AIMS

I. Introduction

Established in 1991, AIMS Financial Group (AIMS) is a diversified financial services and investment group, active in the areas of mortgage lending, securitisation, investment banking, funds management, property investment and high-tech ventures. AIMS has also strategically invested in the Sydney Stock Exchange (SSX).

Since 1999, AIMS has raised approximately A\$4.0 billion in funds from the capital markets. Of this, AIMS has issued approximately A\$3.0 billion residential mortgage-backed securities, with a majority rated AAA by both Standard & Poor's and Fitch Ratings. AIMS has also originated over A\$8.0 billion of high quality prime home loans since 1991.

AIMS has actively introduced a number of international investors into the Australian market and to date has attracted over A\$1.0 billion of investments into Australia from overseas investors.

AIMS is also the investment manager for AIMS' funds, which amount to circa A\$2 billion as at 30 June 2016. Since 2009, AIMS Group has had a total acquisition and investment total of over A\$2.0 billion in assets.

AIMS' head office is in Sydney, Australia, with global operations in China, Hong Kong and Singapore. Our highly qualified, professional and experienced cross-cultural teams, enable AIMS to bridge the gap between Australia and China across various sectors.

AIMS FUNDS MANAGEMENT OVERVIEW

AIMS Funds Management is a member of the AIMS Financial Group (AIMS), which specialises in the investment management of direct property, real estate securities and mortgage assets.

AIMS manages funds of circa A\$2.0 billion as at June 2018 and are the investment manager for AIMS Property Securities Fund, AIMS Commercial Mortgage Fund and a number of unlisted direct property funds.

AIMS also manage, in joint venture with AMP Capital, the AIMS AMP Capital Industrial REIT in Singapore.

The AIMS Property Securities Fund is listed on the ASX and the Singapore Exchange.

The AIMS AMP Capital Industrial REIT is listed on the Singapore Exchange.

MACARTHURCOOK TURN AROUND STORY

At the time of acquisition, MacarthurCook's fund management business was severely distressed with each of the 4 listed funds and a number of unlisted funds starved of capital and management expertise. Under AIMS' leadership, MacarthurCook's funds have been turned around, stabilised and outcomes improved for investors. Some examples include:

- A. The MacarthurCook Industrial REIT (MI-REIT) listed on the SGX (now known as AIMS AMP Capital Industrial REIT). At the time of the AIMS acquisition of MacarthurCook in 2009, MI-REIT was a vehicle which was in distress. MI-REIT had an obligation to refinance S\$220.8million and purchase a S\$90.2million property, which previous management had entered into in 2007, without first securing finance. As at 31 March 2009, MI-REIT's market capitalisation was approximately S\$60.2 million and total assets were S\$544.0 million. In December 2009, MI-REIT was renamed to AIMS AMP Capital Industrial REIT (AA-REIT). Under the new management of AIMS AMP Capital Industrial REIT Management Limited, a joint venture REIT management company owned 50% by AIMS and AMP Capital, AA-REIT has grown significantly with a market capitalisation of S\$946.1 million and S\$1.5 billion total assets as at 30 June 2018.
- B. The privatisation of the MacarthurCook Industrial Property Fund (MIF) which was formerly listed on the ASX and was distressed at the time of acquisition. The share price of the fund at the time AIMS took over MacarthurCook was \$0.16. AIMS reduced vacancy in the MIF portfolio and improved the weighted average lease expiry to more than 5 years. In October 2010, unitholders voted in favour of accepting an offer from a US fund at A\$0.44 per unit representing a 42.0% premium to the pre-announcement trading price.
- C. The AIMS Property Securities Fund (APW) (formerly known as MacarthurCook Property Securities Fund), which is listed on the ASX and SGX. Since the takeover of MacarthurCook, through AIMS management, APW has been able to significantly reduce its debt from A\$44.5 million (gearing ratio of 38%) to nil as at 31 May 2013. APW is now uniquely positioned to access the capital markets in Australia and Asia through its dual listing on the ASX and SGX. Under AIMS' management, the Fund, observing prudent, conservative and patient investment principles, has invested in a portfolio of assets that have not only provided a stable income stream but have demonstrated increases in capital value, with further potential upside. Since June 2013 the fund has maintained a debt free position. The total asset value has grown from A\$59.5 million in June 2013 to A\$106.1 million in June 2018.

