

# **Corporate Profile**

Hu An Cable Holdings Ltd. ("Hu An Cable" or the "Company") and its subsidiaries (collectively, the "Group") is among the top 10 wire and cable manufacturers in China. It is principally engaged in the manufacture and sale of various electrical wires and cables under two brands - ShenHuan (申环) and Hu'an (沪安).

With its products widely used in the power generation, power distribution, railway transportation and construction sectors, Hu An Cable is one of the few approved suppliers to various state-owned enterprises such as State Grid Corporation of China (国家电网), China Southern Power Grid (中国南方电 网), China Guodian Corporation (中国国 电集团公司), China Huadian Corporation (中国华电集团公司), China Power Investment Corporation (中国电力投资 集团公司), China Petroleum & Chemical Corporation (中国石油化工股份有限公司), China National Petroleum Corporation (中国石油天然气集团公司), China Railway Group (中国中铁股份有限公司), etc.

The Group is strategically located in Yixing, Jiangsu, otherwise known as the largest wire and cable hub of China. Hu An Cable's production facilities are fully integrated to support the whole production process from copper/ aluminum smelting to insulation materials processing and finished products of cables and wires.

In November 2012, Hu An Cable set up a new wholly owned subsidiary, Hu An Electric (Singapore) Pte Ltd. ("HAE") in Singapore. HAE is mainly engaged in the sale of wires and cables to the high-growth markets in Southeast Asia, Central Asia, South America, Africa and Middle East. Riding on the new wave of developments in Southeast Asian countries, we have accumulated good clientele from places such as Singapore, Indonesia, Philippines, and Vietnam.

Hu An Cable sells over 18,000 types of products under three categories -(i) cables and wires, (ii) copper rods, and (iii) aluminum rods and plastic cable materials, with a sales mix of about 82.4%:12.4%:5.2% respectively for the year 2013.

The Group currently has an annual production capacity of about 344,600km of cables and wires, among which 33,000km is for mid voltage (6Kv-35Kv) power cables and 3,500km is for high voltage (110Kv-220Kv) power cables, as well as 12,380 pieces of cable accessories. The Group has commenced trial run of two production lines for ultra-high voltage (220Kv-500Kv) power cables in the second half of year 2013.

The Group's production facilities for copper rods, the key raw material for producing cables and wires, include one vertical copper melting furnace production line with an annual production capacity of 75,000 tons.

Hu An Cable has been committed to R&D of new products and materials and improvement in product quality to meet stringent customer requirements. As a testament, the Group's products have been certified by various international standard bodies such as the International Electrotechnical Commission ("IEC"), the Prufstelle Testing and Certification Institute ("VDE") and the Lloyd's Register. Hu An Cable is also accredited by the Conformity Assessment Services Co Ltd (中国检验认证集团质量认证有限公司) with ISO10012:2003, ISO 9001:2008 and ISO14001:2004. In April 2008, Hu An Cable's ShenHuan brand was awarded the "China Renowned Trademark" (中国 驰名商标) by The State Administration for Industry and Commerce of the People's Republic of China (国家工商行政管理总 局).

Hu An Cable was listed on the Mainboard of the Singapore Exchange on 8 February 2010 and was subsequently dual listed

# **Chairman's Statement**

"Riding on China's intention for rapid urbanisation, we devote our investments in R&D for higher grade cables and wires to better position ourselves as a quality brand name in the increasingly competitive market."

## DEAR SHAREHOLDERS,

On behalf of the Board of Directors, I am pleased to present to you the Annual Report for the financial year ended 31 December 2013 ("FY2013")

#### THE YEAR IN REVIEW

The beginning of 2013 was challenging for the Chinese power cable industry as China's modest economic growth weighed heavily on national electricity consumption, adversely impacting investment in power infrastructure. The environment gradually picked up with China placing emphasis on the construction and upgrading of national power infrastructure to encourage rapid urbanization.

Our revenue for FY2013 grew 27.3% from RMB2.2 billion to RMB2.8 billion with our gross profit margin increasing 1.7 percentage points to 15.8%. This is mainly attributable to an increase in sales of cables and wires, which has higher profit margins as compared to our other business segments. Nevertheless, our net profit shrank 18.8% to RMB62.6 million due mainly to the increase in allowance for doubtful debt and research and developments ("**R&D**") expenses.

Over the past year, we have enhanced our relationships with large state-owned enterprises ("SOE") through our new high-end products like high/ultra-high voltage power cables. As

China continues on its path of urbanisation, market demand for power cable will increase alongside new power distribution and transmission network projects. With the rising living standard in the Chinese market, quality of products is being increasingly emphasized. Thus, we see the importance in investing in R&D to improve our market competitiveness with higher-end products.

# LAUNCH OF NEW PRODUCTS AND PRODUCTION FACILITIES

We believe in marking our presence in that market through quality products and forward R&D. In order to keep up with the ever-evolving market demands in China, we have put in much effort into improving our R&D. In 2013, we have obtained 10 new patents and developed 38 new products.

With the completion of our new plant, the Group's power cable production capacity especially in mid-to-high end products had increased by 66,000km or 24.0%. The Group currently has an annual production capacity of about 344,600km of cables and wires, among which 33,000km is for mid voltage (6Kv-35Kv) power cables and 3,500km is for high voltage (110Kv-220Kv) power cables, as well as 12,380 pieces of cable accessories. The Group has commenced trial run of two production lines for ultra-high voltage (220Kv-500Kv) power cables in 2H2013.

According to China's 12th five-year plan, total countrywide investment in the energy and power sector is slated to exceed RMB5.0 trillion by 2015. Equipped with higher production capacity and a wider product range, we believe our new plant has the resources and capability to ride on the higher growth of China's power and cable sector.

### **OVERSEAS EXPANSION**

Leveraging on our overseas listing status, we have received much interest from the overseas markets. Since the opening of our Singapore sales office, we have invested sales and marketing efforts in promoting our brand presence in high-growth economies in regions such as Southeast Asia, Central Asia, South America, Africa, and the Middle East. In 2013, we have accumulated a growing clientele from Southeast Asia, with business partners in Singapore, Indonesia, Vietnam, Philippines and etc.

We are optimistic about the demand for power supply infrastructure induced by rapid developments in these countries.

### RETENTION FOR FUTURE GROWTH

Given the opportunities available for growth and the Group's expansion plans, the Board of Directors decided to refrain from issuing dividends for FY2013. We believe the ultimate benefit from our investments in business expansion will start to flow in shortly and hope to reward shareholders for their support when it comes to fruition.

#### **APPRECIATION**

On behalf of the Board, I would like to extend my utmost appreciation to our management and staff, shareholders, business partners and customers for their dedication and commitment. Without your professionalism and loyalty, the Group would not be able to achieve what it has done so far. We will continue to put in our best efforts to deliver value to all our stakeholders.

Yours faithfully,
Dai Zhi Xiang
CEO and Executive Chairman

SCT remains a wholly-owned subsidiary of the Company.

# **Business Review**

### **OPERATIONS REVIEW**

### **CABLES & WIRES**

The Group's revenue from the cables & wires business segment increased 52.5% year-on-year ("yoy") to RMB2.3 billion. Sales volume of wire products and cable products increased 42.3% and 41.7% respectively to 53,562.5 km and 59,828.0km.

China's demand for wire and cable products has been on a rise since its urbanization process requires for more development of energy and power infrastructures. As a result, our new plant, which focuses on mid-to-high end products, contributed additional sales of RMB412.1 million. The sales from low and mid voltage power cables increased by RMB374.6 million. Overseas sales from our Singapore trading company further contributed RMB14.2 million.

This segment remains our main revenue contributor and accounted for 82.4% of the Group's revenue for FY2013.

#### COPPER RODS

Revenue from copper rods business segment decreased 25.7% yoy to RMB348.7 million as compared to last year.

To better utilize convenience and benefits of in-house production, the Group produced copper rods mainly for internal consumption for FY2013. Revenue contribution from this segment fell from 21.2% for FY2012 to 12.4% for FY2013.

# ALUMINUM RODS AND PLASTIC CABLE MATERIALS

Revenue from aluminum rods and plastic cable materials segment decreased 33.5% yoy to RMB147.9 million and accounted for 5.2% of the Group's revenue.

# **Business Review**

#### FINANCIAL REVIEW

#### FINANCIAL PERFORMANCE

The Group's overall sales increased 27.3% yoy from RMB2.2 billion for FY2012 to RMB2.8 billion for FY2013.

Sales mix for FY2013 further skewed towards high-margin cables and wires segment with a higher contribution of 82.4% for FY2013 as compared to 68.8% for FY2012. Sales contribution from copper rods fell from 21.2% for FY2012 to 12.4% for FY2013. Similarly, sales contribution from the aluminum rods and plastic cables materials decreased from 10.0% for FY2012 to 5.2% for FY2013.

The Group's gross profit rose 42.7% from RMB312.1 million to RMB445.4 million. Due to a favourable shift in product mix towards higher-margin cables and wires, the Group's gross profit margin improved from 14.1% to 15.8% for FY2013.

In 2013, the Group has delegated more investment in research and development activities to improve market competitiveness through high-end products. Consequently, its administrative and other expenses increased by 132.9% to RMB197.0 million for FY2013.

Finance expenses went up by 23.8% to RMB86.7 million for FY2013 mainly due to higher interest expenses from higher borrowing to meet more working capital requirements in the cables and wires business segment. More funding is required to facilitate higher sales of cables and wires to match the higher production capacity.

As a result of the above factors, the Group's net profit attributable to equity holders fell by 18.8% from RMB77.1 million for FY2012 to RMB62.6 million for FY2013.

### CASH FLOW MANAGEMENT

In tandem with the Group's top-line revenue performance, its operating profit before changes in working capital increased 24.5% yoy to RMB218.5 million for FY2013 (FY2012: RMB175.5 million).

Negative operating cash flow was mainly due to the increase in trade receivables, which was in line with the increased sales of cables and wires. The Group's working capital turnover days remained as 90 days in FY2013.

The Group generated net financing cash flow of RMB282.0 million through obtaining additional bank loans and a financial lease and issuing new ordinary shares in the second quarter.

The net cash of RMB47.6 million was used for investing activities such as the construction of new plant and purchases of machinery and equipment in FY2013.

As a result, cash and cash equivalents increased from RMB234.1 million as at 31 December 2012 to RMB273.1 million.

### FINANCIAL POSITION

The Group's shareholders' equity improved 13.1% to RMB1,310.0 million as at 31 December 2013, from RMB1,158.5 million as at 31 December 2012.

Net asset value per share decreased to RMB129.5 cents as at 31 December 2013, from RMB134.5 cents as at 31 December 2012, mainly due to an issuance of 150.0 million new shares in April 2013.

