E. NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

These notes form an integral part of the condensed interim consolidated financial statements.

1. Domicile and activities

Aedge Group Limited (the “Company”) is a company incorporated in the Republic of Singapore on 3 October 2019 under the name Aedge Group Pte Ltd. The Company was converted to a public limited company on 24 March 2020 and the name of the Company was changed to Aedge Group Limited in connection therewith. The address of the Company’s registered office is Block 4009 Ang Mo Kio Avenue 10, Tech Place I #04-33, Singapore 569738.

The financial statements of the Group as at and for the six months ended 31 December 2021 comprise the Company and its subsidiaries (together referred to as the “Group” and individually as “Group entities”).

The immediate and ultimate holding company is PTCC Holdings Pte. Ltd., a company incorporated in the Republic of Singapore.

The principal activities of the Company are those of investment holding. The principal activities of the Group consist of provision of engineering services, transportation services, cleaning services, security and manpower services.

2. Basis of preparation

2.1 Statement of compliance

The condensed interim consolidated financial statements as at and for the six months ended 31 December 2021 have been prepared in accordance with SFRS(I) 1-34 *Interim Financial Reporting* issued by the Accounting Standards Council Singapore. The condensed interim consolidated financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group’s financial position and performance of the Group since the last consolidated financial statements for the year ended 30 June 2021.

The accounting policies adopted are consistent with those of the previous financial year which were prepared in accordance with SFRS(I), except for the adoption of new and amended standards as set out in Note 4.

These condensed interim consolidated financial statements have been prepared on the historical cost basis except as otherwise described in the notes below.

These condensed interim consolidated financial statements are presented in Singapore dollars, which is the Company’s functional currency. The financial information has been rounded to the nearest thousand, unless otherwise stated.

2.2 Use of estimates and judgements

The preparation of the condensed interim consolidated financial statements in conformity with SFRS(I)s requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those applied to the consolidated financial statements as at and for the year ended 30 June 2021.

Measurement of fair values

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values. The finance team has overall responsibility for all significant fair value measurements, including Level 3 fair values, and reports directly to the Chief Financial Officer.

When measuring the fair value of an asset or a liability, the Group uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- *Level 1:* quoted prices (unadjusted) in active markets for identical assets or liabilities.
- *Level 2:* inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- *Level 3:* inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement (with Level 3 being the lowest).

The Group recognises transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change has occurred.

3. Seasonal operations

The Group's businesses are not affected significantly by seasonal or cyclical factors during the financial period.

4. New and amended standards adopted by the Group

A number of amendments to standards have become applicable for the current reporting period. The Group did not have to change its accounting policies or make retrospective adjustments as a result of adopting those standards.

5. Property, plant and equipment

During the six months ended 31 December 2021, the Group acquired assets amounting to approximately \$458,000 (31 December 2020: \$168,000) and disposed of assets with a net book value amounting to approximately \$148,000 (31 December 2020: \$54,000).

16. **Operating segments**

The Group has the following three strategic divisions, which are its reportable segments. These divisions offer different services, and are managed separately. The Group's Chief Executive Officer (the chief operating decision maker) reviews internal management reports of each division at least quarterly. The following summary describes the operations in each of the Group's reportable segments:

- **Engineering services**

Sales and installation of scaffolding equipment, insulation and passive fire protection systems. Provision of workers on contract or ad-hoc basis for engineering services.

- **Transportation services**

Provision of bus services for public premium service routes, schools, corporates and ad hoc charters.

- **Security and manpower services**

Provision of security services, cleaning services, manpower staffing for aviation technicians.

- **Others**

Others relate to unallocated amounts that includes provision of management, treasury and administrative services.

Information regarding the results of each reportable segment is included below. Performance is measured based on segment profit (loss) before tax, as included in the internal management reports that are reviewed by the Group's CEO. Segment profit (loss) is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries.

A. Consolidated Statement of Comprehensive Income (1H FY2022 vs 1 H FY2021)

(1) Revenue:

Total revenue increased by \$1.16 million or 13.8% from \$8.41 million in 1H FY2021 to \$9.57 million in 1H FY2022. The increase was mainly due to higher revenue from engineering services, and security and manpower services. This was offset by a decrease in revenue from transportation services.

Increase in engineering services revenue was due to more contracts being completed in 1H FY2022. Increase in security and manpower services revenue was due to more contracts secured in security services. Transportation services continued to be affected by the COVID-19 situation with a low utilisation rate of buses.

(2) Cost of Sales:

Cost of sales increased by \$0.99 million or 13.5% from \$7.31 million in 1H FY2021 to \$8.30 million in 1H FY2022. The increase was due to corresponding increase in revenue from engineering services, security and manpower services.

