# Corporate Profile

**Aztech Global Ltd. (SGX: 8AZ)** is a Singapore-headquartered technology group specialising in designing and manufacturing Internet of Things (“IoT”) devices and data-communication products across diverse applications.

Established in 2009 and listed on the Mainboard of Singapore Exchange in 2021, the Company, together with its subsidiaries (“the Group”), has built a strong presence in Singapore, Malaysia, and China, supported by three R&D centres and two manufacturing facilities.

Leveraging its comprehensive design, engineering and manufacturing capabilities, the Group delivers innovative, high-quality IoT and data-communication products to a global customer base. Its solutions serve blue-chip companies and technology start-ups in more than 20 countries, spanning security, consumer electronics, communications, health-tech, industrial and automotive segments.

The Group’s market reach is underpinned by a robust manufacturing platform disciplined in quality, safety and regulatory compliance. Its China and Malaysia facilities, totalling approximately 500,000 sq ft are certified to ISO 9001, 13485, 14001, 45001 and IATF 16949, reinforcing its commitment to high-quality, compliant and responsibly manufactured products. In January 2026, the Malaysia facility obtained U.S. FDA registration under 21 CFR Part 807, affirming its readiness to support and manufacture medical devices requiring stringent regulatory and quality-management standards.

Building on its strong foundation, the Group is expanding into medical technology (“MedTech”) and renewable energy to align with rising global demand for smart, connected and sustainable solutions. Beyond electronics manufacturing services, it offers smart lighting and AI-enabled surveillance solutions under its proprietary Kyla brand.

Anchored by a technology-driven heritage and a long-term commitment to innovation and responsible growth, the Group continues to strengthen its position as a trusted partner in the IoT and smart-technology ecosystem, delivering sustainable value through purposeful innovation and future-ready solutions.

## Corporate Governance & Transparency

The Group ranked 43rd among 467 SGX-listed companies in the Singapore Corporate Governance and Transparency Index 2025. This was an improvement from 52nd place in 2024.

## Corporate Developments

### IOT Manufacturing Sdn. Bhd.

The ISO 13485-certified wholly owned subsidiary obtained its Certificate of Registration with the U.S. Food and Drug Administration (“FDA”) as required by 21 CFR Part 807<sup>2</sup> in January 2026, strengthening its position as a speed-to-market manufacturing partner for medical device owners.

### Aztech Communication Device (DG) Ltd

The wholly owned subsidiary sold its factory building and land (approximately 42,000 square metres) in Dongguan, China for RMB41 million (about SGD7.3 million) and leased back approximately 18,010 square metres of built-up area for 10 years for a total rental of RMB20 million (about SGD3.6 million) to right-size the Group’s manufacturing footprint, optimise costs and efficiency. This sale and partial leaseback transaction was completed in January 2026.

### Huuve Sdn. Bhd.

This wholly owned subsidiary sold its property in Gelang Patah, Johor, Malaysia for RM28.7 million (about SGD8.7 million). The property was vacant following the successful consolidation of operations at the larger manufacturing facility in Pasir Gudang, Johor, Malaysia to support customer growth more efficiently. The disposal was completed in December 2025.

2. According to FDA.Gov (30 Sep 2025), owners or operators of establishments involved in the production and distribution of medical devices intended for use in the United States are required to register annually with the FDA under the Code of Federal Regulations (CFR). This requirement is set out in 21 CFR Part 807, which governs FDA establishment registration and device listing.

# Business Segments

The Group delivers OEM<sup>3</sup>, ODM<sup>4</sup>, JDM<sup>5</sup> and CMS<sup>6</sup> solutions to global brand owners across a broad spectrum of industries, including security, consumer electronics, communications, health-tech, industrial and automotive. It is also expanding into the MedTech and renewable energy sectors, as part of its strategy to capture growth in high-value, future-ready markets. By strengthening its design, engineering and manufacturing capabilities, the Group aims to build a more diversified and resilient customer base that supports sustainable long-term growth.

## Security

Security products for the growing AIoT industry, enhancing safety, monitoring and automation with smart technology

## Industrial

Developing industrial-grade products for harsh environments, including satellite communication devices, automotive parts and SoC test boards that meet stringent reliability and durability standards

## MedTech & HealthTech

Meeting medical and healthcare needs with medical and wearable devices as well as health-tech solutions leveraging IoT, AI and data analytics to enhance patient care, diagnostics and operational efficiency

## Consumer Electronics

Enhancing living spaces with IoT-enabled and smart home solutions, adapting to the latest trends

## Communications

Empowering broadband service providers, enterprises and consumers with reliable tools for high-speed, dependable internet connectivity, ensuring seamless communication

## Automotive

Providing automotive connectivity and smart city solutions with precision-engineered components and advanced software, improving traffic flow and driver comfort

## Renewable Energy

Delivering reliable renewable energy hardware, powering the transition toward greener and more efficient energy systems for a sustainable and resilient future

# Strategic Value Creation

The Group’s strategic foundation is anchored in its purpose of being a key technology enabler for the connected world of tomorrow and guided by its vision of delighting people with smarter solutions. The purpose and vision are reinforced by its core values—Integrity, Commitment, and Excellence—which shape responsible decision making and drive continuous improvement across all aspects of the business.

Leveraging its vertically integrated capabilities spanning R&D, design, engineering, manufacturing, testing and packaging, the Group focuses on delivering sustainable, long-term value for its customers, employees, suppliers,

investors and the communities it serves. This includes strengthening operational resilience, advancing low-carbon practices, and developing innovative, future-ready solutions that address evolving market needs.

By embedding its purpose, vision and values into its operations, the Group aligns strategic objectives with stakeholder expectations, enhances trust and transparency, and reinforces its commitment to sustainable value creation. This disciplined approach ensures it remains well-positioned to capture new opportunities while navigating an increasingly dynamic and competitive landscape.

Figure 3: Value-creation framework of Aztech

# Business Strategy

Building on its value creation framework, the Group has identified six (6) key strategic priorities that guide its long-term growth ambitions and operational direction.

## Net-Zero Commitment

Advancing net-zero commitments by reducing carbon emissions, improving energy efficiency and integrating low-carbon design principles across operations and product development to strengthen competitiveness and position the Group as the partner of choice, for long-term, sustainable value.

## Dual Site Manufacturing Advantage

Optimising dual site manufacturing presence in Malaysia and China to enhance operational agility, strengthen business continuity and accelerate speed to market, while improving lead times, flexibility and production stability.

## Customer Expansion & Diversification

Expanding customer base across diverse markets to reduce concentration risk and strengthen revenue resilience.

## Disciplined Resource & Financial Management

Exercising disciplined resource and financial management by prudently overseeing assets, capital expenditure, operating costs and foreign exchange exposures. This disciplined approach underpins sustainable growth, safeguards financial flexibility, and ensures the Group is well-positioned to support long-term strategic initiatives.

## Resilient, Localised & Diversified Supplier Network

Building a resilient, localised and diversified supplier network through responsible sourcing practices and long-term supplier partnerships that enhance supply continuity, mitigate geopolitical and logistics-related risks, and ensure reliable access to critical components.

## Innovation & R&D Investment

Investing in manufacturing, design and R&D capabilities to support higher product quality, improved production yields and enhanced efficiency. These investments are aligned with the Group's technology roadmap and enable the development of differentiated, higher value-added solutions, including AI and Smart Technology solutions that meet evolving market needs

The chess pieces serve as a metaphor for the Group's strategies. **Pawn** reflects steady progress; **Rook** provides stability and reliability; **Knight** represents strategic agility; **Bishop** symbolises governance and oversight; the **Queen** serves as a powerful lever for both protection and reach; and the **King** represents what is essential to survival and continuity. Each chess piece must be deployed deliberately, supported by the other pieces, and timed for maximum impact. As in chess, success requires planning, discipline, risk management, and the ability to balance multiple moves simultaneously—mirroring how the Group builds on its value creation framework in allocating resources, building resilience, and executing growth initiatives.

# Letter to Shareholders

**Mr. Michael Mun**  
Executive Chairman and CEO

“The Group remains firmly committed to delivering sustainable, long-term value to all stakeholders as we execute our strategic priorities and build for the future.”

Dear Shareholders,

On behalf of the Board of Directors (“the Board”), I am pleased to present the Group’s performance and strategic progress for the financial year ended 31 December 2025 (“FY2025”). This was a year that required discipline and adaptability as we navigated softer demand while strengthening the foundations for long-term, high-quality growth. Despite market challenges, the Group continued to deepen customer engagement and build momentum across regulated manufacturing, technological development and customer diversification.

## Financial Performance and Strong Fundamentals

For FY2025, the Group reported revenue of \$432.5 million and net profit of \$40.2 million, reflecting declines of 30.4% and 43% respectively, primarily due to increased competition and softer customer demand for IoT devices and data-communication products. Tight cost control and operational discipline preserved healthy fundamentals.

The business remained cash-generative, delivering \$38.5 million in operating cash flow and \$36.8 million in free cash flow. Following dividend distributions totalling \$84.9 million in 2025, the Group ended the year with a robust net cash position of \$256.4 million and a net asset value of 38 cents per share. This strong balance sheet positions us well for continued investment in automation, advanced manufacturing technologies and initiatives that enhance resilience and future earnings quality.

## Optimising our Operational Footprint

To tighten costs and enhance operational efficiency, the Group divested its property in Gelang Patah, Johor, Malaysia and executed a sale and partial leaseback<sup>7</sup> of its facility in Dongguan, China. These transactions have optimised the Group’s manufacturing capacity while ensuring continuity of production. We now operate approximately 500,000 sq ft of manufacturing space across Malaysia and China, providing a scalable and demand-responsive platform for growth.

7. The sale and partial leaseback arrangement was completed in January 2026. Please refer to the SGXNet announcement dated 12 January 2026.

## Advancing MedTech and Technology Capabilities

One of our key priorities has been strengthening our regulated manufacturing capabilities. In addition to maintaining ISO certifications, including ISO 13485, our Malaysia facility attained the U.S. FDA 21 CFR Part 807 Establishment Registration and Device Listing in January 2026. This milestone enhances our ability to support customers entering the U.S. medical devices market<sup>8</sup> while enabling us to explore greater opportunities in higher-value, compliant manufacturing.

At the same time, we advanced our innovation agenda through deepening capabilities in AI-enabled technologies, smart systems and automation. Building on our digitalisation roadmap, we furthered our Industry 4.0 transformation to reinforce the Group's long-term operational resilience and future-ready manufacturing capabilities. Through the continued embedding of digitalisation across our production network, we are shaping a more integrated, transparent and data-driven operating model—one that enhances our ability to scale efficiently, uphold consistent quality, and respond with agility to the evolving needs of customers and global supply chains.

“...our Malaysia facility attained the U.S. FDA 21 CFR Part 807 Establishment Registration & Device Listing in January 2026. This milestone enhances our ability to support customers entering the U.S. medical devices market...”

## Project Wins, Customer Expansion and Diversification

During the year, the Group secured 27 new project orders<sup>9</sup> and onboarded 10 new customers across the consumer, MedTech, industrial and security segments. While still early in their development cycles, these projects support diversification and strengthen our transition towards more design- and R&D-led engagements.

In addition to growing our presence in MedTech, we are expanding into the renewable energy segment to support production of hardware that are aligned with global electrification and sustainability trends. This leverages our engineering strengths and complements our long-term diversification strategy.

“...we are expanding into the renewable energy segment to support production of hardware that are aligned with global electrification and sustainability trends.”

## Commitment to Responsible and Sustainable Growth

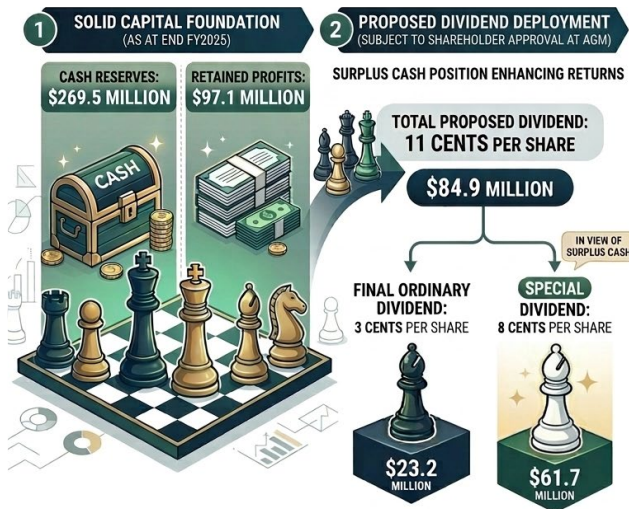

Sustainability remains integral to our strategy. We continue to make progress in renewable energy adoption, zero-waste-to-landfill initiatives, and workplace standards enhancement under the Responsible Factory Initiative. Our commitment to strong governance and operational excellence was recognised through two key honours in 2025. We are proud to have been named Singapore's Best Managed Companies by Deloitte Private for the second consecutive year and to have received The Enterprise Award at the Singapore Business Awards 2025.

8. The US remains the world's largest medical devices market (over 40% of the global MedTech demand). Valued at USD 188.68 billion in 2024, the U.S. medical devices market is estimated to grow at a CAGR of 6.8% from USD 199.06 billion in 2025 to USD 314.96 billion in 2032. (Source: U.S. Medical Devices Market Size, Share & Forecasts 2024–2032, Fortune Business Insights)

9. New project orders refer to new products secured from existing and new customers.

## Capital Management and Dividends to Shareholder<sup>10</sup>

The Group closed FY2025 with cash reserves<sup>11</sup> of \$269.5 million and retained profits of \$97.1 million. In view of our surplus cash position, the Board has proposed total dividends of 11 cents per share, amounting to \$84.9 million – comprising a final dividend of 3 cents and a special dividend of 8 cents per share. Including the interim dividend of 1 cent, total dividends for FY2025 amount to a total of 12 cents per share, representing a dividend payout ratio of 230.6%. Since our IPO in March 2021, including the proposed final and special dividends in respect of FY2025, the Company would have distributed a total of \$359 million to our shareholder as dividends.

## Outlook and Strategic Priorities

Global market conditions are expected to remain mixed in the near term, amid geopolitical tensions, evolving trade policies and structural shifts. Nonetheless, long-term opportunities remain robust in IoT<sup>12</sup>, MedTech<sup>13</sup> and renewable energy<sup>14</sup>.

The industry is undergoing a structural transformation driven by rapid AI adoption, resulting in greater product complexity and higher expectations for performance, quality and reliability. To capitalise on this shift, the Group will continue stepping up its automation, digitalisation and engineering capabilities to enhance productivity, improve yields and strengthen supply chain resilience.

In 2026, we will prioritise engaging in higher-value customer segments, further strengthening our engineering, design and regulated manufacturing capabilities, and advancing projects in both the MedTech and renewable energy segments. We will also focus on delivering contracted orders efficiently and reliably and enhancing customer satisfaction by strengthening operational agility.

## Appreciation

As we celebrate 40 years of the Aztech brand, I would like to express my sincere appreciation to our customers, suppliers and business partners for their trust and collaboration. I would also like to thank our employees for their dedication and professionalism, and the Board of Directors for their steadfast guidance.

Looking ahead, the Group remains firmly committed to delivering sustainable, long-term value to all stakeholders as we execute our strategic priorities and build for the future.

# Senior Management

**Pavani Nagarajah**  
*Senior Vice President  
Legal And Corporate Affairs  
Company Secretary*

Ms Pavani Nagarajah is the Senior Vice President of Legal and Corporate Affairs and the Company Secretary, overseeing the Group's legal, corporate governance and human resources functions, and supporting strong compliance across the organisation. Regarded for her steadfast and pragmatic approach, she provides seasoned guidance on legal, governance and compliance matters, working with management to identify, assess and manage risks linked to the Group's operations, contracts and transactions. She also leads the Group's investor relations function, ensuring open, timely and transparent communication with shareholders and the investment community. With more than 38 years of service, Ms Nagarajah brings deep institutional continuity and insight to her role.

Ms Nagarajah holds a Bachelor of Laws degree from the National University of Singapore.

**Daniel Oh**  
*Senior Vice President  
Sales And Business Development*

Mr Daniel Oh is the Senior Vice President of Sales and Business Development, where he leads the Group's global commercial strategy across its OEM, ODM, JDM and CMS offerings for IoT devices and data-communication products. Recognised for his strong commercial acumen and customer-centric leadership, he works closely with clients and internal teams to develop tailored, value driven solutions that support long-term partnerships and sustainable business growth. With more than 35 years of international sales experience, Mr Oh brings deep industry insight and has played a central role in strengthening the Group's market presence as a trusted manufacturing partner.

Mr Oh holds a Diploma in Electrical Engineering from Singapore Polytechnic and an Advanced Diploma in Management Studies from the Singapore Institute of Management.

**Annie Qian**  
*Financial Controller*

Ms Annie Qian is the Group's Financial Controller, overseeing financial management, reporting, treasury, audit, taxation and accounting functions. Valued for her balanced and disciplined work ethic, she ensures the integrity of financial reporting and supports sound financial planning across the organisation. Since joining the Group in 2016, she has been a key partner to management in strengthening internal controls and supporting the Group's financial strategy. Through her practical and hands-on experience, Ms Qian also plays a central role in upholding accountable financial stewardship and ensuring transparent reporting.

Ms Qian holds a Bachelor of Science in Applied Accounting (Honours) from Oxford Brookes University and is a member of the Institute of Singapore Chartered Accountants.

**Terence Kwong**  
*Senior Vice President  
Research And Development*

Mr Terence Kwong is the Senior Vice President of Research and Development, leading the Group's R&D activities and shaping its technological roadmap. He brings close to 30 years of experience in electronics and product development and is highly regarded for his methodical problem-solving and collaborative leadership. Mr Kwong oversees the design and development of differentiated products across IoT, data-communication, smart LED lighting and vision technology solutions. Working closely with engineering and business teams, he supports efficient concept-to-product realisation that meets customer requirements in a cost-effective and reliable manner. Having been with the Group for more than 20 years, he brings deep technical expertise and engineering-driven perspective to innovation.

Mr Kwong holds a Bachelor of Engineering in Electronic Engineering from the City University of Hong Kong.

**Christine Lee**  
*Vice President  
New Technologies and Business Development*

Dr Christine Lee is the Vice President of New Technologies and Business Development, leading the translation of customer requirements into manufacturable and scalable products, and supporting engineering execution across the Group's high mix, high complexity portfolio. A PMP-certified, results-driven leader with over 10 years of management experience, she oversees cross-functional engineering teams and the full New Product Introduction ("NPI") lifecycle, driving product industrialisation and factory readiness from prototyping to mass production ramp up while partnering with procurement and supply chain teams to achieve quality, cost and delivery goals.

Dr Lee holds a Doctor of Philosophy (PhD) in Applied Science from the National University of Singapore and has authored 60 international scientific publications.

# Operations Review

Business activity in 2025 moderated due to increased competition and softer customer demand for IoT devices and data-communication products. As customers shifted toward shorter order lead times and more measured replenishment cycles, production throughput at the Group's facilities adjusted accordingly.

Revenue from the IoT devices and data-communication products segment declined by 30.8% to \$428 million. The LED lighting segment recorded a modest increase to \$4.3 million, while other electrical products contributed \$0.2 million. As a result of the softer IoT demand environment, revenue from North America and Europe fell by 35% and 13.5% to \$319.1 million and \$83.4 million respectively.

In navigating this subdued environment, the Group prioritised operational stability, aligning utilisation with actual demand and deepening customer engagement to grow its New Product Introduction ("NPI") pipeline.

## Manufacturing and Operational Adjustments

With moderated production volumes, the Group focused on reinforcing its operational foundation and sustaining disciplined utilisation. Its dual site manufacturing footprint in Malaysia and China ensured supply continuity, with both manufacturing facilities emphasising stability, quality and efficiency.

In Malaysia, the Pasir Gudang facility handled a steady mix of medium volume projects. Efforts centred on strengthening process reliability, reducing variability and enabling smoother transitions between product variants. Upstream plastics injection moulding capabilities also offered greater control over key components, helping to preserve production readiness despite fluctuations in customer demand.

Operations in China were calibrated through a sale and partial leaseback of the property in Dongguan, in response to lower order volumes while ensuring that established projects continued to receive consistent attention, and preserving the manufacturing footprint for long-term customer needs. Across both facilities, the Group maintained a streamlined operating structure designed to respond efficiently when activity levels improve.

## Digital Transformation and Process Enhancements

As part of the Group's Industry 4.0 initiative, it has advanced its multi-year digital transformation roadmap. The manufacturing facility in Malaysia has successfully transitioned its incoming material handling and documentation processes from manual, experience-based workflows to a real-time, digitised system. This rollout, when integrated with the Group's broader suite of manufacturing systems, delivers end-to-end traceability and data transparency across the production chain to strengthen quality and cost control and improve planning, coordination, and materials optimisation across facilities.

Preparations for deeper workflow automation also began during the year, advancing the longer term transition toward paperless production. Internal systems were refined to simplify processes and improve data accuracy, and material flow across the shopfloor was optimised to align more closely with production requirements. Taken together, these initiatives have underpinned operational stability and established a scalable foundation for future automation and technology-driven growth.

## Technology and R&D Development

In line with evolving customer requirements, the Group broadened its technology development efforts with the introduction of the Smart Lighting Gen 3 platform, featuring a newly developed communication protocol operating across sub-GHz and 2.4 GHz frequency bands to improve network stability and capacity. Work continued through early 2026 to add power-line-communication capability, extending the platform's applicability across different deployment scenarios.

The year also marked meaningful progress in edge AI technology, including imaging models designed to recognise bird species and common objects. These developments underpin both proprietary product lines and customer-specific applications across surveillance, smart home and environmental monitoring markets. Internally, the Group deployed AI-enhanced inspection and test-system automation to improve anomaly detection and achieve steadier yield performance during periods of variable throughput.

In January 2026, the Malaysia facility obtained the U.S. FDA Establishment Registration, bolstering its readiness for MedTech-related production requirements and expanding the Group's capabilities in regulated manufacturing environments.

## Customer Engagement and Project Pipeline

Project development activity increased during the year, driven by 27 new projects secured across consumer, industrial, security and MedTech applications. These additions broadened the Group's NPI pipeline and resulted in more projects progressing through design finalisation, engineering builds and initial pilot production. Of these, eight projects moved into commercial production in 2025, while the remaining new orders have been scheduled for completion in 2026.

The Group also embarked on early development work for its planned expansion into renewable energy hardware, aligning with its broader ambition to extend its electronic manufacturing capabilities into new application areas. In 2026, the Group will intensify its execution in the MedTech and renewable energy segments, deepen customer engagement and accelerate the development of new commercial opportunities. These projects remain at an early stage, with contributions expected to increase progressively as they advance toward commercialisation.

## Looking Ahead

Market conditions are expected to remain mixed in the near term, with cautious business sentiment likely to persist until end market visibility improves. The Group will uphold operational discipline while positioning itself to pursue opportunities in areas with profitable growth potential. Building on the momentum created through early development work and customer engagements, the MedTech and renewable energy segments are expected to play a growing role in shaping the Group's direction in 2026.

Leveraging the digital, automation and AI-enabled capabilities established in recent years, the Group aims to raise production readiness for more complex and higher-value projects. This approach supports long-term competitiveness, sharpens responsiveness to evolving customer requirements and places the Group in a strong position to participate in emerging opportunities as demand conditions improve.

# Investor Relations & Communications

## IR Policy & Approach

The investor relations (“IR”) programme of the Group is anchored in strong corporate governance, transparency and timely communication. The Group provides shareholders and the investment community with clear, consistent and accurate information to support informed investment decisions and long-term trust.

Material or price sensitive information is disclosed promptly via SGXNet, and the Group does not engage selective disclosure. If material information is inadvertently shared with a limited audience, the same information is promptly published on SGXNet. All announcements are simultaneously made available on the IR section of the corporate website for easy access.

To uphold market integrity, the Group observes strict blackout periods before the release of half-year and full-year financial results and quarterly business performance updates. During these periods, Directors, key management and relevant employees are prohibited from trading in the Company’s securities or discussing undisclosed financial information with external parties.

While transparency is central to its communication philosophy, the Group exercises care when handling commercially sensitive information to balance meaningful disclosure with the protection of competitive interests.

## Stakeholder Engagement

The Group prioritises one-on-one engagements with analysts and investors to facilitate clear dialogue, timely clarification and an accurate understanding of the Group’s fundamentals. In 2025, these interactions were primarily conducted through teleconversations, providing opportunities to address queries and reinforce alignment with publicly disclosed information. Insights gathered from these discussions were shared with Senior Management and the Board to support ongoing communication priorities.

The Group continues to engage shareholders through its physical Annual General Meeting (“AGM”), which facilitates direct interaction with the Board of Directors (including Chairman, CEO and Audit Committee Chairman) and Senior Management. At the 2025 AGM, the Group showcased selected Kyla brand products, including AI-enabled surveillance solutions. Shareholders were able to submit questions in advance, with key queries addressed through disclosures on SGXNet and the corporate website. Meeting materials, voting results and minutes were published promptly to reinforce transparency. Information regarding the 2026 AGM is available at [www.aztechglobal.com/agm](http://www.aztechglobal.com/agm).

## Investor Relations Resources

The Group provides comprehensive corporate, operational and sustainability information online, including IR contact details, Corporate and ESG policies, financial results, voluntary updates, dividend information, and archived annual and sustainability reports in the IR and Sustainability sections of the corporate website. Investors may direct IR-related queries to [IR@aztech.com](mailto:IR@aztech.com), and sustainability matters to [Sustainability@aztech.com](mailto:Sustainability@aztech.com).

## Recognition for Corporate Governance

The Group ranked 43rd out of 467 SGX-listed companies in the 2025 Singapore Corporate Governance and Transparency Index, an improvement from the rank of 52 in 2024, demonstrating its commitment to strong governance practices and transparent communication.

## Board Statement

### Dear Stakeholders,

The Board of Directors (“the Board”) is pleased to present the Group’s 2025 Sustainability Report. This report highlights the Group’s strategy on key Environment, Social and Governance (“ESG”) topics for the financial year ended 31 December 2025.

