14. Review of performance

A comparison of Top Glove's performance for the third quarter ended 31 May 2019 ("3QFY19") with the corresponding period last financial year is as follows:

| | 3QFY19 | 3QFY18 | Variance | 9MFY19 | 9MFY18 | Variance |
|---|---------|---------|----------|---------|---------|----------|
| | RM'mil | RM'mil | % | RM'mil | RM'mil | % |
| Revenue | 1,190.2 | 1,100.6 | 8.1% | 3,612.2 | 2,997.1 | 20.5% |
| Operating profit | 104.2 | 147.3 | (29.3%) | 409.3 | 395.4 | 3.5% |
| Profit before interest and tax | 100.1 | 142.9 | (30.0%) | 400.9 | 388.3 | 3.2% |
| Profit before tax | 82.2 | 134.2 | (38.7%) | 349.6 | 380.7 | (8.2%) |
| Profit after tax | 75.2 | 119.4 | (37.0%) | 293.5 | 335.3 | (12.5%) |
| Profit attributable to ordinary equity holders of the parent | 74.7 | 117.6 | (36.5%) | 290.5 | 332.0 | (12.5%) |

For 3QFY19, the Group's Sales Revenue came in at RM1.19 billion, 8.1% higher than 3QFY18 following a 9% increase in Sales Volume versus 3QFY18, in spite of the challenging environment. However, Profit After Tax eased by 37% year-on-year to RM75.2 million. This was mainly attributed to a sharp upward movement in the natural rubber latex price, which had increased by about 22% in 3QFY19 (from 1 March to 31 May 2019). This led to a mismatch between raw material cost and selling price, which coupled with strong competition, adversely impacted our bottom line. In contrast, while the average selling price was at approximately the same level in 3QFY18, the natural rubber latex price was stable in 3QFY18 and there was no impact for the mismatch of material cost and selling prices were reflected from May 2019 onwards, which improved as the effect of upward revisions to its average selling prices were reflected from May 2019 onwards, which improved the profit contribution from the natural rubber glove segment. As for nitrile glove segment, there was improvement in contribution due to higher sales volume and declining raw material price, coupled with improved in production efficiency from new facilities.

Meanwhile, increased competition in the vinyl glove segment in China also affected the company's bottom line. However, vinyl gloves are complementary to Top Glove's main product range, accounting only for 2% of Sales Revenue.

On a 9 months basis, Top Glove attained Sales Revenue of RM3.6 billion, an upturn of 20.5% compared with the corresponding period in FY18, which already amounts to 86% of the total Sales Revenue in FY18. In tandem, Sales Volume also grew 15% compared with 9MFY18. Profit After Tax was RM293.5 million, softer by 12.5%, with the impact of the spike in latex prices cushioned by a stronger performance in the first half of the financial year.

In keeping with its commitment to deliver shareholder value, Top Glove declared an interim dividend of 3.5 sen per ordinary share, which is payable on 16 July 2019.

15. Comparison of quarterly financial results with preceding quarter

| | 3QFY19 RM'mil | 2QFY19 RM'mil | Variance % |
|---|------------------|------------------|---------------|
| Revenue | 1,190.2 | 1,160.0 | 2.6% |

| Profit after tax | 75.2 | 106.7 | (29.5%) |
| Profit attributable to ordinary equity holders of the parents | 74.7 | 105.8 | (29.4%) |

On a quarter on quarter comparison, Sales Revenue for 3QFY19 increased 2.6% and Sales Volume increased by 2% compared with 2QFY19. Meanwhile, Profit Before Tax and Profit After Tax eased by 34.5% and 29.5% respectively. This was attributed to a 22% surge in the price of natural rubber latex compared with 2QFY19, coupled with strong competition as well as the time lag in passing on cost to customers, which affected the natural rubber glove profit contribution for 3QFY19. However, the situation has improved from May 2019 onwards due to the effect of selling price revision. The nitrile latex price decreased slightly by 3.1% to USD1.05/kg, which mitigated the impact from competition in nitrile glove segment. In order to ensure it is well-positioned to cater to the strong demand growth, the Group will continue to improve its product quality and manufacturing efficiency, and also increase its capacity.

