Higher fair value gains from change in use of properties, partially offset by impairment of ITC Tianjin, lower share of results from associates and absence of reversal of cost accruals in 1H 2014

Portfolio loss from divestment of mall in Japan, Vivit and lower revaluation gains from investment properties, mitigated by improved contributions from Bedok Mall, Westgate and malls in China and lower staff costs

Lower fair value gains from investment properties, partially mitigated by higher fee income and contributions from properties acquired in 2014

Mainly gain on repurchase of CBs
