Notes:

(1) No comparative figures presented as Keppel-KBS US REIT was constituted on 22 Sep 2017 and listed on 9 Nov 2017 (Listing Date). 2Q 2018 refers to the period from 1 Apr 2018 to 30 Jun 2018.

(2) Forecast for 2Q 2018 was derived from one quarter of the 2018 forecast. There was no forecast figure for the period from Listing Date to 31 Dec 2017. Hence, forecast results for the period from Listing Date to 30 Jun 2018 comprise actual figures from Listing Date to 31 Dec 2017 and one half of the 2018 forecast.

(3) Based on 100% of taxable income available for distribution. DPU of 3.82 US cents for the period from Listing Date to 30 Jun 2018 comprise (i) DPU of 0.82 US cents from Listing Date to 31 Dec 2017 and (ii) DPU of 3.00 US cents for the period 1 Jan 2018 to 30 Jun 2018.

(4) Based on IPO and 2Q 2018 closing price per Unit of US$0.88.

Financial Performance

Keppel-KBS US REIT Management Pte. Ltd., as Manager of Keppel-KBS US REIT, is pleased to deliver net property income of US$36.1 million for the financial period since listing on 9 November 2017 to 30 June 2018, exceeding its IPO forecast of US$34.8 million by 3.8%.

This higher net property income was supported by overall rental growth, lower property expenses, and a one-off compensation income recognised in 1Q 2018 arising from an early lease termination at Westmoor Center in Denver, Colorado. The space was taken up in July 2018 by an existing tenant who was expanding its space, and cash rental contribution will commence in December 2018.

DPU for the period from 9 November 2017 to 30 June 2018 is 3.82 US cents, 0.5% above the IPO forecast of 3.80 US cents. This translates to an annualised available for distribution yield of 6.77%. The distributions will be paid out on 25 September 2018.

Portfolio Review

The Manager continues to capitalise on the steady demand for its portfolio of assets. 2Q 2018 saw positive leasing momentum with 32 new leases totalling to more than 222,000 sf secured during the period, bringing committed portfolio occupancy to 90.3% as at 30 June 2018, compared with 89.8% as at 31 March 2018. All new leases have built-in annual rental escalations of 2-4%, providing organic growth visibility for the portfolio.

As at 30 June 2018, the portfolio weighted average lease expiry[1] (WALE) was 3.7 years. WALE[1] for the portfolio's top 10 tenants, which include Ball Aerospace & Tech Corp and Zimmer Biomet Spine Inc. in the technology sector, as well as companies in the finance and insurance sectors, was 5.1 years.

Capital Management

Keppel-KBS US REIT adopts a prudent capital management approach. As at 30 June 2018, 75.0% of the REIT's term loans have been hedged with floating-to-fixed interest rate swaps, and all its borrowings are made in USD, providing a natural hedge for its income and investments.

The REIT's average cost of debt for the period from 9 November 2017 to 30 June 2018 was 3.4%[2]. As at 30 June 2018, aggregate leverage was 33.1%, and interest coverage ratio remained healthy at 5.7 times. The REIT's weighted average term to maturity of its debt is 3.9 years, with the first tranche of its term loan facilities maturing in 2021.

The Manager continually reviews the REIT's financing requirements to ensure an optimal and nimble capital structure that is favourable for yield-accretive acquisitions to grow its portfolio.

Outlook

The International Monetary Fund (IMF) has raised its US GDP growth projection for 2018 from 2.7% to 2.9%, citing strong near-term outlook and robust job creation, supported by fiscal stimulus, recovery of private investment as well as favourable financial conditions. Risks remain that the expansion in the federal deficit could trigger a rise in inflation, and recent moves to impose tariffs on imports could increase market volatility.

The US office market remains healthy. According to CoStar, the 12-month[3] office net absorption was 50.2 million sf as at end-June 2018. Deliveries were 67.2 million sf in the same period, with the majority of new supply coming from major cities' central business district.

National average occupancy rate for the same period remained stable at 89.7%. The 12-month overall rent growth improved from 1.5% as at end-March 2018 to 1.6% as at end-June 2018, with Seattle, Sacramento and Atlanta amongst the markets with highest rent growth.