### Sustainability Strategy

The success of the Group relies on its ability to strengthen operational resilience amidst shifting geopolitical dynamics and trade barriers, competitive market landscape, supply chain risks, diverging ESG policies and extreme weather events that impact both its operations and its people.

To create long-term business value and position itself as a net-zero business partner of choice, it is important to transition the Group’s business operations to a low-carbon and circular economy model. The Group has established a long-term Climate Action 2050 Roadmap

and voluntarily published the inaugural set of Scope 3 emissions in its 2024 Sustainability Report. The medium-term Sustainable & Lean Operations 2030 Initiative has multiple cross-functional workstreams to drive decarbonisation, capacity building, and systematically transform the way it does business.

### Net-Zero Commitment

The Group aspires to achieve net-zero emissions by 2050, aligned with the Science Based Targets initiative (“SBTi”) Corporate Net-Zero Standard criteria. The Climate Action 2050 Roadmap was established to chart its net-zero pathways. The pace of decarbonisation, especially the Scope 3 value chain emissions, depends heavily on close collaboration with value chain business partners to drive innovations, improve efficiency, reduce demand for virgin resources, and create low-carbon products and solutions.

The Group’s emissions reporting references the Greenhouse Gas (“GHG”) Protocol and ISO 14064-1 reporting standards. Scope 1 emissions are direct emissions from its operations while Scope 2 emissions are mainly from purchased electricity. Scope 3 value chain emissions are upstream and downstream from its organisational boundary, and are generated by its suppliers and customers. This year, it continues reporting the same set of FY2024 inaugural Scope 3 emissions categories.

### Transition to Renewable Electricity

The Group is committed to procuring and matching electricity consumed in its manufacturing facilities with 100% renewable electricity (“RE”) by 2030. This year, it has procured 804,000 kWh of China Green Electricity Certificate for its manufacturing facility in China, which contributed 5.1% RE mix in manufacturing facilities total electricity consumption. In addition, a power purchase agreement was signed for the Malaysia manufacturing facility to install an on-site roof-top solar photovoltaic system. The system is scheduled to deliver additional electricity from renewable sources by middle of 2026.

### Waste Reduction – Zero Waste to Landfill

“Reduce, Reuse, Recycle” is the sustainable way of doing business and the Group understands the importance of diverting waste from landfills to conserve resources and reduce pollution. This year, it has taken a step further to kick-start the UL 2799 Environmental Claim Validation Procedure for Zero Waste to Landfill (“UL 2799 ZWTL”) at both its China and Malaysia manufacturing facilities. The program is part of its Sustainable & Lean Operations 2030 Initiative to support its progressive transition to low-carbon and circular business model.

### Responsible Factory Initiative

Aligned with the Group’s social strategy to provide a safe and respectful work environment for all, its Malaysia manufacturing facility has joined the Responsible Factory Initiative (“RFI”) programme administered by Responsible Business Alliance (“RBA”) to demonstrate its commitment to RBA’s Code of Conduct and corporate social responsibility. This is part of its Sustainable & Lean Operations 2030 Initiative to enhance the Group’s competitive edge and strengthen its position as a responsible factory of choice.

### Our Gratitude

The Board wishes to express gratitude to all at the Group, as well as to stakeholders and business partners who have contributed to its sustainability efforts. Thank you for your continued support and partnership as the Group work towards a more sustainable world.

## Transition to Low-Carbon & Circular Economy

The switch to a circular economy is a complex transformation process for the Group as well as the global electronics value chain. The Group recognises the opportunities to reduce resource consumption, improve product quality, enhance its competitive edge and create sustainable business value as it transitions its operations to a low-carbon and circular economy business model.

## Compliance & Certifications

The Group has an uncompromising stance on environmental laws and regulations compliance. It integrates environmental considerations in its business practices and processes, as well as environmental due diligence as per its Environmental Policy. All its manufacturing locations have maintained the ISO 14001 Environmental Management Systems certification. Over the years, it has strengthened its product design and manufacturing capabilities to deliver solutions that meet international standards and compliance requirements (refer to Figure 5).

## Lean Manufacturing

As an integral part of its Sustainable and Lean Operations 2030 Initiative, the Group adopts the lean process improvement approach. Facing increasing challenges such as rising customer's expectations, fluctuating demand and intense competition, lean manufacturing capabilities are fundamental in ensuring the Group stays competitive.

# Sustainability Governance

The Group has integrated sustainability governance into the principles-based approach of the Three Lines Model to ensure robust sustainability risk management and internal oversight, focusing on: accountability, actions and assurance.

### Governance & Strategy Oversight

The Board provides overall guidance and policy directions to the Sustainability Committee (“SC”), as well as reviews and approves findings made by the SC.

### First Line of Defence

The Heads of Departments (“HoDs”) oversee the sustainability reporting of respective functions and locations. The HoDs are responsible for implementing effective risk control procedures on a day-to-day basis. This consists of identifying, assessing and mitigating sustainability-related operational risks.

Employees assume the first-line role of providing products and services to customers in compliance with

the requirements and expectations set by HoDs and the SC. Employee representatives from across various functions are engaged in sustainability-related monitoring and reporting.

### Second Line of Defence

Reporting to the Board, the SC and the Senior Management Team are collectively responsible for developing and implementing the sustainability strategy and targets as approved by the Board.

The SC will oversee progress in achieving goals and targets, and ensure sustainability initiatives and climate-related issues are addressed by respective HoDs.

### Third Line of Defence

Independent consultants are engaged to provide assurance to the SC and the Board that the first and second lines’ efforts are consistent with expectations.

The internal review conducted by independent consultant assures the reliability of internal control processes for ESG data disclosure and reporting.

The main difference between this third line role and the first two lines is its high level of organisational independence and objectivity.

## Stakeholder Engagement

The Group's stakeholders are individuals or groups whose interests are affected or could be affected by its activities. It strives to continually engage its stakeholders meaningfully to foster mutually beneficial relationships based on trust and respect that have been cultivated through years of collaborative partnership.

It engages with key stakeholders via various channels on issues relevant to the business operations and the

respective stakeholder groups. The objectives of these efforts are to bring together different perspectives, discuss any conflicting points of view that arise, and learn from one another.

To support meaningful and transparent engagement with its key stakeholders, it employs a combination of formal and informal communication channels. It proactively consider language barriers, cultural differences and jurisdiction-specific internet censorship requirements when engaging with stakeholders.

## Material Topics

Its approach is guided by the Group’s sustainability goals: “Reduce its environmental impact and build climate resilience”, “Safe and respectful work environment for all”, and “Uphold the Group’s core values of Integrity, Commitment and Excellence”. The following ESG framework describes how it manages and reports externally on material ESG topics and how it contributes to the United Nations Sustainable Development Goals (“UN SDGs”).

The Group focuses on UN SDGs that are most relevant to operating its business responsibly, which are UN SDG 8 “Decent work and economic growth” and UN SDG 12 “Responsible consumption and production”, while UN SDG 17 “Partnerships for the goals” reflects its approach to sustainability and is fundamental to the way it runs its business. In addition, its operations also contribute to six supporting UN SDGs 3, 5, 6, 10, 13 and 16.

Based on the engagement dialogues it had with key stakeholder groups in FY2025, the list of material topics identified in FY2022 remains relevant with no significant changes in results. Material topics were grouped into three main sustainability pillars and reported in relevant section of the Sustainability Report 2025. Please refer to the Sustainability section of the corporate website for the full report.

## People & Local Communities

### Local Community Engagement

The Group embraces the philosophy of giving back to the community and various Corporate Social Responsibility (“CSR”) initiatives were carried out across various locations to empower vulnerable stakeholders, strengthen local community ties, encourage a culture of giving and teamwork among employees.

### Project Refresh

In April 2025, Singapore employees volunteered in Project Refresh, an initiative aimed at supporting seniors and low-income families in refurbishment work such as painting, cleaning, and decluttering.

In addition, it donated ovens and purchased Heart Bakers Cookies for the seniors and families. The purchase of cookies supported low-income stay-home mothers and aspiring home bakers by equipping them with baking, business, and marketing skills to kick-start their own home baking ventures.

### Blood donation and local community engagement

Its China employees have actively participated in various activities, including a blood donation drive, local household well-being visitation, as well as an environmental cleanup activity. Through these events, the team bonded and fostered stronger ties with the local community where it operates.

### Spreading love and care

In November 2025, Malaysia employees visited an orphanage and underprivileged home. It donated essential food items and heavy-duty wet and dry vacuums to support the children’s daily needs. This initiative reflects its commitment to giving back to the community and spreading care and hope to those in need.

### Running for a good cause – SGX Bull Charge 2025

Led by the Group’s CEO Mr Michael Mun and COO Mr Jeremy Mun, employees from different functions came together and laced up for the SGX Cares Bull Charge Charity Run on 7 November 2025. The employees cheered each other on through sweat and steps, knowing that the funds raised in the event would empower underprivileged children and families, persons with disabilities, as well as the elderly through SGX’s adopted charities.

# Corporate Governance Report

Aztech Global Ltd. (“**Aztech**” or the “**Company**”) and its subsidiaries (collectively, the “**Group**”) are fully committed to upholding the highest standards of corporate governance, integrity and professionalism at all levels and has put in place a robust governance framework with well-defined policies, internal controls and risk management systems. The Company has complied in all material respects with the principles and provisions of the Singapore Code of Corporate Governance 2018 (the “**Code**”).

This report sets out the Company’s corporate governance practices with reference to the Code. Any deviations from the provisions of the Code are appropriately explained to demonstrate that the Company’s practices are consistent with the intent of the Code.

## BOARD MATTERS

### PRINCIPLE 1- THE BOARD’S CONDUCT OF AFFAIRS PRINCIPLE 2- BOARD COMPOSITION AND GUIDANCE

#### The Board’s Role

The Board of Directors (“**Board**”) oversees the business affairs and performance of the Group and sets the strategic direction of the Group, with a focus on creating value for its shareholders and ensuring the long-term success of the Group through innovation and sustainability. The directors of the Company (“**the Directors**”) are fiduciaries who act objectively in the best interests of the Company and hold Management accountable for performance.

The Board’s principal functions include providing guidance to Management on the Group’s strategy, reviewing Management’s performance, overseeing the corporate governance of the Group and setting the tone for the Group in relation to values and ethical standards of conduct.

The Board is also responsible for establishing and overseeing the implementation of a sound risk management framework to identify, manage and mitigate risks, ensuring compliance with the applicable legislative and regulatory requirements, reviewing and approving budgets and financial plans and monitoring the Group’s financial performance. The Board also monitors the capital structure and capital efficiency of the Group, taking into consideration the Group’s long-term requirements.

The Board approves the remuneration policies and guidelines for the Board and Management, reviews the performance of senior Management and the CEO, and oversees succession planning.

The Board also oversees the Group’s sustainability strategy and the integration of economic, environmental, social and governance (“**EESG**”) issues as part of the Group’s long-term business strategy. Further details are set out in the “Sustainability Matters” section below.

The term “Management” is used interchangeably with “Key Management Personnel” in this Annual Report.

#### Matters Requiring Board Approval

The key matters requiring board approval include:

- (a) Annual budgets and business plans;
- (b) Announcement of half-yearly and full-year results and release of annual reports, including sustainability reports, as may be prescribed by the Singapore Exchange Securities Trading Limited (“**SGX-ST**”);
- (c) Any alteration to the share capital of the Company or the issuance of shares;
- (d) Declaration of interim dividends and proposal of final dividends;
- (e) Any investment, divestment, material acquisition or disposal of assets or capital expenditure exceeding threshold limits as approved by the Board from time to time;

# Corporate Governance Report

- (f) Any borrowings, lending of funds or incurring of financial liabilities or commitment related to grant of guarantees, securities and collateral guarantees by the Group;
- (g) The entering into of any profit-sharing arrangement with any other person;
- (h) Interested person transactions;
- (i) The creation of any mortgage over any of the Group's immovable property or any lien or charges created on the Group's movable property; and
- (j) Any amendments to the constitution of the Company ("Constitution").

Apart from the aforesaid matters specifically requiring the Board's approval, the Board has established financial authorisation and approval limits for other matters or transactions which require its approval. All matters which are not specifically reserved for the Board and are necessary for the day-to-day management of the Group and the implementation of corporate objectives are delegated to the Management.

## Board Size and Composition

The Board comprises the following Directors:

Name of Director	Age	Position held on the Board	Nature of Appointment
Michael Mun	76	Executive Chairman and CEO	Executive/ Non-Independent
Jeremy Mun	50	Executive Director and COO	Executive/ Non-Independent
Christopher Huang	40	Lead Independent Director	Non-Executive/ Independent
Jeann Low	65	Independent Director	Non-Executive/ Independent
Larry Tan	68	Independent Director	Non-Executive/ Independent
TS Tan	71	Independent Director	Non-Executive/ Independent

\*Mr Jeremy Mun is the son of Mr Michael Mun.

Further key information about the Directors are disclosed in pages 14 and 15 of this Annual Report.

The size and composition of the Board are reviewed from time to time by the Nominating Committee. The Nominating Committee seeks to ensure that the size of the Board is conducive for effective discussion and decision-making and that the Board has an appropriate balance of executive, independent and non-independent Directors and diversity in expertise, skills and attributes among the Directors.

The Board comprises two (2) Executive Directors and four (4) independent Directors who are independent from Management, the Company's substantial shareholders and the Company's wholly owned subsidiaries. The Board has appointed a Lead Independent Director. A description of the role of the Lead Independent Director is set out on page 38.

## Board Committees

The Board has established the following three (3) committees to assist the Board in discharging its responsibilities:

- (a) Audit Committee ("AC")
- (b) Nominating Committee ("NC")
- (c) Remuneration Committee ("RC")

# Corporate Governance Report

Each Board Committee has written terms of reference which set out its composition and responsibilities. These terms of reference are regularly reviewed to ensure their continued relevance and to reflect any changes in corporate governance or legal practices. Any changes to the terms of reference of any Board Committee will require Board approval. Each Board Committee comprises only Independent Directors.

The Board Committees report their decisions and/or recommendations to the Board. Notwithstanding the delegation of authority to the Board Committees on specified matters, the ultimate responsibility for all matters lies with the Board. The key responsibilities of the respective Board Committees are as follows:

Key Responsibilities of the Board Committees		
AC	NC	RC
<ul style="list-style-type: none"> <li>Monitoring financial performance</li> <li>Identifying and managing significant risks</li> </ul>	<ul style="list-style-type: none"> <li>Ensuring an effective Board is in place</li> <li>Overseeing Management's performance</li> <li>Succession planning</li> </ul>	<ul style="list-style-type: none"> <li>Reviewing and recommending a remuneration framework for the Board and Key Management Personnel</li> <li>Ensuring remuneration policies and systems are adhered to</li> </ul>

## Board and Board Committee Meetings

The Board of Directors and Board Committees meet regularly to discuss corporate governance, strategy and operational matters. Ad hoc meetings may be held as and when warranted by circumstances. The Board and Board Committee meetings may include presentations by Management, external advisors and/or consultants on risk management issues, tax matters, sustainability matters and developments in the business and regulatory landscape.

Board and Board Committee meetings are scheduled prior to the start of each financial year in consultation with the Directors to enable the Directors to plan ahead for their attendance at these meetings. The Independent Directors meet separately, without the presence of Management, at least once a year.

The Board of Directors and Board Committees are provided with the agenda, board papers and any other relevant materials prior to each Board and Board Committee Meeting to enable them to be properly informed of matters to be discussed and/or approved at such meetings. Attendance at Board and Board Committee meetings via electronic means is permitted under the Company's Constitution. Directors who are unable to attend a Board or Board Committee meeting can discuss issues relating to the matters to be raised at the meeting with the other Board or Board Committee members.

A record of the Directors' attendance at meetings during the financial year ended 31 December 2025 ("FY2025") is set out below.

### Independent Directors

A Director is considered independent if he or she has no relationship with the company, its related corporations, substantial shareholders or its officers that could interfere or be reasonably perceived to interfere, with the exercise of the director's independent business judgement in the best interests of the company. The Board considers the existence of relationships or circumstances, including those identified by the Listing Manual of the SGX-ST ("**Listing Manual**") and the Practice Guidance to the 2018 Code ("**Practice Guidance**"), that are relevant in its determination as to whether a Director is independent.

The responsibilities of the Independent Directors include:

- (a) assisting with developing and reviewing plans and strategies proposed by the Executive Directors and Management;
- (b) reviewing the performance of Management in achieving goals and objectives; and
- (c) evaluating Board processes, succession planning, corporate governance initiatives and the Group's performance.

The Independent Directors, led by the Lead Independent Director, meet at least once a year without Management to review Management's performance in meeting goals and objectives, or to discuss any other relevant matters. In FY2025, the Independent Directors made recommendations to the Board in relation to succession planning and business strategy to mitigate risks facing the Group. The Board has considered these recommendations and worked with the Management team in implementing the appropriate measures. Such meetings allow the Independent Directors to provide objective and independent checks on Management. Feedback is also provided by each Director in a formal Board Evaluation Questionnaire annually. The feedback provided is consolidated in a report which is presented to the NC and the Board for review. All Directors have demonstrated objectivity in their deliberations in the best interests of the Company. During the year, the NC has proposed a succession plan to the Board for consideration and the Management has been directed to train the relevant internal staff and also source potential candidates for the new roles.

The NC reviews the independence of Directors annually, and as and when circumstances require, pursuant to guidelines set out in the Code and Rule 210(5)(d) of the Listing Manual and presents its recommendations to the Board. Directors are required to disclose any relationships with the Company, its related corporations, its substantial shareholders or its officers which may affect their independence, as and when they arise. Each Independent Director completes an annual declaration form confirming his or her independence which is then reviewed by the NC.

Based on the declarations provided by the Directors and taking into account the guidance in the Code, the Listing Manual and the Practice Guidance, the Board, with the input of the NC, has determined that Mr Christopher Huang, Ms Jeann Low, Mr Larry Tan and Mr TS Tan are each independent. Each Independent Director had abstained from the review and determination of his or her independence status by the NC and the Board.

# Corporate Governance Report

## Conflicts of Interest

Each Director is required to disclose any conflict of interest, whether direct or indirect, in relation to a transaction or proposed transaction with the Group as soon as practicable after he or she becomes aware of the relevant facts. Each Director is also required to submit, annually, the details of his or her other directorships and interests in other entities for the purpose of monitoring interested person transactions. In the event a Director has a conflict of interest in relation to a matter, the Director will recuse himself or herself from all discussions involving the issues of conflict, unless the Board is of the opinion that the Director's presence and participation is necessary, but the Director shall in any event recuse himself or herself from any decision-making in relation to such issues of conflict.

## Access to Management

Prior to each Board and Board Committee meeting, the agenda and any reports and documents pertaining to the agenda items are circulated to the Board or the Board Committee members. This ensures that the Board and Board Committee members are allowed sufficient time to review the information and seek clarification if required.

Management regularly provides the Board with updates on the Group's operational and financial performance and the operational challenges for the Group. Budgets are discussed annually and any material variances between the projections and actual results are explained comprehensively by the finance team. The finance team presents the financial highlights and a detailed analysis of each quarter's performance and addresses any queries that the Board may have. The Board has separate and independent access to Management.

## Company Secretary

In addition to the above, the Board has separate and independent access to the Company Secretary and, as necessary, external independent professional advice at the Company's expense. The Company Secretary assists in the coordination and liaison between the Board, the Board Committees and Management, attends the Board and Board Committee meetings and prepares minutes of these proceedings and assists with the proper functioning of the Board, including compliance with the Code, the Company's Constitution, the Listing Manual and applicable legislation.

The Company Secretary is legally trained and experienced in company secretarial matters. The appointment and removal of the Company Secretary is subject to approval by the Board.

## Induction, Training and Development

The Board values ongoing professional development and recognises that it is important for all Directors to receive regular training to enable them to serve effectively on the Board.

Newly appointed directors are briefed by Management on the Group's business activities, strategy, governance practices and their duties and responsibilities as directors.

Directors who do not have any prior experience as a director of an issuer listed on the SGX are provided training on the roles and responsibilities of a listed issuer in accordance with the Listing Manual. These training costs are borne by the Group.

Directors are encouraged to undergo continual training and professional development during their term of appointment. The training attended by the Directors during FY2025 are as follows:

Training	Michael Mun	Jeremy Mun	Christopher Huang	Jeann Low	Larry Tan	TS Tan
Development of AI Regulations and Cybersecurity- training conducted by Rajah & Tann Technologies Pte Ltd	✓	✓	✓	✓	✓	✓

# Corporate Governance Report

## Skills and Diversity

The Company has adopted a Board diversity policy which recognises that a diverse Board comprising directors with a balance and mix of skills, professional experience, knowledge (particularly across different geographical jurisdictions), educational background, gender, age and length of service will enhance the effectiveness of the Board. In determining the optimum composition and size of the Board and each Board committee relative to the Group's business needs, the Board and NC consider the business acumen, management expertise, engineering and technology expertise, as well as professional experience relating to audit, accounting, finance and legal matters to be key skills and knowledge directors should possess in order to carry out their duties and serve effectively on the Board and Board committees. The current Board is made up of members with diverse backgrounds, skill sets and experience (including extensive and in-depth corporate experience involving listed companies), ranging from accounting, finance, regulatory and legal expertise, industry knowledge to entrepreneurial business skills and experience in regional investment and strategic matters, which, in the Board's opinion, are essential and valuable for decision-making in the best interests of the Group. A breakdown of the knowledge and experience of the existing Directors is set out below based on the key skills identified by the Board and the NC as preferred for the Group's business needs:

Directors' Skills Matrix	
Audit, Accounting and Finance	4 Directors
Legal	1 Director
Executive Leadership	6 Directors
Engineering and technology	4 Directors
Entrepreneurship	6 Directors
Environment, Social and Governance	6 Directors

Directors' Expertise and Experience by Geography	
Singapore	6 Directors
Asia Pacific	6 Directors
United States	4 Directors
Europe	2 Directors

Directors' Length of Service	
Less than 3 years	N.A.
3 to 5 years	1 Director
More than 5 years	5 Directors

The NC is satisfied that the Board and Board Committees currently comprise Directors who as a group provide an appropriate balance and diversity of skills, knowledge, experience, age, gender, and core competencies required for the Board and Board Committees to discharge their responsibilities effectively and ensure that the Group continues to be able to meet the challenges and demands of the markets in which it operates.

The NC will review the Group's board diversity policy annually to ensure its continued effectiveness and will recommend any revisions, if required, to the Board for approval. In relation to gender diversity, the Board recognises gender as a key aspect of diversity and will strive to ensure that female candidates are included for consideration when the NC seeks to identify new Director(s) to be appointed to the Board and that there is appropriate female representation on the Board, acknowledging that the Board's needs may change from time to time depending on the Group's business strategy and the skills, experience and composition of the Board.

# Corporate Governance Report

There is currently one (1) female director on the Board, who is a member of the NC and RC as well as the Chairman of the AC. The Group has achieved its target, as stated in the Group's Annual Report for the financial year ended 31 December 2021 ("FY2021"), of having at least one (1) female director on the Board within a three (3) year timeframe. The Group will work towards achieving the target of having at least 25% of Board seats held by females by 2030, subject to suitable candidates being identified (including through external search firms if required) and recommended by the NC to the Board.

The NC considers the expertise, skills and attributes of the Board and the Board Committees as well as the requirements of the Group in determining if the role of the Lead Independent Director and the Chairman of one or more of the Board Committees are to be rotated every two (2) years. In view of this, the Company announced the following appointments with effect from 1 May 2025:

- Lead Independent Director - Mr Christopher Huang
- Audit Committee Chairman - Ms Jeann Low
- Nominating Committee Chairman - Mr Larry Tan
- Remuneration Committee Chairman - Mr TS Tan

## PRINCIPLE 3- CHAIRMAN AND CHIEF EXECUTIVE OFFICER

Mr Michael Mun presently serves as both the Chief Executive Officer ("**CEO**") of the Company and Executive Chairman ("**Chairman**") of the Board. The combining of the roles of CEO and Chairman enables Mr Michael Mun to draw upon his extensive knowledge, skills and experience in leading and expanding the Group's business.

In compliance with Provision 3.2 of the Code, Mr Michael Mun's roles as CEO and Chairman are clearly defined in the Company's Corporate Governance Code, which has been formally approved by the Board.

As Chairman, Mr Michael Mun is responsible for leading the Board and ensuring its effectiveness, including:

- (a) creating the conditions for overall effectiveness of the Board, the Board Committees and individual directors;
- (b) promoting high standards of corporate governance with the full support of the Directors, the internal Company Secretary and Management;
- (c) approving the agenda for Board meetings and ensuring the allocation of sufficient time for thorough discussion of agenda items;
- (d) promoting an open environment for debates and ensuring that Non-Executive Directors are able to speak freely and contribute effectively;
- (e) encouraging cordial and constructive relations between the Executive Directors and Non-Executive Directors;
- (f) exercising control over the quality, quantity and timeliness of information flow between the Board and Management including ensuring that Directors receive accurate, timely and clear information;
- (g) providing close oversight, guidance, advice and leadership to Management; and
- (h) fostering constructive dialogue and relations between shareholders, the Board and Management at AGMs and other shareholder meetings.

As the CEO, Mr Michael Mun is responsible for:

- (a) running the overall business and operations of the Group within the authority delegated to him by the Board;
- (b) ensuring the implementation of policies and strategies across the Group as set by the Board;

# Corporate Governance Report

- (c) managing the executive and senior management team and reporting to the Board;
- (d) leading the development of senior management within the Group for future director roles; and
- (e) leading the development and execution of long-term strategies, with the goal of increasing shareholder value.

The Board is of the view that there are sufficient safeguards in place to prevent the concentration of power and authority in any one individual and that Mr Michael Mun's accountability and responsibility for each role has not been compromised as the majority of the Board comprises Independent Directors. This ensures an appropriate balance of power, sufficient accountability and independent decision-making on the Board.

Further, as recommended by Provision 3.3 of the Code, a Lead Independent Director has been appointed, which strengthens the independent element of the Board and ensures an appropriate balance of power is maintained on the Board. In addition, the AC, NC and RC comprise only Independent Directors. The Board is of the view that the Independent Directors have demonstrated a high level of commitment to their roles and ensured that there is a good balance of power and authority on the Board.

