

HRnetGroup Welcomes New Co-Owner – Agnes Chen Amplifying Executive Search in the Greater Bay Area

The Board of Directors of HRnetGroup Limited (the **Group**) is pleased to announce the admission of Agnes Chen (**Agnes**) as a Co-Owner of HRnet One (Shenzhen) Limited (**HRnetOne**), a fast-growing business unit under the Group's pioneer brand.

HRnetOne launched its Shenzhen unit in 2021 to expand the Group's executive search capabilities beyond its Guangzhou base and into the Greater Bay Area—an economic hub driven by sectors such as consumer, technology, manufacturing, and real estate.

Agnes graduated with a Bachelor of Engineering in Food Science and Engineering from Guangdong University of Technology in 2008. She joined the Group's Guangzhou office in 2016 as an Executive Senior Consultant, where she earned multiple performance accolades. Her exceptional people assessment skills and industry acumen have earned her the trust of clients who rely on her to deliver C-suite and senior-level mandates.

Now serving as Senior Practice Leader and Principal Consultant, Agnes heads a team that specializes in commercial real estate, funds and investments, digital, and IT—delivering end-to-end talent acquisition and talent mapping solutions for a diverse clientele across the region.

“Agnes has demonstrated tremendous resilience, persistence, and adaptability—especially during periods of uncertainty in the commercial real estate sector. I’m incredibly proud to welcome her as a Co-owner. Her natural sense of ownership and heartfelt dedication to her team, candidates, and clients give us every confidence that she will scale new heights for the business.”