The REIT, with assets located in key growth markets in the West Coast, Central, and East Coast, is well-placed to benefit from organic growth, largely from improved occupancies and built-in rental escalations in its portfolio. Office demand in these markets is underpinned by strong and defensive sectors such as technology, education and healthcare.

---

[1] By committed occupancy and NLA.
[2] Includes amortisation of upfront debt financing costs.
[3] Refers to the period from July 2017 to June 2018.

To capture value and further upsides, the Manager is actively pursuing accretive acquisitions in key growth markets where the REIT has a presence in, as well as other US cities with similar growth characteristics. The Manager remains committed to deliver sustainable distributions and strong total returns to Unitholders.

About Keppel-KBS US REIT (www.kepkbsusreit.com)

Listed on 9 November 2017 on the mainboard of the Singapore Exchange Securities Trading Limited, Keppel-KBS US REIT is a distinctive office REIT with properties located in key growth markets of the United States (US). The REIT's investment strategy is to principally invest in a diversified portfolio of income-producing commercial and real estate assets in key growth markets of the US to provide sustainable distributions and strong total returns for Unitholders.

Its current portfolio comprises a balanced mix of 11 office properties located in seven key growth markets across US. With an aggregate Net Lettable Area (NLA) of 3.2 million square feet, these quality properties have a diversified tenant base led by tenants in the growth and defensive sectors such as technology, finance and insurance, professional services, as well as medical and healthcare.

The assets in the West Coast are The Plaza Buildings and Bellevue Technology Center, both located in Seattle, Washington, as well as Iron Point in Sacramento, California. In the Central region, the assets are Great Hills Plaza and Westech 360 in Austin, Texas; and 1800 West Loop South and West Loop I & II in Houston, Texas; and Westmoor Center in Denver, Colorado. In the East Coast, the REIT owns Powers Ferry and Northridge Center I & II in Atlanta, Georgia and Maitland Promenade II in Orlando, Florida.

Keppel-KBS US REIT is managed by Keppel-KBS US REIT Management Pte. Ltd., which is jointly owned by two reputable Sponsors, Keppel Capital Holdings Pte. Ltd. (Keppel Capital) and KBS Pacific Advisors Pte. Ltd. (KPA)[4]. Keppel Capital is a premier asset manager in Asia, with a diversified portfolio of real estate, infrastructure and data centre properties in key cities globally. It has an established track record of managing Singapore-listed REITs and Business Trust. With KPA as a co-sponsor of Keppel-KBS US REIT, the Manager is able to leverage KPA's affiliation with KBS Capital Advisors LLC (KBS), which is one of the largest US owners of office properties globally.

Through the association with Keppel Capital and KBS, the Manager will be able to harness synergies from two best-in-class management platforms to deliver long-term sustainable distributions and total returns to Unitholders.

[4] The co-founding partners of KBS include Peter McMillan III and Keith D. Hall, who are partners of KPA and together indirectly hold a one-third stake of KBS. As KPA is a co-sponsor of Keppel-KBS US REIT, the Manager is able to leverage KPA's affiliation with KBS.

Important Notice

The past performance of Keppel-KBS US REIT is not necessarily indicative of its future performance. Certain statements made in this release may not be based on historical information or facts and may be "forward-looking" statements due to a number of risks, uncertainties and assumptions. Representative examples of these factors include (without limitation) general industry and economic conditions, interest rate trends, cost of capital and capital availability, competition from similar developments, shifts in expected levels of property rental income, changes in operating expenses, including employee wages, benefits and training, property expenses and governmental and public policy changes, and the continued availability of financing in the amounts and terms necessary to support future business.

Prospective investors and unitholders of Keppel-KBS US REIT (Unitholders) are cautioned not to place undue reliance on these forward-looking statements, which are based on the current view of Keppel-KBS US REIT Management Pte. Ltd., as manager of Keppel-KBS US REIT (the Manager) on future events. Notes:

(1) No comparative figures have been presented as Keppel-KBS US REIT was constituted on 22 September 2017 and dormant since its constitution to the Listing Date.

