Singapore's Economy

- Based on advance estimates released by the Ministry of Trade and Industry, Singapore's economy in 1Q 2016 grew by 1.8% year-on-year, unchanged from the previous quarter. Growth was flat on a quarter-on-quarter seasonally-adjusted annualised basis, in contrast to the 6.2% expansion in the preceding quarter.

- Factory activity continues to contract over nine consecutive months although new orders, exports, factory output and manufacturing employment have improved.

Industrial Property Sector

- With the slowdown in the manufacturing sector, rentals of all industrial properties softened by 2.7% in 1Q 2016 over the preceding quarter.
- The largest contraction was attributed by Multiple-user factory registering a 3.7% decline in rental index over 4Q 2015. Single-user factory, Business Park and Warehouse contracted 1.9%, 1.0% and 0.8% respectively over the preceding quarter.

Soilbuild Business Space REIT
