DOCUMENTS INCORPORATED BY REFERENCE

15. If any of the following documents are incorporated by reference, briefly describe them and identify the part of SEC Form 17-A into which the document is incorporated:

- X** (a) Any annual report to security holders;
- (b) Any information statement filed pursuant to SRC Rule 20 and 17.1(b);
- (c) Any prospectus filed pursuant to SRC Rule 8.1-1.

PART 1 - BUSINESS AND GENERAL INFORMATION

Item 1. Business

(A) Description of business

(1) Business Development

The 169-year-old Bank of the Philippine Islands (“BPI”) is the first bank in the Philippines and Southeast Asia, and licensed by the Bangko Sentral ng Pilipinas (“BSP”) to provide universal banking services. The Bank is among the biggest in the industry in terms of total assets, equity capital, and market capitalization, and has a significant share of total banking system deposits, loans, and investment assets under management. It is recognized as one of the country’s top providers of the following services: asset management, cross-border remittances, life and non-life bancassurance, as well as asset finance and leasing. BPI also has a significant capital markets presence, particularly in fixed income and equities underwriting, distribution and brokerage. It is a significant provider of foreign exchange to both retail and corporate clients. The Bank also has the country’s second largest branch network and operates the second largest ATM network. It is a leader and innovator in the use of digital channels, and is a major provider of financial services through online and mobile banking.

Historical Background. Founded in 1851, BPI was the first bank formed in the Philippines and was the issuer of the country’s first currency notes in 1855. It opened its first branch in Iloilo in 1897 and pioneered in sugar crop loans. It also financed the first tram service, telephone system, and electric power utility in Manila and the first steamship in the country. As such, BPI and its “escudo” ranks as one of the largest home-grown Philippine brands and carries an extensive legacy.

Recent History. For many years after its founding, BPI was the only domestic commercial bank in the Philippines. BPI’s business was largely focused on deposit taking and extending credit to exporters and local traders of raw materials and commodities, such as sugar, tobacco, coffee, and indigo, as well as funding public infrastructure. In keeping with the regulatory model set by the Glass Steagall Act of 1932, the Bank operated for many years as a private commercial bank. In the early 1980s, the Monetary Board of the Central Bank of the Philippines (now the Bangko Sentral ng Pilipinas, or BSP) allowed BPI to evolve into a fully diversified universal bank, with activities encompassing traditional commercial banking as well as investment and consumer banking. This transformation into a universal bank was accomplished through both organic growth and mergers and acquisitions, with BPI absorbing an investment house, a stock brokerage, a leasing company, a savings bank, a retail finance company, and bancassurance platforms.

BPI consummated three bank mergers since the late 1990s. In 1996, it merged with City Trust Banking Corp., the retail banking arm of Citibank in the Philippines, which enhanced its franchise in consumer banking. In 2000, BPI acquired Far East Bank & Trust Company (“FEBTC”), then the largest banking merger in the Philippines. This merger established BPI’s dominance in asset management & trust services and branch banking; furthermore, it enhanced the Bank’s penetration of middle market clients. In 2000, BPI also formalized its acquisition of major insurance companies in the life, non-life and reinsurance fields. In 2005, BPI acquired and merged with Prudential Bank, a medium sized bank with a clientele of middle market entrepreneurs.

In 2011, BPI became the first bank in the Philippines to acquire the trust business of a foreign bank when it purchased the trust and investment management business of ING Bank N.V. Manila.

In 2014, BPI completed a strategic partnership with Century Tokyo Leasing Corp., one of the largest leasing companies in Japan, to form BPI Century Tokyo Lease & Finance Corp., with BPI retaining 51% of ownership. This strategic partnership is expected to help BPI innovate in asset financing products and enhance the service experience of an expanding base of Philippine consumers and corporations seeking asset leasing and rental solutions.

In 2015, BPI completed another strategic partnership with Global Payments (“GPN”), an Atlanta-based, NYSE-listed provider of international payment services. By combining its merchant acquiring network with that of GPN, BPI stands to provide enhanced services to its card customers, as well as to its merchant clients. The partnership with GPN remained 49% owned by BPI.

In August 2016, BPI acquired a 10% minority stake in Rizal Bank Inc. ("RBI"), a member institution of Center for Agriculture and Rural Development Mutually Reinforcing Institutions ("CARD MRI"), a group of social development organizations that specialize in microfinance.

Effective September 20, 2016, BPI has taken full control over BPI Globe BankO, Inc. after acquiring the 20% and 40% stake of Ayala Corporation and Globe Telecom, respectively. On December 29, 2016, the Securities and Exchange Commission approved change of the corporate name to BPI Direct BankO, Inc., A Savings Bank, after BPI Direct absorbed the entire assets and liabilities of BankO.

Also on December 29, 2016, BPI successfully spun off its BPI Asset Management and Trust Group ("BPI AMTG") to a Stand-Alone Trust Corporation ("SATC") named BPI Asset Management and Trust Corp. ("BPI AMTC"). BPI AMTC officially commenced its operations on February 1, 2017.

BPI evolved to its present position as a leader in Philippine banking through a continuous process of improving its array of products and services, while maintaining a balanced and diversified risk profile that helped reinforce the stability of its earnings.

Business Milestones (2019-2020). In November 20, 2019, BPI Investment Management Inc. ("BIMI"), a wholly owned subsidiary of BPI, and PhilAm Asset Management, Inc. ("PAMI") announced the agreement to transfer the management and distribution of nine mutual funds from PAMI to BIMI. BIMI and PAMI completed the assignment and assumption of transaction on January 2020.

In November 2020, the Bank announced that Tokyo Century Corporation ("TCC") has decided to acquire an additional 2% of the issued shares of BPI Century Tokyo Lease & Finance Corp ("BPI CTL"), which will increase their equity stake to 51%. The transaction was completed in December 2020.

Principal Subsidiaries. The Bank's principal subsidiaries are:

- a) BPI Family Savings Bank, Inc. ("BFSB") is BPI's flagship platform for retail lending, in particular, housing and auto loans. It is also one of BPI's primary vehicles for retail deposits. BFSB was acquired by BPI in 1984. In January 2021, the Bank announced BPI's merger with BFSB, with BPI as the surviving entity, subject to regulatory and stakeholder approvals;
- b) BPI Capital Corp. ("BPI Cap") is an investment house focused on corporate finance and the underwriting, distribution, and trading of debt and equity securities. It began operations in December 1994. BPI Cap wholly owns BPI Securities Corp., a stock brokerage;
- c) BPI Direct BankO, Inc., A Savings Bank ("BankO"), serves microfinance customers through branch, digital, and partnership channels. Founded in February 2000 as BPI Globe BankO, it is now wholly-owned, following a September 2016 purchase of stakes owned by Ayala Corp. (20%) and Globe Telecom, Inc. (40%) and a December 2016 merger with BPI Direct Savings Bank, Inc.;
- d) BPI International Finance Limited ("BPI IFL") is a deposit taking company in Hong Kong. Originally established in August 1974, it provides deposit services as well as client-directed sourcing services for international investments;
- e) BPI Remittance Centre Hong Kong Ltd. ("BERC HK") is a licensed money service operator in Hong Kong servicing the remittance services to beneficiaries residing throughout the Philippines. On November 21, 2018, BPI IFL distributed its shares in BERC HK as a property dividend to the Parent Bank. BERC HK became an immediate subsidiary of the Parent Bank following this;
- f) BPI Europe Plc. ("BPI Europe") commenced operations in the United Kingdom in May 2007 as a bank registered in England and Wales. It is a UK-licensed bank authorized by the Prudential Regulation Authority (PRA), and regulated by the PRA and the Financial Conduct Authority (FCA). It started its operations offering retail deposit products and money services, servicing retail customers, primarily targeting the Filipino community;

- g) BPI Century Tokyo Lease & Finance Corp. ("BPI CTL") is a non-bank financial institution ("NBFI") that provides financing services pursuant to the Financing Company Act. BPI CTL is a joint venture with Tokyo Century Corporation ("TCC"), who purchased a 49% stake in 2014. BPI CTL wholly owns BPI Century Tokyo Rental Corp., which offers operating leases. In December 2020, TCC acquired an additional 2% from BPI of the issued shares of BPI CTL, which increases their equity stake to 51%;
- h) BPI/MS Insurance Corp. ("BPI MS") is a non-life insurance company. It is a joint venture with Mitsui Sumitomo Insurance Co. (who owns a 49% stake), and is the result of a merger of FGU Insurance Co. and FEB Mitsui Marine Insurance Co., which was acquired as a subsidiary of Far East Bank in 2000;
- i) BPI Asset Management and Trust Corporation ("BPI AMTC") is a Stand Alone Trust Corporation (SATC) serving both individual and institutional investors with a full suite of local and global investment solutions. BPI AMTC was established after a Certificate of Authority to Operate was issued by the BSP on December 29, 2016 and it started operations on February 1, 2017;
- j) BPI Investment Management Inc. ("BIMI") is a wholly owned subsidiary of the Bank and serves as the Bank's manager and investment advisor to the ALFM mutual funds, which comprise a number of open-end investment companies registered with, and regulated by, the Securities and Exchange Commission (SEC). BIMI is also responsible for formulating and executing the funds' investment strategies. Effective January 29, 2020, BIMI assumed the management and distribution of nine mutual funds previously managed by PhilAm Asset Management, Inc. ("PAMI"). BIMI and PAMI first announced the agreement to transfer the management of the funds on November 20, 2019.

(2) Business of Issuer

Principal Products & Services

The Bank offers a wide range of corporate and retail banking products. The Bank has two major categories for products and services. The first category covers its core financial intermediation business, which includes, deposit taking, lending, and securities investments. Revenue from this category is collectively termed as net interest income and accounts for 71% of net revenues. The second category covers services ancillary to the Bank's financial intermediation business, and from which it derives transaction-based commissions, service charges and other fees. These include investment banking and corporate finance fees, asset management and trust fees, stock brokerage fees, credit card-related fees, rental of bank assets, income from insurance subsidiaries and service charges or commissions earned on international trade transactions, drafts, fund transfers, various deposit-related services, and revenues from transactions on the digital channels. Commissions, service charges, and other fees, when combined with trading gains and losses arising from the Bank's fixed income and foreign exchange operations, constitute non-interest income, which accounts for the remaining 29% of net revenues.

Foreign Offices Contribution

	2018	2019	2020

Europe	0.05	0.09	0.10

Distribution Network

BPI had 869 branches across the country, including 5 kiosk branches, as of end 2020. Kiosks are branches much smaller than traditional full-service branches, but are fully equipped with terminals allowing direct electronic access to product information and customers' accounts, as well as processing of self-service transactions. Kiosks serve as sales outlets in

high foot traffic areas such as supermarkets, shopping malls, transit stations, and large commercial establishments. Additionally, there are 304 BPI Direct BanKo branches and Branch-Lite Units (BLUs) set up in strategic locations in the country. Overseas, BPI has one (1) Hong Kong office (BPI IFL) and two (2) BPI Europe offices in London.

BPI maintains a specialized network of overseas offices to service Filipinos working abroad. To date, BPI has there (3) Remittance Centers located in Hong Kong and two (2) representative offices located in UAE and Japan. BPI also maintains remittance tie-up arrangements with various foreign entities in several countries to widen its network in serving the needs of Filipinos overseas.

On the lending side, there are 25 business centers and desks, servicing both corporate and retail clients, across the country to process loan applications, loan releases, and international trade transactions. These centers also provide after-sales servicing of loan accounts.

BPI's ATM network has a total of 2,707 terminals as of end-2020, of which 2,240 are ATMs and 467 are Cash Accept Machines (CAMs). This complements the branch network by providing cash related banking services to customers at any place and time of the day. In addition, the interconnection with Bancnet gives BPI cardholders access to over 20,000 ATMs across the country. BPI's ATM network is likewise interconnected with Mastercard, China Union Pay (CUP), Discover/Diners, JCB, and Visa. Through the Bank's extensive physical and digital networks, the Bank provides a broad range of value-added services to its clients, enhancing convenience and self-service capabilities, as well as greater accessibility.

BPI's retail digital platforms (BPI Online and BPI Mobile) provide clients a reliable, safe and intuitive digital banking experience. This translates to an ultimate convenience through quick and paperless transactions anytime, anywhere. Aside from the standard banking features (i.e. account inquiry, funds transfer, bills payment), the digital platforms have introduced a new set of innovative features and services. These include:

- Cash-in transactions to Partner Merchants where clients now have more service offerings to choose from, such as loading the following e-wallets real time: Gcash, Paymaya, Smart Money, Beep, Easytrip, Autosweep RFID, Dibz and Get Go;
- Enrollment of billers and other merchants is now made easier with the use of One-Time PIN;
- Inter-bank Funds Transfer which now allows clients transfer to other local banks in the country;
- BPI Express Assist to set branch appointments in advance;
- Recent and Favorites - Clients may now view their last 3 transactions and save their 10 favorite unenrolled accounts for easier access;
- Push Notifications - Clients may now receive transactional notifications (Funds Transfer Advice, Device Registration, and Load Prepaid Card);

BPI Phone Banking provides clients with 24/7 self-service banking facilities and a gateway to get live support through the Bank's Contact Center. Using any phone, customers can call (+632) 889-10000 to inquire about their account balances and latest transactions, transfer funds to other BPI accounts in real time and pay for their various bills. Concerns and queries on any of BPI's products and services are addressed by the highly-trained Phone Banking Specialists any time, any day.

Competition

Mergers, acquisitions and closures continued to reduce the number of players in the industry to 46 universal and commercial banks in December 31, 2020, from a high of 50 upon the liberalization of rules on the entry of foreign banks.

Lending by universal and commercial banks, excluding thrift banks, declined by 2.3% in December 2020 compared to the 11.0% registered growth in December 2019. The top five industry performers were Human Health and Social Work Activities, Activities of Households as Employers and Undifferentiated Goods-and-Services-Producing Activities of Households for Own Use, Accommodation and Food Service Activities, Real Estate Activities, and Information and Communication which grew by 49.2%, 8.1%, 5.6%, 5.4% and 5.3%, respectively. Big ticket industries Manufacturing and Retail Trade showed poor performance in 2020, down by 5.3% and 6.8%, respectively. Latest available data show Consumer loans merely grew by 4.1% in December 2020 versus the prior year.

The COVID-19 pandemic in 2020 caused the local economy to contract by 9.5% as the Philippine government imposed restrictions on mobility. Though the economy is slowly reopening and local demand is expected to improve, a full recovery is not likely to happen this year. The start of mass inoculation in the second half of 2021, however, may accelerate the recovery of the economy.

The banking sector, like the other industries providing services, is not spared from the negative impact of the pandemic. The weaker operating environment has put pressure on banks' asset quality with NPL ratios reaching as high as 5% for some universal and commercial banks in 2020.

The BSP, on the other hand, has been implementing more forceful measures to cushion the economy's contraction. It has reduced its policy rate by 200 bps from 4.00% to 2.00% and its reserve requirement ratio by 200 bps from 14% to 12%. These have been one of the most aggressive monetary policy responses among the major ASEAN economies in 2020. The BSP has also implemented unprecedented measures including purchase of government securities and easing of regulatory requirements on banks. These aggressive actions have been made possible by the stable inflation environment, which settled at average of 2.6% in 2020.

BPI on its part will continue to grow its corporate and consumer clients while giving focus on small and medium size lending. The prioritization of small-and-medium-sized enterprises ("SMEs") was concretized by launching Business Bank in 2017. On microfinance, BPI has opened a total of 304 BanKo branches and branch-lite offices as of December 2020.

Based on required published statements by the BSP as of December 2020, BPI is the third largest bank among private commercial banks operating in the country in terms of assets, deposits and capital. BPI ranks second in terms of customer loans, and asset management and trust business. Total assets of BPI, based on PAS compliant audited financial statements, are higher than the published statements prepared along BSP standards.

Patents, Trademarks, Licenses, Franchises, etc.

BPI sells its products and services through the BPI trademark and/or trade name. All its major financial subsidiaries carry the BPI name prefix (e.g., BFSB, BPI Capital, BPI Securities, and BanKo), and so do its major product and service lines.

Following are some of BPI's trademarks for its products and services:

- a) BPI Express Assist ("BEA"), for its branch queuing facility
- b) BPI Debit and BPI Debit Cards, for its debit cards
- c) Express Credit, BPI Credit and BPI Credit Cards, for its credit cards
- d) Express Cash, My ePrepaid, and BPI ePay, for its prepaid cards
- e) BPI Phone Banking, for its contact center facility
- f) BPI Online, for its internet-based transaction platform for retail customers
- g) BPI Mobile, for its mobile banking facility
- h) Bizlink, for its internet-based transaction platform for corporate customers
- i) Bizlink Mobile, for its mobile banking for corporate customers
- j) Express Collect, for its corporate deposit-related services

At BFSB, the product trademarks include the BPI Family Housing Loan with Build Your Dream, and Pay-hinga variants, the BPI Family Auto Loan with Drive Your Dream Auto Loan variant. Other product brands of BPI, BFSB and BanKo are Jumpstart, PondoKo Savings, Maxi-One, Save-up, Advance Savings, Maxi-Saver, Pamana Savings Account, Pamana Padala, Padala Moneyger, Plan Ahead, Ka-Negosyo Credit Line, Business Loans, BPI Personal Loan, and BanKo NegosyoKo Loan.

All BPI's trademark registrations are valid for 10 years with years of expiration varying from year 2021 to 2030. Trademarks intended to be used or maintained by BPI are so maintained and renewed in accordance with applicable Intellectual Property laws and regulations. BPI closely monitors the expiry and renewal dates of its trademarks to protect BPI's brand equity.

In terms of business licenses, BPI has an expanded commercial banking license while BFSB and BanKo have savings bank licenses. BPI Capital has an investment house license and is a registered Government Securities Eligible Dealer with

Broker Dealer of Securities and Mutual Fund Distributor. BPI AMTC has a trust license, securities custodian license and is a PERA-accredited administrator while BIMBI has an investment company adviser license, mutual fund distributor license, and is a registered transfer agent. BPI MS was granted by the Insurance Commission a Certificate of Authority to transact and sell non-life insurance products.

For foreign business licenses, BPI (Europe) Plc is a UK-licensed bank authorized by the Prudential Regulation Authority (“PRA”), and regulated by the PRA and the Financial Conduct Authority (“FCA”). Meanwhile, BPI IFL is licensed by the Hong Kong Monetary Authority as a deposit-taking company. It was further granted by the Hong Kong Securities and Futures Commission with licenses to engage in securities dealing and advising, and asset management

Related Parties

In the ordinary course of business, BPI has entered into various transactions with its Directors, Officers, Stockholders and their Related Interest (“DOSRI”), including loan transactions. BPI and all its subsidiaries have always been in compliance with the General Banking Act, BSP Circulars and regulations on DOSRI loans and transactions. As of December 31, 2020, DOSRI loans amounted to 1.1% of loans and advances as per Note 25 and Note 31 of the 2020 audited consolidated financial statement.

Government Regulations (2018-2020)

Under the General Banking Act, the Monetary Board of the BSP is responsible for regulating and supervising financial intermediaries like BPI. The implementation and enforcement of the BSP regulations is primarily the responsibility of the supervision and examination sector of the BSP.

BPI, as a publicly listed company (“PLC”), is also governed by SEC memorandum circulars and BIR revenue regulations. Below is a non-exhaustive list of the regulations BPI has adopted in the last three years:

Issuance No.	Issue Date	Effective Date	Title/Summary
BSP Circulars			
No. 989	January 4, 2018	January 27, 2018 ¹	Guidelines on the Conduct of Stress Testing Exercises
No. 990	January 22, 2018	February 9, 2018 ¹	Amendments to the Basel III Leverage Ratio Framework
No. 997 No. 1004	February 15, 2018 May 24, 2018	March 2, 2018 June 1, 2018	Reduction in Reserve Requirements: • 100 basis points to 19% • 100 basis points to 18%
No. 1007	June 6, 2018	January 1, 2019	Implementing Guidelines on the adoption of the Basel III Framework on Liquidity Standards - Net Stable Funding Ratio (“NSFR”)

Republic Act ² No. 10963	December 19, 2017	January 1, 2018	Tax Reform for Acceleration and Inclusion ("TRAIN"). This is the first package of the Comprehensive Tax Reform Program ("CTRP"), which amends various provisions of the 1997 National Internal Revenue Code.

¹ The Circular took effect 15 calendar days following its publication in the Official Gazette or in a newspaper of general circulation

² Subsequently, BPI also complied with all pertinent BIR revenue regulations implementing it.

Research and Development Activities

BPI spent the following for the last three years on Personnel Training and on Systems/Application Software:

	In Million Pesos	% of Revenues
2018 (as restated)	799.8	1.0
2019 (as restated)	1,018.8	1.1
2020	1,303.0	1.3

Employees

Below is a breakdown of the manpower complement of BPI in 2019 and 2020:

	December 31, 2019 Actual			December 31, 2020 Actual		
	Officers	Staff	Total	Officers	Staff	Total
Unibank	7,225	13,588	20,813	6,825	12,562	19,387
Consumer	4,517	12,026	16,543	4,553	11,093	15,646
Corporate	929	849	1,778	906	816	1,722
Investment	409	225	634	393	193	586
Support	1,370	488	1,858	973	460	1,433
Insurance Companies	127	489	616	123	442	565
TOTAL	7,352	14,077	21,429	6,948	13,004	19,952

Majority or 76% of the staff in the Unibank are members of various unions and are subject to Collective Bargaining Agreements (CBAs). The current CBA of the parent company was concluded / signed last May 29, 2019, which covers the period of April 1, 2019 to March 31, 2021.

CBA for BPI Family Savings Bank was concluded/ signed last December 2, 2020. The BFSB CBA covers the period November 1, 2020 to October 31, 2023.

Enterprise Risk Management

The Bank has an established enterprise risk management ("ERM") and capital management framework that allows the Bank to identify, measure, control, and monitor its significant financial and non-financial risk exposures, ensure adequate liquidity, and set aside sufficient amounts of capital to cover and mitigate such risks. The framework reflects the Bank's internal standards as guided by the regulatory guidelines and directives issued by the BSP in promoting effective risk

management governance, in implementing robust business continuity and resiliency standards that are regularly tested, and in performing the internal capital adequacy assessment and other risk management processes. The Bank's ERM is anchored on the pillars of:

- Sound risk management governance;
- Value-enhancing risk methods and processes; and
- Risk-intelligent data and technology.

The Bank's Board of Directors fulfills its risk management function through the Risk Management Committee ("RMC"), which directs risk strategy, defines risk appetite statements, and reviews risk management structures, metrics, limits, and issues across the BPI Group. The Chief Risk Officer ("CRO") of the BPI Group reports directly to the RMC and is responsible in leading the formulation of risk management policies, methodologies, and metrics consistent with the overall business strategies of the Bank, ensuring that risks are prudently and rationally undertaken, commensurate with returns on capital and within the Bank's risk appetite. The CRO is supported by the Risk Management Office ("RMO") and they actively engage the RMC, Management and business units to effectively communicate through various internal channels the Bank's risk culture, risk awareness campaigns and learning programs, and risk management best practices.

The Bank's risk exposures are identified, measured, controlled, and monitored according to three (3) major risk classifications:

Credit Risk, the single largest risk for most local banks, arises from the Bank's core lending and investing businesses, and involves thorough credit evaluation, appropriate approval, management and continuous monitoring of risk exposures such as borrower (or counterparty) risk, facility risk, concentrations and industry risks relating to each loan account. In BPI, the entire credit risk management process is governed by stringent underwriting policies and rating parameters, and lending procedures and standards which are regularly reviewed and updated given regulatory requirements and market developments. The Bank's loan portfolio is continuously monitored and reviewed as to overall asset quality, concentration, and utilization of limits. The Bank continuously experiences growth in loan volumes, but is able to manage overall low credit risk and maintain asset quality (as evidenced by generally low NPLs and adequate reserves cover), and does so in general compliance with regulatory and prudential requirements relating to credit risk management (e.g., RPT and DOSRI restrictions, single borrower's limits, credit concentration, and internal and regulatory stress tests, amongst others).

Market and Liquidity Risks arise from the Bank's business in managing interest rate and liquidity gaps, as well as in the trading and distribution of fixed income, foreign exchange, and derivative instruments (as allowed by regulation). Market and liquidity risks are managed using a set of established policies and metrics guided by the Bank's market, interest rate risk in the banking book ("IRBB"), and liquidity risk management framework set by the Board-level RMC. Market risk is the risk that the Bank's earnings or capital will decline immediately (or over time) because of volatility in interest rates, foreign exchange rates, or equity prices. The Bank employs various risk metrics such as value-at-risk ("VaR") and stop loss limits for price risk and balance sheet value-at-risk ("BS VaR"), and earnings at-risk ("EaR") for interest rate risk, supplemented by quarterly stress tests. Liquidity exposures mainly come from the mismatches of asset, liability, and foreign exchange contract maturities. The Bank manages liquidity risk by employing a minimum cumulative liquidity gap ("MCLG" – smallest net cumulative cash inflow or the largest net cumulative cash outflow) and complying with the liquidity coverage ratio ("LCR") and net stable funding ratio ("NSFR") BSP-prescribed minimum limit. The Bank also conducts liquidity stress tests which have consistently revealed ample liquidity to meet its financial obligations under both bank-specific and systemic or market-wide crisis scenarios and periodically testing an established liquidity contingency funding plan ("LCFP"). As of end-December 2020, the Bank's market, IRBB, and liquidity risk exposures are generally well within the RMC-approved risk limits at the BPI Parent and Consolidated levels.

Operational Risks arise from the Bank's people, internal processes, or from external events such natural disasters or telecommunication failures that disrupt the Bank's operations, and which may give rise to adverse legal, tax, regulatory, or reputational consequences. Information technology risks, which is assumed under operational risks, arise from the use of or reliance on IT (i.e. computer hardware, software, devices, systems, applications, and networks), which includes, information security, service availability, reliability and availability of IT operations, completion of IT development projects, and regulatory compliance, among others. The Bank's actual operational losses are generally less than 1% of the Bank's annual gross income, which is well within the Bank's appetite for operational risks.

Risk management is carried out by a dedicated team of skilled risk managers and senior officers who have extensive prior operational experience working within the Bank. The Bank's risk managers regularly monitor key risk indicators and report exposures against carefully-established credit, market, liquidity and operational risk metrics and limits approved by the RMC. Independent reviews are regularly conducted by the Bank's Internal Audit, external auditors, and regulatory examiners to ensure that risk controls and mitigants are in place and functioning effectively as intended.

Compliance

Business or compliance risk, which can be defined as "the risk of regulatory or legal sanctions, material financial loss, or loss to reputation a bank may suffer as a result of its failure to comply with laws, regulations, rules, related self-regulatory organization standards, and codes of conduct applicable to its banking activities", is addressed and managed within the Bank through its compliance function and its component system and program.

As the Bank's second line of defense, the compliance function has also evolved in recent years to adapt to the shift towards more technology-heavy strategies, as it seeks to deliver the compliance risk management outcomes required in an era of digital transformation. While remaining a key advisory function, it has embraced a more forward-thinking, risk-based and stress-tested approach to continuously monitor, evaluate and improve its ability to ensure compliance in a banking landscape that is subject to disruption and rapid change.

The Bank's compliance system is critically important in identifying, evaluating, and addressing the regulatory and reputational risks while the enterprise-wide compliance program helps the Bank to look at and across business lines and activities of the organization as a whole and to consider how activities in one area of the Bank may affect the business or compliance risks of other business lines and the entire group/enterprise. The compliance program also helps the Board and management in understanding where such regulatory and reputational risks in the organization are concentrated, provide comparisons of the level and changing nature of risks, and identify those control processes that most need enhancement.

Oversight of the management of the Bank's business risk and implementation of its compliance function is the responsibility of our Board of Directors, through the Audit Committee and the Corporate Governance Committee with respect to corporate governance compliance. At the management level, the compliance function is carried out by the Compliance Office, headed by the Chief Compliance Officer, who is not a member of the Board of Directors. The Compliance Office oversees the implementation of the Bank's enterprise-wide compliance programs. These programs take into account the size and complexity of the Bank, the relevant rules and regulations that affect its operations, and the business risks that may arise due to non-compliance. By using regulatory and self-assessment compliance matrices, compliance measures are formulated to mitigate identified business risks and tested to ensure effectiveness.

The Compliance Office is currently organized to cover Regulatory Compliance, Corporate Governance, Anti-Money Laundering Compliance and FATCA Compliance, Compliance Analytics, and the Data Privacy Office. Considering the rapid developments in the regulatory sphere as well as the growing complexity of bank products, services and transactions, the Compliance Office evolves in its coverage of compliance practice areas to anticipate and meet forward challenges. Enhancement of our compliance function's scope and domain is redefined for new and emerging sources of compliance risk. The Compliance Office is also empowered by the accountability to it of 22 Group Compliance Officers, or GCOs, who are embedded in operational units throughout the Bank. The GCOs are charged with enforcing compliance office initiatives, as well as providing timely reports to the compliance office.

Overall enforcement is through self-regulation within the business units, and independent testing and reviews conducted by the Compliance Office and Internal Audit. Results of these reviews are elevated to the Board's Audit Committee and Corporate Governance Committee, with respect to governance issues. The Compliance Office promotes adherence and awareness to laws, rules and regulations by electronically posting information and documents in a compliance database that is accessible to all employees. Regular meetings are conducted by the Compliance Office with the GCOs to discuss the impact of new regulations, decide on the required compliance measures and amend compliance matrices as necessary. Through continued liaison and dialogue with regulators, the Compliance Office ensures the prompt dissemination of new regulations and other developments affecting bank operations.

Financial Consumer Protection

In 2017, the Bank, through its Customer Experience Management Office (“CXMO”) initiated the BPI Customer Assistance Program to establish guidelines that will help ensure that all feedback from customers and potential customers are well handled in alignment with the Bank’s consumer protection policies. The designated Customer Assistance Officers underwent onsite training to equip them in their function in addressing customer issues and to ensure compliance with the Bank’s Consumer Protection Program. The need to conduct a continuous information and education campaign on the Financial Consumer Protection Program (“FCP”) has been a major priority of the unit.

To deepen customer engagement and address specific customer needs, CXMO monitored customer complaints in each business area and identified the root causes and action plans which is part of the regular management reporting. CXMO intensified the conduct of FCP roll-outs in the branches, which also includes customer complaints handling where scenarios are based on actual customer complaints received.

The Customer Feedback Database, which was created in 2017, underwent continuous improvements to facilitate immediate routing of customer feedback to the concerned business units. This further strengthened the role of the frontliners in addressing and reporting customer issues.

For 2020, the Bank tracked and monitored customer issues and feedback concerning its products and services (the table below shows the number of customer complaints the Bank received for the past three years, and the number of customer transactions recorded for the same year). Action plans were implemented to ensure that the most pressing and important issues raised by customers were resolved within the committed turnaround times.

	2018	2019	2020
Complaints (in Thousands)	424.4	415.9	300.9
Transactions (in Millions)	1,540.8	2,383.7	2,871.7

In 2020, there were no confirmed incidents of non-compliance where BPI was officially cited by a regulator or government agency.

Data Privacy

Republic Act No. 10173, known as the Data Privacy Act of 2012, requires government and private sector entities to apply the principles of Transparency, Legitimate Purpose and Proportionality in their processing of personal data so that the data is (1) only used in relevant and specifically stated ways, (2) not stored for longer than necessary, (3) kept safe and secure, (4) used only within the confines of the law, and (5) stored following people’s data protection rights. Cybersecurity and data privacy and protection have become corporate governance and risk management concerns.

BPI has established a comprehensive Data Privacy Program utilizing a combination of policies, organizational structure, access controls and technologies designed for risk reduction. The Bank has a Data Privacy Office, headed by a Board-appointed Data Privacy Officer (“DPO”), a senior management officer. The key focus of the DPO is to oversee data privacy compliance and manage data protection risks for the organization consistent with the Data Privacy Act rules and regulations, issuances by the National Privacy Commission and other applicable laws. Management has also appointed Compliance Officers for Privacy (“COP”) for major business units of the Bank to augment the Data Privacy Office and ensure the sustained implementation of the Data Privacy Management Program across business lines.

Item 2. Properties

In view of the planned re-development of the BPI Head Office building located at 6768 Ayala Avenue, Makati City, BPI’s executive office and select business and support units have relocated to the Ayala North Exchange Tower 1, Ayala Avenue corner Salcedo St., Legaspi Village, Makati City and BPI Buendia Center, located at Sen. Gil J. Puyat Avenue, Makati City. The remaining business and support units have also relocated to various other sites in Makati, San Juan, Quezon City, and Muntinlupa. Meanwhile, BFSB’s Head Office remains located at BFB Center, Paseo De Roxas, corner Dela Rosa St., Makati City.

Of BPI’s 869 local branches (excluding BanKo), 707 operate as BPI branches: 360 in Metro Manila/Greater Metro Manila Area and 347 in the provincial area.

These offices and branches are maintained in good condition for the benefit of both the employees and the transacting public. The Bank enforces standards for branch facade, layout, number and types of equipment and upkeep of the premises. As it adjusts to the needs of its customers, the Bank also continuously reconfigures the mix of its traditional branches, kiosk branches, and branch-lite units, while complemented by its digital channels.

BPI (as lessee) has various lease agreements which mainly pertain to branch premises and equipment that are renewable under certain terms and conditions. Rental contracts are typically made for fixed periods of 4 to 6 years.

On January 1, 2019, the Bank adopted PFRS 16: Leases which requires recognition of both right-of-use assets and lease liability arising from long-term leases. As of December 31, 2020, right-of-use assets and lease liabilities amounted to P7,222 million and P7,811 million, respectively.

Further details pertaining to leases under PFRS 16 are reflected in Note 20 of the 2020 Audited Financial Statements.

Item 3. Legal Proceedings

The Bank does not have any material pending legal proceedings to which the registrant or any of its subsidiaries or affiliates is a party or of which any of their property is the subject.

Item 4. Submission of Matters to a Vote of Security Holders

None

PART II - OPERATIONAL AND FINANCIAL INFORMATION

Item 5. Market for Issuer's Common Equity and Related Stockholders Matters

Market Information

The common shares of BPI have been listed on the Philippine Stock Exchange (PSE) since October 12, 1971 under the ticker symbol BPI.

The table below shows the high and low prices of BPI shares transacted at the PSE for each quarter within the last two (2) fiscal years.

Period	In Pesos	
	High	Low
Year Ended December 31, 2019		
1 st Quarter	95.00	83.90
2 nd Quarter	85.65	77.30
3 rd Quarter	94.35	78.00
4 th Quarter	100.00	83.10
Year Ended December 31, 2020		
1 st Quarter	89.00	51.40
2 nd Quarter	78.00	57.00
3 rd Quarter	75.00	61.00
4 th Quarter	88.60	64.50

The high and low prices of BPI at the Philippine Stock Exchange on March 29, 2021 were P84.80 and P81.50, respectively, with a closing price of P84.60.

Holders of Common Equity

There were approximately 12,306 common shareholders of BPI as of December 31, 2020.

Please refer to Exhibit C for the top twenty (20) shareholders with their corresponding shares and percentage ownership of BPI.

Please see Exhibit D for a Statistical Report by Sharelots as of December 31, 2020.

Dividends

The Bank's practice is to declare cash dividends to its common stockholders on a regular basis as may be determined by the Board of Directors. As its dividend payout history shows, the Bank has consistently paid at least P1.80 per share in annual dividends; however, the Bank evaluates its dividend payments from time to time in accordance with business and regulatory requirements, and cannot make explicit warranties about the quantum of future dividend payments.

Cash dividends declared and paid during the years ending December 31, 2018, 2019, and 2020 are as follows:

Date Declared	Date of Payment	Amount of Dividends	
		Per Share	Total (in Million Pesos)
June 20, 2018	July 25, 2018	0.90	4,052
December 19, 2018	January 29, 2019	0.90	4,052
May 15, 2019	June 19, 2019	0.90	4,056
November 20, 2019	December 27, 2019	0.90	4,057
May 20, 2020	June 26, 2020	0.90	4,062
October 21, 2020	November 26, 2020	0.90	4,062

There are no known restrictions or impediments to the Bank's ability to pay dividends on common equity, whether current or future.

Dividend declaration is ultimately the responsibility of BPI and the BPI Board of Directors which has the authority to declare dividends as it may deem appropriate. Banks that meet the prequalification criteria including capital adequacy requirements and applicable laws and regulations of the BSP can declare and pay dividends without prior BSP verification.

Details of the dividend declaration is reflected in Note 18 of the 2020 Audited Financial Statements.

Recent Sales of Unregistered or Exempt Securities

Details on shares issued to/subscribed by the Bank's executives as a result of the Executive Stock Option Plan ("ESOP") and the Executive Stock Purchase Plan ("ESPP") are reflected in Note 18 of the 2019 Audited Financial Statements.

Item 6. Management Discussion and Analysis of Financial Condition and Results of Operations

The highlights of the balance sheet and income statement of BPI for each year and the compounded growth rate over the three-year period (2018-2020) are shown below:

In Million Pesos	2017	2018	2019	2020	CAGR
Assets	1,903,905	2,085,228	2,205,030	2,233,443	5.5%
Deposits	1,562,200	1,585,746	1,695,343	1,716,177	3.2%
Loans (Net)	1,202,338	1,354,896	1,475,336	1,407,413	5.4%
Capital	180,688	248,521	269,577	279,835	15.7%

The compounded annual growth rate (CAGR) of the Bank's asset levels from 2018 to 2020 was 5.5%, driven by the 5.4% increase in loans. Deposits likewise increased over the same period by 3.2%. Capital grew 15.7%, boosted by the May 2018 Stock Rights Offer and increasing annual profits, net of cash dividend payments.

2018

Total resources reached P2.09 trillion, P181.3 billion, or 9.5% higher than last year's P1.90 trillion. **Total deposits** grew P23.5 billion, or 1.5% to P1.59 trillion, on the back of savings and demand deposit growth of P23.0 billion, or 2.7%, and P4.0 billion or 1.6%, respectively. **Other borrowed funds** increased by P83.4 billion, or 99.8% largely due to the 2018 dollar and peso bond issuances. **Deferred credits and other liabilities** increased by P3.1 billion, or 7.9% due to higher accounts payable obligations. **Due to Bangko Sentral ng Pilipinas and other banks** increased by P2.8 billion or 227.5% due to higher obligations to BSP. **Accrued taxes, interest and other expenses** rose by P1.9 billion or 27.3% on higher accrual of year end taxes and interest payable. **Derivative Financial Liabilities** declined by P0.9 billion, or 18.7% due to lower market valuation of certain derivative products.

Capital funds amounted to P248.5 billion, P67.8 billion, or 37.5% higher than last year's P180.7 billion. **Share capital and share premium** contributed to the capital growth by P5.6 billion, or 14.3% and P44.4 billion, or 149.2%, respectively, due to the May 2018 Stock Rights Offer. **Surplus** also increased P11.0 billion, or 9.5% due to higher accumulated profits net of cash dividends for the period. **Reserves** likewise increased by P3.8 billion, or 1,150.0% representing appropriation of general loan loss provisions in excess of PFRS9 loan loss provisions under BSP Circ. 1011. **Accumulated other comprehensive loss** also decreased by P2.9 billion, or 57.2% due to transition to PFRS 9.

On the asset side, **loans and advances** increased P152.6 billion, or 12.7% driven by higher loan demand from corporate and credit card loans. **Interbank loans receivable and securities purchased under agreements to resell** amounted to P34.3 billion, an increase of P15.7 billion, or 84.7% on account of higher volume of RRP placements and interbank term loans. **Financial assets at fair value through OCI** likewise increased P13.9 billion, or 59.6% on higher deployment activities post-EMTN, peso bond issuance and liquidity assets build up towards year-end. **Cash and other cash items** grew P8.4 billion, or 23.9% on account of higher cash requirement for the period as compared to year-end 2017. **Trading securities** increased by P7.4 billion, or 138.0%, due to market view of declining rates. **Other resources, net** amounted to P22.1 billion, P6.3 billion, or 40.2% on account of higher miscellaneous assets. **Bank premises, furniture, fixtures and equipment, net** increased by P1.2 billion, or 7.9% due to land and building premises, renovations and leasehold improvements. **Deferred income tax assets, net** grew P444 million, or 5.5% on account of the impairment losses setup for the period.

On the other hand, **Assets held for sale** decreased by P215 million, or 6.0%, due to higher sell down of foreclosed properties. **Investments in subsidiaries and associates, net** declined P727 million, or 11.4% on account of the decrease in the Bank's share in the net income from BPI-Philam. **Derivative financial assets** decreased by P0.9 billion, or 19.0%, due to lower fair value on certain derivative positions. **Due from other banks**, declined by P1.9 billion, or 13.4%, on lower working balances and placements maintained with foreign correspondent banks. **Due from Bangko Sentral ng Pilipinas (BSP)** likewise decreased by P30.0 billion, or 11.7% due to cut in reserve requirements.