Given the strong independent element of the Board enabling the Board to exercise independent and objective judgment in relation to the Group's corporate affairs, the Board is of the view that there are adequate safeguards and checks in place to ensure that the process of decision-making by the Board is based on collective decisions by the Directors without any excessive or unrestricted concentration of power or influence residing in any one individual.

In view of the above, the Board believes that despite deviating from Provision 3.1 of the Code, the Company's practices and safeguards are consistent with the intent of Principle 3 of the Code as there exists a clear division of responsibilities between the leadership of the Board and Management and no one individual of the Board has unfettered powers of decision-making.

The NC conducts an annual review of the performance of Mr Michael Mun and his ability to carry out his duties as the Group's Executive Chairman and CEO and makes recommendations to the Board as appropriate.

## Lead Independent Director

Mr Christopher Huang was appointed the Lead Independent Director on 1 May 2025. As the Lead Independent Director, he leads and co-ordinates the activities of the Independent Directors where the Chairman is conflicted. The Lead Independent Director is available to address shareholders who may have concerns in relation to matters which have not been able to be resolved through contact with the Chairman or Management or where such contact is not appropriate.

The Lead Independent Director may be contacted via [corporate@aztech.com](mailto:corporate@aztech.com), as stated in the "Investor Relations" link <https://www.aztechglobal.com/investor-relations/investor-relations-contact.html>.

## PRINCIPLE 4- BOARD MEMBERSHIP

### NC Members

The members of the NC are Mr Larry Tan (Chairman), Mr Christopher Huang, Ms Jeann Low and Mr TS Tan. All members of the NC are Independent Directors.

The key responsibilities of the NC include reviewing the structure, size, composition and independence of the Board and its Board Committees, reviewing the training and professional development programmes for the Directors and ensuring that the new Directors are aware of their duties and obligations, identifying the balance of skills, qualifications, experience and diversity required for the Board to effectively discharge its responsibilities, and developing a process for evaluating the performance of the Board, the Board Committees and the contributions of the Chairman/CEO and each Director. The NC also nominates candidates to meet the needs and requirements of the Group and reviews and makes recommendations to the Board on the succession plans for the Directors, the Board Chairman and Key Management Personnel.

---

# Corporate Governance Report

## Selection, Appointment and Re-appointment of Directors

The NC's responsibilities include making recommendations to the Board in relation to the appointment and re-election of Directors and determining the independence of the Directors. In making these recommendations, the NC reviews and evaluates the skills, knowledge and experience of the Directors on the Board and the needs of the Board, taking into consideration the Group's business strategy and plans, diversity criteria and the contribution and commitment of each Director.

The NC has a formal process for the selection of new Directors, including alternate Directors, to increase transparency of the nomination process in identifying and evaluating nominees for Directors. The NC evaluates the balance of qualifications, skills, knowledge, experience, gender and age of the existing Directors with the requirements of the Group. In light of such evaluation, the NC determines the roles and the key attributes that an incoming Director should have. After endorsement by the Board of the key attributes, the NC goes through a short-listing process. If candidates identified from this process are not suitable, the NC will consult other resources and appoint executive recruitment agencies in the search process.

Regulation 97 of the Company's Constitution provides that at each annual general meeting of the Company, one-third of the Directors for the time being (or, if their number is not a multiple of three (3), the number nearest to but not less than one-third) shall retire from office by rotation. Further, all Directors must submit themselves for re-nomination and re-appointment at least once every three (3) years. In addition, Director(s) appointed by the Board during the financial year shall hold office until the next annual general meeting and thereafter be eligible for re-election at that annual general meeting. Ms Jeann Low Ngiap Jong and Mr TS Tan shall each be retiring pursuant to Regulation 97 of the Constitution, and being eligible, are offering themselves for re-election at the Company's forthcoming annual general meeting on 20 April 2026 ("**2026 AGM**").

The Board has accepted the NC's recommendation to seek shareholders' approval to re-elect each of Ms Jeann Low and Mr TS Tan at the 2026 AGM. In making this recommendation, the NC has considered the respective Director's overall performance and contributions. Each Director had abstained from the NC's assessment of their performance and deliberation on their re-nomination as Directors of the Company.

As required under Rule 720(6) of the Listing Manual, the information relating to Ms Jeann Low and Mr TS Tan, each of whom is standing for re-election as a Director at the 2026 AGM, has been set out in the section titled "Additional Information on Directors Seeking Re-election".

## Independence

The NC reviews the independence of Directors annually, and as and when circumstances require, and presents its recommendations to the Board. Directors are required to disclose any relationships with the Company, its related corporations, its substantial shareholders or its officers which may affect their independence, as and when they arise. In particular, the independent Directors complete an annual independence declaration form which is then reviewed by the NC.

Based on the declarations provided by the Directors and taking into account the guidance in the Code, the Listing Manual and the Practice Guidance, the Board has determined that Mr Christopher Huang, Ms Jeann Low, Mr Larry Tan and Mr TS Tan are independent. Mr Michael Mun and Mr Jeremy Mun are the only non-independent Directors. Each Director abstained from the review and determination of their independence status by the NC and the Board.

## Annual Evaluation of the Board, Board Committees, Chairman/CEO and Directors

The NC evaluates the performance of the Board and Board Committees as a whole, the Chairman/CEO and the contribution of each Director to the effectiveness of the Board, annually.

# Corporate Governance Report

The NC also determines annually whether Directors who hold multiple board representations and other principal commitments are able to, and have been able to, allocate sufficient time and attention to discharging their responsibilities. The table below sets out the tenure of the Directors and the date of their last re-appointment:

Name of Director	Date of appointment	Date of re-appointment
Michael Mun	27 May 2009	11 April 2025
Jeremy Mun	8 August 2017	16 April 2024
Christopher Huang	19 February 2021	16 April 2024
Jeann Low	1 August 2022	28 April 2023
Larry Tan	19 February 2021	11 April 2025
TS Tan	19 February 2021	28 April 2023

The directorships and principal commitments of the Directors at the date of this Annual Report and in the preceding three (3) years are set out in **Appendix A** of this report.

The Company has adopted guidelines which address the competing time commitments which may arise should Directors hold multiple board appointments. These guidelines provide that each Director should not hold more than six (6) directorships in listed companies. In determining whether each Director is able to devote sufficient time to discharging his or her duties as a director of the Company, the NC considers each Director's attendance at meetings, the contributions by him or her during meetings and his or her personal capabilities and any other time commitments.

Having reviewed each Director's attendance and participation at meetings during the year, the NC is of the view that all Directors were able to effectively discharge their duties as Directors of the Company and the Directors who held other board appointments were nevertheless able to effectively discharge their duties as Directors of the Company.

There are no alternate Directors on the Board.

## PRINCIPLE 5- BOARD PERFORMANCE

### Evaluation of the Board, Board Committee and Individual Directors

The Board, with the assistance of the NC, has approved the objective performance criteria and implemented a formal process for the annual assessment of the effectiveness of the Board as a whole and its Board Committees and the contribution by the Chairman and each Director to the effectiveness of the Board.

The Board, with the assistance of the NC, undertakes a process for evaluating the performance and effectiveness of the Board, the Board Committees, the Chairman and each Director. As part of this process, each Director completes evaluation questionnaires in relation to the Board, the Board Committees and the performance of the Directors and the Chairman of the Board, the results of which are consolidated by the Company Secretary and reported to the NC and thereafter, the Board.

The criteria in the Board evaluation questionnaires include Board composition, the Board's understanding of its responsibilities and effectiveness in discharging its responsibilities, the Board's goals, effectiveness of Board meetings and the Board's oversight of how the Group manages its material economic, environmental and social factors. The criteria in the evaluation questionnaires for the Board Committees include the respective Board Committee's understanding of its roles and responsibilities, its effectiveness in discharging its obligations and its independence.

For the evaluation of the Chairman and each Director, the criteria include attendance at meetings, overall participation during meetings, leadership capability and general effectiveness in discharging the role of Chairman/ Director, as applicable.

The abovementioned evaluation criteria are determined by the NC and approved by the Board. The Directors may also provide feedback on any matters which do not fall under any of the categories stated in the evaluation questionnaires and suggest specific areas for improvement.

The Board has not engaged any external facilitator in assessing the Board's performance.

# Corporate Governance Report

The NC is of the view that the Board and the Board Committees operate effectively and the Chairman/CEO and each Director is able to contribute to the overall effectiveness of the Board.

## REMUNERATION MATTERS

### PRINCIPLE 6- PROCEDURES FOR DEVELOPING REMUNERATION POLICIES

#### RC Members and Responsibilities

The members of the RC are Mr TS Tan (Chairman), Mr Christopher Huang, Ms Jeann Low and Mr Larry Tan. All members of the RC are Independent Directors.

The RC meets at least annually and plays a key role in ensuring that the Group is able to attract, recruit, motivate and retain the best talent through competitive remuneration. RC members abstain from decisions regarding their own remuneration.

The main role of the RC is to assist the Board in establishing a remuneration framework for the Board and Key Management Personnel and specific remuneration packages for each Director and each Key Management Personnel. The remuneration framework includes, but is not limited to, Directors' fees, salaries, allowances, bonuses, grant of shares and share options and benefits in kind and sets out the various performance criteria for evaluating the performance of Directors and Key Management Personnel.

Other key responsibilities of the RC include:

- (a) reviewing, annually, the mix of remuneration and benefits, and the remuneration policies and practices of the Company;
- (b) reviewing the performance of Key Management Personnel in accordance with the Company's leadership competencies framework and formulating plans for their continued growth within the Company;
- (c) reviewing the Company's obligations in the event of termination of the service agreements of the Executive Chairman and CEO, Executive Directors and Management to ensure that the termination clauses in these agreements are fair and reasonable and are not overly generous; and
- (d) administering the Group's Employee Share Option Scheme ("**Aztech ESOS**"), Performance Share Plan ("**Aztech PSP**") and Long-Term Retirement Incentive Plan ("**LTRP**") in accordance with their terms and conditions and the Listing Manual rules, and recommends to the Board any modifications, if required.

#### Engagement of Remuneration Consultants

The RC may, as required from time to time, engage external consultants to advise on remuneration matters. In the event that external consultants are engaged, the RC shall ensure that the Company's relationships with these external consultants will not affect the independence and objectivity of these external consultants. The RC has not engaged external remuneration consultants in FY2025.

### PRINCIPLE 7- LEVEL AND MIX OF REMUNERATION

#### Remuneration of Executive Directors and Management

The RC reviews the remuneration of the Executive Directors and Key Management Personnel annually, taking into consideration the prevailing market conditions, and if required, benchmarks the remuneration and employment conditions with those in the industry. The RC seeks to ensure that the remuneration of Executive Directors and Key Management Personnel links rewards with performance and is competitive and appropriate to attract, motivate and retain the best talents to continually grow the Group's business and that the remuneration framework, as approved by the Board, supports the Group's business strategies and long-term growth and enhances shareholder value.

The remuneration framework is tailored to the specific role and circumstances of each Director and Key Management Personnel to ensure an appropriate remuneration level and mix that recognises the responsibilities and performance of these individuals.

# Corporate Governance Report

## Remuneration Policy

For FY2025, the RC has reviewed the remuneration framework and specific remuneration packages for the Board and Management to ensure that a significant proportion of remuneration is linked to performance on an annual and long-term basis, with targets appropriately set for threshold and payment for stretch and exceptional performance levels. The RC has also benchmarked the Company's remuneration packages against those in the industry and evaluated their competitiveness in attracting and retaining highly experienced and talented individuals. Finally, the RC has also ensured that the remuneration packages are commensurate with the experience and responsibilities of the respective Key Management Personnel, are aligned with the interests of both the Key Management Personnel and shareholders and will enable the Company to remain competitive.

The RC will review the remuneration framework and remuneration packages from time to time to ensure their continued competitiveness and relevance amidst changing market conditions. The RC may consider linking sustainability performance to the remuneration of Key Management Personnel.

The Executive Directors' and Management's remuneration shall be subject to review by the Board and the RC annually and adjusted, taking into account, inter alia, their individual contributions, the Group's performance and benchmarking against market rates.

The Executive Directors and Management may, if the RC in its absolute discretion deems fit and approvals are obtained from regulatory authorities where necessary, be entitled to participate in the Aztech ESOS and/or Aztech PSP.

The Executive Directors and Management shall also be entitled to participate in the Company's LTRP, subject to any limits as determined by the Board from time to time.

## Remuneration of Executive Directors and Management

The total remuneration provides an appropriate balance between fixed and performance-related components. The remuneration structure reflects the responsibilities of the Executive Director and Management and their impact on business performance. The average pay mix of Executive Directors and Management consists of approximately 55.19% fixed components and 44.81% variable components.

The service contracts with the Executive Directors have been renewed effective on and from 1 January 2024 for a term of three (3) years. Each service contract contains a clawback of incentive component clause to safeguard the Group's interests in exceptional circumstances of misstatement of financial results or misconduct resulting in financial loss or fraud by the respective Executive Director. Incentive components refers to (1) the amount of, or payment or value received with respect to, the Executive Director's annual incentive awards under the Company's profit pool and any discretionary bonus as may be awarded from time to time; (2) share options and/or awards granted to the Executive Director pursuant to any share option or awards schemes as may be administered by the Company (or any amount attributable to such awards); and (3) any other incentive-based compensation in respect of any Company plan or agreement.

The key remuneration components for Executive Directors and Management are set out below:

Total Remuneration	
<b>A. Fixed Components</b> <ul style="list-style-type: none"> <li>• Base Salary</li> <li>• Benefits &amp; Provident</li> </ul>	<b>B. Performance-related Components</b> <ul style="list-style-type: none"> <li>• Variable Bonuses</li> <li>• Long-term Incentives</li> </ul>

# Corporate Governance Report

## A. Fixed Components

### (i) Base Salary:

The base salary reflects the particular job's market value while taking into account each employee's responsibilities, competencies and experience and is linked to the employee's performance.

### (ii) Benefits and Provident:

Benefits and provident are consistent with local market practices and legislative requirements and are not directly linked to performance. The Company contributes towards the Singapore Central Provident Fund or the Hong Kong Mandatory Provident Fund, as applicable. The benefits provided by the Company include a medical schemes, employee discounts and allowances.

The base salary and fixed allowances for each Key Management Personnel are reviewed annually by the RC and approved by the Board.

## B. Performance-related Components

### (i) Variable bonuses comprise:

Performance Bonuses: bonuses aimed at rewarding achievements of annual targets set for each Key Management Personnel and are paid in cash. The quantum of these bonuses varies according to the achievement of performance targets set for each Key Management Personnel, his or her business unit, and the Group more generally.

Profit Sharing: annual cash awards given to Key Management Personnel and selected employees subject to the Group achieving certain profit after tax targets and are calculated based on the Group's audited consolidated profit after tax for the relevant financial year, which is subject to review from time to time by the RC and requires the approval of the Board. The quantum of these awards varies according to each individual's performance and contribution to the Group for the financial year.

### (ii) Long-term incentives aimed at retaining key talent, cultivating loyalty, contributing to the growth of the Group include:

- Aztech ESOS, which recognises employees and Directors based on Group's performance and profitability. The Aztech ESOS is discussed in further detail on pages 47, 73, 74, 114 and 115;
- Aztech PSP, which provides employees and Directors who have contributed significantly to the growth and performance of the Group an opportunity to participate in the equity of the Company so as to motivate them, cultivate loyalty, encourage higher standards of performance, and recognise their contributions and service to the Group. No shares have been granted pursuant to the Aztech PSP thus far. The Aztech PSP is discussed in further detail on pages 47 and 75; and
- LTRP, which provides certain employees with a one-time cash pay-out when they reach the minimum retirement age prescribed by law and is an integral component of the Company's compensation plan. The LTRP has been in place since the financial year ended 31 December 2019. Further details can be found on pages 73 and 114.

## Remuneration of Independent Directors

The RC reviews the Independent Directors' fees annually and makes recommendations to the Board. The Independent Directors' fees are subject to the approval of the shareholders at the annual general meeting. No RC member is involved in deliberating on and making decisions in respect of any remuneration, compensation or any form of benefits to be granted to themselves.

# Corporate Governance Report

## PRINCIPLE 8- DISCLOSURE ON REMUNERATION

The Company's disclosure on remuneration has been made in compliance with Provision 8.1 and the intent of Principle 8 of the Code.

### Directors' Fees

The fees for each Director reflect their contributions, experience, qualifications, responsibilities and time commitments.

#### Structure of Directors' Fees - FY2025

	Fee for FY2025	Executive Director	Executive Director	Independent Director 1	Independent Director 2	Independent Director 3	Independent Director 4

# Corporate Governance Report

Save as disclosed, there were no employees who were immediate family members of a Director or the CEO or a Substantial Shareholder of the Company and whose remuneration exceeded \$100,000.00 during FY2025.

The RC reviews the remuneration of employees who are related to the Group's Directors, CEO or Substantial Shareholders annually to ensure that their remuneration packages are in line with the Group's remuneration guidelines and are commensurate with their respective job scopes and responsibilities. The RC also reviews and approves any bonuses, pay increments and/or promotions for these related employees. Any new employment of related employees and the proposed terms of their employment will be subject to the review and approval of the NC. Any member of the RC or NC who is related to the employee whose remuneration or terms of employment are under review shall abstain from the review.

## Disclosure of Other Benefits

### Aztech ESOS

On 13 December 2021, pursuant to the Aztech ESOS, selected employees were granted an aggregate of 2,110,000 options to subscribe for a specified number of Ordinary Shares in the Company at the price of \$0.934 per Share.

On 29 September 2023, pursuant to the Aztech ESOS, selected employees were granted an aggregate of 2,250,000 options to subscribe for a specified number of Ordinary Shares in the Company at the price of \$0.806 per Share.

On 29 September 2025, pursuant to the Aztech ESOS, selected employees were granted an aggregate of 2,960,000 options to subscribe for a specified number of Ordinary Shares in the Company at the price of \$0.681 per Share.

The exercise prices of the options were determined at the average of the closing prices of the Company's ordinary shares as quoted on the SGX-ST for five (5) market days immediately preceding the date of the grant. No options were granted at a discount to the prevailing market price of the shares. 50% of the options shall vest at the end of one (1) year from the date of grant and the remaining options shall vest at the end of two (2) years from the date of grant. Once vested, the options are exercisable for a period of 10 years from the date of grant. The options may be exercised in full or in part in respect of 1,000 ordinary shares or a multiple thereof, on payment of the exercise price. Since the adoption of the Aztech ESOS, no options have been granted to a Director or a controlling shareholder of the Company or its associates.

As at 31 December 2025, the total number of options remaining unexercised are as follows:

- (a) 1,690,000 options as granted on 13 December 2021;
- (b) 1,850,000 options as granted on 29 September 2023; and
- (c) 2,960,000 options as granted on 29 September 2025.

Save as disclosed above, no options under the Aztech ESOS were granted to Directors, controlling shareholders or their associates. The details of Participants (other than Directors or controlling shareholders or their associates) who received 5% or more of the total number of options available under the Aztech ESOS are set out on page 74 of the Annual Report. There is no parent company of the Company. Hence, the requirement in the Listing Manual to disclose whether Options were granted to directors and employees of the Company's parent company and its subsidiaries is not applicable. No options were granted at a discount during the financial year under review.

### Aztech PSP

The Company has implemented the Aztech PSP, which was approved and adopted by the shareholders at an Extraordinary General Meeting of the Company held on 18 February 2021. No shares have been granted pursuant to the Aztech PSP since its adoption.

## ACCOUNTABILITY AND AUDIT

### PRINCIPLE 9- RISK MANAGEMENT AND INTERNAL CONTROLS

#### Risk Management

The Board has overall responsibility for the governance of risk.

The Board, through the AC, regularly reviews the effectiveness of the Group's risk management framework for the identification, assessment, monitoring and reporting of significant risks.

At the Management level, the Chief Financial Officer (“**CFO**”)/Financial Controller (“**FC**”) is responsible for directing and monitoring the development, implementation and practice of enterprise risk management (“**ERM**”) across the Group and reports to the Board.

The Group has engaged CLA Global TS Risk Advisory Pte. Ltd. (“**CLA Global TS**”) to provide ERM services, including (i) assessing risk parameters and assisting Management with setting the Group's risk appetite and tolerance level, and (ii) assisting Management with identifying risks and compiling a risk register setting out a risk analysis, significance of risks, the key strategic, financial, operational and compliance risks, risk response and relevant mitigation strategies in place.

Details of the Group's ERM framework, key risks and mitigation measures are set out on pages 66 to 70 of the Annual Report.

#### Risk Management Framework

##### 1. Identifying, Assessing and Managing Risks

The business and corporate executive heads have the primary responsibility for regularly identifying and evaluating risks and material EESG factors and formulating risk mitigation strategies.

##### 2. Evaluating Risk Management Strategies

The business and corporate executive heads regularly review the effectiveness of the risk mitigation strategies adopted.

##### 3. Reviewing the Risk Management Framework and any breaches

As part of the ERM framework, Management undertakes a Group-wide risk assessment annually to identify material risks and the appropriate mitigating measures.

The Group's internal audit function also prepares an audit plan annually, taking into consideration risks identified and assessed in the risk management framework. This risk-based audit plan is approved by the AC and audits are conducted to assess the adequacy and effectiveness of the Group's system of internal controls in addressing financial, operational, information technology and compliance risks. In addition, material control weaknesses over financial reporting, if any, are highlighted by the external auditors in the course of the statutory audit.

All audit findings and recommendations made by the internal and external auditors are reported to the AC and significant findings are discussed at the AC meetings. The Group's internal audit function follows up on all recommendations to ensure timely remediation of audit issues and reports the status to the AC every half-yearly. Any material non-compliance or lapses in internal controls, including any remedial measures recommended for addressing the risks identified, are reported to the AC.

##### 4. Risk Reporting

The AC reviews and reports to the Board, at least annually, the risk profile of the Group, the effectiveness and adequacy of its internal control and risk management procedures in addressing financial, operational, information technology and compliance risks, and discusses any issues and concerns which may arise from the internal audits.

---

# Corporate Governance Report

The Group's risk management framework is continually reviewed to ensure that the Group's risk governance approach and practices remain relevant and effective and are in line with the applicable corporate governance requirements. In addition to implementing a risk management framework, the Group also seeks to inculcate amongst its employees a strong risk awareness and a proactive approach towards mitigating risks. Employees are informed about likely risks, the measures in place for addressing them and avenues for escalating matters where necessary through training sessions and regular communication by the Management.

## Assurance Regarding Financial Records and Risk Management Systems

The Board has received assurance from the Group CEO and FC that (i) the Group's financial records have been properly maintained and the financial statements give a true and fair view of the operations and finances and assurance; and (ii) the Group's risk management and internal control systems are adequate and effective in addressing the material risks for the Group in its current business environment including material financial, operation, information technology and compliance risks.

Based on the ERM framework implemented by the Group, the assurances from the CEO and FC as well as the reviews undertaken by the internal auditors and external auditors, the Board, with the AC in concurrence, is of the view that the Group's risk management systems and internal controls, including operational, financial, information technology and compliance controls, are adequate and effective in mitigating the operational, financial, information technology and compliance risks which may adversely affect the Group's operations. However, the Board also notes that no risk management system and internal controls can provide absolute assurance against the Group being adversely affected by such risks or against human error, fraud or other irregularities.

## PRINCIPLE 10- AUDIT COMMITTEE

### AC Members

The members of the AC are Ms Jeann Low (Chairman), Mr Christopher Huang, Mr Larry Tan and Mr TS Tan. All members of the AC are Independent Directors.

The Board is of the view that the members and Chairman of the AC are suitably qualified given their relevant accounting and financial management expertise or experience and that their wealth of relevant experience enables them to discharge their responsibilities effectively. The AC does not comprise former partners or directors of the Group's existing External Auditors:

(a) within a period of two (2) years commencing on the date of their ceasing to be a partner of the auditing firm or director of the auditing corporation; and in any case, (b) for as long as they have any financial interest in the auditing firm or auditing corporation.

The AC is responsible for assisting the Board with maintaining high standards of corporate governance, compliance, risk management, internal controls and financial and accounting matters.

The key responsibilities of the AC include reviewing the significant financial reporting issues and judgements so as to ensure the integrity of the financial statements of the Group and any announcements relating to the Group's financial performance, assisting the Board with discharging its responsibilities relating to internal controls, compliance, risk management and financial and accounting matters, facilitating co-ordination between the external and internal auditors and Management, evaluating the independence and objectivity of the internal and external auditors and making recommendations to the Board on their appointment or re-appointment as well as terms of engagement. The AC also reviews any actual or potential conflicts of interest as well as the procedures by which employees may, in confidence, raise concerns about possible improprieties in matters of financial reporting or other matters and ensures that appropriate arrangements are in place for such concerns raised to be properly and independently investigated.

To discharge its responsibilities and duties, the AC has full access to, and the co-operation of, Management. The AC also has full discretion to invite any Director or executive officer to attend its meetings and has been given adequate resources to discharge its functions.

The AC met six (6) times during FY2025. The AC also met with the internal auditors and external auditors, each separately, and without the presence of Management, during FY2025.

---

# Corporate Governance Report

## Internal Audit

The AC is responsible for the appointment, termination and remuneration of the internal audit function.

The internal audit function, which reports directly to the AC, assists Management with assessing the adequacy of the Group's internal control systems and procedures, conducting regular internal audits on the Group's business operations, operational compliance and financial risks, and identifying and recommending improvements to internal control systems.

The internal audit function also reports to the AC on any material non-compliances or lapses in internal controls and the measures taken to address them. The AC subsequently reviews the actions taken by Management in response to the internal auditor's recommendations.

CLA Global TS, an accounting and consulting firm staffed with suitably qualified professionals with extensive relevant experience, has been engaged to undertake the internal audit of the Group. The AC is of the view that outsourcing the Company's internal audit function enhances the independence and quality of the audit. The Group also has an internal operations auditor who is responsible for the internal audit function at the plant operations level and is stationed at the Group's plant in China.

The AC reviews the independence, adequacy and effectiveness of the internal audit function yearly. The AC is satisfied that the internal audit function is independent, effective, adequately resourced to perform its functions and has unfettered access to all company documents, records, properties and personnel, including the AC.

