Notes to the Annual Report

1. Unless otherwise stated, all capitalised terms used in this report follow the same definitions as in the relevant offering documents, namely:
 - **Astrea V** – Astrea V Prospectus dated 11 June 2019 relating to the offering and issue of the Astrea V Bonds (“Astrea V Prospectus”)
 - **Astrea VI** – Astrea VI Prospectus dated 9 March 2021 relating to the offering and issue of the Astrea VI Bonds (“Astrea VI Prospectus”)
 - **Astrea 7** – Astrea 7 Prospectus dated 19 May 2022 relating to the offering and issue of the Astrea 7 Bonds (“Astrea 7 Prospectus”)
2. FY 2023 refers to the financial year ended 31 December 2023. FY 2022 refers to the financial year ended 31 December 2022.
3. Certain monetary amounts in this report have been subjected to rounding adjustments. Accordingly, figures shown as totals in certain tables may not be an arithmetic aggregation of the figures which precede them.
4. All figures are calculated based on information available as at 31 December 2023, unless stated otherwise.
5. For the purpose of this report, we used the following exchange rates (all as at 31 December 2023):
 - USD:EUR exchange rate of 1:1.10372
 - USD:SGD exchange rate of 1:1.31964
6. All “\$” figures are in US\$ unless stated otherwise.
7. Net Asset Value (“NAV”) calculations are based on the most recent NAV of all Fund Investments as reported by the General Partner (“GP”) or manager of the applicable Fund Investment, and if necessary, adjusted for distributions received, capital calls made and other adjustments up to 31 December 2023 unless stated otherwise.

About Azalea

Azalea Asset Management Pte. Ltd. ("Azalea") is a wholly-owned subsidiary of Seviora Holdings Pte. Ltd., which is in turn wholly-owned by Temasek Holdings (Private) Limited ("Temasek"). Set up in 2015 by Temasek, Azalea's mandate is to broaden private equity ("PE") access to a wider investor base. To date, Azalea has assets under management ("AUM") of \$9 billion.

As an investor, Azalea is a long-term investor in PE, and commits a significant amount in our products as Sponsor. This strongly aligns Azalea with the interests of third-party investors. As a developer, we continuously create new platforms and products that are thoughtfully structured, robust and scalable for the long-term, to ensure suitability for our target investors. As a manager, besides investing and managing portfolios, Azalea is committed to investor education and promoting financial literacy.

To achieve our mission of making PE more accessible, Azalea introduced several PE-based investment products to investors through a phased approach. This is exemplified by the launch of the Astrea PE Bonds with over 60,000 retail bondholders to date, and a suite of PE funds across various PE strategies collectively known as the Altrium Platform.

Cognizant that private investments is not easily accessible for individuals, Azalea's STEP by Azalea platform aims to develop technology-enabled private markets solutions for the industry through multiple distribution channels.

Azalea Investment Management ("AIM") is a wholly-owned subsidiary of Azalea and the manager of Astrea and Altrium Platforms. AIM is led by a team of professionals with extensive experience in PE.

The **Astrea** and **Altrium** Platforms

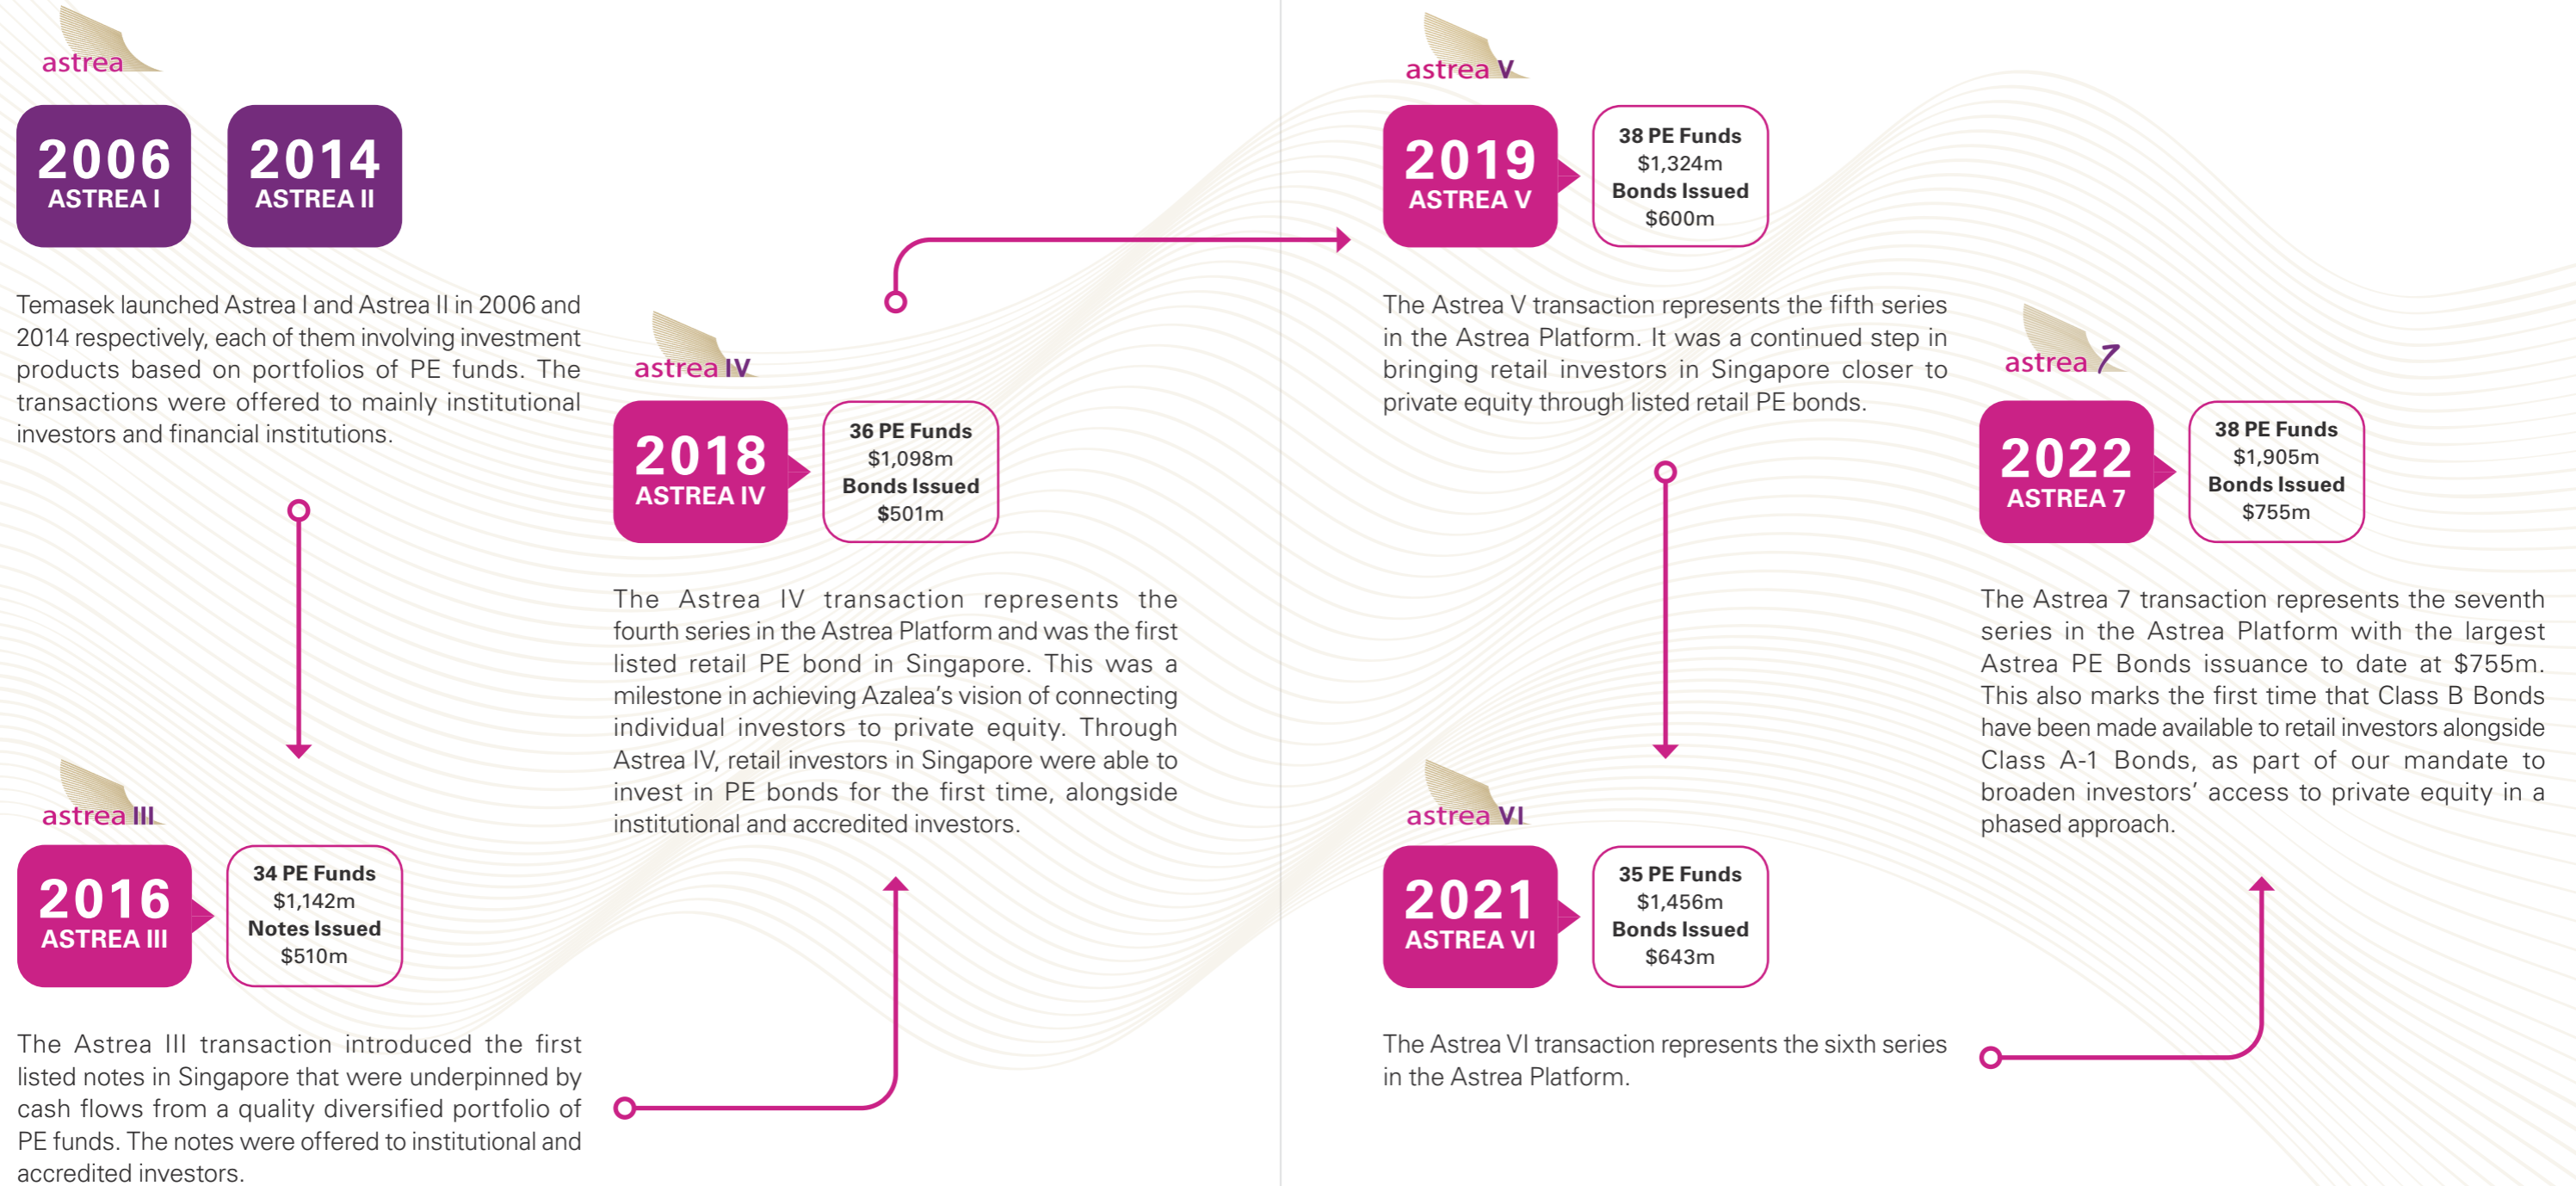

The Astrea Platform is a series of investment products based on diversified portfolios of PE Funds and designed to provide investors with exposure to PE. Through the Astrea Platform, institutions and individuals, including retail investors have been able to gain indirect exposure to PE funds through the Astrea PE bonds which are listed on the SGX. Notably, the Astrea 7 launch in 2022 saw the offering of USD-denominated bonds to retail investors in Singapore for the first time. Prior to Astrea 7, the USD-denominated bonds of previous Astrea transactions were offered only to institutional and accredited investors. This marked another milestone in Azalea's mission to broaden access to PE.

Azalea's flagship PE fund of funds product was launched in 2019, and its successor fund was launched in 2021. In 2023, Azalea closed its inaugural ESG-focused Altrium Sustainability Fund I. In the same year, Azalea held first closings for Altrium Growth Fund I and Altrium Co-Invest Fund I for a total of \$356m raised across both funds.

Azalea will continue to develop innovative investment platforms and products as we seek to broaden access to private markets.

The **Astrea** and **Altrium** platforms continue to widen the investment product landscape in Singapore

The Astrea Platform

Macroeconomic Update

2023 started with low expectations for global growth and recession fears. However, the global economy proved to be more resilient than expected despite concerns over inflation, rising interest rates, heightened US-China geopolitical tensions and wars in Ukraine and Israel. Global growth in 2023 was revised upwards by International Monetary Fund (“IMF”) from 2.8% at the start of 2023 to 3.2% in their latest April 2024 economic outlook - predominantly as a result of stronger than expected growth in the United States and several major emerging markets and developing economies, as well as fiscal support in China. There has also been a decline in inflation globally in 2023 with favourable supply developments, fading of energy price shocks and easing in labor market tightness¹.

1. IMF World Economic Outlook (April 2024). *World Economic Outlook Update*. <https://www.imf.org/en/Publications/WEO/Issues/2024/04/16/world-economic-outlook-april-2024>

In 2024, global growth is expected to remain slow but steady at 3.2%, with the U.S. expected to grow 2.7% in 2024, up from 2.5% the year prior, driven by stronger-than-expected employment and consumer spending.

In the Euro area, growth is expected to recover from the impact of the Russia-Ukraine war to reach 0.8% in 2024, up from 0.4% in 2023. The recovery is mainly driven by the stronger household consumption due to the fading of energy price shocks and falling inflation which will support real income growth¹.

Asia is expected to maintain a robust growth of 5.2% in 2024, although a slight decline from an estimated 5.6% in 2023, driven mainly by China and India. Growth in China is projected to fall from 5.6% in 2023 to 5.2% in 2024, as the positive effects from the post pandemic boost to consumption and fiscal stimulus ease, coupled with the weakness in the property sector. India remains the fastest growing economy at 6.8% in 2024 as a result of resilience in domestic demand and a rising working-age population¹.

Although global headline inflation is expected to decline from 6.8% in 2023 to 5.9% in 2024, with advanced economies expected to see faster disinflation, central banks have signaled that they will maintain higher interest rates until inflation has reached their target levels². IMF projects policy rates in major advanced economies to start declining in the second half of 2024¹.

Geopolitical risks will remain center stage for 2024, with the elevated US-China tensions, the ongoing Russian-Ukraine war and the broadening conflict in the Middle-East. This will continue to weigh on medium term growth with the potential for supply disruptions and new price spikes, which could raise interest rate expectations and prompt a resurgence in volatility and sharp downturns in asset prices¹. In addition, many countries are expected to elect their national governments in 2024 – “a Great Election Year”, which could be more impactful than recent cycles on geopolitics given the backdrop of elevated geopolitical tensions, particularly the U.S. Presidential elections³.

Public Markets Update

Despite ongoing concerns surrounding the global economy, public markets rebounded in 2023. MSCI World and S&P 500 were up 22% and 24% respectively in 2023. Technology and growth stocks outperformed the wider market as investors shifted their focus from rising interest rates to expectations of rate cuts in 2024. The emerging promise of artificial intelligence (“AI”) has helped to further boost investor optimism⁴. The NASDAQ composite, a proxy for technology stocks, gained c.43% in 2023. The gains were largely driven by the strong performance of the Magnificent 7 companies, which include Apple, Microsoft, Alphabet, Amazon, Nvidia, Meta Platforms and Tesla. This has continued into 2024, with the U.S. equities market posting double digit gains for the first quarter.

Private Markets Update

In 2023, private markets were adversely impacted due to macroeconomic headwinds that resulted in subdued fundraising and dealmaking activities.

Globally, buyout investment activity declined by 37% YoY to \$438 billion in 2023. Overall deal count declined 20% to ~2,500 transactions. Technology deals, which require less leverage than deals in other sectors, maintained their dominant share of total buyout count. However, traditional industries such as industrial goods and services experienced their share of total buyout deal count increasing slightly as investors flock to sectors that offer them stability⁶.

6. Bain & Company. (2024). Global Private Equity Report 2024. <https://www.bain.com/insights/topics/global-private-equity-report/>

Global buyout exits by value and deal count declined by 44% and 24% YoY to \$345 billion and 1,067 respectively, in 2023. Strategic and sponsor exits, which are two of the main exit channels for GPs, remain challenged as a result of rising interest rates and macroeconomic uncertainty, which led to a pricing mismatch in buyer and seller expectations. The Initial Public Offering ("IPO") exit channel surprisingly saw a 72% increase YoY in exit value to \$11.8 billion in 2023 amid strong performance from the public markets, although off a lower base in 2022.

\$345 billion

Conclusion

Although 2023 started off with the ongoing concerns of high inflation, rising interest rates and recessionary fears, the global economy, with the U.S. in particular, proved to be resilient. Public markets recovered from the losses experienced in 2022, buoyed by investor optimism as a result of expected rate cuts and the boom in AI. However, private market deal and exit activity for 2023 declined against the challenging backdrop of tightening credit markets, relatively high valuation expectations of sellers, and macroeconomic uncertainty. With the expectations of rate cuts happening in the latter half of 2024 and recessionary fears waning, the outlook for the private markets in 2024 is promising. In addition, GPs are well-positioned to navigate this environment with significant dry powder to either support existing investments or invest in high quality companies at attractive valuations. There continue to be pockets of opportunities for GPs to execute on value creation levers, and invest behind secular growth trends and disruptive business models.

Astrea: A Year In Review

As at the Annual Report publish date, Azalea has 4 Astrea PE bonds that are outstanding¹ and available to retail investors on SGX.

Despite volatile environment in 2023, all Astrea portfolios continued to generate positive net cash distributions. This enabled all Astrea bond obligations to be met without the need to draw on bank facilities.

Astrea IV

Astrea IV Bonds Fully Redeemed

Class A Bonds were fully redeemed on 14 June 2023 as scheduled, five years from their issuance in 2018.

