Mercurius Capital Investment Limited (the "**Company**") is listed on the Catalist board of the Singapore Exchange Securities Trading Limited (the "**Singapore Exchange**" or "**SGX-ST**") and incorporated and domiciled in Singapore. The address of its registered office is 138 Robinson Road #26-03 Oxley Tower Singapore 068906.

These condensed interim consolidated financial statements as at and for the three months and twelve months ended 31 December 2022 comprise the Company and its subsidiaries (together referred to as the "**Group**").

The principal activities of the Company are property development and property investment. The principal activities of the subsidiary corporations are that of investment holding.

2. BASIS OF PREPARATION

The condensed interim financial statements for the financial year ended 31 December 2022 have been prepared in accordance with SFRS(I) 1-34 Interim Financial Reporting issued by the Accounting Standards Council Singapore. The condensed interim financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance of the Group since the last annual financial statements for the financial year ended 31 December 2021.

The accounting policies adopted are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s, except for the adoption of new and amended standards as set out in note 2.1.

The condensed interim financial statements are presented in Singapore dollar ("\$") which is the Company's functional currency and all values are rounded to the nearest thousand ('000) except otherwise indicated.

2.1 NEW AND AMENDED STANDARDS ADOPTED BY THE GROUP

A number of amendments to Standards have become applicable for the current reporting period. The Group did not have to change its accounting policies or make retrospective adjustments as a result of adopting those standards.

2.2 USE OF JUDGEMENTS AND ESTIMATES

In preparing the condensed interim financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 31 December 2021.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS (CONT'D)

2. SIGNIFICANT ACCOUNTING POLICIES (CONT'D))

2.2 USE OF JUDGEMENTS AND ESTIMATES (CONT'D)

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are as follows:

• Convertible loans

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities are as follows:

- Going concern
- Impairment of trade receivables
- Net realisable of inventories
- Acquisition of subsidiary: the fair value of the consideration transferred (including contingent consideration) and the fair value of the assets acquired and liabilities assumed, measured on a provisional basis

3. GOING CONCERN

During the financial year ended 31 December 2022, the Group has incurred a net loss of \$\$3,891,000 (2021: \$\$2,267,000). In addition, the Group and the Company are in net current liabilities of \$\$12,238,000 and \$\$5,462,000 respectively as at 31 December 2022 (31 December 2021: \$\$3,671,000 and \$\$3,631,000). These events or conditions indicate the existence of a material uncertainty which may cast significant doubt on the Group's and the Company's ability to continue as going concerns and discharge their liabilities in the ordinary course of business.

Nonetheless, the directors of the Company believe that the use of the going concern assumption in the preparation of the consolidated financial statements of the Group for the financial year ended 31 December 2022 is appropriate in view that the unrestricted available cash balances of the Group and the Company as at 31 December 2022 of S\$219,000 and S\$20,000 (31 December 2021: S\$842,000 and S\$840,000) respectively are considered to be sufficient to meet the Group's and the Company's obligations for the next twelve months from the end of the financial year ended 31 December 2022 after taking into consideration the following:

- An undertaking letter was obtained from a director, that he shall not demand payment of outstanding payables of \$\$300,000 (and any accrued interest) for the financial year ending 31 December 2023;
- The supplementary letter signed with all convertible loan holders in respect of convertible loan agreements amounting to \$\$3,300,000 that the convertible loan holders agreed to extend the maturity dates of their agreements to 13 June 2023, 23 June 2023 and 3 July 2023 respectively and the Company is negotiating with the convertible loan holders to extend the maturity dates of their agreements for another 12 months; and
- The ability of the Group and the Company to obtain additional funding through future placement of shares and/or convertible loans to settle/discharge their remaining current liabilities in the next twelve months from the end of financial year ended 31 December 2022.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS (CONT'D)

3. GOING CONCERN (CONT'D)

The ability of the Group and the Company to continue in operational existence in the foreseeable future and to meet their financial obligations as and when they fall due is dependent on the actions undertaken as disclosed above. In the event that the Group and the Company are unable to continue in operational existence in the foreseeable future, the Group and the Company may be unable to discharge their liabilities in the normal course of business and adjustments may have to be made to reflect the situation that assets may need to be realised other than in the amounts at which they are currently recorded in the statement of financial position. In addition, the Group and the Company may have to provide for further liabilities that may arise and to reclassify non-current assets and liabilities as current assets and liabilities respectively. The financial statements do not include any adjustments which may arise from these uncertainties.

4. SEASONAL OPERATIONS

The Group's businesses are not affected significantly by seasonal or cyclical factors during the financial period and financial year.

