Note:-

(a) The other gains/(losses) – net in the corresponding quarter mainly relates to the write-off of development costs incurred for a project.

(b) The decrease in distribution expenses is largely due to the lower rental from retail stores in Singapore.

(c) The decrease in administrative and other expenses is largely due to the lower accrued operating expenses.

1 (b)(i) Statements of Financial Position (continued)

Note:-

- (a) The decrease in the Group's current trade and other receivables is largely due to the receipt of progress billings for development projects.
- (b) The decrease in the Group's development properties is primarily attributable to the capitalised development costs expensed to the income statement.
- (c) The decrease in the Company's current trade and other receivables is mainly due to the repayment of loans from its subsidiary companies.

1 (b)(ii) Aggregate amount of group's borrowings and debt securities

1 (e)(ii) Changes in the Company's share capital

Balance at 1 October and 31 December 2018

At 31 December 2018, the Company's issued share capital (excluding treasury shares) comprises 767,725,460 (30 June 2018: 772,195,860) ordinary shares. The total number of treasury shares held by the Company as at 31 December 2018 was 26,201,800 (31 December 2017: 19,452,900) which represents 3.4% (31 December 2017: 2.5%) of the total number of issued shares (excluding treasury shares).

Number of shares

793,927,260

There were 1,091,000 (31 December 2017: 715,600) treasury shares reissued pursuant to the employee share plans for the half year ended 31 December 2018.

2 Whether the figures have been audited or reviewed, and in accordance with which auditing standard or practice.

The above figures have not been audited and reviewed by the Company's auditors.

3 Where the figures have been audited or reviewed, the auditors' report (including any qualifications or emphasis of matter).

Not applicable.

4 Whether the same accounting policies and methods of computation as in the issuer's most recently audited annual financial statements have been applied.

Except as disclosed in Note 5 below, the Group has applied the same accounting policies and methods of computation as in the audited financial statements for the financial year ended 30 June 2018.

5 If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change.

Singapore-incorporated companies listed on the Singapore Exchange are required to apply a new financial reporting framework identical to the International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"), Singapore Financial Reporting Standards (International) (SFRS(I)s), for annual periods beginning on or after 1 January 2018.

In adopting SFRS(I)s, the Group has applied all of the specific transition requirements in SFRS(I) 1 *First-time Adoption of SFRS(I)s*. In addition, the Group has also adopted the following SFRS(I)s, and amendments and interpretations of SFRS(I)s that are relevant to the Group and the Company and effective for annual periods beginning on or after 1 January 2018 as follows:

- SFRS(I) 9 Financial Instruments
- SFRS(I) 15 Revenue from Contracts with Customers
- SFRS(I) INT 22 Foreign Currency Transactions and Advance Consideration

The adoption of the above standards did not have any significant impact on the financial performance or position of the Group and the Company except for the following:

(a) Application of SFRS(I) 1 First-time Adoption of SFRS(I)s

The Group has applied SFRS(I)s on a retrospective basis and has restated the comparatives where applicable because SFRS(I) 1 requires both the opening statement of financial position as at 1 July 2017 and comparative information to be prepared using the most current accounting policies. SFRS(I) 1 provides mandatory exceptions and optional exemptions from retrospective application. The Group has elected the following optional exemptions which result in adjustments to the Group's financial statements prepared under SFRS(I)s as follows:

(i) <u>Cumulative translation differences</u>

The Group has elected to set the cumulative translation differences for all foreign operations to be zero as at the date of transition to SFRS(I)s on 1 July 2017. As a result, currency translation reserve and share of capital reserves of associated and joint venture companies as at 1 July 2017 was increased by \$87,333,000 and \$7,339,000 respectively, and retained earnings decreased by \$94,672,000 on the same date.

(ii) Deemed cost exemption

The Group has elected and regarded the carrying amount of certain property, plant and equipment stated at valuation as their deemed cost at the date of transition to SFRS(I)s on 1 July 2017. As a result, \$24,247,000 of the Group's asset revaluation reserve was reclassified directly into retained earnings on that date.

(b) Adoption of SFRS(I) 9 Financial Instruments

SFRS(I) 9 introduces new requirements for classification and measurement of financial assets, impairment of financial assets and hedge accounting. The Group has elected to apply the short-term exemption under SFRS(I) 1 to adopt SFRS(I) 9 on 1 July 2018. Accordingly, requirements of FRS 39 *Financial Instruments: Recognition and Measurement* continued to apply to financial instruments of the Group up to the financial year ended 30 June 2018.