AIMS

II. Prudential Investment Management

In August 2009 when AIMS took over MacarthurCook, APW was exposed to too many poorly managed unlisted trusts and small listed property trusts with little liquidity. This was disastrous:

- APW only held a minority interest in each fund and was ineffective in being able to influence the strategy and direction of the trust or fund;
- The fund managers of the unlisted trusts and funds themselves did not hold material interest in the syndicates/funds and were motivated to increase funds under management, so as to charge more fees. This resulted in reckless borrowing by the fund managers;
- Debt at the APW level was already 38% before considering the debt incurred at the asset level. Look-through debt in some instances was over 100%;
- As the GFC hit and the credit crunch occurred, many of the underlying assets in APW were facing bank foreclosures and as a consequence a wind up of the syndicates/funds; and
- APW with its minority interest in these syndicates/funds was powerless to either exit or effect any change.

Learning from our experience in the GFC, AIMS has carefully followed its prudent, conservative and patient investment approach, focusing not only on income but also capital growth potential.

I. POWER AS INVESTOR

Where possible, hold material or majority interest in its unlisted investments, such that it is able to influence the strategy and direction of the investment.

II. ALIGNMENT OF INVESTOR AND FUND MANAGER'S INTEREST

Invest in funds where the fund manager holds a material interest in the fund to ensure that the fund manager's interests are aligned with our unitholders.

III. SUFFICIENT LIQUIDITY FOR LISTED INVESTMENTS

There must be acceptable liquidity if the investment is listed.

IV. INVESTMENT DIRECTION

Underlying assets must typically be in good locations, with value add or long-term development potential. The assets should ideally produce an income stream, to service conservative borrowings and have potential for rental increases through active management.

V. CONSERVATIVE GEARING

Maintained zero gearing since 2013 and also monitor the underlying investments' debt facilities, so as to sustain a conservative look-through gearing level.

ALIGNMENT WITH THE UNITHOLDERS

* The figures in the graph above, do not include units held by independent directors.

AIMS

III. Performance Highlights

The Fund, observing prudent, conservative and patient investment principles, has endeavoured to maximise returns to investors. Key performance achievements include:

- ▶ ***Growth in Net Asset Value (NAV) and Net Tangible Asset (NTA) per Security***
Since 2013, NAV has grown from \$59m to \$106m (79% increase) and NTA per security increased by 103% from \$1.17 to \$2.37.
- ▶ ***Debt and gearing – prudential capital management***
Since June 2013, the fund has maintained a debt free position.
- ▶ ***Reduced share price discount to Net Tangible Asset (NTA)***
Share price discount to NTA decreased from 72% in June 2009 to 34% (30 June 2018). Share price increased by 137% from June 2013 to June 2018.
- ▶ ***Increased total return***
Over the past 5 years, the fund's compound total return p.a. has significantly outperformed the S&P/ASX 200 A-REIT's compound total return index p.a. (22.1% vs 12.0%).
- ▶ ***Distributions***
The fund distributes the net operating income at a target payout ratio of 80%. Total distributions from July 17 to June 18, achieved a 1.9% dividend yield (based on the 30 June 2018 share price).

* Past performance should not be taken as a guide or indication of potential future performance.

PERFORMANCE – NET ASSET VALUE INCREASED BY 79%

- ▶ Net Asset Value has grown strongly from \$59m to \$106m, representing an annual growth of 12.4% (total increase of 79%). The fund has been debt free since 2013.

PERFORMANCE – NET TANGIBLE ASSET (NTA) PER SECURITY INCREASED BY 103%

* The NTAs have been adjusted for unit consolidation.

PERFORMANCE – SHARE PRICE DISCOUNT TO NTA REDUCED FROM 72% TO 34%

- ▶ Reduced share price discount to Net Tangible Asset (NTA) from 72% in June 2009 to 34% in June 2018 (30/06/18).
- ▶ As at the maximum close price reached in September 2018 (being \$1.80), the NTA to share price discount would be 24%.

PERFORMANCE – SHARE PRICE INCREASED BY 137%

* Historical share prices have been adjusted for unit consolidation.

PERFORMANCE – OUTPERFORMANCE TO THE BENCHMARK

- ▶ Total return has significantly outperformed the S&P/ASX 200 A-REIT total return index over the past five years.

*The figures are annualised, based on the assumptions that distributions were reinvested and rights issues were fully taken-up.

- ▶ Annual distribution yield has fallen for FY 18.
- ▶ This is primarily due to the sale of units in BlackWall Property Trust, Arena REIT and the freeze in distributions from the AIMS Property Fund (Felix St).
