Civmec is a multi-disciplinary construction and engineering services provider to the oil and gas, metals and minerals, infrastructure and defence markets. The diversification of service offerings and the sectors in which we operate has placed the Group in an excellent position to capitalise on growth opportunities.

The Forgac's shipyard facilities acquired in February are currently being developed further to incorporate the innovations, efficiencies and capabilities that have been developed at the Group's Henderson facility and have provided an excellent launching base for our East Coast operations with work currently being completed at the Tomago site.

Following recent Federal Government announcements regarding Naval acquisition projects we have refined our strategy to enter the defence sector. With our inherent capabilities and the flexibility provided by having facilities on both the East and West coasts we are well positioned to win work in the major ship and submarine construction and maintenance projects.

At the end of March 2016 the Group's order book is approximately S\$186 million (including share of joint venture revenue) with tendering activity positive with opportunities being pursued across all sectors in which the Group operates. In particular, we are seeing strong demand for our services in the infrastructure sector in New South Wales with a number of fabrication and precast tenders in progress.

Despite challenging market conditions Civmec is focused on achieving sustainable growth and are optimistic that the strategic decisions made over the past year will provide opportunities for the business to differentiate itself in the markets it operates and deliver value to our clients in the future.

To achieve long term sustainability, the company has invested time and significant funds in key growth markets and on future opportunities. Initiatives such as increased business development activities, entry into the defence sector, the acquisition of Forgacs and our continual focus on systems improvement are all areas where the company determined an investment needed to be made well in advance of any return being achieved. The Group is confident that the effort spent in the short term will reap rewards in the foreseeable future and provide the business with a solid platform for sustainable growth.

Barring any unforeseen circumstances, the Group expects to remain profitable for the 2016 financial year.
