Group turnover - refer to Page 18, note 11.

Group gross profit increased by 6% in 2Q15 against 2Q14 mainly due to higher contribution from Utilities and Marine.

Higher gross profit from Utilities came mainly from its India operations, with Thermal Powertech Corporation India Limited (TPCIL) commenced commercial operation in 2Q15 and SGI acquired in February 2015. These contributions have more than offset the lower contribution from Utilities' Singapore operations due to the continued intense competition in the power markets and low oil prices recorded during the period.

Marine's gross profit was higher in 2Q15 mainly due to higher contribution from offshore and conversion projects and repair business, offset by lower contribution from rig building projects.

 Depreciation and amortisation in 2Q15 was higher mainly due to Utilities' Singapore new cogen facilities that commenced operations in 4Q14, commencement of operations for TPCIL in 2Q15 and acquisition of SGI.

BALANCE SHEETS (Cont'd)

4c. Explanatory Notes to Balance Sheets (Cont'd)

(i) Group

Net current assets

"Trade and other receivables" increased also due to Marine's billings to a customer in accordance with the contract terms for ongoing projects and an amount of \$379.5 million was subsequently received on July 1, 2015.

"Excess of progress billings over work-in-progress" decreased mainly due to timing of billing for rig building projects.

"Provisions" increased mainly due to Utilities' allowance for claims and Marine's allowance for warranty.

"Other financial liabilities" decreased mainly due to fair value adjustment on fuel oil swaps and foreign currency forward contracts.

"Interest-bearing borrowings" increased also due to Marine's borrowings for working capital and capital expenditures for the new yard in Brazil. Marine has secured adequate committed long term banking facilities to refinance its short-term borrowings as they fall due; while TPCIL has facility approved to refinance its short-term borrowings for its power plant with local currency financing.

Non-current liabilities

"Provisions" decreased mainly due to Marine's net write back of allowance for warranty.

"Retirement benefit obligations" decreased mainly due to write-back of provision for employee benefits from UK operations.

"Interest bearing borrowings" increased mainly due to Marine's borrowings for working capital and capital expenditures.

Equity

The deficit in "Other reserves" was reduced primarily due to gain on foreign currency translation mainly due to appreciation of United States dollar and Renminbi against Singapore dollar and gain on fair value on fuel oil swaps and foreign currency forward contracts.

"Perpetual securities" amounting to \$600 million were issued by the Company on May 20, 2015. The perpetual securities are subordinated, cumulative and coupon payments are at the option of the Company, subject to terms and conditions of the securities issue. These perpetual securities are classified as equity instruments and recorded in equity.

(ii) Company

Net current assets

"Trade and other receivables" decreased is in line with lower sales.

"Cash and cash equivalents" increased mainly due to issuance of perpetual securities, partially offset by payments of dividends to shareholders and repayment of amount owing to a wholly owned subsidiary.

"Trade and other payables" decreased mainly due to repayment of amount owing to a wholly owned subsidiary.

Non-current liabilities

"Other long-term liabilities" decreased mainly due to repayment of amount owing to a wholly owned subsidiary.

The Utilities' turnover in 2Q15 and 1H15 were lower primarily due to Singapore operations' lower HSFO prices recorded during the period, partially mitigated by higher contribution from India operations from the commencement of TPCIL's operations and acquisition of SGI.

Marine's turnover for 2Q15 decreased mainly due to lower revenue recognition for rig building projects, mitigated by higher revenue recognition for offshore and conversion projects and higher revenue for ship repair business. Turnover for 1H15 decreased mainly due to the lower revenue recognition for rig building projects and lower average revenue per repair vessel despite the increase in the number of ships repaired, mitigated by higher revenue recognition for offshore and conversion projects.

Turnover of Others/Corporate was mainly contributed by a subsidiary dealing in specialized construction activities. Increase in turnover in 2Q15 and 1H15 was mainly due to recognition of projects with higher contract values compared to the previous year.

The Utilities business achieved a 17% growth in net profit in 1H15 with net profit growing to \$216.0 million from \$184.4 million mainly due the gain on divestment of SBWI. Excluding the gain on divestment of SBWI, the business' net profit for 1H15 was lower due to the continued intense competition in the Singapore power market and the low oil prices. However, its overseas operations continued to report steady profit.

Marine's net profit for 2Q15 and 1H15 decreased mainly due to lower contribution from rig building projects, higher finance costs and lower associates and joint ventures contributions.

Urban Development's net profit for 2Q15 increased mainly due to higher contribution from its Nanjing and Chengdu projects in China. 1H15's lower net profit were mainly due to higher contribution from its Nanjing project in 1H14.

Net profit for Others/Corporate increased in 1H15 mainly due to lower personnel related costs and 1H14's higher finance costs.

12. VARIANCE FROM PROSPECT STATEMENT

There is no material change from the previous prospect statement.

13. PROSPECTS

Utilities

2015 is expected to be challenging for the Singapore energy business with continued intense competition in the power market as well as low oil prices. The overseas business is expected to continue to deliver a steady performance. The first unit of TPCIL power plant in India commenced operation in 1Q2015, and the plant will be in full operation by 3Q2015.

Marine

The persistently low oil prices have escalated the ongoing cuts in global exploration and production expenditure. Some customers are deferring or seeking to defer the delivery of their ordered rigs. While the new order outlook for offshore exploration vessels remains bleak, the business has benefitted from its strategy to diversify its product offering in addition to drilling solutions.

Brazil's oil and gas industry remains fraught in uncertainty. The Marine business continues to engage with its customers to find the best way forward for its projects and to explore all options including slowing down construction.

The Marine business has a net orderbook of S\$10.9 billion. This includes S\$1.35 billion in contracts secured to-date in 2015. While the business faces many challenges ahead, it will continue to actively manage its balance sheet to maintain a healthy financial position. Following the transformation into an integrated business, Sembcorp Marine will optimise its capabilities and capacities, as well as increase its efficiency and productivity.

Urban Development

In 2015, the Urban Development business is expected to deliver a performance comparable to 2014.

Group

Despite the challenges of a low oil price environment and a mixed global economic outlook for 2015, the Group, underpinned by sound business fundamentals and a healthy pipeline of projects, remains committed to delivering long-term value and growth.

The Group remains focused on project execution, as well as on enhancing operational excellence and efficiency, to manage costs and maximise earnings.

You are cautioned not to place undue reliance on these forward-looking statements, which are based on current view of the management on future events and impact on the Group.