## Whistle-blowing Policy

The Group has implemented a whistle-blowing policy which sets out the mechanism for reporting suspected wrongdoing or misconduct and how the Group addresses any reports received. The whistle-blowing policy is communicated to all employees.

All employees are responsible for reporting any suspected wrongdoing. Upon receipt of any such reports, the Head of Legal or the AC Chairman shall, in consultation with the other AC members, arrange a meeting with the employee as soon as possible to discuss the concerns, exercise discretion on how to proceed with the investigation, and thereafter recommend any remedial or legal action to be taken, where necessary.

All whistle-blowing matters are reviewed by the AC periodically to ensure compliance with the Listing Rules. Matters requiring immediate or urgent attention are reported immediately to the AC Chairman.

The Group is committed to ensuring that all employees who have reported incidents in good faith are protected against any form of detrimental or unfair treatment. All incidents reported to the Group are treated as confidential to protect the identity of the whistle-blowers. The whistle-blowing policy makes provision for whistle-blowers to report matters anonymously.

There were no reported whistle-blowing incidents in FY2025.

## External Auditors

The AC has full access to the External Auditors, BDO LLP, and Internal Auditors and meets them, without the presence of Management, at least annually.

The AC makes recommendations on the appointment and re-appointment of the External Auditors and reviews the independence and performance of the External Auditors annually. During FY2025, the AC reviewed the adequacy, effectiveness, scope and results of the audit by BDO LLP. In assessing the independence of BDO LLP, the AC reviewed the aggregate fees paid to BDO LLP, including the fees paid for all non-audit services during the year.

Pursuant to the Institute of Singapore Chartered Accountants Implementation Guidance EP 100 IG 5 in relation to the Code of Professional Conduct and Ethics, companies intending to engage audit firms to provide non-assurance services are required to obtain the concurrence of those charged with governance, being the AC in this instance, that any engagements of audit firms to provide non-assurance services will not impact upon the independence of the audit firm, prior to proceeding with any such engagement.

# Corporate Governance Report

The AC is of the opinion that BDO LLP's independence and objectivity has not been compromised and BDO LLP was able to meet the applicable audit requirements and statutory obligations of the Group. The AC is also satisfied with the aggregate audit fees paid to BDO LLP.

The AC has considered, and is satisfied, that the resources and experience of BDO LLP, the audit partner-in-charge and the team assigned to the audit of the Group, taking into account the firm's other audit engagements, the size and complexity of the Group, and the number of supervisory and professional staff assigned to the audit, are adequate for BDO LLP to meet their audit obligations.

The AC has recommended the re-appointment of BDO LLP at the 2026 AGM.

The Group has complied with rules 712 and 715 of the Listing Manual which, respectively, require that a suitable auditing firm be appointed by the Company, taking into consideration the factors set out in the said rule, and that the same firm auditing the Group also audits the Group's Singapore-incorporated subsidiaries and a suitable auditing firm be engaged for the Group's significant foreign incorporated subsidiaries.

The total fees paid to the External Auditors for FY2025 and a breakdown of the fees paid in total for audit and non-audit services respectively are stated below:

<b>External Auditor Fees for FY2025</b>	<b>\$'000</b>
Audit fee paid/payable	
- Statutory Audit	
- auditors of the Company	134
- other auditors - other network firms	140

- other auditors - other network firms	39
<b>Total Fees Paid</b>	<b>343</b>

## SHAREHOLDER RIGHTS AND ENGAGEMENT

### PRINCIPLE 11- SHAREHOLDER RIGHTS AND CONDUCT OF GENERAL MEETINGS

### PRINCIPLE 12- ENGAGEMENT WITH SHAREHOLDERS

#### Communication with Shareholders

The Group is committed to strengthening its relationship with the investing community and ensures it makes timely and accurate disclosure of material information to the SGX-ST, its shareholders, analysts and the public. The Company announces its financial results and updates on the Company and its business operations on both its corporate website at <https://www.aztechglobal.com> and SGXNET.

The Company does not practice selective disclosure. In the event of any inadvertent disclosure to a select group, the Company shall make the same disclosure publicly as soon as practicable. All price-sensitive information is released publicly prior to the Company's meetings with investors or analysts.

# Corporate Governance Report

## Shareholder Meetings

The Company encourages active shareholders' participation at general meetings. Shareholders are informed of meetings and the voting procedures through notices published on SGXNET. Shareholders are provided opportunities to participate effectively and vote for resolutions to be passed at these meetings and are informed of the rules and voting procedures which govern these meetings.

There are separate resolutions for each substantially separate issue at the Company's general meeting. In the event any resolutions are bundled as they are interdependent and linked so as to form one significant proposal, the Company will provide the reasons and explain the material implications in its notice of the general meeting.

The Directors and Management attend the Company's general meetings to address shareholders' queries about the Company. The Company's external auditors are also in attendance to address shareholders' queries regarding the conduct of the audit, the auditor's reports and any other related queries. The minutes of the general meetings disclose the names of the Directors and external auditors who attended these meetings, the details of these meetings, the questions raised by shareholders and the responses provided by the Board/Management. The minutes are published on the Company's website and SGXNET.

The Company's 2025 Annual General Meeting ("**2025 AGM**") was held in a wholly physical format. The CEO/Chairman of the Board of Directors attended the 2025 AGM. The Company's shareholders participated in the 2025 AGM by attending the physical meeting, submitting questions prior to or during the meeting, and/or appointing a proxy to attend and vote on their behalf at the meeting. The Company responded to questions received from shareholders at the 2025 AGM and published its responses to these questions, together with the Minutes of the 2025 AGM, on its website and SGXNET.

The forthcoming AGM will be held, in a wholly physical format, at Suntec Singapore Convention & Exhibition Centre, MR 300-301 (Level 3), 1 Raffles Boulevard, Suntec City, Singapore 039593, on 20 April 2026 ("**2026 AGM**"). There will not be an option for shareholders to participate virtually. The Company will upload the answers to substantial and relevant queries received by 10.00 a.m. on 9 April 2026 on the Company's website at <https://www.aztechglobal.com/agm/index.html> and SGXNET by 10.00 a.m. on 15 April 2026. Questions received after the deadline will be addressed at the 2026 AGM.

The Company's Constitution provides for each shareholder to appoint up to two (2) proxies to attend and vote on his or her behalf at the Company's general meetings. Shareholders who are relevant intermediaries are allowed to appoint more than two (2) proxies to attend and vote at the Company's general meetings.

Subject to the Company's Constitution and relevant statutes, the Directors may at their sole discretion approve and implement measures allowing shareholders to vote in absentia, including but not limited to voting by mail, electronic mail or facsimile.

## Dividend Policy

The Company does not have a fixed dividend policy at present. The Directors may, at their discretion and upon consideration of factors including, but not limited to, the level of the Company's cash and reserves, the Group's actual and projected financial performance, the projected levels of capital expenditure, working capital requirements and investment plans, financial, regulatory or general economic conditions, recommend the declaration and payment of dividends.

The Company pays all its interim and final dividends in an equitable and timely manner. All shareholders are treated equally and dividends are paid within 30 days after being (i) declared (for interim dividends) or (ii) approved by shareholders at general meetings (for final dividends).

The Board has recommended a final ordinary dividend of \$0.03 per ordinary share and a special dividend of \$0.08 per ordinary share for FY2025. If the recommended dividends are approved by the shareholders at the 2026 AGM, together with the interim dividend of \$0.01 per ordinary share paid in FY2025, the total dividend payout ratio for FY 2025 will be 230.6% of the Group's net profit after tax ("**NPAT**"). The Directors intend to recommend dividends of at least 30.0% of the Group's NPAT generated in FY2026, as the Group wishes to reward its shareholders for participating in its growth.

# Corporate Governance Report

The Company announced its adoption of the Aztech Scrip Dividend Scheme on 30 March 2021. If applied, this scheme will provide eligible shareholders with the opportunity to elect to receive the dividend in the form of new ordinary shares in the Company credited as fully paid, instead of cash. For the avoidance of doubt, the Scrip Dividend Scheme is not applicable to the final one-tier tax exempt dividend of \$0.03 per ordinary share for FY2025, as proposed in Ordinary Resolution 2, or the special dividend of \$0.08 per ordinary share for FY2025, as proposed in Ordinary Resolution 3.

## Investor Relations

The Company's dedicated Investor Relations ("IR") team, headed by the Company Secretary and supported by an Investor Relations Manager, engages in regular dialogue with analysts and investors. The IR team is guided by the Company's investor relations policy, which sets out the principles and practices the Company has adopted to enhance its engagement with shareholders and prospective investors.

The Company's corporate website features a dedicated "Investor Relations" link <https://www.aztechglobal.com/investor-relations/index.html>, which contains the Company's latest and past financial results, annual reports, updates on the Company and its business operations, as well as the contact details of the Company's Investor Relations Manager and the Lead Independent Director.

## MANAGING STAKEHOLDERS RELATIONSHIPS

### PRINCIPLE 13- ENGAGEMENT WITH STAKEHOLDERS

The Group strives to build strong relationships with its material stakeholders, such as shareholders, customers and investors, and has arrangements in place to identify, engage with, and manage its relationship with its material stakeholder groups. The Group also strives to ensure an appropriate balance between the interests of the Group's material stakeholders and other stakeholders including creditors and regulators.

The Group maintains a corporate website, <https://www.aztechglobal.com>, through which stakeholders may access information about the Group and its business activities as well as any updates by the Group.

The Group also engages with its key stakeholder groups to gather feedback on issues relevant to its business operations, its people and the environment. The Management and the Board thereafter consider such feedback when identifying material EESG topics and developing the Group's business strategy. The Group's financial performance and environment, social and governance metrics are summarised on pages 5, 29 and 30 of this Annual Report. The Group's approach, policies and practices relating to material environment, social and governance topics can be found in the Group's Sustainability Report, which is available on the Group's corporate website <https://www.aztechglobal.com/sustainability/index.html> and on SGXNET.

### INTERESTED PERSON TRANSACTION ("IPT")

Chapter 9 of the Listing Manual defines an IPT as a transaction between an entity at risk (the listed company, its subsidiaries or associated companies) and an interested person (director, chief executive officer or controlling shareholder or any of their associate(s)).

In the light of the provisions of the Listing Manual, the Company has established the following procedures to ensure that all IPTs are reported to the AC in a timely manner and that these transactions are conducted on an arm's length basis and are not prejudicial to the interests of the Company or its minority shareholders.

1. All proposed significant IPTs are reviewed by the finance team and the AC.
2. The finance team prepares the list of IPTs every quarter and submits the list to the Company's CFO/FC for review.
3. The CFO/FC will report to the AC on all IPTs quarterly.
4. The AC reviews all IPTs to ensure compliance with Chapter 9 of the Listing Manual.

There is currently no shareholders' mandate for interested person transactions pursuant to Rule 920 of the Listing Manual.

# Corporate Governance Report

The IPTs during FY2025 are as follows:

Name of interested person	Nature of relationship	Nature of the transaction	Aggregate value of all IPTs during the financial year under review
AVS Printing Pte Ltd. ("AVS Printing")	An associate of Mr. Michael Mun, being a wholly owned subsidiary of AVS Electronics Pte Ltd., which Mr. Michael Mun, together with his immediate family, have a shareholding interest of approximately 95.59% in aggregate.	Rental billed from Aztech Global Ltd to AVS Printing	\$70,204
		Sale of packaging material to AVS Printing	\$7,218
		Printing services provided by AVS Printing	\$336
Total			\$77,758

The aggregate value of all transactions entered into with AVS Printing during FY2025 does not amount to 3% or more of the Group's latest audited net tangible assets. The Company does not have an existing shareholders' mandate pursuant to Rule 920.

## MATERIAL CONTRACTS

Save as disclosed on SGXNET or herein, there were no material contracts entered into by the Group involving the interests of Directors, CEO or shareholders either still subsisting at the end of FY2025 or if not then subsisting, entered into since the end of the previous financial year.

## DEALINGS IN SECURITIES

The Company has adopted a Best Practice Code ("BPC") relating to dealings in securities by its officers, defined in the BPC to mean Directors, the Company Secretary and staff employed in an executive capacity by the Group ("Officers"). The BPC has been drafted in line with the best practices outlined in Rule 1207(19) of the Listing Manual. All Officers have been provided a copy of the BPC and are required to acknowledge receipt of the BPC and confirm their compliance with the BPC annually. They may approach the Company Secretary if they require clarification on the requirements of the BPC.

The BPC provides that Officers are only permitted to deal in the Company's securities in the "window period", which is closed at least two (2) weeks before the announcement of the Company's financial statements for each of the first three (3) quarters of its financial year and at least one (1) month for the half year or financial year results and ending on the date of announcement of the relevant results. All Officers are required to disclose their dealings in the Company's securities to the Company within two (2) business days.

The BPC also prohibits the Officers from dealing in the Company's securities on short-term considerations when they are in possession of unpublished price sensitive information. The Officers are required to abide by the insider trading provisions under the Securities and Futures Act 2001 of Singapore and any other relevant laws in the course of their securities transactions.

All Officers have confirmed that they have complied with the BPC in FY2025.

## ADDITIONAL MEASURES TO ENHANCE CORPORATE GOVERNANCE

The Company has also adopted additional measures to enhance corporate governance as follows:

### A. Code of Business Conduct and Ethics

The Group has adopted a Code of Business Conduct and Ethics with the key objective of providing clear guidelines on ethics and relationships in order to safeguard the reputation and interests of the Company and its stakeholders. This code sets out the policies and procedures for dealing with various issues such as conflicts of interests, dealings with government officials, the maintenance of records and reports, equal employment opportunities and sexual harassment.

The CEO, Key Management Personnel, heads of departments, managers, all procurement, purchasing and logistics employees across all the Group's office locations as well as employees who are related to the CEO, a director or a substantial shareholder of the Group are required to confirm their compliance with the Code of Business Conduct and Ethics annually. These individuals have confirmed their compliance with the Code of Business Conduct and Ethics for FY2025.

### B. Anti-Bribery and Anti-Corruption Policy

This Group has also adopted an Anti-Bribery and Anti-Corruption Policy which sets out the Group's zero-tolerance stance against bribery and corruption and the framework for how the Group manages the detection, reporting and prevention of instances of bribery and corruption which may arise.

The CEO, Key Management Personnel, heads of departments, managers, all procurement, purchasing and logistics employees across all the Group's office locations as well as employees who are related to the CEO, a director or a substantial shareholder of the Group are required to confirm their compliance with the Anti-Bribery and Anti-Corruption Policy annually. These individuals have confirmed their compliance with the Anti-Bribery and Anti-Corruption Policy for FY2025.

### C. Conflict of Interest Policy

The Group's Conflict of Interest Policy sets out the Group's approach towards conflicts of interest and the Group's expectations of employees to act at all times with impartiality, independence and integrity and to refrain from engaging in any deals, on behalf of the Group, with any entity in relation to which the employee has any interest. All senior management level employees, heads of departments, managers in the procurement and purchasing departments and employees who are related to the CEO, a director, or a substantial shareholder of the Group are required to complete an annual conflict of interest declaration. These individuals have completed their conflict of interest declaration for FY2025.

### D. Induction and Training

All new employees are introduced to the Anti-Bribery and Anti-Corruption Policy and the Code of Business Conduct and Ethics as part of their induction. All full time employees, save for production personnel, will receive regular training on compliance with the Code of Business Conduct and Ethics, the Anti-Bribery and Anti-Corruption Policy, both of which are published on the Group's website <https://www.aztechglobal.com/sustainability/policies.html>.

# Corporate Governance Report

## SUSTAINABILITY MATTERS

The Group's Sustainability Committee comprises the Group's Sustainability Manager and three (3) Key Management Personnel, namely, Mr Jeremy Mun, Ms Pavani Nagarajah and Ms Annie Qian.

The Sustainability Committee is responsible for establishing sustainable and responsible principles and practices within the Group and overseeing the Group's sustainability strategy as approved by the Board, policies, targets, initiatives and programs to ensure the Group's ongoing compliance with laws and regulations relating to environmental, social, health, safety and sustainability matters. The Sustainability Committee also provides updates to the Board, at least annually, on the Group's sustainability strategy and commitments, risk factors and progress in achieving the Group's sustainability targets. The Group plans to link sustainability targets and performance to the Group's remuneration framework so as to further align the Executive Directors' and Key Management Personnel's incentives with the Group's broader sustainability goals. The annual Sustainability Report is reviewed and approved by the Board.

The Directors completed the LED-Environmental, Social and Governance Essentials (Core) training organised by the Singapore Institute of Directors in 2022.

# Risk Management

The Group's risk management framework aims to provide reasonable assurance on the achievement of business objectives by embedding controls within day-to-day operations to enhance performance, protect assets, support compliance with applicable laws and regulations, and uphold the reliability of financial reporting and related disclosures. Within this framework, Management is accountable for identifying material risks, designing and executing mitigating actions, and periodically reassessing and refining processes in line with changes in the operating environment and the Group's activities.

The Group manages risks while appreciating that uncertainty cannot be eliminated. The Group seeks to deliver sustainable, profitable growth and long-term shareholder value while taking risks that are proportionate and within its tolerance.

The Group's approach to risk management involves (i) identifying risks, (ii) evaluating and ranking risks, (iii) defining appropriate responses and controls and (iv) communicating, executing and tracking such responses and controls. Management periodically tests the design and operating effectiveness of the procedures and updates them as required in line with changes in market conditions and business activities. These periodic tests and reviews of mitigation plans enable the Group to identify any residual exposures and implement corrective action in a timely manner. In developing its risk management approach, the Group draws on the Committee of Sponsoring Organisations of the Treadway Commission ("**COSO**") Enterprise Risk Management ("**ERM**") framework and evaluates each risk based on its probability and potential consequences.

# Risk Management

## **Strategic Risk**

Strategic risk arises when the Group's strategies, business plans or key decisions do not deliver the intended outcomes or become misaligned with market realities. Management regularly evaluates the Group's strategic direction to ensure it remains appropriate and competitive in the markets in which the Group operates.

### ***Customer concentration risk***

A meaningful share of the Group's revenue is generated from certain key customers. The continuity of these relationships cannot be assured. If these key customers materially reduce order volumes or cease purchasing from the Group and replacement business is not secured on a timely basis, the Group's operations, financial condition and cash flows may be adversely affected.

The Group addresses this exposure by diversifying its revenue base through coordinated commercial initiatives. Account managers engage existing customers to strengthen engagement and increase share of wallet, while the business development function targets new accounts and channels. The sales team also works with internal stakeholders to run marketing campaigns and participates in industry exhibitions to build visibility and generate new leads. In 2025, the Group onboarded 10 new customers.

### ***Competition and trade policy risk***

With its principal operations and major customers in Singapore, Malaysia, Hong Kong, PRC, the USA and Europe, the Group is exposed to competitive pressures, including technology disruption (such as the adoption of artificial intelligence), and external developments that may be beyond its control. These include changes in trade policies (including the imposition of tariffs), export controls and other cross-border restrictions, which may increase input costs, disrupt sourcing and logistics flows, and affect the timeliness and availability of supplies. Such developments may adversely affect the Group's operating performance, financial position and prospects.

Management monitors geopolitical, political and macroeconomic developments, regulatory changes and security considerations across its key markets. Scenario analysis is performed to assess potential trade-policy outcomes and their impacts on demand, costs and supply chain continuity. The Group also engages suppliers and logistics partners to improve visibility over lead times and delivery schedules and participates in relevant external briefings to stay informed of emerging risks and trends.

To mitigate the above risks, the Group is also undertaking a multi-year digital transformation roadmap, including harmonising the manufacturing execution system ("MES"), electronic data interchange ("EDI") and enterprise resource planning ("ERP") platforms across Singapore and its regional manufacturing hubs. These initiatives are intended to strengthen operational processes, improve data availability and analytics, and support management's strategic decision-making, including in relation to external developments affecting the Group's operations and supply chain. Where appropriate, the Group evaluates the use of automation and artificial intelligence-enabled analytics to enhance forecasting and scenario analysis, subject to applicable governance and data security controls.

### ***Geopolitical risk***

The Group may face heightened risk exposure stemming from the rising tensions in the Middle East, with the primary transmission channels being higher energy costs, rising logistics and insurance expenses, and potential disruptions across critical supply routes. A sustained increase in oil prices could elevate input and transportation costs, while the rerouting of vessels away from affected waterways may tighten global shipping capacity and drive up freight rates and lead times. These dynamics may cause component shortages and delivery delays, worsening supply-base inflation. Collectively, they may raise production costs, limit operational flexibility, and compress margins if cost pass-through and mitigation efforts fall short.

## **Financial Risk**

The Group mitigates potential losses from financial risks through an internal control environment that is designed to protect assets and promote sound financial stewardship and is reviewed periodically. The Group's policies set out the key processes, approval thresholds and delegated authority limits. Decision rights are cascaded through the organisational structure from the Board to the CEO and Heads of Departments, with Board approval required for expenditures above the highest delegated limit.

# Risk Management

## ***Foreign exchange risk***

Operating in multiple countries exposes the Group to currency volatility because receipts and payments are mainly denominated in USD, SGD, MYR and RMB. Revenue is largely billed in USD, whereas procurement and operating costs are incurred across USD, SGD, MYR and RMB. Exchange rates may fluctuate due to changes in economic fundamentals, political developments, government actions and market liquidity. These fluctuations may create mismatches in the timing of cash inflows and outflows and lead to foreign exchange gains or losses that affect reported performance. The Group's foreign exchange policy outlines its hedging principles. Management also monitors currency developments and maintains rolling cash flow forecasts to plan the Group's foreign currency requirements.

## **Operational Risk**

Operational risk refers to losses that may arise from deficiencies or breakdowns in internal processes, people or systems, as well as from external incidents, including human error, system outages and fraud. To manage such risk, the Group maintains operating manuals, standard operating procedures, delegated authority guidelines and a structured reporting framework aimed at reducing disruption to critical business activities.

## ***Production risk***

Manufacturing operations may be affected by production-related uncertainties and disruptions, which may include:

- (i) upstream supply interruptions, including shortages of raw materials, delivery delays or supplier performance issues, which may slow production and affect customer service levels;
- (ii) unplanned equipment stoppages, machinery failures and process variances that may result in defects or rework; and
- (iii) forecasting and planning inaccuracies that could lead to excess stock, stockouts, over-or under-utilisation of capacity and related financial impacts.

To manage production risk, the Group undertakes structured production planning and capacity reviews, supported by periodic analytics, to align output with customer demand. Cross-functional coordination through regular meetings with internal teams and customers facilitates on-time delivery. The Group also works closely with suppliers to improve visibility and responsiveness and, where feasible, sources commodities and packaging materials locally to reduce lead times, limit disruption exposure and support working capital efficiency.

## ***Key management personnel (“KMP”)/succession planning risk***

The Group's execution capability is influenced by the continuity of its KMP and Executive Directors, particularly the Group's founder and CEO, Mr Michael Mun, and the COO, Mr Jeremy Mun. Their experience and sector knowledge contribute significantly to the Group's direction and day-to-day management and may not be readily replicated. The Group also depends on experienced leaders and skilled employees across its operations, research and development, engineering, sales and corporate functions. If the KMP depart without an effective transition or timely replacement, or if the Group is unable to attract and retain suitably qualified talent, business performance could be adversely impacted.

The Nominating Committee advises on Board and senior leadership succession, including recommending appointments and reviewing succession plans for Directors, the Board Chairman and KMP. The Remuneration Committee supports talent attraction and retention through market-aligned remuneration packages, which may comprise directors' fees, base salaries, variable incentives, share-based awards and benefits. The Group's succession planning is reinforced through structured development initiatives such as defined career pathways, annual performance assessments and ongoing mentoring and coaching.

# Risk Management

## ***Health and safety risk***

Health and safety risk, within the context of occupational safety and health (“**OSH**”), refers to the possibility of injury or adverse health outcomes resulting from workplace hazards. As the Group introduces new products, categories and services in a fast-changing industry, certain innovations may emerge ahead of fully developed legal or regulatory guidance. The Group may therefore be subject to new, evolving or unforeseen requirements covering areas such as workplace health and safety, hazardous substances, product energy consumption, packaging, manufacturing practices, sustainability-related obligations, recycling and environmental considerations. In addition, new or insufficiently tested products may present latent risks to consumers, which could give rise to complaints, claims or litigation. If any such events occur, the Group’s operations and financial performance may be materially and adversely affected.

The Group’s Malaysia manufacturing facility and Singapore office maintain ISO 45001 certification, demonstrating our commitment to robust OSH management systems. Our offices in Shenzhen, PRC, and Hong Kong, as well as our manufacturing facility in Dongguan, PRC, are progressively aligning their OSH practices with ISO 45001 requirements. Key measures implemented across the Group include appointing an OSH officer at each operating site, providing first-aid training, conducting fire drills at least twice a year at each location, and performing periodic safety equipment checks.

## ***Cybersecurity risk***

The Group’s operations, in particular, its IoT devices and data-communication products activities, are dependent on stable and secure information technology. The Group faces exposure to cyber threats, privacy incidents and other risks associated with network integrity and system availability. The threat landscape continues to evolve in both scale and sophistication. Malicious software (including viruses, malware, ransomware, worms and trojans) may infiltrate systems or products, compromise data confidentiality or integrity, or disrupt business activities. If malicious code is propagated through the Group’s technology, the Group may also be exposed to customer claims, regulatory scrutiny and penalties, and reputational damage arising from reduced confidence in product security and reliability. Any material interruption to IT systems, whether due to cyber-attacks or other causes, could adversely affect the Group’s results, financial position and prospects. Enterprise data across the Group is managed through our technology subsidiary, which operates under strict ISO 27001-certified security controls.

The Group has implemented various controls, including a Bring-Your-Own-Device (“**BYOD**”) policy, endpoint protection measures, and annual penetration testing to validate application security. The Group also leverages encrypted virtual private networks (“**VPNs**”) and cloud-based services and conducts cybersecurity awareness training and phishing simulations to strengthen employees’ vigilance.

In tandem with the Group’s growth, additional emphasis is placed on strengthening network and security controls to protect systems and information assets. The Group also engages external cybersecurity specialists to assess and uplift its security posture, including enhanced monitoring and incident response arrangements.

