INTRODUCTION

Through the 30 years since its inception in 1975, Chew's Group Limited has grown from a poultry breeding farm in Choa Chu Kang to one of Singapore's leading producers of fresh eggs - during which significant milestones include the conversion to layer farming in 1987 and the distribution of eggs to wholesalers. The Group maintains a strong presence in retail spaces across Singapore, and is a major supplier to global food and beverage chains. As a Group, we remain committed to enhancing our range of generic and designer eggs, while cementing a reputation for high quality, wholesome and safe eggs.

In line with our long-term goal of ensuring sustainable farming practices that embrace both business and environmental sustainability, our activities in the financial year ended 30 September 2016 ("FY2016") sought to augment our poultry business and green efforts. Following the completion of the chicken soup factory and packaging line, we expanded our range of food products and brought our brand of nutritious chicken soup to consumers. At the same time, our Biogas Plant continues to supplement the farm's power needs.

In FY2016, we took another step towards furthering our vision of creating an integrated urban sustainable farming system with the purchase of a new farm site, marking yet another significant milestone for the Group.

Through our efforts, we aim to continually generate value for our shareholders as we explore new avenues to advance growth and sustainability.

As a Group, we remain committed to enhancing our range of generic and designer eggs, while cementing a reputation for high quality, wholesome and safe eggs.

OUR CORPORATE PROFILE

Chew's Group Limited specialises in the production of a range of healthy and nutritious, generic and designer eggs under the brand name, Chew's. These designer eggs contain value-added nutrients in wholesome amounts and are customised to suit the nutritional needs of different consumers. As a major brand in the retail sector, the Group is also one of the leading suppliers of generic and liquid eggs to Singapore's expanding food and beverage industry. Today, Chew's is a household name in Singapore and a symbol of trust for retailers and consumers alike.

A Diverse Range of Generic & Designer Eggs

Chew's produces an extensive range of generic and designer eggs for the Singapore market. We are the only local producer of black chicken eggs and kampong chicken eggs, in addition to regular brown eggs. Among the Group's signature products are nutrient-enriched designer eggs. These are created to meet the specific dietary requirements of consumers and such eggs include:

- Cordyceps Fresh Eggs,
- Omega-3 Fresh Eggs,
- Omega-6 Fresh Eggs,
- Organic Selenium Fresh Eggs,
- Sakura Fresh Eggs and Extra Large Sakura Eggs,
- Zeaxanthin Eggs and Zeaxanthin Plus Eggs, and
- Lower Cholesterol Brown Shell Extra Large Eggs, Lower Cholesterol Brown Shell Fresh Eggs, and Corn and Soya Fresh Eggs.

All our eggs meet the nutritional guidelines set by the Health Promotion Board of Singapore ("HPB") as "Healthier Choice" and are approved by the Agri-Food and Veterinary Authority of Singapore ("AVA").

Pure Liquid Eggs

Chew's pure liquid eggs, having no additional ingredients, are produced via a pasteurisation process in a strictly controlled environment. They are supplied only to commercial companies in the food and beverage industry, and offer a convenient and safe alternative when preparing egg dishes, bakery items and other food products with eggs as the main ingredient.

Better Utilisation of Spent Grains

Spent grains are a vital part of the Group's egg production business. The Group procures large quantities of spent grains via a tender process and engages in the trading of such unused amounts.

Food Processing

We produce 100% natural chicken soup with no monosodium glutamate ("MSG") at our chicken soup factory. The fully made-in-Singapore broth is brewed from our own chickens and in-house processing facilities to ensure end-to-end control for top quality product. Through this, we expand our product portfolio and derive better value from our spent hens.

OUR MISSION & OUR VISION

Our mission is to produce healthy and nutritious designer eggs in a controlled, safe and eco-friendly environment.

Our vision is to continue to provide a healthier range of nutritious designer eggs to address the nutritional needs of the different segments of our population and lead the way forward in sustainable farming in Asia.

OUR CORPORATE STRUCTURE

LETTER TO SHAREHOLDERS

Dear Shareholders

In the financial year ended 30 September 2016 ("FY2016"), Chew's Group continued to deliver stable results amidst of a challenging global economic climate. While revenue dipped 5%, or \$1.6 million, year-on-year to \$31.6 million for the year in review as a result of lower sales volume and a decrease in the selling price of eggs, the Group's other income increased by \$28.0 million to reach \$28.6 million in FY2016. The latter is mainly attributable to the sale of its land use rights and a substantial part of its property, plant and equipment ('the Disposed Assets") situated at Murai Farmway to the Singapore Government due to their redevelopment plans for the area.

Acquisition of New Site

The Group purchased a site of approximately 20 hectares along Neo Tiew Road (the "New Site") with a 30-year lease period. With phase 1 of the development scheduled to commence in the financial year ending 30 September 2017 ("FY2017"), the management and a team of operational managers have embarked on the design of the new farm in FY2016. Leveraging our vast experience, the New Site will house an integrated farming concept complete with advanced equipment.

While the new farm requires significant capital expenditure, the move to the New Site cements a strong foundation for the long-term development of

our business. Following our expected move in May 2019, we target to attain a daily production of 580,000 eggs, with ample capacity for expansion to meet future market demand.

With the interest of ensuring business continuity, we are leasing the Disposed Assets from the Singapore Government for a period of three years ending 31 May 2019. Further details in relation to the move to the New Site can be found in the announcement dated 27 May 2016.

Building a Sustainable Business

Leveraging the stable egg market, we persist in producing healthy, nutritious eggs that cater to different segments of the population and apart from Singapore, we have established a steady supply chain in Hong Kong. At the same time, we are engaging in research and development and other efforts to further grow our product range with the aim of achieving long-term sustainable growth.

Building on the completion of the chicken soup factory in the previous financial year, we sought to maximise revenue from this new segment. Our brand of chicken soup products have entered the retail market and are currently carried by a supermarket chain. We are in negotiations to expand our distribution channels via other supermarkets and hypermarkets.

Beyond our farm-made products, we also tap opportunities to trade in other food items. These

We are actively exploring new channels to strengthen our trade activities and enlarge our range of food products.

Engaging in Sustainable Farming

Sustainability remains a key priority at Chew's Group as we recognise the need to conduct our business with the future in mind.

In furthering our efforts in sustainable farming, we have developed cage-free eggs – our latest addition to our line of egg products. The hens producing these eggs are housed communally where they are free to move around, feed and lay eggs naturally. At the same time, we ensure that the eggs produced meet all health safety standards. In providing a happier and more relaxed environment for the hens, the resulting eggs are healthier and tastier. We expect this new range of eggs to reach the market in FY2017.

Our people play a large part in our sustainability efforts and their safety is of critical importance. In recognition of the Group's efforts in safeguarding workplace health and safety, we have once again been awarded the BizSafe 3 certification in November 2016.

Towards Greater Sustainability

With the plans for the New Site in place, we are another step closer to fulfilling our vision of an integrated sustainable farming system with the capacity to grow our business in the long term. The plans for the New Site also include working with other business partners to construct a new biogas plant which will feature an improved design to achieve greater efficiency. In doing so, we seek to create an integrated urban sustainable farming system capable of eradicating waste while remaining eco-friendly.

Dividends

The Board recommends a dividend of 0.49 Singapore cents per share for FY2016 (FY2015: 0.49 Singapore cents per share).

We are grateful to our Board, management and staff for their unwavering commitment to the Group during the year. We would also like to thank our shareholders, suppliers and customers for their continued support.

As a Group, we will continually seek new avenues to generate value for our shareholders and stakeholders, and secure a sustainable future.

FINANCIAL HIGHLIGHTS

Revenue (S\$'000)

16

OPERATING RESULTS

Revenue

FY2016 saw the Group maintain its consistent performance. For the financial year, we generated revenue of \$31.6 million, compared to \$33.2 million last year, representing a 5% decrease of \$1.6 million. The reduction came on the back of lower sales of designer and generic eggs by \$1.9 million and was partly offset by the increased in sales of \$0.3 million from spent grains brought on by higher quantities sold to a certain client. The reduced revenue from egg sales in FY2016 was mainly due to lower sales volume and drop in the selling price of eggs. In comparison, higher selling prices of eggs were recorded in Singapore in FY2015 owing to a drop in imported eggs from Malaysia.

Meanwhile, the Group's other income grew to \$28.6 million in this financial year, representing a \$28.0 million year-on-year increase compared to \$0.6 million in FY2015. This increase stemmed from the Group's disposal of its land use rights and a substantial part of its property, plant and equipment ("the Disposed Assets") in May 2016, which brought about (i) a one-time gain of \$24.4 million from the disposal; (ii) recognition of \$3.2 million of government grants; and (iii) interest income of \$0.1 million from placing the sales proceeds as short-term bank fixed deposits.

Operating Expenses

As at 30 September 2016, inventories stood at \$1.2 million, marking a decrease of \$0.9 million as additional feed raw material was purchased at the close of FY2015 to mitigate the expected increase in feed raw material prices, especially yellow maize and soya bean meal.

Purchase of materials declined from \$6.7 million in FY2015 to \$3.7 million in FY2016, representing a drop of \$3 million or 45%. This was attributable to the Group drawing on its existing inventories of feed raw materials in FY2015 and a drop in some of the feed materials prices in the second half of FY2016.

Employee benefits climbed from \$4.6 million in FY2015 to \$5.3 million in FY2016. Driving this \$0.7 million or 15% increase were five main factors: (i) \$0.3 million increase in performance bonuses accrued; (ii) higher foreign worker levies amounting to \$0.1 million; (iii) increase in manpower in the sales and distribution department; (iv) recruitment of additional staff for the impending relocation of the farm facilities; and (v) increase in the packaging department's headcount to replace casual labour.

Depreciation and amortisation of land use rights expense rose to \$0.50 million in FY2016, up \$0.03 million or 7% from \$0.46 million in the previous financial year. This was mainly attributed to the \$0.05 million amortisation expense for the acquisition of a new site along Neo Tiew Road ("New Site"), which was purchased in May 2016 from the Government for the relocation of the farm.

Meanwhile, amortisation of biological assets stood at \$15.6 million in FY2016, up \$0.1 million compared to \$15.5 million in the previous financial year.

Operating expenses decreased from \$4.8 million in FY2015 to \$4.5 million in FY2016, a reduction of 7% or \$0.3 million. This was brought on largely by (i) the disposal of the aquaculture business in China that resulted in a \$0.4 million loss in the previous financial year; (ii) a \$0.1 million decrease in casual labour expenses in FY2016 owing to the replacement of casual workers with permanent staff in the packaging department; (iii) a \$0.2 million reduction in research and development costs; and (iv) a decline in utilities expenses by \$0.2 million. These cost savings were partly offset by (i) a larger loss of \$0.5 million in FY2016 from the disposal and write-off of biological assets owing to higher degeneration costs of \$0.4 million as the mortality rate increased due to longer average hen production cycle; and (ii) increased repair and maintenance costs totalling \$0.3 million.

Contributing to a \$0.1 million drop in the Group's finance expenses, from \$0.2 million in FY2015 to \$0.1 million in FY2016, was a decline in interest paid this financial year that stemmed from the early settlement of finance leases on the Disposed Assets.

The Group's income tax expense recorded an increase of \$1.3 million to \$1.6 million in FY2016 from \$0.3 million the year before. The increase was attributable to the balancing charge of the Disposed Assets totalling \$1.8 million and reduced income tax refunds of \$0.3 million; these were partially offset by the lower deferred tax of \$0.8 million during the year in review.

Net Profit

Net profit marked a \$25.8 million increase, from \$2.1 million in FY2015 to \$27.9 million in FY2016. Disregarding the disposal of land use rights, property, plant and equipment this year and the financial effects arising from the disposal, net profit for FY2016 would be approximately \$2.0 million.

REVIEW OF THE FINANCIAL POSITION OF THE GROUP

Total assets grew \$27.1 million year-on-year to reach \$66.3 million as at 30 September 2016 from \$39.2 million in FY2015. Comprising 77.6% of total assets, current assets stood at \$51.4 million in FY2016, marking an increase of \$38.0 million from \$13.4 million. Contributing to this was a \$39.7 million growth in cash and bank balances that was partly offset by a drop in trade receivables amounting to \$0.7 million, which occurred alongside a revenue decrease in FY2016 and \$0.9 million decline in inventories, as elaborated earlier.

The increase in cash and bank balances of \$39.7 million in FY2016 was as a result of (i) \$38.6 million in sales proceeds from the Disposed Assets; (ii) the recognition of a \$6.0 million assistance grant for the forthcoming site relocation; and (iii) a \$21.3 million increase in net cash generated from operations. Partially offsetting the increase was (i) the \$17.5 million investment in biological assets; (ii) the early settlement of finance leases on the Disposed Assets totalling \$4.2 million; and (iii) the acquisition of the land use rights of \$4.1 million for the New Site.

Meanwhile, non-current assets, which comprised 22.4% of total assets, dropped to \$14.9 million at the end of FY2016, marking a \$10.9 million decline from \$25.8 million at the close of FY2015. The fall resulted mainly from the \$14.2 million divestment of land use rights, property, plant and equipment and was mitigated by the acquisition of the New Site of \$4.1 million, in addition to the \$0.2 million growth in biological assets.

The Group's total liabilities dipped by \$0.5 million from \$15.1 million as at 30 September 2015 to \$14.6 million as at 30 September 2016. This decrease was primarily due to (i) the early settlement of finance leases totalling \$4.2 million and utilising new finance leases of \$0.1 million to purchase motor vehicles; (ii) a \$0.4 million loan repayment; and (iii) a \$0.4 million decrease in trade payables to a certain spent grain supplier. This was partly compensated by a rise in other payables amounting to \$3.0 million, which comprised \$2.5 million in deferred government grants and \$0.5 million in accrued expenses, as well as a net increase in income tax payable and deferred tax of \$1.4 million.

