PERFORMANCE SHARE PLAN

The Company has no outstanding performance shares as at 31 March 2021 and 2020.

1(d)(iii) To show the total number of issued shares excluding treasury shares as at the end of the current financial period and as at the end of the immediately preceding year.

Total number of issued shares was 435,630,837 as at 31 March 2021 and 2020.

Total number of treasury shares was 5,000 and 630,000 as at 31 March 2021 and 2020 respectively.

Total number of issued shares (excluding treasury shares) was 435,625,837 and 435,000,837 as at 31 March 2021 and 2020 respectively.

1(d)(iv) A statement showing all sales, transfers, cancellation and/or use of treasury shares as at the end of the current financial period reported on.

The company used 625,000 treasury shares during the current financial period towards the issuance of 625,000 shares on exercise of share options.

1(d)(v) A statement showing all sales, transfers, cancellation and/or use of subsidiary holdings as at the end of the current financial period reported on.

Not applicable. The Company did not have any subsidiary holdings during and at the end of the current financial year reported on.

2. Whether the figures have been audited or reviewed, and in accordance with which auditing standard or practice.

The figures have not been audited or reviewed by the Company's auditors.

3(a) Where the figures have been audited or reviewed, the auditors' report (including any modifications or emphasis of a matter).

Not applicable.

3(b) Where the latest financial statements are subject to an adverse opinion, qualified opinion or disclaimer of opinion:-

(a) Updates on the efforts taken to resolve each outstanding audit issue.

(b) Confirmation from the Board that the impact of all outstanding audit issues on the financial statements have been adequately disclosed.

This is not required for any audit issue that is a material uncertainty relating to going concern.

Not applicable.

4. Whether the same accounting policies and methods of computation as in the issuer's most recently audited annual financial statements have been applied.

The Group has applied the same accounting policies and methods of computation in the financial statements for the current reporting period compared with the audited annual financial statements for the year ended 31 March 2020. The adoption of the new and amended IFRSs, which are effective for the financial period beginning on 1 April 2020, did not result in significant changes to the Group's accounting policies or have any material impact on the Group's and the Company's financial statements.

5. If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change.

Not applicable.

Valuetronics is an Electronic Manufacturing Service ("EMS") provider, which focuses on the design and development of products that meet the ever-changing customers' needs. We are the preferred choice of some successful global companies involved in consumer electronics as well as industrial and commercial electronics products, with core competencies ranging from tool fabrication, injection moulding, metal stamping, machining, surface mount technology ("SMT") and finished product assembly on full turnkey basis.

The Group classified its EMS business into 2 reportable segments, namely consumer electronics products ("Consumer Electronics" or "CE") and industrial and commercial electronics products ("Industrial and Commercial Electronics" or "ICE").

Review – Full year results ended 31 March 2021 ("FY2021") vs Full year results ended 31 March 2020 ("FY2020")

Revenue

Despite the uncertainties presented during the pandemic, the Group reported relatively stable revenue and profits for the financial year ended 31 March 2021 ("FY2021") as compared to the financial year ended 31 March 2020 ("FY2020"), largely due to an unexpected rebound in customer demand in the second half of FY2021.

Revenue decreased by 3.1% or HK\$72.9 million from HK\$2,354.4 million in FY2020 to HK\$2,281.5 million in FY2021. Consumer Electronics revenue decreased by 25.7% to HK\$680.7 million (FY2020: HK\$916.0 million); while Industrial and Commercial Electronics revenue increased by 11.3% to HK\$1,600.8 million (FY2020: HK\$1,438.4 million).

The significant drop in Consumer Electronics revenue was due to a key customer experiencing weak demand as a direct result of reduced activity caused by social distancing and COVID-19 containment measures, and its production switch-over from the Group's China factory to another vendor in an ASEAN country as scheduled.

On the Industrial and Commercial Electronics segment front, the surge in demands in logistic industry and e-commerce benefited several key customers during the pandemic lockdown. The prolonged pandemic also caused a delay in the schedule of a customer in the auto industry in its production switch-over from the Group's China factory to another vendor in North America, which led to continued orders from that customer during FY2021.

All in all, the revenue growth in the Industrial and Commercial Electronics segment partially offset the revenue decline in Consumer Electronics segment, resulting in relatively stable revenue and profits for FY2021 as compared to FY2020.

