Announcement of Settlement of Tender Offer for Its 7.875% Bonds Due 2016

Beijing, June 30, 2014—21Vianet Group, Inc. (NASDAQ: VNET) (“**21Vianet**” or the “**Company**”), the largest carrier-neutral Internet data center services provider in China, today announced the completion of the Company’s previously announced invitation to eligible holders of the Bonds (“**Bondholders**”) to tender their Bonds for purchase for cash (the “**Offer**”) upon the terms and subject to the conditions set forth in a tender offer memorandum dated June 5, 2014 (the “**Tender Offer Memorandum**”). Reference is made to the announcements dated June 5, 2014 and June 27, 2014 relating to the Offer and the results and acceptance of the Offer, respectively.

Settlement of the Offer

The Offer was completed on the settlement date, June 30, 2014 (the “**Settlement Date**”). Accordingly, the transactions contemplated in the Tender Offer Memorandum have been consummated. The aggregate principal amount of Bonds accepted for tender by the Company on the Settlement Date was RMB735,700,000. The Company paid approximately RMB775,846,970 in cash, in exchange for the tendered Bonds.

Barclays Bank PLC acted as dealer manager for the Offer. The tender agent for the Offer was Citicorp International Limited.

This press release shall not constitute an offer to sell or a solicitation of an offer to purchase any of the Bonds, and shall not constitute an offer, solicitation or sale of the Bonds in any state or jurisdiction in which such an offer, solicitation or sale would be unlawful.

About 21Vianet

21Vianet Group, Inc. is the largest carrier-neutral internet data center services provider in China. 21Vianet provides hosting and related services, managed network services, cloud infrastructure services, and content delivery network services, improving the reliability, security and speed of its customers' internet infrastructure. Customers may locate their servers and networking equipment in 21Vianet's data centers and connect to China's internet backbone through 21Vianet's extensive fiber optic network. In addition, 21Vianet's proprietary smart routing technology enables customers' data to be delivered across the internet in a faster and more reliable manner. 21Vianet operates in 44 cities throughout China, servicing a diversified and loyal base of several thousand customers that range from Fortune 500 conglomerates, government entities, blue-chip enterprises to small- and mid-sized business enterprises.

This release also does not constitute an offer to purchase, a solicitation of an offer to purchase, or a solicitation of tenders with respect to any Bonds.
