10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

With Brent continuing to rally above \$70/bbl the market conditions continue to be brutal for the subsea industry, which is working to recover from the downturn, but activity is gradually improving with more work expected this year. The subsea market activity maintained momentum this quarter with several small awards. Our differentiated service offering, strong client relationships and early engagement capability helped us to grow our order backlog.

The oil and gas market has seen a gradual increase in activity with a growing volume assumption in the world. However, at present pricing is challenging and we expect margins to remain low until excess capacity is utilized. We are addressing this through our lower cost solution using our experience and technical expertise to drive out inefficiencies.

We will see more awards coming our way in Q3 & Q4 2018 for conventional projects in the subsea installation engineering arena. Tenders on the horizon could include awards for work on projects for fields offshore in the Middle East i.e. Qatar, Saudi Arabia, Kuwait to name but a few—in the short to medium term.

The current tailwind in the oil market is likely to propel 100 new offshore projects to be sanctioned in 2018. This compares to only 60 projects in 2017 and below 40 in 2016. These projects represent a collective US\$100 billion worth of capital investment, giving an average of about US\$1 billion per project. In contrast, the average projected capex for offshore projects approved in 2013 was US\$1.8 billion.

Geographically these 100 projects are widespread. We forecast about 30 project approvals to come through in Asia this year, including in Malaysia and in India, and another 30 in Europe, including Neptune Deep in Romania. Africa should see green lights given to nearly 20 projects and a similar number is forecasted in the Americas.

Deepwater projects on either side of the Atlantic Ocean—from Norway to the US and from Angola to Brazil—are leading the charge toward new approvals. Higher oil prices, an

(Registered in the Kingdom of Thailand) (Company Registration No. 0107550000017)

improved outlook for gas demand, and lower offshore development costs are driving this rebound in the industry.

Cash preservation remains a top priority for the Group. In the second quarter of 2018, the Group managed more actively to enhance return from excess cash by investing in higher return yield within a limited risk and proper liquidity level, we continued to execute its cost savings program to counter the impact of the market challenging whilst aiming to maintain safety, quality and efficiency.

The Group's balance sheet remains in a strong position with very low gearing and positive cash flow from operation in first half of 2018 which is expected to financially help the Group during the market challenging period. We also well positioned to capitalize on opportunistic expansion if and when potential distressed assets become available for sale.

In our drilling business joint venture under Asia Offshore Drilling Limited ("AOD"), the Group's three high specification jack-up drilling rigs have performed strongly with near-full utilization during the second quarter of 2018. The Group holds a 33.76 percent equity stake in AOD through its wholly owned subsidiary Mermaid International Ventures ("MIV") with the remaining equity stake previously held by Seadrill Ltd. ("Seadrill") subsequently novated to Seadrill Rig Holding Company Limited ("SRHL") as part of Seadrill's Chapter 11 plan of reorganization. Seadrill then announced on 2 July 2018 that it has emerged from Chapter 11 after successfully completing its reorganization. Meanwhile, all three AOD jack-up rigs remain contracted in the Middle East to perform drilling services until 2019.

The AOD subsidiaries are borrowers under a USD 360 million senior secured credit facility ("AOD Credit Facility"), approximately USD 210 million of which is outstanding to date. Pursuant to the terms of a Transaction Support Agreement ("TSA"), AOD and its subsidiaries have agreed to become a party to the Seadrill restructuring package and, as a result of this joinder, have, among other things, reached agreement with the bank lenders to: (a) extend the maturities of the AOD Credit Facility by approximately five years (on average); (b) eliminate amortization obligations until 31 December 2019; (c) provide a three and a half year covenant holiday; and (d) include more flexible financial covenants, including deferring financial covenant testing until 2021 with the exception of the minimum liquidity covenant, which will apply from completion of the restructuring onwards.

In addition, MIV and SRHL have also agreed the terms of put and call options in respect of MIV's shares in AOD in accordance with the terms set out in the TSA, which can be summarized as follows:

(a) MIV will be granted a put option in respect of its shares in AOD, exercisable between 1 October 2019 and 30 September 2020. The valuation for MIV's shares in AOD shall be based on independent rig brokers and financial expert assessment but subject to a ceiling of USD 125 million.

(Registered in the Kingdom of Thailand) (Company Registration No. 0107550000017)

(b) Seadrill will be granted a call option in respect of MIV's shares in AOD, exercisable from 1 October 2020 to 31 March 2021. The valuation for MIV's shares in AOD shall be based on independent rig brokers and financial expert assessment but subject to a floor price of USD 75 million.
