## NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2022

#### 1. Corporate information

Best World International Limited ("the Company") is a limited liability company incorporated and domiciled in Singapore and is listed on the Singapore Exchange Securities Trading Limited.

The registered office and principal place of business of the Company is located at 20 Pasir Panjang Road #08-28 Mapletree Business City Singapore 117439.

The principal activities of the Company are those of investment holding and the distribution of nutritional supplement products, personal care products and healthcare equipment.

#### 2. Basis of preparation

The interim consolidated financial statements of the Group and the statement of financial position and statement of changes in equity of the Company have been prepared in accordance with Singapore Financial Reporting Standards (International) ("SFRS(I)").

The interim financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant for an understanding of the changes in the Group's financial position and performance since the last audited annual financial statements for the year ended 31 December 2021.

The financial statements are presented in Singapore Dollars (SGD or \$) and all values in the tables are rounded to the nearest thousand (\$'000), except when otherwise indicated.

The figures have not been audited, or reviewed by auditors.

#### 2.1 Adoption of new standards

The accounting policies adopted are consistent with those of the used in the most recent audited financial statements except in the current financial year, the Group has adopted all the new and revised standards that are effective for annual periods beginning on or after 1 January 2022.

There was no change in the accounting policies and methods of computation for the current financial year reported on, except the amendments to SFRS(I) 16 on COVID-19 related rent concessions where rental rebates were recognized directly in P&L as other income.

#### 2.2 Use of judgements and estimates

The preparation of the Group's consolidated interim financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the end of each reporting period. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in the future periods.

### 2. Basis of preparation (Cont'd)

### 2.2 Use of judgements and estimates (Cont'd)

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the audited consolidated financial statements as at and for the year ended 31 December 2021.

Information about estimates, assumptions and judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are as follows:

There were no significant changes in critical judgements, estimates and assumptions as compared to the audited consolidated financial statements as at and for the year ended 31 December 2021.

### 2.3 Updates on the efforts taken to resolve each outstanding audit issue

The auditors have issued a qualified opinion on the Group's financial statements for the financial year ended 31 December 2021 due to the following reasons and updates on the efforts to resolve each audit issue as follows:

(i) Relationship with the Group's import agents and marketing agent

As disclosed in the audit opinion on page 98 of the 2021 annual report, the Group has terminated the arrangements with its import agents and marketing agents during the financial years 2019 and 2020 respectively. As such, there is no financial impact to the consolidated financial statement for FY2022.

(ii) Classification of payments to promotional companies

As disclosed in the audit opinion on page 98 of the 2021 annual report, the Group is not obliged to make any payments to the sales representatives, as such, the service fees paid to the third-party promotion companies were recorded as marketing fees as part of distribution costs. Therefore the classification of the payments to third -party promotional companies have been recorded correctly in FY2021.

The classification of the payments to promotional companies in FY2022 is consistent with the classification in FY2021. Hence, there is no comparability issue of the classification of payments to promotional companies in FY2022.

Management is of the view that the issues above have been addressed, and do not have any financial impact on FY2022.

### 3. Seasonal operations

Historically, we record lower revenue in the first quarter of the year due to the long Chinese New Year holidays celebrated in our key markets. Also, distributors and franchisees generally more motivated in the fourth quarter of the year in order to achieve their sales target and hence take a longer than usual break in the following month and during the Chinese New Year holiday season.

## 4. Segment and revenue information

For management purposes, the Group's business is organised into three reportable operating segments as follows:

- The Direct Selling segment mainly comprises sales generated directly from member customers through direct selling, both online and offline, for the markets of Singapore, Malaysia, Indonesia, Thailand, Taiwan, Hong Kong, Vietnam, Philippines, Korea, Australia, New Zealand, United States, Canada, Brunei and United Arab Emirates etc.;
- (ii) The Franchise segment comprises sales to independent third parties who are permitted to establish and operate BWL Lifestyle Centres in People's Republic of China and exclusively distribute the products under franchise agreements entered into with the Group. Under the Franchise Model, the Group sells the products directly to franchisees; and
- (iii) The Others segment comprises sales to customers at export retail price through retailers in the Myanmar and the Manufacturing/Wholesale segment comprises sales of health supplements manufactured by the Group's Hangzhou factory to wholesalers all over the People's Republic of China.

Except as indicated above, no operating segments have been aggregated to form the above reportable operating segments.

Management monitors the operating results of the segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss, which in certain respects, as explained in the table below, is measured differently from operating profit or loss in the consolidated financial statements.

Transfer prices between operating segments are on an arm's length basis in a manner similar to transactions with third parties.

### 5. Fair value of assets and liabilities (Cont'd)

#### (a) Fair value hierarchy

The Group categories fair value measurements using a fair value hierarchy that is dependent on the valuation inputs used as follows:

- Level 1 Quoted prices (unadjusted) in active market for identical assets or liabilities that the Group can access at the measurement date,
- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, and
- Level 3 Unobservable inputs for the asset or liability.

