1(a)(ii) Explanatory Notes to Consolidated Statement of Profit or Loss (cont'd)

Comments on Major Consolidated Statement of Profit or Loss and Consolidated Statement of Comprehensive Income Variances

- (a) Net interest income for both 3rd Quarter 2016 ("3Q 2016") and 9 months of 2016 ("9M 2016") declined mainly due to lower loans interest on lower average loan assets portfolio. Loan assets totaling \$25 million were deemed uncollectable and were written off during the period. At the same time, following our initiative to improve our portfolio quality, we had repayment of loans totaling \$19.5 million year to date. As a consequence, our borrowings declined resulting in lower interest expense.
- (b) Non-interest income improved for both 3Q 2016 and 9M 2016 due to higher net earned premium revenue and higher factoring fees. This was mainly due to the higher business volume generated during 3Q 2016 and 9M 2016.
- (c) The higher investment income mainly fair value gain on investments also contributed to the higher non-interest income.
- (d) Operating expenses for both 3Q 2016 and 9M 2016 were generally controlled except for commission expenses which were higher. This represents commission paid to brokers for generating a higher volume of general insurance business for our subsidiary, ECICS Limited.
- (e) The higher net claims incurred for both 3Q 2016 and 9M 2016 was mainly due to additional provision for claims for motor and other general insurance businesses.
- (f) Allowances for loan losses comprise 3 categories: collective provision, specific provision and specific provision - interest accrual on non-performing accounts.

The Group has since implemented a prudent provisioning policy such that if payments are in arrears for 3, 6 and 12 months, a minimum of 10%, 50% and 100% specific provisions will be made irrespective of whether it is deemed collectable. As a consequence, for 3Q 2016, specific new provisions of \$3 million were made.

- (g) The increase in the net change in fair value of available-for-sale financial assets for 3Q 2016 was mainly due to the mark-to-market gain on property-related projects and other equity securities.
- (h) For 9 months of 2015, there was a reclassification from other comprehensive income - net change in fair value of available-for-sale financial assets to realised gain on partial redemption of convertible loan.
- (i) The foreign currency translation differences arose from the translation of financial statements of foreign operations whose functional currencies were different from that of the Group's presentation currency. The translation gain for 3Q 2016 and 9M 2016 was mainly due to the strengthening of Indonesian Rupiah and Thai Baht for translation against the Singapore Dollar as at 30 June 2016 and 31 December 2015 respectively.

Comments on Major Statements of Financial Position Variances

- (a) As reported in last quarter, the increase in investment property was due to the new office unit purchased by our Thailand subsidiary for future expansion.
- (b) The increase in investment in subsidiaries by \$12.2 million was due to the Company recapitalising the loans to its Indonesian and Malaysian subsidiaries in June 2016 and July 2016 respectively.
- (c) The decrease in other investments under non-current assets at Group level was mainly due to the reclassification of held-to-maturity debt securities maturing within the next twelve months to current assets.
- (d) The decrease in loans, advances, hire purchase and leasing receivables under non-current assets of the Group and the Company was mainly due to reclassification of receivables maturing within the next twelve months to current assets - trade and other receivables.
- (e) The decrease in trade and other receivables under current assets of the Group and the Company was mainly due to higher repayment of existing loan portfolio and lower new loans drawdown.
- (f) The increase in other investments under current assets of the Group was mainly due to reclassification of held-to-maturity debt securities maturing within the next twelve months to current assets.
- (g) The derivative financial assets as at 31 December 2015 at Group level related mainly to the swap deal for intra-group loan to Malaysian subsidiary denominated in Singapore dollar.
- (h) The increase in the Group's and the Company's cash balances was mainly due to surplus funds from loan repayments and disposal of tradable securities.
- (i) The decrease in interest-bearing borrowings under non-current liabilities of the Group and the Company was mainly due to the reclassification of interest-bearing borrowings maturing within the next twelve months to current liabilities. This resulted in a negative working capital at Company level of \$15.3 million.

The Group's overall interest-bearing borrowings decrease from \$233.9 million as at 31 December 2015 to \$222.0 million as at 30 September 2016 mainly due to utilization of surplus funds for repayment of bank borrowings.

6 Review of Group Performance

3rd Quarter 2016 (“3Q 2016”) versus 3rd Quarter 2015 (“3Q 2015”)

The Group's operating income was 30% higher at \$7.9 million compared to 3Q 2015. This reflects a turnaround in investment income and the Company's ability to generate new businesses. Net loss was higher at \$3.6 million, largely due to a more prudent provisioning policy introduced by the Group this year.

9 months 2016 (“9M 2016”) versus 9 months 2015 (“9M 2015”)

The Group's operating income for 9M 2016 of \$24.5 million was 6% higher compared to \$23.1 million for 9M 2015 attributable to higher net earned premium revenue and non-interest income. After taking into account the higher net claims from our motor and other general insurance businesses and higher specific provision - interest accrual on non performing accounts, the Group's net loss was 64% higher at \$2.9 million compared to \$1.8 million in 9M 2015. Net loss attributable to shareholders after non-controlling interests was 47% higher at \$3.9 million.

The Group's gross loan assets including factoring receivables outstanding were \$295.3 million as at 30 September 2016. This was a decrease 13% when compared against the base of \$338.4 million as at 30 September 2015. The lower loan portfolio was due to the rebalancing of the portfolio to improve our asset quality and the write-off of \$25 million non-performing accounts in 2016.

7 Variance from Prospect Statement

The current announced results are in line with the profit guidance announcement released on 20 September 2016.

8 Prospects

As the outlook for the world economy remains gloomy, the countries we operate in face a general economic slowdown and considerable financial market volatility. The overall outlook for the Asia Pacific region is hurt by various factors including China's slowdown, uncertainties in world financial markets and low commodity prices.

Despite the gloomy world outlook, we remain positive about the future of the Group. We have already strengthened our Risk Management and streamlined our businesses to focus on our core competence, i.e. factoring and leasing. We have also rebalanced our staffing to maximize efficiency.

After recently completing our Rights Issue, our financial position has strengthened substantially. We are well positioned to move forward and to take advantage of any business opportunities that may arise.
