Important U.S. Tax Information

U.S. federal income tax law may require the withholding of 24% of the amount of any payments to U.S. holders who have failed to furnish a taxpayer identification number. To avoid such backup withholding, each U.S. holder may need to provide the applicable withholding agent with a correct taxpayer identification number (generally the holder’s social security number or federal employer identification number) on a duly completed U.S. Internal Revenue Service Form W-9 (available at <http://www.irs.gov>), or otherwise establish an exemption from backup withholding. In the case of a non-U.S. holder, backup withholding may not apply, provided the applicable withholding agent does not have actual knowledge or reason to know the holder is a United States person and the holder either certifies its non-U.S. status, such as by furnishing a valid IRS Form W-8BEN, W-8BEN-E, or W-8ECI (available at <http://www.irs.gov>), or otherwise establishes an exemption. Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a holder’s U.S. federal income tax liability, provided the required information is timely furnished to the IRS.
