Review of the Financial Performance of the Group

2H2020 vs 2H2019

The Group's revenue was \$18.3 million as compared to \$44.9 million in 2H2019, a decrease of 59% or \$26.6 million. The decrease was mainly due to lower sales volume from coal and drop in coal price, reflecting the impact of the COVID-19 pandemic.

Gross profit was \$0.6 million as compared to \$1.2 million in 2H2019. The decrease of \$0.6 million was in line with the lower revenue. Despite the revenue decline of 59%, the decrease in gross profit was lower at 48% as the margin for coal trading was a fixed rate based on the quantity delivered.

Other operating income was \$24,000 as compared to \$0.1 million in 2H2019. The total government grant income for 2H2020 was \$73,000. Other operating income in 2H2019 relates to handling fees earned in relation to coal shipments.

Administrative expenses were \$1.0 million as compared to \$1.3 million in 2H2019, a decrease of \$0.3 million. The decrease was mainly attributable to lower manpower costs.

Other operating expenses were \$0.2 million as compared to \$25,000 in 2H2019. This was primarily due to a higher net foreign currency exchange loss arising from the depreciation of US dollar against Singapore dollar in 2H2020.

Interest income was \$0.6 million as compared to \$2.0 million in 2H2019, a decrease of \$1.4 million. The decrease was mainly due to lower interest income from trade receivables with related parties and from a \$21.5 million loan granted to a related party. The loan to a related party and accrued interest amounting to approximately \$21.5 million and \$1.7 million respectively were fully repaid in cash in October 2020.

Interest expense was \$2,000 as compared to \$0.1 million in 2H2019. The decrease was due to lower utilisation of trade financing facilities for commodities trading.

Income tax expense was \$9,000 as compared to \$0.3 million in 2H2019. The lower income tax expense was mainly due to the write-back of overprovision of income tax in respect of prior financial years.

As a result of the above, profit after tax was \$0.1 million as compared to \$1.5 million in 2H2019, a decrease of \$1.4 million.

FY2020 vs FY2019

The Group's revenue was \$29.4 million as compared to \$93.1 million in FY2019, a decrease of 68% or \$63.7 million. The decrease was mainly due to lower sales volume from coal and rubber, reflecting the impact of the COVID-19 pandemic. The drop in coal price also contributed to the decline in revenue.

Gross profit was \$0.9 million as compared to \$2.4 million in FY2019. The decrease of \$1.5 million was in line with the lower revenue. Despite the revenue decline of 68%, the decrease in gross profit was lower at 62% as the margin for coal trading was a fixed rate based on the quantity delivered.

Other operating income was \$0.4 million as compared to \$0.2 million in FY2019, an increase of \$0.2 million. This was mainly contributed by the Government Jobs Support Scheme and other cash grants such as rental relief and property tax rebate. The total government grant income for FY2020 was \$159.000.

Administrative expenses were \$1.9 million as compared to \$2.6 million in FY2019, a decrease of \$0.7 million. The decrease was mainly attributable to lower manpower costs.

Other operating expenses were \$0.2 million as compared to \$0.1 million in FY2019, an increase of \$0.1 million. This was primarily due to a higher net foreign currency exchange loss arising from the depreciation of US dollar against Singapore dollar in FY2020.

Interest income was \$2.5 million as compared to \$3.4 million in FY2019, a decrease of \$0.9 million. The decrease was mainly due to lower interest income from trade receivables with related parties and from a \$21.5 million loan granted to a related party. The loan to a related party and accrued interest amounting to approximately \$21.5 million and \$1.7 million respectively were fully repaid in cash in October 2020.

Interest expense was \$0.1 million as compared to \$0.3 million in FY2019, a decrease of \$0.2 million. The decrease was due to lower utilisation of trade financing facilities for commodities trading.

Income tax expense was \$0.2 million as compared to \$0.5 million in FY2019, a decrease of \$0.3 million. The lower income tax expense was mainly due to the write-back of overprovision of income tax in respect of prior financial years.

As a result of the above, profit after tax was \$1.4 million as compared to \$2.5 million in FY2019, a decrease of \$1.1 million.

Review of the Financial Position of the Group

The Group's total assets were \$64.6 million as at 31 December 2020, an increase of \$0.4 million from \$64.2 million as at 31 December 2019. The increase was mainly due to higher cash and bank balances from loan repayment from a related party and collections from customers.

Included in the trade and other receivables of the Group were amounts totalling \$2.9 million (2019: \$9.3 million) which are expected to be repaid after one year from the respective financial year end in accordance with repayment agreements signed with the related parties and have been classified as non-current. Total trade and other receivables as at 31 December 2020 were \$29.4 million as compared to \$37.1 million as at 31 December 2019, a decrease of \$7.7 million due to collections from customers.

The Group's total liabilities were \$7.8 million as at 31 December 2020, a decrease of \$0.6 million from \$8.4 million as at 31 December 2019. The decrease was mainly due to lower borrowings in the form of trust receipts for commodities trading. It was partially offset by an increase in trade and other payables arising mainly from purchases of coal.

As at 31 December 2020, shareholders' fund was \$56.7 million as compared to \$55.7 million as at 31 December 2019, an increase of \$1.0 million.

The Group maintained a positive working capital of \$54.8 million as at 31 December 2020.

Review of the Consolidated Statement of Cash Flows for the Group

During FY2020, net cash from operating activities of \$12.0 million arose from profit for the financial year, after changes in working capital and other adjustments. In FY2019, net cash used in operating activities of \$9.5 million was mainly due to the timing of collections from customers and lumpy payments to suppliers, partially offset by higher fixed deposits placed with banks for utilisation of trade facilities for commodities trading.

Net cash from investing activities of \$21.0 million in FY2020 was mainly due to the repayment of a loan of \$21.5 million by a related party.

Net cash used in financing activities of \$5.0 million in FY2020 was for repayments of trust receipt financing for commodities trading, which was fully settled by 31 December 2020. Utilisation of trust receipt facilities for commodities trading in FY2019 contributed to net cash from financing activities of \$5.2 million.

Consequently, cash and cash equivalents were \$32.8 million as at 31 December 2020, representing a net inflow of \$28.0 million since 31 December 2019.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

Not applicable.

10. Events after the reporting period

With effect from 1 January 2021, SP Resources International Pte. Ltd. ("SPRI") and SP Mining & Engineering Pte. Ltd. ("SPME"), two of the Company's direct and indirect wholly-owned subsidiaries respectively, amalgamated to become SP Mining & Engineering Pte. Ltd. In the financial years ended 31 December 2020 and 2019, SPRI and SPME were reflected under "Commodities Trading" and "Corporate and Others" segments respectively. Following the amalgamation, SPME, which was dormant during the financial years ended 31 December 2020 and 2019, will be reflected under "Commodities Trading" segment.

11. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months

The outbreak of COVID-19 and related global responses including border closures and lockdowns have caused material disruptions to businesses around the world, leading to an economic slowdown. This situation has affected the Group's results for the financial year ended 31 December 2020.

With the global economic slowdown, the Group expects a slow recovery in its commodities trading activities. It may take a longer time before operations can be normalised amid the uncertainties ahead.

Although the Group's revenue may be lower as a result of COVID-19, the Group does not foresee any material impact to its liquidity position and availability of funds. There is no material uncertainty of the Group's ability to continue as a going concern in the next 12 months.

The Group will continually seek opportunities to grow its commodities trading business. In addition, the Group is exploring investment opportunities to reposition, expand and diversify its business and operations to achieve a more consistent and sustainable growth, while maintaining focus on disciplined management of costs and capital.
