Market Pice of the Warrants may be affected by many factors Warrants are volatile instruments and are subject to considerable fluctuations in value due to, including but not limited to, the level and volatility of the Underlying Shares, dividends and interest rate, the time remaining to expiry and the creditworthiness of the Issuer. You may lose your entire investment Changes in the price of the Underlying Shares can be unpredictable, sudden and large, resulting in the price of such shares moving in a direction which will negatively impact upon the return on investment. If the price of the Underlying Shares reaches a level such that the Cash Settlement Amount at expiry is less than or equal to zero, you will lose your entire investment. Liquidity Risks The secondary market may be illiquid DMM may be the only market participant buying and selling the Warrants. Therefore, the secondary market for the Warrants may be limited and you may not be able to realise the value of the Warrants. Please note that the bid-ask spread increases with illiquidity. As the Warrants are only exercisable on the Expiry Date, you will not be able to exercise your Warrants to realise value in the event that the trading in the Warrants becomes illiquid. Macquarie Bank Limited

• Issuer may make adjustments to the terms and conditions of the Warrants

You should note that an investment in the Warrants involves valuation risks in relation to the Underlying Shares. The value of the Underlying Shares may vary over time by reference to various factors, including corporate actions by the underlying company. Certain events relating to the Underlying Shares may require or permit the Issuer to make certain adjustments or amendments to the Conditions (including adjusting the Exercise Price and the Conversion Ratio). However, the Issuer is not required to make an adjustment for every event that affects the Underlying Shares and if an event occurs which does not require the Issuer to adjust the Conditions, the market price of the Warrants and the return upon exercise of the Warrants may be affected.

• HKEX trading days and hours and different from that of SGX-ST

The price of the Share is published during the trading hours of the Relevant Stock Exchange. The trading days and hours of the Relevant Stock Exchange are different from that of the SGX-ST. In assessing the price of the Warrants, you should be aware of the differences in the time zone and the actual trading days and hours of the relevant exchanges in Singapore and Hong Kong. For example, the price of the Share may be volatile during which the Stock SGX-ST is not open for trading of the Warrants. There may also be certain period of time during the trading hours of the SGX-ST when the prices of the Shares are not available. The market maker will not be able to provide liquidity for the Warrants during such times.

• You may be exposed to an exchange rate risk

There may be an exchange rate risk where the Cash Settlement Amount is converted from a foreign currency into Singapore Dollars.

• Underlying Shares have no trading history

The Underlying Shares have no trading history and an active public market for such shares may not develop. During the initial period of trading, the price and trading volume of the Underlying Shares may be highly volatile subject to the market sentiment, and may be more volatile than would generally be expected for shares that have a longer trading history.

• Risks relating to the weighted voting rights structure

The Company is controlled through weighted voting rights. Certain individuals who own shares of a class which is being given more votes per share may have the ability to determine the outcome of most matters. If the Company takes actions that the other shareholders do not view as beneficial, the market price of the Underlying Shares and hence the Warrants could be adversely affected.

Issuer Related Risks

• You are exposed to the credit risk of the Issuer

The Warrants constitute direct, general and unsecured contractual obligations of the Issuer and of no other person, and rank on a parity with the Issuer's other unsecured contractual obligations and unsecured and unsubordinated debt other than indebtedness preferred by mandatory provisions of law. If you purchase the Warrants, you are relying upon the creditworthiness of the Issuer and have no rights under the Warrants against any other person. If the Issuer is unable to meet its obligations under the Warrants, you will lose your entire investment. The Issuer issues a large number of financial instruments, including Warrants, on a global basis and at any given time, the financial instruments outstanding may be substantial. A reduction in the rating, if any, accorded to the outstanding debt securities of the Issuer by any one of its rating agencies could result in a reduction in the trading value of the Warrants. The Issuer does not in any respect underwrite or guarantee the performance of any Warrant. As the Issuer is not incorporated in Singapore, any insolvency proceedings in respect of the Issuer will be subject to foreign insolvency laws and procedures.

• Conflicts of interest may arise from the overall activities of the Issuer or its affiliates

The Issuer and any of its affiliates are diversified financial institutions that engage in a wide range of commercial and investment banking, brokerage, funds management, hedging transactions and investment and other activities for their own account or the account of others. In addition, the Issuer and any of its affiliates, in connection with their other business activities, may possess or acquire material information or publish or issue research reports about the Underlying Shares. Such activities and information may involve or otherwise affect the Underlying Shares in a manner that may cause consequences adverse to investors in the Warrants or otherwise create conflicts of interests in connection with the issue of Warrants by the Issuer.

Hedging or market-making activities by the Issuer or its affiliates may affect the Warrants

In connection with hedging or market-making activities or with respect to proprietary or other trading activities by the Issuer or its affiliates, the Issuer or its affiliates may enter into transactions in the Underlying Shares or related derivatives which may affect the market price, liquidity or value of the Warrants and which may affect the interests of investors in the Warrants.