The Group's total liabilities were kept as 56.4% of its total assets as at 31 December 2013. Net gearing ratio increased to 20.5% as at 31 December 2013, from 9.0% as at 31 December 2012 due to higher amount of loans and borrowing.

The Board of Directors (the "Board") of Hu An Cable Holdings Ltd. (the "Company") is committed to maintaining a high standard of corporate governance within the Company and its subsidiaries (collectively, the "Group") to ensure greater transparency and to protect the interests of the Company's shareholders.

Shook Lin & Bok LLP is appointed as the corporate governance adviser to provide advice and guidance to the Group and the Board on corporate governance matters. The Board is pleased to confirm that the Company has adhered to the principles and guidelines of the Code of Corporate Governance 2012 (the "Code"), save for deviation with reference to Guideline 3.1 (the Chairman and Chief Executive Officer should in principle be separate persons) and Guideline 14.3 (provision to allow corporations which provide nominee or custodial services to appoint more than two proxies), which are explained in this report.

This report sets out the Company's corporate governance processes and structures that were in place throughout the financial year, procedures with specific reference made to the principles and guidelines of the Code and the best practices issued by the Singapore Exchange Securities Trading Limited (the "SGX-ST"). Where there are deviations from the Code, appropriate explanations will be provided. The Board and the management of the Company will continue to uphold the highest standards of corporate governance within the Company in accordance with the Code.

### (A) BOARD MATTERS

#### The Board's Conduct of Affairs

Principle 1: Every company should be headed by an effective board to lead and control the company. The board is collectively responsible for the long-term success of the company. The board works with management to achieve this objective and management remains accountable to the board.

The Board is entrusted with the responsibility for the overall management of the business and corporate affairs of the Group.

Matters which specifically require the Board's decision or approval included the Group's financial plans and annual budget, nominations of Directors for appointment to the Board and appointment of key personnel, acceptance of banking facilities, major financing, corporate financial restructuring plans and issuance of shares, funding decision of the Group, material acquisitions and disposals of assets, release of the Group's quarterly and full year financial results and all matters of strategic importance.

All other matters are delegated to committees whose actions are monitored by the Board. These committees ("**Board Committees**") operate within clearly defined terms of reference and functional procedures:

- (a) Audit Committee;
- (b) Nominating Committee;
- (c) Remuneration Committee; and
- (d) Risk Management Committee.

To get a better understanding of the Group's business, the Company adopts a policy whereby Directors are encouraged to request for further explanations, briefings or informal discussion on the Company's operations or business with the management. Directors are also given the opportunity to visit the Group's operational facilities and meet with the management.

Whilst no new director was appointed during the financial year ended 31 December 2013 ("**FY2013**"), the Company has a policy for all newly appointed Directors to be given briefings by management on the Group's business activities and its strategy direction.

Directors will also receive regular updates on changes in the relevant laws and regulations, financing reporting standard, government policies, regulation and guidelines from SGX-ST, changing commercial risks and business conditions to enable them to make well-informed decisions.

The Company's Articles of Association provide for meetings by means of tele-conference and video-conference. The number of meetings held in FY2013 and the attendance by each member of the Board and Board Committees are as follows:

No. of meetings held	Board	Audit Committee	Remuneration Committee	Nominating Committee	Risk Management Committee
	6	4	1	1	2
Name of members	Attendance	Attendance	Attendance	Attendance	Attendance
Dai Zhi Xiang	6	N.A.	N.A.	1	2

Wee Liang Hiam	6	4	1	1	2
Chen Timothy Teck Leng  @ Chen Teck Leng	6	4	1	1	2
Chan Cheng Hai	6	4	1	N.A.	2
Chen Hsin Yuan	6	N.A.	N.A.	N.A.	2
Xu Guo Chen	N.A.	N.A.	N.A.	N.A.	2
Xue Ru	N.A.	N.A.	N.A.	N.A.	2

<sup>\*</sup> Mr. Yeung Wai Wing resigned on 5 March 2014.

#### **Board Composition and Guidance**

Principle 2: There should be a strong and independent element on the board, which is able to exercise objective judgement on corporate affairs independently, in particular, from management and 10% shareholders. No individual or small group of individuals should be allowed to dominate the board's decision making.

The Board currently comprises five Directors, including one Executive Director and four Independent Directors. This composition complies with the Code's requirement that at least one-third of the Board should be made up of independent directors and further complies with the requirements contained in Guideline 2.2 whereby it is required that the independent directors should make up at least half of the Board where (a) the Chairman of the Board ("Chairman") and the Chief Executive Officer ("CEO") is the same person, (b) the Chairman and the CEO are immediate family members, (c) the Chairman is part of the management team, or (d) the Chairman is not an independent director. The Board is thus able to exercise objective judgment on corporate affairs independently.

As at the date of publishing this report, the Board comprises the following Directors:

#### **Executive Director**

Mr Dai Zhi Xiang (CEO and Executive Chairman)

#### **Independent Directors**

Mr Wee Liang Hiam (Lead Independent Director)
Mr Chen Timothy Teck Leng (Independent Director)

@ Chen Teck Leng

Mr Chan Cheng Hai (Independent Director)
Mr Chen Hsin Yuan\* (Independent Director)

The independence of each Director is reviewed annually by the Nominating Committee (the "NC"). The NC adopts the definition in the Code as to what constitutes an independent director in its review that the Board consists of persons who, together, will provide core competencies necessary to meet the Group's objectives. Independent Directors of the Company are independent in character and judgement and there are no relationships with the Company, its related corporations, its shareholder(s) holding not less than 10% of the voting shares in the Company ("10% shareholders") or its officers that could interfere, or be reasonably perceived to interfere, with the exercise of the director's independent business judgment with a view to the best interests of the Company. The Board, taking into account the NC's views, considers each of the abovenamed Independent Directors to be independent.

The Board through the NC has examined its size and is of the view that it is an appropriate size for effective decision making, taking into account the scope and nature of the operations of the Company with consideration on recommendations of the Corporate Governance Council as and when announced. The NC is of the view that no individual or small group of individuals dominates the Board's decision making process.

There is adequate relevant competence on the part of the Directors, who, as a group, carry specialist backgrounds in accounting, finance, business and management experience and strategic planning experience. Members of the Board are constantly communicating with management to provide advice and guidance on matters affecting the affairs and business of the Group, resulting in effective management of the Group's business and operations.

#### Chairman and Chief Executive Officer

Principle 3: There should be a clear division of responsibilities between the leadership of the board and the executives responsible for managing the company's business. No one individual should represent a considerable concentration of power.

The roles of the Chairman and CEO are both held by Mr Dai Zhi Xiang. As the Chairman and CEO, Mr Dai exercises control over the quality, quantity and timeliness of the flow of information between management and the Board. In addition, Mr Dai has full executive responsibilities of the overall business directions and operational decisions of the Group.

The Board is of the opinion that the present Group structure and business scope does not warrant a meaningful split of the roles of the Chairman and CEO. The Board is of the view that there are sufficient safeguards and checks to ensure that the process of decision making by the Board is independent and based on collective decisions without any individual exercising any considerable concentration of power or influence. Mr. Dai Zhi Xiang's remuneration is reviewed by the Remuneration Committee, whose members comprise only Independent Directors of the Company.

<sup>\*</sup> Mr Chen Hsin Yuan has been re-designated as Independent Director on 5 March 2014.

Mr Wee Liang Hiam is the Lead Independent Director of the Company to co-ordinate and lead the Independent Directors and acts as principal liaison between the Independent Directors and management and to provide non-executive perspectives and contribute a balanced viewpoint to the Board. He also sits as chairman of the NC as prescribed in the Code.

All strategic and major decisions made by the Chairman and CEO are reviewed and approved by the Board collectively.

#### **Board Membership**

Principle 4: There should be a formal and transparent process for the appointment and re-appointment of directors to the board.

The Nominating Committee ("NC") comprises two Independent Directors and one Executive Director. The NC Chairman is an Independent Director and not directly or indirectly associated with a substantial shareholder of the Company. The composition of NC is as follows:-

Mr Wee Liang Hiam (Chairman)
Mr Chen Timothy Teck Leng @ Chen Teck Leng (Member)
Mr Dai Zhi Xiang (Member)

The main role of the NC is to make the process of Board appointments and re-appointments of Directors more transparent and to assess the effectiveness of the Board as a whole and the contribution of each individual Director to the effectiveness of the Board.

The principal functions of the NC are as follows:

- (a) making recommendations to the Board on all Board appointments, including re-nominations, having regard to the Director's contribution and performance (for example, attendance, preparedness, participation and candour) including as an Independent Director. All Directors submit themselves for re-nomination and re-election at regular intervals and at least once in every three years;
- (b) determining annually whether or not a Director is independent;
- (c) in respect of a Director who has multiple board representations on various companies, to decide whether or not such Director is able to and has been adequately carrying out his/her duties as Director of the Company, having regard to the competing time commitments that are faced when serving on multiple boards;
- (d) assessing the effectiveness of the Board as a whole and its Board Committees, and the contribution by each individual Director to the effectiveness of the Board;
- deciding how the Board's performance may be evaluated and propose objective performance criteria, as approved by the Board that allows comparison with its industry peers, and address how the Board has enhanced long term shareholders' value;
- (f) reviewing and approving any new employment of related persons and proposed terms of their employment; and
- (g) reviewing and assessing candidates for senior management staff who are not Directors.

The NC has conducted an annual review of Directors' independence based on the Code's criteria for independence and is of the view that Messrs Wee Liang Hiam, Chen Timothy Teck Leng @ Chen Teck Leng, Chan Cheng Hai and Chen Hsin Yuan are independent.

All Directors are to submit themselves for re-nomination and re-election at regular intervals of at least once every 3 years. Under the Company's existing Articles of Association, one-third of the Directors for the time being (except for the managing director, if any) (or if their number is not a multiple of 3, the number nearest to but not less than one-third) shall retire from office by rotation at each annual general meeting of the Company.

All selection, appointment and re-appointment of Directors are reviewed and evaluated by the NC based on the candidates' experience, qualifications and contribution or potential contribution to the Company. Potential candidates to be appointed as new Directors will also be interviewed by the NC.

The Company has a policy to require that a Director should not hold more than 5 listed company board representations.

The NC has reviewed and recommended the re-election of Messrs Chen Hsin Yuan and Chen Timothy Teck Leng @ Chen Teck Leng who are retiring under Article 89 of the Articles of Association of the Company respectively at the forthcoming Annual General Meeting. The NC has also reviewed and recommended the re-appointment of Mr. Chan Cheng Hai pursuant to section 153(6) of the Companies Act (Chapter 50) at the forthcoming Annual General Meeting. The Board has accepted the above recommendations and the aforesaid Directors will be offering themselves for re-election or re-appointment, as the case may be, at the forthcoming Annual General Meeting.

