2Q2016 compared to 2Q2015

Revenue

For the second quarter ended 30 September 2015 ("**2Q2016**"), the Group registered \$31.31 million in revenue as compared to \$16.58 million in the previous corresponding quarter ended 30 September 2014 ("**2Q2015**"). The increase was approximately \$14.73 million or 88.8%.

Food catering business revenue increased by \$3.73 million or 31.1% from \$12.02 million in 2Q2015 to \$15.76 million in 2Q2016. The increase was mainly attributable to effective marketing efforts of broadcast and print advertising, as well as promotions introduced to celebrate SG50 during 2Q2016.

Food retail business revenue increased marginally by \$0.05 million or 1.1% from \$4.46 million in 2Q2015 to \$4.51 million in 2Q2016. This was mainly attributable to the operating challenges in the F&B sector as well as the increasing variety of food choices in the Singapore market. The recent cases relating to infection of the Group B Streptococcus (GBS) bacteria and the prolonged spell of haze led to a drop in footfalls on the Group's outlets. However, this was partially mitigated by the growth in the delivery sales.

Food manufacturing business also contributed revenue of \$11.50 million in 2Q2016.

Other income

Other income was \$0.39 million in 2Q2016 as compared to \$0.80 million in 2Q2015. Other income decreased by \$0.41 million or 51.4% which mainly arose from a gain on disposal of property in 2Q2015 which did not recur.

Purchases and consumables used

Purchases and consumables used increased by \$7.20 million or 135.9% to \$12.51 million in 2Q2016 from \$5.31 million in 2Q2015. The increase was mainly due to the consolidation of costs incurred by the Group's newly acquired food manufacturing business.

The increase in food catering business's purchases and consumables used was generally in line with the increase in its revenue.

Delivery expenses

Delivery expenses increased by \$0.49 million or 100.4% to \$0.99 million in 2Q2016 as compared to \$0.50 million in 2Q2015. The increase was mainly due to the consolidation of logistics expenses incurred by the Group's newly acquired food manufacturing business.

Employee benefits expense

Employee benefits expense increased by \$3.85 million or 71.6% to \$9.22 million in 2Q2016 as compared to \$5.37 million in 2Q2015. This was mainly due to the consolidation of employee benefits expense from the Group's newly acquired food manufacturing business.

Depreciation and amortisation expenses

Depreciation and amortisation expenses increased by \$0.72 million or 79.0% from \$0.91 million in 2Q2015 to \$1.63 million in 2Q2016. This was mainly attributable to the additions on renovation for leasehold properties at Enterprise Road and the acquisition of plant and machinery during 2Q2016.

Advertising expenses

Advertising expenses increased by \$1.16 million or 176.3% from \$0.65 million in 2Q2015 to \$1.81 million in 2Q2016. This was mainly due to expenses incurred for the various marketing promotional tools used to create a constant interaction with the targeted customers during 2Q2016.

Operating lease expenses

Operating lease expenses increased by \$0.59 million or 51.4% from \$1.14 million in 2Q2015 to \$1.73 million in 2Q2016. This was mainly due to the expenses incurred by the Group's newly acquired food manufacturing business.

Utilities

Utilities increased by approximately \$0.83 million or 254.4% from \$0.33 million in 2Q2015 to \$1.16 million in 2Q2016. The increase was mainly due to higher electricity tariff contract which was committed by the Group's newly acquired food manufacturing business.

Other expenses and finance costs

Other expenses increased by \$1.11 million or 85.5% from \$1.30 million in 2Q2015 to \$2.41 million in 2Q2016. This was largely attributable to the increase in professional and legal fees, courses and training expenses, credit card charges, low value assets items expensed off, IT expenses and the expenses incurred by the Group's newly acquired food manufacturing business.

Finance costs increased by approximately \$0.37 million or 387.2% from \$0.09 million in 2Q2015 to \$0.46 million in 2Q2016 mainly due to the increase in working capital loan to refinance the Group's newly acquired food manufacturing business with a cheaper bridging loan, and to fund the purchase of materials and consumables in 2Q2016.

The Group's profit before income tax decreased by \$1.90 million from a profit of \$1.91 million in 2Q2015 to \$8,000 in 2Q2016. However, this was partially mitigated by the growth in the delivery sales.

Food manufacturing business also contributed revenue of \$15.04 million in 1H2016.

Other income

expenses, consolidation of results from the Group's newly acquired food manufacturing business, as well as the weak performance in the food retail business.

Income tax expense

The income tax expense of the Group increased by \$0.05 million or 15.0% from \$0.39 million in 1H2015 to \$0.44 million in 1H2016 primarily due to the Group's profitable businesses which was not offset by the other loss-making segments.

Loss for the financial period

As a result of the above, the food catering business remained profitable. However, the losses at the Group's newly acquired food manufacturing business and the weak performance in the food retail business impacted the Group's bottom line negatively. The Group will continue to integrate the Group's newly acquired food manufacturing business and works towards enhancing the value creations to enhance the stakeholder's value.

The Group's profit attributable to the owners of the parent decreased by \$1.13 million from \$1.40 million in 1H2015 to \$0.27 million in 1H2016, while the net loss attributable to non-controlling interests was \$0.47 million.

