Following the latest purchases, the Co-Founders' collective interest in the Company increased from 138,467,484 shares, representing approximately 71.01% of the Company's issued share capital, to 139,193,484 shares, representing approximately 71.38% during the period between 25 August and 4 September 2026.

Including this latest round of purchases, the Co-Founders have collectively acquired an aggregate of 916,200 shares through open-market purchases between 19 June and 4 September 2026 for an aggregate consideration of approximately S$168,834 and at a cumulative VWAP of S$0.184 per share.

The share purchases were undertaken by the Co-Founders in their personal capacities and do not result in any change to the Company's issued share capital. The additional share purchases increased the Co-Founders' personal economic exposure to Kin Global as they lead the execution of the Group's post-listing growth strategy.

The latest purchases also come as the Group makes progress against selected business strategies and future plans set out at the time of its listing. In July 2026, Kin Global successfully delivered the inaugural PPA Asia 500 Leapmotor Singapore Open, demonstrating progress towards its stated ambition of moving up the value chain from an event delivery partner to an organiser of recurring international sports events.

More recently, the Group secured a multi-year contract through an open tender to provide event management services for sports-related activities. This is consistent with the Group's stated focus on participating in more tenders and securing more contracts to scale its core sports-event delivery capabilities.

Mr. Vincent Chai (谢青丰), Executive Director and Chief Executive Officer of Kin Global, commented on behalf of the four co-founders: "*Following our earlier purchases with our personal capital in Kin Global, the latest round of share purchases further demonstrates that our interests remain closely tied to the long-term value we seek to create for all shareholders.*

Ultimately, sustainable shareholder value will be built through disciplined execution and consistent delivery. The successful delivery of the inaugural PPA Asia 500 tournament in Singapore and the recent award of a multi-year contract through an open tender represent the progress we have made since our listing.

Our focus remains on scaling our growth ambitions within the broader events tourism industry, and moving up the value chain through a more integrated business model underpinned by IPs ownership and new M&A opportunities.

These initiatives will strengthen our competitive differentiation, and support more sustainable, recurring growth ahead."