## ***Crisis management risk***

Events outside the Group’s control—including natural disasters, geopolitical tensions, war, civil disturbances and terrorist incidents—may disrupt operations and adversely affect performance. Incidents such as fires, floods and earthquakes can damage infrastructure, interrupt supply chains and impact the communities and economies in the areas where the Group operates. There is no assurance that actual or threatened hostilities or unrest, wherever they occur, will not have a direct or indirect material adverse effect on the Group’s results of operations, financial position and cash flows.

To strengthen its resilience, the Group has established a Business Continuity Plan and related procedures aimed at sustaining essential functions and services during major disruptions affecting its facilities. In respect of information security, the Group’s technology subsidiary maintains ISO 27001 certification and implements controls to safeguard its systems. In the event of any major incident, the operations team coordinates with the legal and corporate affairs team, and the Company will release announcements via SGXNET where applicable.

# Risk Management

## **Compliance Risk**

Compliance risk relates to potential regulatory sanctions, financial impact and reputational harm that may result from non-compliance with applicable laws and regulations, local statutes, internal policies and procedures, or contractual requirements. The Group monitors relevant regulatory developments and seeks to comply with the requirements governing its operations in the jurisdictions in which it conducts business.

## ***Sustainability reporting***

Sustainability reporting communicates our performance, progress and priorities across environmental, social and governance (“**ESG**”) topics, as well as related risks and impacts that may arise over the short and longer term. It supports accountability and better decision-making by enabling the Group to identify material issues, translate commitments into actions, and provide transparent reporting of both positive contributions and adverse effects on the environment, society and the economy.

As a Mainboard issuer on SGX-ST, the Group has issued a sustainability report each year since 2021. The Group continues to enhance data quality and accountability through internal gap assessments and benchmarking against recognised practices. Each reporting cycle, the Group determines the scope of its disclosures and aligns key metrics, indicators and KPIs with reference frameworks such as the SGX core ESG metrics and the Global Reporting Initiative (“**GRI**”) Standards and updates disclosures as the Group’s operations evolve.

The Group has integrated sustainability governance into the principles-based approach of the Three Lines Model to ensure robust sustainability risk management and internal oversight. Details on the Three Lines Model can be found on page 25 of this annual report. An independent consultant was engaged to conduct an internal review to ensure the reliability of internal control processes for ESG metrics disclosure and reporting.

## ***Intellectual property risk***

The Group’s business is supported by its portfolio of patents and trademarks. Maintaining strong governance over intellectual property (“**IP**”) is important for ensuring competitive differentiation. If the Group’s patents are disputed, they may be invalidated or become difficult to enforce. The Group may also face risks from imitation, reverse engineering and counterfeit products, which could reduce sales and damage the Group’s reputation.

The Group actively monitors and protects its IP and will pursue appropriate remedies where infringement is identified. Confidential and sensitive information is maintained on internal systems with access controlled by the IT department. Confidentiality undertakings are in place with employees and subcontractors to safeguard proprietary information prior to public disclosure. The Group’s R&D Policy sets out key safeguards, including maintaining a register of patents and trademarks, tracking renewals to avoid lapses, and engaging experienced agents to manage patent filings and registrations.

# Directors' Statement

## 5. Long-Term Retirement Incentive Plan

During the financial year ended 31 December 2019, the Group implemented a Long-Term Retirement Incentive Plan ("LTRP") for its key management staff (including the CEO and Executive Director) of the Group. Under the LTRP, the key management staff will be eligible to receive a cash payout when they reach the minimum retirement age of 62 ("Minimum Retirement Age") or elect to receive it later when they retire, if their contract is extended after the Minimum Retirement Age.

The LTRP will be part of the remuneration package for current and future key management staff, and the eligibility to participate in the plan shall be determined by the Board of Directors.

From 1 January 2020 onwards, for all eligible key management staff, the LTRP amount will be computed based on 2% of their annual salary in the relevant financial year (prorated, where applicable), provided that the profit after tax of the Group is at least \$5 million for the relevant financial year.

If a key management staff's employment ceases for any reason before he or she reaches the Minimum Retirement Age, then the full amount provided for the respective staff's LTRP payout will be forfeited.

As at 31 December 2025, the provision for LTRP was \$1,025,000 (2024: \$988,000).

## 6. Share options

### Employee Share Option Scheme

The Company has implemented an Employee Share Option Scheme known as the Aztech Employee Share Option Scheme ("Share Option Scheme"). The Share Option Scheme was approved and adopted by the shareholders at an Extraordinary General Meeting of the Company held on 18 February 2021. The Share Option Scheme provides a means to recruit, motivate and retain employees whose contributions are essential to the long-term growth of the Group.

Under the Share Option Scheme, options to subscribe for the ordinary shares of the Company are granted to key management personnel and selected employees based on the recommendation by the Remuneration Committee. The exercise price of the options is determined at the average of the closing prices of the Company's ordinary shares as quoted on the Singapore Exchange for five (5) market days immediately preceding the date of the grant. No options are granted at a discount to the prevailing market price of the shares. 50% of the options shall vest at the end of one (1) year from the date of grant and the remaining options shall vest at the end of two (2) years from the date of grant. The options shall be exercisable at any time after the first anniversary of the date of grant of that option, provided that the option shall be exercised before the tenth anniversary of the relevant date of grant of that option, failing which the unexercised options shall immediately lapse and become null and void. The options may be exercised in full or in part in respect of 1,000 ordinary shares or a multiple thereof, on the payment of the exercise price.

The options shall, to the extent unexercised, immediately lapse and become null and void when the persons to whom the options have been issued cease to be employed by the Group. Such persons shall be deemed to have ceased to be employed as of the date the notice of termination of employment is tendered by or is given to him or her, unless such notice shall be withdrawn prior to its effective date.

The persons to whom the options have been issued have no right to participate by virtue of the options in any share issue of any other company. The Group has no legal or constructive obligation to repurchase or settle the options in cash. The aggregate number of shares over which options may be granted on any date, when added to the number of shares issued and issuable in respect of all options granted under the Share Option Scheme and any other share schemes, shall not exceed 15% of the issued shares (excluding treasury shares) of the Company on the day preceding that date.

### Employee Share Option Scheme (Continued)

On 13 December 2021, the Company granted options to subscribe for 2,110,000 ordinary shares of the Company at exercise price of \$0.934 per share ("2021 Options"). The 2021 Options are exercisable from 13 December 2022 and expire on 12 December 2031. On 29 September 2023, the Company granted options to subscribe for 2,250,000 ordinary shares of the Company at exercise price of \$0.806 per share ("2023 Options"). The 2023 Options are exercisable from 29 September 2024 and expire on 28 September 2033. The estimated fair value of the 2021 Options is \$670,000 and 2023 Options is \$331,000. On 29 September 2025, the Company granted options to subscribe for 2,960,000 ordinary shares of the Company at exercise price of \$0.681 per share ("2025 Options"). The 2025 Options are exercisable from 29 September 2026 and expire on 28 September 2035. The estimated fair value of the 2021 Options is \$670,000, 2023 Options is \$331,000 and 2025 Options is \$215,000. These fair values were calculated using the Black-Scholes pricing model.

No options have been granted to controlling shareholders of the Company or their subsidiaries.

### Performance Share Plan

The Company has implemented a Performance Share Plan known as the Aztech Performance Share Plan ("Performance Share Plan"). The Performance Share Plan was approved and adopted by the shareholders at an Extraordinary General Meeting of the Company held on 18 February 2021. No shares have been granted pursuant to the Performance Share Plan as at the date of this report.

## 7. Audit committee

The Audit Committee of the Company is chaired by Ms. Jeann Low Ngiap Jong, an Independent Non-executive Director, and includes Mr. Christopher Huang Junli, an Independent Non-executive Director, Mr. Larry Tan Jwee Meng, an Independent Non-executive Director and Mr. Tan Teik Seng, an Independent Non-executive Director. The Audit Committee has carried out its functions in accordance with Section 201B(5) of the Act, including reviewing the following, where relevant, with the Executive Directors and external auditors of the Company:

- (a) assist the Board in fulfilling its responsibility for overseeing the quality and integrity of the accounting, auditing, internal controls and financial practices of the Group;
- (b) review and report to the Board significant financial reporting issues and judgements to ensure the integrity of the financial statements and any announcements relating to financial performance;
- (c) review the internal and external auditors' audit plans, scope of work, their evaluation of the Group's system of internal controls, audit reports (including assessing and reporting to the Board the quality of the work carried out and the basis of such assessment, and evaluating the performance of the external auditors), external auditors' management letters and the management's response, the results of audits compiled by the Company's internal and external auditors, and the implementation by the Group of the internal control recommendations made by the Group's internal and external auditors;
- (d) review the periodic consolidated financial statements and any formal announcements relating to the Group's financial performance before submission to the Directors for approval, focusing in particular on changes in accounting policies and practices, major risk areas, significant adjustments arising from the audit, compliance with accounting standards, compliance with the Listing Manual and any other statutory and regulatory requirements, concerns and issues arising from their audits including any matters which the auditors may wish to discuss in the absence of the management, where necessary, before submission to the Directors for approval;
- (e) review the assurance from the Executive Chairman and CEO and Chief Financial Officer/Financial Controller on the financial records and financial statements of the Group;
- (f) ensure co-ordination between the external and internal auditors and the management and reviewing the assistance given by the management to the auditors, and discussing problems and concerns, if any, arising from the interim and final audits, and any matters which the auditors may wish to discuss (in the absence of the management, where necessary);
- (g) review and report to the Board, at least annually, the risk profile of the Group, the effectiveness and adequacy of the internal control and risk management procedures addressing financial, operational, information technology and compliance risks (including the appropriate steps to be taken to mitigate and manage risks at acceptable levels determined by the Board), and discuss issues and concerns, if any, arising from the internal audits;
- (h) review and discuss with external and internal auditors, any suspected fraud, irregularity or infringement of any relevant laws, rules and regulations, which has or is likely to have a material impact on the Group's results of operation, financial performance or financial position and the management's response;

# Independent Auditor's Report

To the Members of Aztech Global Ltd.

## Report on the Audit of the Financial Statements

### Opinion

We have audited the financial statements of Aztech Global Ltd. (the "Company") and its subsidiaries (the "Group"), set out on pages 82 to 135, which comprise:

- the consolidated statement of financial position of the Group and the statement of financial position of the Company as at 31 December 2025;
- the consolidated statement of comprehensive income, consolidated statement of changes in equity, and consolidated statement of cash flows of the Group and statement of changes in equity of the Company for the financial year then ended; and
- notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements of the Group, and the statement of financial position and statement of changes in equity of the Company are properly drawn up in accordance with the provisions of the Companies Act 1967 (the "Act") and Singapore Financial Reporting Standards (International) ("SFRS(I)s") so as to give a true and fair view of the consolidated financial position of the Group and the financial position of the Company as at 31 December 2025, and of its consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group and changes in equity of the Company for the financial year ended on that date.

### Basis for Opinion

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Group in accordance with the Accounting and Corporate Regulatory Authority ("ACRA") Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code"), as applicable to audits of financial statements of public interest entities, together with the ethical requirements that are relevant to audits of the financial statements of public interest entities in Singapore. We have also fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

# Independent Auditor's Report

To the Members of Aztech Global Ltd.

KEY AUDIT MATTER	AUDIT RESPONSE
<p><b>1 Revenue recognition</b></p> <p>The Group derives revenue from manufacture and sale of IoT devices, Datacom products and LED lighting products. The Group's revenue was recognised at a point in time when the Group's customers obtained control of the goods and it is probable that the agreed consideration will be received.</p> <p>We have determined revenue recognition to be a key audit matter due to the volume of revenue transactions and we placed significant attention and effort on this area as part of our audit approach. Revenue recognised for the financial year is also a significant measure of the Group's financial performance.</p>	<p>Our procedures included, amongst others, the following:</p> <ul style="list-style-type: none"> <li>■ Examined the Group's revenue recognition policy in accordance with SFRS(I) 15 <i>Revenue from Contract with Customers</i> and checked that appropriate consistent revenue recognition policy is applied;</li> <li>■ Reviewed revenue and receipts cycle, identified key controls via walkthrough test and carried out test of controls;</li> <li>■ On sample basis, test checked to sales invoice, customer acknowledged documents and other supporting documents;</li> <li>■ Performed revenue cut-off procedures for a sample of revenue transactions, before and after the financial year, by examining relevant supporting documents to evaluate whether control has passed to determine whether revenue is recognised in the appropriate financial year;</li> <li>■ Performed analytical review using data analytics tools to identify any unusual trends and movements and investigated reasons; and</li> <li>■ Assessed the adequacy of the related disclosures made in the financial statements.</li> </ul>
<p>Refer to Notes 2.6 and 23 of the accompanying financial statements.</p>	

## Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Independent Auditor's Report

To the Members of Aztech Global Ltd.

## Responsibilities of Management and Directors for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and SFRS(I)s, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Group's financial reporting process.

## Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

To the Members of Aztech Global Ltd.

## Auditor's Responsibilities for the Audit of the Financial Statements (Continued)

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## Report on Other Legal and Regulatory Requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company and by those subsidiary corporations incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

The engagement partner on the audit resulting in this independent auditor's report is Ng Kian Hui.

# Notes to the Financial Statements

For the Financial Year Ended 31 December 2025

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

## 1. General corporate information

Aztech Global Ltd. (the “Company”) (Registration number 200909384G) is a public limited company incorporated and domiciled in Singapore with its principal place of business and registered office at 31 Ubi Road 1 #01-05 Singapore 408694. The Company was listed on the mainboard of Singapore Exchange Securities Trading Limited on 12 March 2021.

The principal activity of the Company is that of investment holding. The principal activities of the subsidiaries are disclosed in Note 9 of the financial statements.

Mr. Michael Mun Hong Yew holds the Company’s shares both directly and indirectly in various nominee accounts and is the ultimate controlling party of the Company. Mr. Michael Mun Hong Yew’s shareholding in the Company is disclosed in the Directors’ Statement.

## 2. Material accounting policy information

### 2.1 Basis of preparation of financial statements

The financial statements have been prepared in accordance with Singapore Financial Reporting Standards (International) (“SFRS(I)s”) under the historical cost convention, except as disclosed in the accounting policies below. All accounting policies have been consistently applied to the current financial year and comparative period, unless otherwise stated.

Where an accounting policy information is not disclosed in the financial statements, it is considered as not material and mainly standardised accounting requirements. Material accounting policy information which relates to financial statements as a whole, are disclosed below.

Items included in the financial statements of the Group and the Company are measured using the currency of the primary economic environment in which the entities operate (“functional currency”). The financial statements are presented in Singapore dollar which is the functional currency and presentation currency of the Company. The financial statements are expressed in Singapore dollar and all values are rounded to the nearest thousand (\$’000) unless otherwise indicated.

The preparation of financial statements in conformity with SFRS(I)s requires the management to exercise judgement in the process of applying the Group’s accounting policies and requires the use of accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the end of the reporting period, and the reported amounts of revenue and expenses throughout the financial year. Although these estimates are based on management’s best knowledge of historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances, actual results may ultimately differ from those estimates. The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the financial year in which the estimate is revised if the revision affects only that financial year or in the financial year of the revision and future financial years if the revision affects both current and future financial years.

Critical accounting judgements and key sources of estimation uncertainty used that are significant to the financial statements are disclosed as below to the financial statements.

# Notes to the Financial Statements

For the Financial Year Ended 31 December 2025

## 2. Material accounting policy information (Continued)

### 2.1 Basis of preparation of financial statements (Continued)

In the process of applying the accounting policies, the management is of the opinion that there are no critical judgements, apart from those involving estimations (see below), that have a significant effect on the amounts recognised in the financial statements.

Significant accounting estimates and assumptions used:

- Expected credit loss allowance of trade receivables (Note 5 and Note 34.3(iii))

#### Changes in accounting policies

##### *New standards, amendments and interpretations effective from 1 January 2025*

The standards, amendments to standards, and interpretations that will apply for the first time by the Group are not expected to impact the Group as they are either not relevant to the Group's business activities or require accounting which is consistent with the Group's current accounting policies.

##### *New standards, amendments and interpretations issued but not yet effective*

The following SFRS(I)s are relevant to the Group, and effective for annual periods beginning on 1 January 2026 and thereafter, and have not been adopted early:

		<b>Effective date (annual periods beginning on or after)</b>
SFRS(I) 9 and 7 (Amendments)	: Amendments to the Contracts Referencing Nature-dependent Electricity	1 January 2026
SFRS(I) 9 and 7 (Amendments)	: Amendments to the Classification and Measurement of Financial Instruments	1 January 2026
SFRS(I) 18	: Presentation and Disclosure in Financial Statements	1 January 2027
SFRS(I) 19	: Subsidiaries without Public Accountability: Disclosures	1 January 2027
SFRS(I) 19 (Amendments)	: Subsidiaries without Public Accountability: Disclosures	1 January 2027
SFRS(I) 10 and 1-28 (Amendments)	: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	To be determined

Management anticipates that the adoption of the above new standards, amendments and interpretations in future periods, if applicable, will not have a material impact on the financial statements of the Group and the Company in the period of their initial adoption, except as disclosed below:

## 2. Material accounting policy information (Continued)

### 2.1 Basis of preparation of financial statements (Continued)

#### Changes in accounting policies (Continued)

*New standards, amendments and interpretations issued but not yet effective* (Continued)

#### *SFRS(I) 18 Presentation and Disclosure in Financial Statements*

The SFRS(I) 18 replaces SFRS(I) 1-1 Presentation of Financial Statements and provides guidance on presentation and disclosure in financial statements, focus on the statement of profit or loss.

SFRS(I) 18 introduces:

- New structure on statement of profit or loss with defined subtotals;
- Disclosure related to management-defined performance measures (MPMs), which are measures of financial performance based on a total or sub-total required by accounting standards with adjustments made (e.g. 'adjusted profit or loss'). A reconciliation of MPMs to the nearest total or subtotal calculated in accordance with accounting standards; and
- Enhanced principles on aggregation and disaggregation of financial information which apply to the primary financial statements and notes in general.

SFRS(I) 18 will take effect on 1 January 2027 and management anticipates that the new requirements will change the current presentation and disclosure in the financial statements. An impact assessment regarding the adoption of SFRS(I) 18 is still underway and has not yet been completed.

### 2.2 Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- Has power over the investee;
- Is exposed, or has rights, to variable returns from its involvement with the investee; and
- Has the ability to use its power to affect those returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the financial year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary.

All intra-group balances and transactions and any unrealised income and expenses arising from intra-group transactions are eliminated on consolidation. Unrealised losses are also eliminated unless the transaction provides an impairment indicator of the transferred asset.

# Notes to the Financial Statements

*For the Financial Year Ended 31 December 2025*

## 2. Material accounting policy information (Continued)

### 2.2 Basis of consolidation (Continued)

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests, if any.

The financial statements of the subsidiaries are prepared for the same reporting period as that of the Company, using consistent accounting policies. Where necessary, accounting policies of subsidiaries are changed to ensure consistency with the policies adopted by the Group.

When necessary, adjustments are made to the financial statements of subsidiaries to align their accounting policies with the Group's accounting policies.

When the Group loses control of a subsidiary, it derecognises the assets and liabilities of the subsidiary and any non-controlling interest. The profit or loss on disposal is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets, and liabilities of the subsidiary and any non-controlling interests. Amounts previously recognised in other comprehensive income in relation to the subsidiary are accounted for (i.e. reclassified to profit or loss or transferred directly to retained earnings) in the same manner as would be required if the relevant assets or liabilities were disposed of.

Investments in subsidiaries are carried at cost less any impairment loss, in the Company's statement of financial position.

### 2.3 Inventories

Inventories are stated at the lower of cost and net realisable value.

Costs of raw materials and finished goods are determined on a weighted average basis and include all costs of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. In the case of manufactured goods, costs include cost of material, direct labour and an appropriate portion of manufacturing overheads.

Work-in-progress is stated at cost which comprises direct material, direct labour and other directly attributable expenses. Allowance is made for anticipated losses, if any, on work-in-progress when the possibility is ascertained.

Net realisable value is the estimated selling price at which the inventories can be realised in the ordinary course of business less all estimated costs of completion and costs of realisation. Where necessary, the carrying values of inventories are adjusted to the lower of cost and net realisable value to account for obsolete, slow-moving and defective inventories.

## 2. Material accounting policy information (Continued)

### 2.4 Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses.

Freehold land is not depreciated. Depreciation on other property, plant and equipment is calculated using the straight-line method to allocate their depreciable amounts over their estimated useful lives, on the following bases:

Leasehold land and factory buildings	over the terms of lease, which are from 1.75% to 20%
Computer and office equipment	20% to 100%
Factory equipment	12.5% to 20%
Factory furniture and fittings	20%
Office furniture and fittings	20% to 33.33%
Research and development equipment and tools	20% to 33.33%
Software applications	20% to 100%
Motor vehicles	20% to 33.33%
Right-of-use assets – Leasehold properties	20% to 50%
– Software Licence	33.33%
– Motor vehicles	20% to 33.33%

### 2.5 Leases

#### The Group as lessee

The Group leases a number of properties (i.e. office building and warehouses) in Singapore, Malaysia, Hong Kong and the People's Republic of China with only fixed lease payments over the lease term.

The Company leases office premises with only fixed payment over the lease term. These office premises have been subleased to related companies under finance leases (Note 6).

The Group also leases certain items of software licence and motor vehicles with only fixed payments over the lease terms. There are no externally imposed covenants on these lease arrangements.

Certain IT equipment of the Group qualified for low value assets and the Group also leases certain machinery on a short-term basis (i.e. 3 to 6 months) in order to support the Group's operational needs. The election of short-term leases is made by class of underlying assets with similar nature and use in the Group's operation whereas the low-value lease exemption is made on lease-by-lease basis.

### 2.6 Revenue recognition

Revenue is recognised when a performance obligation is satisfied. Revenue is measured based on the consideration to which the Group expects to be entitled in exchange for transferring promised goods to a customer, excluding amounts collected on behalf of third parties (i.e. sales related taxes). The consideration promised in the contracts with customers are fixed amounts and therefore, the amount of revenue earned for each contract is determined by reference to those fixed prices.

# Notes to the Financial Statements

For the Financial Year Ended 31 December 2025

## 2. Material accounting policy information (Continued)

### 2.6 Revenue recognition (Continued)

#### Sale of electronic products

Revenue from the sale of electronic products is recognised at point in time when the control of the products is transferred to the customers, which represent the performance obligation is satisfied.

There is limited judgement needed to identify when the point of control passes to customers. There is no element of financing component in the Group's revenue transactions as customers are required to pay within a credit term of 30 to 90 days. Where the payments exceed the value of goods transferred, a contract liability is recognised and presented as customer deposits in "other payable".

All electronic products sold by the Group include standard warranty which requires the Group either to replace or mend the defective product during the warranty period. The warranty against defect is not accounted for as separate performance obligation.

### 2.7 Retirement benefit obligations

#### Share-based compensation

The Group issues equity-settled share-based payments to certain employees.

Equity-settled share-based payments are measured at fair value of the equity instruments (excluding the effect of non market-based vesting conditions) at the date of grant. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period with a corresponding credit to the share-based payment reserve, based on the Group's estimate of the number of equity instruments that will eventually vest and adjusted for the effect of non market-based vesting conditions. At the end of each financial year, the Group revises the estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss over the remaining vesting period with a corresponding adjustment to the share-based payment reserve.

Fair value is measured using the Black-Scholes pricing model. The expected life used in the model has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions and behavioural considerations.

#### Other long-term service benefits

The Group operates a retirement benefit plan which it offers the qualified employees an amount of benefit that an employee will receive on or after retirement, usually dependent on certain percentage of their final pay for every year of completed service and these payments are made in full after the date of retirement. The liability recognised on the statements of financial position in respect of a retirement benefit plan is the present value of the retirement benefit obligation at the reporting date. The present value of the retirement benefit obligation is determined by discounting the estimated future cash outflows using the market yields of high quality corporate bonds that are denominated in the currency in which the benefits will be paid, and have tenures approximating to that of the related post-employment benefit obligations.

### 2.8 Profit sharing scheme

Executive Directors are entitled to share of the profit under the profit sharing scheme. A provision is made for the estimated liability under the profit sharing scheme and is presented in "Other payables".

Other receivables from third parties are non-trade, unsecured, interest free and repayable on demand. As at 31 December 2025, Included in other receivables are amounts of approximately \$6,290,000 relating to the remaining balance of the proceeds from disposal of factory buildings and land located in Johor, Malaysia (Note 10) remained with the solicitor's account. The solicitor has released this remaining balance to the Group in the subsequent financial year.

### Finance lease receivables – Subleases

The Company sublet its right-of-use pertaining to its office premises to a subsidiary and a related corporation which were classified as finance lease because the sub-leases were for the entire remaining lease term of the head leases. Accordingly, the right-of-use assets relating to the head leases with subleases are classified as finance lease receivables.

The maturity analysis of lease receivables of the Company is as follows:

Fully paid ordinary shares, which have no par value, carry one vote per share and carry a right to dividends as and when declared by the Company.

### Employee share options

Employees’ share options were granted to key management personnel and selected employees based on the recommendation of the Remuneration Committee under the Aztech Employee Share Option Scheme, which became operative on 18 February 2021.

The exercise price of the options is determined at the average of the closing prices of the Company’s ordinary shares as quoted on the Singapore Exchange for five market days immediately preceding the date of the grant. 50% of the options shall vest at the end of one (1) year from the date of grant and the remaining options shall vest at the end of two (2) years from the date of grant.

Once they have vested, the options are exercisable over a period of ten years. The options may be exercised in full or in part in respect of 1,000 ordinary shares or a multiple thereof, on the payment of the exercise price. The persons to whom the options have been issued have no right to participate by virtue of the options in any share issue of any other company. The Group has no legal or constructive obligation to repurchase or settle the options in cash.

## 19. Capital reserve

### Group

This comprise primarily the merger reserve which is the difference between the consideration paid and the share capital of the subsidiaries acquired under common control and is non-distributable.

### Company

Capital reserve arose from the financial guarantees provided by a former holding company to the banks for bank facilities granted to the Company's subsidiaries and is non-distributable.

## 20. Foreign currency translation account

The foreign currency translation account represents foreign exchange differences arising from the translation of the financial statements of foreign operations where functional currencies are different from that of the Group's presentation currency and is non-distributable.