Class B Bonds were fully redeemed at the following Distribution Date, on 14 December 2023

Astrea V

Astrea V Class A Bonds Fully Reserved

Class A Bonds are fully reserved as at 20 June 2023 and on track to be fully redeemed on its Scheduled Call Date in June 2024. Thereafter, the Class B Bonds will start to amortise according to the prescribed Priority of Payments.

Astrea V met the Performance Threshold back in 2021 and the Bonus Redemption Premium will be paid to Class A-1 Bondholders upon redemption

Rating Upgrades²

Astrea V Class A-1 Bonds upgraded from A+ to AA⁻³

Astrea V Class B Bonds upgraded from A to A+⁴

Astrea VI Class A-1 Bonds upgraded from A+ to AA⁻⁴

Astrea VI Class B Bonds upgraded from BBB+ to A⁴

Astrea 7 Class B Bonds upgraded from BBB+ to A⁻⁴

1. Astrea V Class A-1, Astrea VI Class A-1, Astrea 7 Class A-1, Astrea 7 Class B

2. Ratings relate to that of structured finance instruments

3. S&P rating upgrade in August 2023

4. Fitch rating upgrades in February 2024

Robust Performance Supported By A Resilient Global Economy

2023 defied initial expectations of a lacklustre global economic growth for the year. The year started with a tech-led rebound in the U.S.– the emerging boom in technological advancements took centre stage and the proliferation of Artificial Intelligence (“AI”) initiatives across industries laid the ground for robust performance of tech-related companies. Despite surprises along the way – banking crisis which sparked fears of a credit crunch, heightened geopolitical risk from unrest in the Middle East – the year concluded with a more sanguine economic backdrop. Inflation eased and investor sentiment improved with expectations that central banks have reached the end of a rate hike cycle. Equity markets proved resilient throughout the year, supported by stronger than expected economic growth, confounding recessionary concerns. In all, 2023 presented a rosier outlook for the days ahead with greater prospects of a soft landing on the horizon.

The recovery in PE distributions, however, has taken some time to take hold, with M&A and IPO markets slowly coming back to life. Distribution rate from the Astrea portfolios, although slightly up from the year prior, continued to be below historical averages. That being said, the Astrea portfolios continued to generate positive cash distributions which enabled all Astrea bond obligations to be met without the need to draw on bank facilities. The bonds have also been upgraded by rating agencies over time. Details on the performance for each Astrea can be found in the next few sections of this report. This is attributable to the high quality and diversified nature of the Astrea portfolios, and private equity fund managers’ ability to continue executing on their value creation plans and finding exit opportunities for their investments through market cycles. Consequently, none of the bank facilities, which were put in place to pay for senior expenses, bond interests and capital calls in case of cash flow shortfalls, have been drawn to date. All Astrea portfolios recorded fair value gains in 2023, moving in tandem with the broader market recovery. LTV ratios remain well below 50%, providing strong asset coverage.

The fundamentals of the Astrea portfolios are robust and they have weathered different market cycles. The portfolios are well-diversified across quality funds and the Astrea transactions were constructed with structural safeguards in place to ensure that the bonds are well-positioned to fulfil bond obligations over their terms.

Astrea portfolios generated positive cash distributions and the bonds have been upgraded by rating agencies over time.

Full Redemption Of Astrea IV PE Bonds

Astrea IV Class A Bonds were fully redeemed in June 2023 as scheduled, and Class B Bonds were fully redeemed at the following Distribution Date, on 14 December 2023.

The full redemption of Astrea IV PE Bonds marks the fruition of Azalea’s first retail PE bond. The bonds, in meeting all their obligations during a challenging market environment over the past few years, bear testament to the strong credit profile of the Astrea transaction and the quality of the underlying portfolio.

Astrea IV was a landmark transaction in the development of Singapore’s bond market. Astrea IV Class A-1 bonds presented a unique, ground-breaking opportunity for retail investors in Singapore to access private equity through bonds which are underpinned by cash flows from a quality diversified portfolio of PE Funds.

Since its issuance in 2018 up till its full redemption, the Astrea IV portfolio enjoyed strong cash distributions of almost \$1.2 billion, which represents approximately 108% of the portfolio NAV at issuance.

Astrea IV PE Bonds also achieved several rating upgrades over its term, with all tranches rated A and above at redemption.

Astrea IV bonds, in meeting all their obligations during a challenging market environment over the past few years, bear testament to the strong credit profile of the Astrea transaction and the quality of the underlying portfolio.

S&P Global and Fitch Ratings Upgrades¹

In August 2023, S&P Global Ratings upgraded its rating of Astrea V Class A-1 Bonds from A+ to AA- due to the bonds being fully reserved ahead of its Scheduled Call Date in June 2024. S&P also noted that the reserves will not be affected by future performances of the underlying Fund Investments.

More recently in February 2024, Fitch upgraded its rating of four Astrea PE Bonds:

1. Astrea V Class B Bonds were upgraded from A to A+ and Astrea VI Class B Bonds from BBB+ to A, due to the expectation that at their respective levels of LTV, the bonds can withstand large declines in their transaction NAVs
2. Astrea VI Class A-1 Bonds were upgraded from A+ to AA- as Fitch observed that the Reserve Amounts had exceeded the outstanding principal amount of Class A-1 Bonds
3. Astrea 7 Class B Bonds were upgraded from BBB+ to A- due to the bonds passing Fitch’s cash flow scenarios at their prevailing LTV levels

Fitch also affirmed the ratings of all other outstanding Astrea classes. In their rating process, Fitch measured the ability of the Astrea bonds to withstand weak performance in its Fund Investments in combination with adverse market cycles. In Fitch’s view, Astrea bonds’ strong liquidity positions allow them to continue to meet capital calls, expenses and interest, even if distributions were to decline.

The multiple rating upgrades reflect the strong credit quality of Astrea bonds, which is underpinned by the Astrea portfolios’ resilient performance, healthy LTV ratios and regular accumulation of cash reserves, which have helped to de-risk each Astrea transaction progressively over time.

1. Ratings relate to that of structured finance instruments

Summary

Astrea V Bonds

| Bonds | Bonds Issued | Interest Rate (%) p.a. | Interest Step-Up ¹ (%) p.a. | Scheduled Call Date | Maturity Date | Ratings ² (Fitch/S&P) |
|-----------|----------------|------------------------|--|---------------------|---------------|----------------------------------|
| Class A-1 | S\$315,000,000 | 3.85 | 1.0 | 20 June 2024 | 20 June 2029 | AA-sf / AA- (sf) |
| Class A-2 | \$230,000,000 | 4.50 | 1.0 | 20 June 2024 | 20 June 2029 | A+sf / Not rated |
| Class B | \$140,000,000 | 5.75 | N/A | N/A | 20 June 2029 | Asf / Not rated |

For FY 2023, Astrea V recorded a net profit of \$31 million which was largely driven by fair value gains from its Fund Investments. The Fund Investments had generated net distribution of \$180 million, which enabled Astrea V to meet all ongoing obligations. As at 31 December 2023, Astrea V Fund Investments stood at \$936 million.

Total Reserves Balance as at end of FY 2023 was \$473 million, which had been mainly placed into Eligible Investments.

As part of its liquidity risk management, Astrea V has an available credit facility, which can be drawn to meet capital calls and operating expenses including the payment of interest on Astrea V Bonds. The facility was not drawn during the financial year.

The audited financial statements for the year ended 31 December 2023 can be found in [Appendix A](#).

Astrea V issued \$600 million of Astrea V Bonds on 20 June 2019.

Astrea V Class A Bonds are fully reserved and will be redeemed in June 2024. \$1 million of Bonus Redemption Premium will be paid to Class A-1 bondholders upon redemption.

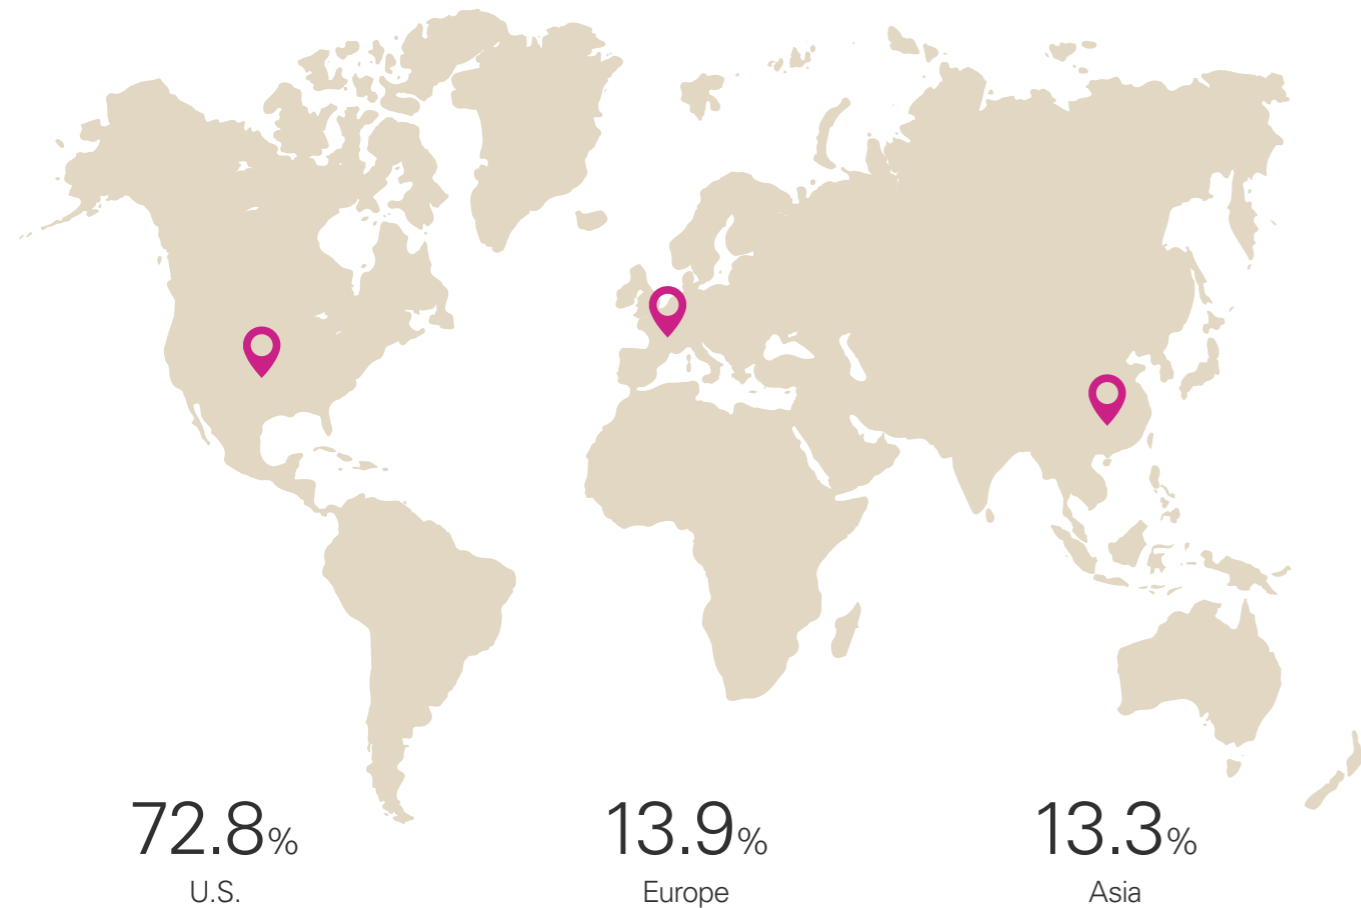

As at 31 December 2023, the reported principal amount of Astrea V Bonds was \$609 million, taking into account the effect of translation of the SGD-denominated Class A-1 Bonds.

1. One time interest rate step-up will apply if relevant Bonds are not redeemed by the Scheduled Call Date
 2. Ratings are as at 16 May 2024

Portfolio Summary

As at 31 December 2023

By Fund Region

The Astrea V portfolio is diversified across 38 quality PE funds, managed by 32 well-established GPs.

72.8% of the portfolio exposure is to U.S. funds, with the balance to funds in Europe and Asia. Buyout funds, which have the strongest historical performance among PE strategies, comprise 79.0% of the portfolio as at 31 December 2023.

The weighted average fund age of the portfolio is 8.9 years, comprising funds from the 2011-2016 vintages.

As of 30 September 2023, the portfolio comprised investments in 611 underlying investee companies, a decrease from 674 investee companies at 30 September 2022

By Fund Strategy

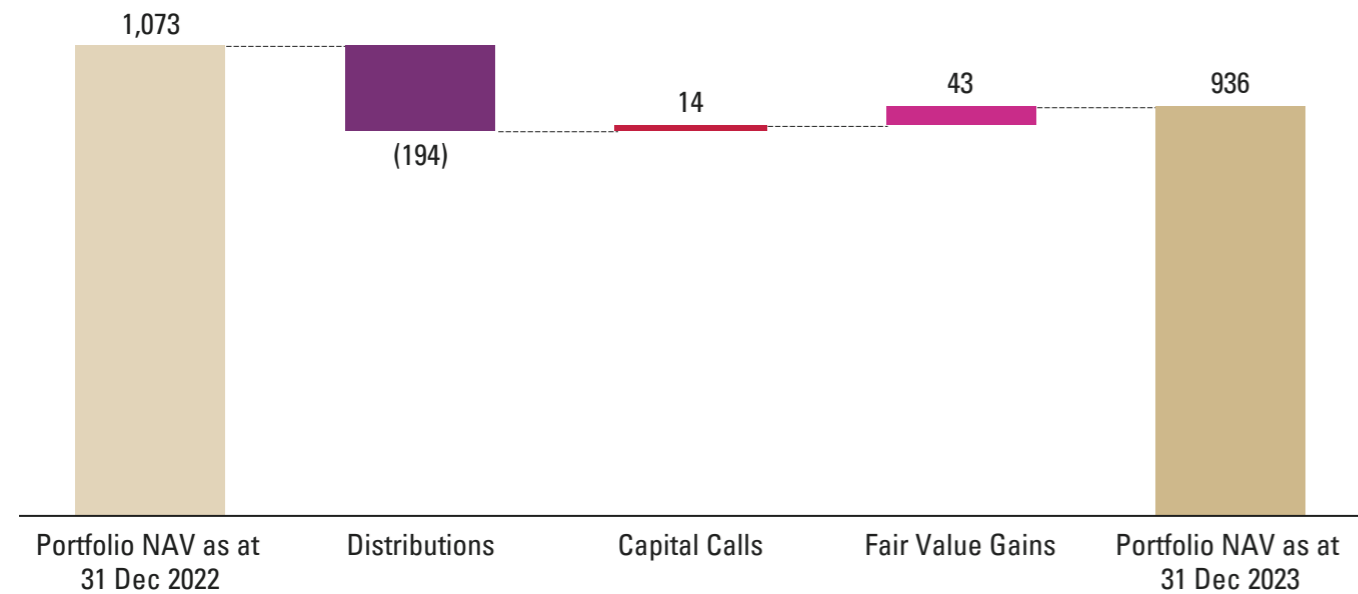

By Fund Vintage

Portfolio NAV Movements

As at 31 December 2023

\$194 million distributions

While distributions were slow and muted in 1H 2023 due to the challenging macroeconomic and exit environment, Astrea V saw a steady pick-up in distributions in 2H 2023, with distributions for the financial year amounting to \$194 million, representing 18% of the beginning portfolio NAV. 77% of these distributions were from U.S. funds. The biggest contributors of distributions during the year include Silver Lake IV, General Atlantic and CD&R IX.

\$14 million capital calls

During the financial year, \$14 million was called. 59% of the capital calls were for new or follow-on investments and the remainder was called for management fees and expenses. As most of the Fund Investments are beyond their investment period, the distributions received are typically higher than the capital calls, thereby generating a positive cash flow profile on an aggregate basis.

\$43 million fair value gains

The Astrea V portfolio also recorded \$43 million of fair value gains over the last year, driven by the increase in share price of listed companies and strong realisations across the portfolio.

Portfolio Highlights

As at 31 December 2023

Total Returns To The Portfolio

4.0%

The total value (Portfolio NAV plus net distributions) of the portfolio increased by 4.0% comprising fair value gains of \$43 million to \$1,116 million during the year. After net distributions of \$180 million, the portfolio NAV as at 31 December 2023 stood at \$936 million.

Total Undrawn Capital Commitment

\$70m

During the financial year, capital calls made for investment and expenses reduced the total undrawn capital commitments by 19.5% from \$87 million to \$70 million.

Schedule of Fund Investments

| # | Funds | Vintage Year | Region | Strategy | NAV (\$m) ^{1,2} | | Undrawn Capital Commitments (\$m) ^{1,2} | |

Top General Partners By NAV

SILVERLAKE

Silver Lake is a global technology investment firm, with approximately \$102 billion in combined assets under management and committed capital and a team of professionals based in North America, Europe and Asia. Silver Lake's portfolio companies collectively generate nearly \$258 billion of revenue annually and employ approximately 517,000 people globally.

More information can be found on the website of Silver Lake (www.silverlake.com).

WARBURG PINCUS

Warburg Pincus LLC is a leading global growth investor. The firm has more than \$83 billion in assets under management. The firm's active portfolio of more than 260 companies is highly diversified by stage, sector, and geography. Warburg Pincus is an experienced partner to management teams seeking to build durable companies with sustainable value. Since its founding in 1966, Warburg Pincus has invested more than \$116 billion in over 1,000 companies globally across its private equity, real estate, and capital solutions strategies. The firm is headquartered in New York with offices in Amsterdam, Beijing, Berlin, Hong Kong, Houston, London, Luxembourg, Mumbai, Mauritius, San Francisco, São Paulo, Shanghai, and Singapore.

More information can be found on the website of Warburg Pincus (www.warburgpincus.com).

KKR

KKR is a leading global investment firm that offers alternative asset management as well as capital markets and insurance solutions. KKR aims to generate attractive investment returns by following a patient and disciplined investment approach, employing world-class people, and supporting growth in its portfolio companies and communities. KKR sponsors investment funds that invest in private equity, credit and real assets and has strategic partners that manage hedge funds.

More information can be found on the website of KKR (www.kkr.com).

Summary

Astrea VI Bonds

| Bonds | Bonds Issued | Interest Rate (%) p.a. | Interest Step-Up ¹ (%) p.a. | Scheduled Call Date | Maturity Date | Ratings ² (Fitch/S&P) |
|-----------|----------------|------------------------|--|---------------------|---------------|----------------------------------|
| Class A-1 | S\$382,000,000 | 3.00 | 1.0 | 18 March 2026 | 18 March 2031 | AA-sf / A+ (sf) |
| Class A-2 | \$228,000,000 | 3.25 | 1.0 | 18 March 2026 | 18 March 2031 | Asf / Not rated |
| Class B | \$130,000,000 | 4.35 | N/A | N/A | 18 March 2031 | Asf / Not rated |

For FY 2023, Astrea VI recorded a net profit of \$28 million which was mainly attributable to the fair value gains from its Fund Investments. The Fund Investments had generated net distributions of \$212 million, which allowed Astrea VI to meet all ongoing obligations. As at 31 December 2023, the value of the Astrea VI Fund Investments stood at \$982 million.

As part of its liquidity risk management, Astrea VI has an available credit facility, which can be drawn to meet capital calls and operating expenses including the payment of interest on Astrea VI Bonds. The facility was not drawn during the financial year.