(3) Gross Profit:

Due to the increase in revenue, gross profit increased correspondingly by \$0.17 million or 15.2% from \$1.10 million in 1H FY2021 to \$1.27 million in 1H FY2022. Overall gross profit margins remained largely unchanged.

(4) Other Income:

Other Income decreased from \$1.89 million in 1H FY2021 to \$0.93 million in 1H FY2022. There were lower government grants received mainly due to the ending of the Job Support Scheme.

(5) Administrative Expenses:

Decrease in administrative expenses was mainly due to IPO expenses of \$1.22 million which was recognized in 1H FY2021. This was offset by increased staff costs and continuous listing expenses in 1H FY2022.

(6) Other Expenses:

Increase in other expenses was mainly due to higher losses on disposal of scaffolding assets, as well as depreciation charges for new purchases of plant and equipment.

(7) Finance Costs:

Decrease in finance costs was mainly due to lower interest costs for lease liabilities, which was due to lower outstanding principal amounts.

B. Consolidated Statement of Financial Position as at 31 December 2021

(1) Non-Current Assets:

Non-current assets decreased to \$10.31 million as at 31 December 2021 from \$11.18 million as at 30 June 2021, mainly due to depreciation of property, plant and equipment, offset by new purchases.

(2) Current Assets:

Current assets decreased to \$12.38 million as at 31 December 2021 from \$14.83 million as at 30 June 2021. This was mainly due to decrease in cash and cash equivalent, and decrease in trade receivables. Decrease in cash and equivalent was mainly due to payment of dividends, and repayment of bank loans.

(3) Non-Current Liabilities:

Non-current liabilities decreased to \$1.99 million as at 31 December 2021 from \$2.38 million as at 30 June 2021. This was mainly due to decrease in non-current lease liabilities.

(4) Current Liabilities:

Current liabilities decreased to \$5.49 million at 31 December 2021 from \$6.98 million as at 30 June 2021, mainly due to decrease in loans and borrowings, lease liabilities, and trade and other payables.

Decreases in loans and borrowings, and lease liabilities were due to instalment repayments. Decrease in other payables was mainly due to deferred income at 30 June 2021 being recognised in 1H FY2022.

C. Consolidated Statement of Cash Flows (1H FY2022)

(1) Net cash generated from operating activities in 1H FY2022 amounted to \$0.9 million. This was mainly due to a positive operating cash flow before working capital changes of \$0.95 million. Net working capital changes amounted to approximately \$13,000 mainly due to offsetting decreases in both trade receivables and trade payables.

(2) Net cash used in investing activities in 1H FY2022 amounted to \$0.38 million. This was mainly due to acquisition of property, plant and equipment.

(3) Net cash used in financing activities in 1H FY2022 amounted to \$2.13 million. This was mainly due to payment of lease liabilities, repayment of loans and borrowings, and payment of dividends.

5. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

In the full year FY2021 results announced on 27 August 2021, it was stated that “the Group results will continue to be affected by the impact caused by the prolonged COVID-19 situation” and that “the overall economic condition is not expected to recover fully, and the Group expects that all its business segments shall continue to be adversely affected.”

The results for the six months ended 31 December 2021 are in line with the above statements.

6. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any know factors or events that may affect the group in the next reporting period and the next 12 months.

The overall economic condition continues to be affected by the COVID-19 situation. Just as the situation seems to be improving, the new variant, Omicron, has impeded economic recovery. The Singapore government's plans to move towards treating COVID-19 as an endemic disease, lifting various restrictions in phases, and gradually opening the economy, will help to improve the economic situation in the coming months.

Against this background, the Group expects its business performance to improve gradually. Our engineering services segment, and our security and manpower service segments are expected to see slight improved results. However, contribution from the transportation services segment is not expected to be favorable, due to the prevalent low utilization rate of buses.

Grants from the Singapore government is also tapering off, with schemes such as the Jobs Support Scheme, ending. Thus, we expect our other income to be reduced significantly.

Operating within this current challenging and uncertain environment, the Group remains focused on its efforts to ride on any improvements in the economic situation, and to improve on its results.

7. Dividend Information

(a) Whether an interim (final) ordinary dividend has been declared (recommended):

No dividend has been recommended.

(b) (i) Amount per share: Not applicable

(ii) Previous corresponding period: not applicable, Company was listed on 14 December 2020

(c) Whether the dividend is before tax, net of tax or tax exempt. If before tax or net of tax, state the tax rate and the country where the dividend is derived. (If the dividend is not taxable in the hands of shareholders, this must be stated).