## 21. Share options reserve

The share options reserve represents the corresponding effect from the recognition of the employee services received in exchange of the grant of options over the vesting period and is non-distributable.

## 22. Statutory reserve

In accordance with the Foreign Enterprise Law applicable to the subsidiary in the People's Republic of China ("PRC"), the subsidiary is required to make appropriation to a Statutory Reserve Fund ("SRF"). At least 10% of the statutory after tax profits as determined in accordance with the applicable PRC accounting standards and regulations must be allocated to the SRF until the cumulative total of the SRF reaches 50% of the subsidiary's registered capital. During the prior financial year, the board of directors of the PRC subsidiary has approved the transfer from its retained earnings of approximately \$13,501,000 (equivalent to approximate RMB 72,235,000) to SRF. The SRF may be used to offset any accumulated losses or increase the registered capital of the subsidiary. The SRF is not available for dividend distribution to shareholders.

## 30. Earnings per share

### Basic earnings per share

The calculation for basic earnings per share is based on:

	Group	
	2025	2024
Profit attributable to owners of the Company (\$'000)	40,171	70,528
Weighted average number of ordinary shares ('000)	771,794	771,889
Dilutive effect	–	254
	771,794	772,143
Earnings per share (in cents) – Basic	5.20	9.14
Earnings per share (in cents) – Diluted	5.20	9.13

The calculation of basic earnings per share for financial year ended 31 December 2025 is based on profit attributable to owners of the Company for the financial year ended 31 December 2025 divided by weighted average of ordinary shares in issue for the financial year ended 31 December 2025 of 771,794,000 (2024: \$771,889,000).

### Diluted earnings per share

The calculation of diluted earnings per share for financial year ended 31 December 2025 is based on profit attributable to owners of the Company for the financial year ended 31 December 2025 divided by weighted average of ordinary shares in issue and effect of dilutive shares from share option for the financial year ended 31 December 2025 of 771,794,000 (2024: \$772,143,000).

In calculating the diluted earnings per share for the financial year ended 31 December 2025, 3,540,000 employee share options that were exercisable as at 31 December 2025 were not included in the diluted earnings per share computation. These options were anti-dilutive, as the average market share price for the year was lower than the exercise price of the share options. The total number of options in issue is disclosed in Note 17 to the financial statements.

For the financial year ended 31 December 2024, 1,730,000 employee share options that were exercisable as at 31 December 2024 were similarly excluded from the diluted earnings per share computation. These share options were anti-dilutive, as the average market share price for the year was below the exercise price of the share options. Further details of these options are included in Note 17 to the financial statements.

This proposed final tax-exempt dividend and special tax-exempt dividend has not been recognised as at year end and will be submitted for shareholders' approval at the forthcoming Annual General Meeting of the Company in 2026.

## 32. Commitments

### Land use right

- (i) Pursuant to a land use right agreement dated 15 June 2002, a subsidiary of the Company is committed to pay to the local authority in the People's Republic of China ("PRC") the land management fee of approximately \$26,500 (equivalent to RMB130,000) per annum with an incremental rate of 10% every five years until 30 September 2052.

The subsidiary is committed to an additional land management fee of \$11,000 (equivalent to RMB54,000) per annum with an incremental rate of 10% every five years until 2057, in accordance with an additional land use right agreement dated 6 April 2007.

- (ii) As at 31 December 2024, the Group's production facilities are located on plots of land in the PRC of which land use right certificates and property ownership certificates have not been obtained. On 7 March 2025, the Group received certification from the relevant local government authority that the subsidiary of the Company will continue to be entitled to the right of use of the land and buildings until March 2028. Accordingly, there will not be any risk for the land and such buildings to be demolished by local government authorities or withdrawn from leasing by local government authorities. These certificates are related to the non-current assets classified as held for sale as disclosed in Note 10.

- (iii) During the financial year, the Group entered into a sale and purchase agreement with a buyer for the sale and leaseback of the factory building and land. Upon the completion of the transaction, all risks related to the land use rights, will no longer be borne by the Group and the Group will not have to incur cost or allocate any further resources to rectify the title. The sale and leaseback transaction in respect of the factory buildings and land located in Dongguan, China, was completed in the subsequent financial year.

### Capital commitment

As at 31 December 2025, the Group's commitment in respect of capital expenditure contracted but not provided for the purchase of property, plant and equipment amounted to approximately \$46,000 (2024: \$2,774,000).

## 33. Segment reporting

Management has determined the operating segments based on the reports reviewed by the chief operating decision maker.

Management considers the business from both a geographic and business segment perspective. Geographically, management manages and monitors the business in these primary geographic areas: Singapore, Hong Kong, the People's Republic of China and Malaysia. All these locations are engaged in the manufacturing, distribution and trading of electronic products.

The Group has two reportable segments being manufacturing segment and distribution and trading segment.

The manufacturing segment manufactures and sells electronic products for its customers including related corporations.

The distribution and trading segment sells the electronic products to its customers including related corporations.

"Other" segments include the Group's remaining minor trading and investment holding activities which are not included within reportable segments as they are not separately reported to the chief operating decision maker and they contribute minor amounts of revenue to the Group.

The Group's reportable segments are strategic business units that are organised based on their function and targeted customer groups. They are managed separately because each business unit requires different skill sets and marketing strategies.

Management monitors the operating results of the segments separately for the purposes of making decisions about resources to be allocated and assessing performance. Segment performance is evaluated based on operating profit or loss which is similar to the accounting profit or loss.

Income taxes are managed on a Group basis.

The accounting policies of the operating segments are the same as those described in the summary of significant accounting policies. There is no asymmetrical allocation to reportable segments. Management evaluates performance on the basis of profit or loss from operations before tax expense not including non-recurring gains and losses.

There is no change from prior periods in the measurement methods used to determine reported segment profit or loss.

The Group accounts for intersegment sales and transfer as if the sales or transfers were to third parties, which approximate market prices. These intersegment transactions are eliminated on consolidation.

In reconciling the 'Net amounts of financial assets and financial liabilities presented in the statements of financial position' to the line item amounts presented in the statements of financial position, the amounts below represent only those which are subject to offsetting, enforceable master netting arrangements and similar agreements. The residual amounts relate to those that are not in scope of the offsetting disclosures.

The Group has no other financial instruments subject to offsetting, enforceable master netting arrangements and similar agreements as at 31 December 2025 and 31 December 2024.

### 34.3 Financial risk management policies and objectives

The Group has a system of controls in place to create an acceptable balance between the cost of risks occurring and the cost of managing the risks. Management continually monitors the Group's risk management process to ensure that an appropriate balance between risk and control is achieved. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group activities.

There has been no change to the Group's exposure to these financial risks or the manner in which it manages and measures the risk. Market risk exposures are measured using sensitivity analysis indicated below:

(i) Foreign exchange risk management

The Group is exposed to foreign currency risk on sales, purchases and borrowings that are denominated in a currency other than the respective functional currencies of the Group entities. The currencies that give rise to this risk are primarily the United States dollar and the Malaysia ringgit.

The Group manages foreign currency risk by matching assets and liabilities in the same currency denomination and supplemented with appropriate financial instruments where necessary. The Group uses derivative financial instruments to mitigate the financial impact associated with foreign currency fluctuation relating to certain forecasted transactions.

### 34.3 Financial risk management policies and objectives (Continued)

#### (i) Foreign exchange risk management (Continued)

The carrying amounts of foreign currency denominated monetary assets and monetary liabilities denominated in currencies other than the respective Group entities' functional currencies at the end of the reporting period are as follows:

	Group				Company			
	Liabilities		Assets		Liabilities		Assets	
	2025	2024	2025	2024	2025	2024	2025	2024
	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000
Renminbi	184	189	9	15	–	–	–	–
Hong Kong dollar	–	32	–	–	–	–	–	–
United States dollar	126,479	126,785	194,692	223,046	–	–	10,071	19,662
Malaysian ringgit	11,623	12,664	4,968	3,782	–	–	–	–

#### Foreign currency sensitivity

The following analyses the sensitivity to a 5% (2024: 5%) increase or decrease in the respective foreign currencies against the respective functional currencies of the entities in the Group. 5% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end of the for a 5% change in foreign currency rates. The sensitivity analysis includes external loans as well as loans to foreign operations within the Group where the denomination of the loan is in a currency other than the currency of the lender or the borrower.

If the relevant foreign currency strengthens by 5% against the functional currency of each entity of the Group, the effect on profit or loss will (decrease)/increase by:

	Group		Company	
	2025	2024	2025	2024
	\$'000	\$'000	\$'000	\$'000
United States dollar	3,411	4,813	504	983
Malaysian ringgit	(333)	(444)	–	–

If the relevant foreign currency weakens by 5% against the functional currency of each entity of the Group, the above will have an opposite effect.

The management does not expect any material impact on profit or loss arising from the effects of reasonably possible changes to foreign exchange rates of foreign currency balances denominated in Renminbi and Hong Kong dollar at the end of the reporting period.

## 34. Financial instruments, financial risks and capital risks management (Continued)

### 34.3 Financial risk management policies and objectives (Continued)

#### (ii) Interest rate risk management

The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's debt obligations with floating interest rates. The Group monitors the movements in interest rates on an ongoing basis and evaluates the exposure for its debt obligations.

#### *Interest rate sensitivity*

The sensitivity analysis below has been determined based on the exposure to interest rates for borrowing from banks and financial institutions in Singapore, the People's Republic of China, Hong Kong and Malaysia at the end of the reporting period.

For floating rate liabilities, the analysis is prepared assuming the amount of liability outstanding at the end of the reporting period was outstanding for the whole year. A 100 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 100 basis points (2024: 100 basis points) higher or lower with all other variables held constant, the Group's profit for the financial year ended 31 December 2025, would decrease or increase by \$98,000 (2024: \$143,000).

No analysis is prepared at the Company level as the impact is not expected to be material.

#### (iii) Credit risk management

Credit risk refers to the risk that a counter party will default on its contractual obligations resulting in a financial loss to the Group. The Group has adopted the policy of only dealing with creditworthy counterparties as a means of mitigating the risk of financial losses from default. Credit risk is managed through the application of credit approvals, credit limits and monitoring procedures. Cash terms, advance payments and letter of credits are required for customers of lower credit standing.

As the Group and the Company do not hold any collateral, the maximum exposure to credit risk for each class of financial instruments is the carrying amount of that class of financial instruments presented on the consolidated statement of financial position except for the financial guarantees provided by the Company to banks for subsidiaries' borrowings as disclosed in Note 34.3(iii) – Financial Guarantee Contracts.

#### *Trade receivables*

The Group manages concentration of credit risk by performing credit analysis procedures to assess the potential customers' credit quality and defines credit limits by customer before offering credit term to any new customer.

The Group does not have any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics except for outstanding trade receivables from 5 (2024: 5) major customers which represent 98% (2024: 99%) of total trade receivables balance as at 31 December 2025.

The Group applies the simplified approach, using a provision matrix, to measure the expected credit losses for trade receivables. To measure expected credit losses on a collective basis, trade receivables are grouped based on similar credit risk and aging.

## 34. Financial instruments, financial risks and capital risks management (Continued)

### 34.3 Financial risk management policies and objectives (Continued)

#### (iii) Credit risk management (Continued)

##### *Trade receivables* (Continued)

The expected loss rates are based on the Group's historical credit losses experienced and then adjusted for current and forward-looking information on macroeconomic factors affecting the Group's customer.

In determining the recoverability of a trade receivable, the Group considers any change in the credit quality of the trade receivables from the date credit was initially granted up to the end of the reporting period. Accordingly, the management believes that there is no further impairment required in excess of the loss allowance for trade receivables.

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired include observable date about the following events:

- significant financial difficulty of the issuer or the borrower;
- breach of contract, such as default or past due event;
- the lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider; or
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation.

Further disclosures regarding expected credit loss on trade receivables, are disclosed in Note 5 to the financial statements.

##### *Other receivables*

Management assessed whether there is significant increase in credit risk for amount due from a subsidiary since initial recognition. Management considers various operating performance ratios as well as liquidity ratios of the subsidiary and concluded that the subsidiary has sufficient net assets to repay its debts and are therefore subject to insignificant expected credit losses. Besides, as per Note 34.2 to the financial statements, the other receivables due from the subsidiary is subject to offsetting against other payables due to that subsidiary based on enforceable master netting arrangements and similar agreements.

The management monitors and assesses at each reporting date on any indicator of significant increase in credit risk on these other receivables. As at the end of the reporting period, there is no indication that credit risk on these receivables have increased significantly, hence, these receivables are measured at 12-month expected credit loss model and subject to immaterial credit loss.

### 34.3 Financial risk management policies and objectives (Continued)

#### (iii) Credit risk management (Continued)

##### *Cash and cash equivalents*

The Group places its cash with creditworthy institutions with a minimum rating of “A-”, based on Standard & Poor’s rating. Impairment of cash at banks have been measured using a 12-month expected credit loss model. At the reporting date, the Group and the Company do not expect any material credit loss from non-performance by the counterparties.

##### *Financial guarantee contracts*

In addition, the Company is exposed to credit risk in relation to financial guarantees given to banks on subsidiaries’ borrowings. The Company’s maximum exposure is the maximum amount the Company could have to pay if the guarantee is called on. As at 31 December 2025, subsidiaries’ borrowings of \$9,797,000 (2024: \$14,289,000) were guaranteed by the Company. For the financial guarantee issued, the Company has assessed that these subsidiaries have sufficient financial capabilities to meet their contractual cash flows obligation in the near future, hence, does not expect any material loss allowance under the 12-month expected credit loss model.

#### (iv) Liquidity risk management

Individual operating entities within the Group are responsible for their own cash management, including the short-term investment of cash surplus and the raising of loans to cover expected cash demand, subject to approval by the Company’s Board of Directors when the borrowings exceed certain predetermined levels of authority. The Group’s policy is to regularly monitor its liquidity requirements and its compliance with lending covenants, to ensure that it maintains sufficient reserves of cash and adequate committed lines of funding from major financial institutions to meet its liability requirements in the short and longer term. Undrawn facilities are disclosed in Note 12 to the financial statements.

The Company is the holding company for all its subsidiaries and has the ability to control the timing of repayment for the liabilities owing to its subsidiaries, management is satisfied that the Company is able to meet its existing and prospective funding requirements and continue to operate as a going concern.

#### **Liquidity and interest analysis**

##### Financial liabilities at amortised cost

The following tables detail the remaining contractual maturity for non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group and the Company can be required to pay. The table includes both interest and principal cash flows. The adjustment column represents the possible future cash flows attributable to the instrument included in the maturity analysis which is not included in the carrying amount of the financial liabilities on the statements of financial position.

The financial guarantees have not been recognised in the financial statements of the Group as the Directors of the Company do not consider it probable that a claim will be made against the Group under the guarantees.

Based on expectations at each reporting date, the Company considers that it is more likely than not that no amount will be payable under the arrangement.

### 34.3 Financial risk management policies and objectives (Continued)

#### (v) Fair value of financial assets and financial liabilities

For financial reporting purposes, the fair value measurement of the Group's and the Company's financial and non-financial assets and liabilities utilises market observable inputs and data as far as possible. Inputs used in determining fair value measurements are categorised into different levels based on how observable the inputs used in the valuation technique utilised are (the 'fair value hierarchy'):

- Level 1: Quoted prices in active markets for identical items (unadjusted)
- Level 2: Observable direct or indirect inputs other than Level 1 inputs
- Level 3: Unobservable inputs (i.e. not derived from market data)

The classification of an item into the above levels is based on the lowest level of the inputs used that has a significant effect on the fair value measurement of the item. Transfers of items between levels are recognised in the period they occur.

#### *Financial instrument that are not measured at fair value on a recurring basis*

The carrying amounts of cash and cash equivalents, trade and other current receivables, trade and other payables approximate their respective fair values due to the relatively short-term maturity of these financial instruments. In respect of the financial assets and financial liabilities recorded at amortised cost whose maturity is more than a year, management also considers that such financial instruments approximate their fair values as such financial instruments are discounted at market interest rates of a similar instrument.

The fair value of non-current borrowing was based on cash flow analysis, discounted at market borrowing rates of a similar instrument which management expected to be available to the Group. The borrowing is classified as Level 3.

There are no transfers between the levels of the fair value hierarchy during the financial year.

#### *Fair value of financial instruments carried at fair value (Note 7)*

Financial instruments carried at fair value classified by level of fair value hierarchy are as follows:

	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000

### 34.4 Capital risk management policies and objectives

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern and to maintain an optimal capital structure to maximise shareholder value. In order to maintain or achieve an optimal capital structure, the Group may adjust the amount of dividend payment, return capital to shareholders, issue new shares, buy back issued shares, obtain new borrowings or sell assets to reduce borrowings. The Group's overall strategy remains unchanged as at the end of the reporting period.

The capital structure of the Group consists of equity attributable to owners of the Company, comprising issued share capital and reserves and retained profits.

Management monitors capital based on the Group's current ratio and net gearing ratio. The Group is required by a bank which granted the term loan to maintain net gearing ratio of 1.25 times (2024: 1.25 times). As at 31 December 2025, the Group's current ratio were 3.21 (2024: 3.67). The Group's net gearing ratio for 31 December 2025 and 31 December 2024 is not presented as total cash and cash equivalents exceeded total borrowings and lease liabilities.

The current ratio is calculated as total current assets divided by total current liabilities.

The net gearing ratio is calculated as net borrowings divided by shareholders' funds. Net borrowings are calculated as total borrowings (Note 12) and lease liabilities (Note 13) less cash and cash equivalents (Note 4).

As disclosed in the Group's consolidated statement of changes in equity and Note 22 to the financial statements, a subsidiary is required by relevant laws and regulations of the PRC to contribute to and maintain a non-distributable PRC statutory reserve fund whose utilisation is subject to approval by the relevant PRC authorities.

The Group has complied with above externally imposed capital requirement for the financial years ended 31 December 2025 and 2024.

As at end of each reporting period, management had assessed that the Group's cash and cash equivalents, together with anticipated cash flow from future operations and borrowings available under the Group's credit facilities, will be sufficient to fund its operations and capital expenditure requirements for the next 12 months.

## 35. Authorisation of financial statements

The consolidated financial statements of the Group for the financial year ended 31 December 2025, statement of financial position of the Company as at 31 December 2025 and statement of changes in equity of the Company for the financial year ended 31 December 2025 were authorised for issue by the Directors on 30 March 2026.

  - (ii) new Shares arising from exercising share options or the vesting of share awards, provided the share options or share awards were granted in compliance with the Listing Manual of the SGX-ST (“**Listing Manual**”); and
  - (iii) any subsequent bonus issue or consolidation or subdivision of Shares,

provided further that adjustments in accordance with sub-paragraphs (2)(i) and (ii) above are only to be made in respect of new Shares arising from convertible securities, share options or share awards which were issued and are outstanding or subsisting at the time of the passing of this Resolution;

- (3) in exercising the authority conferred by this Resolution, the Company shall comply with the provisions of the Listing Manual for the time being in force (unless such compliance has been waived by the SGX-ST) and the Constitution for the time being of the Company; and
- (4) (unless revoked or varied by the Company in general meeting) the authority conferred by this Resolution shall continue in force until the conclusion of the next Annual General Meeting of the Company or the date by which the next Annual General Meeting of the Company is required by law to be held, whichever is the earlier.

**(Explanatory Note c)**

## 10. Renewal of the Share Purchase Mandate

That:

- (a) for the purposes of Sections 76C and 76E of the Companies Act 1967 of Singapore (the “**Companies Act**”) as may be amended from time to time, the exercise by the Directors of the Company of all the powers of the Company to purchase or otherwise acquire Shares not exceeding in aggregate the Prescribed Limit (as hereinafter defined), at such price or prices as may be determined by the Directors of the Company from time to time up to the Maximum Price (as hereinafter defined), whether by way of:
- (i) market purchases (each a “**Market Purchase**”) on the SGX-ST; and/or

# Notice of Annual General Meeting

- (ii) off-market purchases (each an **“Off-Market Purchase”**) effected otherwise than on the SGX-ST in accordance with any equal access scheme(s) as may be determined or formulated by the Directors of the Company as they consider fit, which scheme(s) shall satisfy all the conditions prescribed by the Companies Act,

and otherwise in accordance with all other laws, regulations and listing rules of the SGX-ST as may for the time being be applicable, be and is hereby authorised and approved generally and unconditionally (the **“Share Purchase Mandate”**);

- (b) unless varied or revoked by the Company in general meeting, the authority conferred on the Directors of the Company pursuant to the Share Purchase Mandate in paragraph (a) of this Resolution may be exercised by the Directors of the Company at any time and from time to time during the period commencing from the date of the passing of this Resolution and expiring on the earliest of:
  - (i) the date on which the next Annual General Meeting of the Company is held or required by law to be held;
  - (ii) the date on which purchases or acquisitions of Shares are carried out to the full extent mandated; or
  - (iii) the date on which the authority conferred by the Share Purchase Mandate is revoked or varied by the Company in general meeting;

- (c) in this Resolution:

**“subsidiary holdings”** has the meaning ascribed to it in the Listing Manual;

**“Prescribed Limit”** means 10% of the total number of issued Shares of the Company (excluding subsidiary holdings and any Shares which are held as treasury shares) as at the date of the passing of this Resolution; and

**“Maximum Price”**, in relation to a Share to be purchased or acquired, means an amount (excluding brokerage, stamp duties, applicable goods and services tax and other related expenses) not exceeding:

- (i) in the case of a Market Purchase, 105% of the Average Closing Price (as defined hereinafter); and
- (ii) in the case of an Off-Market Purchase, 120% of the Average Closing Price (as defined hereinafter),

where:

**“Average Closing Price”** means the average of the Closing Market Prices of the Shares over the last five (5) Market Days on the SGX-ST, on which transactions in the Shares were recorded, immediately preceding the day of the Market Purchase by the Company or, as the case may be, the date of the making of the offer pursuant to the Off-Market Purchase, and deemed to be adjusted for any corporate action that occurs during such five-Market Day period and the day of the Market Purchase or, as the case may be, the date of the making of the offer pursuant to the Off-Market Purchase;

**“Closing Market Price”** means the last dealt price for a Share transacted through the SGX-ST’s trading system as shown in any publication of the SGX-ST or other sources;

**“date of the making of the offer”** means the date on which the Company announces its intention to make an offer for the purchase or acquisition of Shares from shareholders, stating the purchase price (which must not be more than the Maximum Price calculated on the foregoing basis) for each Share and the relevant terms of the equal access scheme for effecting the Off-Market Purchase; and

**“Market Day”** means a day on which the SGX-ST is open for trading in securities; and

- (d) the Directors of the Company be and are hereby authorised to complete and do all such acts and things (including executing such documents as may be required) as they may consider expedient or necessary to give effect to the transactions contemplated by this Resolution.

**[Resolution 9]**  
**(Explanatory Note d)**

**11. Authority to grant Options and to allot and issue Shares in accordance with the Aztech Employee Share Option Scheme (“Aztech ESOS”)**

That approval be and is hereby given to the Directors of the Company to:

- (a) offer and grant Options in accordance with the provisions of the Aztech ESOS; and
- (b) allot and issue from time to time such number of fully paid-up Shares as may be required to be allotted and issued pursuant to the exercise of the Options under the Aztech ESOS granted while this Resolution was in force (notwithstanding that such issue of Shares may occur after the expiration of the authority contained in this Resolution),

provided that the aggregate number of Shares to be allotted and issued pursuant to the Aztech ESOS on any date, when aggregated with the number of Shares issued or issuable or existing Shares delivered or deliverable in respect of Options under the Aztech ESOS, awards under the Aztech Performance Share Plan and any other share schemes of the Company, shall not exceed fifteen per cent. (15%) of the total number of issued Shares (excluding treasury shares and subsidiary holdings) on the day immediately preceding the date on which the Option is granted.

**[Resolution 10]**  
**(Explanatory Note e)**

**12. Authority to grant Awards and to allot and issue Shares under the Aztech Performance Share Plan (“Aztech PSP”)**

That approval be and is hereby given to the Directors of the Company to:

- (a) grant Awards in accordance with the provisions of Aztech PSP; and
- (b) allot and issue from time to time such number of fully paid-up Shares as may be required to be delivered pursuant to the release of the Awards under the Aztech PSP granted while this Resolution was in force (notwithstanding that such issue of Shares may occur after the expiration of the authority contained in this Resolution),

provided that the aggregate number of Shares to be allotted and issued pursuant to the release of the Awards under the Aztech PSP on any date, when aggregated with the number of Shares issued or issuable or existing Shares delivered or deliverable in respect of Awards under the Aztech PSP, Options under the Aztech ESOS and any other share schemes of the Company, shall not exceed fifteen per cent. (15%) of the total number of issued Shares of the Company (excluding treasury shares and subsidiary holdings) on the day immediately preceding the date on which the Award is granted.

## 13. Authority to allot and issue Shares pursuant to the Aztech Scrip Dividend Scheme

That approval be and is hereby given to the Directors of the Company to allot and issue from time to time such number of new ordinary shares in the Company as may be required to be allotted and issued under the Aztech Scrip Dividend Scheme, on such terms and conditions as may be determined by the Directors and to do all acts and things which they may in their absolute discretion deem necessary or desirable to carry the same into effect.

**[Resolution 12]**  
**(Explanatory Note g)**

## By Order of the Board

Ms. Pavani Nagarajah  
Company Secretary  
**2 April 2026**  
Singapore

## Explanatory Notes:

### a. Ordinary Resolution 4

Ordinary Resolution 4, if passed, will facilitate payment of the Directors' fees for the financial year ending 31 December 2026. The Directors' fees for Mr. Michael Mun Hong Yew, Mr. Jeremy Mun Weng Hung, Mr. Christopher Huang Junli, Ms. Jeann Low Ngiap Jong, Mr. Larry Tan Jwee Meng and Mr. Tan Teik Seng will be paid in four (4) instalments on a quarterly basis, within thirty (30) days of the end of each quarter, with the payment for the first quarter of the year to be paid within thirty (30) days of the receipt of approval of the members at the forthcoming AGM. The aggregate amount of Directors' fees for the said Directors is calculated on the assumption that all Directors will hold office for the whole of the financial year ending 31 December 2026.