The audited financial statements for the year ended 31 December 2023 can be found in [Appendix B](#).

Total Reserves Balance as at end of FY2023 was \$308 million, which had been mainly placed into Eligible Investments. Astrea VI met the Performance Threshold in September 2022 and \$1 million of Bonus Redemption Premium will be paid to Class A-1 bondholders upon redemption.

ASTREA VI

Astrea VI issued \$643 million of Astrea VI Bonds on 18 March 2021.

Net of Reserves Balance, the outstanding principal amount of Astrea VI Bonds was \$339 million.

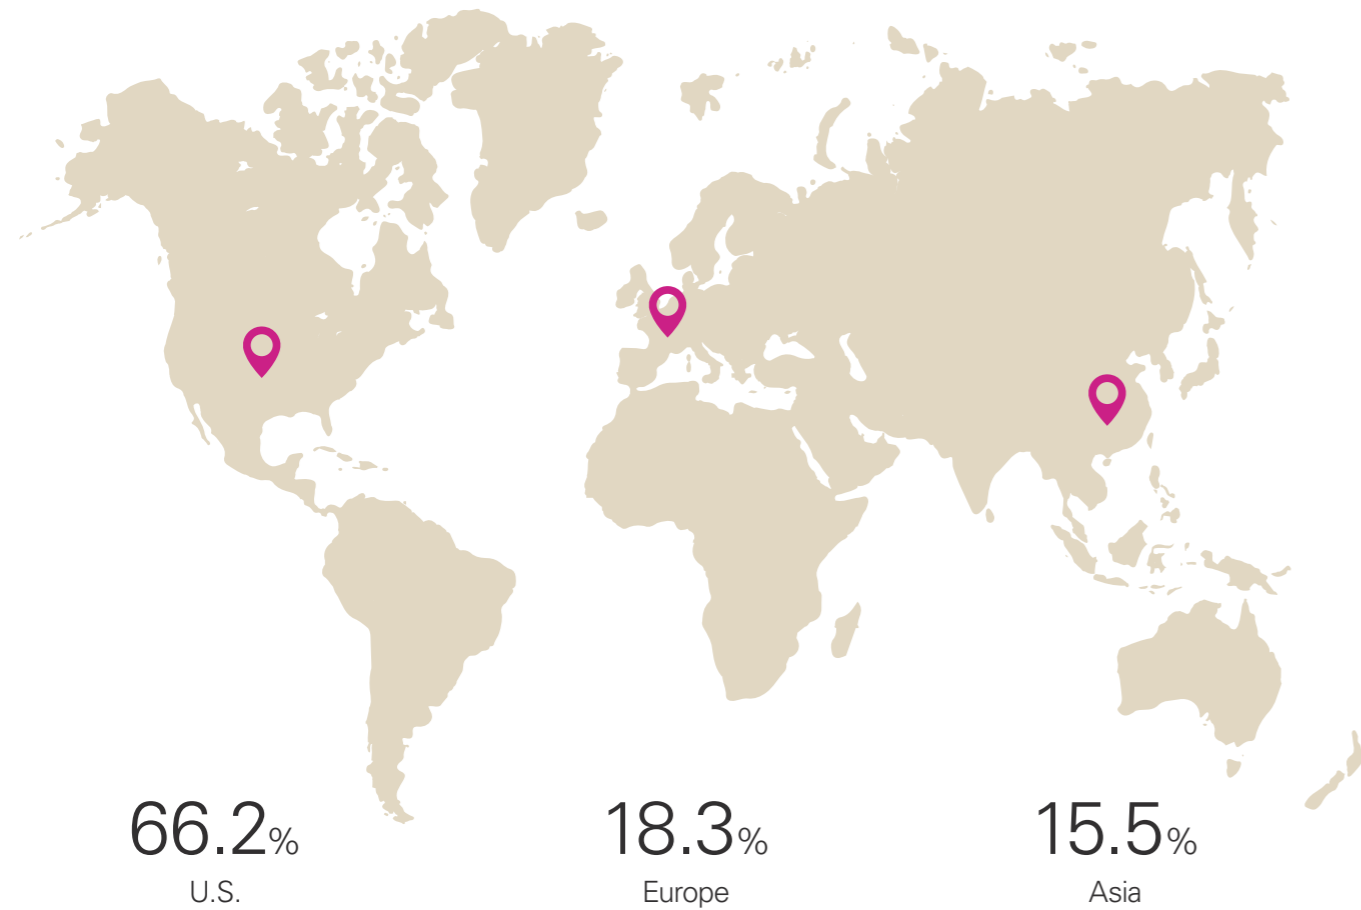

As at 31 December 2023, the reported principal amount of Astrea VI was \$647 million, taking into account the effect of translation of the SGD-denominated Class A-1 Bonds.

1. One time interest rate step-up will apply if relevant Bonds are not redeemed by the Scheduled Call Date
 2. Ratings are as at 16 May 2024

Portfolio Summary

As at 31 December 2023

By Fund Region

The Astrea VI portfolio is diversified across 35 quality PE funds, managed by 28 well-established GPs.

66.2% of the portfolio exposure is to U.S. funds, with the balance to funds in Europe and Asia. Buyout funds, which have the strongest historical performance among PE strategies, comprise 82.0% of the portfolio as at 31 December 2023.

The weighted average fund age of the portfolio is 8.7 years, comprising funds from the 2012-2016 vintages.

As of 30 September 2023, the portfolio comprised investments in 611 underlying investee companies, a decrease from 673 investee companies at 30 September 2022.

By Fund Strategy

82.0%

Buyout

Purchase of controlling stakes in companies that results in control over the companies' assets and operations

18.0%

Growth Equity

Investments in profitable but still maturing companies which are seeking capital to expand or enter into new markets

By Fund Vintage

Portfolio NAV Movements

As at 31 December 2023

\$227 million distributions

While distributions were slow and muted in 1H 2023 due to the challenging macroeconomic and exit environment, Astrea VI saw a steady pick-up in distributions in 2H 2023, with distributions for the financial year amounting to \$227 million, representing 20% of the beginning portfolio NAV. 75% of these distributions were from U.S. funds. The biggest contributors of distributions during the year include Providence VII, Silver Lake IV, and Warburg Pincus XII.

\$15 million capital calls

During the financial year, \$15 million was called. 64% of the capital calls were for new or follow-on investments and the remainder was called for management fees and expenses. As most of the Fund Investments are beyond their investment period, the distributions received are typically higher than the capital calls, thereby generating a positive cash flow profile on an aggregate basis.

\$44 million fair value gains

The Astrea VI portfolio also recorded \$44 million of fair value gains over the last year, driven by the increase in share price of listed companies and strong realisations across the portfolio.

Portfolio Highlights

As at 31 December 2023

Total Returns To The Portfolio

3.8%

The total value (Portfolio NAV plus net distributions) of the portfolio increased by 3.8% comprising fair value gains of \$44 million to \$1,194 million during the year. After net distributions of \$212 million, the portfolio NAV as at 31 December 2023 stood at \$982 million.

Total Undrawn Capital Commitment

\$83m

During the financial year, capital calls made for investment and expenses reduced the total undrawn capital commitments by 16.2% from \$99 million to \$83 million.

The firm is headquartered in New York with offices in Amsterdam, Beijing, Berlin, Hong Kong, Houston, London, Luxembourg, Mumbai, Mauritius, San Francisco, São Paulo, Shanghai, and Singapore.

More information can be found on the website of Warburg Pincus (www.warburgpincus.com).

Summary

Astrea 7 Bonds

| Bonds | Bonds Issued | Interest Rate (%) p.a. | Interest Step-Up ¹ (%) p.a. | Scheduled Call Date | Maturity Date | Ratings ² (Fitch/S&P) |
|-----------|---------------|------------------------|--|---------------------|---------------|----------------------------------|
| Class A-1 | \$526,000,000 | 4.125 | 1.0 | 27 May 2027 | 27 May 2032 | A+sf / A+ (sf) |
| Class A-2 | \$175,000,000 | 5.350 | 1.0 | 27 May 2027 | 27 May 2032 | Asf / Not rated |
| Class B | \$200,000,000 | 6.000 | 1.0 | 27 May 2028 | 27 May 2032 | A-sf / Not rated |

For FY 2023, Astrea 7 recorded a net profit of \$65 million which was mainly attributable to the fair value gains from its Fund Investments. The Fund Investments had generated net distributions of \$168 million, which allowed Astrea 7 to meet all ongoing obligations. As at 31 December 2023, Astrea 7 Fund Investments stood at \$1,538 million.

As part of its liquidity risk management, Astrea 7 has an available credit facility, which can be drawn to meet capital calls and operating expenses including the payment of interest on Astrea 7 Bonds. The facility was not drawn during the financial year.

The audited financial statements for the year ended 31 December 2023 can be found in [Appendix C](#).

Total Reserves Balance as at end of FY2023 was \$171 million, which had been mainly placed into Eligible Investments.

ASTREA 7

Astrea 7 issued \$755 million of Astrea 7 Bonds on 27 May 2022.

Net of Reserves Balance, the outstanding principal amount of Astrea 7 Bonds was \$603 million.

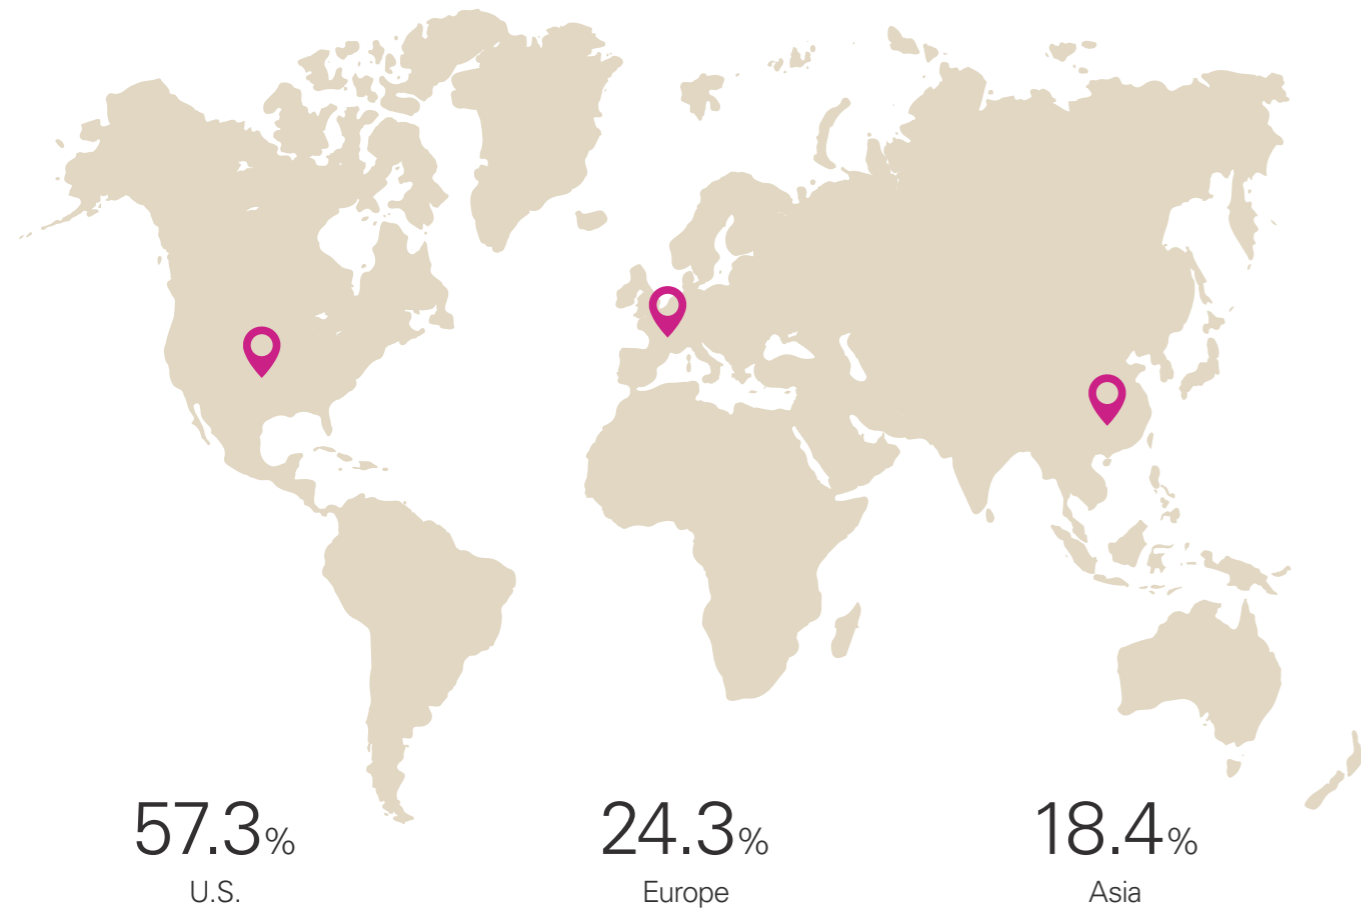

As at 31 December 2023, the reported principal amount of Astrea 7 was \$774 million, taking into account the effect of translation of the SGD-denominated Class A-1 Bonds.

1. One time interest rate step-up will apply if relevant Bonds are not redeemed by the Scheduled Call Date
 2. Ratings are as at 16 May 2024

Portfolio Summary

As at 31 December 2023

By Fund Region

The Astrea 7 portfolio is diversified across 38 quality PE funds, managed by 29 well-established GPs.

57.3% of the portfolio exposure is to U.S. funds, with the balance to funds in Europe and Asia. Buyout funds, which have the strongest historical performance among PE strategies, comprise 78.9% of the portfolio as at 31 December 2023.

The weighted average fund age of the portfolio is 6.0 years, comprising funds from the 2014-2019 vintages.

As of 30 September 2023, the portfolio comprised investments in 946 underlying investee companies, a decrease from 993 investee companies at 30 September 2022.

By Fund Strategy

78.9%

Buyout

Purchase of controlling stakes in companies that results in control over the companies' assets and operations

21.1%

Growth Equity

Investments in profitable but still maturing companies which are seeking capital to expand or enter into new markets

By Fund Vintage

Portfolio NAV Movements

As at 31 December 2023

\$216 million distributions

While distributions were slow and muted in 1H 2023 due to the challenging macroeconomic and exit environment, Astrea 7 saw a steady pick-up in distributions in 2H 2023, with distributions for the financial year amounting to \$216 million, representing 14% of the beginning portfolio NAV. 60% of these distributions were from U.S. funds. The biggest contributors of distributions during the year include EQT Mid Market Europe, CVC VII, and Warburg Pincus XII.

\$48 million capital calls

During the financial year, \$48 million was called. 78% of the capital calls were for new or follow-on investments and the remainder was called for management fees and expenses. As most of the Fund Investments are beyond their investment period, the distributions received are typically higher than the capital calls, thereby generating a positive cash flow profile on an aggregate basis.

\$109 million fair value gains

The Astrea 7 portfolio also recorded \$109 million of fair value gains over the last year, driven by the increase in share price of listed companies and strong realisations across the portfolio.

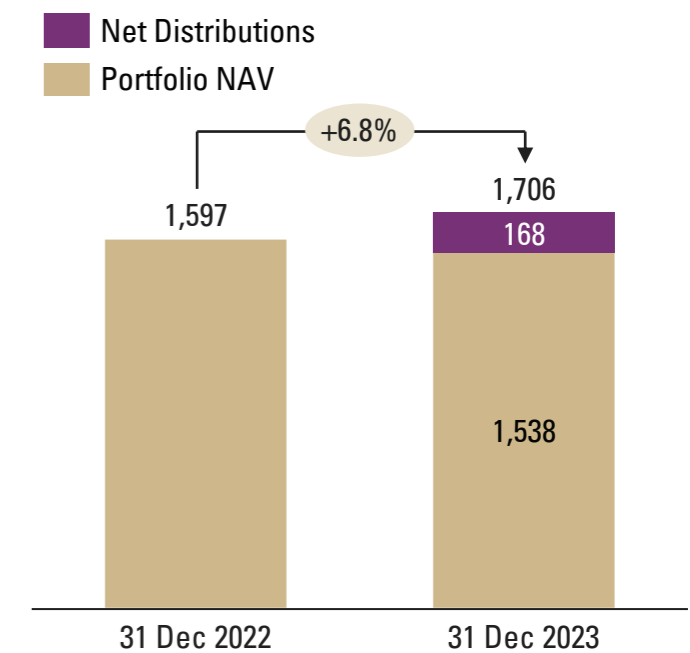

Portfolio Highlights

As at 31 December 2023

Total Returns To The Portfolio

6.8%

The total value (Portfolio NAV plus net distributions) of the portfolio increased by 6.8% comprising fair value gains of \$109 million to \$1,706 million during the year. After net distributions of \$216 million, the portfolio NAV as at 31 December 2023 stood at \$1,538 million.

Total Undrawn Capital Commitment

\$147m

During the financial year, capital calls made for investment and expenses reduced the total undrawn capital commitments by 14.5% from \$172 million to \$147 million.

Schedule of Fund Investments

| # | Funds | Vintage Year | Region | Strategy | NAV (\$m) ^{1,2} | | Undrawn Capital Commitments (\$m) ^{1,2} | |

Case Study

Company
Apptio

General Partner
Vista Equity Partners
("Vista")

Investment Type
Buyout

Geography
United States,
North America

Astrea
VI, 7

Apptio is a leading provider of technology business management solutions and it focuses on developing software-as-a-service solutions that enable businesses to assess and communicate the cost of IT services for planning, budgeting and forecasting. Vista completed a take private of Apptio in 2019 for about \$1.9 billion. Under Vista's ownership, the software developer flourished, doubling its revenue, and quadrupling its EBITDA margins. Since 2019, Apptio has expanded its customer base from approximately 440 customers to around 1,800 customers, including over 60 percent of the Fortune 500. In 2023, IBM acquired Apptio for \$4.6 billion.

INVESTMENT THESIS

- Pioneer in technology business management with a market leading position
- Mission-critical software that helps optimise IT spend, manage cloud expenses, and implement effective financial operations and monitoring tools
- Strong underlying digital transformation trends and wide scale adoption of cloud computing

VALUE CREATION

- Executed mergers and acquisitions strategy to transform Apptio from a single product company to a comprehensive IT financial planning platform
- Expanded and diversified Apptio's platform, which significantly grew the company's total addressable market and opened new go-to-market channels

Company
Breitling

General Partner
CVC Capital Partners ("CVC")

Investment Type
Buyout

Geography
Switzerland,
Europe

Astrea
V, VI, 7

Breitling is a leading vertically integrated, independent manufacturer of Swiss luxury watches. Founded in 1884, Breitling has a unique, iconic brand with over 130 years of heritage. In 2017, Breitling was valued at about CHF800 million when CVC purchased a majority stake in the firm. Since then, CVC has worked closely with Breitling's management to fundamentally transform the business and making it into one of the world's most dynamic and progressive luxury watch brands. In December 2022, Breitling was valued at CHF4.2 billion as CVC sold part of its stake in the Swiss watchmaker to Partners Group.

