
UPDATE ON SRI LANKA FLOOD AND LANDSLIDE SITUATION

The Board of Directors (the “**Directors**”) of Charisma Energy Services Limited (the “**Company**”, and together with its subsidiaries, the “**Group**”) would like to provide an update on the flood situation in Sri Lanka and its impact on our 13 mini-hydro power plants located there.

On 28 November 2025, Cyclone Ditwah made landfall into Sri Lanka, triggering floods and landslides in many areas of Sri Lanka. The Group initiated relevant emergency responses to ensure the safety of staff and to mitigate the impact of the floods such that normal plant operations could be restored as soon as possible. We are thankful to report that none of our team members in Sri Lanka have been harmed and 12 out of the Group’s 13 plants are operating normally at the time of this announcement with recovery work ongoing to clear debris at the remaining plant.

Barring unforeseen circumstances, the Company does not expect the recent disruptions to have a material impact on its financial results for the financial year ending 31 December 2025. Notwithstanding this, the Group has contacted its insurer in Sri Lanka and they will conduct a site visit to assess the situation.

The Company will make announcements as and when there are further material developments, if any.

BY ORDER OF THE BOARD

Zhan Aijuan (Ms)
Company Secretary
2 December 2025