8(b) Statement of Financial Position

Non-current assets

The Group's non-current assets increased substantially by \$28.86 million from \$38.31 million as at 31 March 2015 to \$67.17 million as at 30 September 2015 primarily due to Thong Siek Acquisition of \$22.03 million and recognition of goodwill from Thong Siek Acquisition's of \$6.75 million.

Current assets

The Group's current assets increased by \$14.64 million from \$15.35 million as at 31 March 2015 to \$29.99 million as at 30 September 2015. The Group's inventories increased by approximately \$4.48 million due to the higher inventory held in both the food and catering supplies business and the food manufacturing business. The increase in trade and other receivables of approximately \$9.57 million was mainly due to the longer credit terms granted to customers from the food manufacturing business. Cash and cash equivalents increased by \$0.56 million.

The Group's assets classified as held for sale with a total carrying amount of \$0.79 million was disposed to a third party in April 2015 for cash consideration of \$1.46 million.

Current liabilities

The Group's current liabilities increased by \$28.05 million from \$14.56 million as at 31 March 2015 to \$42.61 million as at 31 March 2015. This was mainly attributable to an increase of \$18.55 million in current bank borrowings due to drawdown of a term loan to finance Thong Siek Acquisition and plant and machinery purchased an increase of \$9.62 million in trade and other payables as well as an increase of \$0.15 million in finance lease payables. Current income tax payable decreased by approximately \$0.28 million due to payment of prior year provision of income tax.

Non-current liabilities

The Group's non-current liabilities increased by \$12.41 million from \$15.71 million as at 31 March 2015 to \$28.12 million as at 30 September 2015 primarily due to the drawdown of an acquisition loan to finance Thong Siek Acquisition, finance lease to acquire the motor vehicles, and plant and machinery during 1H2016.

Tel: 6896 7757 Fax: 6515 0421 www.neogroup.com.sg Registration No.: 201207080G

As at 30 September 2015, the Group was in a net current liability position of \$12.61 million mainly due to the effects of the Thong Siek Acquisition.

The Group had incurred short-term bank borrowings of \$5.73 million to refinance the Thong Siek's working capital loan, and the Group had drawn down additional working capital loan to fund the materials purchases. The Group was impacted by the higher working capital requirements of the Thong Siek Group, particularly the level of inventories required to be maintained and the collection period of receivables as compared to the payment period of payables which resulted in the Group incurring overall negative cash flows from its operating activities in 1H2016.

The Directors intend to tighten financial management of the Group, with a view to reduce gearing and improve the Group's overall financial position. In this regard, the Group intends to / is exploring opportunities to dispose certain of its non-core properties to raise cash proceeds for repayment of its bank borrowings.

Taking into consideration the Group's intended disposal of certain of its properties and based on the Group's internal budget and cash flows planning], the Directors believe that the Group will be able to meet its short-term obligations as and when they fall due. Barring unforeseen circumstances, the Directors further believe that the Group's negative working capital position as at 30 September 2015 will be overcome in the longer term as the Group realises the benefits of the Thong Siek Acquisition.

8(c) Consolidated Statement of Cash Flows

The Group's net cash flows used in operating activities of \$1.30 million during 1H2016 mainly due to operating cash flows before working capital changes of \$3.16 million and a net working capital outflow of \$3.74 million, and payment of income taxes of \$0.72 million.

The increase in net working capital was mainly due to the increase in inventories of approximately \$0.66 million and the increase in trade and other receivables of \$3.13 million, a decrease in prepayment of approximately \$0.19 million and the decrease in trade and other payables of approximately \$0.14 million.

The Group's net cash flows used in investing activities of \$7.32 million during 1H2016 were mainly attributable to Thong Siek Acquisition of \$6.55 million, acquisition of plant and equipment of \$3.29 million and capital expenditure on accounting software of \$0.02 million, which is netted with proceeds from disposal of property, plant and equipment.

The Group's net cash flows used in financing activities of \$9.19 million during 1H2016 were mainly due to the drawdown from bank borrowing of \$23.80 million, repayment of bank borrowings and finance lease payables of \$12.49 million, dividends payment of \$1.52 million and interest payment of \$0.61 million.

As a result of the above, the net decrease in cash and cash equivalents during 1H2016 was \$0.56 million.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The outlook of the industry which the Group operates in is expected to be challenging in the next 12 months due to slower economic growth and this could translate into weaker purchasing power, rising manpower costs, raw material costs and rental costs from the retail outlets.

The Food Catering Business remains focused on executing its core strategies to grow through better product offerings and customer's experience to drive revenue growth and profit margin, including better manpower and materials cost control.

The Food Retail Business continues to work hard to manage the challenging operating conditions due to stiff competition, tight labour market and rising material cost.

The Group aims to achieve back-end integration and synergy with Thong Siek Acquisition with a view of achieving value creation through productivity enhancement, new market developments, procurement efficiencies and economies of scale.

The Group would continue to look for suitable acquisitions, joint ventures and strategic alliances that complement its suite of capabilities to strengthen its value chain and solidify its market leadership position in Singapore.

Barring unforeseen circumstances and subject to the Group being able to successfully execute the integration of its new acquisitions, the Group is expected to be profitable for the full financial year ending 31 March 2016.
