SINGAPORE, 7 August 2026 – NetLink NBN Management Pte. Ltd., the Trustee-Manager of NetLink NBN Trust (网联宽频信托) (NetLink NBN Trust, together with its subsidiaries, the "**NetLink Group**") today reported its financial results for the period ended 30 June 2026 ("Q1 FY27").

RAB revenue remained stable with no significant changes compared to Q1 FY26. Total revenue for Q1 FY27 decreased by \$1.5 million year-on-year. This was mainly due to lower non-RAB revenue. Lower non-RAB revenue was mainly driven by lower installation-related revenue and partially offset by higher ancillary project revenue. EBITDA declined by \$2.8 million due to higher operating expenses. Profit After Tax (PAT) decreased by \$5.2 million, primarily due to higher depreciation arising from a larger asset base.

As at 30 June 2026, residential connections stood at 1,519,269, non-residential connections at 51,459, NBAP connections at 3,603, and Segment connections at 4,330. Gross additions for residential connections remained stable in Q1 FY27, while non-residential connections declined due to end-user churn between Requesting Licensees.