The following key information regarding the Directors is set out in the following pages of this Annual Report:

(a) pages 5 to 6 - Academic and professional qualifications;

(b) page 30 - Board Committees served on (as a member or chairman), date of first appointment as director, date of last re-appointment, current and past directorship in other listed companies, whether appointment is executive or non-executive, or considered by the NC to be independent; and

(c) page 35 - Shareholding in the Company and its subsidiary.

#### **Board Performance**

Principle 5: There should be a formal assessment of the effectiveness of the board as a whole and its board committees and the contribution by each director to the effectiveness of the board.

The NC decides on how the Board's performance is to be evaluated and to propose objective performance criteria which include the evaluation of the size and composition of the Board, the Board's access to information, Board processes and accountability, Board performance in relation to discharging its principal responsibilities and the Directors' standards of conduct. A yearly Board's performance evaluation form is disseminated to all Directors. The Chairman of the NC will then make arrangements for the forms to be collated for review and discussion. The Board will review the feedback collectively, decide and agree on any action plan.

The Board and the NC have endeavoured to ensure that Directors appointed to the Board possess the experience, knowledge and expertise critical to the Group's business and relevant to the Board Committees that they are members of. NC also reviews the contribution by each individual Director to the effectiveness of the Board as a whole and to its Board Committees having regard to the Director's performance and contribution (for example, attendance, preparedness, participation and candour).

#### Access to information

Principle 6: In order to fulfill their responsibilities, directors should be provided with complete, adequate and timely information prior to board meetings and on an on-going basis so as to enable them to make informed decisions to discharge their duties and responsibilities.

Directors are furnished regularly with information from management about the Group as well as the relevant background information relating to the business to be discussed at Board meetings. In addition, all relevant information on material events and transactions are circulated to Directors as and when they arise. Draft announcements will be circulated to the Board for review and approval before dissemination to the shareholders via SGXNET. The Directors are also provided with the contact details of the Company's senior management and Company Secretaries to facilitate separate and independent access.

The Company Secretaries attend all Board's and Board Committees' meetings and are responsible for ensuring that proper procedures at such meetings are followed and that the Company complies with the applicable rules and regulations.

Each Director has the right to seek independent legal and other professional advice, at the Company's expense, concerning any aspect of the Group's operations or undertakings in order to fulfil his duties and responsibilities as Director.

### (B) REMUNERATION MATTERS

**Procedures for Developing Remuneration Policies** 

Principle 7: There should be a formal and transparent procedure for developing policy on executive remuneration and for fixing the remuneration packages of individual directors. No director should be involved in deciding his own remuneration.

 $\label{thm:committee} \textbf{The Remuneration Committee ("\textbf{RC"}) comprises three Independent Directors. The Chairman is an Independent Director. } \\$ 

Mr Chen Timothy Teck Leng @ Chen Teck Leng (Chairman)
Mr Wee Liang Hiam (Member)
Mr Chan Cheng Hai (Member)

The principal responsibilities of the RC are as follows:

(a) recommending to the Board a framework of remuneration for Directors and key executives, and to determine specific remuneration packages for each Director and the CEO (or executive of equivalent rank), if the CEO is not a Director, such recommendations to be made in consultation with the Chairman of the Board and submitted for endorsement by the entire Board and should cover all aspects of remuneration, including but not limited to Director's fees, salaries, allowances, bonuses, options, and benefits in kind;

- in the case of service contracts, to consider what compensation commitments the Directors' or key executives' (b) contracts of service, if any, would entail in the event of early termination with a view to be fair and avoid rewarding poor performance; and
- in respect of any share scheme and such other long-term incentive schemes (if any) as may be implemented, (c) to consider whether Directors and key executives should be eligible for benefits under such long-term incentive schemes.

The recommendations of the RC would be submitted to the Board for endorsement. The RC will have to seek expert advice inside and/or outside the Company with regard to remuneration matters, if necessary. No individual Director is involved in deciding his own remuneration.

#### Level and Mix of Remuneration

Principle 8: The level and structure of remuneration should be aligned with the long-term interest and risk policies of the company, and should be appropriate to attract, retain and motivate (a) the directors to provide good stewardship of the company, and (b) key management personnel to successfully manage the company. However, companies should avoid paying more than is necessary for this purpose.

The Independent Directors do not have service agreements with the Company. They are paid fixed Directors' fees, which are determined by the Board, appropriate to the level of their contribution, taking into account factors such as the effort and time spent and the responsibilities of the Independent Directors respectively. The Directors' fees are subject to approval by the shareholders at each annual general meeting of the Company. The Independent Directors do not receive any other remuneration from the Company. A basic Director's fee of \$\$30,000 is paid to each member of the Board and additional fees are paid for being chairman and/or member of Board Committees using the following fee structure:

	Audit Committee	Nominating Committee	Remuneration Committee	Risk Management Committee
	(per annum)	(per annum)	(per annum)	(per annum)
Chairman (additional)	S\$10,000	S\$5,000	S\$5,000	Nil
Member	S\$5,000	S\$5,000	S\$5,000	Nil

The remuneration of key executives comprised fixed salary and other benefits. Mr Dai Zhi Xiang, the CEO and Executive Chairman, is paid based on his service agreement with the Company. The agreement is for an initial period of three years commencing from 8 February 2010. Mr. Dai's agreement was automatically renewed for another three years (the "Employment") based on the same terms commencing from 8 February 2013. The agreement provided that either of the Company or Mr Dai may notify the other party by giving six (6) months written notice in writing prior to the expiry thereof, of its/his intention not to renew the Employment or in lieu of the said six (6) months' notice or part thereof, an amount equivalent to six (6) months of Mr Dai's last drawn salary.

The review of the remuneration of the key executives takes into consideration the performance and contributions of the staff to the Group and gives due regard to the financial and business performance of the Group. The Group seeks to offer a competitive level of remuneration to attract, motivate and retain senior management of the required competency to run the Group successfully.

The Company does not have any employee share option schemes or other long-term incentive scheme for Directors or key executives at the moment.

#### **Disclosure of Remuneration**

Principle 9: Every company should provide clear disclosure of its remuneration policies, level and mix of remuneration, and the procedure for setting remuneration, in the company's annual report. It should provide disclosure in relation to its remuneration policies to enable investors to understand the link between remuneration paid to directors and key management personnel, and performance.

A breakdown of the Directors' remuneration, in percentage terms showing the level and mix of each of the Directors' remuneration for the financial year ended 31 December 2013, is as follows:

	Fees	Salary	**Other Benefits	Total
Directors	(%)	(%)	(%)	(%)
Above S\$250,000				
Dai Zhi Xiang	-	99.3	0.7	100.0
Below \$\$250,000				
Yeung Wai Wing*	100.0	_	-	100.0
Wee Liang Hiam	100.0	_	-	100.0
Chen Timothy Teck Leng @ Chen Teck Leng	100.0	_	-	100.0
Chan Cheng Hai	100.0	_	-	100.0
Chen Hsin Yuan	100.0	_	-	100.0

<sup>\*</sup> Mr. Yeung Wai Wing resigned on 5 March 2014.

The following table shows the remuneration payable to the Directors for the financial year ended 31 December 2013:

Executive Director	Amount
Dai Zhi Xiang	S\$255,733
	S\$255,733
Non-Executive & Independent Directors

Chen Timothy Teck Leng @ Chen Teck Leng	S\$50,000
Chan Cheng Hai	S\$40,000
Chen Hsin Yuan	S\$30,000
Total	S\$220,000

#### Note:

<sup>\*\*</sup> Contributions to CPF or the equivalent authorities in the PRC.

<sup>(1)</sup> As part of the Company's effort to strengthen internal controls, Mr. Wee Liang Hiam has been appointed as a director to the Company's principal subsidiary in the PRC and is paid an additional director fee of S\$10,000 for taking on this additional role.

The total remuneration payable to the top five key executives (who are not Directors of the Company) is \$\$801,187. The breakdown of remuneration of the top five key executives in percentage terms for the financial year ended 31 December 2013 is as follows:

Key Executives	Fees	Salary	**Other Benefits	Total
	(%)	(%)	(%)	(%)
Above S\$250,000				
Xu Guochen	-	96.3	3.7	100.0
Below S\$250,000

Yu Libin	_	98.4	1.6	100.0
Xie Chunlin*	_	100.0	_	100.0

Mr Xie Chunlin resigned on 5 March 2014.

No employee of the Company and its subsidiaries was an immediate family member of any Director or CEO or a controlling shareholder and whose remuneration has exceeded S\$50,000 during the financial year ended 31 December 2013.

## (C) ACCOUNTABILITY AND AUDIT

#### **Accountability**

Principle 10: The board should present a balanced and understandable assessment of the company's performance, position and prospects.

The Board is accountable to shareholders for the management of the Group. The Board will update shareholders on the operations and financial position of the Company through quarterly and full year financial results announcements as well as timely announcements of other matters as prescribed by the relevant rules and regulations. Management is accountable to the Board by providing the Board with the necessary financial information for the discharge of its duties.

In line with the requirements of SGX-ST, negative assurance confirmations on financial results were issued by the Directors, as well as confirmations from management, confirming that to the best of its knowledge, nothing had come to the attention of the Board which may render the Company's financial results to be false and misleading in any material aspect.

#### **Risk Management and Internal Controls**

Principle 11: The board is responsible for the governance of risk. The Board should ensure that management maintains a sound system of risk management and internal controls to safeguard shareholders' interests and the company's assets, and should determine the nature and extent of the significant risks which the board is willing to take in achieving its strategic objectives.

Management frequently reviews the Group's business and operational activities to identify areas of significant business risks as well as appropriate measures to control and mitigate these risks within the Group's policies and strategies. The Group reviews all significant control policies and highlights all significant matters to the AC and Board. The financial risk management objectives and policies are outlined in the Financial Statements page 91 to page 97.

Contributions to CPF or the equivalent authorities in the PRC.

The Board established the Risk Management Committee ("**RMC**") in November 2012. The RMC comprises the following five Directors and two key executives:

#### Directors

Mr Dai Zhi Xiang (Chairman)
Mr Wee Liang Hiam (Member)
Mr Chen Timothy Teck Leng @ Chen Teck Leng (Member)
Mr Chan Cheng Hai (Member)
Mr Chen Hsin Yuan (Member)

**Key Executives** 

Mr Xu Guo Chen (Member)
Ms Xue Ru (Member)

The RMC shall meet at least once a year at appropriate times and otherwise as required. The Board set up the RMC to assist the Board in discharging its responsibilities to:—

- govern the Company's risk;
- maintain and oversee a sound system of risk management and internal controls to safeguard shareholders' interests and the Company's assets; and
- review and comment on the adequacy and effectiveness of the Company's risk management and internal control systems.

