VOLUNTARY DISCLOSURE – QUARTERLY UPDATE ON FINANCIAL PERFOMANCE FOR THE THIRD QUARTER ENDED 30 SEPTEMBER 2026

The Board of Directors (the "**Board**") of Jiutian Chemical Group Limited (the "**Company**", and together with its subsidiaries, the "**Group**") wishes to provide its business updates to shareholders.

The Group recorded revenue of RMB 4.09 million for the three months ended 30 September 2026 ("**3Q2026**"), representing an increase of 46% compared to RMB 2.81 million for the corresponding period in 2025 ("**3Q2025**"). The increase was mainly attributable to revenue generated from stock clearance activities involving methanol, methylamine and DMF.

Revenue for both 3Q2026 and 3Q2025 remained at relatively low levels as the Group continued to suspend production of DMF and Methylamine in response to significant fluctuations in product selling prices and raw material costs, particularly methanol prices. This measure was taken to minimise operating losses amid challenging market conditions, while allowing the Group to monitor market developments and maintain financial discipline.

As a result of the Group's prudent production strategy and continued cost-control efforts, the Group recorded a net loss attributable to shareholders of RMB 17.78 million in 3Q2026, representing an improvement from the net loss of RMB 30.24 million in 3Q2025.

While the external environment remains challenging, the Group continues to focus on strengthening cost management and enhancing operational efficiency. The Group remains committed to maintaining financial discipline and operational readiness to position itself to capture growth opportunities when market conditions improve.