Gross profit and gross profit margin

Gross profit increased by 6.5% to HK\$386.2 million (FY2020: HK\$362.8 million), while gross profit margin increased to 16.9% (FY2020: 15.4%) as the results of change in product sales mix during the year.

Other income

Other income decreased by 25.4% to HK\$18.4 million. Such decrease was mainly due to the decrease in interest income, offset by the increase in net exchange gains.

Selling and distribution expenses

Selling and distribution expenses increased by 21.4% to HK\$32.0 million (FY2020: HK\$26.3 million), such increase was mainly due to the increase of product warranty expenses.

Administrative expenses

Administrative expenses slightly decreased by 0.5% to HK\$163.3 million (FY2020: HK\$164.1 million).

Profit for the year

As a result of the above, profit for the year increased by 4.6% to HK\$187.1 million (FY2020: HK\$178.9 million).

Financial position and cash flows

As at 31 March 2021, the Group had net current assets of HK\$975.3 million (31 March 2020: HK\$902.4 million), total assets of HK\$2,241.6 million (31 March 2020: HK\$2,013.5 million) and shareholders' funds of HK\$1,347.1 million (31 March 2020: HK\$1,231.6 million).

The Group's trade receivables increased by HK\$164.1 million from HK\$326.4 million as at 31 March 2020 to HK\$490.5 million as at 31 March 2021. The Group's trade payables increased by HK\$74.0 million from HK\$291.2 million as at 31 March 2020 to HK\$365.2 million as at 31 March 2021. The Group's inventories decreased by HK\$13.8 million from HK\$227.9 million as at 31 March 2020 to HK\$214.1 million as at 31 March 2021.

The working capital of the Group as at 31 March 2021, which is the sum of trade receivables and inventories less trade payables, was HK\$339.4 million (31 March 2020: HK\$263.1 million). The increase in net working capital, reflecting the movement in trade receivables, inventories and trade payables, was mainly due to increased business activities in the fourth quarter of FY2021 as compared to the fourth quarter of FY2020.

The Group had no bank borrowings as at 31 March 2021 (31 March 2020: Nil).

As at 31 March 2021, the Group had cash and cash equivalents of HK\$1,129.4 million (31 March 2020: HK\$1,053.1 million). Over 98% of its cash and cash equivalents were parked in reputable financial institutions in Hong Kong and Singapore. The remaining balance of the cash and cash equivalents, mainly in the PRC and Vietnam, were parked in reputable financial institutions. The cash and cash equivalents are audited by the Group's auditors, PricewaterhouseCoopers.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

Not applicable.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The COVID-19 pandemic continues with no signs of slowing down, with second and third wave infections occurring in many countries. This constantly evolving situation has caused business disruptions in the global economy. The Group expects the operating environment to continue to remain challenging in the financial year ended 31 March 2022 ("FY2022").

The pandemic has caused a delay in the schedule of the Group's customer in the auto industry to switch-over its production from the Group's China factory to another vendor in North America. This has led to continued orders from that customer in the financial year ended 31 March 2021 ("FY2021"), but this situation will not be repeated for FY2022 as the switch-over has been substantially completed by the last quarter of FY2021.

The Group like many manufacturers is facing a global components shortage issue. Despite clear customer demand, the global components shortage may affect the Group's ability to meet orders. The Group is working closely with its customers and suppliers to deal with such issues as they arise. The higher component prices owing to tight supply, together with a stronger Renminbi, may lead to a decline in the Group's profit margin. The Group is employing various measures to attempt to mitigate these adverse impacts, including diversifying its sources of supply and negotiating new prices with customers.

The Group's Vietnam campus remained on track to the target commencement of mass production by the last quarter of FY2022. However, the Vietnamese government has recently in May tightened quarantine rules and social distancing measures in response to the rising COVID-19 cases in the country. Unless the situation in Vietnam continues to deteriorate, the Group does not expect significant impact on the above target production commencement date. On completion of the Vietnam campus, along with the Group's existing leased factory in Vietnam, the Group will be fully equipped to accommodate customers' request to shift production from its China factory to Vietnam in response to Sino-US trade tensions, and to seize new opportunities emerging with the Group's extended geographic footprint.

Given these uncertainties and volatility, including supply chain issues, and a loss of orders resulted from customers switching their supply chain to other countries because of Sino-US trade tensions, the Group's financial results for FY2022 are expected to be significantly lower compared to FY2021.