The Company's internal auditors conduct review of the adequacy and effectiveness of the Company's risk management and internal control systems, including financial, operational, compliance and information technology controls, maintained by the management (collectively, "Internal Controls"). Any material non-compliance or failures in Internal Controls, and recommendations for improvements, are reported to the RMC as well as the Audit Committee ("AC"). During the year, the AC also reviewed the effectiveness of the Company's Internal Controls and was satisfied that the Company's Internal Controls were sufficient to meet the needs of the Company in its current business environment. The AC also reported to the Board on the effectiveness of the Company's Internal Controls.

The Board, with the concurrence of AC, is of the opinion that, the system of Internal Controls maintained by the Group's management throughout the financial year ended 31 December 2013 was adequate to address the financial, operational, compliance and information technology risks.

The Board and AC are of the opinion that, the Group's Internal Controls were adequate based on:

- The Internal Controls established and maintained by the Group;
- Reports issued by the internal auditors;
- Regular reviews performed by the management, and annual review undertaken by AC and the Board; and
- Confirmation by the management.

The Board has also received assurance from the CEO and the Chief Financial Officer ("CFO") that:

- (a) the financial records have been properly maintained and the financial statements give a true and fair view of the Company's operations and finances; and
- (b) the Company's risk management and internal control systems are effective.

#### **Audit Committee**

Principle 12: The board should establish an Audit Committee ("AC") with written terms of reference which clearly set out its authority and duties.

The AC comprises the following three Directors, all of whom are Independent Directors and non-executive.

Mr Wee Liang Hiam (Chairman)
Mr Chen Timothy Teck Leng @ Chen Teck Leng (Member)
Mr Chan Cheng Hai (Member)

The Board is of the view that the AC has the necessary experience and expertise required to discharge its duties.

The AC holds periodic meetings and undertakes the following functions:

- (a) reviewing the audit plans and reports of our internal and external auditors;
- (b) reviewing of our financial statements before submission to the Board for approval;
- (c) reviewing and considering the independence, objectivity, and appointment or re-appointment of the external auditors and matters relating to resignation or dismissal thereof before making recommendations to the Board, and approving their remuneration and terms of engagement;
- (d) reviewing the adequacy and effectiveness of the Company's Internal Controls;
- (e) reviewing the interested person transactions (within the definition of the Listing Manual of SGX-ST) involving our Group in accordance with the Listing Manual of SGX-ST;
- (f) reviewing and evaluating the effectiveness and adequacy of the administrative, operating, internal audit function and internal accounting and financial control procedures;
- (g) reviewing the integrity of any financial information presented to shareholders;
- (h) reviewing potential conflict of interests, if any;
- (i) approving and reviewing all hedging policies and instruments to be implemented by our Group, if any; and
- (j) generally undertake such other functions and duties as may be required by the Listing Manual of SGX-ST.

Apart from the above functions, the AC will also commit and review the findings of internal investigations into matters where there is any suspected fraud or irregularity, or failure of internal controls or infringement of any law, rule or regulation which has or is likely to have a material impact on the Group's operating results or financial position. Each member of the AC will abstain in respect of matters in which he is interested.

The AC has full access to and co-operation of the management and external and internal auditors. It also has the discretion to invite any Director and key executive to attend its meetings. The AC has adequate resources to enable it to discharge its responsibilities properly.

The AC also meets and has discussions with the external auditors and internal auditors without the presence of the Company's management annually. The Company is in compliance with Rules 712 and Rule 715 of the Listing Manual of SGX-ST whereby the Company appoints a suitable auditing firm to meet its audit obligations in respect of its own accounts and for its subsidiaries.

The AC confirms that it has undertaken a review of all non-audit services provided by the external auditors and those non-audit services in the AC's opinion would not affect the independence of the external auditors. In the AC's opinion, Ernst & Young LLP is suitable for re-appointment and it has accordingly recommended to the Board that Ernst & Young LLP be nominated for re-appointment as auditors of the Company at the forthcoming Annual General Meeting.

The aggregate amount of fees payable to the external auditors for audit and non-audit services for FY2013 are as follows:

	Ernst & Young Singapore	Overseas Ernst & Young Offices
Audit fee	S\$257,677	S\$37,959
Non-audit fees	S\$7,000	Nil
Total fees	S\$264,677	S\$37,959
Non-audit fees as a % of total fees	2.64%	Not Applicable

The Company has put in place a whistle-blowing policy, where employees of the Company and any other persons may, in confidence, raise concerns about possible corporate improprieties in matters of financial reporting or other matters. The AC ensures that arrangements are in place for the independent investigations of such matters and for appropriate follow up actions. The procedures for reporting such matters and the contact details of the AC have been made available on the Company's website.

The AC is briefed by the external auditors of changes to accounting standards and issues which have a direct impact on financial statements during the presentation of the audit planning memorandum and the audit report to the AC.

#### **Internal Audit**

Principle 13: The company should establish an effective internal audit function that is adequately resourced and independent of the activities it audits.

The AC is aware of the need to establish a system of internal controls within the Group to safeguard the shareholders' interests and the Group's assets, and to manage risks. The system is intended to provide reasonable but not absolute assurance against material misstatements or loss, and to safeguard assets and ensure maintenance of proper accounting records, reliability of financial information, compliance with appropriate legislation, regulation and best practice, and the identification and containment of business risks.

In FY2013, the Company has outsourced its internal audit function to an independent third party accounting firm, Messrs. One e-Risk Services Pte Ltd (the "IA"). The IA meets the professional standards set out in the Code and reports directly to the AC. The IA will also carry out major internal control checks and compliance tests as instructed by the AC. The AC reviews the IA's reports and ensures that there are adequate internal controls in the Group.

### (D) SHAREHOLDER RIGHTS AND RESPONSIBILITIES

#### **Shareholder Rights**

Principle 14: Companies should treat all shareholders fairly and equitably, and should recognise, protect and facilitate the exercise of shareholders' rights, and continually review and update such governance arrangements.

The Company is committed to maintaining and improving its level of corporate transparency of financial results and other pertinent information. Other than the routine announcements made in accordance with the requirements of the Listing Manual of the SGX-ST, the Company has issued additional announcements and press releases to update shareholders on the activities of the Company and the Group since its listing on the SGX-ST.

The Company does not practise selective disclosure. Then Company ensures true and fair information is delivered adequately to all shareholders and to ensure that shareholders have the opportunity to participate effectively in and vote at general meetings of shareholders. Price-sensitive information is first publicly released before the Company meets with any group of investors or analysts. Financial results and annual reports are announced or issued within the mandatory period (and where this is not possible, relevant extensions of time are sought in accordance with applicable laws, regulations and rules).

The Company's Articles of Association presently do not permit a shareholder, including a corporation which provides nominee or custodial services, to appoint more than two proxies to attend and participate in shareholders' general meetings as proxies.

#### **Communication with Shareholders**

Principle 15: Companies should actively engage their shareholders and put in place an investor relations policy to promote regular, effective and fair communication with shareholders.

The Company adopted an investor relations policy (the "Policy") to promote regular, effective and fair communication with shareholders. The Policy is subject to regular review by the senior management and the Board to ensure its effectiveness and will be published on the Company's website in the "Investor Relations" section. Any material changes to the content will be amended subject to the approval of the Board.

The Company maintains a corporate website (www.huanholdings.com). The Company's business developments and operations, financial reports, announcements, news releases and other information are also posted on its corporate website. Both current information and archives of previously released information including presentation slides and announcements can be found under the "Investor Relations" section of the corporate website.

The Company also engages an external investor relation consulting firm to support the Group in promoting communication and investment community. The contact information of investor relation is stated in the corporate website. The management has conducted analyst briefings in FY2013 to solicit and understand the views of shareholders.

The Company is not paying dividends for FY2013 in order to preserve its cash holdings for the working capital requirements of the Company's new plant under its wholly-owned subsidiary, Shenhuan Cable Technology Co., Ltd.

#### **Conduct of Shareholder Meetings**

Principle 16: Companies should encourage greater shareholder participation at general meetings of shareholders, and allow shareholders the opportunity to communicate their views on various matters affecting the company.

Notices of general meetings are dispatched to shareholders, together with the annual report or circulars within the time notice period prescribed by the regulations. At shareholders' general meetings, shareholders are invited and given opportunity to air their views and ask Directors or management questions regarding the Company.

The Articles of Association of the Company allow members of the Company to appoint up to 2 proxies to attend and vote on their behalf in the event that they are unable to attend the general meeting.

The chairman of each Board Committee will be present and available to address questions at general meetings. External auditors will also be present at such meeting to assist the Directors to address any relevant queries from the shareholders, if necessary.

During the shareholders' general meeting held in FY2013, the Company put all resolutions to vote by poll. The detailed results (showing number of votes cast for and against each resolution and the respective percentages) of shareholders' general meetings are disclosed by way of a Company's announcement on the SGX-ST.

The Company Secretaries prepare minutes of general meetings, which incorporates substantial comments or queries, if any, from shareholders and responses from the Board, management and auditors.

### (E) DEALINGS IN SECURITIES

The Company has adopted and implemented an internal policy, which is in line with Rule 1207(19) of the SGX-ST's Listing Manual, in relation to the dealing in securities of the Company. The Company and its officers are prohibited from dealing in the securities of the Company during the period commencing two weeks before the announcement of the Company's financial results for each of the first three quarters of its financial year, and one month before the announcement of the Company's full year financial results, and ending on the date of the announcements of the relevant results or when they are in possession of any unpublished price sensitive information on the Group.

Directors and officers are reminded not to deal in the Company's securities on consideration of a short-term nature.

### (F) INTERESTED PERSON TRANSACTION

The Company has adopted an internal policy in respect of any transaction with interested persons and has set out the procedures for review and approval of the Company's interested person transactions.

When a potential conflict of interest arises, the director concerned does not participate in discussions and refrains from exercising any influence over other members of the Board. Save as disclosed in the audited financial statements, there were no interested person transactions with aggregate value of S\$100,000 or more for the financial year ended 31 December 2013.

## (G) MATERIAL CONTRACTS

Other than the service agreement entered with the Executive Director, there are no material contracts of the Group or its subsidiaries involving the interest of any Director or controlling shareholder subsisting at the end of the financial year ended 31 December 2013.

## (H) UTILISATION OF PROCEEDS FROM THE TAIWAN DEPOSITORY RECEIPTS ("TDRs") ISSUE

The Company refers to the proceeds of approximately NTD816.0 million (or equivalent to RMB170.0 million) raised from the Taiwan Depository Receipts issue in October 2010. As at the date of publishing this report, the Company has utilized RMB125.1 million as per details in the table below.

(RMB mil)

Intended Use	Amount received	Amount used	Balance
Acquisition of new land and production machinery; and construction of new workshops and production lines	92.8	47.9	44.9
Set-up of a trading company in Taiwan	22.2	22.2	-
Repayment of existing loans	20.0	20.0	-
Working capital purpose	35.0	35.0	-
Total	170.0	125.1	44.9

The Company will continue to make further announcements via SGXNET as and when the remaining proceeds of the aforesaid TDRs issue are materially disbursed.

