JARDINE CYCLE & CARRIAGE LIMITED 2019 THIRD QUARTER FINANCIAL STATEMENTS AND DIVIDEND ANNOUNCEMENT

Highlights

- Underlying profit of US\$614 million
- Lower contribution from Astra primarily due to a weaker automotive market and lower commodity prices
- Direct Motor Interests impacted by increased competition in Vietnam
- Stable contribution from Other Strategic Interests

"Jardine Cycle & Carriage reported underlying profit of US\$614 million for the first nine months of 2019, 9% lower than last year. This was due primarily to lower contributions from Astra in Indonesia and Truong Hai Auto Corporation in Vietnam. Astra is expected to continue to be affected by relatively weak domestic consumption and low commodity prices for the remainder of the year, while benefiting from an improved contribution from financial services and its gold mine operations. JC&C's Direct Motor Interests are expected to continue to face challenging market conditions, while the contribution from Other Strategic Interests is expected to be stable."

Ben Keswick, Chairman

The exchange rate of US\$1 =S\$1.38 (31st December 2018: US\$1=S\$1.37) was used for translating assets and liabilities at the balance sheet date and US\$1=S\$1.37 (30th September 2018: US\$1=S\$1.34) was used for translating the results for the period. The financial results for the nine months ended 30th September 2019 and 30th September 2018 have been prepared in accordance with International Financial Reporting Standards and have not been audited or reviewed by the auditors.

† The accounts have been restated due to changes in accounting policies upon adoption of IFRS 16 Leases, as set out in Note 1 to the condensed financial statements.

The Group uses 'underlying profit attributable to shareholders' in its internal financial reporting to distinguish between ongoing business performance and non-trading items, as more fully described in Note 4 to the condensed financial statements. Management considers this to be a key performance measurement which enhances the understanding of the Group's underlying business performances.

Included in 'non-trading items' are unrealised gain/losses arising from the revaluation of the Group's equity investments.

CHAIRMAN'S STATEMENT

Overview

The performance of Jardine Cycle & Carriage ("JC&C" or "the Group") in the first nine months of 2019 reflected the challenging conditions faced by Astra and Truong Hai Auto Corporation ("Thaco").

The Group's revenue was 1% lower than the comparable period in 2018 at US\$13.9 billion and its underlying profit attributable to shareholders was 9% lower at US\$614 million. Underlying earnings per share were also down 9% at US¢155. Profit attributable to shareholders increased significantly to US\$729 million, due to net non-trading gains of US\$115 million from unrealised fair value gains related to non-current investments. For the same period in 2018, there were net non-trading losses of US\$300 million from unrealised fair value losses on these investments. Earnings per share were US¢184, compared with US¢95 last year.

The Group's consolidated net debt, excluding Astra's financial services subsidiaries, was US\$2.8 billion at the end of September 2019, compared to US\$2.2 billion at the end of 2018. The increase was largely due to Astra's additional investments in the Surabaya-Mojokerto toll road and Gojek, as well as capital expenditure in its mining contracting business, and additional investment by JC&C in Thaco. Net debt of US\$3.3 billion within Astra's financial services subsidiaries was unchanged from December 2018. JC&C parent company's net debt was US\$1.5 billion, compared with US\$1.3 billion at the previous year end.

The Board has not declared a dividend for the third quarter ended 30th September 2019 (2018: Nil). Dividends are usually declared on a semi-annual basis for every six-month period ending 30th June (in respect of an interim dividend) and 31st December (in respect of a final dividend).

Group Review

The contribution to JC&C's underlying profit attributable to shareholders by business segments was as follows:

† The accounts have been restated due to changes in accounting policies upon adoption of IFRS 16 Leases, as set out in Note 1 to the condensed financial statements

<u>Astra</u>

Astra contributed US\$536 million to JC&C's underlying profit, 8% lower than the same period last year with the Rupiah exchange rate being stable. Astra reported a net profit equivalent to US\$1.1 billion under Indonesian accounting standards. This was mainly due to lower contributions from its automotive and agribusiness divisions, which more than offset higher contributions from the financial services division.

Automotive

Net income from Astra's automotive division was down 14% at US\$428 million, mainly due to lower car sales volumes, increased manufacturing costs and foreign exchange translation losses. Highlights were as follows:

- Car sales were 7% lower at 396,000 units. The overall Indonesian wholesale market declined by 12% to 754,000. Astra's market share increased from 50% to 53%, and it launched 14 new models and 7 revamped models during the period.
- Motorcycle sales increased by 5% to 3.7 million units. The Indonesian wholesale market increased by 4% to 4.9 million units and Astra increased its market share slightly to 75%, launching 6 new models and 19 revamped models during the period.
- Astra Otoparts reported a 24% increase in net income at US\$36 million, largely due to higher revenue from the replacement market and lower production costs.

