E. Notes to the Condensed Interim Consolidated Financial Statements

1. Corporate Information

Figtree Holdings Limited (the "**Company**") is a limited liability company incorporated and domiciled in Singapore and is listed on the Catalist board of the Singapore Exchange. These condensed interim consolidated financial statements as at and for the nine months ended 30 September 2026 ("**9M2026**") comprise the Company and its subsidiaries (collectively the "**Group**").

The principal activity of the Company is that of investment holding. The principal activities of the subsidiaries are:
(a) general contractors (building construction including major upgrading works) and providers of general building engineering services
(b) property development
(c) project management services.

The principal activities of the associates are:
(a) investment holding
(b) logistics services
(c) design, build and operate tier-certified data centres
(d) development of industrial and storage facilities
(e) property investment and management
(f) development, leasing, sale and management of industrial facilities
(g) corporate and logistic operation management, warehousing service provider and IT development
(h) freight and logistics management, warehousing service provider and logistics data management
(i) property management and leasing, machinery repair and facility management services
(j) produce and supply energy
(k) computer system design and related services.

2. Basis of Preparation

The condensed interim financial statements for 9M2026 have been prepared in accordance with Singapore Financial Reporting Standards (International) ("**SFRS(I)**") 1-34 *Interim Financial Reporting* issued by the Accounting Standards Council Singapore. The condensed interim financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since the last audited financial statements for the year ended 31 December 2025.

Save as disclosed in Section 2.1 below, the accounting policies adopted are consistent with those of the previous financial year, which were prepared in accordance with SFRS(I)s.

The condensed interim financial statements are presented in Singapore dollar, which is the Company's functional currency.

Going concern assumption

The following factors indicated the existence of multiple material uncertainties that may cast significant doubt on the Group and the Company's ability to continue as going concerns:

- The Company's net current liabilities (excluding "net amounts due from subsidiaries") of S$1,144,982 (31 December 2025: S$1,104,190) as at 30 September 2026;
- The Group reported a net loss of S$1,392,357 for the financial period ended 30 September 2026 (30 September 2025: S$3,104,212);
- As at 30 September 2026, the Group reported an adjusted deficiency in net current assets of S$7,788,392 (31 December 2025: S$5,332,660), having excluded a loan to associate with a carrying amount of S$12,568,931 (31 December 2025: S$11,761,292) which is in default, as it is not probable that there will be cash inflows to the Group from the settlement of the loan in the next 12 months from the reporting date; and
- The going concern assumption is dependent on the continued financial support from a corporate shareholder.

Notwithstanding the above and barring any unforeseen circumstances, the Directors are of the view that the use of going concern assumption in the preparation of the condensed interim financial statements is appropriate having considered the following:

(a) The Group and the Company are still in net current assets position of S$4,780,539 (31 December 2025: S$6,428,632) and S$14,139,920 (31 December 2025: S$14,772,068) respectively;

(b) Based on the cash flow forecast for the next 12 months, the Group is able to generate positive cash flows from its operations and raise/obtain necessary fundings; and
(c) The Company is evaluating various options to raise and/or obtain additional working capital.

Based on the above, the Directors have reasons to believe that the Group and the Company will be able to generate sufficient positive cash flow from its operations and raise/obtain the necessary fundings to meet its obligations as and when they fall due.

If the Group and the Company are unable to continue in operational existence for the foreseeable future, the Group and the Company may be unable to discharge its liabilities in the normal course of business and adjustments may have to be made to reflect the situation that assets may need to be realised other than in the normal course of business and at amounts which could differ significantly from the amounts at which they are currently recorded in the balance sheet. In addition, the Group and the Company may have to reclassify its non-current assets as current assets and non-current liabilities as current liabilities. No such adjustments have been made to these interim financial statements.

2.1 New and amended standards adopted by the Group

The Group and the Company have adopted all new and revised SFRS(I) and amendments to SFRS(I), effective for the current financial period that are relevant to them.

The adoption of these new and revised SFRS(I) pronouncements does not result in significant changes to the Group's and the Company's accounting policies and has no material effect on the amounts or the disclosures reported for the current or prior reporting periods.

2.2 Use of judgements and estimates

The preparation of the condensed interim financial statements requires the use of judgements, estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent assets and liabilities at the date of the condensed financial statements and the reported amounts of revenues and expenses during the financial period. Although these estimates are based on management's best knowledge of current events and actions, actual results may differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

The significant accounting estimates and assumptions used and areas involving a high degree of judgement are detailed below.

2.2.1 Judgements made in applying accounting policies

In the process of applying the Group's accounting policies, management makes judgements, apart from those involving estimations, which has the most significant effect on the amounts recognised in the condensed financial statements. Management is of the opinion that the instances of application of judgements are not expected to have a significant effect on the amounts recognised in the condensed financial statements.

