Information on the fair value of the Group's investment property disclosed below is measured using valuation inputs categorised as Level 2 in the Fair Value Hierarchy as follows:

	<u>Level 1</u> S\$'000	<u>Level 2</u> S\$'000	<u>Level 3</u> S\$'000	<u>Carrying amount</u> S\$'000

<u>2020</u>

Level 2 fair value of the investment property was derived using the sales comparison approach. Sales prices of comparable properties in close proximity were adjusted by management for differences in key attributes such as property size. The most significant input into this valuation approach is the selling price per square meter. The Group did not engage an independent valuer to determine the fair value of the property as at 30 June 2021.

There were no changes in the valuation technique during the current financial period.

9 Goodwill (cont'd)

Impairment testing of goodwill

Goodwill acquired through the business combination has been allocated entirely to the digital media networks cash-generating unit ("DMN CGU") under the digital media networks segment for impairment test.

The recoverable amount of the DMN CGU has been determined based on its value in use using cash flow forecasts covering a five-year period. The discount rate applied to the cash flow forecasts, forecasted growth rates, budgeted gross margins, and the terminal growth rates used to extrapolate cash flow forecasts beyond the five-year period, are discussed below.

- (i) Revenue growth is projected based on contracts secured with customers along with likely contract renewals and ongoing project tenders and forecasted demand with reference to past revenues earned and adjusted for forward-looking economic conditions.
- (ii) Terminal growth rate of 1% has been used which does not exceed the industry long-term forecast growth rate based on published reports.
- (iii) Discount rate of 14% used was determined based on a risk-free rate adjusted for a market risk premium to reflect market risks and the risks specific to the DMN CGU.

Based on the impairment test, management concluded that no impairment loss of goodwill is required to be recognised for the six months ended 30 June 2021.

Current assets

The increase in current assets as at 30 June 2021 of S\$512,000 from S\$7,475,000 as at 31 December 2020 to S\$7,987,000 as at 30 June 2021 was mainly due to the increase in trade and other receivables of S\$1,142,000, decrease in cash and cash equivalents of S\$499,000, decrease in contract assets of S\$350,000 and increase in inventories of S\$219,000. The increase in trade and other receivables was due to an increase of billings to customers for completed projects in June 2021. The decrease in contract assets was in line with an increase of completed projects in June 2021. The increase in inventories was due to more items purchased for the purpose of providing industrial automation solution for manufacturing customers.

The increase in current liabilities as at 30 June 2021 of S\$145,000 from S\$4,277,000 as at 31 December 2020 to S\$4,422,000 was mainly due to the increase in contract liabilities of S\$509,000, decrease in trade and other payables of S\$453,000, increase in other finance liabilities of S\$205,000, decrease in provision for income tax of S\$155,000 and increase in loans and borrowings of S\$39,000. The increase in loan and borrowings was due to the current portion classification of the S\$1 million loan (5 year Temporary Bridging Loan under Enterprise Financing Scheme).