5 If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change. (continued)

(b) <u>Adoption of SFRS(I) 9 *Financial Instruments* (continued)</u>

The Group has assessed the business models that are applicable on 1 July 2018 to financial assets so as to classify them into the appropriate categories under SFRS(I) 9. The Group has elected to recognise changes in the fair value of certain equity investments not held for trading and previously classified as available-for-sale financial assets in other comprehensive income. The Group's associated company has reclassified its available-for-sale financial assets to financial investments at fair value through profit or loss as they do not meet the criteria for classification at amortised cost. As a result, the Group's share of the related fair value gains of \$11,549,000 was transferred from share of capital reserves of associated and joint venture companies directly to retained earnings on 1 July 2018.

The Group's existing hedges as at 1 July 2018 that were designated as effective hedging relationships continue to qualify for hedge accounting under SFRS(I) 9.

SFRS(I) 9 requires the Group and the Company to record expected credit losses on all of its loans and trade receivables, either on a 12-month or lifetime basis. The Group has adopted the simplified approach and records lifetime expected losses on all trade receivables. The impairment calculated using the expected credit loss model does not have a significant impact on the financial statements.

(c) Adoption of SFRS(I) 15 Revenue from Contracts with Customers

SFRS(I) 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognised. It also introduces a new cost guidance which requires certain costs of obtaining and fulfilling contracts to be recognised as separate assets when specified criteria are met.

The Group has applied all of the requirements of SFRS(I) 15 retrospectively, except for the practical expedients used for completed contracts. Under these practical expedients, completed contracts that began and ended in the same comparative reporting period, as well as completed contracts at the beginning of the earliest period presented, are not restated. The Group has also voluntarily changed the presentation of assets and liabilities related to contracts with customers.

The adoption of SFRS(I) 15 resulted in the following adjustments:

(i) <u>Accounting for sale of development properties</u>

Under SFRS(I) 15, the Group's revenue from the sale of development properties is recognised when or as the control of assets is transferred to the customers, depending on the terms of the contract and the laws that apply to the contract. The Group identified certain contracts relating to the sale of development properties where there are two distinct performance obligations which are satisfied at different timings (i.e. sale of properties, and sale of other items that are delivered on completion of the properties), and concluded that the revenue recognition for these contracts are affected by the change in accounting policy. For properties sold under these contracts, the Group has determined that they have no alternative use to the Group due to contractual restrictions, and the Group has enforceable rights to payment from the customers for performance completed to date. Accordingly, the Group recognises revenue as the performance obligation is satisfied over time by reference to the stage of completion of the properties. Revenue for the sale of the other items is recognised at a point in time when the control of those items is passed to the customer upon transfer of legal title of the completed property.

(ii) Accounting for costs to fulfil a contract

Previously, sales commissions paid to property agents in the sale of development properties were expensed as they did not qualify for recognition as an asset under any of the accounting standards. However, these costs relate directly to the contract and are expected to be recovered. They were therefore capitalised as costs to fulfil a contract following the adoption of SFRS(I) 15 and included in other current assets in the statement of financial position as at 1 July 2017. The asset is amortised over the term of the specific contract it relates to, consistent with the pattern of recognition of the associated revenue.

If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change. (continued)

- (c) Adoption of SFRS(I) 15 Revenue from Contracts with Customers (continued)
 - (iii) Equity accounting for share of results of associated company
 In accordance with the requirements of SFRS(I) 1, the Group's associated company has applied the
 requirements of SFRS(I) 15 retrospectively. The Group has adjusted its investment in associated
 company and share of profits of associated company in line with the adoption.

The effects on the comparatives arising from the adoption of the SFRS(I) 1 and 15 are as follows:

8 **Review of performance of the group**

For the half year ended 31 December 2018 ("current period"), the Group recorded a total revenue of S\$193.9 million. This is a 7% increase from the S\$181.0 million revenue recorded for the half year ended 31 December 2017 ("corresponding period"), largely attributable to the increase in property sales in Malaysia.

The Group recorded a net profit before tax of S\$16.4 million in the current period as compared to S\$24.2m in the corresponding period, primarily due to the absence of one-off gain on disposal of a subsidiary company but partially mitigated by the increase of S\$10.6 million in the share of profits of associated and joint venture companies in the current period. This increase is mainly due to the higher contributions from Wing Tai Properties Limited in Hong Kong and Uniqlo in Singapore and Malaysia.

In the current period, the Group's net profit attributable to shareholders was S\$18.2 million as compared to the S\$21.1 million recorded in the corresponding period.

The Group's net asset value per share was S\$4.24 and it was in a net cash position as at 31 December 2018.

9 Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

The current announced results are in line with the prospect statement previously disclosed to shareholders in the results announcement for the first quarter ended 30 September 2018.

10 Commentary of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The URA's private residential property price index increased by 7.9% in 2018, as compared to 1.1% increase in 2017. The total number of new private residential units sold islandwide decreased by 17% from 10,566 new units sold in 2017 to 8,795 new units in 2018.

The Group expects the buying sentiment for private residential property in Singapore to remain subdued and will continue to keep a lookout for investment opportunities in Singapore and overseas markets