2019

Total resources reached P2.20 trillion, P119.8 billion, or 5.7%, higher than last year's P2.09 trillion. **Total deposits** grew P109.6 billion, or 6.9% to P1.70 trillion, on the back of growth in time, demand, and savings deposits of 17.6%, 6.1%, and 1.8%, respectively. **Deferred credits and other liabilities** increased by P4.6 billion, or 10.8%, from the recognition of lease liabilities on office spaces as part of the Bank's adoption of PFRS 16: Leases. **Manager's checks and demand draft outstanding** increased by P1.4 billion, or 19.7%, on account of higher volume of manager's checks issued. **Accrued taxes, interest and other expenses** rose by P809 million, or 8.9%, on higher accrued interest payable and accrued expenses. On the other hand, **other borrowed funds** decreased by P16.1 billion, or 9.6%, largely due to lower bills payable. **Due to Bangko Sentral ng Pilipinas and other banks** decreased by P1.0 billion, or 26.1%, on account of lower tax collected for the Bureau of Internal Revenues (BIR). **Derivative Financial Liabilities** declined by P1.0 billion, or 26.1%, due to lower market valuation of certain derivative products.

Capital funds amounted to P269.6 billion, P21.0 billion, or 8.5%, higher than last year's P248.5 billion. **Surplus** contributed to the capital growth by P20.0 billion, or 15.7%, as a result of accumulated profits net of cash dividend payments. **Reserves** likewise increased by P1.0 billion, or 24.7%, representing required appropriation of general loan loss provisions in excess of PFRS9 loan loss provisions under BSP Circ. 1011. **Accumulated other comprehensive loss** increased by P263 million, or 12.1%, due to the increase in actuarial losses on defined benefit plan.

On the asset side, **loans and advances, net** increased P120.4 billion, or 8.9%, led by the growth in the corporate and consumer segments. **Financial assets at fair value through OCI** likewise increased P16.7 billion, or 44.9%, due to the net effect of the increase in the Bank's various holdings in hold to collect and sell debt securities. **Due from Other Banks**, increased by P9.9 billion, or 79.2%, due to net increase in the account balances with various banks. **Bank premises, furniture, fixtures and equipment, net** increased by P7.5 billion, or 46.1%, as the Bank adopted PRFS 16 which entails the recognition of Right-of-Use Asset for the Bank's leased properties and equipment. **Financial assets at fair value through profit and loss** increased by P7.4 billion, or 44.2%, due to increase in holdings of securities intended for trading on outlook of lower interest rates. **Cash and other cash items** grew P3.7 billion, or 8.5%, on account of higher cash requirement for the period as compared to year-end 2018. **Assets attributable to insurance operations** increased by P1.2 billion, or 7.3%, due to higher securities investments of the Bank's non-life insurance affiliate. **Deferred income tax assets, net** grew P1.2 billion, or 13.7%, on account of the impairment losses setup for the period. **Investments in subsidiaries and associates, net** increased P1.1 billion, or 19.2%, as a result of higher income from the asset management subsidiaries.

On the other hand, **Due from Bangko Sentral ng Pilipinas (BSP)** decreased by P18.1 billion, or 8.0% due to lower volume of placement in BSP deposits and lower reserve requirements. **Financial assets at amortized cost** decreased by P12.5 billion, or 4.3%, due to the net effect of the decrease in the Bank's various holdings in hold to collect and sell debt securities. **Interbank loans receivable and securities purchased under agreements to resell** declined P11.7 billion, or 34.2%, due to lower volume of placement in Reverse Repurchase Agreements (RRP) and interbank term loans. **Other resources, net** was lower by P6.8 billion, or 30.6%, primarily attributable to lower miscellaneous assets. **Assets held for sale, net** also declined P208 million, or 6.2%, due to sale of foreclosed properties.

2020

Total resources reached P2.23 trillion, up P28.41 billion, or 1.3%, from last year's P2.21 trillion. **Total deposits** grew P20.83 billion, or 1.2% to P1.72 trillion, on the back of growth in demand and savings deposits of 15.7% and 16.9%, respectively. **Derivative Financial Liabilities** increased P2.78 billion, or 96.6%, due to increase in the fair value of liabilities related to foreign currency and interest rate swaps contracts. On the other hand, **Due to Bangko Sentral ng Pilipinas and other banks** decreased by P1.46 billion, or 49.4%, on account of lower tax collected for the Bureau of Internal Revenues (BIR). **Manager's checks and demand draft outstanding** decreased by P1.19 billion, or 14.4%, on account of lower volume of outstanding manager's checks as of December 2020. **Accrued taxes, interest and other expenses** lower by P963 million, or 9.8%, on lower accrued interest payable.

Capital funds amounted to P279.84 billion, increased P10.26 billion, or 3.8%, higher than last year's P269.58 billion. **Surplus** contributed to the capital growth by P18.05 billion, or 12.2%, as a result of accumulated profits net of cash dividend payments. **Reserves** decreased by P4.69 billion, or 91.9%, representing required appropriation of general loan loss provisions in excess of PFRS9 loan loss provisions under BSP Circ. 1011. **Accumulated other comprehensive loss** likewise increased by P3.46 billion, or 141.9%, due to recognition of lower actuarial losses on defined benefit plan.

On the asset side, **loans and advances, net** declined P67.92 billion, or 4.6%, due to lower growth mostly across business segments compared to 2019. However, **financial assets at fair value through OCI** increased P76.28 billion, or 141.5%, largely due to the sale of hold to collect debt securities. **Due from Other Banks**, increased P17.80 billion, or 79.6% while **due from Bangko Sentral ng Pilipinas (BSP)** increased P16.14 billion, or 7.8% due to higher volume of placements with various banks in BSP deposits. **Financial assets at fair value through profit and loss** increased P13.10 billion, or 54.4%, due to increase in holdings of securities intended for trading. **Deferred income tax assets, net** grew P7.82 billion, or 80.6%, on account of the impairment losses setup for the period. **Interbank loans receivable and securities purchased under agreements to resell** increased P7.68 billion, or 34.0%, due to higher volume placements of interbank term loans. **Other resources, net** was higher by P1.44 billion, or 9.3%, primarily attributable to higher miscellaneous assets. **Assets attributable to insurance operations** increased P935 million, or 5.3%, due to higher securities investments of the Bank's non-life insurance affiliate. **Investments in subsidiaries and associates, net** increased P764 million, or 11.3%, as a result of higher income from the leasing business.

On the other hand, **financial assets at amortized cost** decreased P30.45 billion, or 11.1%, due to the net effect of the decrease in the Bank's various holdings in hold to collect securities. **Cash and other cash items** was lower by P10.08 billion, or 21.3%, on account of lower cash requirement for the period as compared to year-end 2019. **Bank premises, furniture, fixtures and equipment, net** decreased P4.92 billion, or 20.7%, as the booking of the Right-of-Use Asset for the Bank's

leased properties and equipment (PFRS 16) decreased from its first recognition in 2019. **Assets held for sale, net** also declined P185 million, or 5.9%, due to sale of foreclosed properties and decline in building improvements.

Asset Quality

The Bank's loan portfolio mix is broken down into large corporates at 76.7%, small and medium enterprises (SMEs) at 4.6%, and consumer at 18.7%, compared to last year's 76.6%, 4.9%, and 18.5%, respectively.

Allowance for Impairment of P28.0 billion was up by P22.44 billion from last year's P5.56 billion. NPL ratio stood at 2.68%, compared to 1.66% in 2019. The Bank's NPL ratio was below the preliminary industry ratio of 3.70% as of December 2020.

Details of the loan portfolio and asset quality are reflected in the 2020 Audited Financial Statements Note 10 and Note 26.1.3.1, respectively.

Funding and Liquidity

Customer deposits account for 88% of BPI's total funding, while 8% is attributable to other borrowings. The Bank's liquidity ratios (Liquidity Coverage Ratio and Net Stable Funding Ratio) are also at record-highs, comfortably above the regulatory minimum of 100%.

Despite the slowdown in economic activity in 2020, there was strong demand from the debt capital market which lead to the successful completion of the Bank's three bond issuances, all denominated in peso, including the country's first social bonds, as follows:

- 2-year P15.3 billion Bonds 4.2423% issued on January 13, 2020;
- 1.5-year P33.89 billion Bonds 4.05% issued on March 27, 2020; and
- 1.75-year P21.5 billion Bonds 3.05% issued on August 7, 2020, also known as COVID Action Response ("CARE") Bonds, issued under the Bank's Sustainable Funding Framework and its proceeds earmarked to finance micro and small and medium enterprises.

The Bank's CASA Ratio was 79.6%, while the Loan-to-Deposit Ratio was 82.0%.

For further details on the Bank's deposits, borrowings, and liquidity, refer to the 2020 Audited Financial Statements Notes 15, 16, and 26.3.1, respectively.

Results of Operations

In Million Pesos	2017	2018	2019	CAGR
Net Interest Income	48,039	55,843	65,945	15.9%
Non-Interest Income	22,981	22,681	28,389	5.5%
Impairment Losses	3,795	4,923	5,822	6.6%
Operating Expenses	38,533	43,602	50,077	12.7%
Net Income	22,416	23,078	28,803	9.3%

2018 vs. 2017. For the year 2018, the Bank earned a **net income** of P23.1 billion, representing a P661.3 million, or 3.0% increase relative to P22.4 billion earned in 2017. This increase was driven by the P7.5 billion growth in revenues, which was partly tempered by the increase in operating expenses and impairment losses by P5.1 billion, or 13.2%, and P1.1 billion, or 29.7%, respectively.

Net interest income of P55.8 billion increased 16.2% from last year's P48.0 billion on the back of P158.0 billion average asset base expansion.

- **Interest income** increased P14.3 billion, or 21.8%, to P80.2 billion from previous year's P65.8 billion. Interest income **on loans and advances** increased by P14.8 billion, or 27.1%, as both the loan average volume and yield rose by P173.9 billion, and 48 bps, respectively. Interest income **on financial assets** grew P430 million also due to the increase in average volume and yield of P11.6 billion and 34 bps, respectively. On the other hand, interest income on **deposits with BSP and other banks** declined by P876 million, or 42.8%, due to decline in both average volume and yield by P41.5 million, and 37 bps, respectively.

- **Interest expense** of P24.3 billion increased P6.5 billion, or 36.7%, from last year's P17.8 billion. Interest expense on **deposits** increased P4.9 billion or 29.3% as both the average deposit base and cost grew by P67.5 billion and 18 bps, respectively. Interest expense on **bills payable and other borrowings** also increased P1.7 billion, or 144.4%, due to higher volume and cost attributable to the new bond issuances in 2018.

Other income at P22.7 billion, was lower by P300 million, or 1.3%, from P23.0 billion last year. The drop in other income was accounted for by the P264 million, or 22.1%, decline in **trading gain on securities** due to market volatility. **Income attributable to insurance operations** also decreased by the P190 million, or 13.5%, due to the life insurance subsidiary's lower investment income arising from mark-to-market losses and the non-life business' higher claims expenses. On the positive, **fees and commissions** increased by P572 million, or 6.9%, on increased service charges.

Other expenses at P43.6 billion, increased P5.1 billion, or 13.2% from last year's P38.5 billion. **Other operating expenses** increased P1.8 billion, or 13.9%, on product-related insurance premiums, rewards and other selling expenses, third party fees and commissions, and transaction related costs. **Occupancy and equipment-related expenses** grew by P1.8 billion, or 15.9% owing to increase in rental, depreciation and amortization costs, and significant spending on IT-related services. **Compensation and fringe benefits** also increased to P15.3 billion, up by P1.4 billion, or 10.2% on account of Banko's manpower expansion for its new offices.

Impairment losses stood at P4.9 billion, P1.1 billion, or 29.7% higher than the previous year, due to increased loan loss provisioning.

Provision for income tax at P6.7 billion, up P714 million, or a 12.0% increase from P6.0 billion last year. **Current taxes** rose by P986 million, or 15.4%, due to higher core intermediation fees subject to regular corporate income tax. **Deferred taxes** increased P272 million, or 58.8% on account of the impairment losses set up for the year, and accounts with timing difference.

Income attributable to non-controlling interest decreased P68 million, or 21.4%, on account of lower income from the Bank's non-life insurance and leasing subsidiaries.

Comprehensive Income

Total comprehensive income was at P21.9 billion, P529 million, or 2.4% lower than last year's P22.4 billion as **other comprehensive income** declined P1.3 billion, overshadowing the increase in **net income before minority interest** of P593 million.

Net change in fair value reserve on FVOCI securities, net of tax effect decreased P1.5 billion or 210.8% on account of lower market valuation of the Bank's investment securities. **Currency translation differences** likewise decreased by P152 million, or 120.3% due to the general weakening of the Philippine peso. **Fair value reserve on investments of insurance subsidiaries**, also decreased by P596 million, or 303.8%, as a result of lower market valuation of the insurance subsidiaries' investment funds. **Share in other comprehensive loss of associates** decreased P1.0 billion, or 408.2% due to the downward market valuation of the investments of the bancassurance affiliates. These decreases were partly tempered by the P885 million, or 324.6% increase in **actuarial gains (losses) on defined benefit plan, net of tax effect** as impacted by the change in financial assumption; and the P1.1 billion, or 212.7% increase in **share in other comprehensive gain (loss) of associates** due to the remeasurement/fair valuation of BPI-Philam's liabilities, property, and equipment.

Comprehensive income attributable to non-controlling interest decreased P150 million, or 48.0% due to lower market valuation of the insurance's subsidiaries' investments.

2019 vs. 2018. In 2019, the Bank's net income reached P28.8 billion, an increase of P5.7 billion, or 24.8%, from the P23.1 billion recognized in the prior year. This increase was boosted by revenue growth of P15.8 billion, or 20.1%, which was partially tempered by the increase in operating expenses of P6.5 billion, or 14.8%.

Net interest income stood at P65.9 billion, up P10.1 billion, or 18.1%, on account of the P165.7 billion, or 8.6%, expansion in average asset base, and 24-basis point expansion in margins.

- **Interest income** increased P21.4 billion or 26.7%, from previous year's P80.2 billion. Interest income **on loans and advances** increased by P17.7 billion, or 25.6%, on the back of higher average volume and asset yield by P122.8 billion, and 84 bps, respectively. Interest income **on financial assets** likewise increased by P3.1 billion also due to higher average volume and yield of P59.2 billion and 35 bps, respectively. Interest income **on deposits with BSP and other banks** increased by P550 million, or 46.8%, due to higher average yield, partially tempered by the decrease in average volume;
- **Interest expense** of P35.6 billion, increased P11.3 billion, or 46.4%, driven by the increases in both interest expense **on deposits** at P28.9 billion, up P7.3 billion, or 34.1%, and **on bills payable and other borrowings** at P6.8 billion, up P3.7 billion, or 118.7%, due to higher average volume and interest cost.

Other income at P28.4 billion, up P5.7 billion, or 25.2%, higher than the P22.7 billion earned in the same period of 2018 primarily from the **securities trading gain** of P4.0 billion, up P3.3 billion, or 457.7%, due to profit taking on favorable trading opportunities. **Other operating income** at P12.0 billion, increased P1.6 billion, or 15.4%, due to higher credit card income and miscellaneous income. **Fees and commissions** at P9.1 billion, increased P838 million, or 10.2%, mainly from the higher service charges.

Other expenses at P50.1 billion, increased P6.5 billion, or 14.8%, due to increased spending of the following:

- **Occupancy and equipment-related expenses** at P16.1 billion, grew P3.0 billion, or 22.6%, due to the impact of the PRFS 16 implementation and higher technology-related outsourced services costs;
- **Compensation and fringe benefits** at P17.5 billion, was up P2.2 billion, or 14.2%, on increased manpower complement for both microfinance and regular branches;
- **Other operating expenses** at P16.5 billion, also increased P1.3 billion, or 8.8%, primarily from higher costs for regulatory, marketing, transaction servicing, and outsourced services.

Impairment losses stood at P5.8 billion, which includes specific reserves for the Hanjin exposure.

Provision for income tax at P9.4 billion, up P2.7 billion, or a 40.2% increase from P6.7 billion last year. **Current taxes** at P10.0 billion, was higher by P2.6 billion, or 35.6%, attributable to the higher taxable income subject to regular corporate income tax. **Deferred taxes** at (P685) million, on account of the higher write-offs for the year.

Income attributable to non-controlling interest increased P28 million, or 11.3%, because of higher income contribution from the Bank's non-life insurance affiliates.

Comprehensive Income

Total comprehensive income at P28.8 billion, increased P6.9 billion, or 31.5%, due to increases in both **net income before minority interest** by P5.8 billion, or 24.7%, and **total other comprehensive income, net of tax effect** by P1.4 billion, or 109.9%.

Share in other comprehensive income of associates at P1.3 billion, jumped P2.6 billion, or 200.4%, due to the upward market valuation of investments of the bancassurance affiliates. **Fair value reserve on investments of insurance subsidiaries, net of tax effect** at P545.3 million, increased P945 million, or 236.4%, as a result of higher market valuation of the bancassurance affiliates' investment funds. **Net change in fair value reserve on FVOCI securities, net of tax effect** at (P51) million, increased P739 million, or 93.5%, on account of higher market valuation of the Bank's investment securities. **Currency translation differences** at (P202) million, decreased P176 million, or 684.6%, on account of the net effect from cash flow hedging. These increases were partly tempered by the decreases in **actuarial gains (losses) on defined benefit plan, net of tax effect**, of P2.0 billion due to change in financial assumption, and **share in other comprehensive gain (loss) of associates** of P627 million, due to the remeasurement/fair valuation of BPI-Philam's liabilities, property, and equipment.

Comprehensive income attributable to non-controlling interest increased P279 million, or 171.8% due to higher market valuation of the insurance's subsidiaries' investments.

2020 vs. 2019

In Million Pesos	2018 (restated)	2019 (restated)	2020	CAGR
Net Interest Income	55,617	65,575	72,264	14.6%
Non-Interest Income	21,003	26,687	29,659	8.9%
Impairment Losses	4,719	5,562	28,000	94.7%
Operating Expenses	42,085	48,344	48,154	7.7%
Net Income	23,078	28,803	21,409	-1.5%

The Bank's compounded annual net income in the last three years declined -1.5%, as the growth in pre-provision operating income was offset by the acceleration in impairment losses in anticipation of an increase in non-performing loans as a result of the COVID-19 pandemic. Net interest income and non-interest income increased by 14.6% and 8.9%, respectively, while operating expenses registered a lower increase of 7.7% in the past three years.

On November 18, 2020, the Board of Directors approved the transfer of the Parent Bank's majority ownership via the sale of BPI's 2% share in BPI CTL to TCC, effective December 22, 2020. This resulted in a 49% to 51% ownership structure between BPI and TCC. The loss of control of the Parent Bank over BPI CTL resulted in the deconsolidation of the finance lease operations and was presented as a discontinued operation.

Accordingly, the Bank's **net income attributable to equity holders arising from continued operations** reached P21.41 billion, decreased P7.39 billion, or 25.7%, from the P28.80 billion recognized in the prior year. This amount is net of the **loss arising from the discontinued operations** of P211 million resulted from the recent transaction. Moreover, the decline in net income was primarily from the P28.0 billion **impairment losses** booked for the full year 2020, as the economic slowdown may lead to an increase in non-performing loans. Total revenues for the year increased by 10.5%, to P101.92 billion, and **operating expenses** amounted to P48.15 billion, almost flat compared to previous year.

Net interest income stood at P72.26 billion, up P6.69 billion, or 10.2%, on account of the P119.81 billion, or 5.8%, expansion in average asset base, and 14-basis point expansion in margins.

- **Interest income** decreased P4.18 billion, or 4.2%, compared from the P100.49 billion of the same period last year. Interest income **on loans and advances** decreased P3.74 billion, or 4.4%, on the back of lower asset yields, down by 84 bps, which offset the effect of higher average loan volume, up by P122.8 billion. Interest income **on financial assets** likewise decreased P657 million due to lower asset yield, despite higher average volume. However, interest income **on deposits with BSP and other banks** increased P222 million, or 12.9%, as both average volume and yield rose by P33.06 billion and 57 bps, respectively.
- **Interest expense** of P24.04 billion, decreased P10.87 billion, or 31.1%, on the back of the decreases in both interest expense **on deposits** at P18.99 billion, down P9.89 billion, or 34.2%, and **on bills payable and other borrowings** at P5.06 billion, down P980 million, or 16.2%, due to higher average volume despite lower interest cost.

Other income at P29.66 billion, up P2.97 billion, or 11.1%, higher than the P26.69 billion earned in the same period of 2019. The increase was primarily from the **net gains on disposals of investment securities at amortized cost** at P4.65 billion. **Income attributable to insurance operations** also increased P282 million, up 23.1%, to P1.51 billion, due to higher income contribution from the Bank's life and non-life insurance affiliates. On the other hand, **other operating income** at P9.14 billion, decreased P1.13 billion, or 11.0%, due to decline in gain in asset sales and credit card income.

Other expenses at P48.15 billion, decreased P190 million, or 0.4%, due to controlled spending: **Compensation and fringe benefits** at P18.01 billion, was up P636 million, or 3.7%, on increased manpower compensation and Bank contribution to retirement fund;

- **Occupancy and equipment-related expenses** at P14.61 billion, down P129 million, or 0.9%, due lower rent and utilities costs;
- **Other operating expenses** at P15.54 billion, also decreased P697 million, or 4.3%, due from lower costs for advertising and publicity, and miscellaneous expenses.

Impairment losses stood at P28.0 billion, 5.0x more than the P5.56 billion set aside in 2019, due to pre-emptive provisioning on anticipated credit loss.

Provision for income tax at P3.91 billion, lower by P5.45 billion, or 58.2%, relative to the P9.36 billion from last year. **Current taxes** at P10.75 billion, was higher by P775 million, or 7.8%, attributable to the higher taxable income subject to regular corporate income tax. **Deferred taxes** at P6.84 billion, up 1,003%, on account of the higher provisioning set-up for the year.

Income attributable to non-controlling interest increased P4 million, or 1.6%, due from higher income contribution from the Bank's non-life insurance affiliate.

Comprehensive Income

Total comprehensive income at P18.26 billion, decreased P10.95 billion, or 37.5%, due to decreases in both **net income before minority interest** by P7.14 billion, or 24.6%, and **total other comprehensive income (loss), net of tax effect** by P3.53 billion, to (P3.39) billion. The total comprehensive income was net of the **loss arising from the discontinued operations** of P215 million.

Net change in fair value reserve on FVOCI securities, net of tax effect at P643 million, increased P694 million, on account of higher market valuation of the Bank's investment securities. On the other hand, loss from **remeasurement of defined benefit obligation** increased P1.98 billion, to P3.38 billion, due to change in financial assumption. **Share in other comprehensive loss of associates** at P1.24 billion, also increased P1.21 billion, due to the lower market valuation of the life insurance affiliate's investments securities. **Share in other comprehensive income of associates** at P640 million, also decreased P646 million, due lower accumulated fluctuation reserves of the Bank's insurance affiliate. **Fair value reserve on investments of insurance subsidiaries, net of tax effect** at P195 million, declined P350 million, or 64.2%, as a result of lower market valuation of the insurance subsidiaries' investment funds. Loss from **currency translation differences** at (P238) million, increased P36 million, or 18.0%, on account of the net effect from cash flow hedging.

Comprehensive income attributable to non-controlling interest decreased P127 million, or 28.7% due to lower market valuation of the insurance's subsidiaries' investments.

Key Performance Indicators

	2018	2019	2020
Return on Equity (%) ¹	10.2	11.0	7.7
Return on Assets (%) ¹	1.2	1.4	1.0
Net Interest Margin (%) ¹	3.1	3.3	3.5

Capital Adequacy Ratio (%) ²	16.1	16.1	17.1

¹ Using daily average method

² Basel III Framework

The Bank's capital ratios for the last three years showed a robust capital position with sufficient loss-absorption buffer for any potential adverse scenario. Profitability metrics have also been consistent but reflect the impact of this year's elevated provisioning. Notwithstanding the decline in operating expenses due to limited business activity brought about by the pandemic in 2020, the Bank's strong cost discipline is evident in the improving efficiency ratio trend. The same ratios are also used to evaluate the performance of the Bank's subsidiaries.

Return on equity (ROE), the ratio of net income to average equity, and **Return on assets (ROA)**, the ratio of net income to average assets, were lower at 7.7% and 1.0%, respectively, as a result of the decline in net income of 25.7%

Net interest margin (NIM), net interest income divided by average interest bearing assets, at 3.5% was higher by 14 basis points than the 3.3% in 2019 on lower cost of funds.

Operating efficiency (cost to income) ratio, the ratio of operating expenses to income, improved to 47.2% from 52.4%, as the growth in revenues of 10.5% outpaced the increase in operating expense.

Capital adequacy ratio (CAR), the ratio of total qualifying capital to total risk-weighted assets, was at 17.1%, higher versus the prior year's 16.1%, as qualifying capital grew and risk-weighted assets declined. The CET 1 ratio at 16.2%, was also higher than the 15.2% from the same period last year. Both of the Bank's capital ratios are above the BSP's minimum requirement.

Presented below are the additional information required by BSP Circular No. 1074 issued on January 8, 2020. This information is presented for BSP reporting purposes and is not required in the basic financial statements.

Using simple average method:	2019	2020
Return on Equity (%)	11.1	7.8
Return on Assets (%)	1.3	1.0
Net Interest Margin (%)	3.3	3.4

Details of the basic quantitative indicators of financial performance are reflected in Note 31 of the 2020 Audited Financial Statements.

Material Event/s and Uncertainties:

Other than the disclosure enumerated above, the Bank has nothing to report on the following:

- a) Any known trends, demands, commitments, events or uncertainties that will have a material impact on its liquidity.
- b) Events that will trigger direct or contingent financial obligation that is material to the company, including any default or acceleration of an obligation.
- c) Material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of the bank with unconsolidated entities or other persons created during the reporting period.
- d) Any material commitments for capital expenditures.
- e) Any known trends, events or uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales/revenues/income from continuing operations.
- f) Any significant elements of income or loss that did not arise from the Bank's continuing operations.
- g) Any seasonal aspects that had a material effect on the financial condition or results of operations

Future Prospects

The COVID-19 pandemic, which compelled the Philippines to impose restrictions on mobility, has resulted to a 9.6% economic contraction in 2020. The last time the GDP shrank by this much was more than 30 years ago, during the 1980s debt moratorium.

With the economy slowly reopening, local demand will most likely improve although a full recovery is not expected in 2021. The lack of foot traffic in malls and other public areas continues to dampen the demand for goods and services that involve human contact, while the decline in household income amid the pandemic has forced consumers to tighten their belts. However, e-commerce and the widespread use of delivery services are expected to cushion the decline in consumer spending.

The availability of a vaccine in the second half of 2021 may accelerate the recovery of the economy. We are expecting a 6.8% growth rate in 2021, coming from a low base in 2020. We also note that uncertainties still remain and may possibly pull down growth this year. A second wave of infection could overwhelm the health system and force the government to implement stricter restrictions, similar to the experience of other countries. In addition, government underspending may prevent the economy from building the needed infrastructure that can fast track its recovery.

Philippines COVID-19 Stimulus Response

The national government has implemented stimulus measures to support the economy. Stimulus measures aside from support on the healthcare system have included direct distribution of cash and goods to the general public, short term tax and social security relief.

The government's fiscal response has been quite modest with on-budget spending increasing by 11.3% in 2020, lower than 2019's full-year growth of 11.4%. Despite this, the country's budget deficit expanded from 3% in 2019 to around 7.6% of GDP in 2020 as collections of the Bureau of Internal Revenue and the Bureau of Customs fell sharply.

The BSP, on the other hand, has been implementing more forceful measures to cushion the economy's contraction. It has reduced its policy rate by 200 bps from 4.00% to 2.00% and its reserve requirement ratio by 200 bps from 14% to 12%. These have been one of the most aggressive monetary policy responses among the major ASEAN economies in 2020. The BSP has also implemented unprecedented measures including purchase of government securities and easing of regulatory requirements on banks. These aggressive actions have been made possible by the stable inflation environment, which settled at average of 2.6% in 2020.

Inflation and Interest Rates

Looking ahead, the Bank sees upside risks that could keep inflation above 4% in the coming months. The distribution of vaccines may lift global demand and push oil prices higher. However, even at current levels, price of oil is expected to register a 200% year-on-year increase in the second quarter given the low base from last year. In addition, supply constraints especially in the meat sector will likely continue for the remainder of the year as the swine industry may take some time to address the impact of the African Swine Fever. Inflation risk along with the steepening of the US Treasury yield curve and additional borrowing from the government may exert upward pressure on interest rates.

Exchange Rate

The Peso has been the strongest currency in Asia in 2020. The huge decline in the demand for US dollar as a result of the drop in imports and international travel has supported the local currency. Due to weak US dollar demand, the BSP has also been able to build up its Gross International reserves to a record high of US\$110 billion as of December 2020.

With the economy slowly reopening, the Bank expects imports to recover in the coming months in line with the expected improvement in local demand. Hence, demand for US dollar may pick up and the exchange rate may move closer to PHP49 to a US dollar. Risk to this outlook includes public sector spending remaining below target, especially in infrastructure. With businesses still struggling, the lack of fiscal support and public construction may stall the recovery and dampen the demand for capital goods.

Implications on Business and Strategy

Main insights from 2020 are that:

- Banking is under threat from multiple fronts - pressure on NIMs, pressure on fees, NPLs rising, credit cost rising, intensified competition, regulatory challenges, and
- Transformation is critical – the world is changing, the consumer is changing, and COVID-19 accelerated trends that are already underway, such as digital being a major transformation catalyst.

We navigated through the unprecedented times brought about by the pandemic by initially focusing on safety and survival, and moved to ensuring operational resilience. BPI implemented various modifications to physical operations which ensured business continuity and safety of both our employees and customers.

For the near-term, we will position for recovery by:

- Reallocating resources for future growth,
- Realigning our various asset portfolios,
- Boosting productivity to improve cost efficiency, and
- Transforming the organization.

In line with this, our strategic imperatives will continue to focus on five key areas.

1. **Growing our high margin businesses** – SMEs, Consumer, and Microfinance – despite taking a pause this year to focus on asset quality preservation given weak market demand.
2. **Strengthening our funding franchise**, where our diversified mix of deposits and debt ensure ample liquidity and optimized cost of funds for the Bank.
3. **Executing our five-point digital strategy founded on these pillars:**
 - **Mobile first omni-channel experience** to allow customers to open bank accounts in any branch and have all other subsequent transactions take place digitally.
 - **Shape the customer experience** through tailor-fit service platforms to suit their needs based on data analytics and insights. Such is the case for our clients using Bizlink, an all-in-one digital platform which houses multiple products and services that extend beyond traditional cash management.
 - **High tech, high touch** by allowing customers to conduct self-service transactions, branch operations can focus on specialized customer services.
 - **Open banking** to be a key focal point of financial intermediation by serving customers in as many ways as possible by partnering with various fintech providers who offer services like e-wallets and funds transfer.
 - **Industry class infra** that is secure, reliable, and private, underpinned by the upgrade of our core banking systems. Our mission is to guarantee the security of our clients' financial assets while championing the education of clients on cybersecurity.
4. **Deepening our client relationships** in the new normal while improving risk-adjust returns. We have solidified our foothold in the corporate space by helping Philippine conglomerates, large corporates, and multinational companies grow their businesses, manage their operations, and mitigate risks
5. **Rationalizing our distribution channels to achieve further cost efficiency.**
Our distribution strategy transformation involves the re-balancing of our traditional and digital channels. The operational limitations brought about by the lockdowns, strengthened our view to continue to rationalize, consolidate, and optimize our branch network. For our digital channels, we have embarked on accelerating the growth of BPI as “the Everyday Bank”, through our open banking ecosystem and regular launches of new platform functionalities.

Sustainability

Globally there is a trend towards ESG, particularly on climate change which is a top priority for key stakeholders. The growing demand for ESG-aligned products, with investors wanting to hear more on ESG from banks, has spurred the issuance of ESG-related regulations such as BSP Circular 1085: Sustainable Finance Framework and SEC Memorandum Circular No. 4, Series of 2019: Sustainability Reporting Guidelines for Publicly-Listed Companies.

In 2020, we established the Board-approved BPI Sustainability Agenda which will guide the Bank on the integration of sustainability principles in the corporate governance and risk management frameworks, as well as in the strategic objectives and operations. We recognize the importance of integrating sustainability principles in order to create long-term value for our stakeholders and to positively contribute to an equitable society and healthy environment. Our Sustainability Agenda is guided by the provisions of BSP Circular 1085.

Our sustainability objectives are embodied in our updated Sustainability Strategy Framework (Strategy) with the pillars of Responsible Banking and Responsible Operations. The Bank believes that Responsible Banking is the key to creating long-term value for all our stakeholders. The Strategy supports BPI's vision of Building a Better Philippines, and focuses on key ESG areas where the Bank can have the most impact.

Item 7. Financial Statements

Please refer to Exhibit A for the 2020 Audited Financial Statements as audited by the principal accountant, the Accounting Firm of Isla Lipana & Co., and signed by the Partner Mr. Zaldy D. Aguirre.

Audit and Audit-Related Fees

BPI has paid the following fees, inclusive of taxes, to its external auditors in the past two (2) years:

(In Million Pesos)	Audit Fees	Audit-related Fees
2018 paid in 2019 PFRS Validation	P 13.915 P 5.500	P 2.535
2019 paid in 2020 Bond Offerings	P 18.210 P 1.250	P 3.559 P 0.203
Approved for 2020 (not yet paid)	P 18.340	-

The audit and audit-related fees cover services by the external auditor that are reasonably related to the performance of the audit or review of the annual, half year or quarter end financial statements for BPI and its subsidiaries. There were no non-audit fees for other services not related to the audit/review of the financial statements.

Item 8. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

There are no disagreements with Isla Lipana & Co. on accounting and financial disclosures.

PART III – CONTROL AND COMPENSATION INFORMATION

Nationality

Filipino

Career

Mr. Zobel serves in Board of the following Philippine Stock Exchange (PSE) – listed companies, namely: Chairman and Chief Executive Officer of Ayala Corporation, Chairman of Globe Telecom, Inc. and Integrated Micro-Electronics, Inc., and Vice-Chairman of Ayala Land, Inc., Manila Water Company, Inc. and AC Energy Corporation (formerly AC Energy Philippines, Inc.). He is also the Chairman of Ayala Retirement Fund Holdings, Inc., AC Industrial Technology Holdings, Inc., AC Ventures Holdings Corp., AC Infrastructure Holdings Corporation and Asiacom Philippines, Inc.; Co-Chairman of Ayala Foundation, Inc. and Ayala Group Club, Inc.; Director of Alabang Commercial Corporation, Ayala International Pte. Ltd., AC Energy and Infrastructure Corporation (formerly AC Energy, Inc.), Ayala Healthcare Holdings, Inc., Light Rail Manila Holdings, Inc. and AG Holdings Limited.

Relevant Skills and Experience

Chairman Jaime Zobel de Ayala has a distinguished track record as an international businessman. Having been the CEO of Ayala Corporation, a holding company established in 1834, with diverse business interests, a legacy of pioneering the future and aspirations for sustainable national development, Mr. Zobel has received many honors including: World Economic Forum Global Leader for Tomorrow in 1995; Emerging Markets CEO of the year in 1998 (sponsored by ING); Philippine TOYM (Ten Outstanding Young Men) Award in 1999 and Management Association of the Philippines Management Man of the Year Award in 2006. He has a deep understanding of international strategic, commercial and environmental issues, and gained extensive experience as a member of the board of directors of the companies in the Ayala Group in the areas of banking, telecommunications, property development, water distribution, health and education, renewable energy. During his time as Chair, he has been committed to developing and maintaining a strong dialogue with investors and other key stakeholders and has ensured that their views are considered during Board discussions and decision-making. He has also demonstrated a strong commitment to ensuring that the highest standards of corporate governance, ethics and compliance are maintained. Mr. Zobel has a strong commitment to national development, which is reflected in the thrust of the Ayala Group towards new capacity-building efforts in strategic sectors such as power and transport infrastructure. In 2007, he received the Harvard Business School Alumni Achievement Award, the school's highest recognition. He was awarded the Presidential Medal of Merit in 2009, the Philippine Legion of Honor with rank of Grand Commander in 2010, and the Order of Mabini with rank of Commander in 2015 by the President of the Philippines in recognition of his outstanding public service.

Outside Interests/Commitments

He is a member of various international and local business and socio-civic organizations, including the JP Morgan International Council, JP Morgan Asia Pacific Council and Mitsubishi Corporation International Advisory Council. He sits on the board of the Singapore Management University and on various advisory boards of Harvard University, including the Global Advisory Council, HBS Board of Dean's Advisors, and HBS Asia-Pacific Advisory Board, which he chairs. He is Chairman Emeritus of the Asia Business Council, a member of the Global Board of Advisers of the Council on Foreign Relations, and Co-Vice Chairman of the Makati Business Club, Chairman of Endeavor Philippines, and a board member of Eisenhower Fellowships.

Environmental, Social and Governance

In 2017, he was recognized as a United Nations Sustainable Development Goals Pioneer by the UN Global Compact for his work in sustainable business strategy and operations. The first recipient of the award from the Philippines, he was one of 10 individuals recognized for championing sustainability and the pursuit of the 17 SDGs in business. He was formerly a chairman of the World Wildlife Fund Philippine Advisory Council.

Education

He received his B.A. in Economics (with honors) from Harvard University in 1981 and completed his MBA at Harvard Business School in 1987.

Position

Executive Director

Tenure

Appointed Executive Director April 2013 to Present

Appointed a Non-Executive Director February 1995 to January 2000

Appointed Independent Director from August 2004 to January 2007 and from April 2010 to April 2013

He has served on BPI's board of directors for 19 years (1995 - 2000, 2004 - 2007, 2010 - present)

Board Committee membership

Member of the Executive Committee

Management Committee membership

Chairman of the Credit Committee

Chairman of the Management Committee

Mr. Consing serves as chairman of BPI's thrift bank, investment bank, UK bank, property and casualty insurance, leasing, and rental subsidiaries, and vice chairman of its foundation; and is also a board director of BPI's life insurance, asset management and micro finance subsidiaries.

Age

61, Born 1959

Nationality

Filipino

Career

Since 2013, he has been the President and Chief Executive Officer of Bank of the Philippine Islands (BPI) and a Senior Managing Director of Ayala Corporation, BPI's controlling shareholder.

Relevant Skills and Experience

Mr. Consing first worked for BPI, in corporate planning and corporate banking, from 1981-1985. He worked for J.P. Morgan & Co., based in Hong Kong and Singapore, from 1985-2004, rising to co-head or head the firm's investment banking business in Asia Pacific from 1997 - 2004, the last five years as President of J.P. Morgan Securities (Asia Pacific) Ltd. As a senior Managing Director of J.P. Morgan, Mr. Consing was a member of the firm's global investment banking management committee and its Asia Pacific management committee. Mr. Consing was a partner at The Rohatyn Group from 2004 - 2013, headed its Hong Kong office and its private investing business in Asia, and was a board director of its real estate, and energy and infrastructure private equity investing subsidiaries.

Outside Interests/Commitments

Outside his association with BPI and the Ayala Group, Mr. Consing serves on the boards of four private companies: The Rohatyn Group, Sqreem Technologies, FILGIFTS.com and Endeavor Philippines. He has also served as an independent board director of four publicly-listed companies: Jollibee Foods Corporation (2010 – present), CIMB Group Holdings (2006 – 2013), First Gen Corporation (2005 – 2013), and National Reinsurance Corporation (2014 – 2019), where he also served as Chairman (2018 – 2019). Mr. Consing has been a member of the Trilateral Commission, the global discussion group, since 2014.

Environmental, Social and Governance

He has also served on the board of the Hong Kong based Asian Youth Orchestra. He is a board director of the US-Philippines Society and the Philippine-American Educational Foundation, and a trustee of the College of St. Benilde and the Manila Golf Club Foundation.

Education

Mr. Consing received an A.B. Economics degree (Accelerated Program), magna cum laude, from De La Salle University, Manila, in 1979. Mr. Consing obtained an M.A. in Applied Economics from the University of Michigan, Ann Arbor, in 1980.

Other Philippine Stock Exchange-Listed Companies:

Jollibee Foods Corporation – Independent Director

Board Committee membership

Chairman of the Related Party Transaction Committee

Chairman of the Corporate Governance Committee

Member of the Personnel and Compensation Committee

He serves as an Independent Director of BPI Asset Management and Trust Corporation and BPI Direct Banko, Inc., A Savings Bank, and BPI Capital Corporation.

Age

76, Born 1945

Nationality

Filipino

Career

Mr. Bunye was a member of the Monetary Board of the Bangko Sentral ng Pilipinas from 2008 to 2014. He previously held the positions of Presidential Political Adviser in 2008, Presidential Spokesperson in 2003, and Press Secretary in 2002. He began his government service in the City of Muntinlupa (then a municipality) as officer-in-charge and mayor between 1986 and 1998. In a concurrent capacity, he also served as Chairman of the Metropolitan Manila Authority (now Metropolitan Manila Development Authority) between 1991 and 1992, and was a member of the House of Representatives representing Muntinlupa between 1998 and 2001.