INVESTMENT THESIS

- Proud heritage, high brand awareness, and excellent reputation as one of the finest watchmakers in the world
- Attractive long-term luxury watch trends with significant growth potential for Breitling in both existing and new geographies

VALUE CREATION

- Accelerated Breitling's growth through a repositioned brand and a rejuvenated product offering
- Grew direct-to-consumer sales channels and expanded Breitling's retail network, particularly in Asia and the U.S.
- Improved operational efficiency and digitisation of the business

Astrea
7

Founded in 1949, Kokusai Electric is a manufacturer and distributor of semiconductor manufacturing systems. The firm was spun out from Hitachi and acquired by KKR at a ¥257.1 billion valuation in 2018, of which the original equity value of KE was ¥38.4 billion. Today, the firm has some of the world's most notable semiconductor companies such as Samsung Electronics, TSMC, Intel, and Micron Technology as its customers. In October 2023, KE debuted on the Tokyo Stock Exchange at a ¥424 billion valuation, marking the largest initial public offering in Tokyo since SoftBank became listed in 2018.

INVESTMENT THESIS

- World class provider of semiconductor manufacturing solutions
- Strong demand for semiconductors due to the global spread of smartphones and data server centres
- Opportunity to take advantage of the push by Japanese conglomerates to restructure and spin off non-core assets to streamline their businesses

VALUE CREATION

- Worked closely with the firm's management and provided them with the necessary expertise to help improve profitability post spin-off
- Expanded Kokusai's businesses, promoted overseas growth, and established a stable business base through structural reforms

North America

Astrea
V, VI, 7

OneOncology is a patient-centric, physician-driven, and technology-powered company with a mission to improve the lives of everyone living with cancer. The company launched in 2018 when General Atlantic banded together three founding practices: Tennessee Oncology, New York Blood and Cancer Specialists, and West Cancer Center, uniting over 225 oncology providers across more than 60 care locations with the aim of expanding community-based cancer care. In 2023, TPG and Cencora (formerly known as AmerisourceBergen), a global pharmaceutical solutions company, acquired OneOncology from General Atlantic, valuing the company at \$2.1 billion.

INVESTMENT THESIS

- Strong underlying demand for high-quality community-based oncology care in the US
- Potential to address the challenges faced by existing community oncology practices, including increased pressure from hospital consolidation
- Opportunity to leverage economies of scale to reduce operating costs, increase access to capital, and share best practices and knowledge across the platform

VALUE CREATION

- Recruited key executive team members who brought to the firm extensive experience in clinical, technological, and financial operations
- Helped expand the firm's partnerships with other oncology practices, allowing the firm to deliver high-value cancer services to approximately half a million cancer patients a year, up from approximately 158,000 in 2018

Summit Health, headquartered in New York, is the largest independent multispecialty, outpatient-focused physician group in the US. In 2017, Warburg Pincus invested in CityMD, a large chain of New York City urgent-care centres at an enterprise value of \$596 million. Since then, Warburg Pincus helped the company complete multiple transformative acquisitions, including the 2019 merger with Summit Medical Group, a multi-specialty medical practice group, to create Summit Health. In early 2023, Warburg Pincus closed the sale of Summit Health to VillageMD, a clinic operator owned by Walgreens Boots Alliance, for an enterprise value of \$8.9 billion.

INVESTMENT THESIS

- Fast-growing company with strong strategic positioning in the New York healthcare ecosystem
- Highly differentiated consumer value proposition with good reputation among customers
- Opportunity to further consolidate the regional market and address additional healthcare needs of patients

VALUE CREATION

- Helped execute 13 transformative acquisitions and expanded Summit Health's footprint from 70 locations and 300 physicians to over 370 outpatient settings and over 2,800 physicians and medical practitioners
- Extended the company's urgent care offerings to include both primary and specialty care capabilities

ASTREA V PTE. LTD. AND ITS SUBSIDIARIES

DIRECTORS' STATEMENT

For the financial year ended 31 December 2023

The directors present their statement to the member of Astrea V Pte. Ltd. (the "Company") and its subsidiaries (the "Group") together with the audited financial statements of the Group for the financial year ended 31 December 2023 and the balance sheet of the Company as at 31 December 2023.

In the opinion of the directors,

- (a) the balance sheet of the Company and the consolidated financial statements of the Group set out on pages 17 to 45 are drawn up so as to give a true and fair view of the financial position of the Company and Group as at 31 December 2023 and of the financial performance of the business, changes in equity and cash flows of the Group for the financial year covered by the consolidated financial statements; and
- (b) at the date of this statement, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

The Board of Directors has, on the date of this statement, authorised these financial statements for issue.

Directors

The directors in office at the date of this statement are as follows:

Dr Teh Kok Peng
Chan Ann Soo
Wong Heng Tew
Chinniah Kunnasagaran
Adrian Chan Pengee
Kan Shik Lum
David Jackson Sandison

Arrangements to enable directors to acquire shares and debentures

Neither at the end of nor at any time during the financial year was the Company a party to any arrangement whose object was to enable the directors of the Company to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate.

ASTREA V PTE. LTD. AND ITS SUBSIDIARIES

DIRECTORS' STATEMENT

For the financial year ended 31 December 2023

Directors' interests in shares or debentures

INDEPENDENT AUDITOR'S REPORT TO THE MEMBER OF ASTREA V PTE. LTD.

Report on the Audit of the Financial Statements

Our opinion

In our opinion, the accompanying consolidated financial statements of Astrea V Pte. Ltd. (the "Company") and its subsidiaries (the "Group") and the balance sheet of the Company are properly drawn up in accordance with the provisions of the Companies Act 1967 (the "Act") and Singapore Financial Reporting Standards (International) ("SFRS(I)s") and International Financial Reporting Standards ("IFRSs") so as to give a true and fair view of the consolidated financial position of the Group and the financial position of the Company as at 31 December 2023 and of the consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group for the financial year ended on that date.

What we have audited

The financial statements of the Company and the Group comprise:

- the consolidated statement of comprehensive income of the Group for the financial year ended 31 December 2023;
- the consolidated balance sheet of the Group as at 31 December 2023;
- the balance sheet of the Company as at 31 December 2023;
- the consolidated statement of changes in equity of the Group for the financial year then ended;
- the consolidated statement of cash flows of the Group for the financial year then ended; and
- the notes to the financial statements, including material accounting policies.

Basis for Opinion

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the Accounting and Corporate Regulatory Authority Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code.

Our Audit Approach

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the accompanying financial statements. In particular, we considered where management made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBER OF ASTREA V PTE. LTD. (continued)

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements for the financial year ended 31 December 2023. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

| Key Audit Matter | How our audit addressed the Key Audit Matter |
|---|--|
| <p>Valuation of private equity fund investments</p> <p>As at 31 December 2023, <i>financial assets at fair value through profit or loss – investment in private equity funds</i> was stated at US\$936,392,000 (2022: US\$1,072,933,000). This relates to the Group's interest in private equity funds ("investments") and accounted for 64% (2022: 68%) of the total assets. These investments are not publicly traded and their prices are not observable in the market.</p> <p>We focused on the valuation of these investments given the significant value of the investments, management's reliance on the quarterly capital account statements and management's judgement in making adjustments to ascertain the fair value.</p> <p>Refer to <i>Note 4 – Critical accounting estimates and judgements</i> and <i>Note 11 – Financial assets at fair value through profit or loss</i> for the disclosures relating to the valuation of these investments.</p> | <p>We evaluated the reasonableness of management's estimate of the fair value of the investments by taking into consideration the following:</p> <ul style="list-style-type: none"> • Latest available quarterly capital account statements and/or audited financial statements of the investments (the "Statements"); • Valuation details in the Statements provided by the fund managers; • Drawdowns and distributions made throughout the financial period; and • Any significant observable data including latest transacted price net of associated costs. <p>We found no significant exceptions from performing these procedures.</p> |

INDEPENDENT AUDITOR'S REPORT TO THE MEMBER OF ASTREA V PTE. LTD. (continued)

Other Information

Management is responsible for the other information. The other information comprises all the sections of the annual report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Directors for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act, SFRS(I)s and IFRSs, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control

INDEPENDENT AUDITOR'S REPORT TO THE MEMBER OF ASTREA V PTE. LTD. (continued)

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company and by those subsidiary corporations incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

The engagement partner on the audit resulting in this independent auditor's report is Yuneswaran, Keraishnasamy.

ASTREA V PTE. LTD. AND ITS SUBSIDIARIES

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

1. General information

Astrea V Pte. Ltd. (the “Company”) is incorporated and domiciled in Singapore. The address of the Company’s registered office is 1 Wallich Street, #32-02 Guoco Tower, Singapore 078881.

The principal activity of the Group is that of investment holding.

The immediate, intermediate and ultimate holding companies at the end of the financial year are Astrea Capital V Pte. Ltd., Azalea Asset Management Pte. Ltd. and Temasek Holdings (Private) Limited respectively. All companies are incorporated in Singapore.

The Company issued the Class A-1 Bonds, Class A-2 Bonds and Class B Bonds (the “Astrea V Bonds”¹) on 20 June 2019 (Note 15).

2. Basis of preparation

2.1 Statement of compliance

The financial statements have been prepared in accordance with Singapore Financial Reporting Standards (International) (“SFRS(I)”) and International Financial Reporting Standards (“IFRS”). All reference to SFRS(I) and IFRS are subsequently referred to SFRS(I) in these financial statements unless otherwise specified.

2.2 Basis of measurement

The financial statements have been prepared under the historical cost convention, except as otherwise disclosed in the accounting policies below.

2.3 Functional and presentation currency

The financial statements are presented in United States Dollar, which is the Company’s functional currency and one which best reflects the primary economic environment in which the Group operates. All financial information presented in United States Dollar has been rounded to the nearest thousand, unless otherwise stated.

¹ A summary of the Astrea V Bonds can be found in the Astrea V Bonds’ Prospectus, section “Summary of the Transaction”.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

2. Basis of preparation (continued)

2.4 Use of estimates and judgement

The preparation of financial statements in conformity with SFRS(I) requires management to make judgements, estimates and assumptions that affect the application of accounting policies and in reporting the amounts in the financial statements. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information on areas involving a high degree of judgement or areas where estimates are significant to the financial statements is set out in Note 4.

2.5 New or revised accounting standards and interpretations

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning on or after 1 January 2023 and are mandatory for application. This did not result in substantial changes to the Group's accounting policies and had no material effect on the amounts reported for the current or prior financial periods.

3. Material accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

3.1 Consolidation

(a) Consolidation

Subsidiaries are entities (including structured entities) over which the Group has control. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated in the consolidated financial statements from the date that control commences until the date that control ceases.

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment. The accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

3. Material accounting policies (continued)

3.1 Consolidation (continued)

(b) Loss of control

Upon loss of control, the Group derecognises the assets and liabilities of the subsidiary. Any surplus or deficit arising on the loss of control is recognised in the consolidated statement of comprehensive income. If the Group retains any interest in the previous subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently, it is accounted for as an equity-accounted investee or as a financial asset depending on the level of influence retained.

3.2 Foreign currency translation

Transactions and balances

Transactions in foreign currencies are translated to the functional currency of the Group entities at the exchange rate at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated to the functional currency at the exchange rate at that date. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are translated to the functional currency at the exchange rate at the date on which the fair value was determined. Non-monetary items denominated in a foreign currency that are measured in terms of historical cost are translated using the exchange rate at the date of the transaction.

Foreign currency differences arising on translation are recognised in the profit or loss.

3.3 Financial instruments

Non-derivative financial instruments

Non-derivative financial instruments comprise investment in private equity funds, quoted and fixed income securities, trade and other receivables (excluding prepayments), cash and cash equivalents, other payables and borrowings.

Cash and cash equivalents comprise cash balances and bank deposits.

A financial instrument is recognised when the Group becomes a party to the contractual provisions of the instrument. Financial assets are derecognised when the Group's contractual rights to the cash flows from the financial assets expire or if the Group transfers the financial asset to another party without retaining control or transfers substantially all the risks and rewards of ownership of the asset. On disposal of a financial asset, the difference between the sale proceeds and the carrying amount is recognised in the profit or loss.

3. Material accounting policies (continued)

3.3 Financial instruments (continued)

Non-derivative financial instruments (continued)

Regular way purchases and sales of financial assets are accounted for at trade date, i.e. the date that the Group commits itself to purchase or sell the asset.

Financial liabilities are derecognised if the Group's obligations specified in the contract expire or are discharged or cancelled.

Financial assets and liabilities are offset and the net amount presented in the balance sheet when, and only when, the Group has a legal and enforceable right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously. They are presented as current assets and liabilities if they are expected to be realised or settled within one year or less. Otherwise, they are presented as non-current.

Non-derivative financial instruments are recognised initially at fair value plus, for instruments not at fair value through profit or loss, any directly attributable transaction costs. Subsequent to initial recognition, non-derivative financial instruments are measured as described below.

Financial assets

On initial recognition, a financial asset is classified and measured at fair value through profit or loss or at amortised cost. Financial assets will be reclassified subsequent to their initial recognition only when the Group changes its business model for managing financial assets. The determination of the classification at initial and subsequent recognition into each of the measurement category are as described below.

(a) Financial assets at fair value through profit or loss

A financial asset is classified as fair value through profit or loss if it is held for trading or performance of the financial assets are measured on fair value basis. Movement in fair value and interest income is recognised in profit or loss. Financial assets at fair value through profit or loss includes investment in private equity funds, quoted and fixed income securities.

Distributions received from investment in private equity funds are recognised as a repayment of investment cost. Any distributions in excess of investment cost are recognised in the profit or loss.

3. Material accounting policies (continued)

3.3 Financial instruments (continued)

Non-derivative financial instruments (continued)

Financial assets (continued)

(b) Financial assets at amortised cost

A financial asset is measured at amortised cost if it is held for the collection of contractual cash flows and where the cash flows represent solely payments of principal and interest. These assets are subsequently measured at amortised cost using effective interest method. Any gain or loss on the financial asset that is subsequently measured at amortised cost is recognised in profit or loss when the financial asset is derecognised or impaired. Financial assets at amortised cost include cash and cash equivalents and trade and other receivables.

Financial liabilities

(a) Other payables

Other payables are initially carried at fair value, and subsequently carried at amortised cost using the effective interest method.

(b) Borrowings

Borrowings are carried at amortised cost. Any difference between the proceeds (net of transaction cost) and the redemption value is recognised in the profit or loss over the period of the borrowings using the effective interest method.

Impairment of financial assets

The Group assesses the expected credit losses associated with its financial assets carried at amortised cost on a forward-looking basis. The methodology applied depends on whether there had been a significant increase in credit risk. The Group considers significant increase in credit risk as a material deterioration on the counterparty's rating and the counterparty is unlikely to pay its obligations to the Group in full.

3.4 Loan from immediate holding company

Loan from immediate holding company is classified as equity as the repayment is at the discretion of the Company.

3. Material accounting policies (continued)

3.5 Share capital

(a) Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects.

(b) Preference shares

Preference shares are classified as equity as they are not redeemable on a specific date and are redeemable at the discretion of the Company. Dividend payments are also discretionary.

3.6 Derivative financial instruments

Derivative financial instruments are recognised initially at fair value and attributable transaction costs are recognised in the profit or loss as incurred. Subsequent to initial recognition, derivative financial instruments are measured at fair value, and changes therein are recognised in the profit or loss.

3.7 Impairment of non-financial instruments

The carrying amounts of non-financial assets are reviewed at each balance sheet date to determine whether there is any objective evidence or indication of impairment. If any such indication exists, the assets' recoverable amounts are estimated. An impairment loss is recognised if the carrying amount of an asset exceeds its estimated recoverable amount.

The recoverable amount of an asset is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets.

Impairment losses are recognised in the profit or loss. Impairment losses recognised in prior periods are assessed at each balance sheet date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

3. Material accounting policies (continued)

3.8 Other income

Other income comprises interest on cash balances, bank deposits and fixed income securities and is recognised based on the effective interest method.

3.9 Tax

Tax expense comprises current tax. Tax expense is recognised in the profit or loss except to the extent that it relates to items recognised directly in equity or in other comprehensive income.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of prior years.

3.10 Structured entities

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements.

A structured entity often has some or all of the following features or attributes; (a) restricted activities, (b) a narrow and well-defined objective, such as to provide investment opportunities for investors by passing on risks and rewards associated with the assets of the structured entity to investors, (c) insufficient equity to permit the structured entity to finance its activities without subordinated financial support and (d) financing in the form of multiple contractually linked instruments to investors that create concentrations of credit or other risks (tranches).

The change in fair value of such structured entities is included in the statement of comprehensive income.

3.11 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Board of Directors who are responsible for allocating resources and assessing performance of the operating segments.

3.12 Investment in subsidiaries

Investment in subsidiaries including loan to subsidiaries are carried at cost less accumulated impairment losses in the Company's balance sheet. On disposal of such investments, the difference between disposal proceeds and the carrying amounts of the investments are recognised in profit or loss.

3. Material accounting policies (continued)

3.13 Dividends

Dividends to the Company's shareholder are recognised when the dividends are approved for payment.

4. Critical accounting estimates and judgements

Estimates, assumptions and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The accounting policies that are deemed to be critical to the amounts recognised in the financial statements, or which involve a significant degree of judgement and estimation, are discussed below:

Fair value estimation

The Group invests in private equity fund investments which are managed by third-party fund managers. These fund managers provide quarterly statements and annual audited financial statements to the Group to report their assessment of the fair value of the underlying investments.

The Group relies on the fund managers' latest available quarterly capital account statements and/or audited financial statements to determine the fair value of its investment in the private equity funds and may make adjustments accordingly as described in Note 20(e).

Management believes that any change in the key assumptions used by the fund managers to determine the fair value estimation in these abovementioned statements may cause the fair values to be different and the difference could be material to the financial statements.

5. Net gains/(losses) on financial assets at fair value through profit or loss

| | <u>Group</u> | |
|---|------------------|------------------|
| | 2023 US\$'000 | 2022 US\$'000 |

9. Income tax expense

| | <u>Group</u> | |
|---|------------------|------------------|
| | 2023 US\$'000 | 2022 US\$'000 |
| Current tax expense | | |
| Current year | - | - |
| Reconciliation of effective tax rate | | |
| Profit/(Loss) before income tax | <u>30,861</u> | <u>(213,917)</u> |
| Income tax using Singapore tax rate of 17% (2022: 17%) | 5,246 | (36,366) |
| Income not subject to tax | (11,268) | (2,976) |
| Expenses not deductible for tax purposes | <u>6,022</u> | <u>39,342</u> |
| | <u>-</u> | <u>-</u> |

The Group has been approved for the Enhanced-Tier Fund Tax Incentive Scheme under Section 13U of the Income Tax Act 1947 with effect from 2 January 2019. The tax exemption status will be for the life of the Group, provided that the Group continues to meet all conditions and terms.

10. Subsidiaries

| | <u>Company</u> | |
|---------------------------|------------------|------------------|
| | 2023 US\$'000 | 2022 US\$'000 |
| At cost | | |
| Ordinary shares | 2,000 | 2,000 |
| Preference shares | <u>18,000</u> | <u>18,000</u> |
| Total cost of investments | <u>20,000</u> | <u>20,000</u> |
| Loans to subsidiaries | <u>359,178</u> | <u>462,817</u> |

On 11 June 2019, the Company entered into shareholder loan agreements (the "Shareholder Loan Agreements") with its subsidiaries. Under the Shareholder Loan Agreements, loan to subsidiaries are unsecured and interest-free. On the 20th anniversary of the date of the Shareholder Loan Agreements, or earlier as agreed by all parties, the Company's subsidiaries have the option to repay in cash or issue ordinary shares at US\$1 each which in aggregate is equal to the outstanding amount. As such, loan to subsidiaries are classified as non-current and stated at cost less accumulated impairment losses.