The Group had a positive working capital of \$41.1 million as at 30 September 2016, compared to \$5.2 million as at 30 September 2015. Driving this improvement was mainly the sales proceeds from the Disposed Assets which contributed significantly to the Group's cash and bank position.

REVIEW OF THE STATEMENT OF CASH FLOW FOR THE GROUP

Cash and cash equivalents increased to \$45.2 million at the close of FY2016, up \$39.7 million from \$5.5 million the year before.

The Group generated net cash from operating activities of \$21.4 million in FY2016 as compared to \$16.0 million in the previous financial year. Contributing to this higher cash inflow was the increase in the movement of working capital totalling \$6.4 million, which was partially offset by a \$0.8 million reduction in operating cash flow before movements in working capital and \$0.2 million in tax payments in FY2016 compared to the receipt of \$0.1 million in tax refunds in FY2015.

Net cash of \$17.3 million was generated from investing activities during the year, as compared to FY2015 where net cash of \$17.3 million was used in investing activities. The former was attributable to the sale proceeds received from the Disposed Assets amounting to \$38.6 million and was offset by \$4.1 million in cash for the acquisition of the New Site.

The Group recorded net cash from financing activities of \$1.1 million in FY2016. This was mainly due to the recognition of relocation assistance and other grants amounting to \$6.1 million, which was partly offset by the repayment of \$4.2 million in finance leases and \$0.4 million in bank loans in addition to dividend payments of \$0.4 million.

Sustainability remains a key priority at Chew's Group as we recognise the need to conduct our business with the future in mind.

1.6	(a) Are new Directors given formal training? If not, please explain why.	All newly appointed Directors will undergo an orientation programme where the Director would be briefed on the Group's strategic direction, governance practices, business and organisation structure as well as the expected duties of a director of a listed company. To get a better understanding of the Group's business, the Director will also be given the opportunity to visit the Group's operational facilities and meet with key management personnel. The Company will provide training to first-time Directors in areas such as accounting, legal and industry specific knowledge as appropriate and such training will be arranged and funded by the Company. There were no appointments of new Directors in FY2016.
	(b) What are the types of information and training provided to (i) new Directors and (ii) existing Directors to keep them up-to-date?	During 2016, the external auditors (" EA ") had briefed the AC on changes or amendments to accounting standards and the Company Secretary had provided updates to the Board on the amendments to the Companies Act (Chapter 50) of Singapore (the " Companies Act "). All Directors are provided with courses available/to be conducted by the Singapore Institute of Directors on a regular basis. In addition, the Board visits the Group's operational facilities on a half-yearly basis.
Board Com	position and Guidance	
2.1 2.2 3.3	Does the Company comply with the guideline on the proportion of Independent Directors on the Board? If not, please state the reasons for the deviation and the remedial action taken by the Company.	As three (3) out of its six (6) Directors are Independent Directors, the requirement at Guideline 2.2 of the Code that the Independent Directors must make up at least half of the Board, where the Chairman of the Board (the " Chairman ") is part of the management team and is not an independent director, is satisfied. To strengthen the independence of the Board, Mr Yuen Sou Wai has also been appointed as the Lead Independent Director of the Company and makes himself available to shareholders at the Company's general meetings. The Lead Independent Director is also responsible for leading the meetings of independent directors and providing feedback to the Chairman.
2.3 4.3	Has the independence of the Independent Directors been reviewed in the last financial year?	The NC had reviewed and confirmed the independence of the Independent Directors in accordance with the Code. The Independent Directors had also confirmed their independence in accordance with the Code.

Guideline	Code and/or Guide Description	Company's Compliance or Explanation
	 (a) Is there any Director who is deemed to be independent by the Board, notwithstanding the existence of a relationship as stated in the Code that would otherwise deem him not to be independent? If so, please identify the Director and specify the nature of such relationship. (b) What are the Board's reasons for considering him independent? Please provide a detailed explanation. 	There are no Directors who are deemed independent by the Board, notwithstanding the existence of a relationship as stated in the Code that would otherwise deem him not to be independent.
2.4	Has any Independent Director served on the Board for more than nine years since the date of his first appointment? If so, please identify the Director and set out the Board's reasons for considering him independent.	None of the Independent Directors have served on the Board for more than nine (9) years since the date of his first appointment.

	(c) What steps have the Board taken to achieve the balance and diversity necessary to maximise its effectiveness?	 The Board has taken the following steps to maintain or enhance in balance and diversity: Annual review by the NC to assess if the existing attributes an core competencies of the Board are complementary and enhance the efficacy of the Board; and Annual evaluation by the Directors of the skill sets the other Director possess, with a view to understand the range of expertise which is lacking by the Board. The NC will consider the results of these exercises in in recommendation for the appointment of new directors and/or the reappointment of incumbent directors. 			
2.8	Have the Non-Executive Directors met in the absence of key management personnel in the last financial year?	The Non-Executive Directors had met at least once in the absence of key management personnel in FY2016.			

Guideline	Code and/or Guide Description	Company's Compliance or Explanation			
Chairman a	Chairman and Chief Executive Officer				
3.1	Are the duties between Chairman and CEO segregated?	The roles of the Chairman and the Managing Director are separate to ensure a clear division of their responsibilities, increased accountability and greater capacity of the Board for independent decision making.			
		The roles of the Executive Chairman and the Managing Director are separate and distinct, each having their own areas of responsibilities. The Company believes that a distinctive separation of responsibilities between the Executive Chairman and the Managing Director will ensure an appropriate balance of power, increased accountability and greater capacity for the Board to exercise independent decision-making. The positions of the Executive Chairman and Managing Director are held by Mr Chew Chee Bin and Mr Chew Eng Hoe respectively.			
		As the Executive Chairman, Mr Chew Chee Bin is responsible to the Board for the corporate directions, operational efficiency and development of the Group. The Executive Chairman will also conduct reviews of the Group's policies and strategies and ensure cohesive working relationship and timeliness of information flow between the Board and Management. As the Managing Director, Mr Chew Eng Hoe leads the management team and is responsible for the day-to-day operations of the Group. He also supports the Executive Chairman in creating business opportunities and driving the Group's growth and development both locally and overseas.			
		Although Mr Chew Chee Bin and Mr Chew Eng Hoe are cousins, the Board is of the view that there are sufficient safeguards and checks to ensure that the process of decision making by the Board is independent and based on collective decisions without any individual or group of individuals exercising any considerable concentration of power or influence.			
3.4	Have the Independent Directors met in the absence of other directors?	The Independent Directors had met the EA and internal auditors ("IA") once in the absence of other directors in FY2016.

4.1	What are the duties of the NC?	The NC is guided by key terms of reference as follows:			
	or the NC:	(a) deciding how the Board's performance may be evaluated and proposing objective performance criteria;			
		(b) making recommendations to the Board on the appointment and re-appointment of Directors (including alternate Directors, if applicable) having regard to the Director's contributions and performance, including making recommendations on the composition of the Board and the balance between Executive and Non-Executive Directors appointed to the Board;			
		(c) regularly reviewing the Board structure, size and composition and making recommendations to the Board with regards to any adjustments that are deemed necessary;			
		(d) identifying and nominating candidates as necessary for the approval of the Board, determining annually whether or not a Director is independent under the definition set out in the Code, filling Board vacancies as and when they arise, as well as putting in place plans for succession, in particular, in respect of the roles of the Executive Chairman and the Managing Director;			
		(e) deciding whether or not a Director is able to and has been adequately carrying out his duties as a Director of the Company, particularly when he has multiple board representations and/or a conflict of interest; and			
		(f) reviewing the training and professional development programs for the Board.			
4.4	(a) What is the maximum number of listed company board representations that the Company has prescribed for its directors? What are the reasons for this number?	The Board has not capped the maximum number of listed company board representations each Director may hold.			

Guideline	Code and/or Guide Description	Company's Compliance or Explanation
	(b) If a maximum has not been determined, what are the reasons?	Notwithstanding that some of the Directors have multiple board representations, the Board is satisfied that each Director is able to and has been adequately carrying out his duties as a Director of the Company. Only three (3) Directors have directorships in other listed companies and each of them holds not more than three (3) other directorships. As such, the Board does not fix the maximum number of listed company board representations which any Director may hold. However, the NC will from time to time review the maximum number of listed company board representations and other principal commitments which any Director may hold to ensure that the Directors continue to meet the demands of the Group and are able to discharge their duties adequately.
	(c) What are the specific considerations in deciding on the capacity of directors?	 The considerations in assessing the capacity of Directors include the following: Expected and/or competing time commitments of Directors; Geographical location of Directors; Size and composition of the Board; and Nature and scope of the Group's operations and size.
	(d) Have the Directors adequately discharged their duties?	The NC has reviewed the time spent and attention given by each of the Directors to the Company's affairs, and is satisfied that all Directors have discharged their duties adequately for FY2016.
4.5	Are there alternate Directors?	The Company does not have any alternate directors.

		Under the Constitution, at least one-third of the Directors are required to retire by rotation and submit themselves for re-election at each annual general meeting of the Company.		
		The NC has recommended to the Board that Mr Chew Chee Bin and Mr Chew Chee Keong be nominated for re-election at the forthcoming annual general meeting of the Company (" AGM "). Mr Chew Chee Bin will, upon re-election as a Director, remain as the Executive Chairman of the Company and a member of the NC and Risk Committee. Mr. Chew Chee Bin is the brother of the Non-Executive Director of the Company, Chew Chee Keong, and the cousin of the Managing Director of the Company, Mr Chew Eng Hoe. Mr Chew Chee Bin is a shareholder of Chew's Farm Holdings Pte. Ltd. (" Chew's Farm ") which holds 40.27% shareholdings of the Company's controlling shareholder, Fenghe Investment Holding Pte. Ltd. (" Fenghe "). Chew's Farm is deemed interested in the shares of the Company held by Fenghe. Mr Chew Chee Keong will, upor re-election as a Director, remain as the Non-Executive Director of the Company and a member of the RC and Risk Committee. Mr Chew Chee Keong is the brother of the Executive Chairman of the Company, Mr. Chew Chee Bin, and the cousin of the Managing Director of the Company, Mr Chew Eng Hoe. 	(a) What was the process upon which the Board reached the conclusion on its performance for the financial year?	The review of the performance of the Board is conducted by the Ne annually.
		For FY2016, the review process was as follows:
		 All Directors individually completed a board evaluation questionnair on the effectiveness of the Board, based on criteria disclosed i Table 5 above;
		2. The Company Secretary collated and submitted the questionnair results to the NC Chairman in the form of a report; and
		3. The NC discussed the report and concluded the performanc results during the NC meeting.
		No external facilitator was used in the evaluation process.
	(b) Has the Board met its performance objectives?	Yes, the Board has met its performance objectives.

REMUNERATION MATTERS Developing Remuneration Policies			
7.1	What is the role of the RC?	 The RC is guided by key terms of reference as follows: (a) Review and recommend to the Board, in consultation with the Executive Chairman and the Managing Director, a framework of remuneration policies to determine the specific remuneration packages and terms of employment for each Director and key management executives and the implementation of any appropriate performance-related elements to be incorporated in the remuneration framework; (b) Review and recommend to the Board the service contracts of Executive Directors and key management personnel and ensure that such services contracts are fair and not excessively long or with onerous renewal/termination clauses; and (c) Review and approve the granting of share options and/or performance shares to Directors and employees. 	
7.3	Were remuneration consultants engaged in the last financial year?	No remuneration consultants were engaged by the Company in FY2016.	
Disclosure on Remuneration			
9	What is the Company's remuneration policy?	The Group's remuneration policy (which covers all aspects of remuneration including directors' fees, salaries, allowances, and bonuses, grant of shares and share options, and benefits-in-kind) is to ensure that the remuneration offered is competitive and sufficient to attract, retain and motivate Directors and key management executives of the required experience and expertise. The policy articulates to staff the link that total compensation has to the achievement of organisational and individual performance objectives, and benchmarked against relevant and comparative compensation in the market or the industry.

	ACCOUNTABILITY AND AUDIT Risk Management and Internal Controls						
11.4	The Board may establish a separate board risk committee or otherwise assess appropriate means to assist it in carrying out its responsibility of overseeing the Company's risk management framework and policies.	The Board is responsible for the overall governance of the risk management of the Company, establishing risk management policies and tolerance strategies that set the direction for the Group, overseeing the implementation of risk management framework to ensure that risk are identified and managed. The Risk Committee, which comprises of all directors of the Company, assumes the responsibility of the risk management function and oversees the overall adequacy and effectiveness of the Company's Chief Financial Officer ("CFO"), Ms Tay Bee Gek Dorriz, has been appointed as the Company's Chief Risk Officer (the "CRO") on 27 November 2012 to assist the Risk Committee to meet their objectives. The Risk Committee determines the Company's levels of risk tolerance and risk policies, and oversees Management in the design and implementation of a framework for the monitoring of risk management. The Risk Governance and Internal Control Framework, prepared on a yearly basis, sets out the Board's approved code of ethics, risk appetite and tolerance guidance, authority and risk control matrix, key control activities and key reporting and monitoring activities that the management must strictly adhere to. The Risk Committee regularly reviews the risks and controls of the Group's business risks as well as respond appropriately to control and mitigate these risks. The CRO reviews all significant matters to the Risk Committee. At least once a year, the Group undertake an enterprise-wide review of the adequacy and effectiveness of the Company's risk management and internal control systems, of which includes the financial, operational, compliance and information technology controls. During this exercise, risk owners review and update the risks are appropriately identified and managed.

Independent Auditor's Report To The Members Of Chew's Group Limited

Report on the Financial Statements

We have audited the accompanying financial statements of Chew's Group Limited (the "**Company**") and its subsidiary corporations (the "**Group**") which comprise the consolidated statement of financial position of the Group and the statement of financial position of the Company as at September 30, 2016, and the consolidated statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows of the Group and statement of changes in equity of the Company for the year then ended, and a summary of significant accounting policies and other explanatory information, as set out on pages 52 to 103.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Singapore Companies Act (the "**Act**") and Singapore Financial Reporting Standards, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Singapore Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements of the Group and the statement of financial position and statement of changes in equity of the Company are properly drawn up in accordance with the provisions of the Act and Singapore Financial Reporting Standards so as to give a true and fair view of the financial position of the Group and of the Company as at September 30, 2016 and the financial performance, changes in equity and cash flows of the Group and changes in equity of the Company for the year ended on that date.

