles has filed claim appeals as it does not believe the corresponding resolutions are in accordance with the legal regulations in force in Peru, and in others, it has proceeded to pay the assessments received.

With regard to:

a) Tax on Revenue for the fiscal year 2000 -

On March 30, 2007, SUNAT issued an Intendancy Resolution adjudicating on the claim presented by Móviles for the Income Tax for the year 2000. As we disagreed with the decision, an appeal was submitted before the Tax Court.

The Tax Court notified Móviles on February 7, 2013, by means of TCR No. 20274-9-2012, which states that the appeal file related to the Income Tax for the year 2000 was adjudicated on. This TCR upheld the following challenges: (i) Financial charges; (ii) Provisions for doubtful collection; (iii) Over Head; (iv) Expenses re-invoiced by TDP; (v) Cellular Sales Commission; and, (vi) Voluntary Retirement Program. In addition, the Tax Court declared the nullity of the modifications related to: (i) Interconnection expenses; (ii) Management fee; and, (iii) Doubtful collection provision for the months of February to June, August and October to December, and also revoked the modifications related to depreciation not accepted for fixed assets transferred in the equity block, and loss due to exchange differences. On July 13, 2020, the Tax Court notified us of TCR 2275-5-2020, by means of which it declared null the appeal made by the Tax Administration regarding the Nortel Analog Network. Despite this declaration of nullity, on August 3, 2020 SUNAT notified us of the Intendancy Resolution without complying with that ordered by the Tax Court. Therefore, on August 24, 2020 an appeal was filed, which is pending in the Tax Court.

Notwithstanding the foregoing, on May 6, 2013, the claim was filed against the aforementioned resolution. On February 17, 2015, the claim was declared unfounded, which was confirmed by the Superior Chamber. On July 4, 2019, the supreme court ruling was notified by means of which the

ruling of the second instance was declared null and void regarding the challenges denominated Nortel Analog Network, Simple Reorganization, and DCP. Consequently, the Superior Court of Justice of Lima is required to issue a ruling again. Regarding the challenges to the Financial Charges and Overhead, the Supreme Court has adjudicated favorably to SUNAT. On September 30, 2019, the new hearing proceedings judgment was issued and declared that the objections to unaccepted depreciations and DCP are unfounded, and that the objection to the withdrawal of majority shareholder assets (Red Nortel) is inadmissible. Against that resolution, on October 21, 2019, a cassation appeal was filed; the same entered the Supreme Court on December 6, 2019 and declared admissible. Since December 4, 2020, the oral report is still pending rescheduling.

As the financial charges and Overhead appeals were ruled on unfavorably for the Company, the contingency was changed to probable. However, regarding Red Nortel's objections, Depreciation not accepted, and DCP, the aforementioned appeals have been declared null and void. As such, according to the analysis carried out, and as per with the evaluation of the external advisors, the contingency is remote.

b) Income Tax and General Sales Tax for 2001 tax year -

On October 22, 2007, SUNAT issued the Intendancy Resolution adjudicating the claim submitted by Móviles for the Income Tax and General Sales Tax for the 2001 fiscal year. As we disagreed with the decision, an appeal was submitted before the Tax Court.

The Tax Court notified Móviles on January 20, 2017, with Tax Court Resolution No. 11549-2-2016, by means of which the appeal file was adjudicated. This TCR upheld the challenged objections, with the exception of (i) Management fee; and, (ii) amortization of intangibles, which were overruled. Likewise, the Tax Court ordered a new review of a part of the doubtful collection provision, and of the loss due to the exchange difference, pending a new pronouncement by SUNAT. On August 18, 2020, we were notified of the Intendancy Resolution that complies with that ordered by the Tax Court. As we are not satisfied with that stated in said resolution, on September 8, 2020 we filed an appeal, which is pending in the Tax Court. Likewise, we have been notified with the Intendancy Resolution No. 0150150002773 which declares the refund requests submitted for overpayments as inadmissible. However, the Company complied with presenting the corresponding Appeal.

