SINGAPORE, 13 August 2018 – LY Corporation Limited (“LY Corporation” or the “Company”), one of Malaysia’s leading manufacturers and exporters of wooden bedroom furniture, wishes to announce that the Group’s revenue decreased by 9.6% to RM148.0 million for the first six months ended 30 June 2018 (“1H2018”). The Group incurred a net profit of RM3.7 million for 1H2018 as compared to a net profit of RM21.1 million in 1H2017. However, excluding the non-recurring Initial Public Offer (“IPO”) expenses of approximately RM6.8 million in 1Q2018, the Group would have generated a profit after tax 183.8% higher than 1H2018, of approximately RM10.5 million for 1H2018.

The decline is attributed to the decrease in the number of 40-ft containers sold from 1,585 units of 40-ft containers in the three months ended 30 June 2017 ("2Q2017") to 1,295 units of 40-ft containers in the three months ended 30 June 2018 ("2Q2018") due to the decrease in demand from customers mainly from the United States of America. Secondly, the decrease in the average selling price per container from RM51,000 in 2Q2017 to RM49,000 in 2Q2018 is due mainly to the strengthening of the RM against US dollar. The average movement of RM against USD has been strengthened by approximately 8.8% in 2Q2018 as compared to 2Q2017.

"The Group remains optimistic of our growth prospects despite the recent strengthening of RM against the USD due to our hedging policy and flexible selling price adjustment mechanism. We are expanding our sales and distribution network in China through a website service provider, Hangzhou Feilue Network Technology Co., Ltd. In addition, while there is heightened certainties in world trade due to the trade dispute between the US and China, we expect the trade dispute to benefit our Company" said Mr Tan Yong Chuan, Executive Director and Chief Executive Officer of LY Corporation.

The cost of sales decreased by approximately RM11.3 million, or 18.5% mainly due to the decrease in raw materials purchased, labour costs and subcontractors' costs. The decrease in these costs was mainly due to the lower level of production during 2Q2018.

The gross profit decreased by approximately RM6.0 million, or 31.5%, and overall gross profit margin decreased from 23.6% in 2Q2017 to 20.6% in 2Q2018 as a result of the decrease in the average selling price arising from the strengthening of the RM against US\$. As explained above, the average RM against the US\$ has strengthened by approximately 8.8% in 2Q2018 as compared to 2Q2017.

Meanwhile, the IPO net proceeds of S\$13 million has already been gradually invested as planned for the use of the acquisition of machineries and equipment as well as the construction of additional facilities in 1H2018.