Independent Auditor's Report To The Members Of Chew's Group Limited

Report on Other Legal and Regulatory Requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company and by those subsidiary corporations incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

1 GENERAL

The Company (Registration No. 201020806C) is incorporated in the Republic of Singapore with its principal place of business at 20 Murai Farmway, Singapore 709153 and registered office at 80 Raffles Place, #32-01 UOB Plaza 1, Singapore 048624. The Company is listed on the Catalist of the Singapore Exchange Securities Trading Limited. The financial statements are expressed in Singapore dollars.

The principal activity of the Company is that of investment holding.

The principal activities of the subsidiary corporations are disclosed in Note 14 to the financial statements.

The consolidated financial statements of the Group and the statement of financial position and statement of changes in equity of the Company for the year ended September 30, 2016 were authorised for issue by the Board of Directors of the Company on December 29, 2016.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING - The financial statements have been prepared in accordance with the historical cost basis, except as disclosed in the accounting policies below, and are drawn up in accordance with the provisions of the Singapore Companies Act and Singapore Financial Reporting Standards ("FRS").

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability which market participants would take into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for leasing transactions that are within the scope of FRS 17 *Leases*, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in FRS 2 *Inventories* or value in use in FRS 36 *Impairment of Assets*.

ADOPTION OF NEW AND REVISED STANDARDS – On October 1, 2015, the Group adopted all the new and revised FRSs and Interpretations of FRS ("INT FRS") that are effective from that date and are relevant to its operations. The adoption of these new/revised FRSs and INT FRSs does not result in changes to the Group's and Company's accounting policies and has no material effect on the amounts reported for the current or prior years.

At the date of authorisation of these financial statements, the following FRSs, INT FRSs and amendments to FRS that are relevant to the Group and Company were issued but not effective:

- FRS 109 Financial Instruments ³
- FRS 115 Revenue from Contracts with Customers (with clarifications issued) ³
- FRS 116 Leases 4

FRS 109 Financial Instruments

FRS 109 was issued in December 2014 to replace FRS 39 *Financial Instruments: Recognition and Measurement* and introduced new requirements for (i) the classification and measurement of financial assets and financial liabilities (ii) general hedge accounting (iii) impairment requirements for financial assets.

Key requirements of FRS 109:

- All recognised financial assets that are within the scope of FRS 39 are now required to be subsequently measured at amortised cost or fair value through profit or loss (FVTPL).
- With some exceptions, financial liabilities are generally subsequently measured at amortised cost. With regard to the measurement of financial liabilities designated as at FVTPL, FRS 109 requires that the amount of change in fair value of the financial liability that is attributable to changes in the credit risk of that liability is presented in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch to profit or loss. Changes in fair value attributable to a financial liability's credit risk are not subsequently reclassified to profit or loss. Under FRS 39, the entire amount of the change in the fair value of the financial liability designated as at FVTPL is presented in profit or loss.
- In relation to the impairment of financial assets, FRS 109 requires an expected credit loss model, as
 opposed to an incurred credit loss model under FRS 39. The expected credit loss model requires an
 entity to account for expected credit losses and changes in those expected credit losses at each
 reporting date to reflect changes in credit risk since initial recognition. In other words, it is no longer
 necessary for a credit event to have occurred before credit losses are recognised.

The management anticipates that the application of FRS 109 in the future may have a material impact on amounts reported in respect of the Group's financial assets and financial liabilities. However, it is not practicable to provide a reasonable estimate of the effect of FRS 109 until the Group undertakes a detailed review.

FRS 115 Revenue from Contracts with Customers

In November 2014, FRS 115 was issued which establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. FRS 115 will supersede the current revenue recognition guidance including FRS 18 *Revenue*, FRS 11 *Construction Contracts*, and the related interpretations when it becomes effective. Further clarifications to FRS 115 were also issued in June 2016.

As At September 30, 2016

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

The core principle of FRS 115 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the standard introduces a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer.
- Step 2: Identify the performance obligations in the contract.
- Step 3: Determine the transaction price.
- Step 4: Allocate the transaction price to be the performance obligations in the contract.
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation.

Under FRS 115, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when control of the goods or services underlying the particular performance obligation is transferred to the customer. Far more perspective guidance has been added in FRS 115 to deal with specific scenarios. Furthermore, extensive disclosures are required by FRS 115.

As at date of authorisation of these financial statements, it is not practicable to provide a reasonable estimate of the effect of FRS 115 until the Group performs a detailed review.

FRS 116 Leases

FRS 116 was issued in June 2016 and it will supersede FRS 17 *Leases* and its associated interpretative guidance.

The standard provides a comprehensive model for the identification of lease arrangements and their treatment in the financial statements of both lessees and lessors. The identification of leases, distinguishing between leases and service contracts are determined on the basis of whether there is an identified asset controlled by the customer.

Significant changes to lessee accounting are introduced, with the distinction between operating and finance leases removed and assets and liabilities recognised in respect of all leases (subject to limited exceptions for short-term leases and leases of low value assets). The standard maintains substantially the lessor accounting approach under the predecessor FRS 17.

As at date of authorisation of these financial statements, it is not practicable to provide a reasonable estimate of the effect of FRS 116 until the Group performs a detailed review.

Amendments to FRS 1 Presentation of Financial Statements: Disclosure Initiative

The amendments have been made to the following:

• Materiality and aggregation - An entity shall not obscure useful information by aggregating or disaggregating information and materiality considerations apply to the primary statements, notes and any specific disclosure requirements in FRSs.

As At September 30, 2016

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

- Statement of financial position and statement of profit or loss and other comprehensive income The list of line items to be presented in these statements can be aggregated or disaggregated as relevant. Guidance on subtotals in these statements has also been included.
- Notes Entities have flexibility when designing the structure of the notes and guidance is introduced on how to determine a systematic order of the notes. In addition, unhelpful guidance and examples with regard to the identification of significant accounting policies are removed.

As at date of authorisation of these financial statements, it is not practicable to provide a reasonable estimate of the effect of the amendments until the Group undertakes a detailed review.

Amendments to FRS 7 Statement of Cash Flows: Disclosure Initiative

The amendments required an entity to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes.

The amendments applies prospectively to annual periods beginning on or after January 1, 2017, with earlier application permitted.

As at date of authorisation of these financial statements, it is not practicable to provide a reasonable estimate of the effect of the amendments until the Group undertakes a detailed review.

BASIS OF CONSOLIDATION - The consolidated financial statements incorporate the financial statements of the Company and entities (including structured entities) controlled by the Company and its subsidiary corporations. Control is achieved when the Company:

- Has power over the investee;
- Is exposed, or has rights, to variable returns from its involvement with the investee; and
- Has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- The size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- Potential voting rights held by the Company, other vote holders or other parties;

As At September 30, 2016

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

- Rights arising from other contractual arrangements; and
- Any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary corporation begins when the Company obtains control over the subsidiary corporation and ceases when the Company loses control of the subsidiary corporation. Specifically, income and expenses of a subsidiary corporation acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary corporation.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiary corporations is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiary corporations to bring their accounting policies into line with the Group's accounting policies.

Changes in the Group's ownership interests in existing subsidiary corporations

Changes in the Group's ownership interests in subsidiary corporations that do not result in the Group losing control over the subsidiary corporations are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary corporations. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary corporation, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary corporation and any non-controlling interests. All amounts previously recognised in other comprehensive income in relation to that subsidiary corporation are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary corporation (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable FRSs). The fair value of any investment retained in the former subsidiary corporation at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under FRS 39, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

In the Company's financial statements, investments in subsidiary corporations are carried at cost less any impairment in net recoverable value that has been recognised in profit or loss.

FINANCIAL INSTRUMENTS - Financial assets and financial liabilities are recognised on the Group's statement of financial position when the Group becomes a party to the contractual provisions of the instrument.

As At September 30, 2016

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial instrument and of allocating interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments (including all fees on points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial instrument, or where appropriate, a shorter period. Income and expense is recognised on an effective interest basis for debt instruments other than those financial instruments "at fair value through profit or loss".

Financial assets

All financial assets are recognised and de-recognised on a trade date basis where the purchase or sale of an investment is under a contract whose terms require delivery of the investment within the timeframe established by the market concerned, and are initially measured at fair value plus transaction costs, except for those financial assets classified as at fair value through profit or loss which are initially measured at fair value.

Cash and cash equivalents in the statement of cash flows

Cash and cash equivalents in the statement of cash flows comprise cash on hand and demand deposits that are readily convertible to a known amount of cash and are subject to an insignificant risk of change in value.

Loans and receivables

Trade and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as "loans and receivables." Loans and receivables (including trade and other receivables, cash and bank balances) are measured at amortised cost using the effective interest method less impairment. Interest is recognised by applying the effective interest method, except for short-term receivables when the effect of discounting is immaterial.

Impairment of financial assets

Financial assets are assessed for indicators of impairment at the end of each reporting period. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the financial asset have been impacted.

Objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation.

As At September 30, 2016

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

For financial assets carried at amortised cost, the amount of the impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade and other receivables where the carrying amount is reduced through the use of an allowance account. When a receivable is uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent the carrying amount of the financial asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

Financial liabilities and equity instruments

Classification as debt or equity

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of the liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

Other financial liabilities

Trade and other payables are initially measured at fair value, net of transaction costs, and are subsequently measured at amortised cost, using the effective interest method, with interest expense recognised on an effective yield basis.

Interest-bearing bank loans are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest method. Interest expense calculated using the effective

As At September 30, 2016

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

interest method is recognised over the term of the borrowings in accordance with the Group's accounting policy for borrowing costs (see below).

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire.

LEASES - Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Assets held under finance leases are recognised as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly to profit or loss. Contingent rentals are recognised as expenses in the periods in which they are incurred.

Rentals payable under operating leases are charged to profit or loss on a straight-line basis over the term of the relevant lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

INVENTORIES - Inventories are stated at the lower of cost and net realisable value. Cost comprises direct materials and where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Cost is calculated using the first-in, first-out method. Net realisable value represents the estimated selling price less all estimated costs of completion and costs to be incurred in marketing, selling and distribution.

The eggs are stated at fair value less cost to sell at the point of harvest, and subsequently accounted for as inventories in accordance with above.

BIOLOGICAL ASSETS - Biological assets are recognised when, and only when:

- (a) the Group controls the asset as a result of past events;
- (b) it is probable that future economic benefits associated with the asset will flow to the Group; and
- (c) the fair value or cost of the asset can be measured reliably.

Biological assets include mature chickens and immature chickens kept by the Group for the production of eggs. A chicken is considered mature when it starts producing eggs at about 23 weeks old.

The chickens are measured at costs less accumulated amortisation and impairment losses as their fair value cannot be measured reliably. The chickens are subjected to amortisation when they are considered

As At September 30, 2016

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

mature. They are being amortised on a reducing balance method over the estimated egg laying period of about 65 weeks (2015 : 53 weeks) and thereafter disposed at a residual value.

The gain or loss arising on the disposal of the biological assets is determined as the difference between the sales proceeds and the carrying amount of the biological assets and is recognised in profit or loss.

The costs of chickens consists of the initial purchase costs and accumulated costs of vaccine, chicken feed, medicine and other indirect overhead costs incurred to breed the chickens to a mature state and sustain its production capacity.

The estimated useful lives, residual values and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

PROPERTY, PLANT AND EQUIPMENT - Property, plant and equipment are stated at cost, less accumulated depreciation and any accumulated impairment losses.

Properties in the course of construction for production, supply or administrative purposes, or for purposes not yet determined, are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Depreciation is charged so as to write off the cost of assets, other than construction in progress, over their estimated useful lives, using the straight-line method, on the following bases:

Farm buildings	-	3.2 - 15 years
Plant, machinery and equipment	-	3.2 - 10 years
Office equipment	-	3.2 - 5 years
Motor vehicles	-	5 years

During the year, the Group has reviewed the estimated useful lives for property, plant and equipment. Management has assessed that the Group's operation is likely to relocate to the new farm premise by May 31, 2019. Accordingly, the estimated useful lives of the property, plant and equipment have been revised as follows:

Farm buildings	-	from 15 years to 3.2 years
Plant, machinery and equipment	-	from 10 years to 3.2 years
Office equipment	-	from 5 years to 3.2 years

The financial impact of this reassessment for the financial year from October 1, 2015 to September 30, 2016 is as follows:

Increase in depreciation expenses \$143,000

The estimated useful lives, residual values and depreciation method are reviewed at each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

As At September 30, 2016

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, if there is no certainty that the lessee will obtain ownership by the end of the lease term, the asset shall be fully depreciated over the shorter of the lease term and its useful life.

The gain or loss arising on the disposal or retirement of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Fully depreciated assets still in use are retained in the financial statements.

LAND USE RIGHTS - Prepaid land rental is accounted for as land use rights and amortised on a straight-line basis over the lease term of 20 to 30 years.

IMPAIRMENT OF NON-FINANCIAL ASSETS - At the end of each reporting period, the Group reviews the carrying amounts of its non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

PROVISIONS - Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

As At September 30, 2016

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

GOVERNMENT GRANTS - Government grants are not recognised until there is reasonable assurance that the Company will comply with the conditions attaching to them and the grants will be received. The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates. Government grants whose primary condition is that the group should purchase, construct or otherwise acquire non-current assets are recognised as deferred income in the statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Other government grants are recognised as income over the periods necessary to match them with the costs for which they are intended to compensate, on a systematic basis.