ASTREA V PTE. LTD. AND ITS SUBSIDIARIES

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

10. Subsidiaries (continued)

Details of subsidiaries are as follows:

| <u>Name of subsidiaries</u> | <u>Principal place of business</u> | <u>Country of incorporation</u> | <u>Percentage of equity held</u> | |
|-------------------------------|------------------------------------|---------------------------------|----------------------------------|-----------|
| | | | 2023 % | 2022 % |
| AsterFive Assets I Pte. Ltd. | Singapore | Singapore | 100 | 100 |
| AsterFive Assets II Pte. Ltd. | Singapore | Singapore | 100 | 100 |

11. Financial assets at fair value through profit or loss

| | <u>Group</u> | | <u>Company</u> | |
|---------------------------------------|------------------|------------------|------------------|------------------|
| | 2023 US\$'000 | 2022 US\$'000 | 2023 US\$'000 | 2022 US\$'000 |
| Non-current | | | | |
| Investment in private equity funds | 930,065 | 1,072,933 | - | - |
| Current | | | | |
| Investment in private equity funds | 6,327 | - | - | - |
| Investment in fixed income securities | 463,355 | 364,497 | 463,355 | 364,497 |
| | 469,682 | 364,497 | 463,355 | 364,497 |

The Group entered into an agreement on 5 April 2024 to divest a private equity fund investment. The divestment is in accordance with permitted activities set out in the Astrea V Bond's prospectus². As of the end of the financial year, the fair value of the private equity fund investment is represented by the transaction price and has been classified as current.

The Group's exposures to market risks and the fair value hierarchy information relating to the financial assets at fair value through profit or loss are disclosed in Note 20.

The Group had placed a portion of the Reserves Balance in fixed income securities in accordance with the Eligible Investments conditions set out in the Astrea V Bonds' prospectus.

² A summary of permitted activities can be found in the Astrea V Bond's prospectus, section "The Issuer" and under sub-section "Restriction of Activities".

ASTREA V PTE. LTD. AND ITS SUBSIDIARIES

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

11. Financial assets at fair value through profit or loss (continued)

Structured entities

The Group considers all its investment in private equity funds to be structured entities and does not have any power over these entities such that its involvement will vary its returns from these entities. These structured entities finance their operations through capital commitments from their investors.

The Group's maximum exposure to loss from its interests in structured entities is equal to the total fair value of its investment in these structured entities and any uncalled capital commitments.

Once the Group no longer holds interest in a structured entity, the Group ceases to be exposed to any risk from that entity.

12. Derivative financial instruments

Derivative financial instruments comprise net fair value gain/loss of the Euro and Singapore Dollar currency forwards used to manage the exposures from the Group's investment in private equity funds and borrowings. The contracted notional principal amount of the derivatives outstanding at balance sheet date is US\$277,024,000 (2022: US\$326,011,000).

The Group's exposure to liquidity risk relating to derivative financial instruments is disclosed in Note 20(c).

13. Trade and other receivables

| | <u>Group</u> | | <u>Company</u> | |
|-------------------|--------------|--------------|----------------|--------------|
| | 2023 | 2022 | 2023 | 2022 |
| | US\$'000 | US\$'000 | US\$'000 | US\$'000 |
| Trade receivables | - | 1,044 | - | - |
| Prepayments | 55 | 74 | 55 | 74 |
| Other receivables | 3,744 | 2,855 | 3,653 | 2,766 |
| | 3,799 | 3,973 | 3,708 | 2,840 |

Trade receivables represent distributions pending receipt from the Group's investment in private equity funds which have been received after the end of the financial year.

The Group's and Company's exposure to credit risk relating to trade and other receivables are disclosed in Note 20(b).

^(#) Transaction costs were costs that were directly attributable to the issue of the Astrea V Bonds. Such transaction costs were allocated between the different classes by the initial principal amount and recognised in the profit or loss over the shorter of scheduled maturity period or final maturity period. The figures presented in the table shows the remaining transaction cost to be recognised in the profit or loss.

ASTREA V PTE. LTD. AND ITS SUBSIDIARIES

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

15. Borrowings (continued)

The Astrea V Bonds were issued on 20 June 2019 and have the following characteristics:

- A first fixed charge over all present and future shares held by the Company in its subsidiaries, and all present and future dividends in respect of such shares;
- A first fixed charge over the Company's present and future bank accounts and custody accounts;
- An assignment of all the Company's present and future rights, title and interest in and to the Shareholder Loan Agreements (the "Agreements"), including all moneys payable to the Company and any claims, awards and judgement in favour of, receivable or received by the Company under or in connection with or pursuant to the Agreements; and
- A first floating charge over the Company's undertaking and all of its assets, both present and future.

The fair value of the borrowings as at balance sheet date is US\$604,899,000 (2022: US\$585,192,000).

Reconciliation of borrowings arising from financing activities

| | 50,000 | 50,000 |
| | | |
| | No. of shares | |
| | 2023 | 2022 |
| <u>Fully paid ordinary shares with no par value</u> | | |
| At beginning and end of the financial year | 1,000,000 | 1,000,000 |
| | | |
| <u>Fully paid preference shares with no par value</u> | | |
| At beginning and end of the financial year | 49,000,000 | 49,000,000 |

The holder of ordinary shares is entitled to receive dividends as declared from time to time and is entitled to one vote per share at meetings of the Company. All ordinary shares rank equally with regard to the Company's residual assets.

The terms of the preference shares are contained in the Constitution of the Company and the main terms are summarised as follows:

- The holders shall be entitled, in preference to the holders of ordinary shares, to receive a preferential dividend determined by the Company from time to time.
- Upon liquidation, the holders shall have the right of repayment of capital in priority to the holders of ordinary shares and to participate equally with the holders of ordinary shares in any surplus assets.
- The holders shall have the same rights to attend, speak and vote at any general meeting of the Company as those conferred on the holders of ordinary shares.
- The Company shall have the sole right at any time and from time to time to redeem, in whole or in part, by giving not less than 30 days prior notice to the holders.

ASTREA V PTE. LTD. AND ITS SUBSIDIARIES

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

18. Loan from immediate holding company

On 11 June 2019, the Company entered into a shareholder loan agreement (the “Sponsor Shareholder Loan Agreement”) with its immediate holding company. Under the Sponsor Shareholder Loan Agreement, loan from immediate holding company is unsecured and interest-free. On the 20th anniversary of the date of the Sponsor Shareholder Loan Agreement, or earlier as agreed by all parties, the Company has the option to repay in cash or issue ordinary shares at US\$1 each which in aggregate is equal to the outstanding amount.

19. Dividends

| | 2023 | Group | 2022 |
|--|-----------------|--------------|-----------------|
| | US\$'000 | | US\$'000 |
| Interim dividends paid in respect of the current financial year of US\$1.02 per preference share (2022: US\$0.42 per preference share) | 50,000 | | 20,500 |

20. Financial risk management

The Group’s activities expose it to a variety of financial risk: market risk (including currency risk, price risk and interest rate risk), credit risk, liquidity risk and capital risk.

The Group’s investments comprise a stable portfolio of private equity funds which are held for the long term. The Group’s risk management approach is to minimise the potential adverse effects on the Group’s financial performance. Specific investment guidelines on exposure to security types and concentration limits are in place for the Group at any time. The Group’s strategy of investing in a diversified portfolio of funds with widely diversified underlying companies is part of the overall financial risk management.

(a) Market risk

(i) *Currency risk*

The Group’s exposure to foreign currency risk arises from its financial assets and financial liabilities which are denominated in foreign currencies mainly in Singapore Dollar (“SGD”) and Euro (“EUR”).

ASTREA V PTE. LTD. AND ITS SUBSIDIARIES

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

20. Financial risk management (continued)

(a) Market risk (continued)

(i) Currency risk (continued)

A 1% (2022: 1%) strengthening/weakening of the USD against the foreign currencies at balance sheet date would have decreased/increased profit or loss by the amounts shown below. The analysis assumes that all other variables remain constant.

| | <u>Group</u> | | <u>Company</u> | |
|-----|------------------|------------------|------------------|------------------|
| | 2023 US\$'000 | 2022 US\$'000 | 2023 US\$'000 | 2022 US\$'000 |
| SGD | 26 | 160 | 25 | 159 |
| EUR | 890 | 753 | (330) | 674 |

(ii) Price risk

Price risk is the risk arising from uncertainties on future prices of investments classified as financial assets at fair value through profit or loss.

The Group does not have significant exposure to price risk to quoted securities. The Group expects price fluctuations for its listed investment in fixed income securities to arise principally from interest rate risk and credit risk. The interest rate risk and credit risk information on its investment in fixed income securities is presented in Note 20(a)(iii) and Note 20(b) respectively.

The fair value information on its investment in private equity funds is presented in Note 20(e).

(iii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Group's financial instruments will fluctuate because of changes in market interest rate. The fixed income securities, fixed deposits and bonds issued under Astrea V Bonds have fixed rates and are independent of changes in the market interest rates.

The Group has exposure to fair value interest risk from its investment in fixed income securities. If interest rates increase or decrease by 1% (2022: 1%), the profit before tax would have been higher or lower by US\$1,154,000 (2022: US\$4,516,000), arising mainly as a result of an increase and decrease in fair value of the investment in fixed income securities.

ASTREA V PTE. LTD. AND ITS SUBSIDIARIES

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

20. Financial risk management (continued)

(b) Credit risk

Credit risk is the risk of financial loss to the Group if a counterparty to financial instruments fails to meet its contractual obligations, and principally from the Group's financial assets at amortised cost and investment in fixed income securities. This exposure is managed by diversifying its credit risks and dealing mainly with high credit quality counterparties assessed by international credit rating agencies. The credit ratings of these financial assets are monitored for credit deterioration.

The maximum exposure to credit risk to the Group's financial assets is the carrying amount as presented on the balance sheet.

The Group's trade and other receivables and cash and cash equivalents are categorised as financial assets at amortised cost. As the Group's financial assets at amortised cost are transacted with counterparties which has investment grade rating by international credit rating agencies, these financial assets are subject to immaterial credit loss and there has been no movement in credit loss allowances for the year.

(c) Liquidity risk

Liquidity risk is the risk that the Group may encounter difficulty in meeting the obligations associated with its financial liabilities and uncalled capital commitments that are settled by delivering cash or another financial asset.

The Group manages its liquidity risk through a combination of maintaining sufficient cash and cash equivalents and maintenance of credit facilities. Excess funds are invested in short-term bank deposits.

The Group's credit facilities can be utilised for funding of capital drawdowns for its investment in private equity funds and operating expenses. There were no drawdowns during the financial year.

The following are the contractual maturities of financial liabilities:

| | Cash flows | | | | |
|----------------|-----------------------------|------------------------------------|---------------------------|----------------------------------|-------------------------------|
| | Carrying amount US\$'000 | Contractual cash flows US\$'000 | Within 1 year US\$'000 | Between 1 to 5 years US\$'000 | More than 5 years US\$'000 |
| 2023 | | | | | |
| Other payables | 1,108 | 1,108 | 1,108 | - | - |
| Borrowings | 607,240 | 608,702 | 468,702 | - | 140,000 |
| | 608,348 | 609,810 | 469,810 | - | 140,000 |

ASTREA V PTE. LTD. AND ITS SUBSIDIARIES

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

20. Financial risk management (continued)

(c) Liquidity risk (continued)

| | Carrying amount US\$'000 | Cash flows | | | |
|----------------|-----------------------------|------------------------------------|---------------------------|----------------------------------|-------------------------------|
| | | Contractual cash flows US\$'000 | Within 1 year US\$'000 | Between 1 to 5 years US\$'000 | More than 5 years US\$'000 |
| 2022 | | | | | |
| Other payables | 1,153 | 1,153 | 1,153 | - | - |
| Borrowings | 602,181 | 604,850 | - | 464,850 | 140,000 |
| | <u>603,334</u> | <u>606,003</u> | <u>1,153</u> | <u>464,850</u> | <u>140,000</u> |

As at 31 December 2023, the Group also has obligation to fund uncalled capital commitments, as and when required, in relation to its investment in private equity funds of approximately US\$69,542,000 (2022: US\$86,547,000).

(d) Capital risk

The Company's and Group's objectives when managing capital are to safeguard the Company's and Group's ability to continue as a going concern and to maintain an optimal structure so as to maximise shareholder value. Capital is defined as equity attributable to the equity holders.

There were no changes to the Company's and Group's approach to capital management during the year. The Company and Group are not subject to externally imposed capital requirements.

(e) Fair value measurement

Assets and liabilities measured at fair value are classified by level of the following fair value measurement hierarchy:

- (i) quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);
- (ii) inputs other than quoted prices included within Level 1 that are observable for asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (Level 2); and
- (iii) inputs for the asset and liability that are not based on observable market data (unobservable inputs) (Level 3).

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

20. Financial risk management (continued)

(e) Fair value measurement (continued)

The tables below analyse fair value measurements for assets and liabilities:

| | Level 1 US\$'000 | Level 2 US\$'000 | Level 3 US\$'000 | Total US\$'000 |
|---|---------------------|---------------------|---------------------|-------------------|
| 2023 | | | | |
| <u>Assets</u> | | | | |
| Financial assets at fair value through profit or loss | - | 463,355 | 936,392 | 1,399,747 |
| Derivative financial instruments | - | 9,818 | - | 9,818 |
| | <u>-</u> | <u>473,173</u> | <u>936,392</u> | <u>1,409,565</u> |
| | Level 1 US\$'000 | Level 2 US\$'000 | Level 3 US\$'000 | Total US\$'000 |
| 2022 | | | | |
| <u>Assets</u> | | | | |
| Financial assets at fair value through profit or loss | - | 364,497 | 1,072,933 | 1,437,430 |
| Derivative financial instruments | - | 13,127 | - | 13,127 |
| | <u>-</u> | <u>377,624</u> | <u>1,072,933</u> | <u>1,450,557</u> |

There has been no transfer of the Group's financial assets to/from other levels during the financial years ended 31 December 2023 and 31 December 2022.

The Group recognises transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change has occurred.

Derivative financial instruments

Derivative financial instruments include forward foreign currency contracts which are not traded in an active market and are classified under Level 2. The fair value of the derivative financial instruments is determined using forward currency rates at the balance sheet date.

Financial assets at fair value through profit or loss

The Group's investment in financial assets at fair value through profit or loss include investment in fixed income securities and private equity funds, which are classified under Level 2 and Level 3 respectively.

The fair value of the investment in fixed income securities is determined using brokers' quotation at the balance sheet date.

ASTREA V PTE. LTD. AND ITS SUBSIDIARIES

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

20. Financial risk management (continued)

(e) Fair value measurement (continued)

In determining the fair value of its private equity fund investments, the Group relies on fund managers' latest available quarterly capital account statements and/or audited financial statements to determine the fair value of such investments which are based on their respective valuation policy and process designed to subject the valuation to an appropriate level of consistency, oversight and review and followed applicable accounting standards requirements. The reported fair value of such investments is the net asset value of the private equity funds..

The Group reviews the valuation details in the statements provided by the fund managers, and also considers the statement date and cash flows (drawdowns/distributions) since the date of statements provided.

The Group may make adjustments to the reported fair value per the statements provided by fund managers based on considerations such as:

- cash flow (drawdowns/distributions) since the date of the statements used; and
- other significant observable or unobservable data that would indicate amendments are required. This may include, amongst others, transacted price net of associated costs per sales agreement.

The Group's investment in private equity funds hold both quoted as well as unquoted investments. If the reported net assets value of the Group's investment in the underlying private equity funds increased or decreased by 10% (2022: 10%), the Group's investment in private equity funds would have been higher or lower by US\$93,639,000 (2022: US\$107,293,000).

The following table presents the changes in Level 3 instruments:

| | Investment in private equity funds |
|--|---|
| | US\$'000 |
| 2023 | |
| Beginning of the financial year | 1,072,933 |
| Purchases/Drawdowns made | 14,722 |
| Proceeds/Distributions received ¹ | (194,095) |
| Gains recognised in profit or loss | 42,832 |
| End of financial year | <u>936,392</u> |
| Total gains recognised in profit or loss for assets held at end of financial year | <u>42,832</u> |

ASTREA VI PTE. LTD. AND ITS SUBSIDIARY

DIRECTORS' STATEMENT

For the financial year ended 31 December 2023

The directors present their statement to the member of Astrea VI Pte. Ltd. (the "Company") and its subsidiary (the "Group") together with the audited financial statements of the Group for the financial year ended 31 December 2023 and the balance sheet of the Company as at 31 December 2023.

In the opinion of the directors,

- (a) the balance sheet of the Company and the consolidated financial statements of the Group set out on pages 14 to 41 are drawn up so as to give a true and fair view of the financial position of the Company and Group as at 31 December 2023 and of the financial performance of the business, changes in equity and cash flows of the Group for the financial year covered by the consolidated financial statements; and
- (b) at the date of this statement, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

The Board of Directors has, on the date of this statement, authorised these financial statements for issue.

Directors

The directors in office at the date of this statement are as follows:

Dr Teh Kok Peng
Chan Ann Soo
Chue En Yaw
Chinniah Kunnasagaran
Wang Piau Voon

Arrangements to enable directors to acquire shares and debentures

Neither at the end of nor at any time during the financial year was the Company a party to any arrangement whose object was to enable the directors of the Company to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate.

ASTREA VI PTE. LTD. AND ITS SUBSIDIARY

DIRECTORS' STATEMENT

For the financial year ended 31 December 2023

Directors' interests in shares or debentures

ASTREA VI PTE. LTD. AND ITS SUBSIDIARY

DIRECTORS' STATEMENT

For the financial year ended 31 December 2023

Share options

No options were granted during the financial year to subscribe for unissued shares of the Company.

No shares were issued during the financial year by virtue of the exercise of options to take up unissued shares of the Company.

There were no unissued shares of the Company under option at the end of the financial year.

Independent Auditor

The independent auditor, PricewaterhouseCoopers LLP, has expressed its willingness to accept re-appointment.

On behalf of the Directors

Dr Teh Kok Peng

17 April 2024

Chan Ann Soo

INDEPENDENT AUDITOR'S REPORT TO THE MEMBER OF ASTREA VI PTE. LTD.

Report on the Audit of the Financial Statements

Our opinion

In our opinion, the accompanying consolidated financial statements of Astrea VI Pte. Ltd. (the "Company") and its subsidiary (the "Group") and the balance sheet of the Company are properly drawn up in accordance with the provisions of the Companies Act 1967 ("the Act") and Singapore Financial Reporting Standards (International) ("SFRS(I)s") and International Financial Reporting Standards ("IFRSs") so as to give a true and fair view of the consolidated financial position of the Group and the financial position of the Company as at 31 December 2023 and of the consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group for the financial year ended on that date.

What we have audited

The financial statements of the Company and the Group comprise:

- the consolidated statement of comprehensive income of the Group for the financial year ended 31 December 2023;
- the consolidated balance sheet of the Group as at 31 December 2023;
- the balance sheet of the Company as at 31 December 2023;
- the consolidated statement of changes in equity of the Group for the financial year then ended;
- the consolidated statement of cash flows of the Group for the financial year then ended; and
- the notes to the financial statements, including material accounting policies.

