¹ The quoted investments include debt securities (such as collateralised loan obligations securities and credit-linked notes) listed on stock exchanges but the prices of which are not quoted. The aggregate cost of investments of such debt securities constitutes 49.88% of the latest audited net tangible assets of the Group as at 31 December 2013. The aggregate cost of all foreign currency denominated quoted investments is translated to Singapore dollars using the historical exchange rate at the acquisition date.

² In computing the market value of the Group's debt securities which do not have regularly available quotes due to the lack of active market for such debt securities, the carrying value has been used to approximate their market value.

³ The provision for diminution in value of investments is in respect of investments in Avoca VI CLO Plc and Avoca VII CLO Plc (collectively "Avoca") and Fly Leasing Limited ("Fly Leasing") acquired in 2006 and 2007. The provision made on these investments which were denominated in foreign currency has been translated using the same historical rate used to translate the cost of the investment. Such provision has been charged to the profit and loss in prior years. The provision has not been adjusted for subsequent fair value gains recorded by the above securities. As at 31 March 2014, Avoca and Fly Leasing recorded fair value gains of EUR 4.05 million and USD 5.05 million respectively in the fair value reserve in equity.
