CAPITAL INJECTION INTO MASIRAH OIL LTD

The Board of Directors (the “**Board**”) of Rex International Holding Limited (the “**Company**” or “**Rex**”, and together with its subsidiaries, the “**Group**”) wishes to inform that Rex Oman Ltd (“**Rex Oman**”), an indirect wholly-owned subsidiary of the Company, had on 16 March 2016, been informed by Masirah Oil Ltd (“**MOL**”) of the completion of the allocation made on 7 March 2016, of Rex Oman’s subscription of 3,908 new MOL shares at USD 1,426 per share, for a total amount of USD 5,572,808, as capital injection into MOL (“**Capital Injection**”). Prior to the Capital Injection, Rex has an effective interest of 61.76% in MOL through direct interests of 57.06% and 6.4% in MOL held respectively by Rex Oman and Lime Petroleum Plc (“**Lime**”), the Company’s 65% indirectly held jointly-controlled entity.

MOL issued 4,000 new shares at USD 1,426 per share to raise an aggregate amount of USD 5,704,000. The remaining new MOL shares were subscribed by Petroci, an existing shareholder of MOL. The MOL subscription was open to all shareholders of MOL of which only Petroci and Rex Oman decided to participate.

The Capital Injection was necessary to allow MOL to pursue its drilling activities and continue its operations in Oman, as well as for general working capital requirements; and was fully satisfied in cash by Rex Oman and fully funded by proceeds raised from the Company’s share placement which was completed in September 2014 (the “**2014 Placement**”). Details on the use of proceeds from the 2014 Placement are contained in a separate announcement made today.

The issue price of USD 1,426 per MOL share was arrived at on a willing seller willing buyer basis, taking into consideration MOL’s unaudited net assets value/net tangible asset value of USD 88.7 million as at 31 December 2015 and its growth potential, given that it is the operator and 100% owner of the Block 50 Oman concession, which is further elaborated in the ensuing paragraph. MOL has in February 2016, started a drilling campaign in the Block 50 Oman concession.

The Board considers the Capital Injection to be in the interest of and beneficial to the Group as MOL is the operator and holds 100% ownership in the close to 17,000 sq km Block 50 Oman concession, which has been identified as one of the Group’s main focus going forward. The Board is of the view that MOL has high potential for growth, as the discovery made in the concession in early 2014 was the first offshore discovery east of Oman, after 30 years of exploration activity in the area. During a 48-hour test, hydrocarbons were flowed to the surface and the well achieved light oil flow rate of up to 3,000 stock tank barrels per day (stb/d) with no water production.

Pursuant to the completion of the Capital Injection, Rex Oman now holds 9,668 MOL shares, representing approximately 69.06% direct interest in the enlarged issued and paid-up share capital of MOL. Lime and Petroci hold the remaining 4.57% and 26.37% interest in the enlarged issued and paid-

up share capital of MOL, respectively. Accordingly, the Group's effective interest in MOL has increased from approximately 61.76% to 72.03%.