Guideline 1.3	
Delegation of authority, by the Board to any Board Committee, to make decisions on certain board	
matters	15
Guideline 1.4	
The number of meetings of the Board and Board Committees held in the year, as well as the attendance	
of every Board member at these meetings	16
Guideline 1.5	
The type of material transactions that require Board approval under guidelines	15
Guideline 1.6	
The induction, orientation and training provided to new and existing directors	16
Guideline 2.3	
The Board should identify in the Company's Annual Report each director it considers to be independent.	
Where the Board considers a director to be independent in spite of the existence of a relationship	
as stated in the Code that would otherwise deem a director not to be independent, the nature of the	
director's relationship and the reasons for considering him as independent should be disclosed	17
Guideline 2.4	
Where the Board considers an independent director, who has served on the Board for more than nine	
years from the date of his first appointment, to be independent, the reasons for considering him as	
independent should be disclosed	N.A.
Guideline 3.1	
Relationship between the Chairman and CEO where they are immediate family members	N.A.
Guideline 4.1	
Names of the members of the NC and the key terms of reference of the NC, explaining its role and the	
authority delegated to it by the Board	18

# **Independent Auditor's Report**

for the financial year ended 31 December 2013

To the members of Hu An Cable Holdings Ltd.

## REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of Hu An Cable Holdings Ltd. (the "Company") and its subsidiaries (collectively, the "Group"), which comprise the balance sheets of the Group and the Company as at 31 December 2013, the statements of changes in equity of the Group and the Company and the consolidated statement of comprehensive income and consolidated cash flow statement of the Group for the year then ended, and a summary of significant accounting policies and other explanatory information.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Singapore Companies Act, Chapter 50 (the "Act") and Singapore Financial Reporting Standards, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair profit and loss accounts and balance sheets and to maintain accountability of assets.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Singapore Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## **Opinion**

In our opinion, the consolidated financial statements of the Group and the balance sheet and statement of changes in equity of the Company are properly drawn up in accordance with the provisions of the Act and Singapore Financial Reporting Standards so as to give a true and fair view of the state of affairs of the Group and of the Company as at 31 December 2013 and the results, changes in equity and cash flows of the Group and the changes in equity of the Company for the year ended on that date.

## REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

In our opinion, the accounting and other records required by the Act to be kept by the Company incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

Amendment to FRS 38 Intangible Assets	1 July 2014
Improvements to FRSs (February 2014)	
Amendment to FRS 103 Business Combinations	1 July 2014
Amendment to FRS 113 Fair Value Measurement	1 July 2014
Amendment to FRS 40 Investment Property	1 July 2014

Except for FRS 112, the directors expect that the adoption of the other standards and interpretations above will have no material impact on the financial statements in the period of initial application. The nature of the impending changes in accounting policy on adoption of FRS 112 is described below.

## FRS 112 Disclosure of Interests in Other Entities

FRS 112 Disclosure of Interests in Other Entities is effective for financial periods beginning on or after 1 January 2014.

FRS 112 is a new and comprehensive standard on disclosure requirements for all forms of interests in other entities, including joint arrangements, associates, special purpose vehicles and other off balance sheet vehicles. FRS 112 requires an entity to disclose information that helps users of its financial statements to evaluate the nature and risks associated with its interests in other entities and the effects of those interests on its financial statements. As this is a disclosure standard, it will have no impact to the financial position and financial performance of the Group when applied in 2014.

#### 2.4 Basis of consolidation and business combinations

#### (a) Basis of consolidation

Basis of consolidation from 1 January 2010

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at the end of the reporting period. The financial statements of the subsidiaries used in the preparation of the consolidated financial statements are prepared for the same reporting date as the Company. Consistent accounting policies are applied to like transactions and events in similar circumstances.

All intra-group balances, income and expenses and unrealised gains and losses resulting from intra-group transactions and dividends are eliminated in full.

Subsidiaries are consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Losses within a subsidiary are attributed to the non-controlling interest even if that results in a deficit balance.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- de-recognises the assets (including goodwill) and liabilities of the subsidiary at their carrying amounts at the date when controls is lost;
- de-recognises the carrying amount of any non-controlling interest;
- de-recognises the cumulative translation differences recorded in equity;
- recognises the fair value of the consideration received;
- recognises the fair value of any investment retained;
- recognises any surplus or deficit in profit or loss;
- re-classifies the Group's share of components previously recognised in other comprehensive income to profit or loss or retained earnings, as appropriate.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## 2.4 Basis of consolidation and business combinations (continued)

#### (a) Basis of consolidation (continued)

Basis of consolidation prior to 1 January 2010

Certain of the above-mentioned requirements were applied on a prospective basis. The following differences, however, are carried forward in certain instances from the previous basis of consolidation:

- Acquisition of non-controlling interests, prior to 1 January 2010, were accounted for using the parent entity extension method, whereby, the difference between the consideration and the book value of the share of the net assets acquired were recognised in goodwill.
- Losses incurred by the Group were attributed to the non-controlling interest until the balance was reduced to nil. Any further losses were attributed to the Group, unless the non-controlling interest had a binding obligation to cover these. Losses prior to 1 January 2010 were not reallocated between non-controlling interest and the owners of the Company.
- Upon loss of control, the Group accounted for the investment retained at its proportionate share of net asset value at the date control was lost. The carrying value of such investments as at 1 January 2010 have not been restated.

## (b) Business combinations

Business combinations from 1 January 2010

Business combinations are accounted for by applying the acquisition method. Identifiable assets acquired and liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. Acquisition-related costs are recognised as expenses in the periods in which the costs are incurred and the services are received.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability, will be recognised in accordance with FRS 39 either in profit or loss or as a change to other comprehensive income. If the contingent consideration is classified as equity, it is not remeasured until it is finally settled within equity.

#### 2.4 Basis of consolidation and business combinations (continued)

#### (b) Business combinations (continued)

Business combinations from 1 January 2010 (continued)

In business combinations achieved in stages, previously held equity interests in the acquiree are remeasured to fair value at the acquisition date and any corresponding gain or loss is recognised in profit or loss.

The Group elects for each individual business combination, whether non-controlling interest in the acquiree (if any), that are present ownership interests and entitle their holders to a proportionate share of net assets in the event of liquidation, is recognised on the acquisition date at fair value, or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets. Other components of non-controlling interests are measured at their acquisition date fair value, unless another measurement basis is required by another FRS.

Any excess of the sum of the fair value of the consideration transferred in the business combination, the amount of non-controlling interest in the acquiree (if any), and the fair value of the Group's previously held equity interest in the acquiree (if any), over the net fair value of the acquiree's identifiable assets and liabilities is recorded as goodwill. In instances where the latter amount exceeds the former, the excess is recognised as gain on bargain purchase in profit or loss on the acquisition date.

## Business combinations prior to 1 January 2010

In comparison to the above mentioned requirements, the following differences applied:

Business combinations are accounted for by applying the purchase method. Transaction costs directly attributable to the acquisition formed part of the acquisition costs. The non-controlling interest (formerly known as minority interest) was measured at the proportionate share of the acquiree's identifiable net assets.

Business combinations achieved in stages were accounted for as separate steps. Adjustments to those fair values relating to previously held interests are treated as a revaluation and recognised in equity. Any additional acquired share of interest did not affect previously recognised goodwill.

When the Group acquired a business, embedded derivatives separated from the host contract by the acquiree were not reassessed on acquisition unless the business combination resulted in a change in the terms of the contract that significantly modified the cash flows that otherwise would have been required under the contract.

Contingent consideration was recognised if, and only if, the Group had a present obligation, the economic outflow was more likely than not and a reliable estimate was determinable. Subsequent adjustments to the contingent consideration were recognised as part of goodwill.

31 December 2013

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## 2.5 Transactions with non-controlling interests

Non-controlling interest represents the equity in subsidiaries not attributable, directly or indirectly, to owners of the Company, and are presented separately in the consolidated statement of comprehensive income and within equity in the consolidated balance sheet, separately from equity attributable to owners of the Company.

Changes in the Company's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. In such circumstances, the carrying amounts of the controlling and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interest is adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

#### 2.6 Foreign currency

The financial statements are presented in Chinese Renminbi, which is also the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

#### (a) Transactions and balances

Transactions in foreign currencies are measured in the respective functional currencies of the Company and its subsidiaries and are recorded on initial recognition in the functional currencies at exchange rates approximating those ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the end of the reporting period. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured.

Exchange differences arising on the settlement of monetary items or on translating monetary items at the end of the reporting period are recognised in profit or loss except for exchange differences arising on monetary items that form part of the Group's net investment in foreign operations, which are recognised initially in other comprehensive income and accumulated under foreign currency translation reserve in equity. The foreign currency translation reserve is reclassified from equity to profit or loss of the Group on disposal of the foreign operation.

## 2.6 Foreign currency (continued)

#### (b) Consolidated financial statements

For consolidation purpose, the assets and liabilities of foreign operations are translated into RMB at the rate of exchange ruling at the end of the reporting period and their profit or loss are translated at the exchange rates prevailing at the date of the transactions. The exchange differences arising on the translation are recognised in other comprehensive income. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in profit or loss.

In the case of a partial disposal without loss of control of a subsidiary that includes a foreign operation, the proportionate share of the cumulative amount of the exchange differences are re-attributed to non-controlling interest and are not recognised in profit or loss. For partial disposals of associates or jointly controlled entities that are foreign operations, the proportionate share of the accumulated exchange differences is reclassified to profit or loss.

## 2.7 Property, plant and equipment

All items of property, plant and equipment are initially recorded at cost. Subsequent to recognition, property, plant and equipment other than freehold land and buildings are measured at cost less accumulated depreciation and any accumulated impairment losses. The cost includes the cost of replacing part of the property, plant and equipment and borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying property, plant and equipment. The accounting policy for borrowing costs is set out in Note 2.18. The cost of an item of property, plant and equipment is recognised as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

When significant parts of property, plant and equipment are required to be replaced in intervals, the Group recognises such parts as individual assets with specific useful lives and depreciation, respectively. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss as incurred.

Depreciation is computed on a straight-line basis over the estimated useful lives of the assets as follows:

Buildings
Machinery and equipment
Motor vehicles
Office equipment
5 to 10 years
5 years
5 years

31 December 2013

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## 2.7 Property, plant and equipment (continued)

Construction-in-progress represents building under construction. Construction-in-progress is not depreciated until such time as the relevant assets are completed and put into operational use.

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The residual value, useful life and depreciation method are reviewed at each financial year-end, and adjusted prospectively, if appropriate.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on derecognition of the asset is included in profit or loss in the year the asset is derecognised.

