Updates on SIIC Environment's 160,000-tonne Projects

This announcement is made voluntarily by SIIC ENVIRONMENT HOLDINGS LTD. ("**SIIC Environment**" or the "**Company**", together with its subsidiaries, the "**Group**"), a water treatment and environmental protection company listed on the Main Board of the SGX-ST and the Main Board of the Hong Kong Stock Exchange, to update shareholders of the Company and potential investors on its latest business developments.

The Group is pleased to announce the latest progress of four projects, with a total capacity of 160,000 tonnes, in Heilongjiang, Shandong and Guangxi Zhuang Autonomous Region of the People's Republic of China. Among them, 85,000-tonne wastewater treatment plant ("**WWTP**") projects have been added, a 45,000-tonne WWTP project has secured upgrading, and a 30,000-tonne WWTP project commenced commercial operation.

Secured 85,000-tonne WWTP projects

The Company's 75.5% indirectly-owned subsidiary, SIIC Environment Holdings (Weifang) Co., Ltd., has signed an agreement with Weifang Ruida Municipal Engineering Co., Ltd., regarding the Weifang City Weicheng District WWTP O&M Project ("**Weicheng Project**"). The O&M

period is eight years. The project has a designed capacity of 50,000 tonnes per day with a discharge standard as Quasi Grade IV.

The Company's 90% indirectly-owned subsidiary, SIIC Environment Holdings (Beihai) Co., Ltd., has secured Beihai Daguansha WWTP O&M Project 2nd Phase ("**Beihai Project 2nd Phase**"). The project has a designed capacity of 35,000 tonnes per day with a discharge standard as Class I Standard A. The O&M period is six months, which could be extended if deemed appropriate depending on the status of cooperation between the two parties.

45,000-tonne WWTP project has secured upgrading

Harbin City Pingfang WWTP Improvement Project ("**Pingfang Project**") has a total designed capacity of 150,000 tonnes per day, 75,000 tonnes of which has a discharge standard as Class I Standard A, and the other 75,000 tonnes as Class I Standard A. To control overflow risk during flood seasons, the project was approved to upgrade by 45,000 tonnes with its discharge standard upgraded from Class I Standard B to Class I Standard A.

30,000-tonne WWTP project has commenced commercial operation

Hegang City WWTP Project (West Plant Expansion 2nd Phase) ("**Hegang West Plant Expansion 2nd Phase Project**") has commenced commercial operation with retrospective effect to 30 June 2023. The project has a designed capacity of 30,000 tonnes per day with a discharge standard as Class I Standard A.

The above-mentioned projects are expected to contribute positively to the Group's future performance.