Relevant Skills and Experience

In earlier years, he worked at the Filipinas Foundation Inc. as Assistant Corporate Secretary from 1970 to 1975, Assistant Vice President of BPI Investment Corporation from 1976 to 1983 and Assistant Vice President for Corporate Banking and Treasury at the Bank of the Philippine Islands from 1983 to 1985. He also held various executive positions at the Ayala Group of Companies, including Assistant Vice President of the Ayala Investment and Development Corporation. Significant awards and recognition received by Mr. Bunye include the Asian Institute of Management Honor and Prestige Award, the Bangko Sentral Service Excellence Medal, the Gran Oden de Isabela Catolica, and the Order of Lakandula (rank of Bayani).

Outside Interests/Commitments

A former print and broadcast journalist, he now writes a regular weekly column for Manila Bulletin, Tempo, People's Tonight, Sun Star, BusinessWeek Mindanao, Panay News and Filipino Reporter (in New York).

Environmental, Social and Governance

During his twelve-year stewardship in Muntinlupa, Mr. Bunye founded the Muntinlupa Polytechnic College (now Pamantasan ng Lungsod ng Muntinlupa) and laid the foundation for the establishment of the Ospital ng Muntinlupa (hospital).

Education

Mr. Bunye is a member of the Philippine Integrated Bar. He obtained his Bachelor of Arts degree and Bachelor of Laws degree from the Ateneo de Manila University in 1964 and 1969, respectively. He passed the Philippine Bar Examination in 1969.

Career

He held the position of President and Chief Executive Officer of the Bank for 22 years from 1982 to 2004.

Relevant Skills and Experience

Under his presidency of the Bank, BPI obtained its universal banking license. It was also during his tenure that BPI consummated the biggest merger in the banking industry when it acquired the former Far East Bank & Trust Company (FEBTC). This merger strengthened its foothold in the asset management & trust services, enhanced its penetration of the middle market, as well as further reinforced its dominance in branch banking. In 2000, it also formalized its acquisition of three major insurance companies in the life, non-life and reinsurance fields. This move integrated the insurance product line into the bank's basket of financial products for its customers. During his presidency, the Bank also established in February 2000 BPI Direct Savings Bank, a savings bank focused on providing internet and mobile banking services to its customers, which was to become the forerunner of BPI Direct Banko. He was President of the Bankers Association of the Philippines for two terms from 1989 to 1991.

Outside Interests/Commitments

He is the Chairman and President of XPL Manitou Properties, Inc. and Vice-Chairman of XPL MTJL Properties Inc. He is a member of the Board of Directors/Trustees of DAOI Condominium Corporation and E. Zobel Foundation.

***Appointed in October 2020

**Independent Director as defined in Sec. 38 of the Securities Regulation Code and BSP Circular Nos. 296 and 749.*

Per Article V of the Amended By-Laws of the Bank, all nominations for election of Directors by the stockholders shall be submitted in writing to the Board of Directors through the Corporate Secretary, together with the written acceptance of the nominee, not later than the date prescribed by law, rules and regulations or at such earlier or later date as the Board of Directors may fix. No nominee shall qualify to be elected as Director unless this requirement is complied with. In accordance with this, the nominations are subsequently processed and evaluated by the Nomination Committee of the Bank in a meeting called for that purpose in compliance with SRC Rule 38.

The Executive Officers

1. **CEZAR P. CONSING***
President & Chief Executive Officer

[Please see above.]

**Member of the Board of Directors of BPI*

2. **MARIA THERESA MARCIAL JAVIER**
Executive Vice-President & Chief Finance Officer

Ms. Marcial, Filipino, 50 years old, is the Chief Finance Officer, Chief Sustainability Officer and Head of Strategy and Finance of BPI. She is responsible for strategic planning and sustainability, central accounting, financial control, balance sheet management and analytics, corporate legal affairs, strategic management and sales of bank assets, and, investor relations.

She is a member of BPI's Management Committee, Asset and Liability Committee, Credit Committee, and chairs the Finance Committee. She is a board director of BPI MS Insurance Corporation, BPI Europe Plc, BPI Asset Management and Trust Corporation, AF Payments Inc, and BPI Global Payments Asia Pacific Philippines Inc. She is a fellow of Foundation for Economic Freedom, trustee and treasurer of World Wide Fund for Nature (WWF) Philippines, treasurer of BPI Foundation, and board director of Philippines Inter-Island Sailing Federation.

She joined BPI in 1995 through the Bank Officers Development Program. She has 26 years of banking experience with expertise in strategic planning and finance, corporate banking, debt and equity capital markets, portfolio management, trust, and retail wealth management. She previously served on the BPI Trust Committee and the board of BPI Investment Management Inc. Prior to her banking career, she worked for the National Economic and Development Authority, and the Agricultural Policy Credit Council.

She previously served as president of the Fund Managers Association of the Philippines, president of the Trust Officers Association of the Philippines, vice-chairman of Capital Markets Development Committee of FINEX, alternate governor of the Market Governance Board of Philippine Dealing and Exchange Corporation, and member of the National Advisory Council of WWF Philippines. She was recognized as one of Top 25 Most Influential Women in Asset Management in Asia by Asian Investor and Most Outstanding Alumnus of the University of the Philippines Los Baños.

Ms. Marcial obtained her Master's Degree in Economics in 1995 from the University of the Philippines Diliman and BS Economics, cum laude, from the University of the Philippines Los Baños in 1990. She completed the Advanced Management Program at Harvard Business School in 2010 and the CFA Institute Investment Management Workshop also at Harvard Business School in 2006.

3. **RAMON L. JOCSON**

Executive Vice-President & Chief Operating Officer

Filipino, 61 years old, Mr. Jocson is currently an EVP and the COO of BPI. He heads BPI's Enterprise Services which serves as the backbone of the organization that includes Human Resources, Centralized Operations, Information Systems, Digital Channels, Business Transformation & Data Science, Facilities Services, Corporate Affairs and Communications and Client Experience Center. He chairs the Bank's IT Steering Committee and is a member of the Bank's Management Committee.

Mr. Jocson began his career as a Systems Analyst with IBM Manila in 1982, subsequently took on more responsibility as he assumed different positions, including Information Systems Manager, Systems Engineering Manager and Manager of Quality. In 1995, he was assigned in Singapore where he led IBM's Applications/Systems Integration business in ASEAN and South Asia. In 1996, he was appointed as Managing Director for IBM Philippines. In 2000, he took on a new assignment as Vice President and GM of IBM Global Services, ASEAN and South Asia. He was then appointed as Vice President and GM of IBM Global Services for Industrial Sector for Asia Pacific in 2005. Two years later, in 2007, he took on the role of Vice President and GM of Application Services for the Growth Market Unit, where he led IBM's Applications Management and Application Integration Services in Asia Pacific, Central and Eastern Europe, Latin America and Middle East/Africa. He was then appointed as VP & GM of Integrated Technology Services for Asia Pacific in 2010. In 2013, he was appointed as VP & GM of IBM Global Services for Central and Eastern Europe based in Prague, Czech Republic. In this capacity, he was responsible for IBM's services portfolio in Russia/CIS, Turkey, Poland & Baltics, Central Europe and South East Europe. From January 2015 until he joined BPI in September 2015, he was in Singapore as IBM Asia Pacific VP & GM for Strategic Outsourcing which catered to major regional banks, telcos and airlines as major clients.

He was also a member of IBM's Growth & Transformation Team, which is composed of the top senior leaders in IBM which worked directly with the Chairman on key/strategic initiatives. He has served on several external boards, including the Economic Development Board of Singapore, Philamlife and iPeople.

Mr. Jocson graduated with a B.S. Industrial Engineering degree from the University of the Philippines in 1982 and obtained his MBA from the Ateneo Graduate School of Business.

4. MARIE JOSEPHINE M. OCAMPO
Executive Vice-President

Filipino, 59 years old, Ms. Ocampo is the Head of the Mass Retail Segment of the Bank, where she oversees BPI's credit, debit and prepaid card businesses as well as personal and micro finance loans.

Ms. Ocampo is currently the Chairman of the Board of BPI Direct Banko, the bank's micro-finance subsidiary. She is a member of the Board of BPI Payments Holdings Inc., Global Payments Asia-Pacific Philippines, Inc., AF Payments Inc., Zalora Philippines and CARD MRI Rizal Bank Inc.

Ms. Ocampo started her career in BPI as Vice-President for Marketing and Sales of BPI Credit Cards in 1996. She soon took the position of President for BPI Card Corporation, the bank's credit card subsidiary where she won the prestigious Agora Award-2000 Marketing Company of the Year. In 2005, Ms. Ocampo was then cross-posted to BPI's Consumer Banking Group as Head of Kiosk Banking and Head of Personal Banking. She also became the Chief Marketing Officer of BPI from 2008 until 2014 where she was responsible for retooling the bank's data warehouse and customer analytics capabilities into its distinct competitive advantage. Ms. Ocampo also developed the bank's CRM initiatives on top of driving the bank's advertising and digital initiatives across the breadth of products, channels and services. In 2015, she became the Payments and Remittance group head, and was tasked to grow fee revenue via expanding existing businesses and developing new payment platforms.

Prior to joining BPI, Ms. Ocampo gained over 10 years of marketing experience in Procter & Gamble and Johnson & Johnson Australia and the Philippines, where she led the expansion of J&J's Health Care, Baby Care and Sanitary Protection business.

Ms. Ocampo graduated Magna Cum Laude and received her Bachelor of Science in Business Management, Honors Program at Ateneo de Manila University. She also completed the Advanced Management Program at the Harvard Business School in 2007.

5. JUAN CARLOS L. SYQUIA
Executive Vice-President

Filipino, 54 years old; Head of Corporate Banking. Mr. Syquia's responsibilities include managing the Corporate Banking Relationship Management, Corporate Credit Products, Transaction Services (Cash Management and Trade), Remittance and Fund Transfer, Investment Banking and Equity Brokerage. He is also a director of BPI's joint venture company, Global Payments Asia-Pacific Philippines Incorporated. Prior to taking on this role in 2018, he was the President of BPI Capital Corporation and Co-Head for Investment Banking for the Bank. He has over 30 years of work experience in the financial services industry.

Prior to joining BPI Capital Corporation in June 2016, Mr. Syquia was the Country Head of Corporate Clients for Standard Chartered Bank in the Philippines serving in that role from late 2011. In that role, he was principally responsible for wholesale banking strategy of the bank in the Philippines.

Mr. Syquia spent 17 years with the ING Group where he started with Baring Brothers & Co. in 1994. Within the banking group of ING, he took on various roles in relationship management, corporate finance origination, and investment banking execution. His last role in ING Bank was as the Head of Corporate Finance at ING Bank Manila. In 2007, he moved to a regional role as Head of Strategy and Business Development at ING Asia Pacific Ltd., the regional hub of ING Group's life insurance and asset management practice. He held Board of Director positions at ING Insurance Bhd. (Malaysia), Pacific Antai Life Insurance Co. (Shanghai, China), ING Vysya Life Insurance (India).

Mr. Syquia is a product of the BPI's Officer Training Program which he completed in 1990 during his first stint at the Bank. In 1991, he was assigned to Cebu where he formed part of a two-man team that established the Corporate Banking Division desk in Cebu. He carries an MBA Degree (Honors) with a concentration in Finance and International Business from Fordham University, NY as well as an AB degree in Management Economics from the Ateneo de Manila University.

¹ retired and on extension contract

A-2. Significant Employees

The Bank values its human resources and considers its entire workforce as significant employees. It expects each employee to do his share in achieving the company's set goals and objectives.

A-3. Family Relationships

The Chairman of the Board of Directors, Mr. Jaime Augusto Zobel de Ayala, and Mr. Fernando Zobel de Ayala, the Vice-Chairman of the Board, are brothers.

A-4. Legal Proceedings

To the knowledge of the Bank, none of its nominees for election as Directors and its Executive Officers have been subject of the following legal proceedings during the last five (5) years:

- i. any bankruptcy petition filed by or against any business of which such director or officer was a general partner or executive officer either at the time of the bankruptcy or within two years prior to that time;
- ii. any conviction by final judgment, in a criminal proceeding, domestic or foreign, or being subject to a pending criminal proceeding, domestic or foreign;
- iii. any order, judgment, or decree, not subsequently reversed, suspended or vacated, of any court of competent jurisdiction, domestic or foreign, permanently or temporarily enjoining, barring, suspending or otherwise limiting his involvement in any type of business, securities, commodities or banking activities; and
- iv. being found by domestic or foreign court of competent jurisdiction (in a civil action), the Commission or comparable foreign body, or a domestic or foreign Exchange or other organized trading, market or self-regulatory organization,

to have violated a securities or commodities law or regulation and the judgment has not been reversed, suspended, or vacated.

A-5 Resignation of Directors

To date, no director has resigned from, or declined to stand for election or re-election to the Board since the date of the 2020 annual meeting of stockholders due to any disagreement with the Bank relative to its operations, policies and practices.

*Includes P27 million, P27 million, P35 million for the years 2019, 2020, and 2021, respectively, representing per diem of Directors at P70K per Board meeting and P30K per Committee meetings attended.

Compensation of Directors

Article V of the Bank's Amended By-Laws provides:

"Each director shall be entitled to receive from the Bank, pursuant to a resolution of the Board of Directors, fees and other compensation for his services as director. The Board of Directors shall have the sole authority to determine the amount, form and structure of the fees and other compensation of the directors. In no case shall the total yearly compensation of directors exceed one percent (1%) of the net income before income tax of the Bank during the preceding year.

The Personnel and Compensation Committee of the Bank shall have the responsibility for recommending to the Board of Directors the fees and other compensation for directors. In discharging this duty, the Committee shall be guided by the objective of ensuring that compensation should fairly pay directors for work required in a company of the Bank's size and scope."

For 2020, the Board of Directors' fees and other compensation amounted to P83.939 million, which was equivalent to less than 1% of the Bank's net income before tax.

Standard Arrangement

Other than the usual per diem arrangement for Board and Board Committee meetings and the abovementioned fees and compensation of Directors, there is no Standard Arrangement with regards to compensation of directors, directly or indirectly for any other services provided by the said directors, for the last completed fiscal year.

¹ PCD Nominee Corporation (PCD), now known as the Philippine Depository and Trust Corporation (PDTC), Non-Filipino and Filipino, is the registered owner of the shares beneficially owned by participants in the PDTC. The Board of Directors of each participant generally has the power to decide on how shares are to be voted.

² Mermac, Inc. owns 47.2774% of common shares and 56.7314% of total voting shares, while Mitsubishi Corporation owns 6.0202% of common shares and 6.9273% of total voting shares, respectively, of the outstanding shares of Ayala Corporation ("AC").

³ The Board of Directors of AC has the power to decide on how AC's shares in BPI are to be voted.

⁴ AC owns 84.16% of the outstanding shares of Liontide Holdings, Inc. (formerly Ayala DBS Holdings, Inc.), which translates to 78.07% effective ownership.

⁵ The Board of Directors of Liontide Holdings, Inc. ("Liontide") has the power to decide how Liontide's shares in BPI are to be voted.

⁶ Under a Voting Trust Agreement dated October 12, 2017, the Board of Directors of AC International Finance Limited (AC International) has the power to decide how AC International's shares in BPI are to be voted.

⁷ The Archbishop of Manila has the power to decide how the Roman Catholic Archbishop of Manila's shares in BPI are to be voted.

1. Security Ownership of Directors and Management as of December 31, 2020

The following are known to BPI to be directly the record and/or beneficial owners of BPI voting securities:

Title of Class	Name of Beneficial Owner	Position	Dec 2019		Dec 2020		Nature of Ownership	Citizenship
			No. of Shares	% of Holdings	No. of Shares	% of Holdings

None of the members of the Bank's Board of Directors and Management owns 2.0% or more of the outstanding capital stock of the Bank.

¹ Board member until 22 April 2020

² Elected as Board member effective 23 April 2020

³ Resigned as Board member effective 21 October 2020

⁴ Retired as Treasurer effective 01 January 2020

N/A Not Applicable, not a Director or Officer as of the period

2. Voting Trust Holders of 5% or More

Ayala Corporation has a Voting Trust Agreement with AC International Finance Limited.

3. Minimum Public Ownership

As of December 31, 2020, listed securities held by the public were at 39.2% of BPI's issued and outstanding shares. This is above the minimum required public float level of 10%.

Item 12. Certain Relationships and Related Transactions

In the normal course of business, the Parent Bank transacts with related parties consisting of its subsidiaries and associates. Likewise, the BPI Group has transactions with Ayala Corporation (AC) and its subsidiaries (Ayala Group), where all transactions are dealt with on an arm's length basis. AC is a substantial stockholder of BPI as at reporting date.

The Parent Bank has a Board-level Related Party Transactions Committee that vets and endorses all significant related party transactions, including those involving directors, officers, stockholders and their related interests (DOSRI), for which the latter shall require final Board approval. The Committee consists of three directors, majority of whom are independent directors including the Chairman, and two non-voting members from management, namely, the Chief Audit Executive and the Chief Compliance Officer.

These transactions have terms and conditions that are generally comparable to those offered to non-related parties or to similar transactions in the market.

Significant related party transactions and outstanding balances as at and for the year ended December 31, 2019 are summarized below:

Consolidated

2020			
	Transactions for the year	Outstanding Balances	Terms and Conditions
	(In Millions of Pesos)		
Loans and Advances from: Subsidiaries	131	189	These are loans and advances granted to related parties that are generally secured

Associates	159	509	with interest rates ranging from 2.32% to 9.87% (including those pertaining to foreign currency-denominated loans) and with maturity periods ranging from 5 days to 15 years
Ayala Group	16,624	76,509	
Other related parties	23,424	24,160	
	40,338	101,367	
Deposits from:			These are demand, savings and time deposits bearing the following average interest rates: Demand – 0.13% to 0.26% Savings – 0.25% to 0.61% Time – 1.91% to 3.65%
Subsidiaries	(1,804)	7,942	
Associates	(626)	1,277	
Ayala Group	5,463	18,750	
Key management personnel	(454)	783	
	2,579	28,752	

A more detailed discussion on related party transactions can be found in Note 25 of the 2020 Audited Financial Statements.

PART IV – CORPORATE GOVERNANCE

Item 13. Corporate Governance

I. Corporate Governance Framework

We anchor our corporate governance framework on: (i) qualified and competent leadership, (ii) rigorous internal controls, (iii) an effective risk culture and (iv) strong accountability to shareholders. The Bank's corporate governance framework is defined by its Articles of Incorporation, Amended By-Laws and Manual on Corporate Governance, and takes into account the nature, size, complexity, business activities and requirements of the Bank as well as its group operations. Banking practices, guided by BPI's Board and Committee charters, the Manual of Corporate Governance, Code of Business Conduct and Ethics and internal operating manuals, reflect the integrity and ethics that define the Bank's decision-making, conduct and behavior, and are consistent with statutory laws, rules and regulations of the Bangko Sentral ng Pilipinas (BSP), Securities Exchange Commission (SEC), Anti-Money Laundering Council, Philippine Deposit Insurance Corporation, among others.

As a publicly listed company, BPI recognizes that robust corporate governance policies and practices promote a fair and sound market valuation of BPI shares and maintain the confidence of customers and investors alike. BPI strives to be jointly compliant with corporate governance and listed company disclosure requirements and standards of the SEC and the Philippine Stock Exchange. As an issuer in capital markets, the Bank also has a policy of continuous disclosure and transparency and utilizes disclosure mechanisms of the various exchanges in which its capital market issuances are traded. BPI also actively pursues alignment with best practices of counterparts in the region. The Bank strongly supports initiatives to strengthen regional capital market development and integration, especially through adoption of rigorous benchmarking methodology of the ASEAN Corporate Governance Scorecard. In addition, considering BPI's role in the group as parent and publicly-listed company, the Board maintains an effective, high-level risk management and oversight process across other companies in the group to ensure consistent adoption of or alignment with the aforementioned corporate governance policies and systems.

II. Board Governance

- a) **Advisory Council.** As part of the Bank's efforts to strengthen stewardship further, the Bank has a three-member Advisory Council to the Chairman, created in 2016, composed of senior thought leaders, captains of industry and luminaries in their respective fields. The Advisory Council expands the range of expertise, experience, and collective wisdom available to the Bank.
- b) **Board of Directors.** Our fifteen-member Board plays a key role in setting our governance standards to meet our stakeholders' expectations. In 2020, Non-Executive Directors (NEDs) comprising a majority or 14 out of the 15, were elected to the Board in April. The only Executive Director (ED) is the President and CEO. The size of our Board is deemed appropriate given the complexity of operations of the Bank and the entire BPI group, the geographical spread of our business, and the significant time demands placed on the Directors. During the 2020 to 2021 board term: 1) Mr. Ramon del Rosario was reclassified as a Non-Executive director; 2) Independent Director Xavier P. Loinaz resigned for health reasons, and; 3) Mr. Cesar V. Purisima was elected as a new Independent Director, subject to confirmation of the

Monetary Board. In this respect, the Board, with 6 Independent Directors (IDs), is above the regulatory requirement to have at least one-third (1/3) but not less than two (2) members of the board of directors as independent.

Chairman and Vice-Chairman. The Board has a Chairman and Vice-Chairman, both of whom are non-executive directors. The Chairman, who is not the CEO of the Bank in the past three years, is separately appointed from the President and CEO. Said positions are currently held by two individuals who are not related to each other and have roles and responsibilities that are also separate and distinct, as detailed in the Manual on Corporate Governance. The Chairman guides the Board in its decision-making process and ensures that the Board operates effectively as a team. The Chairman also forges a positive and constructive working relationship between the Board and management. With the Chairman at the helm, the Board sets BPI's strategy and risk appetite, and approves capital and operating plans presented by management for sustainable achievement of strategic objectives. In the absence of the Chairman of the Board, the Vice-Chairman assumes and performs all the powers and duties of the Chairman of the Board.

Lead Independent Director. At the Organizational Meeting of the Board of Directors, following the 2020 BPI Annual Stockholders' Meeting, Independent Director Octavio V. Espiritu was appointed as Lead Independent Director. Although current regulations of the BSP require the appointment of a Lead Independent Director only when the positions of Chairman of the Board of Directors and CEO are, with prior approval of the Monetary Board, held by one person, the Board appointed a Lead Independent Director in pursuit of best practice governance standards.

Diversity and Independence. Our leadership model ensures an appropriate balance of power, accountability and independence in decision-making. As disclosed on the company website, the Board adopted a Diversity Policy, in 2015 to institute diversity at the board level; the Board of Directors elected in April 2020 included three women, one of whom is also an Independent Director, comprising 20% of the Board. Six Independent Directors were elected to the 2020 Board, higher than the regulatory requirement to have at least one-third (1/3) but not less than two (2) Independent Directors as members of the board. This constitutes 40%, which is key to fairness and integrity, and allows the board to strike a balance between public, corporate and all stakeholder interests.

- c) **Board Charter.** The Charter of the Board articulates, with specificity, the governance and oversight responsibilities exercised by its directors and their roles and functions in the Bank. It includes provisions on board composition, committees and governance, subject to provisions of the Bank's Articles of Incorporation, Amended By-Laws and applicable laws. It is incorporated in the BPI Manual on Corporate Governance and is reviewed together with the annual review of the Manual. As stated in the Charter, the Board's key areas of focus include:
 - Governance – Ensuring that corporate responsibility and ethical standards underpin the conduct of BPI's business; developing succession plans for the Board and CEO; establishing the general framework of corporate governance for the Bank;
 - Strategy - Reviewing BPI's strategic and business plans; growing the business sensibly and building resilience into the franchise;
 - Risk management – Ensuring that effective risk management, compliance and assurance processes undergird our business;
 - Financial performance – Monitoring management performance; achieving goals and targets;
 - Sustainability - Considering sustainability issues (including environmental and social factors) and including these as part of the Bank's strategy.
- d) **Board Committees.** To heighten the efficiency of board operations, the Board has established Committees that assist in exercising its authority for oversight of internal control, risk management, and performance monitoring. In 2020, the Bank had eight board-level committees: Executive, Risk Management, Audit, Corporate Governance, Personnel and Compensation, Nominations, Retirement and Pension, and Related Party Transactions Committees. Board-level committee memberships were also evaluated and calibrated to improve on the committees' focused oversight and high level engagement with management. The respective charters stating committee purpose, membership, structure, operations, reporting processes and other information are disclosed in regulatory reports, posted on the company website and reviewed by the committees annually. Annual performance reviews are conducted by all board-level committees.
- e) **Corporate Secretary.** The Board is assisted in its duties by a Corporate Secretary who is not a member of the Board of Directors and is a senior, strategic-level corporate officer who plays a leading role in the Bank's corporate governance, serving as an adviser to the directors on their responsibilities and obligations. The Board has separate and independent

access to the Corporate Secretary. All directors and board committees also have unrestricted access to company records and information in addition to receipt of regular detailed financial and operational reports from senior management. Our Corporate Secretary is suitably trained and experienced in legal, accountancy or company secretarial practices and is professionally qualified for these responsibilities. Our Corporate Secretary also possesses the legal skills of a chief legal officer whose training is complemented by business, organizational, human relations and administrative work skills. Our Corporate Secretary is also Corporate Secretary of various BPI subsidiaries and affiliates.

- f) **External Advice.** Considering the increasing complexity of market transactions and rapid rate of change in the regulatory sphere, the Board, if so requested by the Chairman or other directors, can call on external specialists or consultants for advice, briefings or assistance on specialized areas of focus such as accounting standards, related party transactions, capital, tax, listing, mergers and acquisitions, valuation, etc. Management can arrange for the external auditor, management services company or consultants to present to the Board and the Bank.

- g) **Nominations.** As we are a financial institution imbued with public interest, fit and proper qualifications for membership in our Board of Directors are dictated by our Amended By-Laws, Manual on Corporate Governance, the Corporation Code, and relevant regulations of the Bangko Sentral and the SEC. As a publicly listed company, we also ensure that Board composition and director qualifications also meet pertinent governance regulations, requirements, and standards of the PSE. As disclosed in the Manual on Corporate Governance, candidates for directorship may be recommended by shareholders to the Nominations Committee through the Office of the Corporate Secretary. Among other qualifications, candidates must be fit and proper for the position of a director, taking into consideration integrity/probity, physical/mental fitness, relevant education/financial literacy/training, possession of competencies relevant to the job such as knowledge and experience, skills, diligence and independence of mind and sufficiency of time to carry out responsibilities. Candidates recommended by shareholders are evaluated in the same manner as director candidates identified by any other means. The Committee itself may likewise identify and recommend qualified individuals for nomination and election to the board and may make use of professional search firms or other external sources to search for qualified candidates to the board. Separate qualifications and disqualifications for Independent Directors based on regulations, are enumerated in the Bank's Manual on Corporate Governance. Directors must remain qualified throughout the term. All of the Bank's annual reports contain comprehensive profiles of the Board of Directors which disclose the age, qualifications, date of appointment, relevant experience and directorships both in the BPI group as well as in other companies, listed or otherwise. In compliance with SEC Memo. Cir. No. 11, s2014, the Bank also posts biographical details of the Board of Directors and Senior Management on the company website.

- h) **Election and Term of Directors.** Board members are elected by BPI stockholders who are entitled to one vote per share at the Bank's Annual Stockholders Meeting. Voting for the election of members of the Board is considered in a poll, by shares of stock, that is, one share entitles the holder to one vote, two shares to two votes. Votes may be cumulated as provided for in the Corporation Code. The fifteen nominees receiving the highest number of votes are declared elected. The Bank's Amended By-Laws state that elections for the Board of Directors will be held yearly during the Annual Stockholders Meeting. Directors are to hold office for a term of one (1) year immediately upon their election and until the next election when their successor shall have been elected and qualified in accordance with the Amended By-Laws and Corporation Code. No meeting of stockholders shall be competent to transact business unless a majority of the outstanding and subscribed capital stock entitled to vote is represented, except to adjourn from day to day or until such time as may be deemed proper. The Rules of Conduct, voting and vote tabulation procedures are explained during the Annual Stockholders Meeting. In its meeting held on February 26, 2020, the Executive Committee approved Management's recommendations for BPI to provide the Bank's stockholders with the option to vote in absentia through an online electronic system in the 2020 Annual Stockholders Meeting. Hence, at the April 23, 2020 Annual Stockholders Meeting, BPI stockholders were able to effectively participate and had the option to cast votes in absentia through an online electronic system, as also provided for in the Revised Corporation Code. The Office of the Corporate Secretary tabulates all votes received and the Bank's external auditor validates the results. Voting results are likewise disclosed on the various exchanges where BPI's capital market issuances are traded and the company's website as soon as possible after the meeting. The election/appointment of directors/officers must also be confirmed by the Monetary Board of the BSP. Elected/appointed directors/officers must submit required certifications and other documentary proof of qualifications for the confirmation of their election/appointment. The nomination and election processes and their effectiveness are reviewed annually by the Nomination Committee during its review of the committee charter and its self-assessment, by its members, of committee performance. In adherence to Recommendation 2.6 of the SEC CG Code for PLCs, these nomination and election policies are disclosed in BPI's Manual on Corporate Governance as well as on the company website.

- i) **Meetings and Attendance.** The BPI Board meets regularly for the effective discharge of its obligations. Regular board meetings are convened monthly. Board of Directors meetings are scheduled at the beginning of the year to cover the full term of the newly elected or re-elected members of the Board, reckoned from the date of the current year's Annual Stockholders Meeting to that of the following year. Special meetings may be called for as needed. Items placed on the board agenda are those that have the most fundamental importance and broad policy implications for the Bank. Directors are free to suggest items for inclusion in the agenda, and are free to raise at any board meeting subjects that are not on the agenda for that meeting. At the Chairman's discretion, any agenda items may also be referred for discussion in the respective committees. The Chairman presides over meetings of the Board. The Vice Chairman presides in the absence of the Chairman. Board and committee meetings are conducted consistent with the Bank's Amended By-Laws. Discussions during the board meetings are open and independent views are given due consideration. The minimum quorum requirement for board decisions is set at a two-thirds (2/3) of Board members as provided by the Bank's Amended By-Laws. In November 2019, the Board approved the amendment of the company By-Laws to, among others, raise the minimum quorum at any meeting for the transaction of corporate business from a majority to two-thirds (2/3) of the members of the Board of Directors. When necessary, the Board holds executive sessions to discuss highly sensitive matters. Board reference materials are made available to the directors at least five days in advance of the scheduled meeting. As an innovation to board governance, all materials for Board and Board committee meetings are uploaded through a secure system onto individual tablet devices specifically provided to the Board members to ensure immediate receipt and quick access. Independent and Non-Executive Directors of the Bank also meet at least once a year without the presence of the executive director or management. In 2020, average attendance of re-elected and newly-elected members at the Board of Director's 15 meetings was 99.125%. When exigencies prevent a Director from physically attending a Board or Board committee meeting, facilities for telephone conferencing are made available. In those instances when a Director is unable to attend meetings even through teleconferencing due to prior commitments or unavoidable events, said Director provides input to the chairman so that his views can be known and considered. The Bank's Non-Executive Directors conducted a separate meeting on December 15, 2020 to discuss ongoing initiatives and semestral performance of the risk management, internal audit and compliance units of the Bank. The meeting was chaired by the Bank's appointed lead Independent Director. Aside from the NEDs present, the meeting was also attended by the BPI control heads – Chief Risk Officer, Chief Audit Executive and Chief Compliance Officer. The external auditor was also in attendance.
- j) **Continuing Education.** The Bank ensures that it has in place a formal board and director development program. For new directors, there is a deliberate, systematic and rapid familiarization with the organization and the operations of the board, Articles of Incorporation and Amended By-Laws, Manual of Corporate Governance, Board Charter as well as the Code of Conduct, standards of Conflict of interest and policies such as Insider Trading, Whistleblowing, Data Privacy and Related Party Transactions. The Bank, through its various units, also provides continuing director education in relation to current developments; these include regulatory initiatives with respect to Data Privacy, Cyber Risk and Cyber Security, the Anti-Money Laundering and Terrorist Financing Prevention Program, Foreign Account Tax Compliance Act, Securities Regulations Code, Sustainability Issues and ESG Reporting, SEC memorandum circulars, and BSP regulations, among others. All of the Bank's directors undergo the requisite corporate governance seminar provided by an SEC or Bangko Sentral-accredited institution. On November 10, 2020, members of the Board, including senior officers of the Bank, attended the Annual CG Training Program conducted by the Institute of Corporate Directors (ICD). Other directors attended the Corporate Governance Training conducted by Risk, Opportunities, Assessment and Management (ROAM), Inc. on September 25, 2020, Advanced Corporate Governance Training conducted by the ICD on October 15, 2020 and Business Continuity Planning: Executive Briefing for Board of Directors and Management conducted by Center for Global Best Practices on October 23, 2020.
- k) **Remuneration.** The remuneration decisions for the Board and management are aligned with risk incentives and support sustainable, long-term value creation. Apart from ensuring that Board and management pay appropriately reflects industry conditions and financial performance, the Bank likewise rebalances returns back to shareholders through a consistent dividend declaration. Under the Bank's Amended By-Laws, as approved by the shareholders, the Board, as a whole, determines the level of remuneration and/or benefits for directors sufficient to attract and retain directors and compensate them for their time commitments and responsibilities of their role. The Personnel and Compensation Committee recommends to the Board the fees and other compensation for directors, ensuring that compensation fairly remunerates directors for work required in a company of BPI's size and scope. As provided by the Amended By-Laws and pursuant to a Board resolution, each director is entitled to receive fees and other compensation for his services as director. The Board has the sole authority to determine the amount, form, and structure of the fees and other

compensation of the directors. In no case shall the total yearly compensation of the Board exceed 1% of the Bank's net income before income tax during the preceding year. Directors receive per diems for each occasion of attendance at meetings of the Board or of a board committee. All fixed or variable remuneration paid to directors may be given as approved by stockholders during the Annual Stockholders Meeting, upon recommendation of the Personnel and Compensation Committee. Other than the usual per diem arrangement for Board and Committee meetings and the aforementioned compensation of Directors, there is no other standard arrangement as regards compensation of directors, directly or indirectly, for any other service provided by the directors for the last completed fiscal year. Directors with executive responsibilities within the BPI group are compensated as full-time officers of the company, not as Non-Executive Directors. No director participates in discussions of the remuneration scheme for himself or herself. Historically, total compensation paid annually to all directors has been significantly less than the cap stipulated by the Bank's Amended By-Laws. The remuneration policy is reviewed annually to ensure that it remains competitive and consistent with the Bank's high performance culture, objectives, long-term outlook, risk assessment and strategies. This relationship between remuneration and performance aligns remuneration of the Board with the long-term interests of the Bank.

- l) **Performance Evaluation.** The Board conducts an annual board effectiveness review under the guidance of the Corporate Governance Committee, which ascertains alignment of leadership fundamentals and issues, and validates the Board's appreciation of its roles and responsibilities across four levels: the Board as a body, Board Committees, individual Directors and the President and CEO. Key evaluation criteria are built on the Board's terms of reference and committee charters and framed around broad leadership fundamentals and best practice. The Corporate Governance Committee processes and tabulates the results of the self-assessments and communicates them to the Board. Areas for improvement are discussed by the Board, in order to agree on remedial actions. The Corporate Governance Committee may also develop recommendations and action plans for the Board, whenever necessary and desirable. In adherence to Recommendation 6.1 SEC CG Code for PLCs the Board may also consider the use of an independent, external facilitator in the conduct of the Board self-assessment. In this respect, the Board conducted its 2020 annual performance evaluation in early 2021. Directors assessed that the Board as well as its committees and individual directors had performed their duties and responsibilities effectively for the past year and that there were no material issues with respect to membership, governance and operations. This also included an assessment of the President and CEO. In pursuit of best practice, the Bank also engaged a Third Party External Facilitator to conduct a separate Board Assessment covering the 2019 to 2020 term in August 2020. The externally-guided board assessment exercise, which was conducted by Aon Hewitt Singapore Pte. Ltd., looked at board and board committee composition and board governance policies on independence, tenure, multiple directorships, etc., and meaningfully enhanced the objectivity and rigor of the process and results.
- m) **Succession Planning.** Our Board is regularly refreshed in a continuing cycle. The Nomination Committee and the Corporate Governance Committee work within a general board succession plan framework to ensure that: 1) appropriate governance processes are in place and ongoing, for identifying, assessing and monitoring future needs of the Board; 2) there is continuity and transfer of knowledge in the Board so that it may effectively fulfill its role and responsibilities to BPI, as that may evolve over time, and; 3) the Board is taking a prudent and structured approach to managing succession risk. (BSP Cir. 969 and Recommendation 2.4 SEC CG Code for PLCs) The Corporate Governance Committee assists the Nomination Committee in the annual review and assessment of the structure, size and composition of the Board and Board-level committees. The committees take into consideration the Bank's current strategy and business, regulatory requirements on independence and diversity, as well as comparative benchmark and peer group analysis. The Corporate Governance Committee also utilizes a Skills and Expertise Matrix to proactively shape board composition, identify competency gaps, if any, and build the desired or required competency profile against which candidate directors will be assessed. Using a point system, succession planning priorities are then determined to guide the Nomination Committee in the assessment of candidates and in managing current and future requirements of the Board. The Board understands the importance of succession planning and, through its Personnel and Compensation Committee (PerCom), manages the talent pipeline and assembles the right executive and leadership competency capable of navigating the Bank through strategic, market, technology and regulatory shifts. In consultation with the Board and the President and CEO, either the PerCom evaluates and nominates potential successors to the President and CEO, as well as ensures there is a sufficient pool of qualified internal candidates to fill other senior and leadership positions. The Bank's effective succession planning has ensured leadership continuity within the last two decades, witnessing three President and CEO changes, marked by early planning and mentoring, smooth organizational and operational transitioning and prudent but progressive institutional building at BPI and across the BPI group. We believe that it is crucial to have a good balance between continuity and fresh perspectives on the Board. In much the same way, our Board is regularly refreshed in a continuing

cycle. The Nomination Committee and the Corporate Governance Committee work within a general board succession plan framework to ensure that the Board is able to fulfill its fiduciary duties so that the Bank remains relevant, agile, and anticipatory of future programs and directions.

- n) Retirement Policy. The Bank believes that imposing uniform and fixed limits on director tenure is counter-productive as it may force the arbitrary retirement of valuable directors. It is the Bank's strong view that with age often comes unmatched wisdom and experience, expert business judgment, invaluable industry and community relations and authority, and that the best interests of the Bank are served by its being able to retain directors that make very meaningful contributions to the Board and the organization regardless of age. The Bank, therefore, sets the retirement age for Directors at 80 years of age but which the Board may opt to waive depending on specific conditions. Term limits of Independent Directors are set at a maximum cumulative term of nine (9) years as prescribed in the Manual of Regulations for Banks and SEC Mem.Cir.No. 9, Series of 2011 and No. 4, Series of 2017. Retirement of senior management is done with the requisite succession planning and in accordance with the Bank's policies and implementing guidelines of its retirement plan for all employees, the Bank's Amended By-Laws, Labor Code and the Corporation Code of the Philippines. Currently, the retirement age for employees of the Bank is set at 60 years of age.