REVENUE RECOGNITION - Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

Sale of goods

Revenue from the sale of goods is recognised when all the following conditions are satisfied:

- the Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Group; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Interest income

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

BORROWING COSTS - Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

As At September 30, 2016

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

RETIREMENT BENEFIT COSTS - Payments to defined contribution retirement benefit plans are charged as an expense as they fall due. Payments made to state-managed retirement benefit schemes, such as the Singapore Central Provident Fund, are dealt with as payments to defined contribution plans where the Group's obligations under the plans are equivalent to those arising in a defined contribution retirement benefit plan.

EMPLOYEE LEAVE ENTITLEMENT - Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the end of the reporting period.

INCOME TAX - Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the consolidated statement of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are not taxable or tax deductible. The Group's liability for current tax is calculated using tax rates (and tax laws) that have been enacted or substantively enacted in countries where the company and subsidiary corporations operate by the end of the reporting period.

Deferred tax is recognised on the differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised based on the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Current and deferred taxes are recognised as an expense or income in profit or loss.

FOREIGN CURRENCY TRANSACTIONS AND TRANSLATION- The individual financial statements of each group entity are measured and presented in the currency of the primary economic environment in which the entity operates (its functional currency). The consolidated financial statements of the Group and the statement of financial position and statement of changes in equity of the Company are presented in Singapore dollars, which is the functional currency of the Company and the presentation currency for the consolidated financial statements.

As At September 30, 2016

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

In preparing the financial statements of the individual entities, transactions in currencies other than the entity's functional currency are recorded at the rate of exchange prevailing on the date of the transaction. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at the end of the reporting period. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on retranslation of monetary items are included in profit or loss for the period. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in profit or loss for the period except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised in other comprehensive income. For such non-monetary items, any exchange component of that gain or loss is also recognised in other comprehensive income.

For the purpose of presenting consolidated financial statements, the assets and liabilities of the Group's foreign operations (including comparatives) are expressed in Singapore dollars using exchange rates prevailing at the end of the reporting period. Income and expense items (including comparatives) are translated at the average exchange rates for the period, unless exchange rates fluctuated significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in a separate component of equity under the header of foreign exchange translation reserve.

3 CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in Note 2, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying the entity's accounting policies

The following are the critical judgements, apart from those involving estimations (see below), that management has made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the financial statements.

As At September 30, 2016

3 **CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY** (cont'd)

Valuation of biological assets

FRS 41 *Agriculture* states that "a biological asset should be measured on initial recognition and at the end of each reporting period at its fair value less estimated point-of-sale costs, except where the fair value cannot be measured reliably". Where the Group is concerned, the management has assessed and determined that it is appropriate for the chickens to be carried at cost less accumulated amortisation given that market-determined prices or values are not available and alternative estimates of fair value are determined to be unreliable. The computation of the carrying amount of chickens involves management's estimation on the useful lives and residual values of the chickens. As at September 30, 2016, the net carrying amounts of chickens are disclosed in Note 13 to the financial statements.

Recognition of government grant subject to conditions

At the end of the reporting period, included in the deferred government grant is an amount of \$5.9 million received from Agri-Food & Veterinary Authority of Singapore during the year, as a financial assistance to the Group for the transition from the existing to new farm premise. The grant is subject to the following conditions: (1) the Group has to operate on the new site for poultry farming for a period of 30 years commencing on May 27, 2016; and (2) the Group has to achieve a minimum production level of 9 million eggs per hectare per year, within 6 years from May 27 2016. Management is confident that both conditions can be fulfilled.

Gain on disposal of land use rights, property, plant and equipment

In October 2014, the Group had engaged an independent valuer to derive the market values of the land use rights, property, plant and equipment ("disposed assets") sold to the Government. In determining the market values, the independent valuer adopted the replacement cost method on the basis that there is no evidence of active market transaction prices for similar property which is of a specialised nature. Management is of the view that the market values of the disposed assets, which amounted to \$54.0 million determined in October 2014, approximated the market values as at the end of the reporting period.

As disclosed in Note 33, management has assessed the leaseback to be an operating lease in accordance with FRS 17 *Leases*. Accordingly, the Group recognised a gain on disposal of \$24.4 million (Note 23) directly in profit or loss for the financial year ended September 30, 2016, as the market value was higher than both the carrying amount of the disposed assets of \$14.2 million and the sale proceeds arising from the disposal amounting to \$38.6 million.

Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below:

Impairment of biological assets

The Group assesses annually whether its biological assets have any indication of impairment in accordance with its accounting policy. In instances where there are indicators of impairment, the recoverable amounts of biological assets will be determined based on value-in-use calculations. These

As At September 30, 2016

3 **CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY** (cont'd)

calculations require the use of management judgements and estimates. No provision for impairment is considered necessary at the end of the reporting period as no indication of impairment has been identified. The carrying amounts of biological assets are disclosed in Note 13 to the financial statements.

Useful lives of biological assets

As described in Note 2, the Group reviews the estimated useful lives of biological assets at the end of the reporting period. Changes in the estimated egg laying period can impact the economic useful lives of these assets with consequential impact on the future amortisation charge.

During the year, management has revised the estimated egg laying period from 53 weeks in prior year to 65 weeks in current year based on the average age of disposed spent hens and the productivity of the existing hens.

The financial impact of this reassessment for the current financial year has not been disclosed as management deems it impracticable to estimate the effects.

The carrying amounts of biological assets are disclosed in Note 13 to the financial statements.

Useful lives of property, plant and equipment

As described in Note 2, the Group reviews the estimated useful lives of property, plant and equipment at the end of each reporting period. Changes in the expected level and future usage can impact the economic useful lives of these assets with consequential impact on the future depreciation charge. The carrying amounts of property, plant and equipment are disclosed in Note 11 to the financial statements.

Impairment of property, plant and equipment

The Group assesses annually whether property, plant and equipment exhibit any indication of impairment. In instances where there are indications of impairment, the recoverable amounts of property, plant and equipment will be based on value-in-use calculations. These calculations require the use of management judgement and estimates. No provision for impairment is considered necessary at the end of the reporting period as no indication of impairment has been identified. The carrying amounts of the Group's property, plant and equipment are disclosed in Note 11 to the financial statements.

Allowance for doubtful debts

The Group makes allowance for bad and doubtful debts based on an assessment of the recoverability of trade and other receivables. Allowances are applied to trade and other receivables where events or changes in circumstances indicate that the balances may not be collectible. The identification of doubtful debts requires the use of judgement and estimates. Where the expectation is different from the original estimate, such difference will impact the carrying value of trade and other receivables and doubtful debts expenses in the period in which such estimate has been changed.

The carrying amounts of trade and other receivables at the end of the reporting period as disclosed in Notes 8 and 9 to the financial statements respectively, approximate their recoverable amounts as there has not been a significant change in their credit quality since the end of the reporting period.

4 FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL RISKS MANAGEMENT

(a) Categories of financial instruments

The following table sets out the financial instruments as at the end of the reporting period:

	Gro	Group		ipany
	2016	2015	2016	2015
	\$	\$	\$	\$
Financial assets				
Loans and receivables (including cash and cash equivalents)	50,026,987	11,248,341	4,171,994	3,894,061
Financial liabilities				
Amortised cost	6,285,109	10,672,161	686,848	430,847

(b) Financial risk management policies and objectives

The Group's overall financial risk management programme seeks to minimise potential adverse effects of financial performance of the Group. Risk management is carried out by the Board of Directors and periodic reviews are undertaken to ensure that the Group's policy guidelines are complied with. There has been no change to the Group's exposure to these financial risks or the manner in which it manages and measures the risk.

(i) Foreign exchange risk management

The Group transacts its business in other foreign currencies including the United States dollar, Euro and Malaysian ringgit and therefore is exposed to foreign exchange risk. The Group does not hedge against foreign exchange exposure as the currency risk is not expected to be significant.

At the end of the reporting period, the carrying amounts of monetary assets and monetary liabilities denominated in currencies other than the respective group entities' functional currencies are as follows:

As At September 30, 2016

4 FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL RISKS MANAGEMENT (cont'd)

		Group			
	Liabi	ilities	Ass	ets	
	2016	2015	2016	2015	
	\$	\$	\$	\$	
United States dollar	33,555	43,573	4,197,761	129,009	
Euro	2,718	26,092	-	-	
Malaysian ringgit	8,231	6,962			

Foreign currency sensitivity

The following table details the sensitivity to a 10% increase and decrease in the relevant foreign currencies against the Singapore dollars. 10% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 10% change in foreign currency rates.

If the relevant foreign currencies weaken by 10% against the functional currency of each group entity, the Group's profit before income tax will increase (decrease) by:

	Group	Group impact		
	2016	2015		
	\$	\$		
United States dollar	(416,421)	(8,544)		
Euro	272	2,609		
Malaysian ringgit	823	696		

If the relevant foreign currencies strengthen by 10% against the functional currency of each group entity, the Group's profit before income tax will have an equal but opposite effect from the above.

As the Company does not hold significant foreign currency denominated assets or liabilities as at September 30, 2016, no sensitivity analysis has been presented in the financial statements.

(ii) Interest rate risk management

Interest-bearing financial assets are mainly bank balances which are short-term in nature and bank deposits which are subject to fixed interest rates. Hence, financial assets do not result in significant interest rate risk.

The Group's exposures to interest rate risk mainly arise from bank loans bearing variable interest rates.

As At September 30, 2016

4 FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL RISKS MANAGEMENT (cont'd)

The sensitivity analyses below have been determined based on the exposure to interest rates for these loans at the end of the reporting period and the stipulated change taking place at the beginning of the financial year and held constant throughout the reporting period. 50 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points higher/lower and all other variables were held constant, the Group's profit before income tax ended September 30, 2016 would decrease/increase by \$7,611 (2015 : \$9,407).

(iii) Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a financial loss to the Group. The Group's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties. Credit exposure is controlled by the counterparty limits that are reviewed and approved by the management periodically.

The Group's bank balances are held with creditworthy financial institutions.

Concentration of credit risk exists when economic, industry or geographical factors similarly affect the Group's counterparties whose aggregate credit exposure is significant in relation to the Group's total credit exposure. The Group does not have any significant credit risk exposure to any single counterparty or any company of counterparties having similar characteristics, other than one major customer which contributes 45% (2015 : 38%) of total receivables. However, management believes that there is no significant credit risk. The Group defines counterparties as having similar characteristics if they are related entities.

The carrying amount of financial assets recorded in the consolidated financial statements, grossed up for any allowances for losses, represents the Group's maximum exposure to credit risk without taking account of the value of any collateral obtained.

Further details of credit risks on trade and other receivables are disclosed in Notes 8 and 9 to the financial statements respectively.

(iv) Liquidity risk management

Management is of the view that there is minimal liquidity risk as the Group maintains sufficient cash and cash equivalents and internally generated cash flows to finance their activities. If required, financing can be obtained from its existing lines of banking facilities.

Non-derivative financial liabilities

The following tables detail the remaining contractual maturity for non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows. The adjustment column represents the possible future cash flows attributable to the instrument included in the maturity analysis which is not included in the carrying amount of the financial liability on the statements of financial position.

The Company's non-derivative financial liabilities of \$686,848 (2015 : \$430,847) are non-interest bearing and repayable on demand or due within 1 year from the end of the reporting period.

As At September 30, 2016

4 FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL RISKS MANAGEMENT (cont'd)

Non-derivative financial assets

All financial assets in 2016 and 2015 are non-interest bearing and repayable on demand or due within 1 year from the end of the reporting period, except for non-current portion of other receivables (Note 9).

(v) Fair value of financial assets and financial liabilities

The carrying amounts of cash and bank balances, trade and other current receivables and payables and other liabilities approximate their respective fair values due to the relatively short-term maturity of these financial instruments. The fair value of other classes of financial assets and liabilities are disclosed in the respective notes to the financial statements.

(c) Capital risk management policies and objectives

The Group manages its capital to ensure that the Group will be able to continue as a going concern while maximising the return to stakeholders through the optimisation of the debt and equity balance, and to ensure that all externally imposed capital requirements are complied with. The Group's overall strategy remains unchanged from 2015.

The capital structure of the Group consists of debt, which includes bank loans, finance leases and equity, comprising issued capital and retained earnings.

The Group is not subject to any externally imposed capital requirements.

5 HOLDING COMPANY AND RELATED COMPANY TRANSACTIONS

The Company is a subsidiary corporation of Fenghe Investment Holding Pte. Ltd., incorporated in Singapore which is also the Company's ultimate holding company. Related companies in these financial statements refer to members of holding company's group of companies.

Some of the Company's transactions and arrangements are between members of the Group and the effect of these on the basis determined between the parties is reflected in these financial statements. The intercompany balances are unsecured, interest-free and repayable on demand unless stated otherwise.

Transaction with ultimate holding company is as follows:

The average credit period on sales of goods is 30 days to 90 days (2015 : 30 days to 90 days). No interest is charged on the outstanding balances.

Before accepting any new customer, the Group will assess the potential customer's credit quality and define credit limit for each customer. Limits attributed to customers are reviewed periodically.

	-	-
Total trade receivables, net	4,488,828	5,194,548

The Group does not hold any collateral over these balances. In determining the recoverability of a trade receivable, the Group considers any change in the credit quality of the trade receivable from the date credit was initially granted to the reporting date. Accordingly, the management believes that there is no further credit provision required in excess of the allowance for doubtful debts.

On November 24, 2016 in respect of the financial year ended September 30, 2016, a final one-tier tax exempt dividend of \$0.0049 per ordinary share amounting to a total of \$414,040 was declared. This is subject to approval by shareholders at the forthcoming Annual General Meeting on January 25, 2017 and has not been included as a liability in these financial statements.

30 SEGMENT INFORMATION

An operating segment is a component of the Group that engages in business activities from which it may earn revenue and incur expenses, including revenue and expenses that relate to transactions with any of the Group's other components. The operating segments operating results are reviewed regularly by the Group's chief operating decision makers to make decisions about the resources to be allocated to the segments and assess its performance, and for which discrete financial information is available.