Financial Services

Net income from Astra's financial services division increased by 25% to US\$304 million mainly due to a larger loan portfolio and an improvement in non-performing loans. Highlights were as follows:

- Consumer finance businesses saw a 7% increase in the amount financed to US\$4.5 billion. The net income contribution from the car-focused finance companies increased by 31% to US\$78 million, mainly due to lower non-performing loan losses. The net income contribution from the motorcycle-focused finance business increased by 8% to US\$132 million, mainly due to a larger loan portfolio.
- Heavy equipment-focused finance operations saw a 17% decrease in the amounts financed to US\$220 million. However, the net income contribution grew 27% to US\$5 million, with lower loan provisions.
- Permata Bank reported a significant increase in net income to US\$77 million due to higher revenue and lower loan impairment levels, attributable to improved loan quality and recoveries from non-performing loans. The bank's gross and net non-performing loan ratios improved to 3.3% and 1.2%, respectively, compared to 4.4% and 1.7% at the end of 2018.
- General insurance company, Asuransi Astra Buana, reported a 6% growth in net income at US\$57 million, driven by increased investment income.

Heavy Equipment, Mining, Construction & Energy

Net income from Astra's heavy equipment, mining, construction and energy division decreased by 5% to US\$363 million, principally due to foreign exchange translation, where a significant foreign exchange gain was recorded in the prior year. Excluding foreign exchange translation, net income would have been slightly higher. The contributions from the new gold mining operation and improved mining contracting volumes were partly offset by lower heavy equipment sales due to lower coal prices and lower earnings from general contracting business. Highlights were as follows:

- United Tractors reported a 5% decrease in net income to US\$610 million.
- Komatsu heavy equipment sales fell 30% to 2,568 units, while parts and service revenues were stable.

- Mining contracting operations recorded a 5% higher overburden removal volume at 750 million bank cubic metres, and a 7% higher coal production at 96 million tonnes.
- Coal mining subsidiaries achieved 11% higher coal sales at 6.4 million tonnes including 0.8 million tonnes of coking coal, but were affected by the lower coal prices.
- Agincourt Resources achieved gold sales of 306,000 oz.
- General contractor Acset Indonusa reported a net loss of US\$53 million compared to a net income of US\$6 million in the same period of 2018, mainly due to increased project and funding costs for several ongoing contracts.

Infrastructure & Logistics

Net income from Astra's infrastructure and logistics division increased by 38% to US\$11 million, mainly due to improved toll road revenue. Highlights were as follows:

- Toll revenue increased due to a 22% higher traffic volume in Astra's 339km of operational toll roads along the Trans-Java network.
- Serasi Autoraya's net income decreased by 23% to US\$10 million due to a fall in vehicles under lease and lower used car sales.

Agribusiness

Net income from Astra's agribusiness was down 90% at US\$6 million, primarily due to a 16% fall in average crude palm oil prices, despite an increase in crude palm oil and derivatives sales by 10% to 1.7 million tonnes.

Direct Motor Interests

JC&C's Direct Motor Interests contributed US\$79 million to the Group's underlying profit, 24% lower than the prior year largely due to a smaller contribution from Thaco. Highlights were as follows:

- In Vietnam, Thaco's US\$33 million contribution to the Group's underlying profit was 38% lower than the same period last year. This was due to an 11% decline in Thaco's vehicle sales in the face of the intense competition in the completely-built-up import segment, as tariffs were eliminated following the full implementation of the ASEAN Trade in Goods Agreement in 2018.
- In Singapore, Cycle & Carriage Singapore ("CCS") contributed US\$42 million to the Group's underlying profit, slightly higher than the previous year. Its passenger car sales grew by 8% to 11,100 units, despite a 4% decrease in the overall passenger car market. This was, however, partly offset by lower margins due to higher certificate of entitlement costs. CCS' market share increased from 17% to 19%, with the launch of new models and competitive pricing.
- In Indonesia, Tunas Ridean contributed US\$14 million to the Group's underlying profit, 8% higher than the previous year. This was due to a stronger contribution from its automotive operations, which was partially offset by a lower contribution from its rental business. Its consumer finance operations were in line with the prior year.
- In Malaysia, Cycle & Carriage Bintang contributed a loss of US\$2 million compared to a profit of US\$1 million in 2018, when the business benefited from the one-off zero rate of GST from June to August 2018.

Other Strategic Interests

Other Strategic Interests contributed US\$59 million to the Group's underlying profit, 6% up on the previous year. Highlights were as follows:

- Siam City Cement's underlying profit contribution of US\$19 million was in line with the previous year. Its improved domestic performance was offset by a lower contribution from its regional operations, mainly from South Vietnam.
- The contribution from Refrigeration Electrical Engineering Corporation ("REE") of US\$13 million was 3% down on the previous year due to weaker performances from its hydropower investments and its M&E business, which were partially offset by a stronger contribution from real estate.
- The Group's investment in Vinamilk delivered dividend income of US\$28 million, compared to US\$24 million in the previous year. Vinamilk's profit for the first nine months of the year was up 6% up in local currency terms, due to the rebound of the fast-moving consumer goods sector as well as an increase in Vinamilk's market share.