III. Risk, Control, and Compliance Oversight and Management Relations

- o) Audit. Based on Internal Audit assurance activities, Internal Audit provides reasonable assurance to the Audit Committee, Board of Directors and Senior Management that the Bank's systems of internal controls, corporate governance, and risk management processes are adequate and generally effective. This unit reports directly to the Board through its Audit Committee. It collaborates with other assurance providers such as the Risk Management Office, Compliance Office, external auditors, and other oversight units. Through this system for the comprehensive monitoring and review of risks and compliance in the institution, the Board ensures that the Bank and all business units proactively manage the risk and compliance exposures impacting the business. The Internal Audit Division is headed by a Chief Audit Executive who is appointed by the Board and reports functionally to the Board of Directors through the Audit Committee and administratively to the President and CEO. The Audit Committee recommends to the Board the appointment of a Bangko Sentral-accredited external auditor for the purpose of preparing or issuing an audit report or related work. The appointment or re-appointment of the Bank's external auditor is subject to the approval and endorsement by the Audit Committee, for subsequent confirmation and approval by the Board of Directors and finally the Stockholders.
- p) Risk Management. In the same way, the Board's Risk Management Committee, with the assistance of management's Risk Management Office and its Chief Risk Officer, reviews and recommends the Bank's enterprise risk and capital management framework to ensure that it conforms not only to the Bank's own rigorous standards, but also to Bangko Sentral directives promoting an effective Internal Capital Adequacy Assessment Process. The Chief Risk Officer is appointed by the Risk Management Committee, with approval and confirmation of the Board. The CRO is responsible for leading the formulation of risk management policies, methodologies, and metrics in alignment with the overall strategy of the Bank, ensuring that risks are prudently and rationally undertaken and within the Bank's risk appetite, as well as commensurate and disciplined to maximize returns on capital. The CRO and the RMO facilitate risk management learning programs and promote best practices on an enterprise- wide basis. The RMC also assesses the annual performance of the Chief Risk Officer and risk management functions taking into account how it carried out its duties and responsibilities.
- q) Compliance. Oversight of the management of the Bank's business risk and implementation of its compliance function is the responsibility of our Board of Directors, through the Audit Committee. At the management level, the compliance function is carried out by the Compliance Office, led by our Chief Compliance Officer (CCO). Designated by the Chairman of the Board, our CCO is not a member of the Board of Directors and has the rank of at least a Vice President. The CCO's qualifications are subject to the applicable provisions of the Manual of Regulations for Banks, particularly considering fit and proper criteria such as integrity/probity, competence, education, diligence, experience and training. The CCO annually attends corporate governance training.
- r) Strategy Process. The Bank's vision, mission, strategic objectives, key policies and procedures for management of the company are clearly established and communicated down the line. The Board of Directors creates the framework within which the executive team, under the President and CEO, can lead the business and deliver the agreed strategy. The Board conducts a periodic review of the foregoing and has continuing oversight in its implementation. The management team articulates the agreed strategy in periodic planning exercises and distills business plans in formal budgets. Periodic performance reviews are conducted against budgets and past performance. Management acts in accordance with well-

defined operating policies and procedures, and ensures accuracy and transparency of operational and financial reporting to protect the Bank's reputation for integrity and fair dealing. The management team strives to achieve accountability in revenue performance, efficiency in expenditure of resources, and high quality in delivery of services and achievement of customer satisfaction. Management is periodically reviewed and rewarded according to performance relative to innovation, initiatives, assigned targets, and feedback from customers, peers, and Board. The President heads a management team who lead supervise work of the Bank's business units, which includes but is not limited to the Chief Finance Officer, Chief Risk Officer, Chief Audit Executive, and Chief Compliance Officer who provide focused and strategic, functional leadership and expertise. Management level committees are in place to deal with operational functions from a strategic level and serve as counterpoints to senior and mid-level managers.

IV. Corporate Governance Policies and Practices

- s) **Manual on Corporate Governance.** The Bank has a Manual on Corporate Governance which documents the framework of policies, rules, systems and processes in the corporation that governs the performance by the Board of Directors and Management of their respective duties and responsibilities to stockholders and other stakeholders. A certification on the Bank's full compliance with the Manual, signed and issued by the Chief Compliance Officer, is posted on the Corporate Governance section of the company website. The Manual on Corporate Governance, reviewed annually, was last amended in early 2020, and amendments were approved by the Board of Directors on February 19, 2020. When updated or amended, the Manual is resubmitted to the SEC. The Manual is also posted on the company website.
- t) **Code of Conduct.** BPI has Codes of Business Conduct and Ethics for its directors, officers and employees that provide the key practices and behaviors derived from the BPI Credo and Core Values, that guides what they say and do, in order that the right decisions are taken in performing their respective roles and responsibilities across various functions in the Bank and in handling relationships with all stakeholders.

Employee Code of Business Conduct and Ethics. The Code is applicable to and mandatory for all BPI employees at all levels, including officers, as are the core values embodied in the Bank's Credo. As no code could address every situation an employee may encounter, all employees, including officers, are required to follow both the spirit and the letter of the Code, its policies, and procedures. All BPI officers and employees must abide and fulfill their duty and personal responsibility to read, understand and comply with the Code.

Director's Code of Conduct. BPI has a Code of Conduct for its Board of Directors, adopted in September 2017, which applies to and is binding on all directors of the Bank. The Director's Code is intended to provide guidance to directors, whether executive, non-executive or independent, with policies on standards for conduct of the business of the Bank, the protection of the rights of the Bank and its stakeholders, maintaining BPI's reputation for integrity and fostering compliance with applicable laws and regulations. The Director's Code, therefore, sets forth policy in several basic areas that commonly require directors to exercise sound and informed judgment, recognize and deal with ethical issues, report possible unethical conduct, and foster a culture of openness, fair dealing, diligence and accountability.

Compliance with the Codes. All employees, including senior officers and directors, acknowledge annually through a Statement of Affirmation that they have read and understood the employee Code of Conduct and/or the Director's Code, respectively, as well as the Manual on Corporate Governance, and fully comply and adhere to principles, standards and policies therein.

- u) **Conflict of Interest.** BPI does not tolerate those who place their interest above that of our institution, our clients, or our business partners. We have in place standards on conflict-of-interest that elevate the interest of the Bank above that of the personal interests of Directors, officers, and employees. These standards prohibit Directors, officers, and employees from using their position of authority or rank to directly or indirectly derive personal gain or advantage. Our standards on conflict of interest expect all Directors, officers and employees to refrain from any conduct that could be viewed unfavorably by our clients, co-employees, competitors, suppliers, investors, regulators, or the public. The standards also require full cooperation and provision of complete and accurate information from employees during government, regulatory or internal enquiries, investigations and audits. The standards also cover specific conflict-of-interest situations such as receipt of gifts from third parties, respect for trade secrets, and use of non-public information, and use of company funds, assets and information.

- v) **Whistleblower Policy.** This policy covers all employees of BPI and all wrongful acts that adversely impact the Bank and its stakeholders. Under the policy, it is the responsibility of all personnel to comply with rules and regulations of the Bank and to report violations or suspected violations in accordance with the policy. Anybody who knowingly aids, abets, or conceals or otherwise deliberately permits the commission of any irregular or fraudulent act directed against the Bank shall be considered as guilty as the principal perpetrators of the fraud or irregularity. Hence, all employees have a duty to cooperate with investigations initiated under the policy. No action will be taken against anyone for reporting such violations in good faith, or participating or assisting in investigations of a suspected violation. Any act of retaliation against a whistleblower is a violation of the Whistleblower Policy and Code of Business Conduct and Ethics.
- w) **Related Party Transactions Policy.** This policy guards against internal conflicts of interest between the company and/or its group and their directors, officers and significant shareholders and ensures that transactions such as loans and advances, deposit arrangements, trading of government securities and commercial papers, sale of assets, lease of bank premises, investment advisory/management, service arrangements and advances for operating expenses are made in the normal course of banking activities with terms and conditions that are generally comparable to those offered to non-related parties or to similar transactions in the market. Vetting transactions with related parties is done either by the board-level Related Party Transaction Committee (RPTC) or Management Vetting Committee (MVC), depending on materiality, prior to implementation. The two committees provide guidance and vet on credit and non-credit related party transactions of significant amounts (P50Mn and above for RPTC and below P50Mn for MVC). Related party transactions are properly disclosed in BPI's audited financial statements, and applicable filings in accordance with relevant rules and issuances of SEC, BSP, etc.
- x) **Insider Trading Policy.** This policy, in general, prohibits covered persons, i.e., directors, officers, employees of BPI and BPI's subsidiaries, and other parties who are considered to have knowledge, made aware of or have access to inside information or material non-public information, from buying or selling BPI stocks for their own personal account to benefit themselves or others, especially during the blackout trading period. All directors and senior management (SVP and up), Treasurer, Corporate Secretary and Assistant Corporate Secretary, are also required to report to the Compliance Office within ten (10) days from the end of each quarter their trades of shares of BPI stock during such quarter. In compliance with the SEC, all directors and senior management file within three (3) business days the required SEC Form 23A/B. Officers and directors are expected to strictly comply with the Policy and to be knowledgeable of BPI's related policies, standards or internal procedures such as on information barriers, which impact on compliance with the Insider Trading Policy. A breach of the Insider Trading Policy may result in internal disciplinary action and any violation of related securities laws may also subject the Bank and/or the director to civil liability and possibly monetary penalties.
- y) **Anti-Bribery and Anti-Corruption Policy, Anti-Money Laundering and Financial Crime Policies.** The Bank puts the highest premium on sound, responsible and effective corporate governance and does not tolerate bribery, corruption or improper payments of any kind. It advocates that Directors, officers and employees do not tolerate corruption or any form of bribery nor provide or accept improper inducements in the course of any business dealing. Aligned with the Bank's commitment to act fairly and with integrity in all business dealings and relationships, the Anti-Bribery and Anti-Corruption Policy complements the BPI's financial crime policies/programs such as the Money Laundering and Terrorist Financing Prevention Program and Whistleblower Policy. Guidance on the Bank's Anti-Corruption and Anti-Bribery program is supplemented by the Bank's Standards on Conflict of Interest under Request or Acceptance of Fees, Commissions, Gifts. Monitoring and compliance with the Code of Conduct and related policies are undertaken by departments or units of the Bank such as Human Resources and Corporate Governance, Compliance Division.
- z) **Data Privacy Policy.** BPI has a strong Data Privacy Policy in place, which complies with the requirements of the Data Privacy Act and the National Privacy Commission (NPC). BPI's Data Privacy Policy, posted on the company website, is supported by a comprehensive program utilizing a combination of policies, organizational structure, access controls and technologies designed for risk reduction. The Bank has a Data Privacy Office, headed by a Board-appointed Data Privacy Officer (DPO), a lead senior management officer. The key focus of the DPO is to oversee data privacy compliance and manage data protection risks consistent with Data Privacy Act rules and regulations, issuances by the NPC and other applicable laws. Management has also appointed Compliance Officers for Privacy for major business units of the Bank.
- aa) **Employee Welfare, Health and Safety.** Having engaged and competent employees is BPI's goal for delivering best-in-class customer experiences and for achieving its vision of being recognized as the most trusted partner and financial advisor. The Bank strives to be an employer of choice among Philippine financial institutions. We have a wide array of training and development programs and activities designed along the Bank's business objectives, aimed at honing the skills and

capabilities of our employees in carrying out their daily duties, as well as preparing them to assume higher responsibilities as the next leaders of the organization. The Bank has adopted a compensation policy that it believes is competitive with industry standards in the Philippines. Regular employees are provided with a comprehensive pay and benefits package, which is reviewed periodically and adjusted to retain current employees and attract new talent. Tied to this is a performance management system that calls for the alignment of individual key results, competencies, and development plans with the Bank's overall business targets and strategy. Officers and employees undergo regular performance evaluations based on their individual accomplishments vis-a-vis their responsibilities, as well as that of the business unit or the Bank. The Bank has an Executive Stock Purchase Plan (ESPP), a major initiative under its long-term incentive program, which aligns management's interest with shareholders and the long-term prospects of the Bank. Moreover, we strive to provide a safe, secure and conducive working environment for our employees, to continually safeguard their health and rights and provide equal opportunity for everyone to realize their fullest potential and make them agents of uplifting change for their communities. (Recommendation 2.9 of the SEC CG Code for PLCs)

V. **Investor Relations, Continuous Disclosure and Transparency**

- bb) **Investor Relations.** Through its Investor Relations Office, the Bank employs a program of proactive, uniform, appropriate and timely communication and reporting, in the spirit of full disclosure and in compliance with the Securities Regulation Code and Bangko Sentral, SEC and PSE rules, regulations and disclosure guidelines. The Bank provides company presentations in the Annual Stockholders Meeting and conducts analyst and media or press briefings apart from maintaining the relevant disclosures on its website. The Board has a policy of continuous disclosure and transparency and commits at all times to fully disclose all material information about the company for the benefit of the stockholder and other stakeholders. Such information includes earnings results, materially significant acquisition or disposal of assets, board changes, related party transactions which are not in the ordinary course of business, shareholding of directors and major changes to ownership/voting rights, group structures, intra- group relations, ownership data, and beneficial ownership. As a listed company, BPI files structured and unstructured disclosures through the appropriate Exchange mechanisms for listed companies and submits mandated regulatory reports to the SEC. The Bank also maintains an official company website in accordance with the SEC-prescribed format and template to ensure a comprehensive, cost-efficient, transparent, timely manner of disseminating relevant information to the public. BPI also maintains official company sites on social media-based platforms.
- cc) **Annual Stockholders Meeting (ASM).** The ASM is held annually and is organized in an easy to reach and cost-efficient venue and location in Metro Manila. The ASM allows shareholders to advise and adopt resolutions on important matters affecting the Bank, such as: ratification of all acts and resolutions of the Board of Directors and Management, approval of the annual report of the President and Bank's statement of condition, amendments to the Articles of Incorporation or By-Laws, election of Board of Directors and external auditor as well as measures to amend the shareholders' equity. In 2020, however, the Annual Stockholders meeting was conducted virtually via <https://asm.ayala.com/BPI2020>. Shareholders intending to participate by remote communication were requested to notify the Bank by email to bpiasm@bpi.com.ph on or before April 14, 2020.

Notice of the ASM. The Notice is sent to shareholders well before the meeting date to allow shareholders to review the meeting's agenda and provide shareholders with sufficient information regarding issues to be decided at the meeting; the Definitive Information Statement, or SEC Form 20-IS is issued in accordance with BPI's Amended By-Laws and SRC 20. In 2020, the Notice was sent out to stockholders of record by March 27, 2020, 27 days before the ASM.

Voting and Voting Results. All items in the agenda requiring stockholder approval need the affirmative vote of at least a majority of the issued and outstanding voting stock. Stockholders may vote in person or in absentia by proxy executed in writing by the stockholder or by a duly authorized attorney-in-fact. In its meeting held on February 26, 2020, the Executive Committee approved Management's recommendations for BPI to provide the Bank's stockholders with the option to vote in absentia in the 2020 ASM. Hence, at the April 23, 2020 ASM, stockholders were able to effectively participate and had the option to cast votes in absentia through an online electronic system, as also provided for in the Revised Corporation Code. Voting is considered in a poll, by shares of stock, that is, one share entitles the holder to one vote. Cumulative voting as provided for in the Corporation Code may be applied in the election of the Board of Directors and directors are elected individually. The Rules of Conduct, voting and vote tabulation procedures are likewise explained during the meeting. The Office of the Corporate Secretary tabulates all votes received and the Bank's external auditor validates the results. Voting results are disclosed on PSE EDGE and company's website.

Shareholder Participation. BPI proactively encourages the full participation of all shareholders, including institutional shareholders, at the ASM each year. Shareholders are encouraged to ask questions at the ASM to ensure accountability and identification with the Board of Directors' and Management's strategy and goals for the business of BPI.

Minutes of the Annual Stockholders' Meeting. The Minutes of the ASM includes all information pertinent to the meeting and is promptly disclosed on the company website within the period mandated by the SEC. Minutes of the 2020 ASM were likewise posted on the company website within five (5) calendar days from the date of the ASM.

- dd) Annual and Quarterly Reports. The Bank's Annual, Quarterly and Current Reports are its primary disclosure mechanisms used to impart knowledge about the Bank to all its stakeholders in an informative, structured and cost-effective manner. The Annual and Quarterly accountability reports effectively detail its performance during the period under review and put that performance in context of the objectives of the Bank, its strategies and future direction. The Current Reports similarly provide timely updates on significant corporate actions undertaken by the Bank. The Annual, Quarterly and Current Reports are regularly submitted to the SEC pursuant to Section 17 of the SRC, which also prescribes format and content. These Reports are also disclosed on the websites of the various exchanges where BPI capital market issues are traded and on the company's website. These may also be viewed at www.bpi.com.ph.

VI. Sustainability, Stakeholder Engagement and ESG Reporting

- ee) Sustainability and Stakeholder Engagement. The Bank operates on a sustainability framework of shared values which emphasizes importance of all stakeholders and how their interests are integrated into the business of BPI. Stakeholder engagement takes on various forms and is carried out through a range of information, communication and consultative activities and disclosures. For employees: learning and development programs; long-term, merit-based performance incentive mechanisms such as executive stock purchase plans and regular subscription plans. For communities: extending credit and financial services to underserved and unbanked sectors; improving financial literacy initiatives and factoring ESG dimensions into its business and risk models and loan products and services. For clients: financial wellness, financial inclusion and sustainable development investments. For suppliers: a supplier policy based on the principle of transparency - equal opportunity for qualified suppliers and contractors while ensuring a properly managed supply chain from the point-of-view of sustainability and good governance. For creditors: counterparties are protected by fairness, accountability and transparency; policies and procedures are in place safeguarding creditor's rights as required by the BSP.
- ff) Environmental, Social and Governance Reporting. BPI considers the most appropriate way to report non-financial information to ensure that its ESG reporting provides internal and external stakeholders with the non-financial information needed to understand the context that the Bank operates in today. ESG reporting may be through a stand-alone sustainability report, an integrated annual report, and company website. It has adopted a globally-recognized standard/ framework, G4 Framework by the Global Reporting Initiative, for its ESG reporting.

The Bank's sustainability report is incorporated in the 2020 Integrated Report that is prepared in accordance with Global Reporting Initiative (GRI) Standards, a globally recognized standard on sustainability reporting. The report is available on our website at www.bpi.com.ph.

VII. Corporate Governance Awards and Recognition

In 2020, BPI garnered the ASEAN Asset Class Award, ranking among the top listed firms across the six participating countries, namely Indonesia, Malaysia, Singapore, Thailand, Vietnam, and the Philippines. In 2020, BPI was also a recipient of the ICD's Golden Arrow Award as a Top Performing Company in the domestic assessment of the ACGS.

(Audited Financial Statements)

STATEMENT OF MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

The management of Bank of the Philippine Islands (the "Bank") is responsible for the preparation and fair presentation of the financial statements including the schedules attached therein, for the years ended December 31, 2020, 2019 and 2018, in accordance with the prescribed financial reporting framework indicated therein, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Bank's financial reporting process.

The Board of Directors reviews and approves the financial statements including the schedules attached therein, and submits the same to the stockholders.

Isla Lipana & Co., the independent auditor appointed by the stockholders, has audited the financial statements of the Bank in accordance with Philippine Standards on Auditing, and in its report to the stockholders, has expressed its opinion on the fairness of presentation upon completion of such audit.

Report on the Audits of the Financial Statements

Our Opinion

In our opinion, the accompanying consolidated financial statements of the Bank of the Philippine Islands and Subsidiaries (the "BPI Group") and the parent financial statements of the Bank of the Philippine Islands (the "Parent Bank") present fairly, in all material respects, the financial position of the BPI Group and of the Parent Bank as at December 31, 2020 and 2019, and their financial performance and their cash flows for each of the three years in the period ended December 31, 2020 in accordance with Philippine Financial Reporting Standards ("PFRSs").

What we have audited

The financial statements comprise:

- the consolidated and parent statements of condition as at December 31, 2020 and 2019;
- the consolidated and parent statements of income for each of the three years in the period ended December 31, 2020;
- the consolidated and parent statements of total comprehensive income for each of the three years in the period ended December 31, 2020;
- the consolidated and parent statements of changes in capital funds for each of the three years in the period ended December 31, 2020;
- the consolidated and parent statements of cash flows for each of the three years in the period ended December 31, 2020; and
- the notes to the consolidated and parent financial statements, which include a summary of significant accounting policies.

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing ("PSAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independent Auditor's Report
To the Board of Directors and Shareholders of
Bank of the Philippine Islands
Page 2

Independence

We are independent of the BPI Group and the Parent Bank in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics), together with the ethical requirements that are relevant to our audit of the consolidated and parent financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics.

Our Audit Approach

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the consolidated and parent financial statements. In particular, we considered where management made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters, consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the consolidated and parent financial statements as a whole, taking into account the structure of the BPI Group and the Parent Bank, the accounting processes and controls, and the industry in which the BPI Group and the Parent Bank operate.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated and parent financial statements of the current period. These matters were addressed in the context of our audit of the consolidated and parent financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

The key audit matter identified in our audit pertains to the impairment losses on loans and advances, which applies to both the BPI Group's and the Parent Bank's financial statements.

Independent Auditor's Report
To the Board of Directors and Shareholders of
Bank of the Philippine Islands
Page 3

Key Audit Matter	How our audit addressed the Key Audit Matter
Impairment losses on loans and advances We focused on this account because of the complexity involved in the estimation process, and the significant judgments that management makes in ascertaining the provision for loan impairment. The calculation of impairment losses is inherently judgmental for any bank. As at December 31, 2020, the total allowance for impairment for loans and advances amounted to PHP46,758 million for the BPI Group and PHP34,796 million for the Parent Bank while provision for loan losses recognized in profit or loss for the year then ended amounted to PHP26,994 million for the BPI Group and PHP20,232 million for the Parent Bank. Refer to Notes 10 and 26 of the financial statements for the details of the impairment losses on loans and advances. Provision for impairment losses on loans that are assessed to be individually credit impaired is determined in reference to the estimated future cash repayments and proceeds from the realization of collateral held by the BPI Group and the Parent Bank. For other loan accounts which are not individually credit impaired, they are included in a group of loans with similar risk characteristics and are collectively assessed on a portfolio basis using internal models developed by the BPI Group and the Parent Bank.	We assessed the design and tested the operating effectiveness of key controls over loan loss provisioning. These key controls included: • governance over the development, validation and approval of the BPI Group's ECL models to assess compliance with Philippine Financial Reporting Standard (PFRS) 9, <i>Financial instruments</i>; including continuous re-assessment by the BPI Group that the impairment models are operating in a way which is appropriate for the credit risks in the BPI Group and the Parent Bank's loan portfolios; • review and approval of key judgments, assumptions and forward-looking information used in the ECL models; • review of data from source systems to the detailed ECL model analyses; • assessment of credit quality of loans and advances relative to the established internal credit risk rating system; • the review and approval process for the outputs of the impairment models; and • the review and approval process over the determination of credit risk rating, performance of credit reviews and calculation of required reserves for loans assessed as credit-impaired. Our work over the impairment of loans and advances included: • assessment of the methodology applied by the BPI Group and the Parent Bank in the development of the ECL models vis-a-vis the requirements of PFRS 9; • testing of key assumptions in the ECL models such as PD, LGD, EAD built from historical data. Our assessment included the involvement of our internal specialist;

Independent Auditor's Report
To the Board of Directors and Shareholders of
Bank of the Philippine Islands
Page 4

Key Audit Matter	How our audit addressed the Key Audit Matter
<i>(cont'd.)</i> Key elements in the impairment of loans and advances include: - the identification of credit-impaired loans, and estimation of cash flows (including the expected realizable value of any collateral held) supporting the calculation of individually assessed provisions; and - the application of appropriate impairment models for the collectively assessed accounts. This include the use of key assumptions in the impairment models (i.e., staging of accounts, significant increase in credit risk, forward-looking information), the exposure at default (EAD), the probability of default (PD) and the loss given default (LGD). The impairment losses include both quantitative and qualitative components. In calculating the loan loss provisioning, the BPI Group and the Parent Bank applied the expected credit loss (ECL) model prescribed by PFRS 9, which is a complex process that takes into account forward-looking information reflecting the BPI Group and the Parent Bank's view on potential future economic events.	- assessment of the appropriateness of the BPI Group's and the Parent Bank's definition of significant increase in credit risk and staging of accounts through analysis of historical trends and past credit behavior of loan portfolios; - independent comparison of economic information used within, and weightings applied to, forward-looking scenarios in the ECL models against available macro-economic data; - testing of the accuracy and completeness of data inputs in the ECL models and in the ECL calculation by comparing them with the information obtained from source systems; - testing the accuracy and reasonableness of the outputs of the ECL models through independent recalculation; - for a sample of individually assessed loans identified as credit-impaired, examined relevant supporting documents such as the latest financial information of the borrower or valuation of collateral used as a basis in estimating the recoverable amount and measuring the loan loss allowance; and - recalculation of the collective loan loss allowance for selected accounts and portfolios at reporting date using the ECL models adopted by the BPI Group and the Parent Bank.

Other Information

Management is responsible for the other information. The other information comprises the information included in the SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report, but does not include the consolidated and parent financial statements and our auditor's report thereon. The SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report are expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated and parent financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated and parent financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated and parent financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated and parent financial statements in accordance with PFRSs and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and parent financial statements, management is responsible for assessing the ability of each entity within the BPI Group and of the Parent Bank to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the entities within the BPI Group and the Parent Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the BPI Group's and the Parent Bank's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated and parent financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and parent financial statements.

Independent Auditor's Report
To the Board of Directors and Shareholders of
Bank of the Philippine Islands
Page 6

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated and parent financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the BPI Group's and of the Parent Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of each entity within the BPI Group and the Parent Bank to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated and parent financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the entities within the BPI Group and the Parent Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated and parent financial statements, including the disclosures, and whether the consolidated and parent financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Independent Auditor's Report
To the Board of Directors and Shareholders of
Bank of the Philippine Islands
Page 7

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated and parent financial statements of the current period and is therefore the key audit matter. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Supplementary Information Required by the Bangko Sentral ng Pilipinas (BSP) and the Bureau of Internal Revenue (BIR)

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information required under BSP Circular No. 1074 in Note 31 and BIR Revenue Regulations No. 15-2010 in Note 32 to the financial statements is presented for purposes of filing with the BSP and the BIR, respectively, and is not a required part of the basic financial statements. Such information is the responsibility of the management of the BPI Group and the Parent Bank. The information has been subjected to the auditing procedures applied in our audits of the basic financial statements. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

We have audited in accordance with Philippine Standards on Auditing, the consolidated financial statements of the Bank of the Philippine Islands and Subsidiaries (the "BPI Group") as at December 31, 2020 and 2019 and for each of the three years in the period ended December 31, 2020, and have issued our report thereon dated February 24, 2021. Our audits were made for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The Supplementary Schedule on Financial Soundness Indicators, including their definitions, formulas, calculation, and their appropriateness or usefulness to the intended users, are the responsibility of the BPI Group's management. These financial soundness indicators are not measures of operating performance defined by Philippine Financial Reporting Standards (PFRSs) and may not be comparable to similarly titled measures presented by other companies. This schedule is presented for the purpose of complying with the Revised Securities Regulation Code Rule 68 issued by the Securities and Exchange Commission, and is not a required part of the basic consolidated financial statements prepared in accordance with PFRSs. The components of these financial soundness indicators have been traced to the BPI Group's consolidated financial statements as at December 31, 2020 and 2019 and for each of the three years in the period ended December 31, 2020 and no material exceptions were noted.

BANK OF THE PHILIPPINE ISLANDS

NOTES TO FINANCIAL STATEMENTS

**AS AT DECEMBER 31, 2020 and 2019 AND FOR EACH OF THE THREE YEARS
IN THE PERIOD ENDED DECEMBER 31, 2020**

Note 1 - General Information

Bank of the Philippine Islands (“BPI” or the “Parent Bank”) is a domestic commercial bank with an expanded banking license and was registered with the Securities and Exchange Commission (SEC) on January 4, 1943. The Parent Bank’s license was extended for another 50 years on January 4, 1993.

In 2019, the Parent Bank’s office address, which also serves as its principal place of business, was transferred to Ayala North Exchange, Ayala Avenue corner Salcedo Street, Legaspi Village, Makati City. Prior to 2019, BPI’s registered office address and principal place of business were both located at BPI Building, Ayala Avenue corner Paseo de Roxas, Makati City.

BPI and its subsidiaries (collectively referred to as the “BPI Group”) offer a whole breadth of financial services that include corporate banking, consumer banking, investment banking, asset management, corporate finance, securities distribution, and insurance services. At December 31, 2020, the BPI Group has 19,952 employees (2019 - 21,429 employees) and operates 1,173 branches (2019 - 1,167 branches) and 2,707 automated teller machines (ATMs) and cash accept machines (CAMs) (2019 - 2,822) to support its delivery of services. The BPI Group also serves its customers through alternative electronic banking channels such as telephone, mobile phone and the internet.

The Parent Bank is considered a public company under Rule 3.1 of Implementing Rules and Regulations of the Securities Regulation Code, which, among others, defines a public company as any corporation with a class of equity securities listed on an exchange, or with assets of at least P50 million and having 200 or more shareholders, each of which holds at least 100 shares of its equity securities.

Coronavirus pandemic

On March 16, 2020, the Philippine Government declared the entire island of Luzon under an Enhanced Community Quarantine (ECQ) due to the increasing coronavirus disease (COVID-19) cases in the country. The ECQ mandated the closure of non-essential businesses and strict home quarantine which resulted in the slowdown of the economy. Measures are implemented to protect the health and safety of the BPI Group’s employees, clients and partners, to support business continuity and to manage financial impact to a minimum. These measures have caused disruptions to businesses and economic activities, and its impact on businesses continue to evolve. While banks are authorized to operate during ECQ, branch operations were sorely impacted by COVID-19, with 25% of the branches operating on a skeletal basis during the beginning of the lockdown. With the transition to general community quarantine (GCQ) on June 1, 2020, branch operations have been back to 100%. At this stage, the BPI Group deems it prudent to review its branch network strategy given the acceleration in digital adoption by its clients and other considerations.

While quarantine measures over highly urbanized cities in the National Capital Region (NCR) were relaxed following the proclamation of a modified enhanced community quarantine effective May 16, 2020, and subsequently, a GCQ effective June 1, 2020, operations across various industries remain below full capacity in these areas. Further, certain parts of the Philippines remain under ECQ.

Effect of the suspension of loan payments mandated by the Bayanihan Acts I and II

On March 24, 2020, Congress passed Republic Act No. 11469 or the Bayanihan to Heal as One Act (Bayanihan Act I) into law, which conferred emergency powers to the President of the Philippines. Section 4(aa) of Bayanihan Act I directed all banks to implement a thirty (30)-day grace period for the payment of all loans falling due within the ECQ period without interests, penalties, and other charges. Under this law, persons with multiple loans were granted a grace period of 30 days for each and every loan.

The following were the reprieve measures issued by the government through the Implementing Rules and Regulations (IRR) of Section 4(aa) of Bayanihan Act I for all loans regardless of status with payments (e.g., principal and/or interest) falling due within the ECQ period (March 17, 2020 to May 31, 2020, or as extended):

- implementation of mandatory grace period to extend payment due dates of loans;
- non-imposition of interest on interest and waiver of fees and charges for non-payment;
- non-imposition of documentary stamp tax on credit extensions; and
- payment on a staggered basis for accrued interest on implemented mandatory grace period.

The status of the loans prior to the grant of the mandatory grace period and/or extension of maturity dates or payment due dates were retained. The BPI Group monitored non-performing loans (NPL) internally: 1) based on aging of accounts without the grace period and 2) aging with grace period, as the grant of the grace period may have artificially understated the actual NPL levels.

On September 11, 2020, the President of the Philippines signed into law Republic Act No. 11494 or the Bayanihan to Recover as One Act (Bayanihan Act II), in view of the continuing rise of COVID-19 cases and the ensuing economic disruption brought about by the pandemic. Under Section 4(uu) of Bayanihan Act II, all banks are directed to implement a mandatory one-time sixty (60)-day grace period for the payment of all existing, current, and outstanding loans falling due on or before December 31, 2020, without incurring interest on interest, penalties, fees, or other charges. The amounts falling due within the 60-day grace period may be settled in full after the 60-day grace period, or on a staggered basis until December 31, 2020, or as may be agreed upon by the parties.

While Bayanihan Acts I and II both provide moratorium on the payment of eligible loans, they differ in the qualification of eligible loans, the number of days provided as grace period and the allowable payment schemes.

As a result of the COVID-19 pandemic, the BPI Group has seen an increase in the level of NPL attributable to the temporary/permanent closure of certain businesses, suspended business operations and limited travel and exchange of goods. The actual delinquency status or effect on the NPL levels across different segments and products became evident in the last quarter of 2020 after the lapse of the Bayanihan Act I and may be more pronounced in the early quarters of 2021 considering the effect of Bayanihan Act II relief measures.

Approval and authorization for issuance of financial statements

These financial statements have been approved and authorized for issuance by the Board of Directors (BOD) of the Parent Bank on February 24, 2021.

The consolidated financial statements comprise the financial statements of the Parent Bank and the following subsidiaries:

Subsidiaries	Country of incorporation	Principal activities	% of ownership	
			2020	2019
BPI Family Savings Bank, Inc.	Philippines	Banking	100	100
BPI Capital Corporation	Philippines	Investment house	100	100
BPI Direct Banko, Inc., A Savings Bank	Philippines	Banking	100	100
BPI Asset Management and Trust Corporation	Philippines	Asset management	100	100
BPI International Finance Limited	Hong Kong	Financing	100	100
BPI Europe Plc.	England and Wales	Banking (deposit)	100	100
BPI Securities Corp.	Philippines	Securities dealer	100	100
BPI Payments Holdings Inc.	Philippines	Financing	100	100
Filinvest Algo Financial Corp.	Philippines	Financing	100	100
BPI Investment Management, Inc.	Philippines	Investment management	100	100
Santiago Land Development Corporation	Philippines	Land holding	100	100
BPI Operations Management Corp.	Philippines	Operations management	100	100
BPI Computer Systems Corp.	Philippines	Business systems service	100	100
BPI Forex Corp.	Philippines	Foreign exchange	100	100
BPI Remittance Centre (HK) Ltd.	Hong Kong	Remittance	100	100
First Far - East Development Corporation	Philippines	Real estate	100	100
FEB Stock Brokers, Inc.	Philippines	Securities dealer	100	100
FEB Speed International	Philippines	Remittance	100	100
Ayala Plans, Inc.	Philippines	Pre-need	98.93	98.93
FGU Insurance Corporation	Philippines	Non-life insurance	94.62	94.62

Liabilities		
Reserves and other balances	12,565	12,544
Accounts payable, accrued expenses and other payables	1,782	1,517
	14,347	14,061

Details of income attributable to insurance operations before income tax and minority interest for the years ended December 31 are as follows:

	2020	2019	2018
	(In Millions of Pesos)		
Premiums earned and related income	3,607	3,841	3,750
Investment and other income	1,026	712	755
	4,633	4,553	4,505
Benefits, claims and maturities	1,720	1,942	2,049
Decrease in actuarial reserve liabilities	(315)	(412)	(379)
Commissions	879	938	800
Management and general expenses	822	838	799
Other expenses	21	24	13
	3,127	3,330	3,282
Income before income tax and minority interest	1,506	1,223	1,223

Note 3 - Business Segments

Operating segments are reported in accordance with the internal reporting provided to the Chief Executive Officer (CEO), who is responsible for allocating resources to the reportable segments and assessing their performance. All operating segments used by the BPI Group individually meet the definition of a reportable segment under Philippine Financial Reporting Standards (PFRS) 8, *Operating Segments*.

The BPI Group has determined the operating segments based on the nature of the services provided and the different clients/markets served representing a strategic business unit.

The BPI Group's main operating business segments follow:

- Consumer banking - this segment serves the individual and retail markets. Services cover deposit taking and servicing, consumer lending such as home mortgages, auto loans and credit card finance as well as the remittance business. The segment also includes the entire transaction processing and service delivery infrastructure consisting of network of branches and ATMs as well as phone and internet-based banking platforms.
- Corporate banking - this segment caters both high-end corporations and middle market clients. Services offered include deposit taking and servicing, loan facilities, trade and cash management for corporate and institutional customers.
- Investment banking - this segment includes the various business groups operating in the investment markets and dealing in activities other than lending and deposit taking. These services cover corporate finance, securities distribution, asset management, trust and fiduciary services as well as proprietary trading and investment activities.

The performance of the Parent Bank is assessed as a single unit using financial information presented in the separate or Parent only financial statements. Likewise, the CEO assesses the performance of the insurance business as a standalone business segment separate from the banking and allied financial undertakings. Information on the assets, liabilities and results of operations of the insurance business is fully disclosed in Note 2.

The BPI Group and the Parent Bank mainly derive revenue within the Philippines; accordingly, no geographical segment is presented.

The segment report forms part of management's assessment of the performance of the segment, among other performance indicators.

There were no changes in the reportable segments during the year. Transactions between the business segments are carried out at arm's length. Funds are ordinarily allocated between segments, resulting in funding cost transfers disclosed in inter-segment net interest income. Interest charged for these funds is based on the BPI Group's cost of capital.

Internal charges and transfer pricing adjustments have been reflected in the performance of each business. Revenue-sharing agreements are used to allocate external customer revenues to a business segment on a reasonable basis. Inter-segment revenues, however, are deemed insignificant for financial reporting purposes, thus, not reported in segment analysis below.

The BPI Group's management reporting is based on a measure of operating profit comprising net interest income, impairment charge, fees and commission income, other income and operating expenses.

Segment assets and liabilities comprise majority of operating assets and liabilities, measured in a manner consistent with that shown in the statement of condition, but exclude items such as taxation.

Following the loss of control of the Parent Bank over BPI CTL effective December 23, 2020 (Note 12), the BPI Group's segment reporting was updated to exclude the contribution of CTL. Consequently, the segment results of operations for 2019 and 2018 were restated. The details of the BPI Group's reportable segments as at and for the years ended December 31 follows:

	2020			
	Consumer banking	Corporate banking	Investment banking	Total per management reporting
	(In Millions of Pesos)			
Net interest income	43,564	26,112	5,909	75,585

Cash and cash equivalents attributable to insurance operations	2	321	217	-	-
		330,586	299,068	295,805	263,344

Note 5 - Interbank Loans Receivable and Securities Purchased under Agreements to Resell (SPAR)

The account at December 31 consists of transactions with:

		Consolidated		Parent	
		2020	2019	2020	2019
		(In Millions of Pesos)			
BSP		19,450	20,306	15,819	16,947
Other banks		10,836	2,293	10,839	1,451
		30,286	22,599	26,658	18,398
Accrued interest receivable		6	11	5	6
		30,292	22,610	26,663	18,404
Allowance for impairment		(41)	(40)	(41)	(40)
		30,251	22,570	26,622	18,364

As at December 31, 2020, Interbank loans receivable and SPAR maturing within 90 days from the date of acquisition amounting to P28,945 million (2019 - P21,394 million) for the BPI Group and P25,314 million (2019 - P17,191 million) for the Parent Bank are classified as cash equivalents in the statements of cash flows (Note 4).

Government bonds are pledged by the BSP as collateral under reverse repurchase agreements. The aggregate face value of securities pledged approximates the total balance of outstanding placements as at reporting date.

The range of average interest rates (%) of interbank loans receivable and SPAR for the years ended December 31 are as follows:

	Consolidated		Parent	
	2020	2019	2020	2019
Peso-denominated	2.00 - 8.28	3.49 - 5.74	2.00 - 8.28	4.33 - 10.48

Derivative financial assets	7	4,788	2,933	4,716	2,923
		37,210	24,105	33,865	17,688

All financial assets at FVTPL held by the BPI Group and the Parent Bank are classified as current.

Note 7 - Derivative Financial Instruments

Derivatives held by the BPI Group consist mainly of the following:

- Foreign exchange forwards represent commitments to purchase or sell one currency against another at an agreed forward rate on a specified date in the future. Settlement can be made via full delivery of forward proceeds or via payment of the difference (non-deliverable forward) between the contracted forward rate and the prevailing market rate at maturity.
- Foreign exchange swaps refer to spot purchase or sale of one currency against another with an offsetting agreement to sell or purchase the same currency at an agreed forward rate in the future.
- Interest rate swaps refer to agreement to exchange fixed rate versus floating interest payments (or vice versa) on a reference notional amount over an agreed period.
- Cross currency swaps refer to an exchange of notional amounts on two currencies at a given exchange rate where the parties on the transaction agree to pay a stated interest rate on the received notional amount and accept a stated interest rate on the delivered notional amount, payable and receivable or net settled (non-deliverable swaps) periodically over the term of the transaction.

The BPI Group's credit risk represents the potential cost to replace the swap contracts if counterparties fail to fulfill their obligation. This risk is monitored on an ongoing basis with reference to the current fair value, a proportion of the notional amount of the contracts and the liquidity of the market. To control the level of credit risk taken, the BPI Group assesses counterparties using the same techniques as for its lending activities.

The fair values of derivative financial instruments as at December 31 are set out below:

Consolidated

	Assets		Liabilities	
	2020	2019	2020	2019

Cash flow hedge of foreign currency-denominated bond

Consistent with its established risk management framework and asset liability management strategies, the Parent Bank decided to hedge the foreign currency exposure arising from the CHF-denominated debt (hedged item) issued in 2019 (Note 16).

The Parent Bank aims to minimize or reduce the volatility in the overall portfolio brought about by the movement of CHF against the US Dollar through a hedging instrument - cross currency interest rate swap (CCIRS). Under the terms of the CCIRS, the Parent Bank agrees to receive CHF in exchange for US Dollar at settlement date which coincides with the maturity date of the hedged item. The volatility arising from movement of US Dollar against the functional currency (Philippine Peso), however, is managed in conjunction with the Parent Bank's overall foreign currency risk management. The hedge ratio of 1:1 is observed so as not to create an imbalance that would create hedge ineffectiveness. The hedge has been reassessed to be effective at reporting date.

Critical accounting estimate - Determination of fair value of derivatives and other financial instruments

The fair values of financial instruments that are not quoted in active markets are determined by using generally accepted valuation techniques. Where valuation techniques (for example, discounted cash flow models) are used to determine fair values, they are validated and periodically reviewed by qualified personnel independent of the area that created them. Inputs used in these models are from observable data and quoted market prices in respect of similar financial instruments.

