

## **BOUSTEAD PROJECTS AWARDED RECORD DESIGN-AND-BUILD CONTRACT IN SINGAPORE**

**SINGAPORE, 18 JULY 2022**

Boustead Projects Limited (“Boustead Projects”) – a leading provider of innovative eco-sustainable real estate solutions – is pleased to announce that its wholly-owned Engineering & Construction (“E&C”) subsidiary, Boustead Projects E&C Pte Ltd (“Boustead Projects E&C”), has been awarded a record contract valued at approximately S\$300 million by a Fortune 500 corporation to design and build an integrated manufacturing, logistics and office facility in Singapore.

The project involves the design-and-build of a manufacturing facility, integrated with a logistics centre, ancillary office and basement carpark, and is anticipated to be completed in calendar year 2024. The facility is also being built to satisfy the requirements for Green Mark Platinum, the highest eco-sustainable rating for a building under the Building & Construction Authority’s revised Green Mark Certification Scheme 2021.

Mr Thomas Chu, Managing Director of Boustead Projects said, “We are extremely honoured to be awarded this significant design-and-build contract by a Fortune 500 corporation, which is our largest project on record. This milestone project is also a positive sign that our E&C Business is regaining momentum amid an improving pandemic situation. Despite the size of this project, our depth of experience will help us to mitigate risks in relation to the uncertain market conditions that are associated with inflationary pressure and tight labour supply.”

The latest contract has boosted the Boustead Projects Group’s order backlog to S\$523 million (unrecognised project revenue remaining at the end of FY2022 plus the total value of new orders secured since then).

The above contract is expected to have a positive material impact on the Boustead Projects Group’s profitability and earnings per share, collectively in the financial years ending 31 March 2023 (“FY2023”) and 31 March 2024 (“FY2024”). However, it is not expected to have a material impact on the net tangible asset value per share for FY2023 and FY2024.