### b. Ordinary Resolutions 5 and 6

Ms. Jeann Low Ngiap Jong will, upon re-election as a Director of the Company, remain an Independent Director.

Mr. Tan Teik Seng will, upon re-election as a Director of the Company, remain an Independent Director.

The profiles of Ms. Jeann Low Ngiap Jong and Mr. Tan Teik Seng can be found in the "Board of Directors" section of the Company's Annual Report 2025 and the additional information required by Rule 720(6) of the Listing Manual of the SGX-ST is provided in the "Additional Information on Directors Seeking Re-election" section of the Company's Annual Report 2025.

### c. Ordinary Resolution 8

Ordinary Resolution 8, if passed, will empower the Directors to issue Shares in the capital of the Company and to make or grant instruments (such as warrants or debentures) convertible into Shares, and to issue Shares in pursuance of such instruments, up to a number not exceeding fifty per cent. (50%), of which up to twenty per cent. (20%) may be issued other than on a *pro rata* basis to shareholders of the Company.

For the purpose of determining the aggregate number of Shares that may be issued, the percentage of issued Shares shall be based on the total number of issued Shares (excluding treasury shares and subsidiary holdings) in the capital of the Company at the time that Ordinary Resolution 8 is passed, after adjusting for (a) new Shares arising from the conversion or exercise of any convertible securities or share options or vesting of share awards which were issued and are outstanding or subsisting at the time that Ordinary Resolution 8 is passed, and (b) any subsequent bonus issue or consolidation or subdivision of shares. This authority will, unless revoked or varied at a general meeting, expire at the next annual general meeting of the Company, or the date by which the next annual general meeting of the Company is required by law to be held, whichever is earlier.

# Notice of Annual General Meeting

## d. Ordinary Resolution 9

Ordinary Resolution 9 relates to the renewal of the mandate authorising the Company to purchase its own Shares, which was first approved by the shareholders at an extraordinary general meeting held on 13 October 2021. Please refer to the Appendix to the Company's Annual Report 2025 for more information.

## e. Ordinary Resolution 10

Ordinary Resolution 10, if passed, will empower the Directors to offer and grant Options under the Aztech ESOS and to allot and issue new Shares in the capital of the Company upon the exercise of such Options in accordance with the Aztech ESOS (as may be modified by the Committee from time to time), provided that the aggregate number of Shares to be allotted and issued pursuant to the Aztech ESOS, when aggregated with the number of Shares issued or issuable or existing Shares delivered or deliverable in respect of Options under the Aztech ESOS, awards under the Aztech PSP and any other share schemes of the Company, shall not exceed fifteen per cent. (15%) of the total number of issued Shares (excluding treasury shares and subsidiary holdings) on the day immediately preceding the date on which an Option is granted.

## f. Ordinary Resolution 11

Ordinary Resolution 11, if passed, will empower the Directors to grant Awards and to issue and allot Shares pursuant to the vesting of the Awards under the Aztech PSP. The grant of Awards under the Aztech PSP will be made in accordance with the provisions of the Aztech PSP. The aggregate number of Shares which may be issued pursuant to the Aztech PSP, when aggregated with the number of Shares issued or issuable or existing Shares delivered or deliverable in respect of Awards under the Aztech PSP, Options under the Aztech ESOS and any other share schemes of the Company, shall not exceed fifteen per cent. (15%) of the total number of issued Shares (excluding treasury shares and subsidiary holdings) on the day immediately preceding the date on which the Award is granted.

## g. Ordinary Resolution 12

Ordinary Resolution 12, if passed, will authorise the Directors to allot and issue Shares of the Company pursuant to the Aztech Scrip Dividend Scheme ("**Scrip Dividend Scheme**") to participating shareholders who, in respect of a qualifying dividend, have elected to receive scrip in lieu of the cash amount, in whole or in part, of that qualifying dividend. The authority will continue until the next annual general meeting of the Company, or the date by which the next annual general meeting is required by law to be held, whichever is earlier (unless such authority is revoked at a general meeting). Authority sought under Ordinary Resolution 12 is in addition to the general authority to issue Shares sought under Ordinary Resolution 8. For the avoidance of doubt, the Scrip Dividend Scheme is not applicable to the final one-tier tax exempt dividend of S\$0.03 per ordinary share for the financial year ended 31 December 2025, as proposed in Ordinary Resolution 2 or the special dividend of \$0.08 per ordinary share for the financial year ended 31 December 2025, as proposed in Ordinary Resolution 3.

## **NOTICE OF RECORD DATE AND DISTRIBUTION PAYMENT DATE**

As stated in the Notice of Record Date set out in the Company's announcement dated 26 February 2026, the Company wishes to notify shareholders that the Transfer Book and Register of Members of the Company will be closed at 5.00 p.m. (Singapore time) on 23 April 2026 for the purpose of determining shareholders' entitlements to the proposed final dividend of S\$0.03 per ordinary share in respect of the financial year ended 31 December 2025 ("**FY2025 Final Dividend**") and the proposed special dividend of S\$0.08 per ordinary share in respect of the financial year ended 31 December 2025 ("**FY2025 Special Dividend**"). The FY2025 Final Dividend and FY2025 Special Dividend, if approved by shareholders at the 2026 AGM, will be paid on 30 April 2026.

Duly completed registrable transfers of the Shares received by the Company's Registrar, B.A.C.S. Private Limited, at 77 Robinson Road, #06-03, Robinson 77, Singapore 068896 up to 5.00 p.m. (Singapore time) on 23 April 2026 will be registered before entitlements to the FY2025 Final Dividend and the FY2025 Special Dividend are determined.

Members whose securities accounts with The Central Depository (Pte) Limited ("**CDP**") are credited with Shares at 5.00 p.m. on 23 April 2026 will rank for the FY2025 Final Dividend and the FY2025 Special Dividend.

# Notice of Annual General Meeting

## Notes:

- (i) The AGM will be held, in a **wholly physical format**, at Suntec Singapore Convention & Exhibition Centre, MR 300-301 (Level 3), 1 Raffles Boulevard, Suntec City, Singapore 039593, on **Monday, 20 April 2026**. Please bring along your NRIC/passport to enable the Company to verify your identity. Shareholders and other attendees who are feeling unwell on the date of the AGM are advised not to attend the AGM in person. Printed copies of this Notice of AGM, the Proxy Form and the Request Form will be sent by post to members. This Notice of AGM is also published on the Company's website at <https://www.aztechglobal.com/agma/index.html> and SGXNET at <https://www.sgx.com/securities/company-announcements>.
- (ii) If shareholders have any questions in relation to any of the resolutions tabled for approval at the AGM, shareholders may send their queries in advance of the AGM, by **10.00 a.m. on 9 April 2026** (the "**Deadline**"), via electronic mail to the Company's corporate secretarial team at [agm@aztech.com](mailto:agm@aztech.com), or by post to 31 Ubi Road 1, #01-05, Singapore 408694, together with their full name, identification numbers, contact numbers and email address and manner in which they hold Shares in the Company (e.g. via CDP, CPF or SRS). The Company will address all substantial and relevant queries received by the Deadline from shareholders, by **10.00 a.m. on 15 April 2026** (being at least 48 hours prior to the deadline for the submission of Proxy Forms). Any substantial or relevant questions received after the Deadline will be addressed at the AGM itself. The Company will also publish its responses to the questions raised during the AGM on its corporate website and on SGXNET.
- (iii) (a) A member who is not a relevant intermediary is entitled to appoint not more than two (2) proxies to attend, speak and vote at the AGM. Where such member's Proxy Form appoints more than one (1) proxy, the proportion of the shareholding concerned to be represented by each proxy shall be specified in the Proxy Form. If no percentage is specified, the first named proxy shall be deemed to represent 100 per cent. of the shareholdings and the second named proxy shall be deemed to be an alternate to the first named proxy.
- (b) A member who is a relevant intermediary is entitled to appoint more than two (2) proxies to attend, speak and vote at the AGM, but each proxy must be appointed to exercise the rights attached to a different Share or Shares held by such member. Where such member's Proxy Form appoints more than two (2) proxies, the number and class of Shares in relation to which each proxy has been appointed shall be specified in the Proxy Form. In relation to a relevant intermediary who wishes to appoint more than two (2) proxies, it should annex to the Proxy Form the list of proxies, setting out, in respect of each proxy, the name, address, NRIC/Passport Number and proportion of shareholding (number of shares, class of shares and percentage) in relation to which the proxy has been appointed. If the relevant information is not specified, the first named proxy shall be deemed to represent 100 per cent. of the shareholdings. For the avoidance of doubt, a CPF Agent Bank who intends to appoint Central Provident Fund Investment Scheme ("**CPFIS**") investors or Supplementary Retirement Scheme ("**SRS**") investors as its proxies shall comply with this Note.

"**Relevant intermediary**" has the meaning ascribed to it in Section 181 of the Companies Act.

- (iv) A proxy need not be a member of the Company. A member may choose to appoint the Chairman of the AGM as his/her/its proxy, but this is not mandatory.
- (v) The instrument appointing a proxy or proxies, together with the power of attorney or other authority under which it is signed (if applicable) or a notarially certified copy thereof, must be:
- (a) if sent personally or by post, deposited with: Aztech Global Ltd., c/o B.A.C.S. Private Limited, at 77 Robinson Road, #06-03, Robinson 77, Singapore 068896; or
- (b) if submitted by electronic mail, received by the Company at [agm@aztech.com](mailto:agm@aztech.com),

in either case, by **10.00 a.m. on 17 April 2026**, being 72 hours before the time appointed for holding the AGM, and any instrument of proxy received after the aforementioned cut-off time shall be treated as invalid.

A member who wishes to submit a Proxy Form by post or via email can either use the printed copy of the Proxy Form which is sent to him/her/it by post or download, complete and sign the Proxy Form, before submitting it by post to the address provided above or scanning and sending it by email to the email address provided above.

If a member elects to submit duly completed Proxy Forms electronically via electronic mail, all subsequent correspondence with the Company in relation to the AGM shall be conducted via electronic mail and sent to the same electronic mail address from which the Proxy Forms were submitted.

Completion and return of the instrument appointing a proxy shall not preclude a member from attending, speaking and voting at the AGM if he/she so wishes. Any appointment of a proxy or proxies shall be deemed to be revoked if a member attends the AGM in person and, in such event, the Company reserves the right to refuse to admit any person or persons appointed under the relevant instrument of proxy to the AGM.

# Notice of Annual General Meeting

- (vi) The instrument appointing a proxy or proxies must be under the hand of the appointer or his/her attorney duly authorised in writing. Where the instrument appointing a proxy or proxies is executed by a corporation, it must be executed either under its common seal or under the hand of its attorney or a duly authorised officer. Where an instrument appointing a proxy or proxies is executed by an attorney on behalf of the appointer, the letter or power of attorney or a duly certified copy thereof must (failing previous registration with the Company) be lodged with the instrument of proxy, failing which the instrument may be treated as invalid.
- (vii) A corporation which is a shareholder of the Company may, in accordance with Section 179 of the Companies Act, authorise by resolution of its directors or other governing body such person as it thinks fit to act as its representative at the AGM.
- (viii) The Company shall be entitled to reject the instrument appointing the Chairman of the AGM or such other person as a proxy, if it is incomplete, improperly completed, illegible or where the true intentions of the appointer are not ascertainable from the instructions of the appointer specified on the instrument appointing the Chairman of the AGM or such other person as a proxy. In addition, in the case of a member whose shares are entered in the Depository Register, the Company may reject an instrument of proxy if the member, being the appointer, is not shown to have shares entered against his or her name in the Depository Register as at 72 hours before the time appointed for holding the AGM, as certified by CDP to the Company.
- (ix) Persons who hold shares in the Company through relevant intermediaries (as defined in Section 181 of the Companies Act), other than CPFIS and SRS investors, and who wish to participate in the AGM by (a) attending the AGM in person; (b) submitting questions to the Chairman of the AGM in advance of, or at, the AGM; and/or (c) voting at the AGM (i) themselves; or (ii) by appointing the Chairman of the AGM as proxy to attend, speak and vote on their behalf at the AGM, should contact the relevant intermediary through which they hold such shares as soon as possible in order to make the necessary arrangements for them to participate in the AGM.
- (x) In addition, CPFIS and SRS investors who wish to request their CPF Agent Banks or SRS Operators to appoint themselves or the Chairman of the AGM as proxy should approach their respective CPF Agent Banks or SRS Operators to submit their votes by **10.00 a.m. on 9 April 2026**.

The Company's Annual Report 2025 and the Appendix to the Company's Annual Report 2025 dated 2 April 2026 will be published on the Company's corporate website at <https://www.aztechglobal.com/agm/index.html> and will also be made available on SGXNET at <https://www.sgx.com/securities/company-announcements>. You will need an internet browser and PDF reader to view these documents. **Printed copies of these documents will not be sent to shareholders.** Shareholders who wish to receive a printed copy of the Company's Annual Report 2025 and the Appendix to the Company's Annual Report 2025 should complete and return the Request Form which has been sent to shareholders via post.

## Personal data privacy:

By attending, speaking or voting at the AGM, submitting questions in advance of the AGM and/or submitting an instrument appointing a proxy(ies) and/or representative(s) to attend, speak and vote at the AGM and/or any adjournment thereof, a member of the Company (i) consents to the collection, use and disclosure of the member's personal data by the Company (or its agents or service providers) for the purposes of the processing, administration and analysis by the Company (or its agents or service providers) of proxies and representatives appointed for the AGM (including any adjournment thereof) and the preparation and compilation of the attendance lists, minutes and other documents relating to the AGM (including any adjournment thereof), and in order for the Company (or its agents or service providers) to comply with any applicable laws, rules, regulations and/or guidelines (collectively, the "Purposes"), (ii) warrants that all information submitted is true and accurate, and where the member discloses the personal data of the member's proxy(ies) and/or representative(s) to the Company (or its agents or service providers), the member has obtained the prior consent of such proxy(ies) and/or representative(s) for the collection, use and disclosure by the Company (or its agents or service providers) of the personal data of such proxy(ies) and/or representative(s) for the Purposes, and (iii) agrees that the member will indemnify the Company in respect of any penalties, liabilities, claims, demands, losses and damages as a result of the member's breach of warranty.

Dear Shareholders

## 1. INTRODUCTION

We refer to Ordinary Resolution 9 set out in the Notice convening the 2026 AGM to be held on 20 April 2026, relating to the proposed renewal of the Share Purchase Mandate.

The purpose of this Appendix is to provide Shareholders with information relating to the proposed renewal of the Share Purchase Mandate to be tabled at the 2026 AGM, and to seek Shareholders' approval at the 2026 AGM for the same.

The SGX-ST assumes no responsibility for the correctness of any of the statements made, reports contained or opinions expressed in this Appendix.

If you are in any doubt as to the action you should take, you should consult your stockbroker, bank manager, solicitor, accountant, tax advisor or other professional adviser immediately.

## 2. THE PROPOSED RENEWAL OF THE SHARE PURCHASE MANDATE

### 2.1 Background

At the 2025 AGM held on 11 April 2025, Shareholders had approved the renewal of the share purchase mandate (the "**2025 Share Purchase Mandate**") to enable the Company to purchase or otherwise acquire issued Shares. The rationale for, and the authority and limitations on, the 2025 Share Purchase Mandate were set out in the appendix to the notice of the 2025 AGM dated 25 March 2025.

The 2025 Share Purchase Mandate will expire on the date of the forthcoming AGM, being the 2026 AGM. Accordingly, Shareholders' approval is being sought for the renewal of the Share Purchase Mandate at the 2026 AGM.

### 2.2 Shares Purchased or Acquired during the Previous 12 Months

As at the Latest Practicable Date, the Company has not purchased or acquired any Shares pursuant to the 2025 Share Purchase Mandate approved by Shareholders at the 2025 AGM.

# Appendix to Annual Report

## *(Share Buy Back)*

### 2.3 Rationale

The proposed Share Purchase Mandate will give the Company the flexibility to undertake purchases or acquisitions of its issued Shares during the period when the Share Purchase Mandate is in force, if and when circumstances permit. The purchases or acquisitions of Shares may, depending on market conditions and funding arrangements at the time, allow the Directors to better manage the Company's capital structure with a view to enhancing the earnings per share and/or net asset value per share of the Group. The purchases or acquisitions of Shares may, in appropriate circumstances, also help to mitigate short-term market volatility in the Company's share price, offset the effects of short-term speculation and bolster Shareholders' confidence. The Share Purchase Mandate may also be used to purchase or acquire existing Shares to satisfy options granted or awards given in relation to the Aztech Employee Share Option Scheme, the Aztech Performance Share Plan and any other employee share schemes which may be implemented by the Company, and allow the management of the Company to effectively manage and minimise the dilution impact (if any) associated with employee share schemes.

The Directors will decide whether to effect the purchases or acquisitions of its Shares via Market Purchases or Off-Market Purchases (both as defined below), after taking into account the prevailing market conditions, the financial position of the Group and other relevant factors.

### 2.4 Terms of the Share Purchase Mandate

The authority and limitations placed on the purchases or acquisitions of Shares by the Company pursuant to the Share Purchase Mandate, if renewed at the 2026 AGM, are substantially the same as those previously approved by Shareholders at the 2025 AGM. These are summarised below:

#### 2.4.1 *Maximum Number of Shares*

Only Shares which are issued and fully paid-up may be purchased or acquired by the Company.

The total number of Shares that may be purchased or acquired by the Company pursuant to the Share Purchase Mandate must not exceed 10% of the total number of Shares (excluding subsidiary holdings and any Shares which are held as treasury shares) in issue as at the date of the 2026 AGM at which the renewal of the Share Purchase Mandate is approved, unless the Company has reduced its share capital by a special resolution under Section 78C of the Companies Act, in which event the total number of Shares shall be taken to be the total number of Shares as altered by the special resolution.

As at the Latest Practicable Date, the Company is holding 2,032,000 Shares as treasury shares and has no subsidiary holdings. Purely for illustrative purposes, on the basis of a total of 771,793,545 issued Shares (excluding treasury shares) as at the Latest Practicable Date, and assuming that no further Shares are issued, no further Shares are purchased or acquired and held by the Company as treasury shares and that there are no subsidiary holdings, on or prior to the 2026 AGM, not more than 77,179,354 Shares (representing 10% of the total number of Shares in issue as at that date (excluding treasury shares and subsidiary holdings)) may be purchased by the Company pursuant to the Share Purchase Mandate.

#### 2.4.2 *Duration of Authority*

Purchases or acquisitions of Shares by the Company may be made, at any time and from time to time, on and from the date of the 2026 AGM at which the renewal of the Share Purchase Mandate is approved, up to the earliest of:

- (a) the date on which the next annual general meeting of the Company is held or required by law to be held; or
- (b) the date on which purchases or acquisitions of Shares are carried out to the full extent mandated; or
- (c) the date on which the authority conferred by the Share Purchase Mandate is revoked or varied by the Company in general meeting.

# Appendix to Annual Report

## (Share Buy Back)

The Share Purchase Mandate may be renewed by the Shareholders at the next annual general meeting or at any other general meeting of the Company. When seeking the approval of the Shareholders for the renewal of the Share Purchase Mandate, the Company is required to disclose details pertaining to purchases or acquisitions of Shares pursuant to the Share Purchase Mandate made during the previous 12 months, including the total number of Shares purchased or acquired, the purchase price per Share or the highest and lowest prices paid for such purchases or acquisitions of Shares, where relevant, and the total consideration paid for such purchases or acquisitions.

### 2.4.3 Manner of Purchases or Acquisitions of Shares

Purchases or acquisitions of Shares by the Company may be made by way of:

- (a) an on-market purchase transacted through the SGX-ST's trading system, through one or more duly licensed stockbrokers appointed by the Company for the purpose ("**Market Purchase**"); and/or
- (b) an off-market purchase in accordance with an equal access scheme as defined in Section 76C of the Companies Act ("**Off-Market Purchase**").

In an Off-Market Purchase, the Directors may impose such terms and conditions, which are not inconsistent with the Share Purchase Mandate, the Constitution, the Listing Manual, the Companies Act and other applicable laws and regulations, as they consider fit in the interests of the Company in connection with or in relation to an equal access scheme or schemes.

Under the Companies Act, an equal access scheme must satisfy all the following conditions:

- (a) the offers under the scheme are to be made to every person who holds shares to purchase or acquire the same percentage of their shares;
- (b) all of those persons have a reasonable opportunity to accept the offers made to them; and
- (c) the terms of all the offers are the same except that there must be disregarded:
  - (i) differences in consideration attributable to the fact that the offers relate to shares with different accrued dividend entitlements;
  - (ii) differences in consideration attributable to the fact that the offers relate to shares with different amounts remaining unpaid; and
  - (iii) differences in the offers introduced solely to ensure that each person is left with a whole number of shares.

Under the Listing Manual, in making an Off-Market Purchase, a listed company must issue an offer document to all shareholders containing, *inter alia*, the following information:

- (a) the terms and conditions of the offer;
- (b) the period and procedures for acceptances;
- (c) the reasons for the proposed share purchases;
- (d) the consequences, if any, of share purchases by the listed company that will arise under the Take-over Code or other applicable take-over rules;
- (e) whether the share purchases, if made, could affect the listing of the listed company's equity securities on the SGX-ST;

# Appendix to Annual Report

## *(Share Buy Back)*

- (f) details of any share purchases made by the listed company in the previous 12 months (whether by way of Market Purchases or Off-Market Purchases), giving the total number of shares purchased, the purchase price per share or the highest and lowest prices paid for the purchases, where relevant, and the total consideration paid for the purchases; and
- (g) whether the shares purchased by the listed company will be cancelled or kept as treasury shares.

### **2.4.4 Maximum Purchase Price**

The purchase price (excluding brokerage, stamp duties, applicable goods and services tax and other related expenses) to be paid for the Shares will be determined by the Directors, provided that such purchase price must not exceed:

- (a) in the case of a Market Purchase, 105% of the Average Closing Price (as defined hereinafter); and
  - (b) in the case of an Off-Market Purchase, 120% of the Average Closing Price (as defined hereinafter),
- ("Maximum Price") in either case, excluding related expenses of the purchase or acquisition.

For the purposes of this Appendix:

"Average Closing Price" means the average of the Closing Market Prices of the Shares over the last five (5) Market Days on the SGX-ST, on which transactions in the Shares were recorded, immediately preceding the day of the Market Purchase by the Company or, as the case may be, the date of the making of the offer pursuant to the Off-Market Purchase, and deemed to be adjusted for any corporate action that occurs during such five-Market Day period and the day of the Market Purchase or, as the case may be, the date of the making of the offer pursuant to the Off-Market Purchase;

"Closing Market Price" means the last dealt price for a Share transacted through the SGX-ST's trading system as shown in any publication of the SGX-ST or other sources; and

"date of the making of the offer" means the date on which the Company announces its intention to make an offer for the purchase or acquisition of Shares from Shareholders, stating the purchase price (which must not be more than the Maximum Price calculated on the foregoing basis) for each Share and the relevant terms of the equal access scheme for effecting the Off-Market Purchase.

## **2.5 Status of Purchased or Acquired Shares: Held in Treasury or Cancelled**

Any Shares purchased or acquired pursuant to the Share Purchase Mandate will be dealt with in such manner as may be permitted by the Companies Act.

Under the Companies Act, any Share purchased or acquired by the Company is deemed to be cancelled immediately on purchase or acquisition (and all rights and privileges attached to that Share shall expire on cancellation), unless such Share is held by the Company in treasury in accordance with Sections 76H to 76K of the Companies Act. Accordingly, the total number of issued Shares will be diminished by the number of Shares purchased or acquired by the Company, which are cancelled and are not held as treasury shares.

### **2.5.1 Treasury Shares**

Under the Companies Act, Shares purchased or acquired by the Company may be held or dealt with as treasury shares. Certain provisions on treasury shares under the Companies Act are summarised below:

- (a) **Maximum Holding:** The aggregate number of Shares held by the Company as treasury shares must not at any time exceed 10% of the total number of Shares (excluding subsidiary holdings and any Shares which are held as treasury shares) in issue at that time. In the event that the aggregate number of treasury shares held by the Company exceeds the aforesaid limit, the Company must dispose of or cancel the excess treasury shares in accordance with Section 76K of the Companies Act within six (6) months from the day the aforesaid limit is first exceeded, or such further period as may be allowed by ACRA.

# Appendix to Annual Report

## (Share Buy Back)

- (b) Voting and Other Rights: The Company must not exercise any right in respect of the treasury shares. In particular, the Company must not exercise any right to attend or vote at meetings and for the purposes of the Companies Act, the Company is to be treated as having no right to vote and the treasury shares are to be treated as having no voting rights.

In addition, no dividend may be paid, and no other distribution (whether in cash or otherwise) of the Company's assets (including any distribution of assets to members of the Company on a winding up) may be made, to the Company in respect of treasury shares. However, the allotment of shares as fully paid bonus shares in respect of the treasury shares is allowed. A subdivision or consolidation of any treasury share into treasury shares of a greater or smaller amount is allowed so long as the total value of the treasury shares after the subdivision or consolidation is the same as before.

- (c) Disposal or Cancellation: Where Shares are held as treasury shares, the Company may at any time:
- (i) sell the treasury shares (or any of them) for cash;
  - (ii) transfer the treasury shares (or any of them) for the purposes of or pursuant to any share scheme, whether for employees, directors or other persons, including the Aztech Employee Share Option Scheme and the Aztech Performance Share Plan;
  - (iii) transfer the treasury shares (or any of them) as consideration for the acquisition of shares in or assets of another company or assets of a person;
  - (iv) cancel the treasury shares (or any of them); or
  - (v) sell, transfer or otherwise use the treasury shares for such other purposes as the Minister for Finance may by order prescribe.

In addition, under the Listing Manual, an immediate announcement must be made of any sale, transfer, cancellation and/or use of treasury shares. Such announcement must include details such as (A) the date of the sale, transfer, cancellation and/or use of such treasury shares, (B) the purpose of such sale, transfer, cancellation and/or use of such treasury shares, (C) the number of treasury shares which have been sold, transferred, cancelled and/or used, (D) the number of treasury shares before and after such sale, transfer, cancellation and/or use, (E) the percentage of the number of treasury shares against the total number of issued shares (of the same class as the treasury shares) which are listed before and after such sale, transfer, cancellation and/or use and (F) the value of the treasury shares if they are used for a sale or transfer, or cancelled.