## 2.8 Intangible assets

#### Software and license

Software and license are initially measured at cost and amortised on a straight line basis over an estimated useful life of 3 to 10 years. The amortisation period and the amortisation method are reviewed at least at each financial year-end.

## 2.9 Land use rights

Land use rights are initially measured at cost. Following initial recognition, land use rights are measured at cost less accumulated amortisation and accumulated impairment losses. The land use rights are amortised over the lease term of 50 years.

## 2.10 Impairment of non-financial assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when an annual impairment testing for an asset is required, the Group makes an estimate of the asset's recoverable amount.

An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs of disposal and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. Where the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows expected to be generated by the asset are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators.

## 2.10 Impairment of non-financial assets (continued)

The Group bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Group's cash-generating units to which the individual assets are allocated. These budgets and forecast calculations are generally covering a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year.

Impairment losses of continuing operations are recognised in profit or loss, except for assets that are previously revalued where the revaluation was taken to other comprehensive income. In this case, the impairment is also recognised in other comprehensive income up to the amount of any previous revaluation.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the asset's or cash-generating unit's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increase cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised previously. Such reversal is recognised in profit or loss unless the asset is measured at revalued amount, in which case the reversal is treated as a revaluation increase.

#### 2.11 Subsidiaries

A subsidiary is an entity over which the Group has the power to govern the financial and operating policies so as to obtain benefits from its activities.

In the Company's separate financial statements, investments in subsidiaries are accounted for at cost less impairment losses.

## 2.12 Financial assets

## Initial recognition and measurement

Financial assets are recognised when, and only when, the Group becomes a party to the contractual provisions of the financial instrument. The Group determines the classification of its financial assets at initial recognition.

When financial assets are recognised initially, they are measured at fair value, plus, in the case of financial assets not at fair value through profit or loss, directly attributable transaction costs.

31 December 2013

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## 2.12 Financial assets (continued)

#### Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

#### Financial assets at fair value through profit or loss (a)

Financial assets at fair value through profit or loss include financial assets held for trading. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. This category includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by FRS 39. Derivatives, including separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

The Group has not designated any financial assets upon initial recognition at fair value through profit or loss.

Subsequent to initial recognition, financial assets at fair value through profit or loss are measured at fair value. Any gains or losses arising from changes in fair value of the financial assets are recognised in profit or loss. Net gains or net losses on financial assets at fair value through profit or loss include exchange differences, interest and dividend income.

Derivatives embedded in host contracts are accounted for as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contracts and the host contracts are not measured at fair value with changes in fair value recognised in profit or loss. These embedded derivatives are measured at fair value with changes in fair value recognised in profit or loss. Reassessment only occurs if there is a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required.

#### (b) Loans and receivables

Non-derivative financial assets with fixed or determinable payments that are not quoted in an active market are classified as loans and receivables. Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest method, less impairment. Gains and losses are recognised in profit or loss when the loans and receivables are derecognised or impaired, and through the amortisation process.

## **De-recognition**

A financial asset is derecognised where the contractual right to receive cash flows from the asset has expired. On de-recognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received and any cumulative gain or loss that had been recognised in other comprehensive income is recognised in profit or loss.

#### 2.13 Impairment of financial assets

The Group assesses at each reporting date whether there is any objective evidence that a financial asset is impaired.

## (a) Financial assets carried at amortised cost

For financial assets carried at amortised cost, the Group first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be recognised are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss on financial assets carried at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account. The impairment loss is recognised in profit or loss.

When the asset becomes uncollectible, the carrying amount of impaired financial asset is reduced directly or if an amount was charged to the allowance account, the amounts charged to the allowance account are written off against the carrying value of the financial asset.

To determine whether there is objective evidence that an impairment loss on financial assets has been incurred, the Group considers factors such as the probability of insolvency or significant financial difficulties of the debtor and default or significant delay in payments.

If in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed to the extent that the carrying amount of the asset does not exceed its amortised cost at the reversal date. The amount of reversal is recognised in profit or loss.

## (b) Financial assets carried at cost

If there is objective evidence (such as significant adverse changes in the business environment where the issuer operates, probability of insolvency or significant financial difficulties of the issuer) that an impairment loss on financial assets carried at cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses are not reversed in subsequent periods.

31 December 2013

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### 2.14 Cash and bank balances

Cash and bank balances comprise cash at bank and on hand.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash on hand and unpledged deposits in banks.

#### 2.15 Inventories

Inventories are stated at the lower of cost and net realisable value. Costs incurred in bringing the inventories to their present location and condition are accounted for as follows:

- Raw materials: purchase costs on a weighted average basis.
- Finished goods and work-in-progress: costs of direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. These costs are assigned on a weighted average basis.

Where necessary, allowance is provided for damaged, obsolete and slow moving items to adjust the carrying value of inventories to the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

## 2.16 Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount of the obligation can be estimated reliably.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed. If the effect of the time value of money is material, provisions are discounted using a current pre tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

#### 2.17 Financial liabilities

#### Initial recognition and measurement

Financial liabilities are recognised when, and only when, the Group becomes a party to the contractual provisions of the financial instrument. The Group determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognised initially at fair value plus in the case of financial liabilities not at fair value through profit or loss, directly attributable transaction costs.

#### Subsequent measurement

The measurement of financial liabilities depends on their classification as follows:

#### (i) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading. Financial liabilities are classified as held for trading if they are acquired for the purpose of selling in the near term. This category includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Subsequent to initial recognition, financial liabilities at fair value through profit or loss are measured at fair value. Any gains or losses arising from changes in fair value of the financial liabilities are recognised in profit or loss.

The Group has not designated any financial liabilities upon initial recognition at fair value through profit or loss.

## (ii) <u>Financial liabilities at amortised cost</u>

After initial recognition, financial liabilities that are not carried at fair value through profit or loss are subsequently measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process.

## **De-recognition**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in profit or loss.

31 December 2013

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## 2.18 Borrowing costs

Borrowing costs are capitalised as part of the cost of a qualifying asset if they are directly attributable to the acquisition, construction or production of that asset. Capitalisation of borrowing costs commences when the activities to prepare the asset for its intended use or sale are in progress and the expenditures and borrowing costs are incurred. Borrowing costs are capitalised until the assets are substantially completed for their intended use or sale. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

## 2.19 Employee benefits

#### (a) Defined contribution plans

The Group participates in the national pension schemes as defined by the laws of the countries in which it has operations. In particular, the Singapore companies in the Group make contributions to the Central Provident Fund scheme in Singapore, a defined contribution pension scheme. Contributions to defined contribution pension schemes are recognised as an expense in the period in which the related service is performed.

## (b) Employee share-based payment

Employees of the Group receive remuneration in the form of share-based payment transactions, whereby employees render services as consideration for share plans and awards ("equity-settled transactions").

The cost of equity-settled transactions with employees is measured by reference to the fair value at the date on which the share awards are granted. In valuing the share awards, no account is taken of any performance conditions, other than conditions linked to the price of the shares of the Company ("market conditions") and non-vesting conditions, if applicable.

Certain employees of the Group receive remuneration in the form of share options as consideration for services rendered. The cost of these equity-settled share based payment transactions with employees is measured by reference to the fair value of the options at the date on which the options are granted which takes into account market conditions and non-vesting conditions. This cost is recognised in profit or loss, with a corresponding increase in the employee share option reserve, over the vesting period. The cumulative expense recognised at the end of each reporting period until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The charge or credit to the profit or loss for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

No expense is recognised for awards that do not ultimately vest, except for awards where vesting is conditional upon a market or non-vesting condition, which are treated as vested irrespective of whether or not the market condition or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

## 2.19 Employee benefits (continued)

## (b) Employee share-based payment (continued)

Where the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified. In addition, an expense is recognised for any modification which increases the total fair value of the share-based payment arrangement, or is otherwise beneficial to the employee as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. However, if a new award is substituted for the cancelled award, and designated as a replacement award on the date that it is granted, the cancelled and new award is treated as if it was a modification of the original award, as described in the previous paragraph.

## (c) Employee leave entitlement

Employee entitlements to annual leave are recognized as a liability when they are accrued to the employees. The undiscounted liability for leave expected to be settled wholly before twelve months after the end of the reporting period is recognised for services rendered by employees up to the end of the reporting period. The liability for leave expected to be settled beyond twelve months from the end of the reporting period is determined using the projected until credit method. The net total of service costs, net interest on the liability and remeasurement of the liability are recognized in profit or loss.

## 2.20 Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is made. Revenue is measured at the fair value of consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duty. The Group assesses its revenue arrangements to determine if it is acting as principal or agent. The following specific recognition criteria must also be met before revenue is recognised:

## (a) Sale of goods

Revenue from sale of goods is recognised upon the transfer of significant risk and rewards of ownership of the goods to the customer, usually on delivery of goods. Revenue is not recognised to the extent where there are significant uncertainties regarding recovery of the consideration due, associated costs or the possible return of goods.

## (b) Interest income

Interest income is recognised using the effective interest method.

31 December 2013

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### 2.21 Taxes

#### (a) Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the end of the reporting period, in the countries where the Group operates and generates taxable income.

Current income taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

## (b) Deferred tax

Deferred tax is provided using the liability method on temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all temporary differences, except:

- Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- In respect of taxable temporary differences associated with investments in subsidiaries, associates
  and interests in joint ventures, where the timing of the reversal of the temporary differences can be
  controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised except:

- Where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

#### 2.21 Taxes (continued)

## (b) Deferred tax (continued)

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the end of each reporting period.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity and deferred tax arising from a business combination is adjusted against goodwill on acquisition.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Tax benefits acquired as part of a business combination, but not satisfying the criteria for separate recognition at that date, would be recognised subsequently if new information about facts and circumstances changed. The adjustment would either be treated as a reduction to goodwill (as long as it does not exceed goodwill) if it incurred during the measurement period or in profit or loss.

## (c) Sales tax

Revenues, expenses and assets are recognised net of the amount of sales tax except:

- Where the sales tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the sales tax is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- Receivables and payables that are stated with the amount of sales tax included.

The net amount of sales tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

31 December 2013

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## 2.22 Segment reporting

For management purposes, the Group is organised into operating segments based on their products and services which are independently managed by the respective segment managers responsible for the performance of the respective segments under their charge. The segment managers report directly to the management of the Company who regularly review the segment results in order to allocate resources to the segments and to assess the segment performance. Additional disclosures on each of these segments are shown in Note 24, including the factors used to identify the reportable segments and the measurement basis of segment information.

#### 2.23 Share capital and share issue expenses

Proceeds from issuance of ordinary shares are recognised as share capital in equity. Incremental costs directly attributable to the issuance of ordinary shares are deducted against share capital.

## 2.24 Contingencies

A contingent liability is:

- a possible obligation that arises from past events and whose existence will be confirmed only by the
  occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the
  Group; or
- (b) a present obligation that arises from past events but is not recognised because:
  - (i) It is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
  - (ii) The amount of the obligation cannot be measured with sufficient reliability.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group.