5. SEGMENT AND REVENUE INFORMATION

Pursuant to the extraordinary general meeting held by the Company on 26 April 2022, the Group has obtained the approval of the shareholders of the Company to diversify its business to include that of Songmart's groceries business. (B) Review of condensed interim financial statements of financial position

Current Assets

Current assets increased from S\$0.94 million as at 31 December 2021 to S\$8.43 million as at 31 December 2022, mainly due to the increase in inventories arising from Songmart's inventories and increase in trade and other receivables. Such increases in current assets were reduced by the decrease in cash and bank balances which decreased from S\$0.84 million as at 31 December 2021 to S\$0.22 million as at 31 December 2022.

For more details on the decrease in cash and bank balances from S\$0.84 million as at 31 December 2021 to S\$0.22 million as at 31 December 2022, please refer to the section on "Review of condensed interim consolidated statement of cash flows" below.

Non-current Assets

The increase in property, plant and equipment and right-of-use assets to S\$10.21 million and S\$3.54 million respectively as at 31 December 2022 as compared to 31 December 2021 was due to the consolidation of subsidiaries acquired and completed during the year.

Liabilities

Trade and other payables increased from S\$0.54 million as at 31 December 2021 to S\$15.52 million as at 31 December 2022, due to the consolidation of Songmart's trade and other payables arising from the business operations.

Current and non-current lease liabilities increased from S\$0.13 million and nil balance as at 31 December 2021 respectively to S\$0.79 million and S\$2.81 million as at 31 December 2022 respectively, due to the consolidation of Songmart's lease liabilities.

The increase in convertible loans from S\$3.94 million as at 31 December 2021 to S\$4.37 million as at 31 December 2022 was due to the increase in accrued interest payable on the convertible loans during the year.

Working Capital

The Group recorded a negative working capital of S\$12.24 million as at 31 December 2022, as compared to a negative working capital of S\$3.67 million as at 31 December 2021.

- An undertaking letter was obtained from a director, that he shall not demand payment of outstanding payables of S\$300,000 (and any accrued interest) for the financial year ending 31 December 2023;
- The supplementary letter signed with all convertible loan holders in respect of convertible loan agreements amounting to S\$3.30 million that the convertible loan holders agreed to extend the maturity date of the agreements to 13 June 2023, 23 June 2023 and 3 July 2023 respectively.

Equity

The Group's equity increased from S\$2.91 million as at 31 December 2021 to S\$11.17 million as at 31 December 2022 due mainly to the placement of ordinary shares in respect of the completion of acquisition of Songmart on 28 October 2022 and other comprehensive income amounting to S\$0.15 million, partially offset by the losses incurred amounting to S\$3.89 million during the year.

4. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

Not applicable.

5. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the Group operates and any known factors or events that may affect the Group in the next reporting period and the next 12 months.

2022 has been a challenging year and with the higher cost of living as well as the inflationary environment causing a change in consumer spending habits, this will continue to remain as a concern to the Group's operating environment and financial performance for the financial year ending 31 December 2023.

Despite views that the global economy will weaken in 2023 due to rising interest rates and slower growth, economists are more optimistic towards the global financial conditions¹ as compared to the outlook and forecasts made a few months ago.

<u>Malaysia</u>

Analysts and economists are positive as a unity government led by Pakatan Harapan (PH) will be able to bring Malaysia forward amid the anticipated recession, gaining the investors' confidence and trust of the business community.² The Prime Minister and Finance Minister Datuk Seri Anwar Ibrahim said Malaysia's gross domestic product (GDP) is poised to record a growth of approximately 4.5 per cent in 2023 backed by the nation's sound macroeconomic fundamentals robust domestic demand coupled with the effective implementation of the 12th Malaysia Plan.³

Groceries business

According to the Retail Group Malaysia's (RGM) November 2022 Malaysia Retail Industry Report, RGM forecasts a growth rate of 3.5% for the retail industry in 2023 and the biggest challenge for Malaysia's retail industry in 2023 will be the rising cost of living with higher retail prices which in turn lead to less money to buy non-essential goods and services.⁴ Consumers will be cautious with their spending due to a reduce in purchasing power attributed by the slowdown in economy.² Despite the changes in spending habits of the consumers, the Group's acquisition of Songmart has provided an opportunity for the Group to diversify into the more defensive grocery business in Malaysia. The Group will continue to focus its growth in the groceries business, to achieve a higher market share in the groceries business industry in Malaysia.

Singapore

Singapore's currency strength remains an advantage for the Group and the Group will continue to maintain its investment holding position in Singapore and to manage the regional markets in both Malaysia and Singapore.