(2) There was no forecast figure for the period from Listing Date to 31 December 2017. Hence, forecast results for the period from Listing Date to 30 June 2018 comprise actual figures from Listing Date to 31 December 2017 and one half of the 2018 forecast. The forecast figures were derived from the Forecast Year 2018 as disclosed in the Prospectus.

(3) Finance expenses comprise the following:

	2Q 2018			Listing Date to 30 June 2018		
	Actual US$'000	**Forecast US$'000**	**+/(-)%**	**Actual US$'000**	**Forecast US$'000**	**+/(-)%**

(4) The Manager has elected to receive 100% of its base fee in the form of units for the period from Listing Date to 31 December 2018.

(5) This relates to fair value gain of the interest rate swaps entered into by the Group for hedging purpose. During the period from 1 January 2018 to 30 June 2018, derivative gain from mark-to-market of the interest rate swaps amounted to US$5.2 million as interest rates increased during the period. For the period from Listing Date to 31 December 2017, derivative gain was US$1.0 million.

(6) Other trust expenses comprise audit, tax compliance and other corporate expenses.

(7) Tax expense comprise current and deferred tax expenses. Current tax expense comprise mainly income tax expense on the Barbados entities, Keppel-KBS US REIT B1 SRL and Keppel-KBS US REIT B2 SRL.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Tax expense mostly related to deferred tax expense arising from capital allowances claimed on the investment properties.

(8) Included in distribution adjustments are the following:

	2Q 2018			Listing Date to 30 June 2018		
	Actual US$'000	**Forecast US$'000**	**+/(-)%**	**Actual US$'000**	**Forecast US$'000**	**+/(-)%**

Adjusted NAV and NTA per Unit [(1)] (US$) (excluding Distributable Income)	0.86	0.84

Notes:

(1) The computation of NAV and NTA is based on number of units in issue at the end of the period. NAV and NTA is the same as there is no intangible asset as at the end of the period.

8. REVIEW OF PERFORMANCE

Please refer to Paragraph 9 on the review of the actual results for 2Q 2018 and for the period from Listing Date to 30 June 2018 against the forecast as disclosed in the Prospectus.

9. VARIANCE FROM FORECAST STATEMENT

Actual vs Forecast for the financial period from Listing Date to 30 June 2018

The gross revenue of US$58.7 million was 0.2% or US$0.1 million above forecast largely due to higher rental and compensation income but partially offset by lower recoveries income. Recoveries income is recognised from charging tenants for reimbursements of certain property expenses. Recoverable income was lower than forecast in line with the lower property expenses for the period.

Property expenses were lower than forecast by 5.1% or $1.2 million, arising from lower net property management fees of $0.3 million and lower actual property expenses such as forecast straight lined utilities and other property expenses. However, some expenses are projected to increase later in the year.

Accordingly, net property income of US$36.1 million was higher than forecast by US$1.3 million or 3.8%.

During the period from 1 January 2018 to 30 June 2018, derivative gain from mark-to-market of interest rate swaps amounted to US$5.2 million as interest rates increased during the period. Derivative gain for the period from 9 November 2017 to 31 December 2017 was US$1.0 million.

Finance expenses of US$6.5 million were 2.8% lower than forecast as the revolving credit facilities had yet to be drawn down. The remaining other trust expenses were generally in line with forecast.

Consequently, profit before tax of US$31.5 million was above forecast by 27.1%.

Tax expense of US$2.4 million, mainly relating to deferred tax expenses, was below forecast as the US corporate tax rate in relation to distribution of capital gains was reduced from 35% to 21%. This was partially offset by higher current tax expense from tax provision for the Barbados entities as a result of the tax restructuring.

Due to the net effects of the above, net income for the period from 9 November 2017 to 30 June 2018 of US$29.2 million was higher than forecast by 34.9%.

Overall, income available for distribution to Unitholders of US$24.1 million was higher than forecast by 0.1%.

Actual vs Forecast for 2Q 2018

During the quarter, gross revenue of US$22.6 million was 2.1% or US$0.5 million below forecast largely due to drop in rental from a tenant at Westmoor Center which vacated the premises ahead of its lease expiry and paid a compensation fee in 1Q 2018. The compensation income received will be used to offset the drop in rental income and maintain distribution from 2Q 2018 to 4Q 2018 until the replacement tenant start contributing cash rental income.