The Group's reportable operating segments are as follows:

- (a) Designer and generic eggs production and sale of designer and generic eggs
- (b) Liquid eggs production and sale of liquid eggs
- (c) Spent grains trading of spent grains
- (d) Food processing production and sale of chicken soup
- (e) Aqua culture rearing and sales of sea cucumbers

Others relates to sale of chickens, feed material and others that do not constitute an operating segment. Accordingly, others are presented as a reconciliation to the segment information presented.

The accounting policies of the reportable segments are the same as the Group's accounting policies described in Note 2. Segment result represents the profit earned by each segment without allocation of other income, corporate expenses and finance costs. This is the measure reported to the chief operating decision maker for the purposes of resource allocation and assessment of segment performance.

SEGMENT INFORMATION (cont'd)

30

⁻or the purpose of monitoring segment performance and allocating resources, the chief operating decision maker monitors the tangible and financial assets attributable to each segment. Assets, if any, used jointly by reportable segments are allocated on the basis of the revenue earned by individual reporting segments. During the year, the Group has disposed of its land use rights and a substantial part of its property, plant and equipment. For 2016, unallocated other income includes the gain on disposal of \$24.4 million. Unallocated corporate assets include the cash proceeds received of \$38.6 million for the disposal of property, plant and equipment to the Government and newly acquired land use rights of \$4.0 million. Unallocated corporate liabilities include the deferred government grant of \$6 million received from the Government in relation to the financial assistance for the relocation of farm.

In 2015, the Group has disposed of its aqua culture business in China. For 2015, "Others" include results from the aqua culture business up till the date of disposal (Note 31).

Information regarding the Group's reportable segments is presented below.

Minimum lease payments under non-cancellable operating leases recognised as an expense in the year	117,951	117,299		

At the end of the reporting period, the Group has outstanding commitments under non-cancellable operating leases which fall due as follows:

	Gro	Group		
	2016	2015		
	\$	\$		
Within 1 year	41,246	64,161		
Within 2 to 5 years	472,682	77,212		
	513,928	141,373		

Operating lease payments represent rentals payable by the Group for residential premises and office equipment. Residential premises leases are negotiated and rentals are fixed for an average term of 2.5 years (2015 : 2.5 years). Office equipment leases are negotiated for an average term of 5 years and rentals are fixed for an average of 5 years.

In prior year, the management held discussions with the Singapore Land Authority ("SLA") and Agri-Food & Veterinary Authority of Singapore with respect to a possible redevelopment of Lim Chu Kang area where the Group's chicken farm is located. In current year, the Group has transferred its existing land use rights, certain farm buildings and plant and equipment ("disposed assets") to SLA for a cash consideration of \$38.6 million.

In addition, the Group has entered into a tenancy agreement with SLA to lease back the disposed assets for a period of 3 years till May 2019, during which the Group is expected to move to the new farm site. Under this arrangement, the Group will be enjoying two and a half years of rent free period and the next half a year will be charged at one-third the prevailing market rent.

Based on the above conditions, management has recognised the aggregate benefit of incentives as a reduction of rental expense over the lease term, on a straight line basis as it is representative of the time pattern of the Group's benefit from the use of the leased assets in accordance with INT FRS 15 *Operating Leases – Incentives.*

As At September 30, 2016

33 **OPERATING LEASE ARRANGEMENTS** (cont'd)

Management has also assessed that the Government has given a grant in the form of rent-free period and reduced market rental rate during the lease period. Such grant has been recognised in the profit or loss over the period in which the Group recognises the rental expenses and has been presented as a net amount in the profit or loss.

34 **RECLASSIFICATIONS AND COMPARATIVE FIGURES**

Certain reclassification have been made to the prior year's financial statements to enhance the comparability with current year's financial statements. Specifically, sales rebates amounting to \$730,194 in prior year, incurred by the subsidiary in Hong Kong, were reclassified from other operating expenses to revenue, to be consistent with the Group's classification.

Accordingly, certain line items have been amended in the statement of profit or loss and other comprehensive income and related notes to the financial statements. The effect of the reclassification on the comparative figures in the consolidated statement of profit or loss and other comprehensive income for financial year ended September 30, 2015 is as follows:

SPECIAL BUSINESS

To consider and, if thought fit, to pass the following resolutions as Ordinary Resolutions, with or without any modifications:

8. Authority to allot and issue shares in the capital of the Company

That pursuant to Section 161 of the Companies Act, Chapter 50 of Singapore (the "**Companies Act**") and Rule 806 of the Listing Manual Section B: Rules of Catalist (the "**Catalist Rules**") of the Singapore Exchange Securities Trading Limited (the "**SGX-ST**"), authority be and is hereby given to the Directors to:

- (a) (i) allot and issue shares in the capital of the Company ("**Shares**") whether by way of rights, bonus or otherwise; and/or
 - (ii) make or grant offers, agreements or options (collectively, "**Instruments**") that might or would require Shares to be issued, including but not limited to the creation and issue of (as well as adjustments to) options, warrants, debentures or other instruments convertible into Shares,

at any time and upon such terms and conditions and for such purposes and to such persons as the Directors may in their absolute discretion deem fit; and

(b) (notwithstanding the authority conferred by this Resolution may have ceased to be in force) issue Shares in pursuance of the Instruments made or granted by the Directors while this Resolution was in force,

provided that:

- (1) the aggregate number of shares to be issued pursuant to this Resolution (including Shares to be issued in pursuance of the Instruments, made or granted pursuant to this Resolution) shall not exceed one hundred per cent. (100%) of the total number of issued Shares (excluding treasury shares) (as calculated in accordance with sub-paragraph (2) below) or such other limit as may be prescribed by the Catalist Rules as at the date this Resolution is passed, of which the aggregate number of Shares to be issued other than on a pro-rata basis to existing shareholders of the Company (including shares to be issued in pursuance of the Instruments, made or granted pursuant to this Resolution) shall not exceed fifty per cent. (50%) of the total number of issued Shares (excluding treasury shares) (as calculated in accordance with sub-paragraph (2) below) or any such other limit as may be prescribed by the Catalist Rules as at the date this Resolution is passed;
- (2) (subject to such manner of calculation and adjustments as may be prescribed by the SGX-ST) for the purpose of determining the aggregate number of Shares that may be issued under sub-paragraph (1) above, the percentage of issued Shares shall be based on the total number of issued Shares (excluding treasury shares) at the time this Resolution is passed, after adjusting for:
 - (a) new Shares arising from the conversion or exercise of any convertible securities;
 - (b) new Shares arising from exercising share options or vesting of share awards which are outstanding and subsisting at the time this Resolution is passed, provided that the share options or share awards (as the case may be) were granted in compliance with Part VIII of Chapter 8 of the Catalist Rules; and
 - (c) any subsequent bonus issue, consolidation or subdivision of Shares;
- (3) in exercising the authority conferred by this Resolution, the Company shall comply with the provisions of the Catalist Rules for the time being in force (unless such compliance has been waived by the SGX-ST), all applicable legal requirements under the Companies Act and otherwise, and the Constitution for the time being of the Company; and
- (4) the authority conferred by this Resolution shall, unless revoked or varied by the Company in general meeting, continue to be in force until the conclusion of the next annual general meeting or the date by which the next annual general meeting of the Company is required by law to be held, whichever is earlier.
 [See Explanatory Note (3)]

9. Authority to allot and issue shares under the Chew's Employee Share Option Scheme

That pursuant to Section 161 of the Companies Act, authority be and is hereby given to the Directors to offer and grant options ("**Options**") in accordance with the provisions of the Chew's Employee Share Option Scheme and to allot and issue from time to time such number of ordinary shares in the capital of the Company ("**Ordinary Shares**") as may be required to be issued pursuant to the exercise of Options, provided always that the aggregate number of Ordinary Shares to be allotted and issued pursuant to the Chew's Employee Share Option Scheme, when added to the number of Ordinary Shares issued and issuable in respect of all options or awards granted under any other share incentive schemes or share plans adopted by the Company and for the time being in force, including the awards granted under Chew's Performance Share

Plan, shall not exceed fifteen per cent. (15%) of the total issued share capital (excluding treasury shares) of the Company on the date preceding the date of the relevant grant of an Option and that such authority shall from time to time, unless revoked or varied by the Company in a general meeting, continue to be in force until the conclusion of the next annual general meeting or the date by which the next annual general meeting is required by law to be held, whichever is earlier. [See Explanatory Note (4)]

(Resolution 8)

That pursuant to Section 161 of the Companies Act, authority be and is hereby given to the Directors to offer and grant awards ("Awards") in accordance with the provisions of the Chew's Performance Share Plan and to allot and issue from time to time such number of ordinary shares in the capital of the Company ("Ordinary Shares") as may be required to be issued pursuant to the vesting of the Awards granted under the Chew's Performance Share Plan, provided always that the aggregate number of Ordinary Shares to be allotted and issued pursuant to the Chew's Performance Share Plan, when added to the number of Ordinary Shares issued and issuable in respect of all Awards, and all Ordinary Shares issued and issuable in respect of all options or awards granted under any other share incentive scheme or share plans adopted by the Company and for the time being in force, including the options granted under the Chew's Employee Share Option Scheme shall not exceed fifteen per cent. (15%) of the total issued share capital (excluding treasury shares) of the Company on the date preceding the date of the relevant grant and that such authority shall from time to time, unless revoked or varied by the Company in a general meeting, continue in force until the conclusion of the next annual general meeting or the date by which the next annual general meeting is required by law to be held, whichever is earlier. [See Explanatory Note (5)]

(Resolution 9)

11. Authority to renew the Share Buy-Back Mandate of Chew's Group Limited

That:

- (a) for the purposes of Sections 76C and 76E of the Companies Act, the exercise by the Directors of the Company of all the powers of the Company to purchase or otherwise acquire ordinary shares in the capital of the Company ("Shares") not exceeding in aggregate the Maximum Limit (as hereinafter defined), at such price(s) as may be determined by the Directors of the Company from time to time up to the Maximum Price (as hereinafter defined), whether by way of:
 - on-market purchase(s) (each a "Market Purchase") transacted on the SGX-ST through the ready (i) market, and which may be transacted through one or more duly licensed stockbrokers appointed by the Company for the purpose; and/or
 - off-market purchase(s) (each an "Off-Market Purchase") effected otherwise than on the SGX-ST (ii) in accordance with any equal access scheme(s) as may be determined or formulated by the Directors of the Company as they consider fit, which scheme(s) shall satisfy all the conditions prescribed by the Catalist Rules and the Companies Act,

and otherwise in accordance with all other laws and regulations, including but not limited to, the provisions of the Companies Act, the Constitution of the Company and the Catalist Rules as may for the time being be applicable, be and is hereby authorised and approved generally and unconditionally (the "Share Buy-Back Mandate");

unless varied or revoked by the Company in general meeting, the authority conferred on the Directors

of the Company pursuant to the Share Buy-Back Mandate may be exercised by the Directors at any time and from time to time during the Relevant Period (as hereinafter defined) and expiring on the earliest of:

- (i) the date on which the next annual general meeting of the Company is held or is required by law to be held; or
- (ii) the date on which the share buybacks are carried out to the full extent of the Share Buy-Back Mandate; or
- (iii) the date on which the authority contained in the Share Buy-Back Mandate is varied or revoked by the Company in a general meeting;
- (b) for purposes of this Resolution:

"**Maximum Limit**" means ten per cent. (10%) of the total issued ordinary shares of the Company as at the date of the passing of this Resolution 10, unless the Company has effected a reduction of the share capital of the Company (other than a reduction by virtue of a share buy-back) in accordance with the applicable provisions of the Companies Act, at any time during the Relevant Period (as hereinafter defined) in which event the issued ordinary shares of the Company as altered by such capital reduction (the total number of the issued ordinary shares of the Company as altered by such capital reduction (the total number of ordinary shares shall exclude any ordinary shares that may be held as treasury shares by the Company from time to time);

"**Relevant Period**" means the period commencing from the date of the passing of this Resolution 10 and expiring on the earliest of the date the next annual general meeting of the Company is held or is required by law to be held, the date on which the share buybacks are carried out to the full extent of the Share Buy-Back Mandate or the date the said mandate is revoked or varied by the Company in a general meeting;

"**Maximum Price**", in relation to a Share to be purchased or acquired, means the purchase price (excluding brokerage, stamp duties, commission, applicable goods and services tax and other related expenses) which shall not exceed:

- (i) in the case of a Market Purchase, five per cent. (5%) above the average of the closing market prices of the Shares over the five (5) Market Days on which transactions in the Shares were recorded before the day on which the Market Purchase was made by the Company and deemed to be adjusted for any corporate action that occurs after the relevant five (5)-day period; and
- (ii) in the case of an Off-Market Purchase pursuant to an equal access scheme, fifteen per cent. (15%) above the average of the closing market prices of the Shares over the five (5) Market Days on which transactions in the Shares were recorded before the day on which the Company makes an announcement of an offer under the Off-Market Purchase scheme stating the purchase price (which shall not be more than the Maximum Price calculated on the foregoing basis) for each Share and the relevant terms of the equal access scheme for effecting the Off-Market Purchase, and deemed to be adjusted for any corporate action that occurs after the relevant five (5)-day period; and

"Market Day" means a day on which the SGX-ST is open for trading in securities;

(c) the number of Shares which may in aggregate be purchased or acquired by the Company during the Relevant Period shall be subject to the Maximum Limit;

- (d) the Directors of the Company and/or any of them be and are hereby authorised to deal with the Shares purchased by the Company, pursuant to the Share Buy-Back Mandate in any manner as they think fit, which is permitted under the Companies Act; and
- (e) the Directors of the Company and/or any of them be and are hereby authorised to complete and do all such acts and things (including without limitation, to execute all such documents as may be required and to approve any amendments, alterations or modifications to any documents), as they and/or he may consider desirable, expedient or necessary to give effect to the transactions contemplated by this Resolution.