Corporate Costs

Corporate costs were US\$60 million for the period, compared to US\$67 million in the previous year. This was primarily due to a lower foreign exchange loss from the translation of foreign currency loans, partly offset by higher net financing charges and overheads.

People

YC Boon, Deputy Chairman, will be retiring from the Board with effect from 31st December 2019. I would like to thank YC for his significant contribution to the Group over many years.

Outlook

Astra is expected to continue to be affected by relatively weak domestic consumption and low commodity prices for the remainder of the year, while benefiting from an improved contribution from financial services and its gold mine operations. JC&C's Direct Motor Interests are expected to continue to face challenging market conditions, while the contribution from Other Strategic Interests is expected to be stable.

Jardine Cycle & Carriage Limited Notes to the financial statements for the nine months ended 30th September 2019

1 Basis of preparation

The financial statements are consistent with those set out in the 2018 audited accounts which have been prepared in accordance with Singapore Financial Reporting Standards (International) ("SFRS(I)") and International Financial Reporting Standards ("IFRS"). There have been no changes to the accounting policies described in the 2018 audited accounts except for the adoption of IFRS 16 *Leases*, which is effective from 1st January 2019.

The standard replaces IAS 17 'Leases' and related interpretations and introduces a comprehensive model for the identification of lease arrangements and accounting treatments for both lessors and lessees. The distinction between operating and finance leases is removed for lessee accounting, and is replaced by a model where a lease liability and a corresponding right-of-use asset have to be recognised on the balance sheet for almost all leases by the lessees. The Group's recognised right-of-use assets primarily relate to property leases, equipment and motor vehicles. Prior to 2019, payments made under operating leases were charged to profit and loss on a straight-line basis over the period of the lease. From 1st January 2019, each lease payment is allocated between settlement of the lease liability and finance cost. The finance cost is charged to profit and loss over the lease period. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

In addition, leasehold land which represents payments to third parties to acquire interests in property is now presented under right-of-use assets. Leasehold land is amortised over the useful life of the lease, which includes the renewal period if the lease is likely to be renewed by the Group without significant cost.

The accounting for lessors does not change significantly.

The adoption of IFRS 16 has been accounted for retrospectively and the comparative financial statements have been restated. The adoption has resulted in a decrease in the profit attributable to shareholders for the financial period 9 months ended 30th September 2018 and financial year ended 31st December 2018 by US\$1.4m and US\$2.0m, respectively.

As at 31st December 2018, the impact on the statement of financial position is as follows:-

	US\$m
Net assets	
Leasehold land use rights	(597.7)
Property, plant and equipment	(29.8)
Interest in associates and joint ventures	(0.7)
Right-of-use assets	753.0
Deferred tax assets	0.4
Debtors	(36.1)
Lease liabilities	(133.8)
Borrowings	37.7
	(7.0)
Equity	<u>. </u>
Shareholders' funds	(3.7)
Non-controlling interests	(3.3)
-	(7.0)

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. Estimates and judgments used in preparing the financial statements are regularly evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The resulting accounting estimates will, by definition, seldom equal the related actual results.

The exchange rates used for translating assets and liabilities at the balance sheet date are US1=S1.3818 (2018:US1=S1.3659), US1=RM4.1873(2018:US1=RM4.148), US1=IDR14,174(2018:US1=IDR14,481), US1=VND23,201(2018:US1=VND23,175) and US1=THB30.582(2018:US1=THB32.518).

The exchange rates used for translating the results for the period are US1=S1.3654(2018: US1=S1.3418), US1= RM4.1403(2018: US1= RM3.9937), US1=IDR14,173(2018: US1=IDR14,129), US1=VND23,248 (2018: US1=VND22,968) and US1=THB31.2226(2018: US1=THB32.1433).

nm – not meaningful

(1) Increase in depreciation and amortisation cost mainly relates to the property, plant and equipment and intangible assets of subsidiary acquired in late 2018

(2) Fair value gain/(loss) relates mainly to equity investments in Vinamilk and Toyota Motor Corporation

(3) Decrease in impairment of debtors relates mainly to lower impairment of financing debtors attributable to lower non-performing loan losses

(4) Net exchange loss for three months and nine months ended 30th September 2019 relates mainly to the impact of stronger US dollars on monetary liabilities denominated in US dollars

3 Tax

The provision for income tax is based on the statutory tax rates of the respective countries in which the companies operate after taking into account non-deductible expenses and group tax relief.