All models are approved by the BOD before they are used, and models are calibrated to ensure that outputs reflect actual data and comparative market prices. Changes in assumptions about these factors could affect reported fair value of financial instruments. The BPI Group considers that it is impracticable, however, to disclose with sufficient reliability the possible effects of sensitivities surrounding the fair value of financial instruments that are not quoted in active markets.

Note 8 - Financial Assets at Fair Value through Other Comprehensive Income (FVOCI)

Details of the account at December 31 are as follows:

	Consolidated		Parent	
	2020	2019	2020	2019
	(In Millions of Pesos)			
Debt securities				
Government securities	100,063	39,751	91,971	36,409
Commercial papers of private companies	26,092	10,624	26,006	9,914
	126,155	50,375	117,977	46,323
Accrued interest receivable	696	704	646	686
	126,851	51,079	118,623	47,009
Equity securities				
Listed	1,784	1,738	1,369	972
Unlisted	1,551	1,088	308	339
	3,335	2,826	1,677	1,311
	130,186	53,905	120,300	48,320

The BPI Group has designated a small portfolio of equity securities from listed and unlisted private corporations as financial assets at FVOCI. The BPI Group adopted this presentation as the investments were made for strategic purposes rather than with a view to profit on a subsequent sale, and there are no plans to dispose of these investments in the short or medium term.

Debt securities classified as financial assets at FVOCI are classified as follows

	Consolidated		Parent	
	2020	2019	2020	2019
	(In Millions of Pesos)			
Current (within 12 months)	42,777	3,105	41,472	830
Non-current (over 12 months)	84,074	47,974	77,151	46,179
	126,851	51,079	118,623	47,009

The range of average effective interest rates (%) of financial assets at FVOCI for the years ended December 31 follows:

	Consolidated		Parent	
	2020	2019	2020	2019
Peso-denominated	1.70 - 7.18	4.09 - 5.75	1.70 - 7.18	4.42 - 5.75
Foreign currency-denominated	0.06 - 5.73	2.14 - 2.94	0.06 - 5.73	2.14 - 2.94

Interest income from debt instruments recognized in the statement of income for the year ended December 31, 2020 amounts to P3,398 million (2019 - P1,937 million; 2018 - P278 million) and P3,124 million (2019 - P1,871 million; 2018 - P160 million) for the BPI Group and Parent Bank, respectively.

Dividend income from equity instruments recognized in the statement of income under other operating income for the year ended December 31, 2020 amounts to P57 million (2019 - P76 million; 2018 - P74 million) and P48 million (2019 - P48 million; 2018 - P41 million) for the BPI Group and Parent Bank, respectively.

Note 9 - Investment Securities at Amortized Cost, net

Details of the account at December 31 are as follows:

	Consolidated		Parent	
	2020	2019	2020	2019
	(In Millions of Pesos)			
Government securities	166,907	190,773	150,209	170,366
Commercial papers of private companies	75,411	80,644	64,522	78,285
	242,318	271,417	214,731	248,651
Accrued interest receivable	2,348	3,688	2,092	3,355
	244,666	275,105	216,823	252,006
Allowance for impairment	(13)	-	(13)	-
	244,653	275,105	216,810	252,006

The range of average effective interest rates (%) for the years ended December 31 follows:

	Consolidated		Parent	
	2020	2019	2020	2019
Peso-denominated	1.67 - 4.20	3.62 - 4.03	1.67 - 4.20	3.64 - 4.05
Foreign currency-denominated	2.45 - 2.61	3.08 - 4.69	2.45 - 2.61	3.11 - 4.83

In 2020, the BPI Group and the Parent Bank recognized a net gain on derecognition of P4,647 million and P4,078 million, respectively, due mainly to its disposal of a portfolio of debt securities in response to an impending change in tax regulations and to manage unanticipated credit and business risks caused by the coronavirus pandemic. In 2019 and 2018, the BPI Group and the Parent Bank sold an insignificant amount of debt securities, which resulted in a gain of P128 million (2018 - nil) and P104 million (2018 - P6 million loss), respectively.

Interest income from these investment securities recognized in the statement of income for the year ended December 31, 2020 amounts to P8,398 million (2019 - P10,318 million; 2018 - P9,035 million) and P7,386 million (2019 - P9,675 million; 2018 - P8,514 million) for the BPI Group and the Parent Bank, respectively.

Investment securities at amortized cost are expected to be realized as follows:

	Consolidated		Parent	
	2020	2019	2020	2019
	(In Millions of Pesos)			
Current (within 12 months)	46,389	15,165	33,404	10,686
Non-current (over 12 months)	198,264	259,940	183,406	241,320
	244,653	275,105	216,810	252,006

Critical accounting judgment - Classification of investment securities at amortized cost

The BPI Group classifies its financial assets at initial recognition as to whether it will be subsequently measured at fair value through other comprehensive income, at amortized cost, or at fair value through profit or loss. The BPI Group determines the classification based on the contractual cash flow characteristics of the financial assets and on the business model it uses to manage these financial assets. The BPI Group determines whether the contractual cash flows associated with the financial asset are solely payments of principal and interest (the "SPPI"). If the instrument fails the SPPI test, it will be measured at fair value through profit or loss.

Note 10 - Loans and Advances, net

Details of this account at December 31 are as follows:

	Consolidated		Parent	
	2020	2019	2020	2019
	(In Millions of Pesos)			
Corporate loans

	1,454,171	1,501,310	1,209,867	1,250,381

Finance lease operations (the BPI Group as the lessor)

In December 2020, certain receivables from finance lease arrangements of BPI Century Tokyo Lease and Finance Corporation (BPI CTL) amounting to P5,669 million were assigned to BPI and BFB. These loan accounts are subsequently grouped as part of “Corporate loans” and “Auto loans” categories for BPI and BFB, respectively. Guaranteed deposits related to the assigned receivables were not transferred to BPI and BFB and have been retained by BPI CTL.

Until December 22, 2020, the BPI Group, through BPI CTL is engaged in the leasing out of transportation equipment under various finance lease arrangements which typically run for a non-cancellable period of five years. The lease contracts generally include an option for the lessee to purchase the leased asset after the lease period at a price that approximates to about 5% to 40% of the fair value of the asset at the inception of the lease. Likewise, the lease contract requires the lessee to put up a guarantee deposit equivalent to the residual value of the leased asset at the end of lease term. In the event that the residual value of the leased asset exceeds the guaranteed deposit liability at the end of the lease term, the BPI Group receives additional payment from the lessee prior to the transfer of the leased asset.

Effective December 23, 2020, the majority ownership in BPI CTL was transferred to Tokyo Century Corporation (TCC) (Note 12). The loss of control of the Parent Bank over BPI CTL resulted in the deconsolidation of the finance lease operations in the books of the BPI Group as at December 31, 2020.

Details of finance lease receivables (included in “Corporate loans” category above) arising from lease contracts as at December 31, 2019 are as follows:

	Amount
	(In Millions of Pesos)
Total future minimum lease collections	12,666
Unearned finance income	(1,395)
Present value of future minimum lease collections	11,271
Allowance for credit losses	(628)
	10,643

Details of future gross minimum lease payments receivable as at December 31, 2019 follow:

	Amount
	(In Millions of Pesos)
Not later than one year	1,532
Later than one year but not later than five years	10,373
More than five years	761
	12,666
Unearned finance income	(1,395)
	11,271

There are no contingent rents arising from lease contracts outstanding at December 31, 2019.

The range of average interest rates (%) of loans and advances for the years ended December 31 follows:

Other changes pertain to additions and remeasurement of right-of-use assets due to renewal of lease agreements, extension of lease terms and deferral of escalation clause on existing lease contracts. The impact of remeasurement is presented in Note 20.

Depreciation and amortization charges are included in "Occupancy and equipment-related expenses" category in the statements of income.

In 2020, the Parent Bank realized a gain of P77 million (2019 - P855 million) (Note 19) from the disposal of certain bank premises, furniture, fixtures and equipment.

Critical accounting estimate - Useful lives of bank premises, furniture, fixtures and equipment

The BPI Group determines the estimated useful lives of its bank premises, furniture, fixtures and equipment based on the period over which the assets are expected to be available for use. The BPI Group annually reviews the estimated useful lives of bank premises, furniture, fixtures and equipment based on factors that include asset utilization, internal technical evaluation, technological changes, environmental and anticipated use of assets tempered by related industry benchmark information. It is possible that future results of operations could be materially affected by changes in these estimates brought about by changes in the factors mentioned.

The BPI Group considers that it is impracticable to disclose with sufficient reliability the possible effects of sensitivities surrounding the carrying values of bank premises, furniture, fixtures and equipment.

Note 12 - Investments in Subsidiaries and Associates, net

This account at December 31 consists of investments in shares of stock as follows:

	Consolidated		Parent	
	2020	2019	2020	2019
	(In Millions of Pesos)

				3,001	2,829

*The Parent Bank has a significant influence due to its representation in the governing body of National Reinsurance Corporation of the Philippines.

**BPI CTL is a subsidiary of the Parent Bank until December 22, 2020.

Beginning July 1, 2020, the Parent Bank lost its significant influence over National Reinsurance Corporation of the Philippines. Consequently, the Parent Bank has irrevocably designated this investment to be classified as FVOCI. The carrying amount of the investment as at date of reclassification, which is also its deemed cost, amount to P204 million.

The movements in investments in associates accounted for using the equity method in the consolidated financial statements are summarized as follows:

	11,651	10,330	(612)	(299)	11,039	10,031

In 2020, the Parent Bank made additional capital infusions to BPI Europe, BanKo and BPHI amounting to P1,250 million (2019 - nil), P500 million (2019 - nil) and P60 million (2019 - P70 million), respectively. In addition, BERC USA, Green Enterprises, and BERC Spain were liquidated during the year ended December 31, 2020 and proceeds equal to the remaining book value were received by the Parent Bank.

Likewise, the Parent Bank in 2020, recognized an impairment loss of P313 million (2019 - nil) on its investment in BPHI due to financial losses incurred by BPHI's associate, AFPI, as disclosed above. In computing for its recoverable amount, the Parent Bank used a discount rate of 11.63% (2019 - 13.44%) in assessing its value in use, which amounts to P21 million in 2020 (2019 - P274 million).

No non-controlling interest arising from investments in subsidiaries is deemed material to the BPI Group.

Critical accounting judgment and estimate - Impairment of investments in subsidiaries and associates

The BPI Group assesses impairment on non-financial assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The factors that the BPI Group considers important which could trigger an impairment review include the following:

- significant decline in market value;
- significant underperformance relative to expected historical or projected future operating results;
- significant changes in the manner of use of the acquired assets or the strategy for overall business; and,
- significant negative industry or economic trends.

The BPI Group recognizes an impairment loss whenever the carrying amount of an asset exceeds its recoverable amount. Recoverable amounts are estimated for individual assets or, if it is not possible, for the cash-generating unit to which the asset belongs. Management has not identified any indicators of impairment as at December 31, 2020 and 2019 in its subsidiaries apart from BPHI.

For the 2020 and 2019 reporting periods, the recoverable amount of the subsidiary was determined based on the higher between fair value less cost to sell and value-in-use (VIU) calculations which require the use of assumptions. The VIU calculations use cash flow projections based on financial budgets approved by management.

The BPI Group considers that it is impracticable to disclose with sufficient reliability the possible effects of sensitivities surrounding the recoverable amount of the subsidiary.

Discontinued operations

On November 18, 2020, the Board of Directors approved the transfer of the Parent Bank's majority ownership via the sale of its 2% share in BPI CTL effective December 22, 2020, to TCC, resulting in a 49% and 51% ownership structure between BPI and TCC. The consideration paid by TCC is equivalent to the price-to-book value multiple of 1.06x of CTL's book value as at December 31, 2019.

Accordingly, the sale of shares resulting in a loss of control of the subsidiary was presented as discontinued operations. The financial performance and cash flow information presented below are for the period from January 1, 2020 to December 22, 2020 (2020 column), and for the years ended December 31, 2019 and 2018.

	(6,845)	(685)	(734)	(5,144)	(583)	(776)

The deferred income tax benefit recognized in the statement of income of the BPI Group as presented above includes the portion of BPI CTL for the year ended December 31, 2019 amounting to P65 million (2018 - P47 million) (Note 12).

Critical accounting judgment - Realization of deferred income tax assets

Management reviews at each reporting date the carrying amounts of deferred tax assets. The carrying amount of deferred tax assets is reduced to the extent that the related tax assets cannot be utilized due to insufficient taxable profit against which the deferred tax assets will be applied. Management believes that sufficient taxable profit will be generated to allow all or part of the deferred income tax assets to be utilized.

Note 14 - Other Assets, net

The account at December 31 consists of the following:

		Consolidated		Parent	
	Note	2020	2019	2020	2019
			(In Millions of Pesos)		
Sundry debits		6,456	1,663	6,098	1,518
Accounts receivable		2,690	2,358	2,402	2,218
Intangible assets		2,530	2,797	2,178	2,435
Prepaid expenses		984	944	705	578
Rental deposits		762	734	650	623
Accrued trust and other fees		703	747	141	338
Creditable withholding tax		330	503	193	107
Investment properties		150	156	139	143
Residual value of equipment for lease	12	-	2,781	-	-
Miscellaneous assets		3,224	3,239	2,728	2,260
		17,829	15,922	15,234	10,220
Allowance for impairment		(983)	(515)	(822)	(310)
		16,846	15,407	14,412	9,910

Sundry debits are float items caused by timing differences in recording of transactions. These float items are normally cleared within seven days.

Accounts receivable includes non-loan related receivables from merchants and service providers, litigation related receivables and receivables from employees.

Intangible assets comprise computer software costs, contractual customer relationships and management contracts.

Residual value of equipment for lease pertains to refundable operating and finance lease deposits held under CTL.

Miscellaneous assets include postage stamps, stationery and supplies.

The allowance for impairment pertains mainly to accounts receivable. The reconciliation of the allowance for impairment at December 31 is summarized as follows:

	Consolidated		Parent	
	2020	2019	2020	2019
(In Millions of Pesos)				
At January 1	515	825	310	665

Transfer/reallocation	-	(38)	(29)	(36)
Write-off	(216)	(326)	(73)	(324)
At December 31	983	515	822	310

Other assets are expected to be realized as follows:

	Consolidated		Parent	
	2020	2019	2020	2019
(In Millions of Pesos)				
Current (within 12 months)	15,079	10,089	12,907	7,632
Non-current (over 12 months)	2,750	5,833	2,327	2,588
	17,829	15,922	15,234	10,220

Note 15 - Deposit Liabilities

The account at December 31 consists of:

	Consolidated		Parent	
	2020	2019	2020	2019
		(In Millions of Pesos)		
Demand	314,853	272,020	304,140	262,149
Savings	1,051,069	899,181	925,409	795,936
Time	350,255	524,142	240,661	398,373
	1,716,177	1,695,343	1,470,210	1,456,458

Deposit liabilities include amounts due to related parties (Note 25).

Deposit liabilities are expected to be settled as follows:

	Consolidated		Parent	
	2020	2019	2020	2019
		(In Millions of Pesos)		
Current (within 12 months)	731,596	796,447	646,179	711,910
Non-current (over 12 months)	984,581	898,896	824,031	744,548
	1,716,177	1,695,343	1,470,210	1,456,458

In 2019, the Parent Bank issued the first tranche of long-term negotiable certificates of deposit (LTNCD) amounting to P3 billion out of the established P50-billion LTNCD program approved by the BSP. The LTNCDs pay interest on a quarterly basis at a rate 4% per annum and carry a tenor of 5.5 years maturing on April 25, 2025. The proceeds from the LTNCD issuance are included in "Time deposits" category.

Related interest expense on deposit liabilities is presented below:

	Consolidated			Parent		
	2020	2019	2018	2020	2019	2018
			(In Millions of Pesos)			
Demand	625	628	687	578	574	630
Savings	6,053	6,738	7,384	4,944	5,541	6,061
Time	12,308	21,508	13,184	7,255	15,361	8,954
	18,986	28,874	21,255	12,777	21,476	15,645

BSP reserve requirement

The Parent Bank and its bank subsidiaries should comply with a minimum reserve requirement on deposit and deposit substitute liabilities in local currency.

In 2019, the reserve ratio decreased to 14% from 18% following the BSP's decision to reduce the requirements. In 2020, the BSP approved further reduction in reserves which brought the requirement down to 12% for universal and commercial banks effective April 3, 2020 by virtue of BSP Circular 1082. For thrift banks, the BSP approved reduction in reserves which brought the requirement from 4% down to 3% effective July 31, 2020 by virtue of BSP Circular 1092.

Reserves must be set aside in deposits with the BSP. As at December 31, 2020, the reserves (included in Due from BSP) amounted to P154,696 million (2019 - P178,591 million) for the BPI Group and P147,618 million (2019 - P169,303 million) for the Parent Bank. The BPI Group is in full compliance with the reserve requirement as at December 31, 2020 and 2019.

Note 16 - Bills Payable and Other Borrowed Funds

The account at December 31 consists of:

	Consolidated		Parent	
	2020	2019	2020	2019
		(In Millions of Pesos)		
Bills payable				
Local banks	5,406	34,364	5,406	21,810
Foreign banks	18,190	31,417	16,136	29,255
Other borrowed funds	128,351	85,056	118,806	75,464
	151,947	150,837	140,348	126,529

Bills payable

Bills payable include mainly funds borrowed from various banking institutions which were lent out to customers of the BPI Group in accordance with the agreed financing programs. Loans and advances arising from these financing programs serve as collateral for this liability (Note 10). The average payment terms of these bills payable is 0.59 years (2019 - 0.90 years).

The range of average interest rates (%) of bills payable for the years ended December 31 follows:

	Consolidated		Parent	
	2020	2019	2020	2019
Private firms and local banks - Peso-denominated	0.89 - 4.30	2.20 - 6.67	0.89 - 4.00	2.25 - 6.25
Foreign banks - Foreign currency-denominated	0.11 - 2.85	0.63 - 4.20	0.11 - 2.85	1.45 - 3.66

Other borrowed funds

This represents funds raised via the BPI Group's debt issuance programs as follows:

a) Peso Bond and Commercial Paper Program

In 2018, the Parent Bank established a Peso Bond and Commercial Paper Program in the aggregate amount of up to P50,000 million, out of which a total of P25,000 million notes were issued with a coupon of 6.797% per annum, payable quarterly which matured on March 6, 2020. On November 20, 2019, BPI's Board of Directors approved the issuance of peso-denominated bonds and commercial papers of up to P100 billion, in one or more tranches, under an updated Bank Bond Issuance Program with drawdowns as at December 31, 2020 as follows:

Description of instrument	Date of drawdown	Interest rate	Maturity	Face amount	Carrying amount
				(In Millions of Pesos)	
Fixed rate bonds, unconditional, unsecured and unsubordinated bonds	January 24, 2020	4.2423%	January 24, 2022	15,328	15,251
Fixed rate bonds, unconditional, unsecured and unsubordinated bonds	March 27, 2020	4.05%	September 27, 2021	33,896	33,724
BPI CARE bonds, unconditional, unsecured and unsubordinated bonds	August 7, 2020	3.05%	May 7, 2022	21,500	21,391

Likewise, on October 31, 2019, the BOD of BFB, a wholly-owned subsidiary, approved the establishment of a Peso Bond Program in the aggregate amount of P35,000 million. In line with the said program, on December 16, 2019, BFB issued P9,600 million with a coupon of 4.30% per annum, payable quarterly to mature on June 16, 2022 and with a carrying amount of P9,545 million as at December 31, 2020 (2019 - P9,510 million).

b) Medium-Term Note (MTN) Program

On June 21, 2018, the BOD of the Parent Bank approved the establishment of the MTN Program in the aggregate amount of up to US\$2,000 million with drawdowns as follows:

Description of instrument	Date of drawdown	Interest rate	Maturity	Face amount	Carrying amount	
					2020	2019
(In Millions of Pesos)						
US\$ 600 million, 5-year senior unsecured Bonds	September 4, 2018	4.25%	September 4, 2023	32,000	28,695	30,214
US\$ 300 million, 5-year senior unsecured Green Bonds	September 10, 2019	2.50%	September 10, 2024	15,572	14,330	15,091
CHF 100 million, 2-year senior unsecured Green Bonds	September 24, 2019	-	September 24, 2021	5,250	5,415	5,167

The CHF-denominated bonds are designated as hedged items in a cash flow hedge initiated by the Parent Bank in 2019. See Note 7 for the related disclosures.

Interest expense for the years ended December 31 is summarized as follows:

	Consolidated			Parent		
	2020	2019	2018	2020	2019	2018
			(In Millions of Pesos)			
Bills payable	471	2,823	2,024	458	2,834	2,013
Other borrowed funds	4,587	3,215	575	4,137	3,197	575
	5,058	6,038	2,599	4,595	6,031	2,588

The movements in bills payable and other borrowed funds are summarized as follows:

		Consolidated		Parent	
	Note	2020	2019	2020	2019
			(In Millions of Pesos)		
At January 1		150,837	166,901	126,529	150,880

Note 17 - Deferred Credits and Other Liabilities

The account at December 31 consists of the following:

		Consolidated		Parent	
	Notes	2020	2019	2020	2019
			(In Millions of Pesos)		
Bills purchased - contra		12,802	15,301	12,801	15,299
Lease liabilities	20	7,811	7,856	6,559	6,739
Accounts payable		5,984	4,738	4,661	3,078
Other deferred credits		2,718	1,576	400	323
Due to the Treasurer of the Philippines		942	947	823	827
Outstanding acceptances		934	3,855	934	3,855
Withholding tax payable		604	1,062	438	892
Vouchers payable		-	51	-	51
Deposit on lease contract	12	-	2,639	-	-
Miscellaneous liabilities		14,062	9,743	10,487	7,875
		45,857	47,768	37,103	38,939

Bills purchased - contra represents liabilities arising from the outright purchases of checks due for clearing as a means of immediate financing offered by the BPI Group to its clients.

Following the adoption of PFRS 16 on January 1, 2019, the BPI Group recognized lease liabilities which have been measured at the present value of the remaining lease payments using the applicable incremental borrowing rates adopted by the BPI Group (Note 20).

Accounts payable consists of unpaid balances arising from transfer tax payments, settlement fees and operating expenses.

Other deferred credits pertain to discount on purchased contract-to-sell receivables from developers. These are being amortized on a monthly basis over the life of the receivable using the effective interest rate method.

Miscellaneous liabilities include pension liability, allowance for credit losses for undrawn committed credit facilities and other employee-related payables.

The account is expected to be settled as follows:

	Consolidated		Parent	
	2020	2019	2020	2019
	(In Millions of Pesos)			
Current (within 12 months)	32,332	36,818	25,677	36,455
Non-current (over 12 months)	13,525	10,950	11,426	2,484
	45,857	47,768	37,103	38,939

Note 18 - Capital Funds

a) Share capital

Details of authorized share capital of the Parent Bank follow:

	2020	2019	2018
	(In Millions of Pesos, except par value per share)		
Authorized capital (at P10 par value per share)			
Common shares	49,000	49,000	49,000
Preferred A shares	600	600	600
	49,600	49,600	49,600

Details of the Parent Bank's subscribed common shares are as follows:

	2020	2019	2018
	(In absolute number of shares)		
Common shares			
At January 1	4,507,071,644	4,502,449,501	3,939,412,661
Subscription of shares during the year	6,029,961	4,622,143	563,036,840
At December 31	4,513,101,605	4,507,071,644	4,502,449,501
	(In absolute amounts)		
Subscription receivable	85,612,950	71,637,390	63,417,380

The BPI common shares are listed and traded in the PSE since October 12, 1971.

On February 10, 2014, additional 370,370,370 common shares were listed as a result of the stock rights offer. Likewise, on April 25, 2018, BPI completed its P50 billion stock rights offer, which paved the way for the issuance of 558,659,210 new common shares at P89.50 per share. The new shares were issued to shareholders as of record date April 6, 2018, at a ratio of 1:7.0594, or 1 new common share for every 7 shares held, or 14.2% of BPI's outstanding common shares. These new shares were listed on the Philippine Stock Exchange (PSE) on May 4, 2018.

As at December 31, 2020, 2019 and 2018, the Parent Bank has 12,306, 12,396, and 12,588 common shareholders, respectively. There are no preferred shares issued and outstanding at December 31, 2020, 2019 and 2018.

Preferred A shares shall have pre-emptive rights with respect to additional issues of Preferred A shares of the Parent Bank.

b) Reserves

The account consists of:

	Consolidated			Parent		
	2020	2019	2018	2020	2019	2018
	(In Millions of Pesos)					
Reserve for trust business	199	199	90	-	-	-
Executive stock option plan amortization	183	136	105	162	119	76
Reserve for self-insurance	34	34	34	34	34	34
General loan loss provision	-	4,739	3,867	-	4,739	3,867
	416	5,108	4,096	196	4,892	3,977

General loan loss provision (GLLP)

In 2018, the BSP issued Circular 1011 which mandates among others, banks to set up GLLP equal to 1% of all outstanding “Stage 1” on-balance sheet loans, except for accounts considered as credit risk-free under existing regulations. Under the said Circular, if the PFRS 9 “Stage 1” loan loss provision is lower than the required GLLP, the deficiency shall be recognized as an appropriation of retained earnings or surplus. Until December 31, 2019, the BPI Group has appropriated P4,739 million (2018 - P3,867 million) representing the excess of GLLP over PFRS 9 loan loss provision out of surplus to meet the requirements of the BSP. However, in 2020, this appropriation was reversed to surplus free as the BPI Group’s PFRS 9 loan loss provision exceeded the 1% GLLP requirement of the BSP.

Reserve for trust business

In compliance with existing BSP regulations, 10% of BPI AMTC’s income from trust business is appropriated to surplus reserve. This yearly appropriation is required until the surplus reserve for trust business reaches 20% of the authorized capital of BPI AMTC.

Reserve for self-insurance

Reserve for self-insurance represents the amount set aside to cover losses due to fire, defalcation by and other unlawful acts of personnel and third parties.

Share-based compensation plan

The BOD of the Parent Bank approved to grant the Executive Stock Option Plan (ESOP) and Executive Stock Purchase Plan (ESPP) to qualified beneficiaries/participants up to the following number of shares for future distribution:

Date	Approved ESOP shares	Approved ESPP shares
December 11, 2019	4,035,000	9,100,000
December 12, 2018	4,168,000	11,500,000
December 6, 2017	3,560,000	7,500,000
January 25, 2017	3,560,000	4,500,000

The ESOP has a three-year vesting period from grant date while the ESPP has a five-year payment period.

The exercise price for ESOP is equal to the volume weighted average of BPI share price for the 30-trading days immediately prior to the grant date. As of December 31, 2020, the weighted average fair value of options granted determined using the Black-Scholes valuation model was P5.79, P6.54, and P7.79 for the ESOP granted on 2019, 2018 and 2017, respectively.

Movements in the number of share options under the ESOP are summarized as follows:

	2020	2019	2018
At January 1	13,965,001	11,773,334	11,338,333
Granted	3,950,000	4,000,000	3,480,000
Exercised	(141,667)	(1,116,666)	(2,786,665)
Cancelled	(1,851,667)	(691,667)	(258,334)
At December 31	15,921,667	13,965,001	11,773,334
Exercisable	8,526,667	6,733,334	5,120,000

The impact of ESOP is not considered material to the financial statements; thus, the disclosures were limited only to the information mentioned above.

The subscription price for ESPP is equivalent to 15% below the volume weighted average of BPI share price for the 30-trading days immediately prior to the grant date. The subscription dates for the last three-year ESPP were on February 4, 2020, January 7, 2019 and January 8, 2018.

c) *Accumulated other comprehensive loss*

Details of and movements in the account are as follows:

	Consolidated			Parent		
	2020	2019	2018	2020	2019	2018
	(In Millions of Pesos)					
Fair value reserve on available-for-sale securities						
At January 1	-	-	(3,125)	-	-	(3,275)
From continuing operations						
Effect of PFRS 9 adoption	-	-	3,125	-	-	3,275
Unrealized fair value loss before tax	-	-	-	-	-	-
Amount recycled to profit or loss	-	-	-	-	-	-

At December 31	(5,979)	(2,615)	(1,197)	(4,929)	(2,131)	(990)
	(5,899)	(2,439)	(2,176)	(4,288)	(2,316)	(921)

d) *Dividend declarations*

Cash dividends declared by the BOD of the Parent Bank are as follows:

Date declared	Amount of dividends	
	Per share	Total (In Millions of Pesos)
<i>For the year ended December 31, 2020</i>		
May 20, 2020	0.90	4,062
October 21, 2020	0.90	4,062
		8,124
<i>For the year ended December 31, 2019</i>		
May 15, 2019	0.90	4,056
November 20, 2019	0.90	4,057
		8,113
<i>For the year ended December 31, 2018</i>		
June 20, 2018	0.90	4,052
December 19, 2018	0.90	4,052
		8,104

e) *Earnings per share (EPS)*

EPS is calculated as follows:

	Consolidated			Parent		
	2020	2019	2018	2020	2019	2018
	(In Millions of Pesos, except earnings per share amounts)					
a) Net income attributable to equity holders of the Parent Bank from:						
Continuing operations	21,620	28,761	23,014	24,611	26,218	15,428
Discontinued operations	(211)	42	64	-	-	-
b) Weighted average number of common shares outstanding during the year	4,513	4,507	4,316	4,513	4,507	4,316
c) Basic EPS (a/b) based on net income from:						
Continuing operations	4.79	6.38	5.33	5.45	5.82	3.57
Discontinued operations	(0.05)	0.01	0.01	-	-	-

The basic and diluted EPS are the same for the years presented as the impact of stock options outstanding is not significant to the calculation of weighted average number of common shares.

Note 19 - Other Operating Income

Details of other operating income are as follows:

	Consolidated			Parent		
	2020	2019 (As Restated)	2018 (As Restated)	2020	2019	2018
	(In Millions of Pesos)					
Trust and asset management fees	3,495	2,868	2,956	5	4	-
Credit card income	3,091	3,523	3,254	3,013	3,423	3,126
Gain on sale of assets	372	1,284	1,306	124	898	658
Rental income	208	226	198	260	267	254
Dividend income	57	76	74	7,792	3,794	904
Miscellaneous income	1,919	2,298	1,317	2,265	2,101	977
	9,142	10,275	9,105	13,459	10,487	5,919

Dividend income recognized by the Parent Bank substantially pertains to dividend distributions of subsidiaries.

Miscellaneous income includes recoveries on charged-off assets, fees arising from service arrangements with customers and related parties and share in net income (loss) of associates.

Note 20 - Leases

The BPI Group (as lessee) has various lease agreements which mainly pertain to branch premises and equipment. Lease terms are negotiated either on a collective or individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets cannot be used as security for borrowing purposes. The balances arising from the lease contracts are presented below:

Right-of-use assets and lease liabilities (PFRS 16)

On January 1, 2019, the BPI Group adopted PFRS 16, *Leases*, which requires recognition of both right-of-use assets and lease liability arising from long-term leases.

Details of right-of-use assets and lease liabilities as at December 31 are as follows:

		Consolidated		Parent	
	Notes	2020	2019	2020	2019
		(In Millions of Pesos)			
Right-of-use assets					
Buildings and leasehold improvements	11	7,222	7,787	6,114	6,733
Lease liabilities (included in "Deferred credits and other liabilities")	17				
Current		1,772	1,485	1,448	1,251
Non-current		6,039	6,371	5,111	5,488
		7,811	7,856	6,559	6,739

Additions to the right-of-use assets (Note 11) in 2020 aggregated P1,484 million and P1,074 million for BPI Group and BPI Parent, respectively (2019 - P669 million and P442 million for BPI Group and BPI Parent, respectively). Total cash outflow for leases in 2020 amounted to P1,814 million and P1,387 million for BPI Group and BPI Parent, respectively (2019 - P1,869 million and P1,466 million for BPI Group and BPI Parent, respectively).

Amounts recognized in the statement of income relating to leases:

		Consolidated		Parent	
	Notes	2020	2019 (As Restated)	2020	2019
(In Millions of Pesos)					
Depreciation expense					
Buildings and leasehold improvements	11	2,068	1,933	1,691	1,609
Interest expense (included in "Occupancy and equipment-related expenses")		357	398	279	315
Expense relating to short-term leases (included in "Occupancy and equipment-related expenses")		125	228	117	203
Expense relating to leases of low-value assets that are not shown above as short-term leases (included in "Occupancy and equipment-related expenses")		108	55	57	43
		2,658	2,614	2,144	2,170

The BPI Group has received COVID-19 related rent discount and deferral of the escalation of lease payments and has applied the practical expedients allowed under PFRS 16, *Leases*, introduced in May 2020 in accounting for the rent concessions. Consequently, the BPI Group recognized the following amounts for the year ended December 31, 2020:

	Consolidated	Parent
	(In Millions of Pesos)	
Rent concession (included in "Miscellaneous income")	149	141
Rent escalation deferral		
Decrease in right-of-use assets	(222)	(205)
Decrease in lease liabilities	(114)	(101)

Critical accounting judgment - Determining the lease term

In determining the lease term, the BPI Group considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated).

Critical accounting judgment - Determining the incremental borrowing rate

To determine the incremental borrowing rate, each entity within the BPI Group:

- where possible, uses recent third-party financing received as a starting point, adjusted to reflect changes in financing conditions since third party financing was received; or
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held which do not have recent third-party financing; and
- makes adjustments specific to the lease (e.g. term, currency and security).

The BPI Group's weighted average incremental borrowing rates applied to the lease liabilities ranged from 4.30% to 4.84% (2019 - 6.6% to 6.9%). The rates were determined in reference to the borrowing rates arising from the most recent debt issuances of the Parent Bank.

Note 21 - Operating Expenses

a) Compensation and fringe benefits

Details of the account for the years ended December 31:

		Consolidated			Parent		
	Note	2020	2019 (As Restated)	2018 (As Restated)	2020	2019	2018
				(In Millions of Pesos)			
Salaries and wages		14,896	14,517	12,527	11,411	11,231	9,702
Retirement expense	23	1,068	771	869	872	536	608
Other employee benefit expenses		2,041	2,081	1,805	1,587	1,712	1,524
		18,005	17,369	15,201	13,870	13,479	11,834

Other employee benefit expenses pertain to employee incentives like HMO coverage and SSS premiums.

b) Other operating expenses

Details of the account for the years ended December 31:

	Consolidated			Parent		
	2020	2019 (As Restated)	2018 (As Restated)	2020	2019	2018
	(In Millions of Pesos)					
Insurance	4,289	4,142	4,094	3,065	2,861	2,789
Taxes and licenses	1,263	927	778	957	657	539
Travel and communication	1,132	1,199	996	961	974	825
Advertising	804	1,492	1,310	754	1,316	1,123
Supervision and examination fees	733	653	587	570	506	441
Litigation expenses	430	549	495	249	308	255
Office supplies	390	477	589	309	389	490
Amortization expense	339	311	293	-	30	11
Management and other professional fees	301	501	601	248	388	626
Shared expenses	-	-	-	39	39	26
Others	5,862	5,988	5,304	4,636	4,590	4,132
	15,543	16,239	15,047	11,788	12,058	11,257

Insurance expense comprise mainly of premium payments made to Philippine Deposit Insurance Corporation and other product-related insurance costs.

Other expenses mainly include fees and incentives paid to agents, outsourcing fees, freight charges and other business expense such as those incurred in staff meetings, donations, periodicals and magazines. Incremental costs incurred due to the COVID-19 pandemic are likewise presented as part of other expenses.

Note 22 - Income Taxes

The reconciliation between the income tax expense at the statutory tax rate and the effective income tax for the years ended December 31 is shown below:

	Consolidated					
	2020		2019		2018	
	Amount	Rate (%)	Amount	Rate (%)	Amount	Rate (%)
	(In Millions of Pesos)					
Statutory income tax	7,667	30.00	11,506	30.00	8,945	30.00
Effect of items not subject to statutory tax rate:						
Income subjected to lower tax rates	(229)	(0.90)	(1,553)	(4.05)	(518)	(1.73)
Tax-exempt income	(5,320)	(20.82)	(2,925)	(7.63)	(1,579)	(5.30)
Others, net	1,788	7.00	2,327	6.07	(235)	(0.79)
Effective income tax	3,906	15.28	9,355	24.39	6,613	22.18

	Parent					
	2020		2019		2018	
	Amount	Rate (%)	Amount	Rate (%)	Amount	Rate (%)
	(In Millions of Pesos)					
Statutory income tax	8,621	30.00	10,327	30.00	6,134	30.00
Effect of items not subject to statutory tax rate:						
Income subjected to lower tax rates	(258)	(0.90)	(1,445)	(4.20)	(519)	(2.54)
Tax-exempt income	(3,823)	(13.30)	(1,637)	(4.76)	(495)	(2.42)
Others, net	(412)	(1.43)	960	2.79	(103)	(0.50)
Effective income tax	4,128	14.37	8,205	23.83	5,017	24.54

Note 23 - Retirement Plans

The BPI Group maintains both defined benefit and defined contribution retirement plans. Assets of both retirement plans are held in trust and governed by local regulations and practices in the Philippines. The key terms of these pension plans are discussed below.

a) Defined benefit retirement plan

BPI Group (excluding insurance operations)

BPI has a unified plan which covers all subsidiaries except insurance entities. Under this plan, the normal retirement age is 60 years. Normal retirement benefit consists of a lump sum benefit equivalent to 200% of the basic monthly salary of the employee at the time of his retirement for each year of service, if he has rendered at least 10 years of service, or to 150% of his basic monthly salary, if he has rendered less than 10 years of service. For voluntary retirement, the benefit is equivalent to 112.50% of the employee's basic monthly salary for a minimum of 10 years of service with the rate factor progressing to a maximum of 200% of basic monthly salary for service years of 25 or more. Death or disability benefit, on the other hand, shall be the highest amount among the same basis as in voluntary retirement, 100% of basic monthly salary of the employee at the time of his retirement for each year of service and minimum amount required by Labor Code.

The net defined benefit cost and contributions to be paid by the entities within the BPI Group are determined by an independent actuary.

Non-life insurance subsidiary

BPI/MS has a separate trustee defined benefit plan. Under the plan, the normal retirement age is 60 years. Normal retirement benefit consists of a lump sum benefit equivalent to 175% of the basic monthly salary of the employee at the time of his retirement for each year of service, if he has rendered at least 10 years of service, or to 150% of his basic monthly salary, if he has rendered less than 10 years of service.

Death or disability benefit for all employees of the non-life insurance subsidiary shall be determined on the same basis as in normal or voluntary retirement as the case may be.

Following are the amounts recognized based on recent actuarial valuation exercise:

(a) Pension liability as at December 31 recognized in the statement of condition:

	Consolidated		Parent	
	2020	2019	2020	2019
	(In Millions of Pesos)			
Present value of defined benefit obligation	16,532	14,892	14,008	12,545
Fair value of plan assets	(9,189)	(12,172)	(7,762)	(10,130)
Pension liability recognized in the statement of condition	7,343	2,720	6,246	2,415
Effect of asset ceiling	16	46	-	-
	7,359	2,766	6,246	2,415

Pension liability is shown as part of “Miscellaneous liabilities” within Deferred credits and other liabilities (Note 17).

The movements in plan assets are summarized as follows:

	Consolidated		Parent	
	2020	2019	2020	2019
	(In Millions of Pesos)			
At January 1	12,172	9,851	10,130	8,195
Contributions	915	861	770	715
Interest income	666	648	556	535
Benefit payments	(2,077)	(1,187)	(1,633)	(985)
Remeasurement - return on plan assets	(2,468)	1,999	(2,061)	1,665
Transfer to defined contribution plan	-	-	-	5
Effect of deconsolidation	(19)	-	-	-
At December 31	9,189	12,172	7,762	10,130

The carrying values of the plan assets represent their fair value as at December 31, 2020 and 2019.

The plan assets are comprised of the following:

	Consolidated		Parent	
	2020	2019	2020	2019
	(In Millions of Pesos)			
Debt securities	4,343	3,773	3,668	3,140
Equity securities	3,807	5,721	3,216	4,761
Others	1,039	2,678	878	2,229
	9,189	12,172	7,762	10,130

The plan assets of the unified retirement plan include investment in BPI's common shares with aggregate fair value of P390 million at December 31, 2020 (2019 - P421 million). An officer of the Parent Bank exercises the voting rights over the plan's investment in BPI's common shares.

Others include cash and cash equivalents and other receivables.

The movements in the present value of defined benefit obligation are summarized as follows:

	Consolidated		Parent	
	2020	2019	2020	2019
	(In Millions of Pesos)			
At January 1	14,892	10,892	12,545	9,171
Interest cost	830	944	698	795
Current service cost	756	545	628	456
Remeasurement - changes in financial assumptions	2,265	3,583	1,832	2,984
Remeasurement - experience adjustment	(80)	115	(62)	112
Benefit payments	(2,077)	(1,187)	(1,633)	(985)
Transfers to defined contribution plan	-	-	-	12
Effect of deconsolidation	(54)	-	-	-
At December 31	16,532	14,892	14,008	12,545

The BPI Group has no other transactions with the plan other than the regular funding contributions presented above for the years ended December 31, 2020 and 2019.