Information on Mr. Chew can be found on page 10 of the annual report. Mr. Chew Chee Bin is the brother of the Non-Executive Director of the Company, Chew Chee Keong, and the cousin of the Managing Director of the Company, Mr Chew Eng Hoe. Mr Chew Chee Bin is a shareholder of Chew's Farm Holdings Pte. Ltd. ("Chew's Farm") which holds 40.27% shareholdings of the Company's controlling shareholder, Fenghe Investment Holding Pte. Ltd. ("Fenghe"). Chew's Farm is deemed interested in the shares of the Company held by Fenghe.
- (2) Mr. Chew Chee Keong will, upon re-election as a Director of the Company, remain as a member of the Remuneration Committee and the Risk Committee. Information on Mr. Chew can be found on page 12 of the annual report. Mr Chew Chee Keong is the brother of the Executive Chairman of the Company, Mr. Chew Chee Bin, and the cousin of the Managing Director of the Company, Mr Chew Eng Hoe. Mr Chew Chee Keong is a shareholder of Chew's Farm Holdings Pte. Ltd. ("Chew's Farm") which holds 40.27% shareholdings of the Company's controlling shareholder, Fenghe Investment Holding Pte. Ltd. ("Fenghe"). Chew's Farm is deemed interested in the shares of the Company held by Fenghe.
- (3) The Ordinary Resolution 7 proposed in item 8 above, if passed, will empower the Directors from the date of this Annual General Meeting until the date of the next annual general meeting of the Company or the date by which the next annual general meeting of the Company is required by law to be held or such authority is varied or revoked by the Company in a general meeting, whichever is the earlier, to allot and issue shares, make or grant Instruments convertible into shares and to issue shares pursuant to such Instruments. The aggregate number of shares (including shares to be made in pursuance of Instruments made or granted pursuant to this Resolution) which the Directors may allot and issue, shall not exceed, in total, one hundred per cent. (100%) of the total number of issued shares (excluding treasury shares), of which the total number of shares issued other than on a pro-rata basis to existing shareholders of the Company, shall not exceed fifty per cent. (50%) of the total number of issued shares (excluding treasury shares).

For determining the aggregate number of shares that may be issued, the percentage of issued shares will be calculated based on the total number of issued shares (excluding treasury shares) at the time Resolution

7 is passed after adjusting for new shares arising from the conversion or exercise of any convertible securities, the exercise of share options or the vesting of share awards outstanding or subsisting at the time when Resolution 7 is passed and any subsequent consolidation or subdivision of shares.

- (4) The Ordinary Resolution 8 proposed in item 9 above, if passed, will empower the Directors, from the date of the this Annual General Meeting until the next annual general meeting of the Company, or the date by which the next annual general meeting of the Company is required by law to be held or such authority is varied or revoked by the Company in a general meeting, whichever is the earlier, to allot and issue ordinary shares pursuant to the exercise of Options granted or to be granted under the Chew's Employee Share Option Scheme and such other share-based incentive scheme or share plan up to a number not exceeding, in total, fifteen per cent. (15%) of the total number of issued shares (excluding treasury shares) on the date preceding the date of the relevant grant.
- (5) The Ordinary Resolution 9 proposed in item 10 above, if passed, will empower the Directors, from the date of the this Annual General Meeting until the next annual general meeting of the Company, or the date by which the next annual general meeting of the Company is required by law to be held or such authority is varied or revoked by the Company in a general meeting, whichever is the earlier, to allot and issue ordinary shares pursuant to the vesting of Awards under the Chew's Performance Share Plan and such other share-based incentive scheme or share plan up to a number not exceeding, in total, fifteen per cent. (15%) of the total number of issued shares (excluding treasury shares) on the date preceding the date of the relevant grant.
- (6) The Ordinary Resolution 10 proposed in item 11 above, if passed, will empower the Directors of the Company, from the date of the this Annual General Meeting until the date the next annual general meeting is to be held or is required by law to be held, whichever is the earlier, to make purchases (whether by way of Market Purchases or Off-Market Purchases on an equal access scheme) from time to time of up to ten per cent. (10%) of the total number of issued Shares excluding any Shares which are held as treasury shares by the Company, at prices up to but not exceeding the Maximum Price. The rationale for, the authority and limitation on, the sources of funds to be used for the purchase or acquisition including the amount of financing and the financial effects of the purchase or acquisition of Shares by the Company pursuant to the Share Buy-Back Mandate are set out in greater detail in the Appendix for the Renewal of Share Buy-Back Mandate dated 10 January 2017.

NOTES:

- 1. A Member (other than a Relevant Intermediary) (as defined in Note 2 below) entitled to attend and vote at the Annual General Meeting is entitled to appoint not more than two (2) proxies to attend and vote in his/her stead. Such proxy need not be a Member of the Company and where there are two (2) proxies, the number of shares to be represented by each proxy must be stated.
- 2. A member who is a Relevant Intermediary entitled to attend and vote at the EGM is entitled to appoint more than two (2) proxies to attend and vote in his/her stead, but each proxy must be appointed to exercise the rights attached to a different share or shares held by such Member. Where such Member appoints more than two (2) proxies, the number and class of shares to be represented by each proxy must be stated.

"Relevant Intermediary" means:

- (a) a banking corporation licensed under the Banking Act, Chapter 19 of Singapore or a wholly owned subsidiary of such a banking corporation, whose business includes the provision of nominee services and who holds shares in that capacity;
- (b) a person holding a capital markets services licence to provide custodial services for securities under the Securities and Futures Act, Chapter 289 of Singapore and who holds shares in that capacity; or

- (c) the Central Provident Fund Board ("CPF Board") established by the Central Provident Fund Act, Chapter 36 of Singapore, in respect of shares purchased under the subsidiary legislation made under that Act providing for the making of investments from the contributions and interest standing to the credit of members of the Central Provident Fund, if the CPF Board holds those shares in the capacity of an intermediary pursuant to or in accordance with that subsidiary legislation.
- 3. If the member is a corporation, the instrument appointing the proxy must be under seal or the hand of an officer or attorney duly authorised.
- 4. The instrument or form appointing a proxy or proxies, duly executed, must be deposited at the Company's registered office at 80 Raffles Place #32-01 UOB Plaza 1 Singapore 048624, not less than forty-eight (48) hours before the time appointed for holding the Annual General Meeting.

PERSONAL DATA PRIVACY:

By attending the Annual General Meeting and/or any adjournment thereof or submitting an instrument appointing a proxy(ies) and/or representative(s) to attend, speak and vote at the Annual General Meeting and/or any adjournment thereof, a member of the Company (i) consents to the collection, use and disclosure of the member's personal data by the Company (or its agents) for the purpose of the processing and administration by the Company (or its agents) of proxies and representatives appointed for the Annual General Meeting (including any adjournment thereof) and the preparation and compilation of the attendance lists, minutes and other documents relating to the Annual General Meeting (including any adjournment thereof), and in order for the Company (or its agents) to comply with any applicable laws, listing rules, regulations and/or guidelines (collectively, the "**Purposes**"), (ii) warrants that where the member discloses the personal data of the member's proxy(ies) and/or representative(s) to the Company (or its agents), the member has obtained the prior consent of such proxy(ies) and/or representative(s) for the collection, use and disclosure by the Company (or its agents) of the personal data of such proxy(ies) and/or representative(s) for the collection, use and disclosure by the Company (or its agents) of the personal data of such proxy(ies) and/or representative(s) for the collection, use and disclosure by the Company (or its agents) of the personal data of such proxy(ies) and/or representative(s) for the collection, use and disclosure by the Company (or its agents) of the personal data of such proxy(ies) and/or representative(s) for the collection, use and disclosure by the Company (or its agents) of the personal data of such proxy(ies) and/or representative(s) for the Purposes, and (iii) agrees that the member will indemnify the Company in respect of any penalties, liabilities, claims, demands, losses and damages as a result of the member's breach of warranty.

To: The Shareholders of Chew's Group Limited

Dear Shareholder,

1. INTRODUCTION

We refer to:

- (a) the Notice of AGM dated 10 January 2017 accompanying the 2016 Annual Report, convening the 2017 AGM which is scheduled to be held on 25 January 2017; and
- (b) Ordinary Resolution 10 in relation to the renewal of the Share Buy-Back Mandate under the heading "Special Business" set out in the Notice of AGM.

The SGX-ST assumes no responsibility for the accuracy of any statements or opinions made in this Appendix.

2. THE PROPOSED RENEWAL OF THE SHARE BUY-BACK MANDATE

2.1 The Existing Share Buy-Back Mandate

At the Extraordinary General Meeting of the Company held on 20 January 2012, the Shareholders had approved the Share Buy-Back Mandate to enable the Company to purchase or otherwise acquire Shares. At the AGM on 26 January 2016, the Shareholders approved the renewal of Share Buy-Back Mandate. As the Share Buy-Back Mandate will expire on the date of the forthcoming 2017 AGM, the Directors propose that the Share Buy-Back Mandate be renewed at the 2017 AGM.

2.2 Background

The Companies Act allows a Singapore-incorporated company to purchase or otherwise acquire its issued ordinary shares, stocks and preference shares if the purchase or acquisition is permitted under the Constitution.

Any purchase or acquisition of Shares by the Company would have to be made in accordance with, and in the manner prescribed by, the Companies Act and the Catalist Rules and such other laws and regulations as may for the time being be applicable. As the Company is listed on Catalist, it is also required to comply with Part XI of Chapter 8 of the Catalist Rules, which relates to the purchase or acquisition by an issuer of its own shares. Article 11 of the Constitution expressly permits the Company to purchase its issued Shares.

It is a requirement under the Companies Act and the Catalist Rules that a company which wishes to purchase or otherwise acquire its own shares should obtain approval of its shareholders to do so at a general meeting. Accordingly, approval is being sought from Shareholders at the 2017 AGM for the proposed renewal of the Share Buy-Back Mandate.

If approved by Shareholders at the 2017 AGM, the authority conferred by the Share Buy-Back Mandate will take effect from the date of the 2017 AGM at which the proposed renewal of the Share Buy-Back Mandate will be approved ("**Approval Date**") and continue to be in force for the duration of the Relevant Period, which is until the earlier of the date on which the next AGM is held or is required by law to be held (whereupon it will lapse, unless renewed at such meeting), the date on which the share buy-backs are carried out to the full extent of the Share Buy-Back Mandate or the date the said mandate is varied or revoked by the Company in a general meeting. Subject to its continued relevance to the Company, the Share Buy-Back Mandate will be put to Shareholders for renewal at each subsequent AGM.

2.3 Rationale for the Proposed Renewal of the Share Buy-Back Mandate

The Share Buy-Back Mandate will give the Company the flexibility to purchase or otherwise acquire its Shares if and when circumstances permit. The Directors believe that share buy-backs would allow the Company and its Directors to better manage the Company's share capital structure, dividend payout and cash reserves. In addition, it also provides the Directors a mechanism to facilitate the return of surplus cash over and above the Company's ordinary capital requirements in an expedient and cost-efficient manner, and the opportunity to exercise control over the Company's share capital structure with a view to enhancing the EPS and/or NAV per Share. Share buy-backs also help the Company minimise the dilution impact arising from the Scheme and the Plan.

Pursuant to the Companies Act, Shares purchased or otherwise acquired pursuant to the Share Buy-Back Mandate may be held or dealt with as Treasury Shares.

The existing Shares purchased by the Company under the Share Buy-Back Mandate, if held as Treasury Shares, may be used for the purposes as set out in paragraph 2.6.3 of this Appendix, which include but is not limited to the issuance of Shares pursuant to the exercise of Options and the vesting of Awards. Under the Companies Act, the Company may deliver Shares pursuant to the exercise of Options granted under the Scheme and/or Awards granted under the Plan in the form of existing Shares held as Treasury Shares and/or an issue of New Shares.

Shareholders should note that purchases or acquisitions of Shares pursuant to the Share Buy-Back Mandate will only be made when the Directors believe that such purchases or acquisitions would be made in circumstances which would not have a material adverse effect on the financial position of the Company and when the Directors believe that such purchases or acquisitions would benefit the Company and its Shareholders.

2.4 Terms of the Proposed Renewal of the Share Buy-Back Mandate

The authority and limitations placed on purchases or acquisitions of Shares by the Company under the Share Buy-Back Mandate are summarised below.

2.4.1 Maximum number of Shares

Only Shares which are issued and fully paid-up may be purchased or acquired by the Company.

The total number of Shares that may be purchased or acquired by the Company during the Relevant Period shall not exceed ten per cent. (10%) of the total number of issued Shares of the Company as at the Approval Date, unless the Company has, at any time during the Relevant Period, reduced its share

capital by a special resolution under Section 78C of the Companies Act, or the court has, at any time during the Relevant Period, made an order under Section 78I of the Companies Act confirming the reduction of share capital of the Company, in which event the total number of Shares shall be taken to be the total number of Shares as altered by the special resolution of the Company or the order of the court, as the case may be. For purposes of calculating the percentage of Shares referred to above, any of the Shares which are held as Treasury Shares will be disregarded.

For illustrative purposes only, based on the existing issued and paid-up share capital of the Company as at the Latest Practicable Date comprising 84,498,000 Shares, and assuming no further Shares are issued on or prior to the 2017 AGM, no more than 8,449,800 Shares representing ten per cent. (10%) of the issued and paid-up share capital of the Company as at that date of the 2017 AGM may be purchased or acquired by the Company pursuant to the Share Buy-Back Mandate.

2.4.2 Duration of authority

Purchases or acquisitions of Shares may be made during the Relevant Period, which is at any time and from time to time, on and from the Approval Date, up to the earliest of:

- (a) the date on which of the next AGM is held or is required by law to be held; or
- (b) the date on which the share buy-backs are carried out to the full extent of the Share Buy-Back Mandate; or
- (c) the date on which the authority conferred in the Share Buy-Back Mandate is varied or revoked by the Shareholders in a general meeting.