2.2.2 Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period are discussed below. The Group based its assumptions and estimates on parameters available when the condensed financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to the market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Impairment of non-financial assets

At the reporting date, management performed an impairment assessment on the Group's non-financial assets, comprising its property, plant and equipment and interests in associates and the Company's investments in subsidiaries in accordance with SFRS(I) 1-36 and identified impairment indicators on certain non-performing assets. Management determined the recoverable value of these assets based on the fair value less cost of disposal with reference to valuation reports obtained from independent professional valuers at the reporting date and the Company commissions such valuation on an annual basis. The recoverable amounts could change significantly as a result of changes in market conditions and the assumptions used in determining the market value.

A decrease of not more than 10% in the market comparables used in determining the recoverable amount of the Group's property, plant and equipment; and the residual net asset value of the subsidiaries used in determining the recoverable amount of the Company's investments in subsidiaries, respectively, will not result in the recognition of impairment losses.

The Group's interests in the associates are held for long-term strategic purposes and comprise the significant associates as disclosed in Note 9 to the condensed interim financial statements. The significant underlying assets include property, plant and equipment and investment properties. Underlying liabilities mainly include shareholder loans and related interest payables. Accordingly, management is of the view that the Group's share of the residual net asset value of the associates is an appropriate estimate of the recoverable amount of the interest in associates. A reasonable rate of change will not result in the recognition of impairment losses.

*Expected credit losses ("**ECL**") on loans to associates and amounts due from subsidiaries*

The Group uses the general approach to calculate loss allowance provision on loans to associates and amounts due from subsidiaries. The Group considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. The determination of expected credit losses requires management to exercise significant judgement and the use of estimates.

During the financial year ended 31 December 2025, management recorded an impairment loss on the loans extended to an associate amounting to S$1,388,811 in the consolidated statement of comprehensive income.

As at 30 September 2026, the carrying amount of loans to associates and net amounts due from/to subsidiaries, and amounts due from an associate is S$21,664,384 (31 December 2025: S$20,855,014), S$15,284,902 (31 December 2025: S$15,876,258), and S$244,650 (31 December 2025: S$195,600) respectively.

ECL on trade receivables and contract assets

The Group uses a provision matrix to calculate ECL for trade receivables and contract assets. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns. The provision matrix is initially based on the Group's historical observed default rates, adjusted for forecast economic conditions with forward looking information. The amount of ECL is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. A reasonable change in the estimates will not result in a significant impact to the Group's ECL.

Construction contracts

The Group recognises contract revenue over time by reference to the stage of completion of the contract activity at the end of the reporting period. The stage of completion is measured by reference to the proportion of contract costs incurred for work performed to date to the total estimated costs. The amount of revenue recognised and the corresponding profit or loss on contracts are affected by a variety of uncertainties that depend on the outcome of future events and precision of the cost estimation during the budgeting process. As such, significant judgement and use of estimates are required to determine the stage of completion, estimated contract costs and budgeted margin for the respective projects. The carrying amount of contract assets and contract liabilities recognised from construction contracts at the end of each of the reporting periods are disclosed in Note 4.3 to the condensed interim financial statements.

3. Seasonal Operations

The Group's businesses are not affected significantly by seasonal or cyclical factors during the financial period.

4. Segment and Revenue Information

For management purposes, the Group is organised into business units based on their products and services, and has three reportable operating segments as follows:

(a)	Design and build:	Design and build commercial and industrial facilities. The scope of services covers the full spectrum of the project development process, including land search and authority liaison, feasibility studies, design and construction.
(b)	Property development:	Construct, develop, sell and/or lease out of residential, commercial and industrial properties.
(c)	Corporate:	Involved in Group-level corporate services.

Except as indicated above, no other operating segments have been aggregated to form the above reportable operating segments.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit margins of the products and services.

F. Other Information Required by Appendix 7C of the Catalist Rules

1. Whether the figures have been audited or reviewed, and in accordance with which auditing standard or practice

These figures have not been audited or reviewed by the Company's auditors.

2. Where the figures have been audited or reviewed, the auditors' report (including any modifications or emphasis of matter)

Not applicable.

3. Where the latest financial statements are subject to an adverse opinion, qualified opinion or disclaimer of opinion (This is not required for any audit issue that is a material uncertainty relating to going concern.):-

(a) Updates on the efforts taken to resolve each outstanding audit issue.

Not applicable.

(b) Confirmation from the Board that the impact of all outstanding audit issues on the financial statements have been adequately disclosed.

Not applicable.

4. A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following:

(a) any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and
(b) any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.