Without prejudicing the foregoing, on April 19, 2017, the Company filed an administrative claim against the aforementioned resolution. On May 7, 2019, we were notified with the judgment of first instance that declared that the claim filed by the Company was unfounded in all aspects. On October 14, 2019, the Court declared the resolution of first instance void. As such, the Court is yet to re-issue a ruling. On November 20, 2020, the oral hearing was held in the first instance. To date, the ruling is still pending.

In the opinion of the Management, and its legal advisors, there are legal arguments that demonstrate that the contingency should be modified to probable, to the extent of the adjudication by the Supreme Court in the contentious administrative proceedings of the 2000-2001 fiscal year of TDP and the 2000 fiscal year of MT regarding the objections to Overhead and Carveout.

On the other hand, SUNAT has also questioned the TCR in court. On May 3, the ruling that declared the claim founded and was declared null by the Superior Chamber on December 7, 2018. On April 9, 2019, the ruling of first instance was communicated, stating that the Tax Court Resolution was partially justified and partially invalid. The Tax Court was thus ordered to issue a new resolution, confirming Intendancy Resolution No. 0150140006682 insofar as to the objections to various expenses transferred by its related party for those that do not prove causality (a deduction referring to the payments undertaken) and for third-party taxes assumed by the taxpayer. On January 24, 2020, the discord hearing was held, to the extent that two superior judges voted for the ruling to be upheld, and one voting that the ruling be revoked. On March 3, 2020, the second instance judgment was notified, which declared SUNAT's claim founded in all its aspects. On May 19, 2020, we filed a cassation appeal against the aforementioned judgment. On September 8, 2020, the file entered the Supreme Court. A ruling is yet to be made on the admission of the cassation appeal.

In the opinion of Management and its legal advisors, there are legal arguments to consider that indicate the contingency should be classified as reasonably remote.

c) Income Tax and General Sales Tax for 2002 tax year -

On October 23, 2008, SUNAT issued an Intendancy Resolution adjudicating the claim presented by Móviles for the Income Tax and General Sales Tax for the 2002 fiscal year. As we disagreed with the decision, an appeal was submitted before the Tax Court.

The Tax Court notified Móviles on September 15, 2017, with Tax Court Resolution No. 12003-8-2016, by means of which the appeal file was determined. This TCR mainly challenged the following: (i) management fee; and, (ii) amortization of intangibles; likewise, it declared the nullity of a part of the modification for the DCP and ordered a new review of the modification related to the financial interest (carveout).

On December 15, 2017, the Company filed a contentious administrative claim for the confirmed challenges. On October 24, 2019, the Oral Hearing was carried out in the first instance. The judgement is still pending.

In the opinion of management and its legal advisors, the qualification of this process must be classified as reasonably remote.

Subsequently, on December 2, 2020, we were notified with Intendancy Resolution No. 0150150002588, by means of which the Tax Administration, in supposed compliance with the Tax Court Resolution No. 12003-8-2016, has reinstated the Tax Income, payments on account from January to December 2002, as well as, the General Sales Tax for the periods of February, May, September to December 2002, and also the fine resolutions.

However, as we do not agree with that indicated by SUNAT, we have complied with presenting the corresponding appeal, which is pending Tax Court action.

Furthermore, we have initiated an amparo action by means of which we seek to stop computing the interest that exceeds the legal deadlines that the administration has to determine the objections and fines of the 2002 fiscal year income tax. On January 20, 2020, we were notified with the judgment of first instance that declared the claim filed by the Company partially founded, stating that there is a violation of the reasonable period. The same that has been the subject of clarification at the request of SUNAT. On December 29, 2020, the appeals filed by the parties were admitted. Hearing of the case has been scheduled for October 14, 2021.

Since the Tax Administration has exceeded the legal deadlines for resolving our reconsideration and appeal remedies, thereby generating an excessive amount of interest, the likelihood of success of this process is probable, and consequently, the qualification of the contingency is remote.