(b) Expense recognized in the statement of income for the year ended December 31 are as follows:

	Consolidated			Parent		
	2020	2019	2018	2020	2019	2018
	(In Millions of Pesos)					
Current service cost	754	545	659	628	456	539
Net interest cost	164	86	96	142	80	69
	918	631	755	770	536	608

The current service cost and net interest cost of the BPI Group as presented above include the portion of BPI CTL for the year ended December 31, 2019 amounting to P2.4 million (2018 - P2.7 million).

The principal assumptions used for the actuarial valuations of the unified plan are as follows:

	Consolidated		Parent	
	2020	2019	2020	2019
Discount rate	3.96%	5.57%	3.96%	5.57%
Future salary increases	5.00%	5.00%	5.00%	5.00%

Assumptions regarding future mortality and disability experience are based on published statistics generally used for local actuarial valuation purposes.

The defined benefit plan typically exposes the BPI Group to a number of risks such as investment risk, interest rate risk and salary risk. The most significant of which relate to investment and interest rate risk. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating the terms of the related pension liability. A decrease in government bond yields will increase the defined benefit obligation although this will also be partially offset by an increase in the value of the plan's fixed income holdings. Hence, the present value of defined benefit obligation is directly affected by the discount rate to be applied by the BPI Group. However, the BPI Group believes that due to the long-term nature of the pension liability and the strength of the BPI Group itself, the mix of debt and equity securities holdings of the plan is an appropriate element of the BPI Group's long-term strategy to manage the plan efficiently.

The BPI Group ensures that the investment positions are managed within an asset-liability matching framework that has been developed to achieve long-term investments that are in line with the obligations under the plan. The BPI Group's main objective is to match assets to the defined benefit obligation by investing primarily in long-term debt securities with maturities that match the benefit payments as they fall due. The asset-liability matching is being monitored on a regular basis and potential change in investment mix is being discussed with the trustor, as necessary to better ensure the appropriate asset-liability matching.

The BPI Group contributes to the plan depending on the suggested funding contribution as calculated by an independent actuary engaged by management. The expected contributions for the year ending December 31, 2021 for the BPI Group and the Parent Bank amount to P1,562 million and P1,301 million respectively, (2020 - P1,001 million and P836 million, respectively). The weighted average duration of the defined benefit obligation under the BPI unified retirement plan as at December 31, 2020 is 9.56 years (2019 - 9.65 years).

The projected maturity analysis of retirement benefit payments as at December 31 are as follows:

	Consolidated		Parent	
	2020	2019	2020	2019
	(In Millions of Pesos)			
Up to one year	1,225	1,135	1,081	873
More than 1 year to 5 years	4,715	3,967	4,302	3,470
More than 5 years to 10 years	8,604	8,200	7,388	6,923
More than 10 years to 15 years	9,781	11,617	8,127	9,765
More than 15 years to 20 years	5,243	6,825	4,327	5,853
Over 20 years	18,369	25,238	12,669	19,527

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions as at December 31 follows:

Consolidated

2020

	Change in assumption	Impact on defined benefit obligation	
		Increase in assumption	Decrease in assumption
Discount rate	0.5%	Decrease by 5.40%	Increase by 6.00%
Salary growth rate	1.0%	Increase by 10.10%	Decrease by 8.80%

2019

	Change in assumption	Impact on defined benefit obligation	
		Increase in assumption	Decrease in assumption
Discount rate	0.5%	Decrease by 4.60%	Increase by 5.00%
Salary growth rate	1.0%	Increase by 10.40%	Decrease by 9.10%

Parent

2020

	Change in assumption	Impact on defined benefit obligation	
		Increase in assumption	Decrease in assumption
Discount rate	0.5%	Decrease by 4.40%	Increase by 4.70%
Salary growth rate	1.0%	Increase by 9.60%	Decrease by 8.50%

2019

	Change in assumption	Impact on defined benefit obligation	
		Increase in assumption	Decrease in assumption
Discount rate	0.5%	Decrease by 4.60%	Increase by 5.00%
Salary growth rate	1.0%	Increase by 10.30%	Decrease by 9.00%

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions, the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the retirement liability recognized within the statement of condition.

b) Defined contribution retirement plan subject to the requirements of Republic Act (RA) No. 7641

All non-unionized employees hired on or after the January 1, 2016 are automatically under the new defined contribution plan. Employees hired prior to the effective date shall have the option to elect to become members of the new defined contribution plan.

Under the normal or late retirement, employees are entitled to a benefit equal to the total of the following amounts:

- The higher between (a) cumulative fund balance equivalent to 8% of the basic monthly salary and (b) the minimum legal retirement benefit under the Labor Code; and
- Employee contributions fund

The defined contribution retirement plan has a defined benefit minimum guarantee equivalent to a certain percentage of the monthly salary payable to an employee at normal retirement age with the required credited years of service based on the provisions of RA No. 7641.

Accordingly, the liability for the defined benefit minimum guarantee is actuarially calculated similar to the defined benefit plan.

The funding status of the defined contribution plan as at December 31 is shown below:

	Consolidated		Parent	
	2020	2019	2020	2019
	(In Millions of Pesos)			
Fair value of plan assets	1,478	1,748	1,102	1,325
Present value of defined benefit obligation	(1,069)	(811)	(692)	(604)
	409	937	410	721
Effect of asset ceiling	428	945	410	721
	(19)	(8)	-	-

The movements in the present value of the defined benefit obligation follow:

	Consolidated		Parent	
	2020	2019	2020	2019
	(In Millions of Pesos)			
At January 1	811	298	604	219
Interest cost	45	27	34	20
Current service cost	154	59	105	40
Benefit payments	(93)	(56)	(73)	(41)
Remeasurement - changes in financial assumptions	303	403	189	299
Remeasurement - experience adjustment	(146)	80	(167)	67
Effect of deconsolidation	(5)	-	-	-
At December 31	1,069	811	692	604

The movements in the fair value of plan assets follow:

	Consolidated		Parent	
	2020	2019	2020	2019
	(In Millions of Pesos)			
At January 1	1,748	1,254	1,325	930
Contribution paid by employer	318	237	218	163
Interest income	101	114	77	88
Benefit payments	(93)	(56)	(73)	(41)
Transfer to the plan	-	-	-	2
Remeasurement - return on plan assets	(585)	199	(445)	183
Effect of deconsolidation	(11)	-	-	-
At December 31	1,478	1,748	1,102	1,325

Total retirement expense for the year ended December 31, 2020 under the defined contribution plan for the BPI Group and Parent Bank amounts to P150 million (2019 - P142 million) and P102 million (2019 - P98 million), respectively.

The components of plan assets of the defined contribution as at December 31 are as follows:

	Consolidated		Parent	
	2020	2019	2020	2019
	(In Millions of Pesos)			
Debt securities	720	663	537	506
Equity securities	695	962	518	730
Others	63	123	47	89
	1,478	1,748	1,102	1,325

The weighted average duration of the defined contribution retirement plan for the BPI Group and Parent Bank is 20.46 years (2019 - 20.83 years).

Critical accounting estimate - Calculation of defined benefit obligation

The BPI Group estimates its pension benefit obligation and expense for defined benefit pension plans based on the selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions include, among others, the discount rate and future salary increases. The BPI Group determines the appropriate discount rate at the end of each year. This is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the retirement obligations. The present value of the defined benefit obligations of the BPI Group at December 31, 2020 and 2019 are determined using the market yields on Philippine government bonds with terms consistent with the expected payments of employee benefits. Plan assets are invested in either equity securities, debt securities or other forms of investments. Equity markets may experience volatility, which could affect the value of pension plan assets. This volatility may make it difficult to estimate the long-term rate of return on plan assets. Actual results that differ from the BPI Group's assumptions are reflected as remeasurements in other comprehensive income. The BPI Group's assumptions are based on actual historical experience and external data regarding compensation and discount rate trends.

Note 24 - Asset Management Business

At December 31, 2020, the net asset value of trust and fund assets managed by the BPI Group through BPI AMTC amounts to P854 billion (2019 - P731 billion).

As required by the General Banking Act, BPI AMTC has deposited government securities with the BSP valued at P426 million (2019 - P377 million).

Note 25 - Related Party Transactions

In the normal course of business, the Parent Bank transacts with related parties consisting of its subsidiaries and associates. Likewise, the BPI Group has transactions with Ayala Corporation (AC) and subsidiaries (Ayala Group), on an arm's length basis. AC is a significant stockholder of BPI as at reporting date.

The Parent Bank has a Board-level Related Party Transactions Committee that vets and endorses all significant related party transactions, including those involving directors, officers, stockholders and their related interests (DOSRI), for which the latter shall require final Board approval. The Committee consists of three directors, majority of whom are independent directors including the Chairman, and two non-voting members from management, namely, the Chief Audit Executive and the Chief Compliance Officer.

Transactions with related parties have terms and conditions that are generally comparable to those offered to non-related parties or to similar transactions in the market.

A summary of significant related party transactions and outstanding balances as at and for the years ended December 31 is shown below (transactions with subsidiaries have been eliminated in the consolidated financial statements):

As at December 31, 2020, allowance for credit losses amounting to P674 million (2019 - P12 million) have been recognized against receivables from related parties.

Note 26 - Financial Risk Management

The BOD carries out its risk management function through the Risk Management Committee (RMC). The RMC is tasked with nurturing a culture of risk management across the enterprise. The RMC sets the risk appetite; proposes and approves risk management policies, frameworks, and guidelines; and regularly reviews risk management structures, metrics, limits, and issues across the BPI Group, in order to meet and comply with regulatory and international standards on risk measurement and management.

At the management level, the Risk Management Office (RMO) is headed by the Chief Risk Officer (CRO). The CRO is ultimately responsible in leading the formulation of risk management policies and methodologies in alignment with the overall business strategy of BPI, ensuring that risks are prudently and rationally undertaken and within its risk appetite, as well as commensurate and disciplined to maximize returns on shareholders' capital. Risk management is carried out by a dedicated team of skilled risk managers and senior officers who have extensive prior operational experience. BPI's risk managers regularly monitor key risk indicators and report exposures against carefully established financial and business risk metrics and limits approved by the RMC. Finally, independent reviews are regularly conducted by the Internal Audit group and regulatory examiners to ensure that risk controls and mitigants are in place and functioning effectively as intended.

The possibility of incurring losses is, however, compensated by the possibility of earning more than expected income. Risk-taking is, therefore, not entirely negative to be avoided. Risk-taking actions present opportunities if risks are fully identified and accounted, deliberately taken, and are kept within prudent and rationalized limits.

The most important financial risks that the BPI Group manages are credit risk, liquidity risk and market risk.

26.1 Credit risk

The BPI Group takes on exposure to credit risk, which is the risk that may arise if a borrower or counterparty fails to meet its obligations in accordance with agreed terms. Credit risk is the single largest risk for the BPI Group's business; management therefore carefully manages its exposure to credit risk as governed by relevant regulatory requirements and international benchmarks.

The most evident source of credit risk is loans and advances; however, other sources of credit risk exist throughout the activities of the BPI Group, including in credit-related activities recorded in the banking books, investment securities in the trading books and off-balance sheet transactions.

26.1.1 Credit risk management

The Credit Policy and Risk Management (CPRM) division is responsible for the overall management of the BPI Group's credit risk. CPRM supports the senior management in coordination with various business lending and operations units in identifying, measuring and managing credit risk.

The BPI Group employs a range of policies and practices to mitigate credit risk. The BPI Group monitors its portfolio based on different segmentation to reflect the acceptable level of diversification and concentration. Concentration risk in credit portfolios is inherent in banking and cannot be totally eliminated. However, said risk may be reduced by adopting proper risk controls and diversification strategies to prevent undue risk concentrations from excessive exposures to particular counterparties, industries, countries or regions.

The BPI Group structures the levels of credit risk it undertakes by placing limits on the amount of risk accepted in relation to one borrower, or group of borrowers, and to industry segments. Such risks are monitored on a regular basis and subjected to annual or more frequent review, when deemed necessary. Limits on large exposures and credit concentration are approved by the BOD through the RMC.

The exposure to any one borrower is further restricted by sub-limits covering on- and off-balance sheet exposures. Actual exposures against limits are monitored regularly. Methodologies for measuring credit risk vary depending on several factors, including type of asset, risk measurement parameters and risk management and collection processes. Credit risk measurement is based on the PD of an obligor or counterparty, the loss severity given a default event and the EAD.

A rigorous control framework is applied in the determination of expected credit loss (ECL) models. The BPI Group has policies and procedures that govern the calculation of ECL. All ECL models are regularly reviewed by the Risk Management Office to ensure that necessary controls are in place and the models are applied accordingly.

The review and validation of ECL models are performed by groups that are independent of the team that prepares the calculations, e.g., Risk Models Validation Unit and Internal Auditors. Expert judgments on measurement methodologies and assumptions are reviewed by a group of internal experts from various functions.

Credit loss estimates are based on estimates of the PD and loss severity given a default. The PD is the likelihood that a borrower will default on its obligation; the LGD is the estimated loss on the loan that would be realized upon the default and takes into consideration collateral and structural support for each credit facility. The estimation process includes assigning risk ratings to each borrower and credit facility to differentiate risk within the portfolio. These risk ratings are reviewed regularly by Credit Risk Management and revised as needed to reflect the borrower's current financial position, risk profile and related collateral. The calculations and assumptions are based on both internal and external historical experience and management judgment and are reviewed regularly.

The BPI Group's forward-looking, point-in-time PD models are driven by internal forecasts of macroeconomic variables (MEVs) over the next five years. These models were previously recalibrated annually, but in view of the COVID-19 pandemic, more frequent review and update of these models were conducted starting April 2020 as MEV forecasts were revised quarterly in response to changing macroeconomic conditions. Furthermore, the pandemic was expected to dampen demand for auto and real estate collaterals and thus decrease market prices, so appropriate haircuts were applied on estimated recoveries from collaterals. These haircuts, however, did not increase the BPI Group's LGD as these were offset by the BPI Group's favorable collection experience.

Settlement risk arises in any situation where a payment in cash, securities, foreign exchange currencies, or equities is made in the expectation of a corresponding receipt in cash, securities, foreign exchange currencies, or equities. Daily settlement limits are established for each counterparty to cover the aggregate of all settlement risk arising from the BPI Group's market transactions on any single day. For certain securities, the introduction of the delivery versus payment facility in the local market has brought down settlement risk significantly.

The BPI Group employs specific control and risk mitigation measures, some of which are outlined below:

(a) Collateral or guarantees

One of the most traditional and common practice in mitigating credit risk is requiring security particularly for loans and advances. The BPI Group implements guidelines on the acceptability of specific classes of collateral for credit risk mitigation. The BPI Group assesses the valuation of the collateral obtained as part of the loan origination process. This assessment is reviewed periodically. The common collateral types for loans and advances are:

- Mortgages over physical properties (e.g., real estate and personal);
- Mortgages over financial assets (e.g., guarantees); and
- Margin agreement for derivatives, for which the BPI Group has also entered into master netting agreements.

In order to minimize credit loss, the BPI Group seeks additional collateral from the counterparty when impairment indicators are observed for the relevant individual loans and advances.

The BPI Group's policies regarding obtaining collateral have not significantly changed during the reporting period and there has been no significant change in the overall quality of the collaterals held by the BPI Group since the prior period.

(b) Market Limits

The BPI Group maintains market limits on net open derivative positions (i.e., the difference between purchase and sale contracts). Credit risk is limited to the net current fair value of instruments, which in relation to derivatives is only a portion of the contract, or notional values used to express the volume of instruments outstanding. This credit risk exposure is managed as part of the overall lending limits with customers, together with potential exposures from market movements. Collateral or other security is not usually obtained for credit risk exposures on these instruments (except where the BPI Group requires margin deposits from counterparties).

(c) Master netting arrangements

The BPI Group further restricts its exposure to credit losses by entering into master netting arrangements with certain counterparties with which it undertakes significant volume of transactions. Master netting arrangements do not generally result in an offset of balance sheet assets and liabilities, as transactions are usually settled on a gross basis. However, the credit risk associated with favorable contracts (asset position) is reduced by a master netting arrangement to the extent that if a default occurs, all amounts with the counterparty are terminated and settled on a net basis. The BPI Group's overall exposure to credit risk on derivative instruments subject to master netting arrangements can change substantially within a short period, as it is affected by each transaction subject to the arrangement.

(d) Credit-related commitments

Documentary and commercial letters of credit - which are written undertakings by the BPI Group on behalf of a customer authorizing a third party to draw drafts on the BPI Group up to a stipulated amount under specific terms and conditions - are collateralized by the underlying shipments of goods and therefore carry less risk than a direct loan.

26.1.2 Credit risk rating

The BPI Group uses internal credit risk gradings that reflect its assessment of the PD of individual counterparties. The BPI Group uses its internal credit risk rating system, credit models or external ratings from reputable credit rating agencies. Specific data about the borrower and loan are collected at the time of application (such as disposable income, and level of collateral for retail exposures; and turnover and industry type for wholesale exposures) and are fed into the internal credit scoring models. In addition, the internal models allow expert judgment from the Credit Risk Rating Committee and consideration of other data inputs not captured into the model in the determination of the final internal credit score for each borrower.

The BPI Group has adopted a credit classification system that aims to identify deteriorating exposures on a timely basis. Exposures are classified into each of the following categories:

- *Standard monitoring* - This category includes accounts which do not have a greater-than-normal risk and do not possess the characteristics of special monitoring and defaulted loans. The counterparty has the ability to satisfy the obligation in full and therefore minimal loss, if any, is anticipated.

- *Special monitoring* - This category includes accounts which need closer and frequent monitoring to prevent any further credit deterioration. The counterparty is assessed to be vulnerable to highly vulnerable and its capacity to meet its financial obligations is dependent upon favorable business, financial, and economic conditions.
- *Default* - This category includes accounts which exhibit probable to severe weaknesses wherein probability of non-repayment of loan obligation is ranging from high to extremely high.

i. *Corporate (including cross-border loans) and Small and Medium-sized Enterprise (SME) loans*

The BPI Group's internal credit risk rating system comprises a 22-scale rating with eighteen (18) 'pass' rating levels for large corporate accounts and 14-scale rating system with ten (10) 'pass' rating grades for SME accounts. For cross-border loans, the BPI Group also uses the available external credit ratings issued by reputable rating agencies. The level of risk and associated PD are determined using either the internal credit risk ratings or external credit ratings, as applicable, for corporate loans.

The BPI Group uses the following set of classifications:

Classifications	Internal Credit Risk Rating System (ICRRS)		External Credit Rating by reputable rating agencies
	Large corporate	SME	Cross-Border
Standard monitoring	AAA to B- or unrated and based on prescribed days past due (dpd) threshold	AAA to B- or unrated and based on prescribed dpd threshold	Investment grade (IG) or Non-IG with no significant increase in credit risk (SICR)
Special monitoring	CCC to C or based on prescribed dpd threshold	CCC to C or based on prescribed dpd threshold	Non-IG with SICR but assessed to be non-impaired
Default	Adversely classified accounts (ACA) or based on prescribed dpd threshold or Item in litigation (IL)	ACA or based on prescribed dpd threshold or IL	Default, with objective evidence of impairment

ii. *Retail loans*

The BPI Group uses automated scoring models to assess the level of risk for retail accounts. Behavioral indicators are considered in conjunction with other forward-looking information (e.g., industry forecast) to assess the level of risk of a loan. After the date of initial recognition, the payment behavior of the borrower is monitored on a periodic basis to develop a behavioral score which is mapped to a PD.

Classifications	Credit cards	Personal, auto and housing	SEME*
Standard monitoring	Current to 29 dpd	Current to 30 dpd	Current to 7 dpd
Special monitoring	30 to 89 dpd	31 to 90 dpd	Not applicable
Default	90 dpd and up or IL	>90, IL, Loss	8 dpd and up

*Self-employed micro-entrepreneurs

iii. *Treasury and other investment debt securities*

Investments in high grade securities and bills are viewed as a way to gain better credit quality mix and at the same time, maintain a readily available source to meet funding requirements. The level of credit risk for treasury and other investment debt securities and their associated PD are determined using reputable external ratings and/or available and reliable qualitative and quantitative information. In the absence of credit ratings, a comparable issuer or guarantor rating is used. Should there be a change in the credit rating of the chosen comparable, evaluation is made to ascertain whether the rating change is applicable to the security being assessed for impairment.

Classifications	External credit rating by reputable rating agencies
Standard monitoring	IG or Non-IG with no SICR
Special monitoring	Non-IG with SICR but assessed to be non-impaired
Default	Default, with objective evidence of impairment

iv. *Other financial assets at amortized cost*

For other financial assets (non-credit receivables), the BPI Group applies the PFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected credit loss methodology. These financial assets are grouped based on shared risk characteristics and aging profile. For some of these, impairment is assessed individually at a counterparty level.

26.1.3 Maximum exposure to credit risk

26.1.3.1 Loans and advances, net

Credit risk exposures relating to on-balance sheet loans and advances are as follows:

	Consolidated		Parent	
	2020	2019	2020	2019
	(In Millions of Pesos)			
Corporate and SME loans, net	1,143,340	1,204,950	1,120,784	1,167,582

26.1.3.3 Other financial assets at amortized cost

Other financial assets at amortized cost that are exposed to credit risk are as follows:

	Consolidated		Parent	
	2020	2019	2020	2019
(In Millions of Pesos)				
Accounts receivable, net	1,662	1,509	1,342	1,785
Rental deposits	767	734	650	623
Other accrued interest and fees receivable	58	264	12	209
Others	61	84	34	150
	2,548	2,591	2,038	2,767

The carrying amounts of the above financial assets represent the BPI Group's maximum exposure to credit risk.

The BPI Group's other financial assets at amortized cost (shown under Other assets, net) generally arise from transactions with various unrated counterparties with good credit standing. The BPI Group applies the PFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss methodology for other financial assets.

26.1.3.4 Loan commitments

Credit risk exposures arising from undrawn loan commitments are as follows:

26.1.4 Credit impaired loans and advances

The BPI Group closely monitors collaterals held for financial assets considered to be credit-impaired (Stage 3), as it becomes more likely that the BPI Group will take possession of collateral to mitigate potential credit losses. Loans and advances that are credit-impaired and related collateral held in order to mitigate potential losses are shown below:

Consolidated

	2020			2019		
	Gross exposure	Impairment allowance	Net carrying amount	Gross exposure	Impairment allowance	Net carrying amount
(In Millions of Pesos)						
Credit-impaired assets						
Corporate and SME loans	37,566	10,071	27,495	13,091	6,157	6,934

Total credit-impaired assets	39,189	12,759	26,430	13,337	7,894	5,443
Fair value of collateral	12,493			6,354		

The BPI Group acquires assets by taking possession of collaterals held as security for loans and advances.

As at December 31, 2020, the BPI Group's foreclosed collaterals have carrying amount of P2,971 million (2019 - P3,155 million). The related foreclosed collaterals have aggregate fair value of P9,494 million (2019 - P9,583 million). Foreclosed collaterals include real estate (land, building, and improvements), auto and chattel. Repossessed properties are sold as soon as practicable and are classified as Assets held for sale in the statement of condition. In 2020, the Parent Bank realized a gain of P53 million (2019 - P84 million) from disposals of foreclosed collaterals with book value of P148 million (2019 - P505 million).

26.1.5 Loss allowance

The loss allowance recognized in the period is impacted by a variety of factors, as described below:

- Transfers between Stage 1 and Stages 2 or 3 due to financial instruments experiencing significant increases (or decreases) in credit risk or becoming credit-impaired in the period, and the consequent transfer between 12-month and lifetime ECL;
- Additional allowances for new financial instruments recognized during the year and releases for financial instruments derecognized during the year;
- Write-offs of allowances related to assets that were written off during the year;
- Impact on the measurement of ECL due to changes in PDs, EADs and LGDs during the year;
- Impacts on the measurement of ECL due to changes made to models and assumptions; and
- Foreign exchange translations for assets denominated in foreign currencies and other movements.

The following tables summarize the changes in the loss allowance for loans and advances between the beginning and the end of the annual period. No movement analysis of allowance for impairment is presented for treasury and other investment debt securities and other financial assets subject to impairment as the related loss allowance is deemed insignificant for financial reporting purposes.

Critical accounting estimate and judgment - Measurement of expected credit loss for loans and advances

The measurement of the expected credit loss (ECL) for loans and advances is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behavior (e.g. the likelihood of customers defaulting and the resulting losses). The explanation of the inputs, assumptions and estimation techniques used in measuring ECL is further detailed in Note 30.3.2.2.

A number of significant judgments are also required in applying the accounting requirements for measuring ECL, such as:

- determining criteria for SICR;
- choosing appropriate models and assumptions for the measurement of ECL;
- establishing the number and relative weightings of forward-looking scenarios for each type of product and the associated ECL; and
- establishing groups of similar financial assets for the purposes of measuring ECL.

Forward-looking information incorporated in the ECL models

Three distinct macroeconomic scenarios (baseline, upside and downside) are considered in the BPI Group's estimation of expected credit losses in Stage 1 and Stage 2. These scenarios are based on assumptions supported by economic theories and historical experience. The downside scenario reflects a negative macroeconomic event occurring within the first 12 months, with conditions deteriorating for up to two years, followed by a recovery for the remainder of the period. This scenario is grounded in historical experience and assumes a monetary policy response that returns the economy to a long-run, sustainable growth rate within the forecast period. The probability of each scenario is determined using expert judgment and recession probability tools provided by reputable external service providers. The baseline case incorporates the BPI Group's outlook both for the domestic and global economy. The upside and downside scenarios take into account certain adjustments that will lead to a more positive or negative economic outcome, respectively.

Other forward-looking considerations not otherwise incorporated within the above scenarios, such as the impact of any regulatory, legislative or political changes is likewise considered, if material.

The BPI Group has performed historical analyses and identified the key economic variables impacting credit risk and expected credit losses for each portfolio. The most significant period-end assumptions used for the ECL estimate are set out below. The scenarios "base", "upside" and "downside" were used for all portfolios.

At December 31, 2020

	Base Scenario		Upside Scenario		Downside Scenario	
	Next 12 Months	2 to 5 years (Average)	Next 12 Months	2 to 5 years (Average)	Next 12 Months	2 to 5 years (Average)
Real GDP growth (%)	7.4	5.9	8.4	6.9	5.4	3.9
Inflation rate (%)	3.0	2.5	2.0	1.5	4.7	3.5
BVAL 5Y (%)	3.0	3.6	2.5	3.1	5.5	6.1
US Treasury 5Y (%)	0.5	0.5	0.7	0.7	0.3	0.3
Exchange rate	49.848	53.780	48.375	49.672	51.340	58.171

At December 31, 2019

	Base Scenario		Upside Scenario		Downside Scenario	
	Next 12 Months	2 to 5 years (Average)	Next 12 Months	2 to 5 years (Average)	Next 12 Months	2 to 5 years (Average)
Real GDP growth (%)	6.3	6.6	6.6	7.2	0.0	4.2
Inflation rate (%)	3.0	3.1	2.7	2.4	11.0	5.9
BVAL 5Y (%)	4.5	4.7	4.0	4.3	11.2	10.3
US Treasury 5Y (%)	2.5	2.5	2.8	3.4	1.4	1.3
Exchange rate	52.300	54.874	51.550	52.856	56.970	62.653

Sensitivity analysis

The loan portfolios have different sensitivities to movements in MEVs, so the above three scenarios have varying impact on the expected credit losses of BPI Group's portfolios. The allowance for impairment is calculated as the weighted average of expected credit losses under the baseline, upside and downside scenarios. The impact of weighting these multiple scenarios was an increase in the allowance for impairment by P23 million as at December 31, 2020 from the baseline scenario (2019 - P554 million).

Transfers between stages

Transfers from Stage 1 and Stage 2 are based on the assessment of SICR from initial recognition. The impact of moving from 12 months expected credit losses to lifetime expected credit losses, or vice versa, varies by product and is dependent on the expected remaining life at the date of the transfer. Stage transfers may result in significant fluctuations in expected credit losses. Assuming all Stage 2 accounts are considered as Stage 1, allowance for impairment would have decreased by P1,839 million as at December 31, 2020 (2019 - P1,312 million).

26.1.6 Concentrations of risks of financial assets with credit risk exposure

The BPI Group's main credit exposure at their carrying amounts, as categorized by industry sectors follow:

Consolidated (December 31, 2020)

	Financial institutions	Consumer	Manufacturing	Real estate	Others	Allowance	Total

26.2 Market risk

The BPI Group is exposed to market risk - the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk is managed by the RMO guided by policies and procedures approved by the RMC and confirmed by the Executive Committee/BOD.

Market risk management is incumbent on the BOD through the RMC. Market risk management in BPI covers managing exposures to trading risk, foreign exchange risk, counterparty credit risk, interest rate risk of the banking book and liquidity risk. At the management level, the BPI Group's market risk exposures are managed by the RMO, headed by the Parent Bank's CRO who reports directly to the RMC. In addition, the Internal Audit is responsible for the independent review of risk assessment measures and procedures and the control environment.

The BPI Group reviews and controls market risk exposures of both its trading and non-trading portfolios. Trading portfolios include those positions arising from the BPI Group's market-making activities. Non-trading portfolios include positions arising from core banking activities, which includes the BPI Group's retail and commercial banking assets and liabilities.

The BPI Group has derivatives exposures in interest rate swaps, currency swaps and structured notes as part of its trading and position taking activities.

Value-at-Risk (VaR) measurement is an integral part of the BPI Group's market risk control system. This metric estimates, at 99% confidence level, the maximum loss that a trading portfolio may incur over a trading day. This metric indicates as well that there is 1% statistical probability that the trading portfolios' actual loss would be greater than the computed VaR. In order to ensure model soundness, the VaR is periodically subject to model validation and back testing. VaR is supplemented by other risk metrics and measurements that would provide preliminary signals to Treasury and to the management to assess the vulnerability of BPI Group's positions. To control the risk, the RMC sets risk limits for trading portfolios which are consistent with the BPI Group's goals, objectives, risk appetite, and strategies.

Stress tests indicate the potential losses that could arise in extreme conditions that would have detrimental effect to the BPI Group's positions. The BPI Group periodically performs stress testing (e.g., price risk, interest rate risk in the banking book and liquidity risk) to assess the BPI Group's condition on assumed stress scenarios. Contingency plans are frequently reviewed to ensure the BPI Group's preparedness in the event of real stress. Results of stress tests are reviewed by Senior Management and by the RMC.

The average daily VaR for the trading portfolios are as follows:

	Consolidated		Parent	
	2020	2019	2020	2019
	(In Millions of Pesos)			
Local fixed-income	63	92	62	91
Foreign fixed-income	68	127	58	120
Foreign exchange	52	45	5	10
Derivatives	100	127	100	127
Equity securities	31	30	-	-
Mutual fund	-	5	-	-
	314	426	225	348

26.2.1 Foreign exchange risk

Foreign exchange risk is the risk that the fair value or future cash flows of financial instrument will fluctuate because of changes in foreign exchange rates. It arises on financial instruments that are denominated in a foreign currency other than the functional currency which they are measured.

The BPI Group takes on exposure to the effects of fluctuations in the prevailing exchange rates on its foreign currency financial position and cash flows. The table below summarizes the BPI Group's exposure to more material foreign currency exchange rate risk primarily in US Dollar (USD), shown in their Peso equivalent at December 31:

Consolidated

Presented below is a sensitivity analysis demonstrating the impact on pre-tax income of reasonably possible change in the exchange rate between US Dollar and Philippine Peso. The fluctuation rate is based on the historical movement of US Dollar against the Philippine Peso year on year.

Year	Change in currency	Effect on pre-tax income	
		Consolidated	Parent
		(In millions of Pesos)	
2020	+/- 2.29%	-/+ 589	-/+ 656
2019	+/- 1.24%	-/+ 81	-/+ 59

26.2.2 Interest rate risk

Interest rate risk is the risk that cash flows or fair value of a financial instrument will fluctuate due to movements in market interest rates. Interest rate risk in the banking book arises from the BPI Group's core banking activities. The BPI Group is subject to re-pricing risk arising from financial assets and liabilities that have different maturities and are re-priced taking into account the prevailing market interest rates.

The BPI Group employs two methods to measure the potential impact of interest rate risk: (i) one that focuses on the economic value of the banking book, and (ii) one that focuses on net interest earnings. The RMC sets limits on the two interest rate risk metrics which are monitored monthly by the Market Risk Division of the RMO.

Interest rate risk in the banking book

IRRBB is the current and prospective risk to the BPI Group's capital and earnings arising from the adverse movements in interest rates that affect its banking book positions. Excessive levels of interest rate risks in the banking book can pose a significant threat to the BPI Group's earnings and capital base. The BPI Group has established comprehensive risk management policies, procedures, risk limits structures and employs risk measurement models supported by a robust risk management system.

Interest rate exposures from core banking activities are measured using the following earnings-based and economic value-based models: (a) Earnings-at-Risk (EaR) measures the potential deterioration in net interest income over the next 12 months due to adverse movements in interest rates, and (b) Balance Sheet Value-at-Risk (BS VaR) measures the impact on the economic value of the future cash flows in the banking book due to changes in interest rates.

Earnings-at-Risk (EaR)

The EaR is built on repricing profile of the BPI Group and considers principal payments only. The BPI Group projects interest inflows from its financial assets and interest outflows from its financial liabilities in the next 12 months as earnings are affected when interest rate moved against the BPI Group's position. As of December 31, 2020, the net interest income impact of movement in interest rates amounts to P5,174 million (2019 - P2,424 million) for the whole BPI Group and P4,614 million (2019 - P1,986 million) for the Parent Bank.

Balance Sheet Value-at-Risk (BSVaR)

The BS VaR model is also built on repricing gap or the difference between the amount of rate-sensitive financial assets and liabilities which considers both principal and interest payments. It is the present value of the BPI Group's expected net cash flows based on the current interest rates. As at December 31, the average BSVaR, computed on a monthly basis, for the banking book stood at P21,251 million (2019 - P13,754 million) for the whole BPI Group and P17,397 million (2019 - P9,530 million) for the Parent Bank.

The IRRBB levels are closely monitored against RMC-approved limits and results are reported and discussed regularly at the Management level through the Asset and Liability Committee (ALCO) and at the Board level through the Risk Management Committee (RMC). The BPI Group manages interest rate exposures related to its assets and liabilities through a transfer-pricing system administered by Treasury. Investment securities and interest rate derivatives are also used to hedge interest rate risk and manage repricing gaps in the balance sheet.

The BPI Group also conducts price stress tests in the banking book and EaR stress tests for a variety of interest rate shock scenarios to identify the impact of adverse movements in interest rates on the BPI Group's economic value and earnings. The design of the price and EaR stress tests include steepening and flattening yield curves, parallel up/down and short rate up/down shocks. The interest rate shocks applied is calibrated for all major currencies in which the BPI Group has significant positions. The results of the stress test are reported to the RMC and Senior Management and are integrated into the overall risk management framework of the BPI Group.

The risk management process, including its various components, is subject to periodic independent review (i.e. internal audit and model validation) and consistently calibrated to ensure accuracy, relevance, propriety and timeliness of data and assumptions employed. The assumptions and parameters used in building these metrics are properly documented. Any changes in the methodology and assumptions used are duly approved by the Chief Risk Officer and noted by the RMC.

The table below summarizes the BPI Group's exposure to interest rate risk, categorized by the earlier of contractual repricing or maturity dates.

26.3 Liquidity risk

Liquidity risk is the risk that the BPI Group will be unable to meet its payment obligations associated with its financial liabilities when they fall due, and to replace funds when they are withdrawn. The consequence may be the failure to meet obligations to repay depositors and fulfill commitments to lend.

The BPI Group's liquidity profile is observed and monitored through its metric, the Minimum Cumulative Liquidity Gap (MCLG). The MCLG is the smallest net cumulative cash inflow (if positive) or the largest net cumulative cash outflow (if negative) over the next three (3) months. The MCLG indicates the biggest funding requirement in the short term and the degree of liquidity risk present in the current cash flow profile of the BPI Group. A red flag is immediately raised and reported to management and the RMC when the MCLG level projected over the next 3 months is about to breach the RMC-prescribed MCLG limit.

26.3.1 Liquidity risk management process

The BPI Group's liquidity management process, as carried out within the BPI Group and monitored by the RMC includes:

- day-to-day funding managed by monitoring future cash flows to ensure that requirements can be met. This includes replenishment of funds as they mature or as borrowed by customers;
- maintaining a portfolio of highly marketable assets that can easily be liquidated as protection against any unforeseen interruption to cash flow;
- monitoring liquidity gaps and ratios against internal and regulatory requirements;
- managing the concentration and profile of debt maturities; and
- performing periodic liquidity stress testing on the BPI Group's liquidity position by assuming a faster rate of withdrawals in its deposit base.

Monitoring and reporting take the form of cash flow measurement and projections for the next day, week and month as these are key periods for liquidity management. The starting point for these projections is an analysis of the contractual maturity of the financial liabilities (Note 26.3.2) and the expected collection date of the financial assets. Sources of liquidity are regularly reviewed by the BPI Group to maintain a wide diversification by currency, geography, counterparty, product and term.

The BPI Group also monitors unmatched medium-term assets, the level and type of undrawn lending commitments, the usage of overdraft facilities and the impact of contingent liabilities such as standby letters of credit.

Liquidity Coverage Ratio (LCR)

Pursuant to BSP Circular No. 905 issued in 2016, the Parent Bank is required to hold and maintain an adequate level of unencumbered High Quality Liquid Assets (HQLA) that are sufficient to meet its estimated total cash outflows over a 30 calendar-day period of liquidity stress. The LCR is the ratio of HQLAs to total net cash outflows which should be no lower than 100% on a daily basis. It is designed to promote short-term resilience of the BPI Group's liquidity risk profile to withstand significant liquidity shocks that may last over 30 calendar days. HQLA represents the Parent Bank's stock of liquid assets that qualify for inclusion in the LCR which consists mainly of cash, regulatory reserves and unencumbered high-quality liquid securities. HQLAs therefore, serve as defense against potential stress events.

The main drivers of the Parent Bank's LCR comprise the changes in the total stock of HQLA as well as changes in net cash outflows related to deposits, unsecured borrowings, committed and/or uncommitted facilities, derivatives cash flows and cash inflows from maturing corporate, business and retail loans, among others. Cash outflows from derivatives contracts are effectively offset by derivatives cash inflows. These two are accorded 100% outflow and inflow factors, respectively.

Net Stable Funding Ratio (NSFR)

On January 1, 2019, the Parent Bank adopted BSP Circular No. 1007 issued in 2018 regarding the NSFR requirement. The NSFR is aimed at strengthening the Parent Bank's long-term resilience by maintaining a stable funding in relation to its assets and off-balance sheet items as well as to limit the maturity transformation risk of the BPI Group. The NSFR is expressed as the ratio of available stable funding and the required stable funding and complements the LCR as it takes a longer view of the BPI Group's liquidity risk profile. The BPI Group's capital, retail deposits and long-term debt are considered as stable funding sources whereas the BPI Group's assets including, but not limited to, performing and non-performing loans and receivables, HQLA and non-HQLA securities as well as off-balance items form part of the required stable funding. The Parent Bank's solo and consolidated NSFRs are well-above the regulatory minimum of 100%.

The Parent Bank maintains a well-diversified funding base and has a substantial amount of core deposits, thereby avoiding undue concentrations by counterparty, maturity, and currency. The Parent Bank manages its liquidity position through asset-liability management activities supported by a well-developed funds management practice as well as a sound risk management system. As part of risk oversight, the Parent Bank monitors its liquidity risk on a daily basis, in terms of single currency and significant currencies, to ensure it is operating within the risk appetite set by the BOD and to assess ongoing compliance with the minimum requirement of the liquidity ratios. Furthermore, the Parent Bank has a set of policies and escalation procedures in place that govern its day-to-day risk monitoring and reporting processes.

The table below shows the actual liquidity metrics of the BPI Group and the Parent Bank:

	Consolidated		Parent	
	2020	2019	2020	2019
Liquidity coverage ratio	231.86%	167.06%	240.40%	168.13%
Net stable funding ratio	153.58%	130.74%	153.13%	122.65%
Leverage ratio	10.92%	10.70%	10.61%	10.06%
Total exposure measure	2,262,656	2,224,550	1,924,061	1,887,364

The improvement in the Parent Bank's LCR in 2020 was primarily driven by the increase in reportable amount of HQLA as excess liquidity and funding obtained by the Parent Bank were deployed to government securities classified as unencumbered and of high quality under LCR rules. Cash, reserves and due from BSP make up 46% of the total stock of HQLA for the year ended December 31, 2020.

