- This presentation may contain forward-looking statements that involve assumptions, risks and uncertainties. Actual future performance, outcomes and results may differ materially from those expressed in forward-looking statements as a result of a number of risks, uncertainties and assumptions. Representative examples of these factors include (without limitation) general industry and economic conditions, interest rate trends, cost of capital and capital availability, competition from similar developments, shifts in expected levels of property rental income and occupancy, changes in operating expenses, including employee wages, benefits and training, property expenses and governmental and public policy changes and the continued availability of financing in the amounts and the terms necessary to support Ascendas Reit’s future business. Investors are cautioned not to place undue reliance on these forward-looking statements, which are based on the Manager’s current view on future events.
- The value of Units in Ascendas Reit (“Units”) and the income derived from them, if any, may fall as well as rise.
