In 2014, the Group achieved total revenue of S\$424.4 million, an improvement of S\$25.9 million compared to last year. The analysis on the sales performance by business segments is as follows:

- (i) Higher revenue from wholesale & distribution segment was attributed to higher sales from Food Service contributed by new agencies, new house brands and new market penetration into restaurants, as well as higher retail sales which was brought about by general trade and key accounts;
- (ii) Higher revenue from Edmonton Group was due mainly to increase in retail sales generated by outlets in Delifrance Hong Kong as a result of effective marketing campaigns that brought about extra traffic and increase in awareness in the new outlets;
- (iii) Manufacturing segment recorded higher revenue in 2014 due to the increase in sales by Sunshine range of products under the bread category. The growth was also contributed by successful launch of new products;

Offset by:

- (iv) Lower revenue from Food Junction Group segment was due mainly to discontinuation of management and operator services of ME@QUE, the closure of The Boxing Crab and lower contribution from other restaurants. This was partially offset by higher sales from food courts and newly renovated restaurant in Hong Kong. Newly opened Eggs & Berries @ Westgate & Jurong Point and MEDZS @ Clifford Centre also contributed to the increase in revenue; and
- (v) Lower revenue from other investments was primarily due to the lack of interest income from mezzanine loan after the disposal of the Redeemable Preference Shares in May 2013.

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2014

Review of Income Statement (cont'd)Profit before taxation

The Group reported a profit before taxation of S\$0.6 million in 2014 as opposed to a loss before tax of S\$21.9 million last year. The swing around of S\$22.5 million was primarily attributable to the exceptional items of S\$21.6 million recognised in 2013 by the Group to streamline the non-performing businesses and to re-align the focus on building sustainable business growth and profit generation.

Excluding the exceptional items recognised in 2013 and 2014, the Group showed an improvement in profit of S\$4.4 million, this was attributed mainly to:

- (i) Operating profit from manufacturing segment increased from S\$7.3 million in 2013 to S\$10.0 million in 2014. The growth in operating profit by S\$2.7 million was largely driven by manufacturing in Singapore due to higher gross profit from growth in sales generated by existing and new products. The reversal of accrual for a regulatory claim after finalization of tax reviewed by the Malaysia custom also contributed to the growth in profit. This was partially offset by higher sales & marketing expenses incurred by Singapore business in line with the increase in sales, as well as higher cost of raw materials from Malaysia business.
- (ii) Food Junction Group's operating performance improved in 2014 over 2013 by S\$3.7 million was attributable to improvement in profitability from food courts and restaurant in Hong Kong and closure of non-performing restaurants. In 2014, due to the challenging and intense competition in overseas food and beverage industry, the Group has also recognised a one-off losses of S\$3.3 million arising from discontinuation of a loss-making restaurant in China, which helped in the stemming of the loss in the Food Retail business.
- (iii) Edmontor Group reported an operating loss of S\$6.9 million in 2014, this represents an improvement of S\$0.9 million, excluding the exceptional items of S\$10.7 million recognised in 2013 for impairment of intangible assets and other closure costs, Edmontor Group operating loss in 2013 was S\$7.8 million. The improved performance was largely contributed by Delifrance Singapore and Hong Kong.

Delifrance Singapore and Hong Kong reported lower operating loss, mainly driven by higher sales arising from intensive promotional activities, offset by higher labour costs, rental, marketing and semi-variable costs.

- (iv) Other investments operating loss in 2014 was S\$2.9 million lower than the operating loss in the previous year, largely brought about by the gain on disposal of interests in subsidiary companies and the absence of allowance for impairment loss on an unquoted investment of S\$3 million; and

Offset by:

- (v) Wholesale and distribution segment's operating profit for 2014 was S\$2.0 million lower than the operating profit reported in 2013. The unfavourable variance was attributed mainly to weaker performance in Malaysia. The operations in Malaysia reported a S\$1.7 million lower operating profit due mainly to higher selling & marketing expenses, admin expenses and higher staff cost.

AURIC PACIFIC GROUP LIMITED

(Company Registration No. 198802981D)

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2014

Review of Financial Position

As at 31 December 2014, the Group's total equity stood at S\$208.8 million. This was S\$3.4 million lower than the position as at 31 December 2013. The decrease was contributed largely by the dividend payment of S\$2.5 million.

There are no other significant changes to the Statement of Financial Position except for the following:

- (i) Higher property, plant and equipment primarily due to new assets purchased for renovating new and existing restaurants, food courts and cafés in Singapore and Hong Kong, offset by depreciation, disposal and write-off of assets;
- (ii) Higher stocks attributed to stock built-up for certain products to cater to expected increase in demand and for the upcoming Chinese New Year festival;
- (iii) Higher trade debtors mainly resulted from an increase in sales generated during the year and slower collection from key customers;
- (iv) Higher prepayment and other recoverables mainly due to an increase in the Group's rental deposits paid for its retail outlets and deposit paid for renovation work of new restaurant. There was also an increase in renovation costs recoverable from tenants, following the renovation carried out at the Bugis Junction, One KM, Eastpoint, NEX and Harbourfront food courts;
- (v) Higher trade creditors mainly due to increase in purchases and partially offset by settlement of suppliers' invoices;
- (vi) Higher other creditors and accruals due mainly to provision for discontinuation costs of restaurant in China; and
- (vii) Higher loans and borrowings due mainly to short-term borrowing to fund the working capital of food retail business.

Cash Flow Review

The Group's cash and cash equivalents decreased by S\$9.6 million from S\$55.9 million as at 31 December 2013 to S\$46.3 million as at 31 December 2014. The net cash decrease was mainly due to capital expenditure and dividends paid, partially offset by the cash generated from operating activities and the proceeds from disposal of Auric Pacific Dairy Group.