(a) Review of the Condensed Interim Consolidated Statement of Comprehensive Income

Financial period from 1 January 2026 to 30 September 2026 ("9M2026") vs 1 January 2025 to 30 September 2025 ("9M2025")

(i) Revenue increased mainly due to the completion of the sale of two units at the Blackburn redevelopment project in Melbourne, Australia ("**Esme**") in the first quarter of 2026.

(ii) The higher gross profit was mainly due to the recognition of the sale of the two units at Esme, with higher profit margins.

(iii) The decrease in general and administrative expenses was mainly due to foreign exchange gains in 9M2026, compared to foreign exchange losses in 9M2025, mainly due to the strengthening of the Australian dollar and Renminbi against the Singapore dollar.

(iv) The increase in finance costs was mainly due to an increase in working capital loans from a corporate shareholder and other borrowings during the period.

(v) The loss in share of results of associates for 9M2026 was mainly due to the Group's share of fair value losses recognised on an investment property held by an indirect associate, partially offset by operational profits

recognised by associates. The profit in share of results of associates for 9M2025 was mainly due to higher operational profits recognised by associates.

(vi) The lower income tax expense in 9M2026 was mainly due to lower withholding tax on foreign sourced interest income due to repayment of loans by a subsidiary.

(b) Review of the Condensed Interim Statements of Financial Position

(i) Interests in associates increased mainly due to the accumulated share of translation and other reserves.

(ii) Development properties decreased due to the recognition of development property costs relating to the sale of the two units of Esme during the period.

(iii) Contract assets decreased mainly due to billing of invoices to customers during the period.

(iv) Trade receivables decreased mainly due to the receipts received from customers during the period.

(v) Other receivables decreased mainly due to the receipts of deposits held-in-trust after the completion of the sale of the two units of Esme during the period.

(vi) Cash and bank balances increased mainly due to net cash flows generated from financing activities, partially offset by net cash flows used in operating activities. More information can be found in the review of the Cash Flow Statement in part (c) below.

(vii) Trade and other payables decreased mainly due to the decrease in trade payables and accrued subcontractors' costs resulting from payments made during the period.

(viii) Total borrowings increased mainly due to loans from a corporate shareholder and other borrowings, partially offset by the repayment of bank borrowings and other borrowings during the period.

(c) Review of the Cash Flow Statement of the Group

Net cash flows used in operating activities amounted to S$0.67 million. This comprised mainly operating cash flows before changes in working capital of S$1.67 million, partially offset by net changes in working capital of S$1.03 million.

The net changes in working capital of S$1.03 million was mainly due to the following:

- Changes in development properties of S$0.83 million;
- Changes in trade receivables and contract assets of S$1.04 million;
- Changes in other receivables and prepayments of S$0.08 million;
- Changes in amounts due from an associate of S$0.05 million; and
- Changes in trade and other payables of S$0.87 million.

Net cash flows generated from financing activities of S$0.74 million was mainly due to proceeds from shareholders and other borrowings of S$3.58 million, partially offset by the repayment of bank borrowings of S$1.07 million and repayment of other borrowings of S$1.74 million.

As a result of the above and the effects of exchange rates on cash and cash equivalents of S$0.02 million, there was a net increase of S$0.07 million in the Group's cash and cash equivalents, from S$0.65 million as at 31 December 2025 to S$0.74 million as at 30 September 2026.

5. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

No forecast or prospect statement in relation to the financial performance or position of the Group has been previously disclosed to shareholders. The progress of the Group's projects is updated in Section 6 below.

6. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months

Property Investment & Development – China

Changshu Fervent High Tech Industrial Park continues to generate stable and recurring income through the Group's 32% interest in the project. Both Phase 1 and Phase 2 of the industrial park are fully occupied.

In relation to the legal proceedings against the 20%-owned associate Vibrant Pucheng Logistics (Chongqing) Co., Ltd, we continue to monitor the situation and will provide any material updates as and when there are material developments.

Property Investment & Development – Australia

We are actively promoting the sale of the remaining two units of our residential development, Esme.

Design and Build (D&B) – Singapore and China

The Group continues to actively tender for D&B projects in both Singapore and China.

Outlook

Global political and economic conditions continue to remain challenging, especially with the continued conflict in the Middle East. The Group expects its ability to secure new projects and earnings capacity to be impacted, while cost pressures on labour and materials are expected to persist. The Group's primary focus remains on strengthening our financial position and conserving cash until the economic and operating conditions stabilise. We continue to evaluate opportunities to realise value from our development and investment assets to enhance our liquidity position and prepare for growth when the right opportunities emerge. While we maintain a cautious outlook, we will continue to assess market developments and adapt our strategies to ensure our operations remain sustainable.

7. If a decision regarding dividend has been made:
