

**MEDIA RELEASE**

## **CNA Group's shares in Urbanise today publicly listed on ASX**

**Singapore, 22 September 2014:** Singapore Mainboard-listed Master System Integrator ("MSI"), CNA Group Ltd. ("CNA" or "the Group"), a long standing shareholder in Australian Urbanise.com Ltd ("Urbanise"), is pleased to announce that Urbanise has debuted its trading today on the Australian Securities Exchange ("ASX"). CNA holds a 4.7% shareholding (not inclusive of options) in Urbanise after its Initial Public Offering ("IPO").

Mr Michael Ong, CNA's Group CEO and President commented: ***"We would like to commend the efforts of the management of Urbanise who have excelled in positioning the company for this milestone event. We believe that this IPO will help propel the growth of Urbanise in the smart-cities market as they continue to expand their customer base, enhance existing offerings, and expand internationally, all of which would ultimately benefit us as well."***

Urbanise delivers industry-specific cloud-based solutions – including data, software, and services – to the global Facility Management Industry and is the first cloud-based platform designed specifically for delivering services to buildings. It has successfully launched its Industry Cloud Platform for the facilities management market segment and over the last three years, Urbanise's cloud-based building service delivery platform has been integrated into some of the world's tallest towers and adopted by some of the most prestigious communities. They are currently servicing more than 45,000 households around the globe – from The Palm Island in Dubai to Medini Iskandar Smart City in Malaysia.

As a MSI in the market of smart-buildings and cities, CNA formed a strategic partnership with Urbanise in December 2009, to deliver intelligent building management solutions to the rapidly expanding global smart-cities market. Together with Pierce Group Asia and Cisco Systems, CNA has been a long-standing shareholder in Urbanise for the last four years. Based on the closing market price of A\$0.70 on the ASX today, CNA's holding in Urbanise is worth more than A\$7.1 million (S\$8.1 million), representing a potential gain on investment by CNA of approximately S\$6 million.

## **About Urbanise.com Ltd**

Urbanise.com Ltd (“Urbanise”) is the first cloud-based platform designed specifically for delivering services to buildings. We transform the traditional engineering approach to building operations and maintenance into a dynamic online experience; improving customer service, removing operational cost and enabling new revenue streams that Building Operators never believed possible.

Facility Managers, Property Managers, Corporate Real Estate Owners and Utilities and Telcos all use Urbanise to extend and enhance the range of services they deliver. Integrated into the world’s largest towers and adopted by the most prestigious communities, Urbanise is changing the way services are provided to buildings and the people who live or work in them. ## **About CNA Group Ltd.**

Incorporated in 1990, CNA Group Ltd. (“CNA”) is an award-winning specialist in the provision, design, implementation and maintenance of open, integrated building and facility management solutions that can integrate and control a diverse range of mechanical, electrical, security and climate control systems within a building or facility.

CNA’s service and products portfolio focuses on both information communication technology (“ICT”) and Mechanical, Electrical and Plumbing (“MEP”) solutions intended to address newly emerging demands of sustainability, energy management, renewable energy and low carbon emission technologies. The Group also provides system maintenance and value-enhancement services and the sale of environmental control and engineering products.

Additionally, CNA is in the fast-growing industrial wastewater treatment sector in China through its Dongying wastewater plant and concession agreement with the Dongying Economic and Technological Development Zone of Dongying City, Shandong Province, China.

Headquartered in Singapore, CNA has direct presence in many countries in Asia and the Middle East. The Group serves an impressive list of customers in Singapore, Malaysia, Myanmar, Philippines, Thailand, India, China, Vietnam, Dubai having implemented a broad range of projects for commercial and government buildings, educational institutes, residential developments, semiconductor wafer fabs, pharmaceutical plants, other industrial manufacturing facilities, wastewater treatment facilities, and aviation and transportation infrastructure.