On January 30, 2018, the Company was notified of a contentious administrative claim filed by SUNAT regarding the objections overruled by the Tax Court. On September 3, 2020, the new judgment of the first instance once again declared SUNAT's claim founded in all its aspects. On January 11, 2021, the oral report was held in the second instance. On January 31, 2021, the 7th Contentious Chamber issued the judgment of second instance, in which it declared the nullity of the judgment of first instance that decided to declare the SUNAT claim founded in all its aspects. The oral report is scheduled for July 8, 2021.

In the opinion of Management and its legal advisors, there are legal arguments to consider that indicate the contingency should be classified as reasonably remote.

On October 24, 2018, SUNAT challenged TCR No. 05108-1-2018 by means of which the request for a refund filed by TDP was declared inadmissible. The aforementioned claim was admitted on

October 31, 2018. On December 24, 2019, we were notified with the first instance judgment that upheld SUNAT's lawsuit. On August 24, 2020, the second instance judgment that declared SUNAT's claim as inadmissible was notified, revoking the decision in the first instance. On September 18, 2020, the file entered the Supreme Court, and the scheduling of the admissibility qualification hearing is still pending.

From the analysis carried out, ratified by the legal opinion of the external consultants overseeing the process, we consider that the contingency rating of this case is reasonably remote.

d) Income Tax and General Sales Tax for 2004 tax year

On August 29, 2009, SUNAT issued an Intendancy Resolution ruling on the claim submitted by Móviles for the Income Tax and General Sales Tax for the 2004 fiscal year. As we disagreed with the decision, an appeal was submitted before the Tax Court.

The Tax Court notified Moviles on January 29, 2018, with TCR No. 10997-1-2017, stating that the appeal file had been ruled on. The aforementioned ruling invalidated the objection to the provision of doubtful collection by the party that was not subject to SUNAT's review; revoked the objection to debt interest with Telefónica del Perú in order to undertake a new review of the evidence; revoked the objection to the amortization of intangibles; and indicated that SUNAT would recognize the deductions requested, if applicable and confirmed the other aspects. We are currently awaiting the Intendancy Resolution that complies with that indicated by the Tax Court.

Regarding the objections that were sustained by the TC: i) DCP, ii) expenses recorded for contracts for the granting of line-of-credit account 671110, iii) depreciation of asset cost, and iv) modification of the coefficient of payments on account. On April 27, 2018, TCR No. 10997-1-2017 was challenged in court. On March 11, 2019, the ruling of first instance was deemed invalid regarding the claim on the objections to the DCP; the expenses registered for the granting of a line-of-credit contract, Account 671110; depreciation of the cost of assets and calculation of late interest between December 25, 2006 and March 15, 2007; and the appeal concerning the coefficient of payments on account as inadmissible. Additionally, the questioning of the capitalization of interest for the period between December 25, 2006 and March 15, 2007 was declared invalid.

On August 27, 2019, the hearing ruling upheld the lawsuit for the appeal to the DCP; however, only insofar as the telephone billing. As such, on September 17 and 18, 2019, the parties filed cassation appeals, which were submitted to the Supreme Court on September 23, 2019. Since March 18, 2021, the oral report before the Supreme Court has been pending rescheduling.

From the analysis carried out, ratified by the legal opinion of the external consultants overseeing the case, we consider that the contingency rating of this case is reasonably remote.

Furthermore, on February 14, 2020, we were notified with TCR No. 10982-9-2019, which ruled that the objection to financial expenses by contract of granting a line of credit be maintained, while the objection to financial expenses by mutual agreement must be ruled upon by virtue of that indicated in TCR No. 10997-1-2017, as cited above.

Consequently, on February 27, 2020 we were notified with Coercive Execution Resolution No. 01100-0059983, which requests us to pay the amount of S/ 3,052,111, the payment for which was undertaken on March 4, 2020.