Developed to safeguard the environment while protecting the user, these gloves are proven to biodegrade at least 10 times faster compared to conventional nitrile examination gloves, thereby providing an "end-of-life solution" to help reduce the accumulation of waste in landfills. In line with its commitment to sustainability, Top Glove will also continue to level up its practices in the ESG space particularly in terms of labour practices. In recognition of its community outreach efforts, Top Glove was also named CSR Malaysia Company of the Year (Manufacturing) in the CSR Malaysia Awards 2019.

PRESS RELEASE

Top Glove Corporation Bhd (Company No. 474423-X)

For Immediate Release

TOP GLOVE DELIVERS REVENUE GROWTH AMIDST CHALLENGING ENVIRONMENT

Group sees commendable 8% increase in Sales Revenue year-on-year

Shah Alam, Tuesday, 18 June 2019 Top Glove Corporation Bhd ("Top Glove") today announced its financial results for the Third Quarter ended 31 May 2019 ("3QFY19"), achieving growth in Sales Revenue and Sales Volume notwithstanding a difficult operating environment, characterised by a spike in raw material cost and intense competition.

For 3QFY19, the Group's Sales Revenue came in at RM1.19 billion, 8.1% higher than 3QFY18 and up 2.6% against 2QFY19. This followed an increase in Sales Volume of 9% versus 3QFY18 and 2% versus 2QFY19, in spite of the challenging environment. However, Profit After Tax eased by 37% and 29.5% year-on-year and quarter-on-quarter respectively to RM75.2 million, attributed to a 22% surge in the price of natural rubber latex compared with 2QFY19, coupled with strong competition. To offset the increase, Top Glove effected upward revisions in its average selling prices, the impact of which will only be reflected in the following quarter (4QFY19), owing to a time lag in the cost pass-through mechanism.

On a 9 months basis, Top Glove attained Sales Revenue of RM3.6 billion, an upturn of 20.5% compared with the corresponding period in FY18, which already amounts to 86% of the total Sales Revenue in FY18. In tandem, Sales Volume also grew 15% compared with 9MFY18. Profit After Tax was RM293.5 million, softer by 12.5%, with the impact of the spike in latex prices cushioned by a stronger performance in the first half of the financial year.

In keeping with its commitment to deliver shareholder value, Top Glove declared an interim dividend of 3.5 sen per ordinary share, payable on 16 July 2019.

Raw material prices for 3QFY19 remained mixed in comparison with the previous quarter. The average natural rubber latex price rose by 22% to RM4.42/kg and reached a peak of RM5.105 on 9 April 2019. Meanwhile, the average nitrile latex price decreased 3.1% to USD 1.05/kg.

Tan Sri Dr Lim Wee Chai remarked, "We have achieved volume growth, although external conditions were highly unfavourable, affecting this quarter's results. We will continue to focus our resources on

improving our product quality, cost structures and process efficiency, through the adoption of A.I., digitalisation, advanced technology and R&D, rather than external factors which are not within our control.

"As our product is closely linked with a commodity, short-term volatility is to be expected, which may affect our margins during certain financial quarters. However, this is only in the interim. In our business, we expect to perform better in the following quarter and over the longer term", he continued.

Top Glove is well-positioned to cater to global glove demand, which is projected to grow by at least 10% annually and will continue expanding its operations. Its expansion plans are detailed as follows:

| Country | Manufacturing | Operational by (Calendar quarter) | Number of production lines | Capacity (pcs per annum) | |

A testament to its consistently good performance and high standards of corporate governance, Top Glove was recently added to the Hijrah Syariah Index (effective 24 June 2019), following a semi-annual review of the FTSE Bursa Malaysia Index Series, whilst also maintaining its standing as a constituent of the FBM KLCI.

terms of labour practices. In recognition of its community outreach efforts, Top Glove was also named *CSR Malaysia Company of the Year (Manufacturing)* in the CSR Malaysia Awards 2019.

Tan Sri Dr Lim concluded, "We have not performed as well as we hoped owing to external factors beyond our control. However, we are positioned to do better in the next quarter to conclude our financial year on a stronger note, which we are confident of achieving in view of the increased product quality, automation and process efficiency we have put in place."
