**Livingstone Health Launches One-Stop Health Screening Centre  
Ardennes Healthcare Pte Ltd**

*Ardennes, a one-stop health screening and radiology centre located at 60 Paya Lebar Rd, #02-02/03/04*

**21 May 2021, Singapore** – The primary healthcare arm of SGX-listed multidisciplinary healthcare specialist Livingstone Health Holding Limited (“**Livingstone Health**”) today launched Ardennes Healthcare Pte Ltd (“**Ardennes**”), a one-stop health screening and radiology centre.

Ardennes is strategically located on the second floor of Paya Lebar Square, a bustling commercial mixed development in the heart of Paya Lebar Central. Ardennes will be poised to offer laboratory and radiology-based services such as blood tests, X-ray and ultrasound to these corporate clients as well as middle-upper PMETs.

Incorporated 16 October 2020, Ardennes, a wholly-owned subsidiary of Livingstone Health’s 51%-held Phoenix Medical Group (“**PMG**”), will be led by an experienced clinical team. It is the first new centre to be opened by Livingstone Health since the completion of its reverse takeover on 5 February 2021.

Ardennes’ launch is taking place as Singaporeans become more aware of health issues and wish to seek a personalised screening service performed by a dedicated doctor who can also review their results. While such screenings often span multiple appointments and locations

for various tests Ardennes has consolidated them into one location to provide greater convenience.

Apart from receiving personalised health reviews from a trained doctor, patients who have abnormalities picked up during screening can be referred to the Group's list of medical specialists for treatment.

Dr Chua Hshan Cher, co-founder of PMG, said, "As life expectancy and affluence increase, early detection of illnesses has become more important. Singapore has an ageing population that desires quality of life, and hence the demand for health screenings is expected to rise. Ardennes hope to offer a range of dedicated services to meet the needs of this growing pool of patients so that they can lead healthier lives even as they age."

Ardennes is expected to increase its range of services to include mammography and bone density scans over the next financial year ending 31 March 2022.

Dr Wilson Tay, CEO of Livingstone Health, said: "The healthcare screening service is in line with the Group's mission to offer multi-disciplinary healthcare. Patients will receive a comprehensive screenshot of their health in a convenient and timely manner while having the option to be referred to a trusted network of specialists should the need arise."

"Ardennes will also serve as a platform to strengthen the Group's ecosystem, increasing patient referrals for our primary and tertiary healthcare services. I am confident that Ardennes will add value to patients, as well as the Group's ecosystem by providing us with greater outreach to patients."

– End –

### **About Livingstone Health**

**Livingstone Health Holdings Limited.** (“Livingstone Health” and together with its subsidiaries, the “Group”) is a Singapore-based multidisciplinary healthcare group whose core competencies include Aesthetics & Wellness, Anaesthesiology & Pain Management, Family Medicine, Internal Medicine and Orthopaedic Surgery.

The name “Livingstone” is inspired by the succulent plant Lithops, also known as “living stones”. They symbolise the Group’s resilience, growth and determination to be recognised as a trusted integrated healthcare provider for patients, as well as a centre of excellence of growth opportunities for medical professionals.

The Group has 16 medical doctors practising at 12 medical clinics, one medical spa and one health screening centre located at convenient and accessible locations throughout Singapore. In addition, the Group has also ventured into other paramedical products and services, such as physiotherapy. It has a joint venture to provide aesthetics and wellness services in Cambodia and also offers healthcare design consultancy services.