Subsequently, on October 1, 2020, we were notified with Intendancy Resolution No. 0150140015607, whereby the Tax Administration, in supposed compliance with the Tax Court Resolution No. 10982-9-2019, has declared the appeal filed by MÓVILES against Fine Resolution No. 012-002-0015547 unfounded. Such Resolution was issued for the alleged offense contained in number 1 of article 178 of the Tax Code, regarding the General Sales Tax for the period of June, 2004.

As we do not agree with the aforementioned, on October 21, 2020, we filed a corresponding appeal, which was resolved by TCR No. 03230-9-2021 that declared our appeal unfounded.

On March 12, 2020, we were notified with a new lawsuit from SUNAT which focuses on the partial nullity of the Tax Court Resolution indicated in the previous paragraph insofar as such Resolution ordered the revocation of IR No. 0150140009010 in relation to the objection to the tax credit for "Financial expenses by mutual contract" (Carveout) in the Determination Resolutions and related Fine Resolutions. The TC and the Company have responded to SUNAT's request and filed an exception for failure to exhaust the administrative channel. The oral report in the first instance has been scheduled for August 17, 2021.

On April 23, 2018, SUNAT made a legal challenge to TCR No. 10997-1-2017, questioning the following appeals: i) DCP (as they were not sampled), ii) Expenses recorded by mutual contract account 671110 - TDP debt interest (S/ 717,765) (interest on debt transferred by TDP using the Carveout method), and iii) Modification of the coefficient of payments on account of Income Tax for January and February 2004. On March 8, 2019, notification was made of the ruling of first instance that deemed the claim filed by SUNAT as invalid in all aspects. On July 27, 2019, the hearing judgment upheld the SUNAT claim in terms of the objection to the Carveout, and overruled the objections to the DCP and coefficient modification. Consequently, we filed a cassation appeal against the unfavorable objection on August 5, 2019. On September 3, 2020, the hearing of the case was held in the Supreme Court, and the notification of the supreme resolution is pending.

From the analysis carried out, ratified by the legal opinion of the external consultants overseeing the case, we consider that the contingency rating of this case is reasonably remote.

Furthermore, we have initiated an amparo action by means of which we seek to stop computing the interest that exceeds the legal deadlines that the administration has to determine the objections and fines of the Income Tax of the 2004 fiscal year. By means of Resolution No. 01 of June 13, 2018, the claim was admitted for processing. On January 10, 2020, we were notified with the judgment of first instance that declared the lawsuit filed by the Company partially founded, stating that there is a violation of the reasonable period. On January 15, 2020, we filed an appeal against said judgment. The very same was admitted on October 1, 2020. On April 8, 2021, the oral report was held in the Superior Court. On April 26, 2021, a ruling notified that the Superior Court had declared the exception of lack of exhaustion of the administrative remedy filed by SUNAT as founded and, consequently, the claim was inadmissible and all the proceedings were annulled. On May 10, 2021, we filed an appeal for constitutional grievance in order for the Constitutional Court to rule on our claim.

The Tax Administration has exceeded the legal deadlines for ruling on our reconsideration and appeal remedies, thereby generating an excessive amount of interest. Therefore, the likelihood of success of this process is probable and, consequently, the qualification of the contingency is reasonably remote.

e) General Sales Tax from 2003 to 2010 and Income Tax from 2003 to 2010 tax periods -

As a result of the audits of the tax years 2000 to 2009 on Móviles, this has been notified by SUNAT with various resolutions for alleged omissions regarding income tax, income tax withholdings of non-residents, withholding of income tax from fifth category and general sales tax, in the latter case, up to the 2007 Fiscal year.

In some cases, Móviles has filed claim appeals as it does not believe the corresponding resolutions are in accordance with the legal regulations in force in Peru, and in others, it has proceeded to pay the assessments received.

