

NEWS RELEASE

CSE Global Secures Major Electrification Contract Worth S\$64.3 million

Singapore, 14 August 2026 – CSE Global Limited ("CSE Global" or the "Group"), a global systems integrator providing electrification, communications and automation solutions, today announced that it has secured a major contract worth US\$49.8 million (approximately S\$64.3 million) in the United States of America ("USA").

The contract relates to the design and manufacture of power distribution centres ("PDCs"), as well as the integration of complex electrical and control systems and equipment, for the Cheyenne Power Hub project in USA. CSE Global will supply the PDCs to a customer for the project. The PDCs will form a critical part of the power infrastructure, enabling the safe and reliable distribution of power to the adjacent data centre. The contract is expected to be executed progressively between 2026 and 2027.

Mr Lim Boon Kheng, Group Managing Director / Chief Executive Officer of CSE Global, said, "Securing this major contract reflects CSE Global's strong integration capabilities across diverse sectors and the confidence our customer has in our proven execution track record. We are grateful for the continued trust placed in us by our customer.

This contract strengthens our Electrification business and demonstrates our capability to deliver critical power infrastructure solutions for large-scale energy and data centre developments. We are pleased to support our customer in the delivery of the Cheyenne Power Hub project by supplying power distribution centres that will form an integral part of the power infrastructure serving the adjacent data centre.

The contract is expected to contribute positively to CSE Global's financial performance for the financial years ending 31 December 2026 and 2027."

The contract is not expected to have any material impact on the consolidated net tangible assets per share or earnings per share of the Group for the current financial year. None of the directors or substantial shareholders of CSE Global has any direct or indirect interest in the contract.

About CSE Global Limited (“CSE Global”)

CSE Global is a leading systems integrator providing electrification, communications, and automation solutions across various industries globally.

At CSE Global, we pride ourselves as a trusted, lifelong partner to our customers who always has their interests at heart. Leveraging our engineering experience, technology and diverse skill sets across our global network, we design and build customised, integrated systems for our clients that solve their problems.

Our integrated systems – from electrification to communications or automation systems – sit at the heart of every infrastructure and are mission-critical in nature. With highly attuned engineering capabilities at our core, we have successfully delivered complex, large-scale projects amidst the most challenging conditions. Our technologies are designed to reduce waste, allow for greener, smarter processes and are built to last.

Listed on the Singapore Exchange since 1999 and with our presence across 15 countries, 61 offices, and more than 2,000 employees across the globe, we enjoy long-standing relationships with a sizeable customer base comprising large government organisations and renowned brands.

Over the years, we have built a workplace culture and management style that is people-centric, supportive and collaborative with employee well-being and people improvement as our key focus. Our passion for our work has resulted in a consistent profit track record for the past three decades, as we continue to pursue operational excellence to achieve sustainable growth and enhanced shareholder returns.

CSE Global – Customer Satisfaction Everytime.