2.4.3 Manner of purchase of Shares

Purchases or acquisitions of Shares may be made by way of:

- (a) on-market purchases ("**Market Purchase**"), transacted on the SGX-ST through the ready market, and which may be transacted through one or more duly licensed stockbrokers appointed by the Company for the purpose; and/or
- (b) off-market purchases ("**Off-Market Purchase**") (if effected otherwise than on the SGX-ST) in accordance with an equal access scheme as defined in Section 76C of the Companies Act.

The Directors may impose such terms and conditions which are not inconsistent with the Share Buy-Back Mandate, the Catalist Rules and the Companies Act as they consider fit in the interests of the Company in connection with or in relation to an equal access scheme. Pursuant to the Companies Act, an Off-Market Purchase must satisfy all of the following conditions:

- (i) offers for the purchase or acquisition of Shares shall be made to every person who holds Shares to purchase or acquire the same percentage of their Shares;
- (ii) all of those persons shall be given a reasonable opportunity to accept the offers made to them; and
- (iii) the terms of all the offers shall be the same, except that there shall be disregarded:
 - (1) differences in consideration attributable to the fact that offers may relate to Shares with different accrued dividend entitlements;

- (2) (if applicable) differences in consideration attributable to the fact that the offers relate to Shares with different amounts remaining unpaid; and
- (3) differences in the offers introduced solely to ensure that each person is left with a whole number of Shares.

In addition, the Catalist Rules provide that, in making an Off-Market Purchase, the Company must issue an offer document to all Shareholders containing at least the following information:

- (aa) the terms and conditions of the offer;
- (bb) the period and procedures for acceptances;
- (cc) the reasons for the proposed share buy-back;
- (dd) the consequences, if any, of share buy-backs by the Company that will arise under the Take-over Code or other applicable take-over rules;
- (ee) whether the share buy-back, if made, would have any effect on the listing of the Shares on the SGX-ST;
- (ff) details of any share buy-back made by the Company in the previous twelve (12) months (whether Off-Market Purchases in accordance with an equal access scheme or Market Purchases), setting out the total number of Shares purchased, the purchase price per Share or the highest and lowest prices paid for the purchases, where relevant, and the total consideration paid for the purchases; and
- (gg) whether the share purchased by the Company will be cancelled or kept as Treasury Shares.

2.4.4 Maximum purchase price

The purchase price (excluding brokerage, stamp duties, commission, applicable goods and services tax and other related expenses) to be paid for a Share will be determined by the Directors. However, the purchase price to be paid for the Shares pursuant to the purchases or acquisitions of the Shares, excluding related expenses of the purchase or acquisition, must not exceed the Maximum Price (as defined hereinafter) which is:

- (a) in the case of a Market Purchase, five per cent. (5%) above the average of the closing market prices of the Shares over the five (5) Market Days on which transactions in the Shares were recorded before the day on which the Market Purchase was made by the Company and deemed to be adjusted for any corporate action that occurs after the relevant five (5)-day period; and
- (b) in the case of an Off-Market Purchase pursuant to an equal access scheme, fifteen per cent. (15%) above the average of the closing market prices of the Shares over the five (5) Market Days on which transactions in the Shares were recorded before the day on which the Company makes an announcement of an offer under the Off-Market Purchase scheme stating the purchase price (which shall not be more than the Maximum Price (as defined hereinafter) calculated on the foregoing basis) for each Share and the relevant terms of the equal access scheme for effecting the Off-Market Purchase, and deemed to be adjusted for any corporate action that occurs after the relevant five (5)-day period,

(the "Maximum Price") in either case, excluding related expenses of the purchase.

2.5 Status of Purchased Shares under the Share Buy-Back Mandate

A Share purchased or otherwise acquired by the Company is deemed cancelled immediately on purchase or acquisition (and all rights and privileges attached to the Share will expire on such cancellation) unless such Shares are held by the Company as Treasury Shares to the extent permitted under the Companies Act. Accordingly, the total number of issued Shares will be diminished by the number of Shares purchased or otherwise acquired by the Company and which are not held as Treasury Shares. All Shares purchased or acquired by the Company (other than Treasury Shares held by the Company to the extent permitted under the Companies Act), will be automatically de-listed by the SGX-ST, and the certificates in respect thereof will be cancelled and destroyed by the Company as soon as reasonably practicable following settlement of any such purchase or acquisition.

At the time of each purchase of Shares by the Company, the Directors will decide whether the Shares purchased will be cancelled or kept as Treasury Shares, or partly cancelled and partly kept as Treasury Shares, depending on the needs of the Company at that time. The Company may hold Shares purchased pursuant to the Share Buy-Back Mandate as Treasury Shares to be used, *inter alia*, in the issue of Shares pursuant to the exercise of Options under the Scheme and/or the grant of Awards under the Plan.

2.6 Treasury Shares

Under the Companies Act, Shares purchased or otherwise acquired by the Company may be held or dealt with as Treasury Shares. Some of the provisions on Treasury Shares under the Companies Act are summarised below.

2.6.1 <u>Maximum holdings</u>

The number of Shares held as Treasury Shares cannot at any time exceed ten per cent. (10%) of the total number of issued Shares. Any shares in excess of this limit shall be disposed of or cancelled in accordance with Section 76K of the Companies Act within six (6) months or such further periods as ACRA may allow.

2.6.2 Voting and other rights

The Company cannot exercise any right in respect of Treasury Shares. In particular, the Company cannot exercise any right to attend or vote at meetings and for the purposes of the Companies Act, the Company shall be treated as having no right to vote and the Treasury Shares shall be treated as having no voting rights.

In addition, no dividend may be paid, and no other distribution of the Company's assets may be made, to the Company in respect of Treasury Shares. However, the allotment of Shares as fully paid bonus shares in respect of Treasury Shares is allowed. Also, a subdivision or consolidation of any Treasury Shares into Treasury Shares of a greater or smaller number is allowed so long as the total value of the Treasury Shares after the subdivision or consolidation is the same as before.

2.6.3 Disposal and cancellation

Where Shares are held as Treasury Shares, the Company may at any time:

- (a) sell the Treasury Shares (or any of them) for cash;
- (b) transfer the Treasury Shares (or any of them) for the purposes of, or pursuant to any share scheme of the Company, whether for employees, Directors or other persons;

- (c) transfer the Treasury Shares (or any of them) as consideration for the acquisition of Shares in, or assets of, another company or assets of a person;
- (d) cancel the Treasury Shares (or any of them); or
- (e) sell, transfer or otherwise use the Treasury Shares (or any of them) for such other purposes as may be prescribed by the Minister for Finance.

2.7 Reporting Requirements

Within thirty (30) days of the passing of a Shareholders' resolution to approve any purchase or acquisition of Shares by the Company, the Company shall lodge a copy of such resolution with ACRA.

The Company shall notify ACRA within thirty (30) days of a purchase or acquisition of Shares on the SGX-ST or otherwise. Such notification shall include details of the purchase, including the date of the purchase or acquisition, the total number of Shares purchased or otherwise acquired by the Company, the number of Shares cancelled, the number of Shares held as Treasury Shares, the Company's issued share capital before the purchase or acquisition of Shares, the Company's issued share capital after the purchase or acquisition of Shares, the amount of consideration paid by the Company for the purchase or acquisition, whether the Shares were purchased or acquired out of profits or the capital of the Company and such other particulars as may be required by ACRA.

Within thirty (30) days of the cancellation or disposal of Treasury Shares in accordance with the provisions of the Companies Act, the Directors shall lodge with ACRA the notice of cancellation or disposal of Treasury Shares in the prescribed form as required by ACRA.

The Catalist Rules specifies that a listed company shall notify the SGX-ST of all purchases or acquisitions of its shares no later than 9.00 a.m.:

- (a) in the case of a Market Purchase, on the Market Day following the day on which the Market Purchase was made; and
- (b) in the case of an Off-Market Purchase, on the second Market Day after the close of acceptance of the offer for the Off-Market Purchase.

The notification of such purchase or acquisition of shares to the SGX-ST shall be in such form and shall include such details that the SGX-ST may prescribe. The Company shall make arrangements with its stockbrokers to ensure that they provide to the Company in a timely fashion, the necessary information which will enable the Company to make the necessary notifications to the SGX-ST.

2.8 Source of funds

In purchasing or acquiring Shares, the Company may only apply funds legally available for such purchase or acquisition in accordance with the Constitution and the applicable laws of Singapore. The Company may not purchase its Shares for a consideration other than in cash or, in the case of a Market Purchase, for settlement otherwise than in accordance with the Catalist Rules. As stated in the Companies Act, the share buy-back may be made out of the Company's profits or capital so long as the Company is solvent.

Pursuant to Section 76F(4) of the Companies Act, a company is solvent if at the date of the payment made by the company in consideration of acquiring any right with respect to the purchase or acquisition of its own shares:

(a) there is no ground on which the company could be found to be unable to pay its debts;

(b) if:

- (1) it is intended to commence winding up of the company within the period of 12 months immediately after the date of the payment, the company will be able to pay its debts in full within the period of 12 months after the date of commencement of the winding up; or
- (2) it is not intended so to commence winding up, the company will be able to pay its debts as they fall due within the period of 12 months immediately after the date of the payment; and
- (c) the value of its assets is not less than the value of its liabilities (including contingent liabilities) and such value of its assets will not, after the proposed purchase, acquisition, variation or release (as the case may be) of the company's obligations, become less than the value of its liabilities (including contingent liabilities).

The Company intends to use internal sources of funds to finance the Company's purchase or acquisition of Shares pursuant to the Share Buy-Back Mandate. The Directors do not propose to exercise the Share Buy-Back Mandate in a manner and to such extent that it would have a material adverse effect on the working capital requirements and/ or the gearing of the Group.

2.9 Financial effects

Under the Companies Act, the purchase or acquisition of Shares by the Company may be made out of the Company's capital or profits so long as the Company is solvent. Where the consideration paid by the Company for the purchase or acquisition of Shares is made out of profits, such consideration (including any expenses (including brokerage or commission) incurred directly in the purchase or acquisition by the Company of the Shares) will correspondingly reduce the profits of the Company and hence the amount available for the distribution of cash dividends by the Company. Where the consideration (including any expenses (including brokerage or commission) incurred directly in the purchase or acquisition of Shares is made out of capital, such consideration paid by the Company for the purchase or acquisition of Shares is made out of capital, such consideration (including any expenses (including brokerage or commission) incurred directly in the purchase or acquisition by the Company of the Shares) will correspondingly reduce the share capital of the Company but the amount available for the distribution of cash dividends by the Company will not be reduced. The NTA of the Company and of the Group will be reduced by the aggregate purchase price paid by the Company for the Shares.

For illustrative purposes only, as at the Latest Practicable Date, the issued and paid-up ordinary share capital of the Company (excluding Treasury Shares) comprises 84,498,000 Shares. The exercise in full of the Share Buy-Back Mandate would result in the purchase of 8,449,800 Shares.

It is not possible for the Company to realistically calculate or quantify the impact of purchases or acquisitions of Shares that may be made pursuant to the Share Buy-Back Mandate on the NTA and EPS as the resultant effect would depend on, *inter alia*, the aggregate number of Shares purchased or otherwise acquired, whether the purchase or acquisition is made out of capital or profits, the purchase prices paid for such Shares and whether the Shares purchased or otherwise acquired are cancelled or held as Treasury Shares.

For illustrative purposes only, the financial effects of the Share Buy-Back Mandate on the Company and the Group, based on the audited financial statements of the Company and the Group for the financial year ended 30 September 2016 are based on the following assumptions:

- (a) based on 84,498,000 Shares in issue as at the Latest Practicable Date and assuming no further Shares are issued purchased and kept as Treasury Shares on or prior to the 2017 AGM, the purchase or acquisition by the Company of 8.51% of its issued Shares will result in the purchase or acquisition of 7,191,333 Shares;
- (b) in the case of Market Purchase by the Company and assuming that the Company purchases or acquires 7,191,333 Shares, the maximum amount of funds required for the purchase (excluding brokerage, stamp duties, commissions, applicable goods and services tax and other related expenses) assuming a maximum price of S\$0.33 for one Share which is five per cent. (5%) above the average of the closing market prices of the Share for the five (5) consecutive Market Days on which the Shares were traded on the SGX-ST immediately preceding the Latest Practicable Date, is approximately S\$2.37 million;
- (c) in the case of the Off-Market Purchases by the Company and assuming that the Company purchases or acquires 7,191,333 Shares, the maximum amount of funds required for the purchase (excluding brokerage, stamp duties, commissions, applicable goods and services tax and other related expenses) assuming a Maximum Price of S\$0.36 which is fifteen per cent. (15%) above the average closing market prices of the Shares for the last five (5) consecutive Market Days on which the Shares were traded on the SGX-ST immediately preceding the Latest Practicable Date, is approximately S\$2.59 million.

For illustrative purposes only and on the basis of the assumptions set out in (a), (b) and (c) above, the financial effects of the:

- (i) purchase or acquisition of 7,191,333 Shares by the Company pursuant to the Share Buy-Back Mandate by way of Market Purchases made entirely out of profit and/or capital and cancelled or held in treasury; and
- (ii) purchase or acquisition of 7,191,333 Shares by the Company pursuant to the Share Buy-Back Mandate by way of Off-Market Purchases made entirely out of profits and/or capital and cancelled or held in treasury,

on the audited financial statements of the Company and the Group for the financial year ended 30 September 2016 are set out below.

The actual impact will depend on the number and price of the Shares bought back. As stated, the Directors do not propose to exercise the Share Buy-Back Mandate to such an extent that it would have a material adverse effect on the working capital requirements and/or gearing of the Group. The purchase of Shares will only be effected after assessing the relative impact of a share buy-back taking into consideration both financial factors (such as cash surplus, debt position and working capital requirements) and non-financial factors (such as share market conditions and performance of the Shares).