Fair value measurements that use inputs of different hierarchy levels are categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

There were no transfers between the levels of fair value measurements during the financial year.

#### OTHER INFORMATION

A review of the performance of the Group, to the extent necessary for a reasonable understanding of the Group's business. It must include a discussion of the following: -

- (a) any significant factors that affected the turnover, costs, and earnings of the Group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and
- (b) any material factors that affected the cash flow, working capital, assets or liabilities of the Group during the current financial period reported on.

#### 1. Review

The statements of financial position as at 31 December 2022 and the related consolidated statement of profit or loss, consolidated statement of comprehensive income, statements of changes in equity and consolidated statement of cash flows for the year ended 31 December 2022 and the selected explanatory notes (the "Condensed Consolidated Interim Financial Statements") have not been audited or reviewed by the Company's auditors.

### 2. Review of the performance of the Group

#### **Consolidated Statement of Comprehensive Income**

Profit attributable to owners of the parent company declined to \$47.7 million in 4Q2022 and declined to \$136.3 million for FY2022, mainly due to the following factors:

The Group's **revenue** increased by 14.6% or \$26.9 million to \$211.0 million in 4Q2022 when compared to the same period last year, mainly due to stronger performance of our China, Taiwan and Hong Kong markets following the easing of the covid restrictions, resulting in the resumption of marketing events and activities while offsetting revenue decline in the markets of Singapore, Malaysia, Indonesia, Australia and New Zealand. The improved revenue growth in 4Q2022 resulted in a revenue decline of 3.9% for FY2022, compared to 12.5% for the nine months ended 30 September 2022;

In line with the increased revenue in 4Q2022 when compared to 4Q2021, **cost of sales** increased to \$45.6 million in 4Q2022 from \$37.1 million in 4Q2021. The Group's gross profit margin declined to 78.4% in 4Q2022 mainly due to price promotion on certain products in our China market, increased cost of purchase for raw materials as well as higher manufacturing costs incurred by our Tuas facility due to higher production activities since achieving Temporary Occupation Permit when compared to the same period last year. The Group's gross profit margin for FY2022 remained relatively stable at 79.5%;

**Interest income** increased to \$1.4 million in 4Q2022 vis-à-vis \$1.3 million in 4Q2021, mainly due to higher interest derived from the Group's cash placed in fixed deposits;

**Distribution costs** decreased from \$68.3 million in 4Q2021 to \$49.1 million in 4Q2022 mainly due to lower convention expenses when compared to the same period last year as well as lower freelance commissions in line with lower revenue contribution from the Direct Selling segment during the period;

Administrative expenses increased from \$18.9 million in 4Q2021 to \$29.2 million in 4Q2022 mainly attributable to higher professional fees, higher management and staff costs as well as commissioning costs relating to Site Acceptance Test of our manufacturing equipment for our

Tuas facility. As a result, administrative expenses in FY2022 increased 5.2% to \$94.9 million in FY2022 vis-à-vis \$90.2 million in FY2021;

**Finance costs** relating to lease expenses increased marginally to \$147,000 in 4Q2022 vis-à-vis 4Q2021;

**Net other losses** of \$22.9 million in 4Q2022 were mainly attributable to the impairment of the Group's investment in a joint venture in the United Kingdom ("UK"), and net foreign exchange losses from settlement of trade receivables denominated in Chinese Yuan, as well as revaluation of cash and cash equivalents denominated in United States Dollars as the Chinese Yuan and United States Dollars were significantly weaker against Singapore Dollars in 4Q2022. Overall, net other losses of \$29.6 million was recorded in FY2022 due to the same reasons above;

**Share of results of our joint venture** in the Group's UK joint venture Pedal Pulses Limited was \$214,000 in 4Q2022 mainly due to share of profits for the period, offsetting amortisation expenses of intangible assets identified during the purchase price allocation ("PPA") exercise;

**Share of losses for our associated company** increased by \$19,000 in 4Q2022 to \$36,000 mainly due to higher net losses incurred by Celligenics; and

The Group recorded higher **income tax expense** of \$25.3 million in 4Q2022 when compared to \$18.7 million in 4Q2021 mainly due to the effect of Group consolidation adjustment on unrealised profits on inventories held by our subsidiaries as at 31 December 2022. As a result, the effective tax rate for FY2022 was higher at 27.8% when compared to FY2021 at 27.5%.