26.3.2 Maturity profile - Non-derivative financial instruments

The tables below present the maturity profile of non-derivative financial instruments based on undiscounted cash flows including future interest which the BPI Group uses to manage the inherent liquidity risk. The maturity analysis is based on the remaining period from the end of the reporting period to the contractual maturity date or, if earlier, the expected date the financial asset will be realized, or the financial liability will be settled.

26.3.3 Maturity profile - Derivative instruments

(a) Derivatives settled on a net basis

The BPI Group's derivatives that are settled on a net basis consist of interest rate swaps, non-deliverable forwards and non-deliverable swaps. The table below presents the contractual undiscounted cash flows of interest rate swaps based on the remaining period from December 31 to the contractual maturity dates that are subject to offsetting, enforceable master netting arrangements and similar agreements.

Consolidated and Parent Bank

	Up to 1 year	Over 1 up to 3 years	Over 3 years	Total

26.5 Insurance risk management

The non-life insurance entities decide on the retention, or the absolute amount that they are ready to assume insurance risk from one event. The retention amount is a function of capital, experience, actuarial study and risk appetite or aversion.

In excess of the retention, these entities arrange reinsurances either thru treaties or facultative placements. They also accredit reinsurers based on certain criteria and set limits as to what can be reinsured. The reinsurance treaties and the accreditation of reinsurers require BOD's approval.

Note 27 - Capital Management

Capital management is understood to be a facet of risk management. The primary objective of the BPI Group is the generation of recurring acceptable returns to shareholders' capital. To this end, the BPI Group's policies, business strategies and activities are directed towards the generation of cash flows that are in excess of its fiduciary and contractual obligations to its depositors, and to its various funders and stakeholders.

Cognizant of its exposure to risks, the BPI Group maintains sufficient capital to absorb unexpected losses, stay in business for the long haul, and satisfy regulatory requirements. The BPI Group further understands that its performance, as well as the performance of its various units, should be measured in terms of returns generated vis-à-vis allocated capital and the amount of risk borne in the conduct of business.

Effective January 1, 2014, the BSP, through its Circular 781, requires each bank and its financial affiliated subsidiaries to adopt new capital requirements in accordance with the provisions of Basel III. The new guidelines are meant to strengthen the composition of the bank's capital by increasing the level of core capital and regulatory capital. The Circular sets out minimum Common Equity (CET1) ratio and Tier 1 Capital ratios of 6% and 7.5%, respectively. A capital conservation buffer of 2.5%, comprised of CET1 capital, was likewise imposed. The minimum required capital adequacy ratio remains at 10% which includes the capital conservation buffer.

Information on the regulatory capital is summarized below:

	Consolidated		Parent	
	2020	2019	2020	2019
	(In Millions of Pesos)			
Tier 1 capital	277,830	262,873	277,755	262,239
Tier 2 capital	13,593	14,079	11,835	11,500
Gross qualifying capital	291,423	276,952	289,590	273,739
Less: Regulatory adjustments/required deductions	30,760	24,810	73,557	72,400
Total qualifying capital	260,663	252,142	216,033	201,339
Risk weighted assets	1,527,572	1,568,855	1,309,660	1,347,976
CAR (%)	17.06	16.07	16.50	14.94
CET1 (%)	16.17	15.17	15.59	14.08

The BPI Group has fully complied with the CAR requirement of the BSP.

Likewise, regulatory capital structures of certain subsidiaries on a standalone basis are managed to meet the requirements of the relevant regulatory bodies (i.e. Insurance Commission, SEC, PSE etc.). These subsidiaries have fully complied with the applicable regulatory capital requirements.

As part of the reforms of the PSE to expand capital market and improve transparency among listed firms, PSE requires listed entities to maintain a minimum of ten percent (10%) of their issued and outstanding shares, exclusive of any treasury shares, held by the public. The Parent Bank is likewise fully compliant with this requirement.

Note 28 - Commitments and Contingencies

At present, there are lawsuits, claims and tax assessments pending against the BPI Group. In the opinion of management, after reviewing all actions and proceedings and court decisions with legal counsels, the aggregate liability or loss, if any, arising therefrom will not have a material effect on the BPI Group's financial position or financial performance.

BPI and some of its subsidiaries are defendants in legal actions arising from normal business activities. Management believes that these actions are without merit or that the ultimate liability, if any, resulting from them will not materially affect the financial statements.

In the normal course of business, the BPI Group makes various commitments that are not presented in the financial statements. The BPI Group does not anticipate any material losses from these commitments.

Note 29 - Subsequent events

BPI and BFB Merger

On January 22, 2021, BPI announced that its BOD had approved on January 21, 2021, subject to shareholders and regulatory approvals, the plan to merge with BFB, its wholly owned thrift bank subsidiary, with BPI as the surviving entity. The integration of both entities will provide considerable advantages to the customers and employees of BPI and BFB, and present potential synergies that will benefit shareholders. The accelerated shift to digital, the focus on operational efficiency and the expected reduction in the gap in regulatory reserve requirements between commercial banks and thrift banks were factors in the timing of the transaction.

The BOD of BPI, in its meeting held on February 24, 2021, approved the following significant terms and conditions of the planned merger transaction, subject to shareholders and regulatory approvals:

- BFB shall be merged with BPI, with BPI as the surviving corporation;
- The merger shall become effective upon the latter of (a) BSP approval and SEC issuance of the Certificate of Merger, and (b) January 1, 2022;
- Prior to the effective date, BPI and BFB shall conduct their respective business in a manner substantially the same as previously conducted;
- Any fees and costs related to the merger shall be borne by BPI; and
- The basis of determining the exchange ratio.

Increase in Authorized Share Capital

In its meeting held on February 24, 2021, the BOD of BPI approved the proposal, subject to shareholders and regulatory approvals, to increase its authorized share capital, particularly the common share from 4.9 billion to 5 billion shares, and the corresponding amendment to the Parent Bank's Articles of Incorporation.

Corporate Recovery and Tax Incentives for Enterprises Act (CREATE)

The CREATE bill which seeks to lower corporate income tax rates and to rationalize fiscal incentives had been approved by the House of Representatives on September 13, 2019 and by the Senate on the third and final reading on November 26, 2020. The bill was approved by the Bicameral Conference Committee on February 4, 2021 but has yet to be signed into law by the President of the Philippines. Under the CREATE bill, effective July 1, 2020, the more significant changes are as follows:

- Reduction of corporate income tax (CIT) rate to 20% applicable to domestic corporations with total net taxable income not exceeding P5,000,000 and with total assets not exceeding P100 Million (excluding land on which the business entity's office, plant and equipment are situated);
- Reduction of CIT rate to 25% shall be applicable to all other corporations subject to regular CIT; and,
- Minimum Corporate Income Tax (MCIT) rate shall also be amended to 1%, instead of 2%, for the period beginning July 1, 2020 until June 30, 2023.

Since the CREATE bill has not been substantively enacted by the time the BPI Group's consolidated financial statements were authorized for release, no disclosures were made in the BPI Group's consolidated financial statements to reflect the potential impact of the proposed changes in corporate income tax rate.

Financial Institutions Strategic Transfer (FIST) Law

On February 16, 2021, Republic Act (RA) No. 11523, otherwise known as FIST, was signed into law. The law takes effect immediately after its publication in the Official Gazette and a newspaper in general circulation. Under this law, financial institutions' strategic transfer corporations (FISTC) will have the powers to invest in or acquire the non-performing assets (NPA) of financial institutions and engaged third parties to manage, operate, collect and dispose of NPAs acquired from a financial institution. The transfer of NPAs to a FISTC will be exempt from documentary stamp tax, capital gains tax, creditable withholding taxes and value-added tax. The BPI Group is still in the process of evaluating how they can avail the benefit from the provisions of the FIST Law.

Note 30 - Summary of Significant Accounting Policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

30.1 Basis of preparation

The financial statements of the BPI Group have been prepared in accordance with Philippine Financial Reporting Standards (PFRSs). The term PFRSs in general includes all applicable PFRSs, Philippine Accounting Standards (PAS), and interpretations of the Philippine Interpretations Committee (PIC), Standing Interpretations Committee (SIC) and International Financial Reporting Interpretations Committee (IFRIC) which have been approved by the Financial Reporting Standards Council (FRSC) and adopted by the SEC.

As allowed by the SEC, the pre-need subsidiary of the Parent Bank continues to follow the provisions of the Pre-Need Uniform Chart of Accounts (PNUCA) prescribed by the SEC and adopted by the Insurance Commission.

The financial statements comprise the statements of condition, statements of income and statements of total comprehensive income shown as two statements, statements of changes in capital funds, statements of cash flows and the notes.

These financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets at FVTPL, financial assets at FVOCI, and plan assets of the BPI Group's defined benefit plans.

The preparation of financial statements in conformity with PFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the BPI Group's accounting policies. Changes in assumptions may have a significant impact on the financial statements in the period the assumptions changed. Management believes that the underlying assumptions are appropriate and that the financial statements therefore fairly present the financial position and results of the BPI Group. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are shown below:

Critical accounting estimates

- Fair value of derivatives and other financial instruments (Note 7)
- Useful lives of bank premises, furniture, fixtures and equipment (Note 11)
- Impairment of investments subsidiaries and associates (Note 12)
- Calculation of defined benefit obligation (Note 23)
- Measurement of expected credit losses for loans and advances (Note 26.1.4)

Critical accounting judgments

- Classification of investment securities at amortized cost (Note 9)
- Realization of deferred income tax assets (Note 13)
- Determining the lease term (Note 20)
- Determining the incremental borrowing rate (Note 20)

30.2 Changes in accounting policy and disclosures

(a) New amendments to existing standards adopted by the BPI Group

The BPI Group has adopted the following amendments to existing standards and the revised Conceptual Framework effective January 1, 2020:

- Amendments to PAS 1, '*Presentation of Financial Statements*', and PAS 8, '*Accounting Policies, Changes in Accounting Estimates and Errors*'

The amendments clarify that the reference to obscuring information addresses situations in which the effect is similar to omitting or misstating that information, and that an entity assesses materiality in the context of the financial statements as a whole, and; the meaning of 'primary users of general purpose financial statements' to whom those financial statements are directed, by defining them as 'existing and potential investors, lenders and other creditors' that must rely on general purpose financial statements for much of the financial information they need.

The adoption of the above amendments did not have a material impact on the financial statements of the BPI Group.

- Amendments to PFRS 3, '*Business Combinations*'

The amended definition of a business requires an acquisition to include an input and a substantive process that together significantly contribute to the ability to create outputs. The definition of the term 'outputs' is amended to focus on goods and services provided to customers, generating investment income and other income, and it excludes returns in the form of lower costs and other economic benefits.

The adoption of the above amendments did not have a material impact on the financial statements of the BPI Group.

- Amendments to PFRS 7, '*Financial Instruments: Disclosures*', and PFRS 9, '*Financial Instruments*'

The amendments provide a number of reliefs, which apply to all hedging relationships that are directly affected by interest rate benchmark reform. A hedging relationship is affected if the reform gives rise to uncertainty about the timing and/or amount of benchmark-based cash flows of the hedged item or the hedging instrument.

In assessing the hedge effectiveness of the cash flow hedges directly affected by the interest rate benchmark reform, the BPI Group assumed that the interest rate benchmark on which the hedged cash flows and cash flows from the hedging instrument are based will not be altered as a result of interest rate benchmark reform.

The adoption of the above amendments did not have a material impact on the financial statements of the BPI Group.

- Revised Conceptual Framework for Financial Reporting

The revised Framework includes the following changes:

- increasing the prominence of stewardship in the objective of financial reporting;
- reinstating prudence as a component of neutrality;
- defining a reporting entity, which may be a legal entity, or a portion of an entity;
- revising the definitions of an asset and a liability;
- removing the probability threshold for recognition and adding guidance on derecognition;
- adding guidance on different measurement basis; and
- stating that profit or loss is the primary performance indicator and that, in principle, income and expenses in other comprehensive income should be recycled where this enhances the relevance or faithful representation of the financial statements.

No changes will be made to any of the current accounting standards. However, entities that rely on the Framework in determining their accounting policies for transactions, events or conditions that are not otherwise dealt with under the accounting standards will need to apply the revised Framework from January 1, 2020. These entities will need to consider whether their accounting policies are still appropriate under the revised Framework.

The adoption of the revised Framework did not have a material impact on the financial statements of the BPI Group.

- Amendments to PFRS 16, “Leases”

The amendment provides lessees with an option to treat qualifying rent concessions in the same way as they would if they were not lease modifications. In many cases, this will result in accounting for the concessions as variable lease payments in the period in which they are granted.

The impact of the amendments to PFRS 16 in the financial statements of the BPI Group is summarized in Note 20.

(b) New standards and amendments to existing standards not yet adopted by the BPI Group

The following new accounting standards and amendments to existing standards are not mandatory for December 31, 2020 reporting period and have not been early adopted by the BPI Group:

- PFRS 17, Insurance Contracts (effective for annual periods beginning on or after January 1, 2025)

PFRS 17 was issued in May 2017 as replacement for PFRS 4, Insurance Contracts. PFRS 17 represents a fundamental change in the accounting framework for insurance contracts requiring liabilities to be measured at a current fulfilment value and provides a more uniform measurement and presentation approach for all insurance contracts. It requires a current measurement model where estimates are re-measured each reporting period. Contracts are measured using the building blocks of (1) discounted probability-weighted cash flows, (2) an explicit risk adjustment, and (3) a contractual service margin (“CSM”) representing the unearned profit of the contract which is recognized as revenue over the coverage period. The standard allows a choice between recognizing changes in discount rates either in the statement of income or directly in other comprehensive income. The choice is likely to reflect how insurers account for their financial assets under PFRS 9. An optional, simplified premium allocation approach is permitted for the liability for the remaining coverage for short duration contracts, which are often written by non-life insurers. The new rules will affect the financial statements and key performance indicators of all entities that issue insurance contracts or investment contracts with discretionary participation features.

The Insurance Commission, in coordination with Philippine Insurers and Reinsurers Association, is currently reviewing the impact of PFRS 17 across the entire industry and has established a project team to manage the implementation approach. The Insurance Commission (IC), considering the extension of IFRS 17 and the challenges of the COVID-19 pandemic to the insurance industry, has deferred the implementation of PFRS 17 to January 1, 2025, granting an additional two-year period from the date of effectivity proposed by the IASB. The BPI Group is assessing the quantitative impact of PFRS 17 as at reporting date.

- Interest Rate Benchmark Reform - Amendments to PFRS 9, “Financial Instruments”, PAS 39, “Financial Instruments: Recognition and Measurement”, PFRS 7 “Financial Instruments: Disclosures”, PFRS 4, “Insurance Contracts” and PFRS 16 “Leases”

These amendments that were issued in August 2020 address issues that arise during the reform of an interest rate benchmark rate, including the replacement of one benchmark rate with an alternative one.

The key reliefs provided by the amendments are as follows:

- Changes to contractual cash flows. When changing the basis for determining contractual cash flows for financial assets and liabilities (including lease liabilities), the reliefs have the effect that the changes that are required by an interest rate benchmark reform (that is, are necessary as a direct consequence of IBOR reform and are economically equivalent) will not result in an immediate gain or loss in the income statement.
- Hedge accounting. The hedge accounting reliefs will allow most PFRS 9 hedge relationships that are directly affected by IBOR reform to continue. However, additional ineffectiveness might need to be recorded.

The BPI Group is currently in the process of assessing the impact of this amendment.

Likewise, the following amendments to existing standards are not mandatory for December 31, 2020 reporting period and have not been early adopted by the BPI Group:

- Amendments to PAS 1, *'Presentation of Financial Statements'*

The amendments to PAS 1 clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the expectations of the entity or events after the reporting date (e.g. the receipt of a waiver or a breach of covenant).

- Amendments to PAS 16, *'Property, Plant and Equipment'*

The amendment prohibits an entity from deducting from the cost of an item of property, plant and equipment any proceeds received from selling items produced while the entity is preparing the asset for its intended use. It also clarifies that an entity is 'testing whether the asset is functioning properly' when it assesses the technical and physical performance of the asset.

- Amendments to PFRS 3, *'Business Combinations'*

Amendments were made to update the references to the Conceptual Framework for Financial Reporting and add an exception for the recognition of liabilities and contingent liabilities within the scope of PAS 37, *'Provisions, Contingent Liabilities and Contingent Assets'* and Interpretation 21, *Levies*.

- PAS 37, *'Provisions, Contingent Liabilities and Contingent Assets'*

The amendment clarifies that the direct costs of fulfilling a contract include both the incremental costs of fulfilling the contract and an allocation of other costs directly related to fulfilling the contracts. Before recognizing a separate provision for an onerous contract, the entity recognizes any impairment loss that has occurred on assets used in fulfilling the contract.

- Annual Improvements to PFRS Standards 2018-2020

The following improvements were finalized in May 2020:

- i. PFRS 9, *'Financial Instruments'*, clarifies which fees should be included in the 10% test for derecognition of financial liabilities.
- ii. PFRS 16, *'Leases'*, amendment to remove the illustration of payments from the lessor relating to leasehold improvements, to remove any confusion about the treatment of lease incentives.

The adoption of the above amendments is not expected to have a material impact on the financial statements of the BPI Group.

30.3 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. The BPI Group recognizes a financial instrument in the statements of condition when, and only when, the BPI Group becomes a party to the contractual provisions of the instrument.

30.3.1 Measurement methods

Amortized cost and effective interest rate

The amortized cost is the amount at which the financial asset or financial liability is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount and, for financial assets, adjusted for any loss allowance.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial asset or financial liability to the gross carrying amount of a financial asset (i.e. its amortized cost before any impairment allowance) or to the amortized cost of a financial liability. The calculation does not consider expected credit losses and includes transaction costs, premiums or discounts and fees and points paid or received that are integral to the effective interest rate, such as origination fees. For purchased or originated credit-impaired ('POCI') financial assets – assets that are credit-impaired (see definition on Note 30.3.2.2) at initial recognition - the BPI Group calculates the credit-adjusted effective interest rate, which is calculated based on the amortized cost of the financial asset instead of its gross carrying amount and incorporates the impact of expected credit losses in estimated future cash flows.

When the BPI Group revises the estimates of future cash flows, the carrying amount of the respective financial assets or financial liability is adjusted to reflect the new estimate discounted using the original effective interest rate. Any changes are recognized in profit or loss.

Interest income

Interest income is calculated by applying the effective interest rate to the gross carrying amount of financial assets, except for:

- POCI financial assets, for which the original credit-adjusted effective interest rate is applied to the amortized cost of the financial asset.
- Financial assets that are not 'POCI' but have subsequently become credit-impaired (or 'Stage 3'), for which interest revenue is calculated by applying the effective interest rate to their amortized cost (i.e. net of the expected credit loss provision).

Initial recognition and measurement

Financial assets and financial liabilities are recognized when the entity becomes a party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognized on trade-date, the date on which the BPI Group commits to purchase or sell the asset.

At initial recognition, the BPI Group measures a financial asset or financial liability at its fair value plus or minus, in the case of a financial asset or financial liability not at fair value through profit or loss, transaction costs that are incremental and directly attributable to the acquisition or issue of the financial asset or financial liability, such as fees and commissions. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in profit or loss. Immediately after initial recognition, an expected credit loss allowance (ECL) is recognized for financial assets measured at amortized cost and investments in debt instruments measured at FVOCI, as described in Note 30.3.2.1 below, which results in the loss provision being recognized in profit or loss when an asset is newly originated.

When the fair value of financial assets and liabilities differs from the transaction price on initial recognition, the BPI Group recognizes the difference as follows:

- When the fair value is evidenced by a quoted price in an active market for an identical asset or liability (i.e. a Level 1 input) or based on a valuation technique that uses only data from observable markets, the difference is recognized as a gain or loss.
- In all other cases, the difference is deferred, and the timing of recognition of deferred day one profit or loss is determined individually. It is either amortized over the life of the instrument, deferred until the instrument's fair value can be determined using market observable inputs, or realized through settlement.

30.3.2 Financial assets

30.3.2.1 Classification and subsequent measurement

The BPI Group classifies its financial assets in the following measurement categories: at fair value through profit or loss, fair value through other comprehensive income and at amortized cost. The classification requirements for debt and equity instruments are described below:

Debt instruments

Debt instruments are those instruments that meet the definition of a financial liability from the issuer's perspective, such as loans and advances, due from BSP and other banks, government and corporate bonds and other financial receivables.

Classification and subsequent measurement of debt instruments depend on the BPI Group's business model for managing the asset and the cash flow characteristics of the asset.

Based on these factors, the BPI Group classifies its debt instruments into one of the following three measurement categories:

- *Amortized cost*
Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest, and that are not designated at fair value through profit or loss, are measured at amortized cost. The carrying amount of these assets is adjusted by any expected credit loss allowance recognized and measured. Interest income from these financial assets is included in 'Interest income' using the effective interest rate method. Amortized cost financial assets include cash and other cash items, due from BSP, due from other banks, interbank loans receivables and SPAR, loans and advances, and other financial assets.
- *Fair value through other comprehensive income (FVOCI)*
Financial assets that are held for collection of contractual cash flows and for selling the assets, where the assets' cash flows represent solely payments of principal and interest, and that are not designated at FVTPL, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through other comprehensive income, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses on the instrument's amortized cost which are recognized in the statements of income. When the financial asset is derecognized, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss. Interest income from these financial assets is included in 'Interest income' using the effective interest rate method.
- *Fair value through profit or loss (FVTPL)*
Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognized in profit or loss and presented in the statements of income within 'Trading gain on securities' in the period in which it arises, unless it arises from debt instruments that were designated at fair value or which are not held for trading, in which case they are presented separately.

Business model

The business model reflects how the BPI Group manages the assets in order to generate cash flows. That is, whether the BPI Group's objective is solely to collect the contractual cash flows from the assets or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable, then the financial assets are classified and measured at fair value through profit or loss. Factors considered by the BPI Group in determining the business model for a group of assets include past experience on how the cash flows for these assets were collected, how the asset's performance is evaluated and reported to key management personnel, how risks are assessed and managed and how managers are compensated.

Solely Payment of Principal and Interest

Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the BPI Group assesses whether the financial instruments' cash flows represent solely payments of principal and interest (the 'SPPI test'). In making this assessment, the BPI Group considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss.

The BPI Group reclassifies debt investments when and only when its business model for managing those assets changes. The reclassification takes place from the start of the first reporting period following the change. Such changes are expected to be very infrequent and none occurred during the period.

Equity instruments

Equity instruments are instruments that meet the definition of equity from the issuer's perspective; that is, instruments that do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets.

The BPI Group subsequently measures all equity investments at fair value through profit or loss, except where the BPI Group's management has elected, at initial recognition, to irrevocably designate an equity investment at fair value through other comprehensive income. The BPI Group's policy is to designate equity investments as FVOCI when those investments are held for purposes other than to generate investment returns. When this election is used, fair value gains and losses are recognized in other comprehensive income and are not subsequently reclassified to profit or loss, even on disposal. Impairment losses (and reversal of impairment losses) are not reported separately from other changes in fair value. Dividends, when representing a return on such investments, continue to be recognized in profit or loss as 'Other income' when the BPI Group's right to receive payments is established. Gains and losses on equity investments at fair value through profit or loss are included in the 'Trading gain on securities' in the statements of income.

30.3.2.2 Impairment of amortized cost and FVOCI financial assets

The BPI Group assesses impairment as follows:

- individually for loans that exceed specified thresholds. Where there is objective evidence of impairment, individually assessed provisions will be recognized; and
- collectively for loans below the specified thresholds noted above or if there is no objective evidence of impairment. These loans are included in a group of loans with similar risk characteristics and collectively assessed for impairment. If there is objective evidence that the group of loans is collectively impaired, collectively assessed provisions will be recognized.

Expected credit losses

The BPI Group assesses on a forward-looking basis the ECL associated with its debt instrument assets carried at amortized cost and FVOCI and with the exposure arising from loan commitments. The BPI Group recognizes a loss allowance for such losses at each reporting date. The measurement of ECL reflects:

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- the time value of money; and
- reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

PFRS 9 outlines a ‘three-stage’ model for impairment based on changes in credit quality since initial recognition as summarized below:

- A financial instrument that is not credit-impaired on initial recognition is classified in “Stage 1” and has its credit risk continuously monitored by the BPI Group.
- If a significant increase in credit risk since initial recognition is identified, the financial instrument is moved to “Stage 2” but is not yet deemed to be credit-impaired. The BPI Group determines SICR based on prescribed benchmarks approved by the Board of the Directors.
- If the financial instrument is credit-impaired, the financial instrument is then moved to “Stage 3”.
- Financial instruments in Stage 1 have their ECL measured at an amount equal to the portion of lifetime expected credit losses that results from default events possible within the next 12 months. Instruments in Stages 2 or 3 have their ECL measured based on expected credit losses on a lifetime basis.
- A pervasive concept in measuring ECL in accordance with PFRS 9 is that it should consider forward-looking information.
- POCI financial assets are those financial assets that are credit impaired on initial recognition. Their ECL is always measured on a lifetime basis (Stage 3). The BPI Group has no POCI as at December 31, 2020 and 2019.

For expected credit loss provisions modelled on a collective basis, a grouping of exposures is performed on the basis of shared risk characteristics, such that risk exposures within a group are homogeneous.

Determination of SICR

The BPI Group compares the probabilities of default occurring over its expected life as at the reporting date with the PD occurring over its expected life on the date of initial recognition to determine SICR. Since comparison is made between forward-looking information at reporting date against initial recognition, the deterioration in credit risk may be triggered by the following factors:

- substantial deterioration in credit quality as measured by the applicable internal or external ratings or credit score or the shift from investment grade category to non-investment grade category;
- adverse changes in business, financial and/or economic conditions of the borrower;
- early warning signs of worsening credit where the ability of the counterparty to honor his obligation is dependent upon the business or economic condition;
- the account has become past due beyond 30 days where an account is classified under special monitoring category (refer to Note 26.1.2 for the description of special monitoring); and
- expert judgment for the other quantitative and qualitative factors which may result to SICR as defined by the BPI Group.

Measuring ECL - Inputs, assumptions and estimation techniques

The ECL is measured on either a 12-month or lifetime basis depending on whether a significant increase in credit risk has occurred since initial recognition or whether an asset is considered to be credit-impaired. Expected credit losses are the discounted product of the PD, EAD and LGD, defined as follows:

- The PD represents the likelihood that the borrower will default (as per “Definition of default and credit-impaired” above), either over the next 12 months (12M PD), or over the remaining life (lifetime PD) of the asset.

- EAD is based on the amounts the BPI Group expects to be owed at the time of default, over the next 12 months (12M EAD) or over the remaining life (lifetime EAD). For example, for a revolving commitment, the BPI Group includes the current drawn balance plus any further amount that is expected to be drawn up to the current contractual limit by the time of default, should it occur.

The 12-month and lifetime EADs are determined based on the expected payment profile, which varies by product type.

- For amortizing products and bullet repayment loans, this is based on the contractual repayments owed by the borrower over a 12-month or lifetime basis.
- For committed credit lines, the EAD is predicted by taking current drawn balance and adding a “credit conversion factor” which allows for the expected drawdown of the remaining limit by the time of default.
- LGD represents the BPI Group’s expectation of the extent of loss on a defaulted exposure. LGD varies by type of counterparty, type and seniority of claim and availability of collateral or other credit support. LGD is expressed as a percentage loss per unit of exposure at the time of default.

The LGDs are determined based on the factors which impact the recoveries made post-default.

- For secured products, this is primarily based on collateral type and projected collateral values, historical discounts to market/book values due to forced sales, time to repossession and recovery costs observed.
- For unsecured products, LGDs are typically set at product level due to the limited differentiation in recoveries achieved across different borrowers. These LGDs are influenced by collection strategies and historical recoveries.

The ECL is determined by multiplying the PD, LGD and EAD together for each individual exposure or collective segment. This effectively calculates an ECL for each future year, which is then discounted back to the reporting date and summed. The discount rate used in the ECL calculation is the original effective interest rate or an approximation thereof.

The lifetime PD is developed by applying a maturity profile to the current 12M PD. The maturity profile looks at how defaults develop on a portfolio from the point of initial recognition throughout the life of the loans. The maturity profile is based on historical observed data and is assumed to be the same across all assets within a portfolio and credit grade band.

Forward-looking economic information is also included in determining the 12-month and lifetime PD. These assumptions vary by product type.

The assumptions underlying the ECL calculation - such as how the maturity profile of the PDs and how collateral values change - are monitored and reviewed regularly.

There have been no significant changes in estimation techniques or significant assumptions made during the reporting period from the time of the adoption of PFRS 9 on January 1, 2018 to the reporting date.

Forward-looking information incorporated in the ECL models

The BPI Group incorporates historical and current information, and forecasts forward-looking events and key economic variables that are assessed to impact credit risk and expected credit losses for each portfolio. MEVs that affect a specific portfolio’s non-performing loan rate(s) are determined through statistical modelling and the application of expert judgment. The BPI Group’s economics team establishes possible global and domestic economic scenarios. With the use of economic theories and conventions, expert judgment and external forecasts, the economics team develops assumptions to be used in forecasting variables in the next five (5) years, subsequently reverting to long run-averages. The probability-weighted ECL is calculated by running each scenario through the relevant ECL models and multiplying it by the appropriate scenario weighting.

The estimation and application of forward-looking information requires significant judgment. As with any economic forecasts, the projections and likelihood of occurrences are subject to a high degree of inherent uncertainty and therefore the actual outcomes may be significantly different to those projected. The scenarios and their attributes are reassessed at each reporting date. Information regarding the forward-looking economic variables and the relevant sensitivity analysis is disclosed in Note 26.

Financial assets with low credit risk

Loss allowance for financial assets at amortized cost and FVOCI that have low credit risk is limited to 12-month expected credit losses. Management considers “low credit risk” for listed government bonds to be an investment grade credit rating with at least one major rating agency. Other debt instruments are considered to be low credit risk when they have a low risk of default and the issuer has a strong capacity to meet its contractual cash flow obligations in the near term.

Definition of default and credit-impaired assets

The BPI Group considers a financial instrument in default or credit-impaired, when it meets one or more of the following criteria:

Quantitative criteria

The borrower is more than 90 days past due on its contractual payments (with the exception of credit cards and micro-finance loans where a borrower is required to be 90 days past due and over 7 days past due, respectively, to be considered in default).

Qualitative criteria

The counterparty is experiencing significant financial difficulty which may lead to non-payment of loan as may be indicated by any or combination of the following events:

- The counterparty is in long-term forbearance;
- The counterparty is insolvent;
- The counterparty is in breach of major financial covenant(s) which lead(s) to event of default;
- An active market for the security has disappeared;
- Granting of concession that would not be otherwise considered due to economic or contractual reasons relating to the counterparty's financial difficulty;
- It is becoming probable that the counterparty will enter bankruptcy or other financial reorganization; and
- Financial assets are purchased or originated at a deep discount that reflects the incurred credit losses.

The criteria above have been applied to all financial instruments held by the BPI Group and are consistent with the definition of default used for internal credit risk management purposes. The default definition has been applied consistently to model the PD, EAD, and LGD throughout the BPI Group's expected credit loss calculations.

The BPI Group's definition of default is substantially consistent with non-performing loan definition of the BSP. For cross-border, treasury and debt securities, these are classified as defaulted based on combination of BSP and external credit rating agency definitions.

30.3.3 Modification of loans

The BPI Group sometimes renegotiates or otherwise modifies the contractual cash flows of loans to customers. When this happens, the BPI Group assesses whether or not the new terms are substantially different to the original terms. The BPI Group does this by considering, among others, the following factors:

- If the borrower is in financial difficulty, whether the modification merely reduces the contractual cash flows to amounts the borrower is expected to be able to pay.
- Significant extension of the loan term when the borrower is not in financial difficulty.
- Significant change in the interest rate.
- Change in the currency the loan is denominated in.
- Insertion of collateral, other security or credit enhancements that significantly affect the credit risk associated with the loan.

If the terms are substantially different, the BPI Group derecognizes the original financial asset and recognizes a 'new' asset at fair value and recalculates a new effective interest rate for the asset. The date of renegotiation is consequently considered to be the date of initial recognition for impairment calculation purposes, including for the purpose of determining whether a significant increase in credit risk has occurred. However, the BPI Group also assesses whether the new financial asset recognized is deemed to be credit-impaired at initial recognition, especially in circumstances where the renegotiation was driven by the debtor being unable to make the originally agreed payments. Differences in the carrying amount are also recognized in the statements of income as a gain or loss on derecognition.

If the terms are not substantially different, the BPI Group recalculates the gross carrying amount of the financial asset and recognizes a modification gain or loss in the statement of income. The gross carrying amount of the financial asset shall be recalculated as the present value of the renegotiated or modified contractual cash flows that are discounted at the financial asset's original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets).

Loan modifications in compliance with the Bayanihan Acts I and II, is treated in line with BPI Group's policies discussed above.

30.3.4 Derecognition of financial assets other than modification

Financial assets, or a portion thereof, are derecognized when the contractual rights to receive the cash flows from the assets have expired, or when they have been transferred and either (i) the BPI Group transfers substantially all the risks and rewards of ownership, or (ii) the BPI Group neither transfers nor retains substantially all the risks and rewards of ownership and the BPI Group has not retained control.

The BPI Group enters into transactions where it retains the contractual rights to receive cash flows from assets but assumes a contractual obligation to pay those cash flows to other entities and transfers substantially all of the risks and rewards. These transactions are accounted for as 'pass through' transfers that result in derecognition if the BPI Group:

- Has no obligation to make payments unless it collects equivalent amounts from the assets;
- Is prohibited from selling or pledging the assets; and
- Has an obligation to remit any cash it collects from the assets without material delay.

Collateral (shares and bonds) furnished by the BPI Group under standard repurchase agreements and securities lending and borrowing transactions are not derecognized because the BPI Group retains substantially all the risks and rewards on the basis of the predetermined repurchase price, and the criteria for derecognition are therefore not met.

30.3.5 Write-off of financial assets

The BPI Group writes off financial assets when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include (i) ceasing enforcement activity and (ii) where the BPI Group's recovery method is foreclosing on collateral and the value of the collateral is such that there is no reasonable expectation of recovering in full.

The BPI Group may write-off financial assets that are still subject to enforcement activity. The write-off of loans is approved by the BOD in compliance with the BSP requirements. Loans written-off are fully covered with allowance.

Recoveries on charged-off assets

Collections on accounts or recoveries from impaired financial assets previously written off are recognized in profit or loss under Miscellaneous income in the period where the recovery transaction occurs.

30.3.6 Financial liabilities

30.3.6.1 Classification of financial liabilities

The BPI Group classifies its financial liabilities in the following categories: financial liabilities at fair value through profit or loss and financial liabilities at amortized cost.

(a) Financial liabilities at fair value through profit or loss

This category comprises two sub-categories: financial liabilities classified as held for trading, and financial liabilities designated by the BPI Group as at fair value through profit or loss upon initial recognition.

A financial liability is classified as held for trading if it is acquired or incurred principally for the purpose of selling or repurchasing it in the near term or if it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking. Derivatives are also categorized as held for trading unless they are designated and effective as hedging instruments. Gains and losses arising from changes in fair value of financial liabilities classified as held for trading are included in the statements of income and are reported as "Trading gains/losses on securities". The BPI Group has no financial liabilities that are designated at fair value through profit loss.

(b) Other liabilities measured at amortized cost

Financial liabilities that are not classified as at fair value through profit or loss fall into this category and are measured at amortized cost. Financial liabilities measured at amortized cost include deposits from customers and banks, bills payable, amounts due to BSP and other banks, manager's checks and demand drafts outstanding, subordinated notes and other financial liabilities under deferred credits and other liabilities.

30.3.6.2 Subsequent measurement and derecognition

Financial liabilities at fair value through profit or loss are subsequently carried at fair value. Other liabilities are measured at amortized cost using the effective interest method.

Financial liabilities are derecognized when they have been redeemed or otherwise extinguished (i.e. when the obligation is discharged or is cancelled or has expired). Collateral (shares and bonds) furnished by the BPI Group under standard repurchase agreements and securities lending and borrowing transactions is not derecognized because the BPI Group retains substantially all the risks and rewards on the basis of the predetermined repurchase price, and the criteria for derecognition are therefore not met.

30.3.7 Loan commitments

Loan commitments are contracts in which the BPI Group is required to provide loans with pre-specified terms to customers. These contracts, which are not issued at below-market interest rates and are not settled net in cash or by delivering or issuing another financial instrument, are not recorded in the statements of condition.

30.3.8 Derivative financial instruments

A derivative instrument is initially recognized at fair value on the date a derivative contract is entered into, and is subsequently remeasured to its fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument or is held for trading.

Changes in the fair value of any derivative instrument that does not qualify for hedge accounting (and therefore, held for trading) are recognized immediately in profit or loss and are included in "Trading gain on securities".

Hedge accounting

The BPI Group designates derivatives as either:

- hedges of the fair value of recognized assets or liabilities or a firm commitment (fair value hedges)
- hedges of a particular risk associated with the cash flows of recognized assets and liabilities and highly probable forecast transactions (cash flow hedges), or
- hedges of a net investment in a foreign operation (net investment hedges).

At inception of the hedge relationship, the BPI Group documents the economic relationship between hedging instruments and hedged items, including whether changes in the cash flows of the hedging instruments are expected to offset changes in the cash flows of hedged items. The BPI Group documents its risk management objective and strategy for undertaking its hedge transactions.

As disclosed in Note 7, the BPI Group has existing cash flow hedge activity. There are no fair value hedges or net investment hedges as of reporting date.

Cash flow hedges that qualify for hedge accounting

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in the "Cash flow hedge reserve" within equity. The gain or loss relating to the ineffective portion is recognized immediately in profit or loss, within "Other operating income".

When the group excludes the forward element of a forward contract and foreign currency basis spread of financial instruments in the hedge designation, the fair value change of the forward element and currency basis spread that relates to the hedged item ('aligned forward element/currency basis spread') is recognized within OCI in the costs of hedging reserve within equity. If the group designates the full change in fair value of the derivative (including forward points and currency basis spreads) the gains or losses relating to the effective portion of the change in fair value of the entire derivative are recognized in the cash flow hedge reserve within equity.

Amounts accumulated in equity are reclassified to profit or loss within other operating income in the same periods during which the hedged future cash flows affect profit or loss. However, if the amount is a loss and the BPI Group expects that all or a portion of that loss will not be recovered in one or more future periods, the amount that is not expected to be recovered shall immediately be reclassified to profit or loss.

When a hedging instrument expires, or is sold or terminated, or when a hedge no longer meets the criteria for hedge accounting, any cumulative deferred gain or loss and deferred costs of hedging in equity at that time shall be reclassified to profit or loss in the same periods during which the future cash flows affect profit or loss. When the future cash flows are no longer expected to occur, the cumulative gain or loss and deferred costs of hedging that were reported in equity are immediately reclassified to profit or loss.

30.3.8.1 Embedded derivatives

Certain derivatives are embedded in hybrid contracts, such as the conversion option in a convertible bond. If the hybrid contract contains a host that is a financial asset, then the BPI Group assesses the entire contract for classification and measurement in accordance with the policy outlined in Note 30.3.2 above. Otherwise, the embedded derivatives are treated as separate derivatives when:

- Their economic characteristics and risks are not closely related to those of the host contract;
- A separate instrument with the same terms would meet the definition of a derivative; and
- The hybrid contract is not measured at fair value through profit or loss.

These embedded derivatives are separately accounted for at fair value, with changes in fair value recognized in the statements of income unless the BPI Group chooses to designate the hybrid contracts at fair value through profit or loss.

30.3.9 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value of a non-financial asset is measured based on its highest and best use. The asset's current use is presumed to be its highest and best use.

The fair value of financial and non-financial liabilities takes into account non-performance risk, which is the risk that the entity will not fulfill an obligation.

The BPI Group classifies its fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities. This level includes listed equity securities and debt instruments on exchanges (for example, PSE, Philippine Dealing and Exchange Corp., etc.).
- Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices). This level includes the majority of the over-the-counter (OTC) derivative contracts. The primary source of input parameters like LIBOR yield curve or counterparty credit risk is Bloomberg.
- Level 3 - Inputs for the asset or liability that are not based on observable market data (unobservable inputs). This level includes equity investments and debt instruments with significant unobservable components. This hierarchy requires the use of observable market data when available. The BPI Group considers relevant and observable market prices in its valuations where possible. The BPI Group has no assets or liabilities classified under Level 3 as at and for the year ended December 31, 2020 and 2019.

30.3.10 Interest income and expense

Interest income and expense are recognized in profit or loss for all interest-bearing financial instruments using the effective interest method.

The effective interest method is a method of calculating the amortized cost of a financial asset or a financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability.

When calculating the effective interest rate, the BPI Group estimates cash flows considering all contractual terms of the financial instrument but does not consider future credit losses. The calculation includes all fees paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts.

Once a financial asset or a group of similar financial assets have been written down as a result of an impairment loss, interest income is recognized using the rate of interest used to discount the future cash flows for the purpose of measuring impairment loss.

30.3.11 Dividend income

Dividend income is recognized in profit or loss when the BPI Group's right to receive payment is established.