TM challenges Tax Court Resolution No. 5018-1-2019 through which the IR of 2003 is disputed, challenging the following objections: (i) objection to account 634003 "Maintenance and repair of equipment and cabins", (ii) objection to account 635001 "Office real estate rental", (iii) objection to depreciation and/or amortization of assets, (iv) Dismissal of questioning of the carry-over loss, (v)

Dismissal of recognition of payments made against IRs on VAT February and March 2003, (vi) Improper calculation of default interest, (vii) Objections to expense accounts 621002, and (viii) Inapplicability of interest for justified delay. The claim was filed on October 30, 2019 and admitted on November 11, 2019. The first instance oral report was set for February 15, 2021. To date, the first instance judgment is pending.

TM challenges Tax Court Resolution No 7639-9-2010 through which the VAT of the year 2010 is questioned regarding the following challenges: (i) Prescription regarding the commencement period for the power of collection of DR Nos. 012-003-0076597 to 012-003-0076608, and MR No. 012-002-0029133, (ii) Excess recreational expenses that are not deductible according to Income Tax rules. On December 23, 2019, a lawsuit was filed, which was accepted on May 7, 2020. On June 19, 2020, we appeared before the TC process, and SUNAT presented its response. To date, the programming of the oral hearing is still pending.

From the analysis carried out, ratified by the legal opinion of the external consultants overseeing the case, we consider that the contingency rating of this case is remote.

Furthermore, on January 10, 2010, we were notified of a SUNAT claim questioning the objections to: (i) Management fee, (ii) Expenses for management services and business management advice, (iii) Intangibles deducted and not paid for the 2003 period, (iv) DCP, (v) Financial expenses recorded in accounts 637110 and 671110; (vi) Loss of exchange difference from forward contract and mutual contract, (vi) Recovery of DCP, (vii) Modification of the coefficient applicable to payments on account, (ix) Objection to the tax credit for management expenses and business management advice, (x) Objection to the tax credit for interest expense reimbursement, ruled on by the Tax Court in TCR No. 6575-10-2019. On January 24, 2020, we submitted our response to the lawsuit. On June 10, 2021, the oral report was carried out. The issuance of the corresponding ruling is still pending.

From the analysis carried out, ratified by the legal opinion of the external consultants overseeing the case, we consider that the contingency rating of this case is remote.

Additionally, TM disputes the invalidity of Tax Court Resolution No. 6575-10-2019 by means of which the 2003 IR and VAT are disputed in the following appeals: (i) Depreciation of the cost of assets and assets without documentary support, (ii) DCP, (iii) Loss of exchange difference, (iv) Fines related to these objections, and (v) Default interest. Subsequently, on March 2, 2021, we were notified with Intendancy Resolution No. 0150150002700 by means of which the Tax Administration is supposedly in compliance with the Resolution of the Tax Court. However, as we do not agree with the provisions of SUNAT, on March 23, 2021 we presented an appeal, which is pending its due attention. On February 7, 2020, the lawsuit was filed and subsequently admitted on February 13, 2020. On June 17, 2020, the Court received a complete response for the lawsuit from SUNAT and the TC. On June 10, 2021, the oral report was carried out. The issuance of the corresponding ruling is still pending.

From the analysis carried out, ratified by the legal opinion of the external consultants overseeing the case, we consider that the contingency rating of this case is remote.

Regarding the 2009 fiscal year, on February 27, 2020, we were notified with TCR No. 12147-4-2019. On this occasion, the Tax Court decided to raise the following objections: (i) Expenses accrued in the year invoiced and/or received extemporaneously, (ii) Roaming services substantiated by payment vouchers received extemporaneously, and (iii) Deduction not accepted for untimely operations which are accrued in accordance with IAS, while maintaining the following objections: (i) Unsubstantiated credit notes linked to El Pacífico Peruano - Suiza Cia - others, (ii) ITF expenses that do not comply with the principle of causality, and, also, (iii) Incidence of challenges made in TM SAC due to depreciation of fixed assets. On May 27, 2020, we filed an administrative contentious claim against the aforementioned resolution, which is pending processing. To date, the exception of lack of exhaustion of the administrative remedies presented by SUNAT is pending resolution, while the Oral Report was set for September 9, 2021 in the first instance.

