NEWS RELEASE:

LPRC Benefit Denial US Retail Summit (DiSa Point-of-Sale Activation Solution)

Singapore, 10 October 2016 – Equation Summit Limited's wholly-owned subsidiary, Disa Digital Safety Pte Ltd ("DiSa"), a Singapore-based Asset Protection solution provider is pleased to announce that the Loss Prevention Research Council ("LPRC") will hold a DiSa Point-of-Sale Activation ("PoSA") Summit (hosted by the HOME DEPOT) on 18 October 2016 in Atlanta, Georgia USA.

The LPRC has called key retail members to an exclusive event that will reveal the full results of the DiSa PoSA proof-of-concept ("POC") with Wal-Mart Stores Inc., the largest retailer in the world. The event will be a full-day discussion on POC results, LPRC research studies on the POC (with full disclosure), continued channel point-of-sale ("POS") integration and will include 5 key product categories that will be DiSa-Enabled (DE) in 2017 with Disa's Asset Protection solution. The five key categories will include television, computing, connected home, smart phone, and Bluetooth.

The LPRC has secured participation of 8 of the top 12 retailers in the United States where DiSa will host the Fortune 100 companies at the World Headquarters of the HOME DEPOT in Atlanta Georgia. The event will include retailers that aggregate over 70% percent of all market-share in the core product categories listed above. This PoSA conference is the first-of-its-kind in the US retail channel where all retailers are joining forces to implement a new industry standard.

Eddie Chng, CEO of Equation Summit Limited states, "DiSa Digital Safety USA is excited to have the partnership of the LPRC that allows us to have cross-channel participation for this exciting conference.

We look forward to setting the digital standard that will allow retailers to sell more products for years to come.”

About The LPRC (Loss Prevention Research Council)

The LPRC is an industry group comprises leading retailers, solution providers and scientists centred at the University of Florida in Gainesville. The LPRC conducts research to develop crime and loss prevention/control solutions that improve the performance of its members and the retail industry. Currently, the LPRC has over 90 members and is chaired by Dr. Read Hayes. The group conducts academic studies based in classroom as well as in retail stores. The LPRC was founded in 2001 and is currently in its 15th year of operation. With key retail members from Sterling Jewelers, Rite Aid to Home Depot, Walmart and Best Buy. The LPRC is home to 13 industry Working Groups with focus on various issues facing omni-channel retailers. LPRC belongs to various industry affiliations including but not limited to: LP Magazine, National Retail Federation, Retail Industry Leaders Association, LP Foundation and FMI (Food Marketing Institute).

About Disa Digital Safety Pte Ltd

Disa Digital Safety Pte Ltd is a Singapore-based technology solutions provider that specializes in research and development of cutting-edge security (“DiSa Asset Protection System”) and digital authentication (“QuickCheck”) solutions.

DiSa Asset Protection System, the world’s first anti-theft protection technology a digital lock on consumer electronic products. DiSa Asset Protection System allows the manufacturers and retailers of consumer electronic products to prevent theft by integrating DiSa Asset Protection System codes into their products during the manufacturing process by making it inoperable at the point-of-manufacturing until the point-of-sale at retail stores.

DiSa Asset Protection System has won several awards for technology innovation including two recognition of Achievement Awards for its innovative features at the 2009 Plus X Award Technology Conference in Cologne, Germany.

QuickCheck is a digital authentication solution that is capable of verifying the authenticity of a product instantaneously. It allows the consumers to validate the authenticity of a product in real time prior to a purchase decision via their own devices. This is done through the scanning of a unique barcode (“QC Code”) that is applied or printed on the packaging of the products. All it takes to authenticate is a smart phone with location service.