30.3.12 Offsetting of financial instruments

Financial assets and liabilities are offset and the net amount reported in the statements of condition when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

As at December 31, 2020 and 2019, there are no financial assets and liabilities presented at net amounts due to offsetting.

30.3.13 Cash and cash equivalents

Cash and cash equivalents consist of Cash and other cash items, Due from BSP, Due from other banks, and Interbank loans receivable and securities purchased under agreements to resell (SPAR) with maturities of less than three months from the date of acquisition and that are subject to insignificant risk of changes in value.

30.3.14 Repurchase and reverse repurchase agreements

Securities sold subject to repurchase agreements ('repos') are reclassified in the financial statements as pledged assets when the transferee has the right by contract or custom to sell or repledge the collateral; the counterparty liability is included in deposits from banks or deposits from customers, as appropriate. The difference between sale and repurchase price is treated as interest and accrued over the life of the agreements using the effective interest method.

Securities purchased under agreements to resell ('reverse repos') are recorded as loans and advances to other banks and customers and included in the statement of condition under "Interbank loans receivable and securities purchased under agreements to resell". Securities lent to counterparties are also retained in the financial statements.

30.4 Consolidation

The subsidiaries financial statements are prepared for the same reporting year as the consolidated financial statements. Refer to Note 1 for the list of the Parent Bank's subsidiaries.

(a) Subsidiaries

Subsidiaries are all entities over which the BPI Group has control. The BPI Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The BPI Group also assesses existence of control where it does not have more than 50% of the voting power but is able to govern the financial and operating policies by virtue of de-facto control. De-facto control may arise in circumstances where the size of the BPI Group's voting rights relative to the size and dispersion of holdings of other shareholders give the BPI Group the power to govern the financial and operating policies.

Subsidiaries are fully consolidated from the date on which control is transferred to the BPI Group. They are de-consolidated from the date that control ceases.

The BPI Group applies the acquisition method of accounting to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the BPI Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Acquisition-related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. On an acquisition-by-acquisition basis, the BPI Group recognizes any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through profit or loss.

Any contingent consideration to be transferred by the BPI Group is recognized at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognized in accordance with PFRS 9 either in profit or loss or as a change to other comprehensive income. Contingent consideration that is classified as equity is not re-measured, and its subsequent settlement is not accounted for within equity.

The excess of the aggregate of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the BPI Group's share of the identifiable net assets acquired is recorded as goodwill. If the total of consideration transferred, non-controlling interest recognized and previously held interest measured is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognized directly in profit or loss.

Inter-company transactions, balances and unrealized gains on transactions between group companies are eliminated. Unrealized losses are also eliminated. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the BPI Group, except for the pre-need subsidiary which follows the provisions of the PNUCA as allowed by the SEC.

When the BPI Group ceases to have control, any retained interest in the entity is re-measured to its fair value at the date when control is lost, with the change in carrying amount recognized in profit or loss. The fair value is the initial carrying amount for purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognized in other comprehensive income in respect of that entity are accounted for as if the BPI Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognized in other comprehensive income are reclassified to profit or loss.

If the Parent Bank loses control of a subsidiary, the Parent Bank:

- derecognizes the assets and liabilities of the former subsidiary from the consolidated statement of financial position.
- recognizes any investment retained in the former subsidiary and subsequently accounts for it and for any amounts owed by or to the former subsidiary in accordance with relevant PFRSs. The remeasured value at the date that control is lost shall be regarded as the fair value on initial recognition of a financial asset in accordance with PFRS 9 or the cost on initial recognition of an investment in an associate or joint venture, if applicable.
- recognizes the gain or loss associated with the loss of control attributable to the former controlling interest.

(b) Transactions with non-controlling interests

Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions - that is, as transactions with the owners in their capacity as owners. For purchases from non-controlling interests, the difference between any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests other than those related to discontinued operation are also recorded in equity.

Interests in the equity of subsidiaries not attributable to the Parent Bank are reported in consolidated equity as non-controlling interests. Profits or losses attributable to non-controlling interests are reported in the statements of income as net income (loss) attributable to non-controlling interests.

(c) Associates

Associates are all entities over which the BPI Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in associates in the consolidated financial statements are accounted for using the equity method of accounting. Under the equity method, the investment is initially recognized at cost and the carrying amount is increased or decreased to recognize the investor's share of the profit or loss of the investee after the date of acquisition.

If the ownership interest in an associate is reduced but significant influence is retained, a proportionate share of the amounts previously recognized in other comprehensive income is reclassified to profit or loss where appropriate.

The BPI Group's share of its associates' post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in reserves is recognized in other comprehensive income. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the BPI Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the BPI Group does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.

The BPI Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If this is the case, the BPI Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognizes the amount adjacent to 'share of profit (loss) of an associate' in profit or loss.

Unrealized gains on transactions between the BPI Group and its associates are eliminated to the extent of the BPI Group's interest in the associates. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the BPI Group.

(d) Business combination between entities under common control

Business combinations under common control are accounted for using the pooling of interest method following the guidance under the PIC Q&A No. 2018-01. Under this method, the Parent Bank does not restate the acquired businesses or assets and liabilities to their fair values. The net assets of the combining entities or businesses are combined using the carrying amounts of assets and liabilities of the acquired entity. No amount is recognized in consideration for goodwill or the excess of acquirer's interest in the net fair value of acquired identifiable assets, liabilities and contingent liabilities over their cost at the time of the common control combination.

30.5 Investments in subsidiaries and associates

Investments in subsidiaries and associates in the Parent Bank's separate financial statements are accounted for using the cost method in accordance with PAS 27. Under this method, income from investment is recognized in profit or loss only to the extent that the investor receives distributions from accumulated profits of the investee arising after the acquisition date. Distributions received in excess of such profits are regarded as a recovery of investment and are recognized as reduction of the cost of the investment.

The Parent Bank recognizes a dividend from a subsidiary or associate in profit or loss in its separate financial statements when its right to receive the dividend is established.

The Parent Bank determines at each reporting date whether there is any indicator of impairment that the investment in the subsidiary or associate is impaired. If this is the case, the Parent Bank calculates the amount of impairment as the difference between the recoverable amount and carrying value and the difference is recognized in profit or loss.

Investments in subsidiaries and associates are derecognized upon disposal or when no future economic benefits are expected to be derived from the subsidiaries and associates at which time the cost and the related accumulated impairment loss are removed in the statements of condition. Any gains and losses on disposal are determined by comparing the proceeds with the carrying amount of the investment and recognized in profit or loss.

30.6 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief executive officer who allocates resources to, and assesses the performance of the operating segments of the BPI Group.

All transactions between business segments are conducted on an arm's length basis, with intra-segment revenue and costs being eliminated upon consolidation. Income and expenses directly associated with each segment are included in determining business segment performance.

In accordance with PFRS 8, the BPI Group has the following main banking business segments: consumer banking, corporate banking and investment banking. Its insurance business is assessed separately from these banking business segments (Note 3).

30.7 Bank premises, furniture, fixtures and equipment

Land and buildings comprise mainly of branches and offices. All bank premises, furniture, fixtures and equipment are stated at historical cost less accumulated depreciation and impairment loss, if any. Historical cost includes expenditure that is directly attributable to the acquisition of an asset which comprises its purchase price, import duties and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Subsequent costs are included in the asset's carrying amount or are recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the BPI Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to profit or loss during the year in which they are incurred.

Land is carried at historical cost and is not depreciated. Depreciation for buildings and furniture and equipment is calculated using the straight-line method to allocate cost or residual values over the estimated useful lives of the assets, as follows:

Building	25-50 years
Furniture and equipment	3-5 years
Equipment for lease	2-8 years

Leasehold improvements are depreciated over the shorter of the lease term (ranges from 5 to 10 years) and the useful life of the related improvement (ranges from 5 to 10 years). Major renovations are depreciated over the remaining useful life of the related asset.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date. Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. There are no bank premises, furniture, fixtures and equipment that are fully impaired as at December 31, 2020 and 2019.

An item of Bank premises, furniture, fixtures and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in profit or loss in the period the item is derecognized.

30.8 Investment properties

Properties that are held either to earn rental income or for capital appreciation or both, and that are not significantly occupied by the BPI Group are classified as investment properties. Transfers to, and from, investment property are made when, and only when, there is a change in use, evidenced by:

- (a) Commencement of owner-occupation, for a transfer from investment property to owner-occupied property;
- (b) Commencement of development with a view of sale, for a transfer from investment property to real properties held-for-sale and development;
- (c) End of owner occupation, for a transfer from owner-occupied property to investment property; or
- (d) Commencement of an operating lease to another party, for a transfer from real properties held-for-sale and development to investment property.

Transfers to and from investment property do not result in gain or loss.

Investment properties comprise land and building. Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and impairment losses, if any. Depreciation on investment property is determined using the same policy as applied to Bank premises, furniture, fixtures, and equipment. Impairment test is conducted when there is an indication that the carrying amount of the asset may not be recovered. An impairment loss is recognized for the amount by which the property's carrying amount exceeds its recoverable amount, which is the higher of the property's fair value less costs to sell and value in use.

An item of investment property is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gains and losses arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in profit or loss in the period the item is derecognized.

30.9 Foreclosed assets

Assets foreclosed shown as Assets held for sale in the statements of condition are accounted for at the lower of cost and fair value less cost to sell similar to the principles of PFRS 5. The cost of assets foreclosed includes the carrying amount of the related loan. Impairment loss is recognized for any subsequent write-down of the asset to fair value less cost to sell.

Foreclosed assets not classified as Assets held for sale are accounted for in any of the following classification using the measurement basis appropriate to the asset as follows:

- (a) Investment property is accounted for using the cost model under PAS 40;
- (b) Bank-occupied property is accounted for using the cost model under PAS 16; and
- (c) Financial assets are accounted for under PFRS 9.

When foreclosed assets are recovered through a sale transaction, the gain or loss recognized from the difference between the carrying amount of the foreclosed asset disposed and the net disposal proceeds is recognized in profit or loss.

30.10 Discontinued operations

A discontinued operation is a component of the BPI Group that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single coordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in the statement of income, statement of total comprehensive income and statement of cash flows. Likewise, prior year balances of such statements are restated in accordance with the provisions of PFRS 5. The details of the discontinued operations are disclosed in Note 12.

30.11 Intangible assets

(a) Goodwill

Goodwill represents the excess of the cost of an acquisition over the fair value of the BPI Group's share in the net identifiable assets of the acquired subsidiary/associate at the date of acquisition. Goodwill on acquisitions of subsidiaries is included under Other assets, net in the statements of condition. Goodwill on acquisitions of associates is included in Investments in subsidiaries and associates. Separately recognized goodwill is carried at cost less accumulated impairment losses. Gains and losses on the disposal of a subsidiary/associate include carrying amount of goodwill relating to the subsidiary/associate sold.

Goodwill is an indefinite-lived intangible asset and hence not subject to amortization.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. Each cash-generating unit is represented by each primary reporting segment.

Goodwill impairment reviews are undertaken annually or more frequently if events or changes in circumstances indicate a potential impairment. The carrying value of goodwill is compared to the recoverable amount, which is the higher of value in use and the fair value less costs to sell. Any impairment is recognized immediately as an expense and is not subsequently reversed.

(b) Contractual customer relationships

Contractual customer relationships acquired in a business combination are recognized at fair value at the acquisition date. The contractual customer relationships have finite useful lives of ten years and are carried at cost less accumulated amortization. Amortization is calculated using the straight-line method over the expected life of the customer relationship. Contractual customer relationships are included under Other assets, net in the statements of condition.

(c) Computer software

Acquired computer software licenses are capitalized on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortized on a straight-line basis over the expected useful lives (three to five years). Computer software is included under Other assets, net in the statements of condition.

Costs associated with maintaining computer software programs are recognized as an expense as incurred. Development costs that are directly attributable to the design and testing of identifiable and unique software products controlled by the BPI Group are recognized as intangible assets when the following criteria are met:

- it is technically feasible to complete the software product so that it will be available for use;
- management intends to complete the software product and use or sell it;
- there is an ability to use or sell the software product;
- it can be demonstrated how the software product will generate probable future economic benefits;
- adequate technical, financial and other assets to complete the development and to use or sell the software product are available; and
- the expenditure attributable to the software product during its development can be reliably measured.

Directly attributable costs that are capitalized as part of the software product include the software development employee costs and an appropriate portion of relevant overheads.

Other development expenditures that do not meet these criteria are recognized as an expense when incurred. Development costs previously recognized as an expense are not recognized as an asset in a subsequent period.

(d) Management contracts

Management contracts are recognized at fair value at the acquisition date. They have a finite useful life of five years and are subsequently carried at cost less accumulated amortization and impairment losses, if any. Amortization is calculated using the straight-line method over the estimated useful life of the contract. Management contracts are included under Other assets in the statement of condition.

30.12 Impairment of non-financial assets

Assets that have indefinite useful lives - for example, goodwill or intangible assets not ready for use - are not subject to amortization and are tested annually for impairment and more frequently if there are indicators of impairment. Assets that have definite useful lives are subject to amortization and are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units).

Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of impairment at each reporting date.

30.13 Borrowings and borrowing costs

The BPI Group's borrowings consist mainly of bills payable and other borrowed funds. Borrowings are recognized initially at fair value, which is the issue proceeds, net of transaction costs incurred. Borrowings are subsequently carried at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in profit or loss over the period of the borrowings using the effective interest method.

Borrowing costs that are directly attributable to the acquisition, construction, or production of a qualifying asset are capitalized as part of the cost of the asset. All other borrowing costs are expensed as incurred. The BPI Group has no qualifying asset as at December 31, 2020 and 2019.

Borrowings derecognized when the obligation specified in the contract is discharged, cancelled, or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in the Statements of Income as other income.

30.14 Fees and commission income

The BPI Group has applied PFRS 15 where revenue is recognized when (or as) The BPI Group satisfies a performance obligation by transferring a promised good or service to a customer (i.e. an asset). An asset is transferred when (or as) the customer obtains control of that asset.

The recognition of revenue can be either over time or at a point in time depending on when the performance obligation is satisfied.

When control of a good or service is transferred over time, that is, when the customer simultaneously receives and consumes the benefits, the BPI Group satisfies the performance obligation and recognizes revenue over time. Otherwise, revenue is recognized at the point in time at the point of transfer control of the good or service to the customer.

Variable consideration is measured using either the expected value method or the most likely amount method depending on which method the BPI Group expects to better predict the amount of consideration to which it will be entitled. This is the estimated amount of variable consideration, or the portion, if any, of that amount for which it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur. Where there is a single performance obligation, the transaction price is allocated in its entirety to that performance obligation. Where there are multiple performance obligations, the transaction price is allocated to the performance obligation to which it relates based on stand-alone selling prices.

The BPI Group recognizes revenue based on the price specified in the contract, net of the estimated rebates/discounts and include variable consideration, if there is any. Accumulated experience is used to estimate and provide for the discounts and revenue is only recognized to the extent that it is highly probable that a significant reversal will not occur.

The BPI Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the BPI Group does not adjust any of the transaction prices for the time value of money.

There are no warranties and other similar obligation and refunds agreed with customers.

Commission and fees arising from negotiating or participating in the negotiation of a transaction for a third party (i.e. the arrangement of the acquisition of shares or other securities, or the purchase or sale of businesses) are recognized on completion of underlying transactions. Portfolio and other management advisory and service fees are recognized based on the applicable service contracts, usually on a time-proportionate basis. Asset management fees related to investment funds are recognized ratably over the period in which the service is provided.

30.15 Credit card income

Credit card arrangements involve numerous contracts between various parties. The BPI Group has determined that the more significant contracts within the scope of PFRS 15 are (1) the contract between the BPI Group and the credit card holder ('Cardholder Agreement') under which the BPI Group earn miscellaneous fees (e.g., annual membership fees, late payment fees, foreign exchange fees, etc.) and (2) an implied contract between the BPI Group and merchants who accept the credit cards in connection with the purchase of their goods and/or services ('Merchant Agreement') under which the BPI Group earn interchange fees.

The Cardholder Agreement obligates the BPI Group, as the card issuer, to perform activities such as process redemption of loyalty points by providing goods, services, or other benefits to the cardholder; provide ancillary services such as concierge services, travel insurance, airport lounge access and the like; process late payments; provide foreign exchange services and others. The amount of fees stated in the contract represents the transaction price for that performance obligation.

The implied contract between the BPI Group and the merchant results in the BPI Group receiving an interchange fee from the merchant. The interchange fee represents the transaction price associated with the implied contract between the BPI Group and the merchant because it represents the amount of consideration to which the BPI Group expects to be entitled in exchange for transferring the promised service (i.e., purchase approval and payment remittance) to the merchant. The performance obligation associated with the implied contract between the BPI Group and the merchant is satisfied upon performance and simultaneous consumption by the customer of the underlying service. Therefore, a portion of the interchange fee is allocated to the performance obligations based on stand-alone transaction price and revenue is recognized when these performance obligations are satisfied.

30.16 Foreign currency translation

(a) Functional and presentation currency

Items in the financial statements of each entity in the BPI Group are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The financial statements are presented in Philippine Peso, which is the Parent Bank's functional and presentation currency.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in profit or loss. Non-monetary items measured at historical cost denominated in a foreign currency are translated at exchange rates as at the date of initial recognition. Non-monetary items in a foreign currency that are measured at fair value are translated using the exchange rates at the date when the fair value is determined.

Changes in the fair value of monetary securities denominated in foreign currency classified as financial assets at FVOCI are analyzed between translation differences resulting from changes in the amortized cost of the security, and other changes in the carrying amount of the security. Translation differences are recognized in profit or loss, and other changes in carrying amount are recognized in other comprehensive income.

Translation differences on non-monetary financial instruments, such as equities held at fair value through profit or loss, are reported as part of the fair value gain or loss recognized under "Trading gain/loss on securities" in the statement of income. Translation differences on non-monetary financial instruments, such as equities classified as financial assets at FVOCI, are included in Accumulated other comprehensive income (loss) in the capital funds.

(c) Foreign subsidiaries

The results and financial position of BPI's foreign subsidiaries (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities are translated at the closing rate at reporting date;
- income and expenses are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- all resulting exchange differences are recognized as a separate component (Currency translation differences) of Accumulated other comprehensive income (loss) in the capital funds. When a foreign operation is sold, such exchange differences are recognized in profit or loss as part of the gain or loss on sale.

(d) Income from foreign exchange trading

Foreign exchange gains and losses arising from trading of foreign currencies are recorded under “Income from foreign exchange trading” in the statement of income. Gains or losses are calculated as the difference between the carrying amount of the asset sold and the net disposal proceeds at the date of sale.

30.17 Accrued expenses and other liabilities

Accrued expenses and other liabilities are recognized in the period in which the related money, goods or services are received or when a legally enforceable claim against the BPI Group is established.

30.18 Provisions for legal or contractual obligations

Provisions are recognized when all of the following conditions are met: (i) the BPI Group has a present legal or constructive obligation as a result of past events; (ii) it is probable that an outflow of resources will be required to settle the obligation; and (iii) the amount has been reliably estimated. Provisions are not recognized for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item is included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects the current market assessments of the time value of money and the risk specific to the obligation. The increase in the provision due to the passage of time is recognized as interest expense.

30.19 Income taxes

(a) Current income tax

Income tax payable is calculated on the basis of the applicable tax law in the respective jurisdiction and is recognized as an expense for the year except to the extent that current tax is related to items (for example, current tax on financial assets at FVOCI) that are charged or credited in other comprehensive income or directly to capital funds.

The BPI Group has substantial income from its investment in government securities subject to final withholding tax. Such income is presented at its gross amount and the final tax paid or withheld is included in Provision for income tax - Current.

(b) Deferred income tax

Deferred income tax is recognized on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. The deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction, other than a business combination, that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted at the reporting date and are expected to apply when the related deferred income tax asset is realized, or the deferred income tax liability is settled.

Deferred income tax assets are recognized for all deductible temporary differences, carry-forward of unused tax losses (net operating loss carryover or NOLCO) and unused tax credits (excess minimum corporate income tax or MCIT) to the extent that it is probable that future taxable profit will be available against which the temporary differences, unused tax losses and unused tax credits can be utilized. Deferred income tax liabilities are recognized in full for all taxable temporary differences except to the extent that the deferred tax liability arises from the initial recognition of goodwill.

The BPI Group reassesses at each reporting date the need to recognize a previously unrecognized deferred income tax asset.

Deferred income tax assets are recognized on deductible temporary differences arising from investments in subsidiaries, and associates and joint arrangements only to the extent that it is probable the temporary difference will reverse in the future and there is sufficient taxable profit available against which the temporary difference can be utilized.

Deferred income tax liabilities are provided on taxable temporary differences arising from investments in subsidiaries, and associates and joint arrangements, except for deferred income tax liability where the timing of the reversal of the temporary difference is controlled by the BPI Group and it is probable that the temporary difference will not reverse in the foreseeable future. Generally, the BPI Group is unable to control the reversal of the temporary difference for associates except when there is an agreement in place that gives the BPI Group the ability to control the reversal of the temporary difference.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

30.20 Employee benefits

(a) Short-term benefits

The BPI Group recognizes a liability net of amount already paid and an expense for services rendered by employees during the accounting period. Short-term benefits given by to its employees include salaries and wages, social security contributions, short-term compensated absences and bonuses, and non-monetary benefits.

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

(b) Defined benefit retirement plan

The BPI Group has a defined benefit plan that shares risks among entities within the group. A defined benefit plan is a pension plan that defines an amount of pension benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and compensation.

The liability recognized in the statement of condition in respect of defined benefit pension plan is the present value of the defined benefit obligation at the reporting date less the fair value of plan assets. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating the terms of the related pension liability.

Defined benefit costs comprise of service cost, net interest on the net defined benefit liability or asset and remeasurements of net defined liability or asset.

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in the statement of income. Past service costs are recognized when the plan amendment or curtailment occurs.

Net interest on the net defined benefit liability or asset is the change during the period in the net defined benefit liability or asset that arises from the passage of time which is determined by applying the discount rate based on government bonds to the net defined benefit liability or asset. Net interest on the net defined benefit liability or asset is recognized as interest income or expense in the statement of income.

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity in other comprehensive income in the period in which they arise.

For individual financial reporting purposes, the unified plan assets are allocated among the BPI Group entities based on the level of the defined benefit obligation attributable to each entity to arrive at the net liability or asset that should be recognized in the individual financial statements.

(c) Defined contribution retirement plan

The BPI Group also maintains a defined contribution plan that covers certain full-time employees. Under its defined contribution plan, the BPI Group pays fixed contributions based on the employees' monthly salaries. The BPI Group, however, is covered under RA No. 7641, otherwise known as The Philippine Retirement Pay Law, which provides for its qualified employees a defined benefit minimum guarantee. The defined benefit minimum guarantee is equivalent to a certain percentage of the monthly salary payable to an employee at normal retirement age with the required credited years of service based on the provisions of RA No. 7641. Accordingly, the BPI Group accounts for its retirement obligation under the higher of the defined benefit obligation relating to the minimum guarantee and the obligation arising from the defined contribution plan.

For the defined benefit minimum guarantee plan, the liability is determined based on the present value of the excess of the projected defined benefit obligation over the projected defined contribution obligation at the end of the reporting period. The defined benefit obligation is calculated annually by a qualified independent actuary using the projected unit credit method. The BPI Group and Parent Bank determine the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the net defined benefit liability (asset) then, taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest and other expenses related to the defined benefit plan are recognized in the statement of income.

The defined contribution liability is measured at the fair value of the defined contribution assets upon which the defined contribution benefits depend, with an adjustment for margin on asset returns, if any, where this is reflected in the defined contribution benefits.

Actuarial gains and losses arising from the remeasurements of the net defined contribution liability are recognized immediately in the other comprehensive income.

(d) Share-based compensation

The BPI Group engages in equity-settled share-based payment transactions in respect of services received from certain employees.

The fair value of the services received is measured by reference to the fair value of the shares or share options granted on the date of the grant. The cost of employee services received in respect of the shares or share options granted is recognized in profit or loss (with a corresponding increase in reserve in capital funds) over the period that the services are received, which is the vesting period.

The fair value of the options granted is determined using option pricing models which take into account the exercise price of the option, the current share price, the risk-free interest rate, the expected volatility of the share price over the life of the option and other relevant factors.

When the stock options are exercised, the proceeds received, net of any directly attributable transaction costs, are credited to share capital (par value) and share premium for the excess of exercise price over par value.

(e) Bonus plans

The BPI Group recognizes a liability and an expense for bonuses and recognizes a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

30.21 Capital funds

Share capital consists of common shares which are instruments that meet the definition of “equity”.

Share premium includes any premiums or consideration received in excess of the total par value of the common shares issued.

Incremental costs directly attributable to the issue of new shares are treated as a deduction from the share issuance proceeds.

30.22 Earnings per share (EPS)

Basic EPS is calculated by dividing income applicable to common shares by the weighted average number of common shares outstanding during the year with retroactive adjustments for stock dividends. In case of a rights issue, an adjustment factor is being considered for the weighted average number of shares outstanding for all periods before the rights issue. Diluted EPS is computed in the same manner as basic EPS, however, net income attributable to common shares and the weighted average number of shares outstanding are adjusted for the effects of all dilutive potential common shares.

30.23 Dividends on common shares

Dividends on common shares are recognized as a liability in the BPI Group’s financial statements in the period in which the dividends are approved by the BOD.

30.24 Fiduciary activities

The BPI Group commonly acts as trustee and in other fiduciary capacities that result in the holding or placing of assets on behalf of individuals, trusts, retirement benefit plans and other institutions. These assets and income arising thereon are excluded from these financial statements, as they are not assets of the BPI Group (Note 24).

30.25 Leases

30.25.1 BPI Group is the lessee

Until December 31, 2018, leases of bank premises, furniture and fixtures and equipment were classified as either finance leases or operating leases. From January 1, 2019, the BPI Group recognizes leases as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use.

From January 1, 2019 (PFRS 16)

Assets and liabilities arising from a lease are initially measured on a present value basis. The interest expense is recognized in the statement of income over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

Measurement of lease liabilities

Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- variable lease payment that are based on an index or a rate;
- amounts expected to be payable by the lessee under residual value guarantees;
- the exercise price of a purchase option if the lessee is reasonably certain to exercise that option; and
- payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the BPI Group, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the BPI Group:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received;
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held for entities which do not have recent third-party financing; and
- makes adjustments specific to the lease (i.e. term, currency and security).

Lease payments are allocated between principal and interest expense. The interest expense is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Measurement of right-of-use assets

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability,
- any lease payments made at or before the commencement date less any lease incentives received,
- any initial direct costs, and
- restoration costs.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the BPI Group is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

In applying PFRS 16 for the first time, the BPI Group has used the following practical expedients permitted by the standard:

- the accounting for operating leases with a remaining lease term of less than 12 months as at January 1, 2019 as short-term leases
- the exclusion of initial direct costs for the measurement of the right-of-use asset at the date of initial application
- the use of hindsight in determining the lease term where the contract contains options to extend or terminate the lease
- apply the provisions of PFRS 16 to contracts that were previously identified as leases applying PAS 7, '*Statement of cash flows*' and IFRIC 4, '*Determining whether an arrangement contains a lease*'.

Extension and termination options

In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated). The lease term is reassessed if an option is actually exercised (or not exercised) or the BPI Group becomes obliged to exercise (or not exercise) it. The assessment of reasonable certainty is revised only if a significant event or a significant change in circumstances occurs, which affects this assessment, and that is within the control of the lessee.

Lease modification

Lease modifications are accounted either as a separate lease or not a separate lease. The BPI Group accounts for the lease modification as a separate lease if both:

- the modification increases the scope of the lease by adding the right of use to one or more underlying assets; and
- the consideration for the lease increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

For lease modification that is not accounted for a separate lease, at the effective date of lease modification, the BPI Group:

- allocates the consideration in the modified contract on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components;
- determine the lease term of the modified lease; and
- remeasure the lease liability by discounting the revised lease payments using a revised discount rate.

The revised discount rate is determined as the interest rate implicit in the lease for the remainder of the lease term, or the lessee's incremental borrowing rate at the effective date of the modification, if the interest rate implicit in the lease cannot be readily determined.

For a lease modification that is not accounted for as a separate lease, the BPI Group accounts for the remeasurement of the lease liability by:

- decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease; and
- making a corresponding adjustment to the right-of-use asset for all other lease modifications.

The BPI Group recognizes in profit or loss any gain or loss relating to the partial or full termination of the lease.

Short-term leases and leases of low-value assets

Payments associated with short-term leases and leases of low-value assets are recognized on a straight-line basis as an expense in the statements of income. Short-term leases are leases with a lease term of 12 months or less. Low-value assets comprise IT-equipment and small items of office furniture.

Accounting policies prior to January 1, 2019 (PAS 17)

Operating lease

Leases in which a significant portion of the risks and rewards of ownership are retained by another party, the lessor, are classified as operating leases. Payments, including prepayments, made under operating leases (net of any incentives received from the lessor) are charged to "Occupancy and equipment-related expenses" in the statements of income on a straight-line basis over the period of the lease. When an operating lease is terminated before the lease period has expired, any payment required to be made to the lessor by way of penalty is recognized as an expense in the period in which the termination takes place.

Finance lease

Leases of assets, where the BPI Group has substantially all the risks and rewards of ownership, are classified as finance leases. Finance leases are capitalized at the commencement of the lease at the lower of the fair value of the leased property and the present value of the minimum lease payments. Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the finance balance outstanding. The interest element of the finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

30.25.2 BPI Group is the lessor

PFRS 16 substantially carries forward the lessor accounting requirements in PAS 17. Accordingly, the BPI Group (as a lessor) continues to classify its leases as operating leases or finance leases.

Operating lease

Properties (land and building) leased out under operating leases are included in “Investment properties” in the statements of condition. Rental income under operating leases is recognized in profit or loss on a straight-line basis over the period of the lease.

Finance lease

When assets are leased out under a finance lease, the present value of the lease payments is recognized as a receivable. The difference between the gross receivable and the present value of the receivable is recognized as unearned finance income.

Lease income under finance lease is recognized over the term of the lease using the net investment method before tax, which reflects a constant periodic rate of return.

30.26 Insurance and pre-need operations

(a) Non-life insurance

The more significant accounting policies observed by the non-life insurance subsidiaries follow: (a) gross premiums written from short-term insurance contracts are recognized at the inception date of the risks underwritten and are earned over the period of cover in accordance with the incidence of risk using the 24th method; (b) acquisition costs are deferred and charged to expense in proportion to the premium revenue recognized; reinsurance commissions are deferred and deducted from the applicable deferred acquisition costs, subject to the same amortization method as the related acquisition costs; (c) a liability adequacy test is performed which compares the subsidiaries’ reported insurance contract liabilities against current best estimates of all contractual future cash flows and claims handling, and policy administration expenses as well as investment income backing up such liabilities, with any deficiency immediately charged to profit or loss; (d) amounts recoverable from reinsurers and loss adjustment expenses are classified as assets, with an allowance for estimated uncollectible amounts; and (e) financial assets and liabilities are measured following the classification and valuation provisions of PFRS 9.

(b) Pre-need

The more significant provisions of the PNUCA as applied by the pre-need subsidiary follow: (a) premium income from sale of pre-need plans is recognized as earned when collected; (b) costs of contracts issued and other direct costs and expenses are recognized as expense when incurred; (c) pre-need reserves which represent the accrued net liabilities of the subsidiary to its plan holders are actuarially computed based on standards and guidelines set forth by the Insurance Commission; the increase or decrease in the account is charged or credited to other costs of contracts issued in profit or loss; and (d) insurance premium reserves which represent the amount that must be set aside by the subsidiary to pay for premiums for insurance coverage of fully paid plan holders, are actuarially computed based on standards and guidelines set forth by the Insurance Commission.

30.27 Related party relationships and transactions

Related party relationship exists when one party has the ability to control, directly, or indirectly through one or more intermediaries, the other party or exercises significant influence over the other party in making financial and operating decisions. Such relationship also exists between and/or among entities which are under common control with the reporting enterprise, or between and/or among the reporting enterprise and its key management personnel, directors, or its shareholders. In considering each possible related party relationship, attention is directed to the substance of the relationship, and not merely the legal form.

30.28 Comparatives

Except when a standard or an interpretation permits or requires otherwise, all amounts are reported or disclosed with comparative information.

Where PAS 8 applies, comparative figures have been adjusted to conform with changes in presentation in the current year. There were no changes to the presentation made during the year.

30.29 Subsequent events (or Events after the reporting date)

Post year-end events that provide additional information about the BPI Group's financial position at the reporting date (adjusting events) are reflected in the financial statements. Post year-end events that are not adjusting events are disclosed in the notes to financial statements when material.

Note 31 - Supplementary information required under BSP Circular No. 1074

Presented below are the additional information required by BSP Circular No. 1074 issued on January 8, 2020. This information is presented for BSP reporting purposes and is not required in the basic financial statements.

(i) Basic Quantitative Indicators of Financial Performance

The key financial performance indicators follow (in %):

	Consolidated		Parent	
	2020	2019	2020	2019
Return on average equity				
- Daily average ¹	7.70	10.97	10.81	12.51
- Simple average ²	7.79	11.12	11.00	12.62
Return on average assets				
- Daily average ³	0.98	1.38	1.33	1.50
- Simple average ⁴	0.96	1.34	1.31	1.45
Net interest margin				
- Daily average ⁵	3.49	3.35	3.31	3.18
- Simple average ⁶	3.45	3.26	3.26	3.08

¹Net income divided by average total equity for the period indicated. Average equity is based on the daily average balance of equity for the years ended December 31, 2020 and 2019.

²Net income divided by average total equity for the period indicated. Average total equity is based on the year-on-year balance of equity for the years ended December 31, 2020 and 2019.

³Net income divided by average total assets as at period indicated. Average total assets are based on the daily average balance of total assets as at December 31, 2020 and 2019.

⁴Net income divided by average total assets as at period indicated. Average total assets are based on the year-on-year balance of total assets as at December 31, 2020 and 2019.

⁵Net interest income divided by average interest-earning assets. Average interest earning assets is based on the daily average balance of interest earning assets as at December 31, 2020 and 2019.

⁶Net interest income divided by average interest-earning assets. Average interest earning assets is based on the year-on-year balance of interest earning assets as at December 31, 2020 and 2019.

(ii) Description of Capital Instrument Issued

BPI considers its common shares as capital instrument for purposes of calculating its capital adequacy ratio as at December 31, 2020 and 2019.

Significant Credit Exposures

Details of the loans and advances portfolio as to concentration per industry/economic sector (in %) as at December 31 are as follows:

	Consolidated		Parent	
	2020	2019	2020	2019
Real estate, renting and other related activities	25.42	24.37	18.04	17.77
Manufacturing	14.97	15.30	17.79	18.09
Wholesale and retail trade	10.97	11.35	12.18	12.61
Consumer	8.01	8.32	5.12	5.46
Financial institutions	8.88	10.81	10.57	12.90
Agriculture and forestry	2.53	2.87	3.01	3.40
Others	29.22	26.98	33.29	29.77
	100.00	100.00	100.00	100.00

Breakdown of Total Loans

Details of the loans and advances portfolio as at December 31 as to collateral (amounts net of unearned discounts and exclusive of accrued interest receivable) are as follows:

	Consolidated		Parent	
	2020	2019	2020	2019
	(In Millions of Pesos)			
Secured loans				
Real estate mortgage	257,311	278,099	132,600	138,607

*Amounts exclude accrued interest receivables

BSP Circular 941, *Amendments to Regulations on Past Due and Non-Performing Loans*, states that loans, investments, receivables, or any financial asset shall be considered non-performing, even without any missed contractual payments, when it is considered impaired under existing accounting standards, classified as doubtful or loss, in litigation, and if there is an evidence that full repayment of principal and interest is unlikely without foreclosure of collateral. All other loans, even if not considered impaired, shall be considered non-performing if any principal and/or interest are unpaid for more than ninety (90) days from contractual due date, or accrued interests for more than ninety (90) days have been capitalized, refinanced, or delayed by agreement.

Microfinance and other small loans with similar credit characteristics shall be considered non-performing after contractual due date or after they have become past due.

Restructured loans shall be considered non-performing. However, if prior to restructuring, the loans were categorized as performing, such classification shall be retained.

(iii) *Information on Related Party Loans*

Details of related party loans are as follows:

	Consolidated		Parent	
	2020	2019	2020	2019
	(In Millions of Pesos)			
Loans and advances from:				
Subsidiaries	189	58	-	58
Associates	509	350	509	350
Ayala Group	76,509	59,885	71,123	59,885
Other related parties	24,160	736	7,569	736

Details of DOSRI loans are as follows:

	Consolidated		Parent	
	2020	2019	2020	2019
	(In Millions of Pesos)			
Outstanding DOSRI loans	15,675	10,026	15,673	10,024

	Consolidated		Parent	
	2020	2019	2020	2019
	In percentages (%)			
% to total outstanding loans and advances	1.08	0.67	1.30	0.81
% to total outstanding DOSRI loans				
Unsecured DOSRI loans	3.20	17.30	3.20	17.30
Past due DOSRI loans	0.00	0.01	0.00	0.01
Non-performing DOSRI loans	0.00	-	0.00	-

The BPI Group is in full compliance with the General Banking Act and the BSP regulations on DOSRI loans as at December 31, 2020 and 2019.

(iv) *Secured Liabilities and Assets Pledged as Security*

The BPI Group's Bills payable (Note 16) include mainly funds borrowed from various banking institutions which were lent out to customers of the BPI Group in accordance with the agreed financing programs. Loans and advances arising from these financing programs serve as collateral for this liability (Note 10).

(v) *Contingencies and commitments arising from off-balance sheet items*

Credit risk exposures arising from off-balance sheet items are as follows:

	Consolidated		Parent	
	2020	2019	2020	2019
	(In Millions of Pesos)			
Undrawn loan commitments	352,844	376,179	346,995	369,544
Unused letters of credit	24,512	28,405	24,512	28,405
Gross carrying amount	377,356	404,584	371,507	397,949
Loss allowance	(959)	(650)	(927)	(619)
Carrying amount	376,397	403,934	370,580	397,330

Undrawn loan commitments and letters of credit are commitments under which over the duration of the commitment, the BPI Group is required to provide a loan with pre-specified terms to the customer. These off-balance sheet items are within the scope of PFRS 9 where the BPI Group estimates the expected portion of the undrawn loan commitments that will be drawn over their expected life. The ECL related to the off-balance sheet items is recognized in "Miscellaneous liabilities" (Note 17).

The BPI Group has no other off-balance sheet items other than the items listed above.

Note 32 - Supplementary information required by the Bureau of Internal Revenue

On December 28, 2010, Revenue Regulations (RR) No. 15-2010 became effective and amended certain provisions of RR No. 21-2002 prescribing the manner of compliance with any documentary and/or procedural requirements in connection with the preparation and submission of financial statements and income tax returns. Section 2 of RR No. 21-2002 was further amended to include in the Notes to Financial Statements information on taxes, duties and license fees paid or accrued during the year in addition to what is mandated by PFRSs.

Below is the additional information required by RR No. 15-2010 that is relevant to the Parent Bank. This information is presented for purposes of filing with the Bureau of Internal Revenue (BIR) and is not a required part of the basic financial statements.

(i) Documentary stamp tax

Documentary stamp taxes paid through the Electronic Documentary Stamp Tax System for the year ended December 31, 2020 consist of:

	Amount (In Millions of Pesos)
Deposit and loan documents	6,601
Trade finance documents	490
Mortgage documents	432
Shares of stocks	1
Others	5
	7,529

(ii) Withholding taxes

Withholding taxes paid/accrued and/or withheld for the year ended December 31, 2020 consist of:

	Amount		
	Paid	Accrued	Total
	(In Millions of Pesos)		
Income taxes withheld on compensation	1,842	207	2,049
Withholding tax on withdrawal from decedent's account	11	3	14
Final income taxes withheld on interest on deposits and yield on deposit substitutes	2,388	167	2,555
Final income taxes withheld on income payment	887	6	893
Creditable income taxes withheld (expanded)	346	53	399
Fringe benefit tax	107	29	136
VAT withholding tax	53	2	55
	5,634	467	6,101

(iii) All other local and national taxes

All other local and national taxes paid/accrued for the year ended December 31, 2020 consist of:

	Amount		
(In Millions of Pesos)	Paid	Accrued	Total
Gross receipts tax	4,581	384	4,965
Real property tax	112	-	112
Municipal taxes	307	-	307
Others	14	-	14
	5,014	384	5,398

Local and national taxes imposed by the government which are incurred under the normal courses of business are part of "Taxes and Licenses" within Other Operating Expense (Note 21).

(iv) Tax cases and assessments

As at reporting date, the Parent Bank has pending cases filed in courts, with the tax authorities contesting certain tax assessments, and for various claims for tax refund. Management is of the opinion that the ultimate outcome of the said cases will not have a material impact on the financial statements of the Parent Bank.