Basis for Opinion

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the Accounting and Corporate Regulatory Authority Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code.

Our Audit Approach

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the accompanying financial statements. In particular, we considered where management made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBER OF ASTREA VI PTE. LTD. (continued)

Our Audit Approach (continued)

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements for the financial year ended 31 December 2023. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

| Key Audit Matter | How our audit addressed the Key Audit Matter |
|---|---|
| <p>Valuation of private equity fund investments</p> <p>As at 31 December 2023, <i>financial assets at fair value through profit or loss – investment in private equity funds</i> was stated at US\$981,773,000 (31 December 2022: US\$1,149,511,000). This relates to the Group's interest in private equity funds ("investments") and accounted for 69% (31 December 2022: 81%) of the total assets. These investments are not publicly traded and their prices are not observable in the market.</p> <p>We focused on the valuation of these investments given the significant value of the investments, management's reliance on the quarterly capital account statements and management's judgement in making adjustments to ascertain the fair value.</p> <p>Refer to <i>Note 4 – Critical accounting estimates and judgements</i> and <i>Note 11 – Financial assets at fair value through profit or loss</i> for the disclosures relating to the valuation of these investments.</p> | <p>We evaluated the reasonableness of management's estimate of the fair value of the investments by taking into consideration the following:</p> <ul style="list-style-type: none">• Latest available quarterly capital account statements and/or audited financial statements of the investments ("the Statements");• Valuation details in the Statements provided by the fund managers;• Drawdowns and distributions made throughout the financial year; and• Any significant observable data including latest transacted price net of associated costs. <p>We found no significant exceptions from performing these procedures.</p> |

INDEPENDENT AUDITOR'S REPORT TO THE MEMBER OF ASTREA VI PTE. LTD. (continued)

Other Information

Management is responsible for the other information. The other information comprises Directors' Statement but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Directors for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act, SFRS(I) and IFRSs, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBER OF ASTREA VI PTE. LTD. (continued)

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company and by the subsidiary corporation incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

The engagement partner on the audit resulting in this independent auditor's report is Yuneswaran, Keraishnasamy.

ASTREA VI PTE. LTD. AND ITS SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

1. General information

Astrea VI Pte. Ltd. (The “Company”) is incorporated and domiciled in Singapore. The address of the Company’s registered office is 1 Wallich Street, #32-02 Guoco Tower, Singapore 078881.

The principal activity of the Group is that of investment holding.

The immediate, intermediate and ultimate holding companies at the end of the financial year are Astrea Capital VI Pte. Ltd., Azalea Asset Management Pte. Ltd. and Temasek Holdings (Private) Limited respectively. All companies are incorporated in Singapore.

The Company issued the Class A-1 Bonds, Class A-2 Bonds and Class B Bonds (the “Astrea VI Bonds”¹) on 18 March 2021 (Note 15).

2. Basis of preparation

2.1 Statement of compliance

The financial statements have been prepared in accordance with Singapore Financial Reporting Standards (International) (“SFRS(I)”) and International Financial Reporting Standards (“IFRS”). All reference to SFRS(I) and IFRS are subsequently referred to SFRS(I) in these financial statements unless otherwise specified.

2.2 Basis of measurement

The financial statements have been prepared under the historical cost convention, except as otherwise disclosed in the accounting policies below.

2.3 Functional and presentation currency

The financial statements are presented in United States Dollar, which is the Company’s functional currency and one which best reflects the primary economic environment in which the Group operates. All financial information presented in United States Dollar has been rounded to the nearest thousand, unless otherwise stated.

¹ A summary of the Astrea VI Bonds can be found in the Astrea VI Bonds’ Prospectus, section “Summary of the Transaction”

2. Basis of preparation (continued)

2.4 Use of estimates and judgement

The preparation of financial statements in conformity with SFRS(I) requires management to make judgements, estimates and assumptions that affect the application of accounting policies and in reporting the amounts in the financial statements. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information on areas involving a high degree of judgement or areas where estimates are significant to the financial statements is set out in Note 4.

2.5 New or revised accounting standards and interpretations

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning on or after 1 January 2023 and are mandatory for application. This did not result in substantial changes to the Group's accounting policies and had no material effect on the amounts reported for the current or prior financial periods.

3. Material accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

3.1 Consolidation

(a) Consolidation

Subsidiaries are entities (including structured entities) over which the Group has control. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated in the consolidated financial statements from the date that control commences until the date that control ceases.

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment. The accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

ASTREA VI PTE. LTD. AND ITS SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

3. Material accounting policies (continued)

3.1 Consolidation (continued)

(b) Loss of control

Upon loss of control, the Group derecognises the assets and liabilities of the subsidiary. Any surplus or deficit arising on the loss of control is recognised in the consolidated statement of comprehensive income. If the Group retains any interest in the previous subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently, it is accounted for as an equity-accounted investee or as a financial asset depending on the level of influence retained.

3.2 Foreign currency translation

Transactions and balances

Transactions in foreign currencies are translated to the functional currency of the Group entities at the exchange rate at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated to the functional currency at the exchange rate at that date. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are translated to the functional currency at the exchange rate at the date on which the fair value was determined. Non-monetary items denominated in a foreign currency that are measured in terms of historical cost are translated using the exchange rate at the date of the transaction.

Foreign currency differences arising on translation are recognised in the profit or loss.

3.3 Financial instruments

Non-derivative financial instruments

Non-derivative financial instruments comprise investment in private equity funds, quoted and fixed income securities, trade and other receivables (excluding prepayments), cash and cash equivalents, other payables and borrowings.

Cash and cash equivalents comprise cash balances and bank deposits.

A financial instrument is recognised when the Group becomes a party to the contractual provisions of the instrument. Financial assets are derecognised when the Group's contractual rights to the cash flows from the financial assets expire or if the Group transfers the financial asset to another party without retaining control or transfers substantially all the risks and rewards of ownership of the asset. On disposal of a financial asset, the difference between the sale proceeds and the carrying amount is recognised in the profit or loss.

ASTREA VI PTE. LTD. AND ITS SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

3. Material accounting policies (continued)

3.3 Financial instruments (continued)

Non-derivative financial instruments (continued)

Regular way purchases and sales of financial assets are accounted for at trade date, i.e. the date that the Group commits itself to purchase or sell the asset.

Financial liabilities are derecognised if the Group's obligations specified in the contract expire or are discharged or cancelled.

Financial assets and liabilities are offset and the net amount presented in the balance sheet when, and only when, the Group has a legal and enforceable right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously. They are presented as current assets and liabilities if they are expected to be realised or settled within one year or less. Otherwise, they are presented as non-current.

Non-derivative financial instruments are recognised initially at fair value plus, for instruments not at fair value through profit or loss, any directly attributable transaction costs. Subsequent to initial recognition, non-derivative financial instruments are measured as described below.

Financial assets

On initial recognition, a financial asset is classified and measured at fair value through profit or loss or at amortised cost. Financial assets will be reclassified subsequent to their initial recognition only when the Group changes its business model for managing financial assets. The determination of the classification at initial and subsequent recognition into each of the measurement category are as described below.

(a) Financial assets at fair value through profit or loss

A financial asset is classified as fair value through profit or loss if it is held for trading or performance of the financial assets are measured on fair value basis. Movement in fair value and interest income is recognised in profit or loss. Financial assets at fair value through profit or loss includes investment in private equity funds, quoted and fixed income securities.

Distributions received from investment in private equity funds are recognised as a repayment of investment cost. Any distributions in excess of investment cost are recognised in the profit or loss.

3. Material accounting policies (continued)

3.3 Financial instruments (continued)

Non-derivative financial instruments (continued)

Financial assets (continued)

(b) Financial assets at amortised cost

A financial asset is measured at amortised cost if it is held for the collection of contractual cash flows and where the cash flows represent solely payments of principal and interest. These assets are subsequently measured at amortised cost using effective interest method. Any gain or loss on the financial asset that is subsequently measured at amortised cost is recognised in profit or loss when the financial asset is derecognised or impaired. Financial assets at amortised cost include cash and cash equivalents and trade and other receivables.

Financial liabilities

(a) Other payables

Other payables are initially carried at fair value, and subsequently carried at amortised cost using the effective interest method.

(b) Borrowings

Borrowings are carried at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the profit or loss over the period of the borrowings using the effective interest method.

Impairment of financial assets

The Group assesses the expected credit losses associated with its financial assets carried at amortised cost on a forward looking basis. The methodology applied depends on whether there had been a significant increase in credit risk. The Group considers significant increase in credit risk as a material deterioration on the counterparty's rating and the counterparty is unlikely to pay its obligations to the Group in full.

3.4 Loan from immediate holding company

Loan from immediate holding company is classified as equity as the repayment is at the discretion of the Company.

3. Material accounting policies (continued)

3.5 Share capital

(a) Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects.

(b) Preference shares

Preference shares are classified as equity as they are not redeemable on a specific date and are redeemable only at the discretion of the Company. Dividend payments are also discretionary.

3.6 Derivative financial instruments

Derivative financial instruments are recognised initially at fair value and attributable transaction costs are recognised in the profit or loss as incurred. Subsequent to initial recognition, derivative financial instruments are measured at fair value, and changes therein are recognised in the profit or loss.

3.7 Impairment of non-financial instruments

The carrying amounts of non-financial assets are reviewed at each balance sheet date to determine whether there is any objective evidence or indication of impairment. If any such indication exists, the assets' recoverable amounts are estimated. An impairment loss is recognised if the carrying amount of an asset exceeds its estimated recoverable amount.

The recoverable amount of an asset is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets.

Impairment losses are recognised in the profit or loss. Impairment losses recognised in prior periods are assessed at each balance sheet date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

ASTREA VI PTE. LTD. AND ITS SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

3. Material accounting policies (continued)

3.8 Other income

Interest income comprises interest on cash balances, bank deposits and fixed income securities and is recognised based on the effective interest method.

3.9 Tax

Tax expense comprises current tax. Tax expense is recognised in the profit or loss except to the extent that it relates to items recognised directly in equity or in other comprehensive income.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of prior years.

3.10 Structured entities

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements. A structured entity often has some or all of the following features or attributes; (a) restricted activities, (b) a narrow and well-defined objective, such as to provide investment opportunities for investors by passing on risks and rewards associated with the assets of the structured entity to investors, (c) insufficient equity to permit the structured entity to finance its activities without subordinated financial support and (d) financing in the form of multiple contractually linked instruments to investors that create concentrations of credit or other risks (tranches).

The change in fair value of such structured entities is included in the statement of comprehensive income.

3.11 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Board of Directors who are responsible for allocating resources and assessing performance of the operating segments.

3.12 Investment in subsidiary

Investment in subsidiary including loan to subsidiary is carried at cost less accumulated impairment losses in the Company's balance sheet. On disposal of such investment, the difference between disposal proceeds and the carrying amount of the investment is recognised in profit or loss.

ASTREA VI PTE. LTD. AND ITS SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

3. Material accounting policies (continued)

3.13 Dividends

Dividends to the Company's shareholder are recognised when the dividends are approved for payment.

4. Critical accounting estimates and judgements

Estimates, assumptions and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The accounting policies that are deemed to be critical to the amounts recognised in the financial statements, or which involve a significant degree of judgement and estimation, are discussed below:

Fair value estimation

The Group invests in private equity fund investments which are managed by third-party fund managers. These fund managers provide quarterly statements and annual audited financial statements to the Group to report their assessment of the fair value of the underlying investments.

The Group relies on the fund managers' latest available quarterly capital account statements and/or audited financial statements to determine the fair value of its investment in the private equity funds and may make adjustments accordingly as described in Note 20(e).

Management believes that any change in the key assumptions used by the fund managers to determine the fair value estimation in these abovementioned statements may cause the fair values to be different and the difference could be material to the financial statements.

| Loan to subsidiary | <u>616,554</u> | <u>825,655</u> |

On 8 March 2021, the Company entered into a shareholder loan agreement (the "Shareholder Loan Agreement") with its subsidiary. Under the Shareholder Loan Agreement, loan to subsidiary is unsecured and interest-free. On the 20th anniversary of the date of the Shareholder Loan Agreement, or earlier as agreed by the parties, the Company's subsidiary has the option to repay in cash or issue ordinary shares at US\$1 each which in aggregate is equal to the outstanding amount. As such, loan to subsidiary is classified as non-current and stated at cost less accumulated impairment losses.

ASTREA VI PTE. LTD. AND ITS SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

10. Subsidiary (continued)

Details of the subsidiary are as follows:

| <u>Name of subsidiary</u> | <u>Principal place of business</u> | <u>Country of incorporation</u> | <u>Percentage of equity held</u> | |
|-----------------------------|------------------------------------|---------------------------------|----------------------------------|-----------|
| | | | 2023 % | 2022 % |

11. Financial assets at fair value through profit or loss

| | <u>Group</u> | | <u>Company</u> | |
|---------------------------------------|------------------|------------------|------------------|------------------|
| | 2023 US\$'000 | 2022 US\$'000 | 2023 US\$'000 | 2022 US\$'000 |
| Non-current | | | | |
| Investment in private equity funds | 937,288 | 1,149,511 | - | - |
| Current | | | | |
| Investment in private equity funds | 44,485 | - | - | - |
| Investment in fixed income securities | 306,667 | 164,990 | 306,667 | 164,990 |
| | 351,152 | 164,990 | 306,667 | 164,990 |

The Group entered into an agreement on 5 April 2024 to divest a private equity fund investment. The divestment is in accordance with permitted activities set out in the Astrea VI Bond's prospectus². As of the end of the financial year, the fair value of the private equity fund investment is represented by the transaction price and has been classified as current.

The Group's exposures to market risks and the fair value hierarchy information relating to the financial assets at fair value through profit or loss are disclosed in Note 20.

The Group had placed a portion of the Reserves Balance in fixed income securities in accordance with the Eligible Investments conditions set out in the Astrea VI Bonds' prospectus.

² A summary of the permitted activities can be found in the Astrea VI Bond's Prospectus, section "The Issuer" and under sub-section "Restrictions on Activities".

ASTREA VI PTE. LTD. AND ITS SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

11. Financial assets at fair value through profit or loss (continued)

Structured entities

The Group considers all its investment in private equity funds to be structured entities and does not have any power over these entities such that its involvement will vary its returns from these entities. These structured entities finance their operations through capital commitments from their investors.

The Group's maximum exposure to loss from its interests in structured entities is equal to the total fair value of its investment in these structured entities and any uncalled capital commitments.

Once the Group no longer holds interest in a structured entity, the Group ceases to be exposed to any risk from that entity.

12. Derivative financial instruments

Derivative financial instruments comprise net fair value gain/loss of the Euro and Singapore Dollar currency forwards used to manage the exposures from the Group's investment in private equity funds and borrowings. The contracted notional principal amount of the derivatives outstanding at balance sheet date is US\$428,021,000 (2022: US\$480,099,000).

The Group's exposure to liquidity risk relating to derivative financial instruments is disclosed in Note 20(c).

13. Trade and other receivables

| | <u>Group</u> | | <u>Company</u> | |
|-------------------|--------------|----------|----------------|----------|
| | 2023 | 2022 | 2023 | 2022 |
| | US\$'000 | US\$'000 | US\$'000 | US\$'000 |
| Trade receivables | - | 448 | - | - |
| Prepayments | 22 | 22 | 23 | 22 |
| Other receivables | 2,861 | 1,190 | 2,757 | 1,088 |
| | 2,883 | 1,660 | 2,780 | 1,110 |

Trade receivables represent distributions pending receipt from investment in private equity funds which have been received after the end of the financial year.

The Group's and Company's exposure to credit risk relating to trade and other receivables are disclosed in Note 20(b).

^(#) Transaction costs were costs that were directly attributable to the issue of the Astrea VI Bonds. Such transaction costs were allocated between the different classes by the initial principal amount and recognised in the profit or loss over the shorter of scheduled maturity period or final maturity period. The figures presented in the table shows the remaining transaction cost to be recognised in the profit or loss.

ASTREA VI PTE. LTD. AND ITS SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

15. Borrowings (continued)

The Astrea VI Bonds were issued on 18 March 2021 and have the following characteristics:

- A first fixed charge over all present and future shares held by the Company in its subsidiary, and all present and future dividends in respect of such shares;
- A first fixed charge over the Company's present and future bank accounts and custody accounts;
- An assignment of all the Company's present and future rights, title and interest in and to the Shareholder Loan Agreements (the "Agreements"), including all moneys payable to the Company and any claims, awards and judgement in favour of, receivable or received by the Company under or in connection with or pursuant to the Agreements; and
- A first floating charge over the Company's undertaking and all of its assets, both present and future.

The fair value of the borrowings as at balance sheet date is US\$603,670,000 (2022: US\$584,059,000).

| <u>Fully paid preference shares with no par value</u> | | |
| At beginning and end of the financial year | 49,000,000 | 49,000,000 |

The holder of ordinary shares is entitled to receive dividends as declared from time to time and is entitled to one vote per share at meetings of the Company. All ordinary shares rank equally with regard to the Company's residual assets.

The terms of the preference shares are contained in the Constitution of the Company and the main terms are summarised as follows:

- The holders shall be entitled, in preference to the holders of ordinary shares, to receive a preferential dividend determined by the Company from time to time.
- Upon liquidation, the holders shall have the right of repayment of capital in priority to the holders of ordinary shares and to participate equally with the holders of ordinary shares in any surplus assets.
- The holders shall have the same rights to attend, speak and vote at any general meeting of the Company as those conferred on the holders of ordinary shares.
- The Company shall have the sole right at any time and from time to time to redeem, in whole or in part, by giving not less than 30 days prior notice to the holders.

18. Loan from immediate holding company

On 8 March 2021, the Company entered into a shareholder loan agreement (the "Sponsor Shareholder Loan Agreement") with its immediate holding company. Under the Sponsor Shareholder Loan Agreement, loan from immediate holding company is unsecured and interest-free. On the 20th anniversary of the date of the Sponsor Shareholder Loan Agreement, or earlier as agreed by all parties, the Company has the option to repay in cash or issue ordinary shares at US\$1 each which in aggregate is equal to the outstanding amount.

| | 2023 US\$'000 | 2022 US\$'000 |
| Interim dividends paid in respect of the current financial year of US\$NIL (2022: US\$2.18 per preference share) | - | 107,000 |

20. Financial risk management

The Group's activities expose it to a variety of financial risk: market risk (including currency risk, price risk and interest rate risk), credit risk, liquidity risk and capital risk.

The Group's investments comprise a stable portfolio of private equity funds which are held for the long term. The Group's risk management approach is to minimise the potential adverse effects on the Group's financial performance. Specific investment guidelines on exposure to security types and concentration limits are in place for the Group at any time. The Group's strategy of investing in a diversified portfolio of funds with widely diversified underlying companies is part of the overall financial risk management.

(a) Market risk

(i) Currency risk

The Group's exposure to foreign currency risk arises from its financial assets and financial liabilities which are denominated in foreign currencies mainly in Singapore Dollar ("SGD") and Euro ("EUR").