From the analysis carried out, ratified by the legal opinion of the external consultants overseeing the case, we consider that the contingency rating of this case is remote.

Furthermore, regarding the 2004 fiscal year, Telefónica Móviles disputes the partial nullity of TCR 10982-9-2019 to the extent that it decided to revoke IR No. 0150140009010 in relation to the following matters: (i) Inadmissibility of reconsideration appeals 012- 003-0019178 and 012-003-0019180; (ii) Tax credit linked to the Expenses Recorded for the Award Contract of the credit line (S/ 51,072.00); and (iii) Default interest. On May 24, 2020, we filed an administrative contentious lawsuit, which has been admitted for processing. The oral report in the first instance has been set for August 26, 2021.

From the analysis carried out, ratified by the legal opinion of the external consultants overseeing the case, we consider that the contingency rating of this case is remote.

Regarding the same financial year, we were notified with TCR No. 02663-1-2020 that declares the appeal unfounded insofar as the request for the statute of limitations; and, in addition, upholds the Intendancy Resolution regarding the objection to the tax credit for excess recreational expenses.

From the analysis carried out, ratified by the legal opinion of the external consultants overseeing the case, we consider that the contingency rating of this case is probable.

Finally, for fiscal year 2005, we were notified with the TCR No. 01849-1-2020 that resolves: (i) uphold the objection and rule in favor of the appeal regarding the unaccepted depreciation expenses related to the cost of works in progress and other assets fixed assets transferred by TDP, (ii) declare the nullity of the value and that appealed insofar as that the objection was not pertinent to the sample, (iii) overrule the value insofar as that interconnection expenses originating from calls with cards prepayment 147, and (iv) revoke that appealed insofar as payments on account. In this regard, on October 16, 2020, we filed a contentious administrative claim. Since March 31, 2021, the claim is still to be admitted for processing.

From the analysis carried out, ratified by the legal opinion of the external consultants overseeing the case, we consider that the contingency rating of this case is remote.

On the other hand, regarding the same TCR NO. 01849-1-2020 for fiscal year 2005, on October 21, 2020, we were notified with the contentiousadministrative lawsuit filed by SUNAT, which disputes the objection to the doubtful collection provision that was not the subject of the sample. The oral report in the first instance has been scheduled for January 13, 2022.

From the analysis carried out, ratified by the legal opinion of the external consultants overseeing the case, we consider that the contingency rating of this case is remote.

Moreover, in relation to fiscal year 2009, on October 23, 2020, we filed a contentious administrative claim against TCR No. 2663-1-2020, which unfavorably ruled against the Company in terms of the following objections: (i) prescription; (ii) excess recreational expenses that are not deductible according to Income Tax regulations; (iii) pro rata tax credit; (iv) compensation; (v) fine resolutions. The claim is still to be admitted for processing.

From the analysis carried out, ratified by the legal opinion of the external consultants overseeing the case, we consider that the contingency rating of this case is remote.

f) Mobile telephony royalties -

On February 27, 2012, the MTC notified the Company of the settlement of the annual payment of the mobile royalties for the use of the radio electric spectrum corresponding to that year as per the General Scheme, arguing that the Special Regime, which Telefónica Móviles aquired at the time, was no longer applicable given its temporary nature.

As a consequence of the MTC's claim to apply the General Regime, the Company proceeded to: (i) file a complaint before the MTC arguing that the Special Regime was the one that legally applied; and (ii) submit a complaint to INDECOPI arguing that the calculation methodology contained in the General Regime constituted a Bureaucratic Barrier.

The appeals lodged by the Company for the years 2012, 2013 and 2014 before the MTC were dismissed. Consequently, the Company filed appeals before the Tax Court, which are pending determination. The MTC is reluctant to make the files available. Likewise, for the years 2015 and 2016, the Company filed claims before the MTC, which are awaiting a ruling by the Tax Court.