Contingent liabilities and assets are not recognised on the balance sheet of the Group, except for contingent liabilities assumed in a business combination that are present obligations and which the fair values can be reliably determined.

## 2.25 Related parties

A related party is defined as follows:

- (a) A person or a close member of that person's family is related to the Group and Company if that person:
  - (i) Has control or joint control over the Company;
  - (ii) Has significant influence over the Company; or
  - (iii) Is a member of the key management personnel of the Group or Company or of a parent of the Company.

#### 2.25 Related parties (continued)

- An entity is related to the Group and the Company if any of the following conditions applies: (b)
  - (i) The entity and the Company are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
  - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
  - (iii) Both entities are joint ventures of the same third party.
  - One entity is a joint venture of a third entity and the other entity is an associate of the third entity. (iv)
  - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Company or an entity related to the Company. If the Company is itself such a plan, the sponsoring employers are also related to the Company;
  - The entity is controlled or jointly controlled by a person identified in (a); (vi)
  - A person identified in (a) (i) has significant influence over the entity or is a member of the key (vii) management personnel of the entity (or of a parent of the entity).

#### 3. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of the Group's consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the end of each reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in the future periods.

#### 3.1 Judgements made in applying accounting policies

In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect on the amounts recognised in the consolidated financial statements:

#### (a) Income taxes

Significant judgement is involved in determining the Group-wide provision for income taxes. There are certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities/(assets) for expected tax issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recognised, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

The carrying amount of the Group's income tax payables, deferred tax assets and deferred tax liability at 31 December 2013 are as disclosed in Note 6 and Note 12 respectively.

31 December 2013

#### 3. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS (CONTINUED)

## Judgements made in applying accounting policies (continued)

#### Revenue recognition/warranty (b)

The Group recognises revenue arising from sale of wire, cable and related products and most sales arrangements require the retention of a certain percentage of the total contracted sum by the customers until the expiry of the warranty period.

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. Significant assumptions are required to estimate the recoverability of retention sums and the additional costs required to fulfil the warranty obligations by the Group. The estimates are made based on past experiences and warranty costs are provided, where necessary. The carrying amounts of the retention sums for the various financial years have been disclosed in Note 14 to the consolidated financial statements.

#### (c) **Determination of functional currency**

The Group measures foreign currency transactions in the respective functional currencies of the Company and its subsidiaries. In determining the functional currencies of the entities in the Group, judgment is required to determine the currency that mainly influences sales prices for goods and services and of the country whose competitive forces and regulations mainly determines the sales prices of its goods and services. The functional currencies of the entities in the Group are determined based on management's assessment of the economic environment in which the entities operate and the entities' process of determining sales prices.

#### 3.2 Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of each reporting period are discussed below. The Group based its assumptions and estimates on parameters available when the financial statements was prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

#### (a) Depreciation of property, plant and equipment

Property, plant and equipment are depreciated on a straight-line basis over their estimated useful lives. Management estimates the useful lives of these property, plant and equipment to be within 5 to 20 years. The carrying amount of the Group's property, plant and equipment as at 31 December 2013 was RMB570,437,000 (2012: RMB526,879,000).

Changes in the expected level of usage could impact the economic useful lives and the residual values of these assets, therefore future depreciation charges could be revised.

## 3. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS (CONTINUED)

## 3.2 Key sources of estimation uncertainty (continued)

#### (b) Employee share-based payment

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the employee share awards at the date at which they are granted. Estimating the fair value of such awards requires determining the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determining the most appropriate inputs to the valuation model including expected life of the award, volatility and dividend yield. The assumptions and model used are disclosed in Note 23.

## (b) Impairment of loans and receivables

The Group assess at the end of each reporting period whether there is any objective evidence that a financial asset is impaired. To determine whether there is objective evidence of impairment, the Group considers factors such as the probability of insolvency or significant financial difficulties of the debtor and default or significant delay in payments.

Where there is objective evidence of impairment, the amount and timing of future cash flows are estimated based on historical loss experience for assets with similar credit risk characteristics. The carrying amount of the Group's loans and receivables at the end of the reporting period is disclosed in Note 14 to the financial statements. The Group's allowance for doubtful debts as at 31 December 2013 is also disclosed in Note 14.

On 22 February 2008, the State Administration of Taxation of China issued a circular Caishui [2008] No. 001, which states that distribution of dividends after 1 January from pre-2008 profits will be exempt from withholding tax on distribution to foreign investors. As a result, there should be no deferred tax liabilities arising from undistributed profits of the Company's PRC subsidiaries accumulated up till 31 December 2007. Provision for deferred tax liabilities, however, would be required to the extent on profits accumulated from 1 January 2008 onwards.

#### Unrecognised temporary differences relating to investments in subsidiaries:

As at 31 December 2013 and 31 December 2012, no deferred tax liability has been recognised for withholding tax that would be payable on certain undistributed earnings of the PRC subsidiaries as the Group has determined that portion of the undistributed earnings of its PRC subsidiaries will not be distributed in the foreseeable future. Such temporary difference for which no deferred tax has been recognised aggregate to approximately RMB431,833,000 (2012: RMB356,054,000) and the deferred tax liability is estimated at approximately RMB21,592,000 (2012: RMB17,803,000).

#### TRADE AND OTHER RECEIVABLES (CONTINUED)

#### Trade receivables

Trade receivables are non-interest bearing and are generally on 7 to 90 days' terms. They are recognised at their original invoice amounts which represent their fair values on initial recognition.

As at 31 December 2013, retention sums included in trade receivables amounted to RMB118,826,000 (2012: RMB104,374,000).

#### Bills of exchange and promissory notes

These receivables are non-interest bearing and are generally transferred to pay off trade creditors.

#### Refundable deposits

Refundable deposits include tender deposits the Group has placed with potential customers or agents engaged as middle persons to bid in upcoming projects. These deposits are refunded once the tendering is over.

#### Amount due from a subsidiary

Amount due from a subsidiary is unsecured, non-interest bearing and is repayable upon demand.

#### (a) Credit risk by business segments

The Incentive Shares Transfer Agreement was signed and accepted by the officers on 1 January 2010.

31 December 2013

#### 23. EMPLOYEE BENEFITS EXPENSE (CONTINUED)

Pursuant to the Incentive Shares Transfer Agreement, in consideration of the transfer of the Incentive Shares to the officers, the officers shall:

- hold his or her current appointment in the Group or and such other appointments or positions in the Group as the Directors may deem advisable from time to time up to and including 31 December 2012;
- (ii) not dispose of or transfer or enter into any agreement that will directly or indirectly constitute or will be deemed as a disposal of any part of the Incentive Shares before 31 December 2012; and
- (iii) transfer the Incentive Shares back to the shareholder for nil consideration unless otherwise agreed by the shareholder at its sole discretion in the event that they terminate their employment with the Group for any reason whatsoever before 31 December 2012.

The fair value of the Incentive Shares amounting to SGD 4.7 million (equivalent to RMB22.7 million) was estimated by an external valuer using the Black-Scholes model, taking into account the terms and conditions upon which the Incentive Shares were granted.

The weighted average fair value of the Incentive Shares as at grant date was SGD 0.27 (equivalent to RMB1.31). The inputs to the model used are as shown below:

Share price as of valuation date	0.41
Strike price on the incentive share	0.41

The Incentive Shares were vested in the financial year ended 31 December 2012.

The write-back recognised for the Incentive Shares for the Group for the financial year ended 31 December 2012 amounted to RMB2.5 million.

#### 24. SEGMENT REPORTING

For management purposes, the Group is organised into business units based on its products as follows:

- (a) The wire and cable products segment manufactures wires, power cables, control cables, aerial cables, rubber cables and special cables. The wire and cable products are widely used in power generation plants, power transmission and distribution grids, coal mining and shipping industries, transportation networks, infrastructure and real estate projects, various electrical equipment and devices for industrial and household uses.
- (b) The metal rods and plastic cable materials segment manufactures copper and aluminium rods, plastic cable materials such as insulating materials, sheath materials and other auxiliary materials and sells to the wires and cables manufacturers.

Except as indicated above, no operating segments have been aggregated to form the above reportable operating segments.

#### 24. SEGMENT REPORTING (CONTINUED)

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss which in certain respects, as explained in the table below, is measured differently from operating profit or loss in the consolidated financial statements. The Group financing (including finance costs) and income taxes are managed on a group basis and are not allocated to operating segments.

Transfer prices between operating segments are on an arm's length basis in a manner similar to transactions with third parties.

#### Geographical information

The geographical segment reporting format is not presented as the Group mainly operates in one geographical segment. 99.4% (2012: 99.8%) of sales are transacted in the PRC which provide the Group with similar risks and returns. For this reason, the management and the directors are of the opinion that the Group only has one geographical segment.

#### Information about a major customer

Revenue from one major customer amounted to RMB422,961,000 (2012: RMB243,550,000) arising from sales by the wires and cables segment.

#### 25. COMMITMENTS

#### (a) Operating lease commitments - as lessee

In addition to the land use rights disclosed in Note 10, the Group has entered into commercial leases on premises. These operating leases are for a tenure of between 1 to 3 years (2012: 3 months to 3 years). Certain leases include options to renew the leases after expiry of the initial tenure. Lease payments under these leases are usually fixed for the entire initial tenure. There are no restrictions placed upon the lessee by entering into these leases.

Minimum lease payments, including amortisation of land use rights recognised as an expense in profit or loss for the financial year ended 31 December 2013 amounted to RMB4,683,000 (2012: RMB3,767,000).

#### 25. COMMITMENTS (CONTINUED)

#### 27. CAPITAL MANAGEMENT

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximise shareholder value.

The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the financial year ended 31 December 2013.

As disclosed in Note 21, the subsidiaries of the Group are required by the Foreign Enterprise Law of the PRC to contribute to and maintain a non-distributable statutory reserve fund whose utilisation is subject to approval by the relevant PRC authorities. This externally imposed capital requirement has been complied with by the subsidiaries for the financial years ended 31 December 2013 and 2012.

The Group monitors capital using a gearing ratio, which is total loans and borrowings less cash and cash equivalents divided by total capital. Total capital includes equity attributable to equity holders of the Company less the above mentioned restricted statutory reserve fund.

	Group

#### 28. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group is exposed to financial risks arising from its operations and the use of financial instruments. The key financial risks include credit risk, liquidity risk, interest rate risk and foreign currency risk. The board of directors reviews and agrees policies and procedures for the management of these risks, which are executed by the management. It is, and has been throughout the current period and previous financial years, the Group's policy that no derivatives shall be undertaken.

The following sections provide details regarding the Group's exposure to the above-mentioned financial risks and the objectives, policies and processes for the management of these risks.