The exposure is managed by the Group as part of its operations.

| | <u>Group</u> | | <u>Company</u> | |
|---|------------------------|------------------------|------------------------|------------------------|
| | <u>SGD</u> US\$'000 | <u>EUR</u> US\$'000 | <u>SGD</u> US\$'000 | <u>EUR</u> US\$'000 |

For the financial year ended 31 December 2023

20. Financial risk management (continued)

(a) Market risk (continued)

(i) *Currency risk (continued)*

| | <u>Group</u> | | <u>Company</u> | |
|---|------------------------|------------------------|------------------------|------------------------|
| | <u>SGD</u> US\$'000 | <u>EUR</u> US\$'000 | <u>SGD</u> US\$'000 | <u>EUR</u> US\$'000 |
| 2022 | | | | |
| Investment in private equity funds | - | 184,281 | - | - |
| Cash and cash equivalents | 1,643 | 18,120 | 1,644 | 18,120 |
| Trade and other receivables (excluding prepayments) | 158 | - | 56 | - |
| Other payables | (2,539) | (1) | (2,503) | (1) |
| Borrowings | (283,334) | - | (283,334) | - |
| | <u>(284,072)</u> | <u>202,400</u> | <u>(284,137)</u> | <u>18,119</u> |
| Currency forwards | <u>316,133</u> | <u>(163,966)</u> | <u>316,133</u> | <u>(163,966)</u> |
| Net currency exposure | <u>32,061</u> | <u>38,434</u> | <u>31,996</u> | <u>(145,847)</u> |

A 1% (2022: 1%) strengthening/weakening of the USD against the foreign currencies at balance sheet date would have decreased/increased profit or loss by the amounts shown below. The analysis assumes that all other variables remain constant.

| | <u>Group</u> | | <u>Company</u> | |
|-----|-------------------------|-------------------------|-------------------------|-------------------------|
| | <u>2023</u> US\$'000 | <u>2022</u> US\$'000 | <u>2023</u> US\$'000 | <u>2022</u> US\$'000 |
| SGD | 185 | 321 | 184 | 320 |
| EUR | 617 | 384 | 1,089 | 1,458 |

(ii) *Price risk*

Price risk is the risk arising from uncertainties on future prices of investments classified as financial assets at fair value through profit or loss.

The Group does not have significant exposure to price risk on quoted securities. The Group expects price fluctuations for its listed investment in fixed income securities to arise principally from interest rate risk and credit risk. The interest rate risk and credit risk information on its investment in fixed income securities is presented in Note 20(a)(iii) and Note 20(b) respectively.

The fair value information on its investment in private equity funds is presented in Note 20(e).

ASTREA VI PTE. LTD. AND ITS SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

20. Financial risk management (continued)

(a) Market risk (continued)

(iii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Group's financial instruments will fluctuate because of changes in market interest rate. The fixed income securities, fixed deposits and bonds issued under Astrea VI Bonds have fixed rates and are independent of changes in the market interest rates.

The Group has exposure to fair value interest risk from its investment in fixed income securities. If interest rates increase or decrease by 1% (2022: 1%), the profit before tax would have been higher or lower by US\$4,567,000 (2022: US\$3,684,000), arising mainly as a result of an increase and decrease in fair value of the investment in fixed income securities.

(b) Credit risk

Credit risk is the risk of financial loss to the Group if a counterparty to financial instruments fails to meet its contractual obligations, and principally from the Group's financial assets at amortised cost and investment in fixed income securities. This exposure is managed by diversifying its credit risks and dealing mainly with high credit quality counterparties assessed by international credit rating agencies. The credit ratings of these financial assets are monitored for credit deterioration.

The maximum exposure to credit risk to the Group's financial assets is the carrying amount as presented on the balance sheet.

The Group's trade and other receivables and cash and cash equivalents are categorised as financial assets at amortised cost. As the Group's financial assets at amortised cost are transacted with counterparties which have investment grade rating by international credit rating agencies, these financial assets are subject to immaterial credit loss and there has been no movement in credit loss allowances for the year.

(c) Liquidity risk

Liquidity risk is the risk that the Group may encounter difficulty in meeting the obligations associated with its financial liabilities and uncalled capital commitments that are settled by delivering cash or another financial asset.

The Group manages its liquidity risk through a combination of maintaining sufficient cash and cash equivalents and maintenance of credit facilities. Excess funds are invested in short-term bank deposits.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

20. Financial risk management (continued)

(c) Liquidity risk (continued)

The Group's credit facilities can be utilised for funding of capital drawdowns for its investment in private equity funds and operating expenses. There were no drawdowns during the financial year.

The following are the contractual maturities of financial liabilities:

| | Carrying Amount US\$'000 | Contractual Cash flows US\$'000 | Cash flows Within 1 year US\$'000 | Between 1 to 5 years US\$'000 | More than 5 years US\$'000 |
|----------------|-----------------------------|------------------------------------|---|----------------------------------|-------------------------------|
| 2023 | | | | | |
| Other payables | 7,669 | 7,669 | 7,669 | - | - |
| Borrowings | 644,843 | 647,473 | - | 517,473 | 130,000 |
| | 652,512 | 655,142 | 7,669 | 517,473 | 130,000 |
| 2022 | | | | | |
| Other payables | 7,853 | 7,853 | 7,853 | - | - |
| Borrowings | 639,290 | 642,803 | - | 512,803 | 130,000 |
| | 647,143 | 650,656 | 7,853 | 512,803 | 130,000 |

As at 31 December 2023, the Group also has obligation to fund uncalled capital commitments, as and when required, in relation to its investment in private equity funds of approximately US\$83,034,000 (2022: US\$98,908,000).

(d) Capital risk

The Company's and Group's objectives when managing capital are to safeguard the Company's and Group's ability to continue as a going concern and to maintain an optimal structure so as to maximise shareholder value. Capital is defined as equity attributable to the equity holders.

There were no changes to the Company's and Group's approach to capital management during the year. The Company and Group are not subject to externally imposed capital requirements.

ASTREA VI PTE. LTD. AND ITS SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

20. Financial risk management (continued)

(e) Fair value measurement

Assets and liabilities measured at fair value are classified by level of the following fair value measurement hierarchy:

- (i) quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);
- (ii) inputs other than quoted prices included within Level 1 that are observable for asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (Level 2); and
- (iii) inputs for the asset and liability that are not based on observable market data (unobservable inputs) (Level 3).

The table below analyses fair value measurements for assets and liabilities:

| | Level 1 US\$'000 | Level 2 US\$'000 | Level 3 US\$'000 | Total US\$'000 |
|---|---------------------|---------------------|---------------------|-------------------|
| 2023 | | | | |
| <u>Assets</u> | | | | |
| Financial assets at fair value through profit or loss | - | 306,667 | 981,773 | 1,288,440 |
| Derivative financial instruments | - | 22,647 | - | 22,647 |
| | - | 329,314 | 981,773 | 1,311,087 |
| 2022 | | | | |
| <u>Assets</u> | | | | |
| Financial assets at fair value through profit or loss | - | 164,990 | 1,149,511 | 1,314,501 |
| Derivative financial instruments | - | 24,717 | - | 24,717 |
| | - | 189,707 | 1,149,511 | 1,339,218 |

There has been no transfer of the Group's financial assets to/from other levels during the financial years ended 31 December 2023 and 31 December 2022.

The Group recognises transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change has occurred.

20. Financial risk management (continued)

(e) Fair value measurement (continued)

Derivative financial instruments

Derivative financial instruments include forward foreign currency contracts which are not traded in an active market and are classified under Level 2. The fair value of the derivative financial instruments is determined using forward currency rates at the balance sheet date.

Financial assets at fair value through profit or loss

The Group's investments in financial assets at fair value through profit or loss include investments in fixed income securities and private equity funds which are classified under Level 2 and Level 3 respectively.

The fair value of the investments in fixed income securities is determined using brokers' quotation at the balance sheet date.

In determining the fair value of its private equity fund investments, the Group relies on fund managers' latest available quarterly capital account statements and/or audited financial statements to determine the fair value of such investments which are based on their respective valuation policy and process designed to subject the valuation to an appropriate level of consistency, oversight and review and followed applicable accounting standards requirements. The reported fair value of such investments is the net asset value of the private equity funds.

The Group reviews the valuation details in the statements provided by the fund managers, and also considers the statement date and cash flows (drawdowns/distributions) since the date of statements provided.

The Group may make adjustments to the reported fair value per the statements provided by fund managers based on considerations such as:

- cash flow (drawdowns/distributions) since the date of the statements used; and
- other significant observable or unobservable data that would indicate amendments are required. This may include, amongst others, transacted price net of associated costs per sales agreement.

The Group's investment in private equity funds hold both quoted as well as unquoted investments. If the reported net assets value of the Group's investment in the underlying private equity funds increased or decreased by 10% (2022: 10%), the Group's investment in private equity funds would have been higher or lower by US\$98,177,000 (2022: US\$114,951,000).

ASTREA 7 PTE. LTD. AND ITS SUBSIDIARY

DIRECTORS' STATEMENT

For the financial year ended 31 December 2023

The directors present their statement to the member of Astrea 7 Pte. Ltd. (the "Company") and its subsidiary (the "Group") together with the audited financial statements of the Group for the financial year ended 31 December 2023 and the balance sheet of the Company as at 31 December 2023.

In the opinion of the directors,

- (a) the balance sheet of the Company and the consolidated financial statements of the Group set out on pages 13 to 39 are drawn up so as to give a true and fair view of the financial position of the Company and Group as at 31 December 2023 and of the financial performance of the business, changes in equity and cash flows of the Group for the financial year covered by the consolidated financial statements; and
- (b) at the date of this statement, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

The Board of Directors has, on the date of this statement, authorised these financial statements for issue.

Directors

The directors in office at the date of this statement are as follows:

Chan Ann Soo
Chue En Yaw
Kan Shik Lum

Arrangements to enable directors to acquire shares and debentures

Neither at the end of nor at any time during the financial year was the Company a party to any arrangement whose object was to enable the directors of the Company to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate.

ASTREA 7 PTE. LTD. AND ITS SUBSIDIARY

DIRECTORS' STATEMENT

For the financial year ended 31 December 2023

Directors' interests in shares or debentures

According to the register of directors' shareholdings, none of the directors holding office at the end of the financial year had any interest in the shares or debentures of the Company or its related corporations, except as follows:

INDEPENDENT AUDITOR'S REPORT TO THE MEMBER OF ASTREA 7 PTE. LTD.

Report on Audit of the Financial Statements

Our opinion

In our opinion, the accompanying consolidated financial statements of Astrea 7 Pte. Ltd. (the "Company") and its subsidiary (the "Group") and the balance sheet of the Company are properly drawn up in accordance with the provisions of the Companies Act 1967 ("the Act") and Singapore Financial Reporting Standards (International) ("SFRS(I)s") and International Financial Reporting Standards ("IFRSs") so as to give a true and fair view of the consolidated financial position of the Group and the financial position of the Company as at 31 December 2023 and of the consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group for the financial year ended on that date.

What we have audited

The financial statements of the Company and the Group comprise:

- the consolidated statement of comprehensive income of the Group for the financial year ended 31 December 2023;
- the consolidated balance sheet of the Group as at 31 December 2023;
- the balance sheet of the Company as at 31 December 2023;
- the consolidated statement of changes in equity of the Group for the financial year then ended;
- the consolidated statement of cash flows of the Group for the financial year then ended; and
- the notes to the financial statements, including material accounting policies.

Basis for Opinion

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the Accounting and Corporate Regulatory Authority Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code.

Our Audit Approach

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the accompanying financial statements. In particular, we considered where management made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBER OF ASTREA 7 PTE. LTD. (continued)

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements for the financial year ended 31 December 2023. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

| Key Audit Matter | How our audit addressed the Key Audit Matter |
|---|--|
| <p>Valuation of private equity fund investments</p> <p>As at 31 December 2023, <i>financial assets at fair value through profit or loss - investment in private equity funds</i> was stated at US\$1,537,983,000 (31 December 2022: US\$1,596,634,000). This relates to the Group's interest in private equity funds ("investments") and accounted for 86% (31 December 2022: 93%) of the total assets. These investments are not publicly traded and their prices are not observable in the market.</p> <p>We focused on the valuation of these investments given the significant value of the investments, management's reliance on the quarterly capital account statements and management's judgement in making adjustments to ascertain the fair value.</p> <p>Refer to <i>Note 4 – Critical accounting estimates and judgements</i> and <i>Note 11 – Financial assets at fair value through profit or loss</i> for the disclosures relating to the valuation of these investments.</p> | <p>We evaluated the reasonableness of management's estimate of the fair value of the investments by taking into consideration the following:</p> <ul style="list-style-type: none"> • Latest available quarterly capital account statements and/or audited financial statements of the investments ("the Statements"); • Valuation details in the Statements provided by the fund managers; and • Drawdowns and distributions made throughout the financial year. <p>We found no significant exceptions from performing these procedures.</p> |

INDEPENDENT AUDITOR'S REPORT TO THE MEMBER OF ASTREA 7 PTE. LTD. (continued)

Other Information

Management is responsible for the other information. The other information comprises Directors' Statement but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Directors for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act, SFRS(I)s and IFRSs, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBER OF ASTREA 7 PTE. LTD. (continued)

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company and by those subsidiary corporations incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

The engagement partner on the audit resulting in this independent auditor's report is Yuneswaran, Keraishnasamy.

ASTREA 7 PTE. LTD. AND ITS SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

1. General information

Astrea 7 Pte. Ltd. (the “Company”) is incorporated and domiciled in Singapore. The address of the Company’s registered office is 1 Wallich Street, #32-02 Guoco Tower, Singapore 078881.

The principal activity of the Group is that of investment holding.

The immediate, intermediate and ultimate holding companies at the end of the financial year are Astrea Capital 7 Pte. Ltd., Azalea Asset Management Pte. Ltd. and Temasek Holdings (Private) Limited respectively. All companies are incorporated in Singapore.

The Company issued the Class A-1 Bonds, Class A-2 Bonds and Class B Bonds (the “Astrea 7 Bonds”¹) on 27 May 2022 (Note 15).

2. Basis of preparation

2.1 Statement of compliance

The financial statements have been prepared in accordance with Singapore Financial Reporting Standards (International) (“SFRS(I)”) and International Financial Reporting Standards (“IFRS”). All reference to SFRS(I) and IFRS are subsequently referred to SFRS(I) in these financial statements unless otherwise specified.

2.2 Basis of measurement

The financial statements have been prepared under the historical cost convention, except as otherwise disclosed in the accounting policies below.

2.3 Functional and presentation currency

The financial statements are presented in United States Dollar, which is the Company’s functional currency and one which best reflects the primary economic environment in which the Company operates. All financial information presented in United States Dollar has been rounded to the nearest thousand, unless otherwise stated.

¹ A summary of the Astrea 7 Bonds can be found in the Astrea 7 Bonds’ Prospectus, section “Summary of the Transaction”

2. Basis of preparation (continued)

2.4 Use of estimates and judgement

The preparation of financial statements in conformity with SFRS(I) requires management to make judgements, estimates and assumptions that affect the application of accounting policies and in reporting the amounts in the financial statements. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information on areas involving a high degree of judgement or areas where estimates are significant to the financial statements is set out in Note 4.

2.5 New or revised accounting standards and interpretations

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning on or after 1 January 2023 and are mandatory for application. This did not result in substantial changes to the Group's accounting policies and had no material effect on the amounts reported for the current or prior financial periods.

3. Material accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

3.1 Consolidation

(a) Consolidation

Subsidiaries are entities (including structured entities) over which the Group has control. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated in the consolidated financial statements from the date that control commences until the date that control ceases.

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment. The accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

3. Material accounting policies (continued)

3.1 Consolidation (continued)

(b) Loss of control

Upon loss of control, the Group derecognises the assets and liabilities of the subsidiary. Any surplus or deficit arising on the loss of control is recognised in the consolidated statement of comprehensive income. If the Group retains any interest in the previous subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently, it is accounted for as an equity-accounted investee or as a financial asset depending on the level of influence retained.

3.2 Foreign currency translation

Transactions and balances

Transactions in foreign currencies are translated to the functional currency of the Group entities at the exchange rate at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated to the functional currency at the exchange rate at that date. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are translated to the functional currency at the exchange rate at the date on which the fair value was determined. Non-monetary items denominated in a foreign currency that are measured in terms of historical cost are translated using the exchange rate at the date of the transaction.

Foreign currency differences arising on translation are recognised in the profit or loss.

3.3 Financial instruments

Non-derivative financial instruments

Non-derivative financial instruments comprise investment in private equity funds, quoted and fixed income securities, trade and other receivables (excluding prepayments), cash and cash equivalents, other payables and borrowings.

Cash and cash equivalents comprise cash balances and bank deposits.

A financial instrument is recognised when the Group becomes a party to the contractual provisions of the instrument. Financial assets are derecognised when the Group's contractual rights to the cash flows from the financial assets expire or if the Group transfers the financial asset to another party without retaining control or transfers substantially all the risks and rewards of ownership of the asset. On disposal of a financial asset, the difference between the sale proceeds and the carrying amount is recognised in the profit or loss.

ASTREA 7 PTE. LTD. AND ITS SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

3. Material accounting policies (continued)

3.3 Financial instruments (continued)

Non-derivative financial instruments (continued)

Regular way purchases and sales of financial assets are accounted for at trade date, i.e. the date that the Group commits itself to purchase or sell the asset.

Financial liabilities are derecognised if the Group's obligations specified in the contract expire or are discharged or cancelled.

Financial assets and liabilities are offset and the net amount presented in the balance sheet when, and only when, the Group has a legal and enforceable right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously. They are presented as current assets and liabilities if they are expected to be realised or settled within one year or less. Otherwise, they are presented as non-current.

Non-derivative financial instruments are recognised initially at fair value plus, for instruments not at fair value through profit or loss, any directly attributable transaction costs. Subsequent to initial recognition, non-derivative financial instruments are measured as described below.

Financial assets

On initial recognition, a financial asset is classified and measured at fair value through profit or loss or at amortised cost. Financial assets will be reclassified subsequent to their initial recognition only when the Company changes its business model for managing financial assets. The determination of the classification at initial and subsequent recognition into each of the measurement category are as described below.

(a) Financial assets at fair value through profit or loss

A financial asset is classified as fair value through profit or loss if it is held for trading or performance of the financial assets are measured on fair value basis. Movement in fair value and interest income is recognised in profit or loss. Financial assets at fair value through profit or loss includes investment in private equity funds, quoted and fixed income securities.

Distributions received from investment in private equity funds are recognised as a repayment of investment cost. Any distributions in excess of investment cost are recognised in the profit or loss.

ASTREA 7 PTE. LTD. AND ITS SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

3. Material accounting policies (continued)

3.3 Financial instruments (continued)

Non-derivative financial instruments (continued)

Financial assets (continued)

(b) Financial assets at amortised cost

A financial asset is measured at amortised cost if it is held for the collection of contractual cash flows and where the cash flows represent solely payments of principal and interest. These assets are subsequently measured at amortised cost using effective interest method. Any gain or loss on the financial asset that is subsequently measured at amortised cost is recognised in profit or loss when the financial asset is derecognised or impaired. Financial assets at amortised cost include cash and cash equivalents and trade and other receivables.

Financial liabilities

(a) Other payables

Other payables are initially carried at fair value, and subsequently carried at amortised cost using the effective interest method.

(b) Borrowings

Borrowings are carried at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the profit or loss over the period of the borrowings using the effective interest method.

