joins on 10 May***

SINGAPORE, 8 May 2024 – DBS Group Holdings announced today that veteran technologist Eugene Huang will be joining the bank as Chief Information Officer (CIO) effective 10 May 2024. In this role, Huang will be a member of the DBS Group Executive Committee, and report to CEO Piyush Gupta.

A veteran with over 36 years of technology and banking experience, Huang joins DBS from Ping An Group, where he led a team of 22,000 employees providing a full suite of IT offerings – including infrastructure, cybersecurity, middleware and customer-facing applications – to all of Ping An’s businesses. He was concurrently

Chairman and CEO of Ping An Technology, the technology arm of Ping An Group, with P&L responsibilities.

Huang is an American citizen, whose career has seen him work in multiple leading financial centres, and in both startups and multinational corporations. In the early part of his career, he spent nearly 10 years in New York with Salomon Smith Barney and Credit Suisse First Boston. He was subsequently with Citigroup and HSBC.

Prior to his latest role at Ping An Group, he was Deputy General Manager, Chief Technology Officer and Chief Operating Officer at OneConnect Financial Technology. Launched by Ping An in 2015, OneConnect is a technology services platform for financial institutions around the world. Huang played an integral role in the company's listing on the New York Stock Exchange in 2019, just four years after its establishment.

Huang will take over the CIO role from Han Kwee Juan, who has been double-hatting as DBS Acting CIO and Singapore Country Head since November 2023. Following this, Han will return full-time to being Singapore Country Head from 1 June.

Said Piyush Gupta, DBS CEO, "Eugene possesses a rare blend of deep business experience and technology expertise – as well as international exposure – which will serve DBS well as we continue to enhance our system resiliency while innovating for the future. His immediate focus will be to build on the work the bank has done since last year to strengthen our technology resiliency. He will be a strong addition to our leadership bench, and I look forward to his contributions as we continue to deliver on our promise of providing reliable and seamless banking to our customers."