Property expenses were lower than forecast by 7.2% or $0.7 million, arising from lower net property management fees of $0.2 million, and lower actual property expenses such as forecast straight lined utilities and other property expenses. However, some expenses are projected to increase later in the year.

Accordingly, net property income of US$13.8 million was higher than forecast by US$0.2 million or 1.5%.

Derivative gain from mark-to-market of interest rate swaps amounted to US$1.4 million as interest rates increased during the quarter.

Finance expenses of US$2.5 million were 2.3% lower than forecast as the revolving credit facilities had yet to be drawn down.

Tax expense of US$1.0 million was below forecast mainly due to lower deferred taxes recognised.

Due to the net effects of the above, net income for the quarter of US$10.0 million was 25.8% higher than forecast.

Overall, income available for distribution to Unitholders of US$9.5 million was higher than forecast by 0.1%.

10. PROSPECTS

The International Monetary Fund (IMF) has raised its US GDP growth projection for 2018 from 2.7% to 2.9%, citing strong near-term outlook and robust job creation, supported by fiscal stimulus, recovery of private investment, and favourable financial conditions. Risks remain that the expansion in the federal deficit could trigger a rise in inflation, and recent moves to impose tariffs on imports could increase market volatility.

The US office market remains healthy. According to CoStar, the 12-month[1] office net absorption was 50.2 million sf as at end-June 2018. Deliveries were 67.2 million sf in the same period, with the majority of new supply coming from major cities' CBD.

National average occupancy rate for the same period remained stable at 89.7%. The 12-month overall rent growth improved from 1.5% as at end-March 2018 to 1.6% as at end-June 2018, with Seattle, Sacramento and Atlanta amongst the markets with highest rent growth.

The REIT, with assets located in key growth markets in the West Coast, Central, and East Coast, is well-placed to benefit from organic growth, largely from improved occupancies and built-in rental escalations in its portfolio. Office demand in these markets is underpinned by strong and defensive sectors such as technology, education and healthcare.

To capture value and further upsides, the Manager is actively pursuing accretive acquisitions in key growth markets where the REIT has a presence in, as well as other US cities with similar growth characteristics. The Manager remains committed to deliver sustainable distributions and strong total returns to Unitholders.

11. RISK FACTORS AND RISK MANAGEMENT

The Manager ascribes importance to risk management and constantly takes initiatives to systematically review the risks it faces and mitigates them. Some of the key risks that the Manager has identified are as follows:

Tax risk

Changes in taxation legislation, administrative guidance or regulations, and/or any disagreement as to the interpretation thereof, may adversely affect Keppel-KBS US REIT and its Subsidiaries.

Any change in the tax status of Keppel-KBS US REIT and/or any of its direct and indirect subsidiaries (the "Group"), or change in taxation legislation, administrative guidance, or regulation (or any disagreement as to the interpretation thereof) that applies to the Group, could adversely affect the distribution paid by the Group.

In addition, any such tax changes could adversely affect the value of the Group's investments, and/or increase the U.S. and non-U.S. tax liabilities of the Group and/or affect the Group's ability to achieve its investment objectives. Such changes could have a significant negative impact on Keppel-KBS US REIT and its unitholders.

[1] Refers to the period from July 2017 to June 2018.

For example, the U.S. tax legislation modifying the IRC enacted in late 2017 (“2017 Tax Legislation”) impacted the deductibility of certain interest expense for taxable years beginning after 31 December 2017. As a result, Keppel-KBS US REIT restructured certain subsidiaries (the “Barbados Restructuring”), which resulted in certain costs being incurred. In this regard, although the Manager believes that the Barbados Restructuring is responsive to the relevant provisions in the 2017 Tax Legislation, the Manager cannot predict whether such restructuring will remain viable in either the near or long term. The IRS has indicated that certain guidance with respect to the international provisions of the 2017 Tax Legislation is imminent. The Manager cannot predict when such regulations or other administrative guidance will be released, whether any such regulations or administrative guidance will adversely affect the deductibility of interest by Keppel-KBS US REIT’s U.S. subsidiaries, or whether any such regulations or administrative guidance will have retroactive effect, although the IRS has indicated that retroactivity is likely.

