

Zixin Group has secured a renewed order for probiotic-infused fermented sweet potato feedstock from the Liancheng white duck poultry farm

- ♣ **The renewed order doubled to 360 tonnes of probiotic-infused fermented sweet potato feedstock for the breeding of the Liancheng white ducks**
- ♣ **Zixin Group believes that its probiotic-infused fermented sweet potato feedstock and proprietary feed formulations will benefit the sweet potato industry as it expands and spills over to other industries, including animal feed manufacturers, poultry and livestock farmers, and consumers**

For Immediate Release

SINGAPORE, 01 April 2026 – SGX Catalist-listed 42W, **Zixin Group Holdings Limited** 紫心集团控股 (“**Zixin**” or the “**Company**” and together with its subsidiaries, “**Zixin Group**”), a leading biotech-focused sweet potato integrated industrial value chain operator, is pleased to update its shareholders and potential investors that it has secured a renewed order for probiotic-infused fermented sweet potato feedstock with Liancheng County Guanhe White Duck Family Farm (连城县冠河白鹭鸭家庭农场), a local poultry farm specialising in white ducks. This order consists of 360 tonnes of feedstock, which is double the quantity from the previous order. The renewed order is valued at RMB 1.44 million (equivalent to approximately SGD 269,066) and is confirmed for a duration of one year, commencing on 19 March 2026.

Commenting on the renewed order, Mr. Liang Chengwang (梁承旺), Executive Chairman and Chief Executive Officer of Zixin Group, said, “**We are delighted to have the opportunity to continue our collaboration with the duck farm and supply a bigger quantity of our probiotic-infused sweet potato feedstock using the proprietary duck feed formulation. This partnership not only reinforces our commitment to sustainable farming practices but also enhances the overall health and productivity of the livestock.**”

In October 2025, the Company announced that the purchaser of chicken and white duck from poultry farms utilising Zixin Group's probiotic-infused sweet potato feedstock in their feed formulations submitted samples of both chicken and white duck meat, as well as white duck eggs, for food safety testing. All tested samples of meat and eggs have complied with China's national food safety standards.

Mr. Liang adds, **“Our primary goal is to address the growing volume of sweet potato agricultural waste, which encompasses stems, leaves, peels, and other wastage. Consequently, we have maintained our selling price for the feedstock. We believe that our probiotic-infused fermented sweet potato waste feedstock and proprietary feed formulations will be mutually beneficial to all stakeholders in the sweet potato industry and spill over to other sectors, including animal feed manufacturers, poultry and livestock farmers, and consumers, as we continue to expand our sweet potato ecosystem beyond Liancheng County in Fujian Province.”**

None of the Directors or controlling shareholders of the Company has any interest, direct or indirect in Liancheng County Guanhe White Duck Family Farm or this renewed order (other than through their shareholdings in the Company).

Zixin Group does not expect this renewed order to have a material impact on its financial results for the financial year ended 31 March 2026. The Company will update shareholders on material developments for the Group as and when they arise.

###

ZIXIN GROUP HOLDINGS LIMITED 紫心集团控股

(Stock code – SGX: **42W** | Bloomberg: **ZXGH SP** | Reuters: **42W.SI**)

Zixin Group Holdings Limited (“**Zixin**” or the “**Company**” and together with its subsidiaries, “**Zixin Group**”) is a leading biotech-focused sweet potato integrated industrial value chain operator in China. Through its wholly-owned subsidiaries, the Group harnesses its biotechnology capabilities to strengthen and support its core business areas: **(a) cultivation and supply** – (i) research and development on sweet potato varieties to cultivate sweet potato seedlings, (ii) sweet potato cultivation techniques and solutions to improve the quality and yield for farmlands, (iii) sweet potato seedlings nursery base, and (iv) fresh sweet potatoes supply, **(b) product innovation and food production** – innovation of snack food and functional food, as well as production techniques to maximise nutrient retention and produce healthier proprietary branded products, **(c) brand building, marketing and distribution channel building** – strengthen market awareness and position of proprietary brands of healthier snack food and functional food through targeted marketing campaigns and various distribution platforms (traditional and e-commerce) throughout China, and **(d) recovery and recycling** – R&D on nutritional content from sweet potato peels through proprietary extraction technology and utilising proprietary probiotic fermentation formulation as a medium to convert agricultural waste materials such as spoiled sweet potatoes, sweet potato peels, stems and leaves into raw ingredients that could potentially be part of the poultry and animal feeds.

Zixin Group aims to be a leading biotech-focused sweet potato agritech operator globally that leverages smart ecological agriculture and utilises biotech capabilities throughout its integrated sweet potato industrial value chain. With the support of complementary industries such as smart warehousing and agricultural waste fermentation, Zixin Group intends to utilise its biotech capabilities to reinforce its circular economy business model to further enhance its effectiveness and cultivate economies of scale.