Shareholders should note that the financial effects illustrated above, based on the respective aforesaid assumptions, are for illustration purposes only. In particular, it is important to note that the above analysis is based on the audited accounts of the Company and the Group for the financial year ended 30 September 2016, and is not necessarily representative of the future financial performance of the Company and the Group.

It should be noted that although the Share Buy-Back Mandate would authorise the Company to purchase or otherwise acquire up to ten per cent. (10%) of the issued Shares, the Company may not necessarily purchase or acquire or be able to purchase or otherwise acquire the entire ten per cent. (10%) of the issued Shares. In addition, the Company may cancel, or hold as Treasury Shares, all or part of the Shares purchased or otherwise acquired. The Company will take into account both financial and non-financial factors (for example, stock market conditions and the performance of the Shares) in assessing the relative impact of a share purchase before execution.

2.10 Take-over implications arising from share buy-back

The take-over implications arising from any purchase or acquisition by the Company of its Shares are set out below.

2.10.1 Obligation to make a take-over offer

Rule 14 of the Take-over Code ("Rule 14") requires, inter alia, that except with the consent of the SIC, where:

- (a) any person acquires, whether by a series of transactions over a period of time or not, shares which (taken together with shares held or acquired by persons acting in concert with him) carry thirty per cent. (30%) or more of the voting rights of a company; or
- (b) any person who, together with persons acting in concert with him, holds not less than thirty per cent. (30%) but not more than fifty per cent. (50%) of the voting rights and such person, or any person acting in concert with him, acquires in any period of six (6) months additional shares carrying more than one per cent (1%) of the voting rights,

such person shall extend immediately an offer on the basis set out below to the holders of any class of shares in the capital which carries votes and in which such person or persons acting in concert with him hold shares. In addition to such person, each of the principal members of the group of persons acting in concert with him may, according to the circumstances of the case, have the obligation to extend an offer.

In calculating the percentages of voting rights of such person and their concert parties, Treasury Shares shall be excluded.

2.10.2 Persons acting in concert

Under the Take-over Code, persons acting in concert comprise individuals or companies who, pursuant to an agreement or understanding (whether formal or informal), co-operate, through the acquisition by any of them of shares in a company, to obtain or consolidate effective control of that company.

Unless the contrary is established, the following persons will, *inter alia*, be presumed to be acting in concert with each other under the Take-over Code:

- (a) a company with any of its directors (together with their close relatives, related trusts as well as companies controlled by any of the directors, their close relatives and related trusts);
- (b) a company with its parent, subsidiaries and fellow subsidiaries, and their associated companies, any company whose associated companies include any of the foregoing companies, and any person who has provided financial assistance (other than a bank in the ordinary course of business) to any of the foregoing companies for the purchase of voting rights, all with one another. For this purpose, ownership or control of at least twenty per cent. (20%) but not more than fifty per cent. (50%) of the voting rights of a company will be regarded as the test of associated company status; and
- (c) an individual with his close relatives, related trusts and person(s) who are accustomed to act in accordance with his instructions.

The circumstances under which Shareholders, including Directors and persons acting in concert with them respectively, will incur an obligation to make a take-over offer under Rule 14 after a purchase or acquisition of Shares by the Company are set out in Rule 14 and Appendix 2 of the Take-over Code.

2.10.3 Effect of Rule 14 and Appendix 2

Appendix 2 of the Take-over Code contains the share buy-back guidance note. In general terms, the effect of Rule 14 and Appendix 2 of the Take-over Code is that, unless exempted, if, as a result of any purchase or acquisition by the Company of its Shares, the proportionate percentage of voting rights held by a Shareholder and persons acting in concert with him increases, such increase will be treated as an acquisition for the purposes of the Take-over Code. If as a result of such increase, a Shareholder or group of Shareholders acting in concert with a Director obtains or consolidates effective control of the Company, such Shareholder or group of Shareholders acting in concert with a Director with a Director could become obliged to make a take-over offer for the Company under Rule 14.

Under Appendix 2 of the Take-over Code, a Shareholder not acting in concert with the Directors will not be required to make a take-over offer under Rule 14 if, as a result of the Company purchasing or acquiring its Shares, the voting rights of such Shareholder would increase to thirty per cent. (30%) or more, or, if such Shareholder holds between thirty per cent. (30%) and fifty per cent. (50%) of the Company's voting rights, the voting rights of such Shareholder would increase by more than one per cent. (1%) in any period of six (6) months. Such Shareholder need not abstain from voting in respect of the resolution authorising the Share Buy-Back Mandate.

2.10.4 Advice to Shareholders

Shareholders are advised to consult their professional advisers and/or the SIC and/or other relevant authorities at the earliest opportunity as to whether an obligation to make a take-over offer would arise by reason of any share purchases by the Company.

2.10.5 Interests of Directors and Substantial Shareholders

Based on the information set out below, assuming that there is no change to the interest set out below since the Latest Practicable Date, none of the Shareholders, including Directors and persons acting in concert with them respectively, are expected to incur an obligation to make a general offer to other Shareholders under the Take-over Code solely by reason of the Share Buy-Back Mandate.

(i) Interest of Directors

Based on the Register of Directors' Shareholdings of the Company maintained pursuant to Section 164 of the Companies Act, as at the Latest Practicable Date, the shareholdings of the Directors before and after the purchase of Shares (assuming (i) the Company purchases 8,449,800 Shares being the maximum number of ten per cent. (10%) of the issued Shares of the Company as at the Latest Practicable Date; and (ii) there is no change in the number of Shares held or deemed to be held by the Directors) were/will be as follows:

	Before Shar (Number	e Buy-Back of Shares)	Before Share	After Share	
Name of Directors	Direct Interest	Deemed Interest	Buy-Back (%) ⁽³⁾	Buy-Back (%) ⁽⁴⁾	
Chew Chee Bin (1),(2)	351,025	-	0.42	0.46	
Chew Eng Hoe (2)	343,350	-	0.41	0.45	
Chew Chee Keong (1),(2)	597,025	-	0.71	0.79	

Notes:

- (1) Chew Chee Bin, the Group's Executive Chairman and Chew Chee Keong, the Group's Non-Executive Director are siblings.
- (2) Chew Eng Hoe, the Group's Managing Director, Chew Chee Bin and Chew Chee Keong are cousins.
- (3) The percentages in the table are calculated based on 84,498,000 Shares as at the Latest Practicable Date.
- (4) The percentages in the table are calculated based on 76,048,200 Shares, assuming the Company purchases the maximum number of ten per cent. (10%) of the Shares as at the Latest Practicable Date.

In the event that the Company undertakes share buy-backs of up to ten per cent. (10%) of the issued Shares of the Company as permitted under the Share Buy-Back Mandate, the shareholdings and voting rights of the Directors will remain below thirty per cent. (30%). Accordingly, no general offer by the Directors is required to be made pursuant to the Take-over Code.

(ii) Substantial Shareholders' interests

Based on the Register of Substantial Shareholders of the Company maintained pursuant to Section 88 of the Companies Act, as at the Latest Practicable Date, the shareholdings of the Substantial Shareholders before and after the purchase of Shares (assuming (i) the Company purchases 8,449,800 Shares, being the maximum number of ten per cent. (10%) of the issued Shares of the Company as at the Latest Practicable Date; and (ii) there is no change in the number of Shares held or deemed to be held by the Substantial Shareholders) were/will be as follows:

Notes:

- Fenghe Investment is an investment holding company incorporated in Singapore on 20 September 2010. It is held by Messrs Chew See Lian (1,958 shares (9.79%)), Chew Suu Hai (3,758 shares (18.79%)), Chew Chu Hoo (2,088 shares (10.44%)), Chew Eng Kiat (1,006 shares (5.03%)), Chew Eng Hoe (2,266 shares (11.33%)), Chew Eng Keng (870 shares (4.35%)) and Chew's Farm Holdings (8,054 shares (40.27%)).
- (2) Chew's Farm Holdings is deemed interested in the 57,580,341 Shares held by Fenghe Investment by virtue of its 40.27% shareholding interest in Fenghe Investment as at the Latest Practicable Date.
- (3) The percentages in the table are calculated based on 84,498,000 issued and paid-up Shares in the ordinary share capital of the Company as at the Latest Practicable Date.
- (4) The percentages in the table are calculated based on 76,048,200 Shares, assuming the Company purchases the maximum number of ten per cent. (10%) of the Shares as at the Latest Practicable Date.

As at the Latest Practicable Date, Fenghe Investment and Chew's Farm Holdings own an aggregate of 68.14% of the shareholdings of the Company.

In the event that the Company undertakes share buy-backs of up to ten per cent (10%) of the issued Shares of the Company as permitted under the Share Buy-Back Mandate, the shareholdings and voting rights of Fenghe Investment and Chew's Farm Holdings will remain above fifty per cent (50%). Accordingly, no general offer is required to be made pursuant to the Take-over Code.

(iii)Listing status of Shares on the SGX-ST

The Company does not have any individual shareholding limit or foreign shareholding limit. However, the Company is required under Rule 723 of the Catalist Rules to ensure that at least ten per cent. (10%) of its Shares are in the hands of the public. The term "public," as defined under the Catalist Rules, are persons other than (i) the Directors, chief executive officer, Substantial Shareholders or Controlling Shareholders of the Company and its subsidiaries; and (ii) the Associates of persons in (i).

As at the Latest Practicable Date, there are 263 Shareholders and approximately 14,922,000 issued Shares were held by the public, representing 17.66% of the total number of issued Shares. For illustrative purposes only, assuming that the Company purchases the maximum number of ten per cent. (10%) of the issued Shares, being 8,449,800 Shares as at the Latest Practicable Date, and assuming that such Shares are held in public hands, the resultant number of Shares held by the public after the purchase of such Shares would be reduced to 6,472,200 Shares, representing approximately 8.51% of the remaining issued Shares of the Company. Therefore, in such a case and in order not to adversely affect the listing status of Shares on the SGX-ST, the Company will not be permitted to undertake purchases or acquisitions of its Shares to the full ten per cent. (10%) limit pursuant to the Share Buy-Back Mandate. Accordingly, the Company is restricted to market purchases of up to 7,191,333 Shares which would result in the number of Shares in the hands of the public to be reduced to 7,730,667 Shares, representing ten per cent. (10%) of the remaining issued Shares of the Company.

Before deciding to effect a purchase of Shares, the Directors will consider whether, notwithstanding such purchase, a sufficient float in the hands of the public will be maintained to provide for an orderly market for trading in the Shares.

The Directors will use their best efforts to ensure that the Company does not effect a purchase or acquisition of Shares if the purchase or acquisition of Shares would result in the number of Shares remaining in the hands of the public falling to such a level as to cause market illiquidity or adversely affect the listing status of the Company.

2.10.6 Shares purchased by the Company

The Company has not made any Share purchases in the last 12 months preceding the Latest Practicable Date.

2.11 Timing of purchases

While the Catalist Rules do not expressly prohibit any purchase of shares by a listed company during any particular time or times, because the listed company would be regarded as an "insider" in relation to any proposed purchase or acquisition of its issued shares, the Company will not undertake any purchase or acquisition of Shares pursuant to the Share Buy-Back Mandate at any time after a price sensitive development has occurred or has been the subject of a decision until the price sensitive information has been publicly announced. In particular, in observing the best practices recommended in the Catalist Rules on securities dealings, the Company will not purchase or acquire any Shares during the period of one (1) month immediately preceding the announcement of the Company's half-year and full-year results, as the case may be, and ending on the date of announcement of the relevant results.

2.12 Tax implications

Shareholders who are in doubt as to their respective tax positions or tax implications arising from share buy-backs by the Company in their respective jurisdictions should consult their own professional advisers.

3. ACTION TO BE TAKEN BY SHAREHOLDERS

Shareholders who are unable to attend the 2017 AGM and who wish to appoint a proxy or proxies to attend and vote on their behalf should complete, sign and return the Proxy Form attached to the Notice of AGM in accordance with the instructions printed therein as soon as possible and, in any event, so as to arrive at the registered office of the Company at 80 Raffles Place, #32-01 UOB Plaza 1, Singapore 048624, not later than forty-eight (48) hours before the time fixed for the 2017 AGM. The appointment of a proxy by a Shareholder does not preclude him from attending and voting in person at the 2017 AGM if he so wishes in place of the proxy.

A Depositor shall not be regarded as a member of the Company entitled to attend the 2017 AGM and to speak and vote thereat unless his name appears on the Depository Register maintained by CDP at least seventy-two (72) hours before the 2017 AGM.

4. DIRECTORS' RECOMMENDATION

Having fully considered the rationale set out in paragraph 2.3 of this Appendix, the Directors are of the opinion that the proposed renewal of the Share Buy-Back Mandate is in the best interests of the Company. Accordingly, the Directors recommend that Shareholders vote in favour of Ordinary Resolution 10 pertaining to the proposed renewal of the Share Buy-Back Mandate to be proposed at the 2017 AGM.

5. DIRECTORS' RESPONSIBILITY STATEMENT

The Directors collectively and individually accept full responsibility for the accuracy of the information given in this Appendix and confirm after making all reasonable enquiries, that to the best of their knowledge and belief, this Appendix constitutes full and true disclosure of all material facts about the proposed renewal of the Share Buy-Back Mandate, the Company and its subsidiaries, and the Directors are not aware of any facts the omission of which would make any statement herein misleading. Where information in this Appendix has been extracted from published or otherwise publicly available sources or obtained from a named source, the sole responsibility of the Directors has been to ensure that such information has been accurately and correctly extracted from those sources and/or reproduced in this Appendix in its proper form and context.

6. DOCUMENTS FOR INSPECTION

Copies of the Constitution and the 2016 Annual Report are available for inspection during normal office hours at the registered office of the Company at 80 Raffles Place, #32-01 UOB Plaza 1, Singapore 048624 from the date of this Appendix up to the date of the 2017 AGM.

Yours faithfully