#### **Consolidated Statement of Financial Position**

**Total assets (Group)** decreased by \$24.7 million from \$764.8 million as at 31 December 2021 to \$740.1 million as at 31 December 2022, mainly due to:

- Decrease in investment in joint venture of \$12.7 million due to impairment loss;
- Decrease in deferred tax assets of \$10.7 million due to reduction in unrealised profits from inventory;
- Decrease in total other financial assets of \$4.7 million due to fair value changes in call options in relation to the acquisition of Pedal Pulses Limited;
- Decrease in inventories by \$35.0 million as a result of a better than expected sales performance in 4Q2022, leading to lower inventory balance in China as at 31 December 2022;

This was partially offset by a \$9.4 million increase in property, plant and equipment in relation to our Tuas manufacturing facility, from \$63.7 million to \$73.1 million as at 31 December 2022, an increase in right-of-use of assets of \$6.5 million due to the new lease of the Group's HQ, increase of trade and other receivables of \$5.0 million due to reclassification of GST receivable from a certain subsidiary, increase in other assets of \$8.2 million due to advance payment made to suppliers from the Franchise segment and in relation to the relocation of the Group's HQ, and various subsidiaries as well as the increase in cash and cash equivalents of \$10.0 million due to reasons stated in the consolidated statement of cash flows section below.

**Total liabilities (Group)** decreased by \$2.6 million from \$259.0 million as at 31 December 2021 to \$256.4 million as at 31 December 2022 was mainly due to:

 Decrease in income tax payables of \$6.4 million due to tax payment made during the year;

- Decrease in total other financial liabilities of \$7.4 million mainly due to fair value changes to the put options in relation to Pedal Pulses Limited, the Group's UK acquisition in 2020;
- Decrease in deferred tax liabilities of \$2.5 million due to reduction of provision for withholding tax from Taiwan subsidiary;

The above decline was offset by the increase in trade and other payables by \$2.5 million due to higher sales related expenses from the Franchise segment, increase contract liabilities by \$5.5 million due to higher deposits received from customers, increase of total lease liabilities by \$6.6 million mainly due to new leases from the relocation of HQ office during the year.

### **Consolidated Statement of Cash Flows**

In 4Q2022, **net cash flows from operating activities** of \$147.3 million was mainly attributable to the Group's net profit before tax of \$73.2 million and changes in working capital as a result of increase in trade and other payables, decrease in inventories and trade and other receivables, as well as income tax paid during the period.

**Net cash flow used in investing activities** of \$0.9 million in 4Q2022 was mainly due to increase in property, plant and equipment in relation to our Tuas manufacturing facility, offsetting interest received during the period.

**Net cash flow used in financing activities** of \$8.7 million in 4Q2022 was mainly due to purchase of treasury shares and lease liabilities paid during the period.

As at 31 December 2022, the Group maintained approximately \$484.8 million in cash and cash equivalents.

3. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

The results are in line with Section 4 of Other Information of the last quarter's results announcement.

# 4 A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the Group operates and any known factors or events that may affect the Group in the next reporting period and the next 12 months.

Since China's sudden announcement of reopening and rollback of many Covid-related restrictions in December 2022, coupled with the incoming migration during Chinese New Year, there has been a rapid surge in Covid infections. Before these waves of infections eventually wears out, there are still severe disruptions to the economy and people became very rational in their consumption habits. In the short to medium term, management expects the performance from the Group's key market of China to remain challenging before we can experience any rebound for growth.

For FY2023, the Group's other key markets also expect strong headwinds in light of a looming US recession and weakening global demand as a result of tense US-China relations and the ongoing Russia/Ukraine war.

Other factors that may affect the Group's performance in the next reporting period and for the next 12 months are as follows:

- As the Group makes payment to raw material suppliers in United States Dollar and certain cash balances are held in United States Dollar, the rising interest rates and inflation rate may have a positive or negative impact to the United States Dollar, hence, impacting the Group's profitability.
- The Group's China subsidiary currently enjoys certain incentives, which if removed or changed, may result in negative impact to the Group's profitability, given China's contribution to the Group;
- While flights and shipment issues have improved vastly to almost pre-Covid days, there
  are still some challenges brought about by port congestion, resulting in possible short term
  inventory shortages;
- Professional fees may be incurred for services which include but are not limited to, identification and assessment of M&A opportunities, corporate actions, registrations and enforcement of the Group's intellectual properties in various markets, and professional updates of various regulations the Group is subject to in the jurisdictions it operates in, etc.;
- Higher administrative expenses, e.g. management and staff costs are still expected for the Group in the periods ahead. There will also be higher expenses and depreciation in relation to the relocation/refurbishment of the Group's HQ and certain Regional Centres; and
- Fluctuating currency exchange rates of key markets which the Group operates in against the Singapore Dollar, may positively or negatively impact the Group's performance. Management is taking active measures to mitigate these potential risks.

Other ongoing factors that may affect the Group's performance include further pandemic restrictions in key markets we operate in, timeline for product license registration and renewal in key markets, natural disasters, unanticipated regulatory changes and disruptions from competitors and disgruntled customers.