The claim of Bureaucratic Barriers was decided in the last administrative instance on February 19, 2016, declaring that the calculation methodology contained in the General Scheme constituted a Bureaucratic Barrier and therefore was inapplicable for Telefónica. This determination applies not only for the year 2012, but for subsequent fiscal years.

Regarding the mobile canon corresponding to the years 2012, 2013 and 2014, the Company made the payments under protest according to the settlements formulated by the MTC. The payment corresponding to the years 2015 and 2016 were not made as a precautionary measure was obtained in the procedure of Bureaucratic Barriers, and as a consequence of the definitive determination from INDECOPI.

However, on January 18, 2017, the Company was notified with the requirement formulated by the MTC for the payment of the corresponding royalties for the years 2015 and 2016, based on the existence of a precautionary measure issued by the 25th Contentious-Administrative Court of the Superior Court of Justice of Lima, which ordered INDECOPI to suspend the effects of the ruling that declared that the calculation of the royalties as per the General Scheme constituted a Bureaucratic Barrier, specifying in the requirement that if the payment is not made within the term granted the respective coercive collection actions would proceed.

On January 27, 2017, the Company responded to the aforementioned requirement stating that (i) as at that date, it had not been notified of any precautionary measure; (ii) it had not been notified with any INDECOPI resolution that ordered the suspension of the effects of its determination; and (iii) pursuant to the provisions of Articles 136 and 115 of the Tax Code, Article 16, subparagraph e) of the Coercive Enforcement Procedure Act, and paragraph 28, Article III.4 of the Directive approved by Supreme Decree No. 036-2010-MTC, it was not possible to initiate any coercive collection action as the Company had submitted, within the established legal deadlines, claims before the MTC for the years 2015 and 2016.

On March 7, the Coactive Executor suspended the Enforcement procedure. However, in order to avoid a possible allegation by the Ministry that Telefónica would not be paying the royalties and starting a procedure of loss of concession, Telefónica proceeded to pay the 2015 and 2016 periods for amounts amounting to S/ 50,787,968 and S/ 52,107,136.

On September 24, 2020, the Supreme Court declared the MTC's cassation appeal founded, and consequently the judgment of the Superior Court was overruled. On February 3, 2021, the judgment of the Superior Court declared the claim as unfounded. On February 18, 2021, we learned that the MTC filed a cassation appeal (we have not yet been notified). The file has been in the Supreme Court since July 12, 2021.

The Management of the Company and its internal and external legal advisors estimate that there are legal arguments to sustain that the final determination to be issued in the contentious administrative process undertaken by the MTC against the decision of INDECOPI will be favorable. If so, any favorable result derived from the aforementioned contentious administrative proceeding will not have a significant impact on the Company's consolidated financial statements.

g) Income tax Telefónica Multimedia 2007, 2010, 2012, 2013, and 2014 -

As a result of the audits of the financial years 2007, 2010, 2012, 2013, and 2014, this has been notified by SUNAT with various resolutions for alleged omissions regarding income tax.

In some cases, Multimedia has filed claim appeals for failing to find the corresponding resolutions in accordance with the legal regulations in force in Peru and, in others, it has proceeded to pay the assessments received.

Regarding the Income Tax for the year 2012 for Multimedia, on June 17, 2015, SUNAT issued Determination Resolutions No. 012-003-0059229 to 0059241 and Fine Resolutions No. 012-002-0025995 to 0025997. The main objection made by SUNAT corresponds to the expenses that are supported with documentation that were received after the submission of the sworn statement. Disagreeing with the stipulations of the Determination and Fine Resolutions, the Subsidiary filed a Claim Appeal. Meanwhile, on January 22, 2016, SUNAT communicated Intendancy Resolution No. 0150140012250, by means of which the aforementioned Claim Appeal was declared unfounded. As such, an appeal was filed with the TC, which was resolved through TCR No. 3752-3-2020, notified on September 7, 2020. In this resolution, the Court overrules the main objection related to the expenses that are substantiated with vouchers received after the sworn statement. Regarding the remaining objections, these were upheld and we are awaiting SUNAT to comply.