### 2.5.2 Purchased or Acquired Shares Cancelled

Under the Companies Act, where Shares purchased or acquired by the Company are cancelled, the Company must:

- (a) reduce the amount of its share capital where the Shares were purchased or acquired out of the capital of the Company;
- (b) reduce the amount of its profits where the Shares were purchased or acquired out of the profits of the Company; or
- (c) reduce the amount of its share capital and profits proportionately where the Shares were purchased or acquired out of both the capital and the profits of the Company,

by the total amount of the purchase price paid by the Company for the Shares cancelled, which includes any expenses (including brokerage or commission) incurred directly in such purchase or acquisition of Shares.

# Appendix to Annual Report

## (Share Buy Back)

Shares which are cancelled will be automatically delisted by the SGX-ST, and certificates (if any) in respect thereof will be cancelled and destroyed by the Company as soon as reasonably practicable following such cancellation. The total number of issued Shares will be diminished by the number of Shares purchased or acquired by the Company and which are cancelled and not held as treasury shares.

### 2.6 Source of Funds

In purchasing or acquiring its Shares, the Company may only apply funds legally available for such purchase or acquisition as provided in the Constitution of the Company and in accordance with applicable laws in Singapore.

Under the Companies Act, purchases or acquisitions of Shares by the Company may be made out of the Company's profits and/or capital so long as the Company is solvent. Under Section 76F(4) of the Companies Act, the Company is solvent if at the date of payment for the purchase or acquisition of its Shares, the following conditions are satisfied:

- (a) there is no ground on which the Company could be found to be unable to pay its debts,
- (b) if:
  - (i) it is intended to commence winding up within the period of 12 months immediately after the date of payment, the Company will be able to pay its debts in full within such period, or
  - (ii) it is not intended so to commence winding up, the Company will be able to pay its debts as they fall due during the period of 12 months immediately after the date of payment; and
- (c) the value of the Company's assets is not less than the value of its liabilities (including contingent liabilities) and will not, after the proposed purchase or acquisition of Shares become less than the value of its liabilities (including contingent liabilities).

The Company intends to use the Group's internal resources or external borrowings, or a combination of both to finance its purchases or acquisitions of Shares pursuant to the Share Purchase Mandate. In purchasing or acquiring Shares pursuant to the Share Purchase Mandate, the Directors will, principally, consider the availability of internal resources and thereafter consider the availability of external financing.

The Directors do not propose to exercise the Share Purchase Mandate in a manner and to such an extent that would materially and adversely affect the working capital requirements, the financial position of the Group taken as a whole, the financial flexibility or the investment ability of the Group. The purchase of its own Shares will only be effected after considering relevant factors such as the working capital requirements, availability of financial resources, the expansion and investment plans of the Group and the prevailing market conditions.

### 2.7 Financial Effects

The financial effects on the Company and the Group arising from purchases or acquisitions of Shares which may be made pursuant to the Share Purchase Mandate will depend on, *inter alia*, the aggregate number of Shares purchased or acquired, the price paid for such Shares, whether the purchase or acquisition is made out of capital or profits of the Company, the amount (if any) borrowed by the Group to fund the purchases or acquisitions, and whether the Shares purchased or acquired are held in treasury or cancelled. The financial effects on the Company and the Group, based on the audited financial accounts of the Company and the Group for FY2025, are based on the assumptions set out below.

#### 2.7.1 Purchase or Acquisition of Shares made out of Capital and/or Profits

Under the Companies Act, purchases or acquisitions of Shares by the Company may be made out of the Company's profits and/or capital so long as the Company is solvent.

Where the purchase or acquisition of Shares is made out of capital, the profits available for distribution as dividends by the Company will not be reduced.

# Appendix to Annual Report

## (Share Buy Back)

Where the purchase or acquisition of Shares is made out of profits, the purchase price paid by the Company for the Shares will correspondingly reduce the profits available for distribution as dividends by the Company.

Based on the audited accounts of the Company for FY2025, the Company had retained profits of about S\$93.72 million as at 31 December 2025. Accordingly, in respect of the Share Purchase Mandate sought at the 2026 AGM, it is expected that the purchases or acquisitions of Shares will be made out of capital.

For the purposes of paragraph 2.7 of this Appendix, the purchase price paid by the Company for the Shares does not include any expenses (including brokerage or commission) incurred in such purchase or acquisition of the Shares.

### 2.7.2 Number of, and Maximum Price paid for, Shares Purchased or Acquired

As at the Latest Practicable Date, the Company has a total of 771,793,545 Shares in issue (excluding treasury shares) and has no subsidiary holdings. Further, as at the Latest Practicable Date, the Company has a total of 2,032,000 treasury shares.

Based on 771,793,545 Shares in issue (excluding treasury shares and subsidiary holdings) as at the Latest Practicable Date and assuming that no further Shares are issued, no further Shares are purchased or acquired and held by the Company as treasury shares and there are no subsidiary holdings on or prior to the forthcoming 2026 AGM, the purchase or acquisition by the Company of up to the maximum limit of 10% of the total number of its issued Shares (excluding treasury shares and subsidiary holdings) will result in the purchase or acquisition by the Company of up to 77,179,354 Shares.

The financial effects of the purchase or acquisition of Shares by the Company set out below in this paragraph 2.7 are on the basis of the purchase or acquisition of 77,179,300 Shares (rounded down to the nearest 100 Shares) made entirely out of the capital of the Company.

In the case of Market Purchases by the Company made entirely out of capital and assuming that the Company purchases or acquires 77,179,300 Shares at the Maximum Price of S\$0.79 for each Share (being the price equivalent to 105% of the Average Closing Price of the Shares over the last five Market Days on the SGX-ST, on which transactions in the Shares were recorded, immediately preceding the Latest Practicable Date (rounded down to the nearest S\$0.005)), the maximum amount of funds required for the purchase or acquisition of 77,179,300 Shares is approximately S\$60.97 million.

In the case of Off-Market Purchases by the Company made entirely out of capital and assuming that the Company purchases or acquires 77,179,300 Shares at the Maximum Price of S\$0.90 for each Share (being the price equivalent to 120% of the Average Closing Price of the Shares over the last five Market Days on the SGX-ST, on which transactions in the Shares were recorded, immediately preceding the Latest Practicable Date (rounded down to the nearest S\$0.005)), the maximum amount of funds required for the purchase or acquisition of 77,179,300 Shares is approximately S\$69.46 million.

### 2.7.3 Illustrative Financial Effects

It is not possible for the Company to realistically calculate or quantify the financial effects of Share purchases or acquisitions that may be made pursuant to the Share Purchase Mandate as the resultant effect would depend on, *inter alia*, the aggregate number of Shares purchased or acquired, the price paid for such Shares and whether the Shares purchased or acquired are held in treasury or cancelled.

Purely for illustrative purposes only, based on the audited financial statements of the Company and the Group for FY2025, the assumptions stated above and assuming the following:

- (a) purchases or acquisitions of Shares by the Company are funded solely from internal resources;

# Appendix to Annual Report

## *(Share Buy Back)*

- (b) the transaction costs incurred for such purchase or acquisition of Shares pursuant to the Share Purchase Mandate are assumed to be insignificant and have been ignored for the purpose of computing the financial effects;
- (c) there were no issuances of Shares after the Latest Practicable Date; and
- (d) the proposed final and special dividend amounting in aggregate to S\$0.11 per Share which has been set out in Ordinary Resolutions 2 and 3 in the Notice convening the 2026 AGM has not been taken into account,

the effects of such purchases or acquisitions of Shares by way of Market Purchases and Off-Market Purchases on the financial positions of the Company and the Group under each of the following Scenarios A and B (as explained below) are as set out in the tables below:

- (i) **Scenario A:** Market Purchases or Off-Market Purchases (as the case may be) of 77,179,300 Shares made entirely out of capital and **held as treasury shares**; and
- (ii) **Scenario B:** Market Purchases or Off-Market Purchases (as the case may be) of 77,179,300 Shares made entirely out of capital and **cancelled**.

**SHAREHOLDERS SHOULD NOTE THAT THE FINANCIAL EFFECTS SET OUT BELOW, BASED ON THE RESPECTIVE ASSUMPTIONS STATED BELOW, ARE FOR ILLUSTRATION PURPOSES ONLY AND ARE NOT NECESSARILY REPRESENTATIVE OF FUTURE FINANCIAL PERFORMANCE. IN ADDITION, THE ACTUAL IMPACT WILL DEPEND ON, *INTER ALIA*, THE ACTUAL NUMBER AND PRICE OF SHARES THAT MAY BE PURCHASED OR ACQUIRED BY THE COMPANY, WHETHER THE PURCHASE OR ACQUISITION OF SHARES IS MADE OUT OF THE PROFITS OR CAPITAL OF THE COMPANY AND WHETHER THE SHARES PURCHASED OR ACQUIRED ARE HELD IN TREASURY OR CANCELLED.**

Although the Share Purchase Mandate would authorise the Company to purchase up to 10% of the total number of the Company's issued Shares (excluding treasury shares and subsidiary holdings), the Company may not necessarily purchase or acquire or be able to purchase or acquire the entire 10% of the total number of the issued Shares (excluding treasury shares and subsidiary holdings) as mandated. In addition, the Company may cancel all or part of the Shares purchased or hold all or part of the Shares purchased in treasury. The Directors would emphasise that they do not propose to exercise the Share Purchase Mandate to such an extent that would, or in circumstances that might, result in a material adverse effect on the financial position of the Group taken as a whole, or result in the Company being delisted from the SGX-ST.

**Note:**

(1) Assuming that the purchase of Shares had taken place on 1 January 2025, the consolidated basic EPS of the Group for FY2025 would be increased from 5.20 cents to 5.78 cents per Share as a result of the reduction in the number of issued Shares. No adjustments have been made to take into account foregone interest income as a result of the use of funds for the purchase of Shares.

- (a) Scenario A: Off-Market Purchases of 77,179,300 Shares made entirely out of capital and held as treasury shares<sup>(1)</sup>

As illustrated under Scenario A in the tables above, such purchase of Shares will have the effect of reducing the working capital and NAV of the Company and of the Group by the dollar value of the Shares purchased. The consolidated NAV per Share of the Group as 31 December 2025 will decrease from 37.79 cents to 31.98 cents.

- (b) Scenario B: Off-Market Purchases of 77,179,300 Shares made entirely out of capital and cancelled<sup>(1)</sup>

As illustrated under Scenario B in the tables above, such purchase of Shares will have the effect of reducing the working capital and NAV of the Company and of the Group by the dollar value of the Shares purchased. The consolidated NAV per Share of the Group as at 31 December 2025 will decrease from 37.79 cents to 31.98 cents.

**Note:**

- (1) Assuming that the purchase of Shares had taken place on 1 January 2025, the consolidated basic EPS of the Group for FY2025 would be increased from 5.20 cents to 5.78 cents per Share as a result of the reduction in the number of issued Shares. No adjustments have been made to take into account foregone interest income as a result of the use of funds for the purchase of Shares.

## 2.8 Tax Implications

Shareholders who are in doubt as to their respective tax positions or any tax implications arising from the purchase or acquisition of Shares by the Company, including those who may be subject to tax in a jurisdiction outside Singapore, should consult their own professional advisers.

## 2.9 Listing Manual

### 2.9.1 *No Purchases during Price Sensitive Developments*

Whilst the Listing Manual does not expressly prohibit any purchase of shares by a listed company during any particular time or times, because the listed company would be regarded as an “insider” in relation to any proposed purchase or acquisition of its issued shares, the Company will not undertake any purchase or acquisition of Shares pursuant to the proposed Share Purchase Mandate at any time after a price sensitive development has occurred or has been the subject of a consideration and/or decision of the Board of Directors until the price sensitive information has been publicly announced.

In particular, in line with Rule 1207(19) of the Listing Manual, the Company will not purchase or acquire any Shares through Market Purchases or Off-Market Purchases during the period of one (1) month immediately preceding the announcement of the Company’s half-year and full year financial statements (if the Company does not announce its quarterly financial statements) or, if the Company announces its quarterly financial statements (whether required by the SGX-ST or otherwise), during the period of two (2) weeks immediately preceding the announcement of the Company’s financial statements for each of the first three quarters of its financial year and one (1) month before the announcement of the Company’s full year financial statements.

### 2.9.2 *Listing Status of the Shares*

Under Rule 723 of the Listing Manual, a listed company shall ensure that at least 10% of the total number of issued Shares excluding treasury shares (excluding preference shares and convertible equity securities) in a class that is listed is at all times held by the public. The word “public” is defined in the Listing Manual as persons other than directors, chief executive officer, substantial shareholders, or controlling shareholders of the listed company and its subsidiaries, as well as the associates of such persons.

# Appendix to Annual Report

## *(Share Buy Back)*

As at the Latest Practicable Date, there are approximately 228,365,945 Shares, representing approximately 29.59% of the total number of issued Shares (excluding treasury shares), held by the public. In the event that the Company purchases the maximum of 10% of its total number of issued Shares (excluding treasury shares) from public Shareholders, based on information available as at the Latest Practicable Date, the percentage of the Company's public float would be reduced to approximately 21.77% of the total number of Shares in issue (excluding treasury shares). Accordingly, based on information available as at the Latest Practicable Date, the Directors are of the view that, at present, there is a sufficient number of Shares in issue (excluding treasury shares) held by public Shareholders that would permit the Company to potentially undertake purchases or acquisitions of Shares through Market Purchases up to the full 10% limit pursuant to the Share Purchase Mandate without affecting adversely the listing status of the Shares on the SGX-ST, and the number of Shares remaining in the hands of the public will not fall to such a level as to cause market illiquidity or adversely affect orderly trading of the Shares.

Although the Share Purchase Mandate would authorise the Company to purchase up to 10% of the total number of the Company's issued Shares (excluding treasury shares and subsidiary holdings), the Company may not necessarily purchase or acquire or be able to purchase or acquire the entire 10% of the total number of the issued Shares (excluding treasury shares and subsidiary holdings) as mandated. The Directors would emphasise that they do not propose to exercise the Share Purchase Mandate to such an extent that would, or in circumstances that might, result in the Company being delisted from the SGX-ST.

### **2.9.3 Reporting Requirements**

The Listing Manual specifies that a listed company shall report all purchases or acquisitions of its shares to the SGX-ST not later than 9.00 a.m.:

- (a) in the case of a Market Purchase, on the Market Day following the day of purchase or acquisition of any of its shares; and
- (b) in the case of an Off-Market Purchase, on the second Market Day after the close of acceptances of the offer.

Such announcement must include details of the date of the purchase, the total number of shares purchased, the number of shares cancelled, the number of shares held as treasury shares, the purchase price per share or the highest and lowest prices paid for such shares, as applicable, the total consideration (including stamp duties and clearing charges) paid or payable for the shares, the number of shares purchased as at the date of announcement (on a cumulative basis), the number of issued shares (excluding treasury shares and subsidiary holdings) after the purchase, the number of treasury shares held after the purchase and the number of subsidiary holdings after the purchase.

The Directors are required, under the Companies Act, to lodge with ACRA within 30 days of the purchase or acquisition of Shares on the SGX-ST the notice of purchase or acquisition of the Shares in the prescribed form and provide certain particulars including the date of the purchase or acquisition, the number of Shares purchased or acquired, the number of Shares cancelled, the number of Shares held as treasury shares, the issued share capital of the Company before and after the purchase or acquisition, the amount of consideration paid by the Company for the purchase or acquisition of the Shares, and whether the Shares were purchased or acquired out of the profits or the capital of the Company.

### **2.9.4 Listing Manual**

The Listing Manual restricts a listed company from purchasing its shares by way of market purchases at a price per share which is more than 5% above the Average Closing Price. The Maximum Price for the Shares in relation to Market Purchases referred to in paragraph 2.4.4 above complies with this requirement. Although the Listing Manual does not prescribe a maximum price in relation to purchases of shares by way of off-market purchases, the Company has set a cap of 20% above the average closing price of the Shares as the Maximum Price for the Shares to be purchased or acquired by way of an Off-Market Purchase.

## 2.10 Certain Take-over Code implications arising from the Proposed Share Purchase Mandate

Certain take-over implications arising from the purchase or acquisition of Shares by the Company pursuant to the Share Purchase Mandate are summarised below.

If, as a result of any purchase or acquisition of Shares made by the Company under the Share Purchase Mandate, the proportionate interest of a Shareholder and persons acting in concert with him in the voting capital of the Company increases, such increase will be treated as an acquisition for the purposes of Rule 14 of the Take-over Code. Consequently, a Shareholder or group of Shareholders acting in concert could obtain or consolidate effective control of the Company and become obliged to make a take-over offer for the Company under Rule 14.

Under the Take-over Code, persons acting in concert comprise individuals or companies who, pursuant to an agreement or understanding (whether formal or informal), co-operate, through the acquisition by any of them of shares in a company, to obtain or consolidate effective control of that company. Unless the contrary is established, the Take-over Code presumes, *inter alia*, the following individuals and companies to be acting in concert with each other: (a) a company with any of its directors (together with their close relatives, related trusts as well as companies controlled by any of the directors, their close relatives and related trusts) and (b) a company, its parent, subsidiaries and fellow subsidiaries, and their associated companies and companies of which such companies are associated companies, all with each other. For this purpose, a company is an associated company of another company if the second-mentioned company owns or controls at least 20% but not more than 50% of the voting rights of the first-mentioned company.

The circumstances under which Shareholders, including Directors, and persons acting in concert with them, respectively, will incur an obligation to make a take-over offer as a result of a purchase or acquisition of Shares by the Company are set out in Rule 14 and Appendix 2 of the Take-over Code.

In general terms, the effect of Rule 14 and Appendix 2 is that unless exempted, Directors and persons acting in concert with them will incur an obligation to make a take-over offer under Rule 14 if, as a result of a purchase or acquisition of Shares by the Company:

- (a) the percentage of voting rights held by such Directors and their concert parties in the Company increases to 30% or more; or
- (b) if the Directors and their concert parties hold between 30% and 50% of the Company's voting rights, and their voting rights increase by more than 1% in any period of six months.

Under Appendix 2 of the Take-over Code, a Shareholder not acting in concert with the Directors will not be required to make a take-over offer under Rule 14 if, as a result of the Company purchasing or acquiring its Shares, the voting rights of such Shareholder would increase to 30% or more, or, if such Shareholder holds between 30% to 50% of the Company's voting rights, the voting rights of such Shareholder would increase by more than 1% in any period of six months. Such Shareholder need not abstain from voting in respect of the resolution authorising the Share Purchase Mandate.

Any Shares held by the Company as treasury shares shall be excluded from the calculation of the percentages of voting rights under the Take-over Code referred to above.

### 2.10.3 Consequences of Share Purchases or Acquisitions by the Company

Based on the Register of Directors' Shareholdings and the Register of Substantial Shareholders of the Company, since the aggregate shareholdings and voting rights of Messrs Michael Mun Hong Yew and Jeremy Mun Weng Hung and their concert party(ies) (the "**Relevant Directors**") in the Company are more than 50% of the total number of issued Shares (excluding treasury shares) as at the Latest Practicable Date, the Relevant Directors would not be obliged to make a mandatory take-over offer for the Company under the Take-over Code in the event that the Company purchases or acquires the maximum 77,179,300 Shares (being 10% of the total number of issued Shares (excluding treasury shares and subsidiary holdings) as at the Latest Practicable Date) (rounded to the nearest hundred Share) pursuant to the Share Purchase Mandate.

The Directors are not aware of any other Substantial Shareholder or Director who would become obliged to make a take-over offer for the Company under Rule 14 of the Take-over Code as a result of the purchase by the Company of the maximum limit of 10% of its total number of issued Shares (excluding treasury shares) as at the Latest Practicable Date.

**THE STATEMENTS HEREIN DO NOT PURPORT TO BE A COMPREHENSIVE OR EXHAUSTIVE DESCRIPTION OF ALL IMPLICATIONS THAT MAY ARISE UNDER THE TAKE-OVER CODE. SHAREHOLDERS WHO ARE IN DOUBT AS TO WHETHER THEY WOULD INCUR ANY OBLIGATION TO MAKE A TAKE-OVER OFFER UNDER THE TAKE-OVER CODE AS A RESULT OF ANY PURCHASE OR ACQUISITION OF SHARES BY THE COMPANY PURSUANT TO THE SHARE PURCHASE MANDATE ARE ADVISED TO CONSULT THEIR PROFESSIONAL ADVISERS AND/OR THE SECURITIES INDUSTRY COUNCIL OF SINGAPORE AT THE EARLIEST OPPORTUNITY.**

### 2.11 Interested Persons

The Company is prohibited from knowingly buying Shares on the SGX-ST from an interested person, that is, a Director, the chief executive officer or controlling shareholder of the Company or any of their associates, and an interested person is prohibited from knowingly selling his Shares to the Company.

## 3. DIRECTORS' RECOMMENDATION

Having considered the rationale for the proposed renewal of the Share Purchase Mandate as set out in paragraph 2.3 of this Appendix, the Directors are of the opinion that the proposed renewal of the Share Purchase Mandate is in the interests of the Company and, accordingly, recommend that Shareholders **vote in favour** of Ordinary Resolution 9 relating to the proposed renewal of the Share Purchase Mandate as set out in the Notice of the 2026 AGM.

If you have Shares entered against your name in the Depository Register (as defined in Section 81SF of the Securities and Futures Act 2001 of Singapore), you should insert that number of Shares. If you have Shares registered in your name in the Register of Members, you should insert that number of Shares. If you have Shares entered against your name in the Depository Register and Shares registered in your name in the Register of Members, you should insert the aggregate number of Shares. If no number is inserted, this form of proxy will be deemed to relate to all the Shares held by you.
2. (a) A member of the Company who is not a relevant intermediary is entitled to appoint not more than two (2) proxies to attend, speak and vote at the AGM. Where such member's form of proxy appoints more than one (1) proxy, the proportion of the shareholding concerned to be represented by each proxy shall be specified in the form of proxy. If no percentage is specified, the first named proxy shall be deemed to represent 100 per cent. of the shareholdings and the second named proxy shall be deemed to be an alternate to the first named proxy.  
  
(b) A member who is a relevant intermediary is entitled to appoint more than two (2) proxies to attend, speak and vote at the AGM, but each proxy must be appointed to exercise the rights attached to a different Share or Shares held by such member. Where such member's form of proxy appoints more than two (2) proxies, the number and class of Shares in relation to which each proxy has been appointed shall be specified in the form of proxy. In relation to a relevant intermediary who wishes to appoint more than two (2) proxies, it should annex to the Proxy Form the list of proxies, setting out, in respect of each proxy, the name, address, NRIC/Passport Number and proportion of shareholding (number of shares, class of shares and percentage) in relation to which the proxy has been appointed. If the relevant information is not specified, the first named proxy shall be deemed to represent 100 per cent. of the shareholdings. For the avoidance of doubt, a CPF Agent Bank who intends to appoint Central Provident Fund Investment Scheme ("CPFIS") investors or Supplementary Retirement Scheme ("SRS") investors as its proxies shall comply with this Note.

"**Relevant intermediary**" has the meaning ascribed to it in Section 181 of the Companies Act 1967 of Singapore.

3. A proxy need not be a member of the Company. A member can appoint the Chairman of the AGM as his/her/its proxy, but this is not mandatory.
4. The instrument appointing a proxy or proxies, together with the power of attorney or other authority under which it is signed (if applicable) or a notorially certified copy thereof, must be:
  - (a) if sent personally or by post, deposited with: Aztech Global Ltd., c/o B.A.C.S. Private Limited, at 77 Robinson Road, #06-03, Robinson 77, Singapore 068896; or
  - (b) if submitted by electronic mail, received by the Company at [agm@aztech.com](mailto:agm@aztech.com),

in either case, by 10.00 a.m. on 17 April 2026, being 72 hours before the time appointed for holding the AGM, and in default, the instrument of proxy shall be treated as invalid.

5. Completion and submission of the instrument appointing a proxy(ies) by a shareholder will not prevent him/her from attending, speaking and voting at the AGM if he/she so wishes. The appointment of the proxy(ies) for the AGM will be deemed to be revoked if the shareholder attends the AGM in person and in such event, the Company reserves the right to refuse to admit any person or persons appointed under the relevant instrument appointing a proxy(ies) to the AGM.
6. The instrument appointing a proxy or proxies must be under the hand of the appointer or his/her attorney duly authorised in writing. Where the instrument appointing a proxy or proxies is executed by a corporation, it must be executed either under its common seal or under the hand of its attorney or a duly authorised officer.
7. Where an instrument appointing a proxy or proxies is signed on behalf of the appointer by an attorney, the letter or power of attorney or a duly certified copy thereof must (failing previous registration with the Company) be lodged with the instrument of proxy, failing which the instrument may be treated as invalid.
8. A corporation which is a shareholder of the Company may, in accordance with Section 179 of the Companies Act 1967 of Singapore, authorise by resolution of its directors or other governing body such person as it thinks fit to act as its representative at the AGM.
9. The Company shall be entitled to reject the instrument appointing a proxy or proxies if it is incomplete, improperly completed, illegible or where the true intentions of the appointer are not ascertainable from the instructions of the appointer specified on the instrument appointing a proxy or proxies. In addition, in the case of a member whose shares are entered in the Depository Register, the Company may reject an instrument of proxy if the member, being the appointer, is not shown to have shares entered against his or her name in the Depository Register as at 72 hours before the time appointed for holding the AGM, as certified by The Central Depository (Pte) Limited to the Company.
10. For purposes of the appointment of a proxy(ies) and/or representative(s), the member(s)' full name and CDP account number (if applicable) and the proxy(ies)' or representative(s)' full name and full NRIC/passport number will be required for verification purposes, and the proxy(ies)' or representative(s)' NRIC/passport will need to be produced for sighting upon registration at the AGM. This is so as to ensure that only duly appointed proxy(ies)/representative(s) attend, speak and vote at the AGM. The Company reserves the right to refuse admittance to the AGM if the proxy(ies)' or representative(s)' identity cannot be verified accurately.
