***SINGAPORE, 2 November 2026:*** King Wan Corporation Limited (the "**Company**" and together with its subsidiaries, the "**Group**") (庆源企业) is pleased to announce that it has secured the following new mechanical and electrical (**"M&E"**) contracts worth approximately S$28.6 million during the period between July and October 2026:

- Design, supply and installation of plumbing, sanitary and gas works, and air-conditioning and mechanical ventilation system works for the proposed residential development (Total : 533 units) at Lentor Central;

- Design and build of air-conditioning and mechanical ventilation, engineered smoke control and building management system at 51 Tuas View Link; and

- Design, supply, delivery, installation, testing and commissioning of plumbing, sanitary and gas system for the proposed residential development (Total : 543 units) at River Valley Green.

Pursuant to the contracts, the projects are scheduled to be completed between 2028 and 2030.

These contracts are not expected to have any significant impact on the earnings per share or net tangible assets per share of the Group for the financial year ending 31 March 2027.

**– End –**

***About King Wan Corporation Limited (www.kingwan.com)***

**King Wan Corporation Limited (庆源企业)** is a Singapore-based integrated building services company with its core business in the provision of **Mechanical and Electrical (M&E)** engineering services for the building and construction industry. It also provides **rental of mobile chemical lavatories** and ancillary facilities for construction worksites as well as public and nation-wide public events.

Under its M&E business, it provides multi-disciplined M&E engineering services such as the design and installation of plumbing & sanitary systems, electricity distribution systems, fire protection, alarm systems, communications and security systems, and air-conditioning and mechanical ventilation systems for the building and construction industry. It also offers end-to-end, one-stop solutions, linking the digitalisation process with the recommended retrofitting, upgrading and optimisation works.

Besides its core business, it also maintains an investment portfolio comprising of business segments, namely

- **Property Development segment** – engages in the development, marketing sale and rental of residential and commercial properties in China and Thailand; and
- **Workers Dormitory Operations segment** – design, build and operate purpose-built workers' accommodation and related facilities.

The Group operates along with its subsidiaries and associates across Singapore, China and Thailand. It implements a multi-country, multi-industry portfolio strategy to diversify and broaden its revenue streams and better manage investment risks.