If regulations or administrative guidance result in the non-deductibility of any interest payments by Keppel-KBS US REIT’s subsidiaries, the Group may face material U.S. and/or non-U.S. tax payments and other costs, and may be required to engage in further restructuring at significant additional costs (including costs incurred on an on-going basis). Such regulations and/or administrative guidance may also potentially render restructuring to preserve the deductibility of interest payments by Keppel-KBS US REIT’s subsidiaries impossible, resulting in significant economic impairment to the structure. All such additional tax and/or costs would potentially have a material adverse effect on the Group’s financial condition, cash flows and results of operations.

The Manager will continue to monitor future changes and clarifications and will make future announcements, if and when appropriate.

Interest rate risk

The Manager constantly monitors its exposure to changes in interest rates for its interest-bearing financial liabilities. Interest rate risk is managed on an on-going basis with the primary objective of limiting the extent to which net interest expense can be affected by adverse movements in interest rates through financial instruments or other suitable financial products.

Liquidity risk

The Manager monitors and maintains the Group’s cash flow position and working capital to ensure that there are adequate liquid reserves in terms of cash and credit facilities to meet short-term obligations. Steps have been taken to plan for capital and expense requirements so as to manage the cash position at any point of time.

Credit risk

Credit risk assessments of tenants are carried out by way of evaluation of information from corporate searches conducted prior to the signing of lease arrangements. Tenants are generally required to pay a security deposit as a multiple of monthly rents and maintain sufficient deposits in their accounts. In addition, the Manager also monitors the tenant mix.

Currency risk

Currency risk arises from future commercial transactions, recognised assets and liabilities and net investments denominated in foreign currencies. The Group’s business is not exposed to significant currency risk as the portfolio of properties is located in the United States and the cash flows from the operations of the properties are denominated in US$. The Group also borrows in the same currency as the assets in order to manage the foreign currency risk. Keppel-KBS US REIT will receive US$ distributions from the investment properties which will be passed to the Unitholders, either in US$ or converted to SG$ at the spot foreign exchange rate at the time of distribution. Keppel-KBS US REIT is exposed to fluctuations in the cross currency rates of the US$ and SG$ for operating expenses incurred in Singapore, which are not material. If and when appropriate, based on the prevailing market conditions, the Group may adopt suitable hedging strategies to minimise any foreign exchange risk.

Operational risk

Measures have been put in place to manage expenses, actively monitor rental payments from tenants and evaluate the Group's counter-parties on an ongoing basis. The Manager also performs an annual review of the adequacy and appropriateness of insurance coverage, reviews disaster and pandemic business continuity plans, and updates and modifies regularly.

12. DISTRIBUTIONS

(a) Current Financial Period reported on

Any distribution recommended for the current financial period reported on?

Yes

Name of Distribution	1st Distribution Distribution for the period from Listing Date to 30 June 2018
Distribution Type	a) Tax-exempt income distribution b) Capital distribution
Distribution Rate	a) Tax-exempt income distribution – 2.98 US cents per unit b) Capital distribution – 0.84 US cents per unit
Tax Rate	Tax-exempt income distribution Tax-exempt income distribution is exempt from tax in the hands of all Unitholders. Tax-exempt income relates to net taxed income and one-tier dividend income received by Keppel-KBS US REIT. Capital distribution Capital distribution represents a return of capital to Unitholders for Singapore income tax purposes and is therefore not subject to income tax. For Unitholders who are liable to Singapore income tax on profits from sale of Keppel-KBS US REIT units, the amount of capital distribution will be applied to reduce the cost base of their Keppel-KBS US REIT units for Singapore income tax purposes.

The Group does not have any IPT and no general IPT mandate has been obtained for the period under review.

15. CONFIRMATION PURSUANT TO RULE 720(1) OF THE LISTING MANUAL

The Manager confirms that it has procured undertakings from all its directors and executive officers in the format set out in Appendix 7.7 under Rule 720(1) of the Listing Manual.