Subsequently, on December 1, 2020, the Company was notified with Intendancy Resolution No. 0150150002586 issued in compliance with what was resolved by the Tax Court in Resolution No. 03752-3-2020. However, as we do not agree with that stated by SUNAT, we have filed an appeal.

In the opinion of Management and its legal advisors, there are legal arguments that indicate that the tax process could be resolved on favorable terms for Multimedia. If so, any favorable result derived from the aforementioned tax proceedings will not have a significant impact on the Company's consolidated financial statements.

Finally, with respect to fiscal year 2012, on December 11, 2020, we filed a contentious-administrative claim against TCR No. 3752-3-2020 that ruled against the interests of the Company in terms of the following objections: (i) income improperly considered as deferred and that accrued in 2012; (ii) provision for expenses not accepted as they have not been substantiated; (iii) late payment interest on account from March to December 2013; and (iv) fine resolutions regarding IR 2012 and its payments on account. On December 11, 2020, the court accepted the claim for processing. The oral report in the first instance has been scheduled for January 18, 2022.

From the analysis carried out, ratified by the legal opinion of the external consultants overseeing the case, we consider that the contingency rating of this case is remote.

Furthermore, Tax Court Resolution No. 149-4-2019 is disputed as it confirms IR No. 0150140014378, thereby declaring the claim made against payment orders No. 011-001-0123981 to 011-0123989 drawn for IR account payments from January to July, October and December 2014, as unfounded. On April 24, 2019, the lawsuit was filed. On August 20, 2020, the Oral Hearing was carried out. On November 2, 2020, the judgment of first instance declared our claim founded and consequently the TCR null. As such, the payment of late interest due to modification of the coefficient is not applicable. However, the Superior Court reversed the judgment of first instance, by virtue of the SUNAT appeal, and declared our claim unfounded. On January 12, 2021, we filed a cassation appeal against such judgment, which is pending acceptance.

In the opinion of Management and its legal advisors, for the aforementioned administrative contentious processes, there are sufficient arguments to consider the contingency as reasonably remote.

Finally, regarding the 2007 financial year, on October 21, 2020 we were notified with a contentious-administrative claim filed by SUNAT through which it discusses the objections of financial expense

for execution of the letter of guarantee and expenses for payment of metallic promotion 2005-2006-2007. On April 21, 2021 we attended the process. To date, the scheduling of the Oral Hearing is still pending.

In the opinion of Management and its legal advisors, for the aforementioned administrative contentious processes there are sufficient arguments to consider the contingency as reasonably remote.

In relation to the processes detailed above, as of June 30, 2021, as set forth in notes 2.20 and 2.21, the Company has recorded the necessary provisions for cases considered probable. There are no possible contingents (S/ 721,219,000 as of December 31, 2020). See note 21. Management and its legal advisors estimate that the individual outcome of the claims should not have a significant impact on the Group's consolidated financial statements.

Furthermore, the Company has several legal, (labor and administrative) regulatory, and customs lawsuits that are being undertaken by its external and internal legal advisors. As of June 30, 2020, as stated in note 2.20, the Company had registered the required provisions, leaving as a possible contingency an amount of S/ 590,025,000 (S/ 567,148,000 as of December 31, 2020). See note 21. Management and its legal advisors estimate that the individual outcome of the claims should not have a significant impact on the Group's consolidated financial statements.

33 SUBSEQUENT EVENTS

Between June 30, 2021, and the date of approval of the consolidated financial statements, there have been no significant subsequent events that in the opinion of Company management require any additional disclosure or any adjustment to the balances presented in the consolidated financial statements.

On July 1, 2021, the Group launched a voluntary retirement plan open to Group employees who are presently in the phase of opting in.