31 December 2013

#### 28. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

#### (a) Credit risk

Credit risk is the risk of loss that may arise on outstanding financial instruments should a counterparty default on its obligations. The Group's and the Company's exposure to credit risk arises primarily from trade and other receivables. For other financial assets (including cash and cash equivalents), the Group minimises credit risk by dealing exclusively with high credit rating counterparties.

The Group's objective is to seek continual revenue growth while minimising losses incurred due to increased credit risk exposure. The Group trades only with recognised and creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis with the result that the Group's exposure to bad debts is not significant.

#### Exposure to credit risk

At the balance sheet date, the Group's and the Company's maximum exposure to credit risk is represented by the carrying amount of each class of financial assets recognised in the balance sheets.

Information regarding credit enhancements for trade and other receivables is disclosed in Note 14.

Credit risk concentration profile

The Group determines concentrations of credit risk by monitoring the industry sector profile of its trade receivables on an ongoing basis. The credit risk concentration profile of the Group's trade receivables at the balance sheet date is as follows:

	Group				
	20	2013		2012	
	RMB'000	% of total	RMB'000	% of total	
State-owned companies	700,738	68	494,818	74	
Non-state owned companies	328,519	32	175,663	26	
	1,029,257	100	670,481	100	

#### 28. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

#### (a) Credit risk (continued)

#### Exposure to credit risk (continued)

The Group has approximately 41% (2012: 37%) of trade receivables due from 5 major customers located in the PRC as at 31 December 2013.

Financial assets that are neither past due nor impaired

Trade and other receivables that are neither past due nor impaired are creditworthy debtors with good payment record with the Group. Cash and cash equivalents that are neither past due nor impaired are placed with or entered into with reputable financial institutions with high credit ratings and no history of default.

Financial assets that are either past due or impaired

Information regarding financial assets that are either past due or impaired is disclosed in Note 14 (Trade and other receivables).

#### (b) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting financial obligations due to shortage of funds. The Group's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of stand-by credit facilities.

The Group's liquidity risk management policy is that to maintain sufficient liquid financial assets and stand-by credit facilities with different banks and business alliances.

The table below summarises the maturity profile of the Group and Company's financial assets and liabilities at the balance sheet date based on contractual undiscounted repayment obligations:

#### (c) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Group's financial instruments will fluctuate because of changes in market interest rates. The Group's exposure to interest rate risk arises primarily from loans and borrowings. All of the Group's financial assets and liabilities at floating rates are contractually re-priced at intervals of less than 12 months from the balance sheet date for the financial year.

The Group's policy is to manage interest costs using a mix of fixed and floating rate debts taking into consideration the funding requirements of the Group.

#### Sensitivity analysis for interest rate risk

At 31 December 2013, if interest rates had been 100 basis points lower/higher for the financial year with all other variables held constant, the Group's profit net of tax would have been RMB3,753,000 (2012: RMB2,963,000) higher/lower, arising mainly as a result of lower/higher interest expense on floating rate loans and borrowings.

Currently, the PRC government imposes control over foreign currencies. RMB, the official currency in China, is not freely convertible. Enterprises operating in the PRC can enter into exchange transactions through the People's Bank of China or other authorised financial institutions.

Exchanges of RMB for foreign currency must be arranged through the People's Bank of China or other authorised financial institutions. Approval for exchanges at the People's Bank of China or other authorised financial institutions in granted to enterprises in the PRC for valid reasons such as purchase of imported materials and remittance of earnings. While conversion of RMB into foreign currencies can generally be effected at the People's Bank of China or other authorised financial institutions, there is no guarantee that it can be effected at all times.

#### Sensitivity analysis for foreign currency risk

The following table demonstrates the sensitivity of the Group's profit before tax to a reasonably possible change in the SGD, USD and NTD exchange rates against the respective functional currencies of the Group entities, with all other variables held constant.

#### 29. FAIR VALUE OF FINANCIAL INSTRUMENTS

The fair value of a financial instrument is the amount at which the instrument could be exchanged or settled between knowledgeable and willing parties in an arm's length transaction, other than in a forced or liquidation sale.

#### Financial instruments whose carrying amount approximates fair value

Management has determined that the carrying amounts of trade and other receivables (current), advances to suppliers, cash and cash equivalents, trade and other payables, accrued operating expenses and loans and borrowings based on their notional amounts, reasonably approximate their fair values due to their short-term nature or are re-priced frequently.

The fair values of the non-current portion of loans and borrowings are reasonable approximation of fair values either due to the relatively short term nature or that they are floating rate instruments that are re-priced to market interest rates on or near balance sheet date.

#### Fair value of corporate bonds

The Group's long-term debt is recorded at carrying value on the Group's consolidated balance sheet. The carrying amounts and fair value of the Company's corporate bonds as of 31 December 2013 and 31 December 2012 were as follows:

	2013	3	2012	
	Carrying		Carrying	
Group	amount	Fair value	amount	Fair value
	RMB'000	RMB'000	RMB'000	RMB'000
Corporate bonds	80,000	80,000	80,000	80,000

The fair value of long-term debt is based on quoted market prices for these instruments that are publicly traded or estimated based on the income approach valuation technique for non-publicly traded debt using current interest rates for similar instruments with equivalent credit quality.

#### 30. AUTHORISATION OF CONSOLIDATED FINANCIAL STATEMENTS

The consolidated financial statements for the financial year ended 31 December 2013 was authorised for issue in accordance with a resolution of the directors on 31 March 2014.

  - (ii) the date on which the share buybacks are carried out to the full extent mandated; or
  - (iii) the date on which the authority contained in the Share Buyback Mandate is varied or revoked;
- (c) in this Resolution:
  - "Prescribed Limit" means 10% of the issued ordinary share capital of the Company as at the date of passing of this Resolution unless the Company has effected a reduction of the share capital of the Company in accordance with the applicable provisions of the Act, at any time during the Relevant Period, in which event the issued ordinary share capital of the Company shall be taken to be the amount of the issued ordinary share capital of the Company as altered (excluding any treasury shares that may be held by the Company from time to time);
  - "Relevant Period" means the period commencing from the date on which the last AGM was held and required by law to be held and expiring on the date the next AGM is held or is required by law to be held, whichever is the earlier, after the date of this Resolution; and

## **Notice of Annual General Meeting**

"Maximum Price" in relation to a Share to be purchased, means an amount (excluding brokerage, stamp duties, applicable goods and services tax and other related expenses) not exceeding:

- in the case of a Market Purchase: 105% of the Average Closing Price;
- in the case of an Off-Market Purchase: 120% of the Average Closing Price., where:

"Average Closing Price" means the average of the closing market prices of a Share over the last five market days, on which transactions in the Shares were recorded, preceding the day of the Market Purchase or the date on which the Company announces an Off-Market Purchase Offer stating the purchase price and the relevant terms of the equal access scheme, and deemed to be adjusted for any corporate action that occurs after the relevant 5-day period; and

(d) the Directors of the Company be and are hereby authorised to complete and do all such acts and things (including executing such documents as may be required) as they may consider expedient or necessary to give effect to the transactions contemplated by this Resolution.

(Resolution 8)

BY ORDER OF THE BOARD

Low Wai Cheong Lim Heng Chong Benny Joint Company Secretaries

Singapore, 8 April 2014

#### **Explanatory Notes:**

- (i) \*Mr. Chen Timothy Teck Leng @ Chen Teck Leng will, upon re-election as Director of the Company, remain as an Independent Director, Chairman of the Remuneration Committee, and a member of the Audit Committee, the Nominating Committee and the Risk Management Committee, and will be considered independent for the purposes of Rule 704(8) of the Listing Manual of the SGX-ST. There are no relationships (including family relationships) between Mr. Chen Timothy Teck Leng @ Chen Teck Leng and the other Directors, the Company or its 10% shareholders.
  - \*Mr. Chen Hsin Yuan will, upon re-election as Director of the Company, remain as an Independent Director and a member of the Risk Management Committee, and will be considered independent for the purposes of Rule 704(8) of the Listing Manual of the SGX-ST. There are no relationships (including family relationships) between Mr. Chen Hsin Yuan and the other Directors, the Company or its 10% shareholders.
- (ii) \*Mr. Chan Cheng Hai will, upon re-election as Director of the Company, remain as an Independent Director, a member of the Audit Committee, the Remuneration Committee and the Risk Management Committee, and will be considered independent for the purposes of Rule 704(8) of the Listing Manual of the SGX-ST. There are no relationships (including family relationships) between Mr. Chan Cheng Hai and the other Directors, the Company or its 10% shareholders.

(iii) The Ordinary Resolution 7 above, if passed, will empower the Directors of the Company, effective until the conclusion of the next annual general meeting of the Company, or the date by which the next annual general meeting of the Company is required by law to be held or such authority is varied or revoked by the Company in a general meeting, whichever is the earlier, to issue shares, make or grant Instruments convertible into shares and to issue shares pursuant to such Instruments, up to a number not exceeding, in total, fifty per cent. (50%) of the total number of issued shares (excluding treasury shares) in the capital of the Company, of which up to twenty per cent. (20%) may be issued other than on a pro-rata basis to existing shareholders of the Company.

For determining the aggregate number of shares that may be issued, the total number of issued shares (excluding treasury shares) will be calculated based on the total number of issued shares (excluding treasury shares) in the capital of the Company at the time this Ordinary Resolution is passed after adjusting for new shares arising from the conversion or exercise of any convertible securities or share options or vesting of share awards which are outstanding or subsisting at the time when this Ordinary Resolution is passed and any subsequent bonus issue, consolidation or subdivision of shares.

- (iv) The Ordinary Resolution 8 above, if passed, will renew the Share Buyback Mandate which authorises the Directors of the Company from the date of this Annual General Meeting until the date of next annual general meeting of the Company, or the date by which the next annual general meeting of the Company is required by law to be held or such authority is varied or revoked by the Company in a general meeting, whichever is the earlier, to purchase up to 10% of the total number of issued ordinary shares in the capital of the Company. Detailed information on the Renewal of the Share Buyback Mandate is set out in the Appendix to this Notice of Annual General Meeting dated 8 April 2014.
- \* Details of the Director's current directorships in other listed companies and other principal commitments are set out in the Report of Corporate Governance in the Annual Report.

#### Notes: -

- (1) A member entitled to attend and vote at the Annual General Meeting is entitled to appoint not more than two proxies to attend and vote in his/her stead. A proxy need not be a member of the Company.
- (2) If the appointor is a corporation, the instrument appointing a proxy must be executed under seal or the hand of its duly authorised officer or attorney.
- (3) The instrument appointing a proxy must be deposited at the registered office of the Company at 31 Bukit Batok Crescent, #01-10 The Splendour, Singapore 658070, not less than forty-eight (48) hours before the time fixed for holding the Annual General Meeting.