The past performance of Keppel-KBS US REIT is not necessarily indicative of its future performance. Certain statements made in this presentation may not be based on historical information or facts and may be “forward-looking” statements due to a number of risks, uncertainties and assumptions. Representative examples of these factors include (without limitation) general industry and economic conditions, interest rate trends, cost of capital and capital availability, competition from similar developments, shifts in expected levels of property rental income, changes in operating expenses, including employee wages, benefits and training, property expenses and governmental and public policy changes, and the continued availability of financing in the amounts and terms necessary to support future business.

Prospective investors and unitholder of Keppel-KBS US REIT (**“Unitholders”**) are cautioned not to place undue reliance on these forward-looking statements, which are based on the current view of Keppel-KBS US REIT Management Pte. Ltd., as Manager of Keppel-KBS US REIT (the **“Manager”**) on future events. No representation or warranty, express or implied, is made as to, and no reliance should be placed on, the fairness, accuracy, completeness or correctness of the information, or opinions contained in this presentation. None of the Manager, the trustee of Keppel-KBS US REIT or any of their respective advisors, representative or agents shall have any responsibility or liability whatsoever (for negligence or otherwise) for any loss howsoever arising from any use of this presentation or its contents or otherwise arising in connection with this presentation. The information set out herein may be subject to updating, completion, revision, verification and amendment and such information may change materially. The value of units in Keppel-KBS US REIT (**“Units”**) and the income derived from them may fall as well as rise. Units are not obligations of, deposits in, or guaranteed by, the Manager or any of its affiliates. An investment in Units is subject to investment risks, including the possible loss of the principal amount invested.

Investors have no right to request the Manager to redeem their Units while the Units are listed. It is intended that Unitholders may only deal in their Units through trading on Singapore Exchange Securities Trading Limited (**“SGXST”**). Listing of the Units on SGX-ST does not guarantee a liquid market for the Units.

The Plaza Buildings, Seattle

Class A office buildings in the heart of Bellevue CBD

Location map

Market dynamics and outlook

- Bellevue is the fifth largest city in the state of Washington, and the third largest in the Seattle metropolitan area
- Bellevue CBD is one of the fast growing metro due to strong demographics and forecast growth in various employment sectors (e.g. cloud)
- Seattle office market expected to remain strong in near future supported by large undersupply of office space and low vacancy rate. Large scale expansion of cloud and IT firms will also fuel the office market
- Office construction activity suggests developers' confidence about future demand. Office rents likely to remain high or increase as employment growth drives demand for office space

Key landmarks / amenities

- The Bravern is a mixed-use project containing world class shopping, dining, entertainment and top-end residential accommodations

Accessibility features

Roads

- Full block frontage along NE 8th street, the primary east-west arterial in downtown Bellevue that connects high-density commercial uses to Interstate 405

Train

- Close proximity to the Bellevue Transit Center Station and upcoming East Link Extension, which will provide connection from the East side's biggest population and employment centers to downtown Seattle, Sea-Tac Airport and the University of Washington

Bellevue Technology Center, Seattle

Modern office campus with diverse functionalities

Location map

Market dynamics and outlook

- Seattle's eastside suburban office market has historically been among the most active in the region due to its relatively large inventory of office space
- One of the strongest suburban markets in the Seattle area with low vacancy rates despite high construction activity
- East suburban market contains a large supply of more affordable class A inventory than Seattle CBD or the Bellevue CBD, which should be attractive to tenants seeking lower rents for high quality space

Key landmarks / amenities

- Located just south of the Microsoft headquarters campus
- New ventures by Microsoft could result in increased demand for space office in the area by vendors and contractors who work with the software company

Accessibility features

Roads

- Situated near State Route 520, which provides access to the greater Seattle region, including the Seattle-Tacoma International Airport and the entire Puget Sound region
- 148th Avenue NE and NE 40th Street provide residents and businesses access to the greater Seattle region

Train

- Close proximity to the East Link Extension of Sound Transit's Link Light Rail which is scheduled to open in 2023
- This line will run from Redmond to downtown Seattle through Bellevue and across the I-90 floating bridge