Impairment of financial assets

The Group assesses the expected credit losses associated with its financial assets carried at amortised cost on a forward looking basis. The methodology applied depends on whether there had been a significant increase in credit risk. The Group considers significant increase in credit risk as a material deterioration on the counterparty's rating and the counterparty is unlikely to pay its obligations to the Group in full.

3.4 Loan from immediate holding company

Loan from immediate holding company is classified as equity as the repayment is at the discretion of the Company.

3. Material accounting policies (continued)

3.5 Share capital

(a) Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects.

(b) Preference shares

Preference shares are classified as equity as they are not redeemable on a specific date and are redeemable only at the discretion of the Company. Dividend payments are also discretionary.

3.6 Derivative financial instruments

Derivative financial instruments are recognised initially at fair value and attributable to transaction costs are recognised in the profit or loss as incurred. Subsequent to initial recognition, derivative financial instruments are measured at fair value, and changes therein are recognised in the profit or loss.

3.7 Impairment of non-financial instruments

The carrying amounts of non-financial assets are reviewed at each balance sheet date to determine whether there is any objective evidence or indication of impairment. If any such indication exists, the assets' recoverable amounts are estimated. An impairment loss is recognised if the carrying amount of an asset exceeds its estimated recoverable amount.

The recoverable amount of an asset is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets.

Impairment losses are recognised in the profit or loss. Impairment losses recognised in prior periods are assessed at each balance sheet date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

ASTREA 7 PTE. LTD. AND ITS SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

3. Material accounting policies (continued)

3.8 Other income

Interest income comprises interest on cash balances, bank deposits and fixed income securities is recognised based on the effective interest method.

3.9 Tax

Tax expense comprises current tax. Tax expense is recognised in the profit or loss except to the extent that it relates to items recognised directly in equity or in other comprehensive income.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of prior years.

3.10 Structured entities

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements. A structured entity often has some or all of the following features or attributes; (a) restricted activities, (b) a narrow and well-defined objective, such as to provide investment opportunities for investors by passing on risks and rewards associated with the assets of the structured entity to investors, (c) insufficient equity to permit the structured entity to finance its activities without subordinated financial support and (d) financing in the form of multiple contractually linked instruments to investors that create concentrations of credit or other risks (tranches).

The change in fair value of such structured entities is included in the statement of comprehensive income.

3.11 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Board of Directors who are responsible for allocating resources and assessing performance of the operating segments.

3.12 Investment in subsidiary

Investment in subsidiary including loan to subsidiary is carried at cost less accumulated impairment losses in the Company's balance sheet. On disposal of such investment, the difference between disposal proceed and the carrying amount of the investment is recognised in profit or loss.

ASTREA 7 PTE. LTD. AND ITS SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

4. Critical accounting estimates and judgements

Estimates, assumptions and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The accounting policies that are deemed to be critical to the amounts recognised in the financial statements, or which involve a significant degree of judgement and estimation, are discussed below:

Fair value estimation

The Group invest in private equity fund investments which are managed by third-party fund managers. These fund managers provide quarterly statements and annual audited financial statements to the Group to report their assessment of the fair value of the underlying investments.

The Group relies on the fund managers' latest available quarterly capital account statements and/or audited financial statements to determine the fair value of its investment in the private equity funds and may make adjustments accordingly as described in Note 19(e).

Management believes that any change in the key assumptions used by the fund managers to determine the fair value estimation in these abovementioned statements may cause the fair values to be different and the difference could be material to the financial statements.

The Group has been approved for the Enhanced-Tier Fund Tax Incentive Scheme under Section 13U (formerly Section 13X) of the Income Tax Act 1947 with effect from 1 July 2021. The tax exemption status will be for the life of the Group, provided that the Group continues to meet all conditions and terms.

ASTREA 7 PTE. LTD. AND ITS SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

10. Subsidiary

| | <u>Company</u> | |
|--------------------------|------------------|------------------|
| | 2023 US\$'000 | 2022 US\$'000 |
| At cost | | |
| Ordinary shares | 1,000 | 1,000 |
| Preference shares | 9,000 | 9,000 |
| Total cost of investment | 10,000 | 10,000 |
| Loan to subsidiary | 1,425,796 | 1,583,057 |

On 18 May 2022, the Company entered into a shareholder loan agreement (the "Shareholder Loan Agreement") with its subsidiary. Under the Shareholder Loan Agreement, loan to subsidiary is unsecured and interest-free. On the 20th anniversary of the date of the Shareholder Loan Agreement, or earlier as agreed by the parties, the Company's subsidiary has the option to repay in cash or issue ordinary shares at US\$1 each which in aggregate is equal to the outstanding amount. As such, loan to subsidiary is classified as non-current and stated at cost less accumulated impairment losses.

Details of the subsidiary are as follows:

| <u>Name of subsidiary</u> | <u>Principal place of business</u> | <u>Country of incorporation</u> | <u>Percentage of equity held</u> | |
|-------------------------------|------------------------------------|---------------------------------|----------------------------------|-----------|
| | | | 2023 % | 2022 % |

| | 173,218 | 57,058 | 173,218 | 57,058 |

The Group's exposures to market risks and the fair value hierarchy information relating to the financial assets at fair value through profit or loss are disclosed in Note 19.

ASTREA 7 PTE. LTD. AND ITS SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

11. Financial assets at fair value through profit or loss (continued)

The Group had placed a portion of the Reserves Balance in fixed income securities in accordance with the Eligible Investments conditions set out in the Astrea 7 Bonds' prospectus.

Structured entities

The Group considers all its investment in private equity funds to be structured entities and does not have any power over these entities such that its involvement will vary its returns from these entities. These structured entities finance their operations through capital commitments from their investors.

The Group's maximum exposure to loss from its interests in structured entities is equal to the total fair value of its investment in these structured entities and any uncalled capital commitments.

Once the Group no longer holds interest in a structured entity, the Group ceases to be exposed to any risk from that entity.

12. Derivative financial instruments

Derivative financial instruments comprise net fair value gain/loss of the Euro and Singapore Dollar currency forwards used to manage the exposures from the Group's investment in private equity funds and borrowings. The contracted notional principal amount of the derivatives outstanding at balance sheet date is US\$681,568,000 (2022: US\$759,931,000).

The Group's exposure to liquidity risk relating to derivative financial instruments is disclosed in Note 19(c).

13. Trade and other receivables

| | <u>Group</u> | | <u>Company</u> | |
|-------------------|--------------|--------------|----------------|------------|
| | 2023 | 2022 | 2023 | 2022 |
| | US\$'000 | US\$'000 | US\$'000 | US\$'000 |
| Trade receivables | 6,126 | 336 | - | - |
| Prepayments | 65 | 50 | 65 | 50 |
| Other receivables | 2,465 | 1,124 | 1,589 | 568 |
| | 8,656 | 1,510 | 1,654 | 618 |

Trade receivables represent distributions pending receipt from investment in private equity funds which have been received after the end of the financial year.

The Group's and Company's exposure to credit risk relating to trade and other receivables are disclosed in Note 19(b).

| | 773,593 | (4,176) | 769,417 | 767,163 | (5,196) | 761,967 |

^(#) Transaction costs were costs that were directly attributable to the issue of the Astrea 7 Bonds. Such transaction costs were allocated between the different classes by the initial principal amount and recognised in the profit or loss over the shorter of scheduled maturity period or final maturity period. The figures presented in the table shows the remaining transaction cost to be recognised in the profit or loss.

ASTREA 7 PTE. LTD. AND ITS SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

15. Borrowings (continued)

The Astrea 7 Bonds were issued on 27 May 2022 and have the following characteristics:

- A first fixed charge over all present and future shares held by the Company in its subsidiary, and all present and future dividends in respect of such shares;
- A first fixed charge over the Company's present and future bank accounts and custody accounts;
- An assignment of all the Company's present and future rights, title and interest in and to the Shareholder Loan Agreements (the "Agreements"), including all moneys payable to the Company and any claims, awards and judgement in favour of, receivable or received by the Company under or in connection with or pursuant to the Agreements; and
- A first floating charge over the Company's undertaking and all of its assets, both present and future.

The fair value of the borrowings as at balance sheet date is US\$723,856,000 (2022: US\$717,145,000).

Reconciliation of borrowings arising from financing activities

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

17. Share capital

| | <u>Company</u> | |
|---|-------------------------|------------------|
| | 2023 US\$'000 | 2022 US\$'000 |
| Ordinary shares | 1,000 | 1,000 |
| Preference shares | 49,000 | 49,000 |
| | 50,000 | 50,000 |
| | <u>No. of shares</u> | |
| <u>Fully paid ordinary shares with no par value</u> At beginning and end of the financial year | 1,000,000 | 1,000,000 |
| <u>Fully paid preference shares with no par value</u> At beginning and end of the financial year | 49,000,000 | 49,000,000 |

The holder of ordinary shares is entitled to receive dividends as declared from time to time and is entitled to one vote per share at meetings of the Company. All ordinary shares rank equally with regard to the Company's residual assets.

The terms of the preference shares are contained in the Constitution of the Company and the main terms are summarised as follows:

- The holders shall be entitled, in preference to the holders of ordinary shares, to receive a preferential dividend determined by the Company from time to time.
- Upon liquidation, the holders shall have the right of repayment of capital in priority to the holders of ordinary shares and to participate equally with the holders of ordinary shares in any surplus assets.
- The holders shall have the same rights to attend, speak and vote at any general meeting of the Company as those conferred on the holders of ordinary shares.
- The Company shall have the sole right at any time and from time to time to redeem, in whole or in part, by giving not less than 30 days prior notice to the holders.

18. Loan from immediate holding company

On 18 May 2022, the Company entered into a shareholder loan agreement (the "Equity Investor(s) Shareholder Loan Agreement") with its immediate holding company. Under the Equity Investor(s) Shareholder Loan Agreement, loan from immediate holding company is unsecured and interest-free. On the 20th anniversary of the date of the Equity Investor(s) Shareholder Loan Agreement, or earlier as agreed by all parties, the Company has the option to repay in cash or issue ordinary shares at US\$1 each which in aggregate is equal to the outstanding amount.

ASTREA 7 PTE. LTD. AND ITS SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

19. Financial risk management

The Group's activities expose it to a variety of financial risk: market risk (including currency risk, price risk and interest rate risk), credit risk, liquidity risk and capital risk.

The Group's investment comprise a stable portfolio of private equity funds which are held for the long term. The Group's risk management approach is to minimise the potential adverse effects on the Group's financial performance. Specific investment guidelines on exposure to security types and concentration limits are in place for the Group at any time. The Group's strategy of investing in a diversified portfolio of funds with widely diversified underlying companies is part of the overall financial risk management.

(a) Market risk

(i) Currency risk

The Group's exposure to foreign currency risk arises from its financial assets and financial liabilities which are denominated in foreign currencies mainly in Singapore Dollar ("SGD") and Euro ("EUR").

The exposure is managed by the Group as part of its operations.

| | <u>Group</u> | | <u>Company</u> | |
|--|------------------------|------------------------|------------------------|------------------------|
| | <u>SGD</u> US\$'000 | <u>EUR</u> US\$'000 | <u>SGD</u> US\$'000 | <u>EUR</u> US\$'000 |

ASTREA 7 PTE. LTD. AND ITS SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

19. Financial risk management (continued)

(a) Market risk (continued)

(i) Currency risk (continued)

A 1% (2022: 1%) strengthening/weakening of the USD against the foreign currencies at balance sheet date would have decreased/increased profit or loss by the amounts shown below. The analysis assumes that all other variables remain constant.

| | <u>Group</u> | | <u>Company</u> | |
|-----|--------------|----------|----------------|----------|
| | 2023 | 2022 | 2023 | 2022 |
| | US\$'000 | US\$'000 | US\$'000 | US\$'000 |
| SGD | 502 | 726 | 493 | 720 |
| EUR | 1,507 | 1,097 | (2,227) | 2,817 |

(ii) Price risk

Price risk is the risk arising from uncertainties on future prices of investments classified as financial assets at fair value through profit or loss.

The Group does not have significant exposure to price risk on quoted securities. The Group expects price fluctuations for its listed investment in fixed income securities to arise principally from interest rate risk and credit risk. The interest rate risk and credit risk information on its investment in fixed income securities is presented in Note 19(a)(iii) and Note 19(b) respectively.

The fair value information on its investment in private equity funds is presented in Note 19(e).

(iii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Group's financial instruments will fluctuate because of changes in market interest rate. The fixed income securities, fixed deposits and bonds issued under Astrea 7 Bonds have fixed rates and are independent of changes in the market interest rates.

The Group has exposure to fair value interest risk from its investment in fixed income securities. If interest rates increase or decrease by 1% (2022: 1%), the profit before tax would have been higher or lower by US\$2,555,000 (2022: US\$501,000), arising mainly as a result of an increase and decrease in fair value of the investment in fixed income securities.

ASTREA 7 PTE. LTD. AND ITS SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

19. Financial risk management (continued)

(b) Credit risk

Credit risk is the risk of financial loss to the Group if a counterparty to financial instruments fails to meet its contractual obligations, and principally from the Group's financial assets at amortised cost and investment in fixed income securities. This exposure is managed by diversifying its credit risks and dealing mainly with high credit quality counterparties assessed by international credit rating agencies. The credit ratings of these financial assets are monitored for credit deterioration.

The maximum exposure to credit risk to the Group's financial assets is the carrying amount as presented on the balance sheet.

The Group's trade and other receivables and cash and cash equivalents are categorised as financial assets at amortised cost. As the Group's financial assets at amortised cost are transacted with counterparties which have investment grade rating by international credit rating agencies, these financial assets are subject to immaterial credit loss and there has been no movement in credit loss allowances for the year.

(c) Liquidity risk

Liquidity risk is the risk that the Group may encounter difficulty in meeting the obligations associated with its financial liabilities and uncalled capital commitments that are settled by delivering cash or another financial asset.

The Group manages its liquidity risk through a combination of maintaining sufficient cash and cash equivalents and maintenance of credit facilities. Excess funds are invested in short-term bank deposits.

The Group's credit facilities can be utilised for funding of capital drawdowns for its investment in private equity funds and operating expenses. There were no drawdowns during the financial year.

The following are the contractual maturities of financial liabilities:

| | Carrying Amount US\$'000 | Contractual cash flows US\$'000 | Cash flows | | |
|----------------------------------|-----------------------------|------------------------------------|---------------------------|----------------------------------|-------------------------------|
| | | | Within 1 year US\$'000 | Between 1 to 5 years US\$'000 | More than 5 years US\$'000 |
| 2023 | | | | | |
| Other payables | 4,430 | 4,430 | 4,430 | - | - |
| Derivative financial liabilities | 4,285 | 234,702 | 63,753 | 170,949 | - |
| Borrowings | 769,417 | 773,593 | - | 773,593 | - |
| | 778,132 | 1,012,725 | 68,183 | 944,542 | - |

ASTREA 7 PTE. LTD. AND ITS SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

19. Financial risk management (continued)

(c) Liquidity risk (continued)

| | Carrying Amount US\$'000 | Contractual cash flows US\$'000 | Cash flows | | |
|-------------------------------------|--------------------------------|---------------------------------------|------------------------------|--|----------------------------------|
| | | | Within 1 year US\$'000 | Between 1 to 5 years US\$'000 | More than 5 years US\$'000 |
| 2022 | | | | | |
| Other payables | 4,448 | 4,448 | 4,448 | - | - |
| Derivative financial liabilities | 96 | 62,584 | 62,584 | - | - |

| | <u>766,511</u> | <u>834,195</u> | <u>67,032</u> | <u>567,163</u> | <u>200,000</u> |

As at 31 December 2023, the Group also has obligation to fund uncalled capital commitments, as and when required, in relation to its investment in private equity funds of approximately US\$146,604,000 (2022: US\$171,816,000).

(d) Capital risk

The Company's and Group's objectives when managing capital are to safeguard the Company's and Group's ability to continue as a going concern and to maintain an optimal structure so as to maximise shareholder value. Capital is defined as equity attributable to the equity holders.

There were no changes to the Company's and Group's approach to capital management during the year. The Company and Group are not subject to externally imposed capital requirements.

(e) Fair value measurement

Assets and liabilities measured at fair value are classified by level of the following fair value measurement hierarchy:

- (i) quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);
- (ii) inputs other than quoted prices included within Level 1 that are observable for asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (Level 2); and
- (iii) inputs for the asset and liability that are not based on observable market data (unobservable inputs) (Level 3).

ASTREA 7 PTE. LTD. AND ITS SUBSIDIARY**NOTES TO THE FINANCIAL STATEMENTS***For the financial year ended 31 December 2023*

19. Financial risk management (continued)**(e) Fair value measurement (continued)**

The table below analyses fair value measurements for assets and liabilities:

| | Level 1 | Level 2 | Level 3 | Total |
|---|-----------------|-----------------|-----------------|-----------------|
| | US\$'000 | US\$'000 | US\$'000 | US\$'000 |
| 2023 | | | | |
| <u>Assets</u> | | | | |
| Financial assets at fair value through profit or loss | - | 173,218 | 1,537,983 | 1,711,201 |
| Derivative financial instruments | - | 25,696 | - | 25,696 |
| | - | 198,914 | 1,537,983 | 1,736,897 |
| <u>Liabilities</u> | | | | |
| Derivative financial instruments | - | (4,285) | - | (4,285) |
| 2022 | | | | |
| <u>Assets</u> | | | | |
| Financial assets at fair value through profit or loss | - | 57,058 | 1,596,634 | 1,653,692 |
| Derivative financial instruments | - | 21,613 | - | 21,613 |

| <u>Liabilities</u> | | | | |
| Derivative financial instruments | - | (96) | - | (96) |

There has been no transfer of the Group's financial assets to/from other levels during the financial years ended 31 December 2023 and 31 December 2022.

The Group recognises transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change has occurred.

19. Financial risk management (continued)

(e) Fair value measurement (continued)

Derivative financial instruments

Derivative financial instruments include forward foreign currency contracts which are not traded in an active market and are classified under Level 2. The fair value of the derivative financial instruments is determined using forward currency rates at the balance sheet date.

Financial assets at fair value through profit or loss

The Group's investment in financial assets at fair value through profit or loss include investment in fixed income securities and private equity funds which are classified under Level 2 and Level 3 respectively.

The fair value of the investment in fixed income securities is determined using brokers' quotation at the balance sheet date.

In determining the fair value of its private equity fund investments, the Group relies on fund managers' latest available quarterly capital account statements and/or audited financial statements to determine the fair value of such investments which are based on their respective valuation policy and process designed to subject the valuation to an appropriate level of consistency, oversight and review and followed applicable accounting standards requirements. The reported fair value of such investments is the net asset value of the private equity funds.

The Group reviews the valuation details in the statements provided by the fund managers, and also considers the statement date and cash flows (drawdowns/distributions) since the date of statements provided.

The Group may make adjustments to the reported fair value per the statements provided by fund managers based on considerations such as:

- cash flow (drawdowns/distributions) since the date of the statements used; and
- other significant observable or unobservable data that would indicate amendments are required.

The Group's investment in private equity funds hold both quoted as well as unquoted investments. If the reported net assets value of the Group's investment in the underlying private equity funds increased or decreased by 10% (2022: 10%), the Group's investment in private equity funds would have been higher or lower by US\$153,798,000 (2022: US\$159,663,000).
